

for the move of your spirit and thank you for the answers you give to the questions in our hearts and this morning I pray that your word brings Comfort to our soul brings peace to our hearts brings joy to our lives in the name of Jesus Lord we declare that the things that ought to be said in this service will be said the things that ought to be done will be done to the praise and glory of your name amen God bless you have your seats and U uh Second Timothy chapter 3 Paul writing to Timothy said something in verse 15 Timothy from a child that has known the holy scriptures which is able to make thee wise unto salvation through faith which is in Christ the scriptures is able to make you wise unto salvation but in verse 16 he said and all scripture is given by inspiration of God and it is profitable for Doctrine the scriptures is profitable for Doctrine for Repro for correction for instruction in righteousness that the man of God may be thally fallish onto every good work but an emphasis in that verse 16 it says the scriptures is given by the inspiration of God the scriptures is 100% God 100% man 100% God that the revelation of the scriptures is about God and it is of god it is 100% man in that men wrote it God doesn't Inspire himself he inspired men so the wisdom the coage the language the style of the men the world view of the authors will be seen in what they wrote that scripture is profitable for Doctrine the word Doctrine is is the word for teaching the word Doctrine so we get our teachings our explanations from the scriptures the scriptures is profitable for Doctrine so from the Bible we get what we teach what is the uh understanding of God's word what is the understanding of goel so from scriptures we get Doctrine says provable for for Doctrine then it says for reproof the word reproof there is the same word in Hebrews 11:1 for evidence so the scriptures gives us evidence concerning what we believe Repro the word elos the scriptures give us reproof read and prove to prove again so the scripture gives us evidence so I don't just believe anything I don't just say this is how life is supposed to be this is how things are supposed to be I get my evidence concerning life concerning God concerning things from the scriptures amen the scripture is the evidence that I live my life with the scripture is profitable for Repro then it says for correction the word correction is not condemnation the word correction when the teacher writes on the board correction nobody gets scared why because they are going to see the right answer to the questions that were asked before so correction in the Greek is just eposis to set things right in the mind in other words right thinking so the scriptures set our mind AR right to think properly and to live properly so correction we get our Corrections from the scriptures so the scriptures can correct us we use the Bible to correct lives opinions beliefs conduct and all of such then he says instruction in righteousness the word instruction is the same word used for the Pediatric word in the hospital pidea in the Greek the rearing of a child the training of a child so God's word is able to bring us to maturity and it's not instructions to be righteous is instructions in righteousness we are instructed in righteousness because we are righteous so the training the training in righteousness hallelujah amen so we get our Doctrine from the scriptures we get our evidence our Repro from the scripture Our correction from the scriptures so that means the Bible is sufficient enough to answer the questions of our hearts and this morning we're studying around the

many questions that our hearts many times have many questions our hearts many times have and this morning I'm teaching on answering answering my soul dis quietness answering my soul this quietness Psalms 42 been on the Psalms for some time so why not just stay there did Psalm 74 verse 2 now let's do Psalm 42 Psalm 42 I'll wait for you a bit Psalm 42 and we'll read the whole chapter Psalms 42 Psalms 42 I believe we are all there now 11 verses as the heart panted after the water Brooks as the day are Longs for as the heart h a r t as the day one translation says the antelope you get the idea of what they saying as the heart panted after the water Brook so panted my soul after thee Oh God my soul tested for God for the Living God When shall I come and appear before God so this is a a normal believer amen uh a normal believer who is hungry for God who is zilos for God and that should be you and I is that so then in verse three he starts the whole Ang and trouble that comes with life he says my soul verse three my tears have been my meat my tears have been my meat day and night why they continually say unto me where is thy God when I remember these things I pour out my soul in me for I for I had gone with the multitude I went with them to the house of God with a voice of joy and praise with the multitude that kept holy day why are thou cast down oh my soul and why are thou disquieted in me hope thou in God for I shall yet praise him for the help of his countenance oh my soul oh my God oh my God my soul is cast down Within Me therefore will I remember thee from the land of Jordan and of the Hemmit from the hill Mah deep Callet unto deep at the noise of thy water spout all thy waves and and thy Billows are gone over me yet the Lord will command his loving kindness in the daytime and in the night his song shall be with me and my prayer unto the god of my life I will say unto God my rock why hast thou forgotten me why go I mourning because of the oppressions of the enemy verse 10 as with a sword in my bones my enemies reproach me while they say daily unto me where is thy God verse 11 why art thou cast down oh my soul and why art thou disquieted within me hope thou in God for I will yet praise him what a text 11 verses and like I Tau in the message we taught last year on where is God in the silence and deal of you remember that teaching where is God in the silence and the delay often Time Life hits us very hard and we have many questions we can't have answers to in fact uh a week or so ago uh a couple called me they not in B City and and I love them so dearly but I couldn't give them an answer because they said they were believing God for something and I knew what they were believing God for and have also prayed with them because I know the process of what they are believing God for but they called me and said oh it failed and all of that and I could see the pain in their voice and I said to them ah is well we'll talk again and I said we talk let's talk again tomorrow I just don't know what to say either they didn't know what to say I didn't know what to say either and they called me again the next day and I just could not pick the call because I still don't know what to say and I still don't know what to say you know it's okay to not always know what to say you know some people know everything some people know everything to say know all the right words to use H maybe because they are still young and you it still comes with the arrogance of Youth when you leave a bit

longer and you have seen life a bit you don't you realize that you don't have all the answers to the questions you do not have all the answers to the questions that life bring you do not have all the answers and that's where you see the psalmist you see the writers of the scriptures show their humanity and they say oh where is God let the world not ask me where is my God doesn't mean that they are teaching you that that is what you should do but they are just being human they are reflecting and showing their vulnerabilities they are reflecting and showing that they are human they are going through issues storm and uh everybody goes through issues and uh people have as it were uh they put up a good smile put up a good face but people are hiding and dealing with things internally and such is the story of Life many times it's not every time but many times people go through issues have our challenges have our difficult times things are not working you hoped for something you didn't you didn't see what you hoped for and the psalmist also said that hope defied makes the heart sick there something you were hoping for you didn't see it come to pass or the same way you believed God you prayed you commanded and you didn't see it also and that has brought fun enough different philosophies where some person say things like the days of Miracle are over and all of those different views it all comes from all of those places maybe you prayed something did not happen and say oh maybe uh cational that's the theological name for such people they believe that many things have ceased the gifts of the Spirit have ceased the power of God's spirit all of these things because the cannon of scripture is complete the Bible is complete so uh all these things are coming it's all just a way of answering what people are going through amen so the psalmist we see in job we see in the Psalms we see in many portions in the scriptures in fact there is a book of the Bible that is called lamentation lamentation lamentation lamentation and so God obviously knows that people lament amen hallelujah in fact where the word became flesh John 1:14 the word became flesh and Tabernacle dwelt Among Us you know the emphasis John was speaking about Jesus Christ God manifest in flesh when God became Jesus God as a man walking the Earth as a man such is the mystery of godliness Paul says the mystery of godliness God in flesh I mean it's something to tr B to think about now when we saw God in flesh we saw him in John chapter 11 Weeping at the tomb of Lazarus such is his Humanity such is his Humanity we saw him weeping over Jerusalem oh Jerusalem oh Jerusalem how have long to cover you we see his Humanity Hebrews chapter 4 we know that we have a high priest we do not have a high priest that cannot be touched by the feelings of our infirmity so we have a high priest that can be touched with the feelings of our infirmity for as much as part of Flesh and Blood he took part of the same Hebrews 2:14 so we know we have a God who can empati with us because in Redemption we saw he became a man and because he took on not the nature of angels like Hebrews 2 said but he took on the nature of a man he knows what we are going through in fact the writer of Hebrew says he's able to sucker us so God knows what we are going through God knows the difficult times the issues the troubles that we go through he knows it if he doesn't know it in fact I go a bit further we have Matthew 27 Jesus repeating the very phrase of David my

God my God why have Thou forsaken me ELO El lat he's repeating the same words so you can tell that God obviously is not clueless over what we go through God as a man in fact we have him praying he says for my soul isely sorrowful unto death Matthew 26 you see he's he's under what we call The Garden of Gethsemane and he uses those words my soul is certainly sorrowful didn't say there's nothing like sorrow there's nothing like sorrow so we don't have a God who denies issues and circumstances amen we do not have a God who ignores denies the circumstances that we go through no look at Mark just to give you a bit of context to the things I am saying Mark 14 and verse 34 Mark 14 and verse 34 and he said unto them my soul is exceeding sorrowful unto death T here and watch so his soul was exceedingly sorrowful so he went to go and pray and even in that prayer you notice in the prayer it says ABA father all things are possible why is he praying as if he doesn't know how to pray again and such again is his Humanity showing us how we ought to pray how we ought to respond to life circumstances and issues AB father all things are possible unto thee take away this cup from me nevertheless not what I will but what thou will and verse 38 watch ye and pray Les he enter into temptation the spirit truly is ready but the flesh is weak so you see all of that context look at John chapter 12 the very same idea John CH 12 you now a good Bible student already knows that all of this is Matthew mark Luke and John the ending part that talks about the passion week AB all right so John 12 so John 12 27 now is my soul troubled and what shall I say father save me from this hour but for this cause came I into this uh for this cause came I unto this hour father glorify thy name so that means he was ultimately conscious of God's will there are things we go through in this earth now we know the whole story that suffering of Jesus is not everyday life suffering it was that he was going to be a the weight the Troubles of all Humanity die as the scapegoat as the die as the ransom for our soul die to redeem reconcile man back to God and reconcile the heavens and the Earth together deal with the separation issues so but Jesus reflect a lot of things to us cuz when you find yourself in that situation of lament where you are in a situation that you don't know what is happening what is happening realize that God knows what you are going through that even he saw went through that route I think that's one way to look at it in fact that route was how the word God saved that means there is always you come out of it better there's always a lesson to learn from all of that because that was that route where his soul was troubled and he kept going through all the things he went through uh explain that to we know that that's how he died for our sins the sufferings of the Christ and the glory that should follow so the sufferings of the Christ and the glory that should follow so we know something follows after but that's a good movie for some persons no glory follows after it's a a sequence of pain upon pain you know how dramas are acted movies uh script are written and we feel like oh that bad guy now later died for all thead him but many times we see that the bad guy often repents and everything goes well for him you notice how people say this person has been doing evil there's no way will not suffer in his life and we expect it and we hope and we and we trust that the person will suffer but life doesn't always work like that the person you were thinking

is not going to enjoy say that lady is very Wicked she has finished her life now she has plenty children she has money you thought she was going to marry a evil man because she was an evil lady in her things to her ear youthful age but you married the best of men and you are pained that again reveals the state of Our Own Heart why you are pained over that I don't know so because we have certain expectation this person ought to suffer like this this thing ought to go like this so all of these ramblings of Mind are simply to say that you are well acquainted with that narrative we see in Psalm 42 also in Psalm 43 also in Psalm 77 and all the different portions of the Psalms where we also taught in that Series where is God in the silence and delay so people go through a lot of issues all right you go through a lot of issues I go through a lot of issues in fact Jesus said let's read that text in John John 16 John 16 and verse uh 33 or 32 down behold an hour cometh year is now come ye shall be scattered every man to his own and shall leave me alone and yet I am not alone because the father is me then he says these things have I spoken unto you that in me you might have peace in the world ye shall have tribulation but be of good cheer I have overcome the world that means no believer should be surprised when we see life becoming tough when we see things not working the way we want it to the way we expect it to the way we planned for it to go or the way we commanded it to go we shouldn't be surprised so we call it it's just life amen in this world you would have tribulation but is there any hope at all is there any hope is there any comfort is there any answer is there any consolation or a miracle of A Sort over such a challenge and that's the reason for this teaching many times people have legitimate troubles leg legitimate uh uh not every problem is caused by the devil some problems are caused by us making wrong decisions and those wrong decisions have compounded and we're suffering the consequences of it many times the issues we go through are other people's wickedness reflected towards us or the mistakes of the people around us affecting us are you following so it's not everything that is is always oh I did what is bad in fact the idea of always believing because you're going through a trouble an issue you must have sinned The Book of Job should have answered that because job's friends kept repeating you must have sinned you must have done something wrong and job and the emphasis was job did not sin it's not sin that brought his problem don't always think that because people are going through certain trouble certain issues certain difficulties that it is because of sin no it's not always because of sin it's not always because of sin don't read the Bible in a very lazy manner no Psalm 44 Psalm 77 we see that when you read those which I can't read now and I won't read now you can read it when you get home you see that it's not always sin those the man listed a lot of things he was going through it's not sin it's not sin it's not sin it's not always sin now sin can be a reason why people go through issues but learn how Jesus answers questions sometimes he says unless you repent you will perish other times he said you think these people were the worst Sinners that died under the pool that died in silam you think they were the worst of Sinners the other time he said do not ask who sinned that this man was born blind there are certain things that are about the mystery of God certain things that are

about what God can do to reverse this situation so leave always trying to know the reason why is this thing happening why is it because we always want to fit everything into our finite brain we always want to fit everything to our finite mind and the same thing we do about God we try to bring God into our finite mind and we have carved God into our own image that this is how God is this is what God does this is all there is about God but a God that fits your finite brain is not worth serving God is bigger than our brains bigger than our minds bigger than all the world bigger than all the universe he made the worlds and all things there in so we must have a bigger concept of God Amen Hallelujah and once we do not have that bigger picture of God that is already a challenge that's already a challenge because we want to fit God like that that oh God no it has to be like this has to be like this why is he not like this we don't always have everything figured out like I said if you have God all figured out then your God is too small he must stretch far beyond that God must be Beyond this are I'm again just doing a quick recap from the uh message where is God in the silence and delay and we talked about that you don't have everything figured out and we gave many reasons why there could be a silence and a delay so you can add this message to that message in your series of messages that always give you hope and comfort amen uh but this morning the emphasis is that word he says oh my soul then he say why are thou cast down why are thou disquieted and um uh I want to take a different approach which is also similar to the approach we took in where it's going in silence and delay only that is an addition because of this message is prophetic is reflecting and answering the questions in everyone's heart as I got into the place of prayer uh the very first thing we ought to ask and I'll say seven things again just not the way I like to teach I don't like teaching in points because teaching that is deep and detail doesn't always have to be in point but just for the sake of practicability and relatability so that we can relate more our teach it in points seven things Seven Answers as it were that I'll give throughout this why did I say what I said earlier you know when you teach on a topic you teach many things so when you say I only have three things I only have 14 a limitation when there was an exhaustive communication amen and and Bible teaching notice when we teach core doctrinal subject we don't do the theory point seven ways because you can't bring 3.7 ways because we are saying so many things now the reason why I'm using the word seven not because it's the perfect number or any of such is uh so that even if we can't remember many things because it's not an exhaustive teaching we can remember these seven things were said are you following it's just a way teachers teach so sometimes you twitch things up a bit here and there all right are we good so Psalm 42 let's go back there Psalms 42 look at verse five look at verse 11 why are thou cast down oh my soul why are thou cast down oh my soul why art thou disquieted in me hope thou in God for I shall yet praise him for the help of his countenance verse 11 why thou cast down oh my soul and why are thou disquieted within me hope thou in God for I shall yet praise him who is the health of my countenance and my God why thou cast down so that means low reduced life has humbled you situations is bringing you down why thou cast down oh my soul and Why th disquieted

the word disquiet there is the word Hebrew word hamama h a m a h it means une ease it will describe anxiety worried discontent felt you're worried you're uneasy it's like your peace is taking away of a s but that word disquieted hamama the root of it deals with to M because the word is from the word whom to distract to Rous so the word disquieted h a m a h in the Hebrew it means to M to growl to row to be disquieted to be bothered troubled Disturbed it speaks of inner turmoil inner turmo t r o m o i l so many times the soul is dis quied within us we normon will growl like a bear Will Row there's inner turmo we are in that state where we are provoke into saying something or we start using words and phrases we don't like like where is my God God what are you doing s are you even see what I'm going through we repent of it we sing songs un questionable you are my God we say we question you oh Lord answer me answer me and you know we go through all of that phrase that is that oh my Soul the word Soul again do not give it the Plate's definition of Soul which is the popular definition of the Soul where we always are clamoring to be free from our body that is paganism uh soul is just the word life what shall profit a man to gain the and lose his soul the word soul is used there to explain the life of a man the word life and I've explained that that the word s o u l stop don't break it into Parts there because soul is used to expl the entirety of man then sometimes within the context which is very limited very limited not even up to dozen where you would have it so is used to speak of a certain part of man's oppression or how he lives on the maybe speaking of his mind maybe speaking of his emotions no he would just use the word heart instead instead of using the word Soul so there are very limited references for that but there's a popular idea of uh my soul my soul and my spirit my soul my body and when that definition is given many times of the soul is not from the Bible we get it but act actually uh popular Greek philosophy that has so seeped into the body of Christ seep into the church starting from origin and Clement of Alexandria and all of those wonderful great people who were Paul's earliest interpreters so we are all suffering the consequence of their interpretation because they were students of Greek philosophy and they tried to marry the two because philosophy is the love of wisdom they saw wisdom there philosophy asks many question epistemology the whole question of study of knowledge or the theories of knowledge metaphysics the nature of being and all of those things ethics logic and Aesthetics all of those many things philosophies which is okay there's no nobody that is okay that lack sense or wisdom should have any issue with philosophy except when philosophy is against God Paul now tells us to beware of vain philosophy so it's only when it is vain that we reject it now the use of the word Soul s o u l is to speak of the life the entirety of of man so when you read the word Soul which I don't want this teaching to be too theological as much as it is relatable in the sense of we are discussing I call this message a discourse throughout the four gospel is used a lot for life in fact in Matthew 2:20 where Jesus said arise take the young child and his mother uh um where the angel said arise take the young child the angel said to Joseph take the young child and his mother and go into the land of Israel for they are dead which sought the young child's life the word life there is that sought the young child's Soul they sought the

young child's life the word Life Soul NE in the Hebrew n e p h e s h and the word in the Greek is Su p s u p s u c h e is used in Matthew 6:25 therefore I say unto you take no thought for your life what you shall eat or what you shall drink that word life there is the word Soul so imagine you have soul one way of defining things it will be and we have corrected this for the last I think 5 six years we've done a lot of uh Corrections on don't always see so like that like there's theory part inside of me no the when the when the when Paul says the whole of man is spiritual and body speaking about how man is referred to within the scripture man is referred to our soul man is referred to our spirit man is referred to as body are you following not that there are part inside of me because it can affect your understanding when you are always which part of me is this one as if God broke us into parts to live amen when God breed into man B say A Man became a living Soul not which part is this one now Man became a living soul the spirit in contact with the body man is a living soul and the core of what makes man alive came from God Amen so man is alive that's what difference when we say Christian anthropology what separates human beings from animals is that man's Essence came from God Amen Hallelujah the kind of living creature that man is that differs man from animals is that man came from God what it takes to be alive came from God God did not breath when he was creating animals he not breath when he was creating plants amen so man has God Essence substance within him there's a portion of God within every man why because man was made to image God to represent God to be a representation of the Unseen God Amen so that in the physical men won't have to say where is my God what is God doing they they have us they can see us man was made like that to represent God Amen so the use of the word soul soul that word Soul 104 times the Greek word SU used and there are more references for the word as life than you have it as soul and that is very descriptive itself for whosoever will save his life shall lose it and whoever will lose his life for my sake shall find it Matthew 16:25 that's the word Su I am the Good Shepherd the Good Shepherd giveth his life for the Sheep John 10:11 give it his life notice is not a part of him his life entirety of his being the same way in the book of Acts acts 27 22 and now I exalt you to be of good shair for there shall be no loss of any man's life among you but of the sheep any man's Soul acts 27:22 when Paul breathed on that man that was dead e because his life is in him the man was dead his life is in him came back to life that's acts 20:14 and Paul went down fell on him and embracing him said trouble not yourself for his soul is in him for his life is in him are you following so see the word Soul like that oh my soul oh my life the entirety of my being is is that okay 3,000 Souls God sa it's not 3,000 mind or emotion or we 3,000 persons now is the person and Man became a living Soul the living soul is our person our soul is our person that's how the Hebrew saw it amen the Hebrew word NEP which is how we should Define it not as much as uh say okay the Greek word is okay then you now go into what those brilliant men aristot Socrates and all of plate all of them had to say you now enter into trouble when you now want to bring that into the Bible no the the scripture is profitable for Doctrine for reprove for correction they are brilliant men pray to God I'm as wise as those people are

however I'm satisfied with the wisdom of God Amen such were brilliant men and you see the impact they have in society I don't have such impact I pray to God to be able to have such impact in the World At Large so it would be foolish to just say to him with those people what have you done what have you proven you know how people just easily just rubbish people don't do that oh it does not know anything and your wisdom have not built a street not even a house you know calm down think their wisdom have built civilizations so cool down don't throw away the baby and the bathwater as we always say is that okay so where it negates and conflict with the wisdom of scripture we reject and refuse that amen so the word disquiet there explains everyone of us we have been in phases and in stages and in seasons times of Our Lives where we are bothered we are Disturbed we are not happy you are just there you are quiet you are you are Disturbed internally you are smiling but you are not smiling oh I'm not preaching to human beings today all right you all been in those phases now many times which is where I want to start today because uh allow me to be to be a bit philosophical why I was asking them uh on Friday just talking to Pastor man some of the people in the house and I said to them what is life I wanted to hear what the disciples had to say about what is life and I got a lot of answers you know it's the very deep question what is life what is meaning why do we live the way we live what is our existence for some people would have different things to say now we said it before there were no foolish uh questions or foolish answers is just the perspective and the way the person saw it which we can correct and say no from where you are seeing is why you said what you said but this is how it is and this is what is correct so everybody will have different things to say now this teaching this morning like I said is to cover a wide area of our living because why we in Miracles why do the unbeliever have the results they have so it's a lot of why why why why why and many times it's part of the reason why Christians are bothered why Christians are tense but I didn't do anything wrong how come the sickness just broke my body down you know you get the point so we're going to talk around all of that in a discourses format a bit but let's finish with Psalm 42 first then we'll have that discuss around the scriptures so he uses the word disquiet verse 5 and verse 11 why that cast down oh my soul why are thou disquieted in me hope thou in God for I shall yet praise him so he now says hope in God verse 5 and verse 11 after he says oh my soul why thou disquieted within me then he says hope thou in God says it in verse 5 says it in verse 11 now to see that it is not of Luke as I uh Psalms 43 the next chapter verse 5 why thou cast down oh my soul why thou disquieted within me hope thou in God for I shall yet praise him who is the health of my countenance and my God so Psalm 42:5 Psalm 42:1 psalm 43 and verse 5 and all three of those references we saw that after he says why are thou disquieted in me he says hope thou in God is it in yours check it observe observe observation did he say hope yes sir hope thou in God and it's the very same Hebrew word he uses for hope which is the word yakal to hope to wait now notice is an instruction he's given he said hope in God for I shall yet praise him who is the health of my countenance and my God the word hope to wait to expect but the way is used here is imperative it is causative as it were the imperative is a

command and it shows urgency I must give myself an order oh my soul why that to R me hope in God so he is is's giving an order to his to himself he's ordering himself because there are so many questions there are so many I don't know no hope in God so he's given an order so the way the tenses are structured which is quite a work for grammatical interration the way the tenses are structured it he uses the Hipp stem in Hebrew which is causative to say it's an order he's speaking to himself I order you my soul hope in God so don't do something else hope in God so that is the structure of the phrasing there hope in God I know you have many questions I know there are many things bothering you hope in God have expectation hope in God hope expect wait T don't give up be patient that's the use of the word hope there so he giving it be patient don't give up don't quit don't fent hold on expect are you here expect so the imperative is a command and it shows urgency because in that time we tend to guess we tend to start guessing oh why is this happening oh maybe this reason oh maybe it's this reason so he gives a command to his soul this is not the time to be guessing this is not the time to be hey which one which one which one trust in God hope in God so he gives a command to his own self to his own life to his own the entirety of his being don't guess because if there is something that is cusing this disquietness of the Soul what's causing it is it sin is it this is it this is it this oh God will show it to me but sometimes there is no explanation sometimes there's nothing you can hold on to and many times that's when it's more painful we now start experiencing what some will call Inner depression I don't use that phrase I don't do depression that's quite an over stretch but is true for many Christians funny enough I don't know how a Christian has not positioned his mind and his emotions in a manner that depression never sets in nothing should get you depressed depression I remember uh 2012 I had a a vision I was about waking up but it was a vision not a not but a ninth Vision not a dream and I saw the way I learned I I I use uh brighter grammar and I use it a lot growing up and that was exactly the picture of the vision I saw demon a plard up demon oppression then they drop the plard then they mer it together depression then where is the word gotten from demon so they removed the depression said that is the meaning of depression and I woke up I said see education class and that day I told myself I'll never be depressed because depression is demonic oppression I've seen that over piercings when I look at people who are depressed there's a a devil here or there voices they hearing is a devil here or there a Christian is not possessed as it were internally but a Christian can be afflicted by the devil and that is his permission or her permission and many times is the questions they asking their mind just see that ah this is the devil say take your hand off so it's like an oppression a demonic oppression that is depression and that's why people commit suicide people commit suicide all right because depression is a serious business but the Christian Life begins with the very cure to those things that's why as much as therapies are wonderful and it's okay to do all of those things but the gospel is the greatest therapy for the mind all right because you don't do because Joy is of the spirit and it now off the mind and there is a way to position ourself and we talk about that a bit too but the Christian should not be doing depression is

something you should oppose like the devil when thoughts begin to rage in your heart see them as the devil this what I will say for now because I want to build a bit to say what I want to say so once thoughts begin to build in your mind that would get you to that place of being depressed IM may say out you devil have that approach that this is the devil this is Satan this is the accuser this is the slanderer of my soul that is coming against me it will help you quickly shift from that place so the psalmist said this is not the time oh my so that is quied within me I know I'm experiencing many things that I cannot say but I think I should keep my mouth shut and trust God to bring me through that's why I now said I shall yet Praise Him are those words of Faith coming from the psalmist so he uttered those words why still in the condition of being cast down when I'm in that condition I can utter words of Faith I do not know why my soul is cast down but I know that God will bring me through so I wait I do not start guessing I do not start acting on a guess I know that God will see me through and bring me through so I trust the Lord I do not allow my present emotional condition to cause me to hurt myself or to hurt others so I give a command to my soul that's why the emphasis say to my soul hope in God trust in God did you get it yes all right look at Lamentations chapter 3 Lamentations chapter 3 exactly where you think I'm going to read once you go to lamentation 3 all right lamentation 3 and we read from verse 21 this I recall to my mind therefore have I hope it is of the Lord therefore have I hope then he say it is of so this what I recall to my mind therefore have I hope I told you we read this text every new year or or the eve to the new year and I tell you the reason why we have expectation for a new year a new day which people say is it not just one day day break is a new day comes with new expectation I always use this text so you have an idea of that already so let's read he said this I recall to my mind therefore have I hope it is of the Lord's Mercies that we are not consumed because his compassions fail not they are new every morning great is thy faithfulness verse 24 the Lord is my portion say my soul therefore will I hope in him therefore will I hope in him the Lord is good unto them that wait for him to the soul that seeketh him it is good that man should both hope and quietly wait for the Salvation of the Lord then the same man let's just read that F he say it is good for a man that he bear the Yoke in his youth that means if you are going through issues is better when you are still young all right so it is but where I'm looking at 224 it is of the Lord's mercies that we are not consumed because his compassions fail not because his compassions fail not his compassions fail not they are new every morning great is thy faithfulness so oh my soul why thou dis quied within me but what do I say the Lord is my portion say I will yet hope the Lord is my portion I will hope the Lord is my portion seeth my soul therefore will I hope in you remember what he says to his soul before he hurts himself or hurts other person with the words you know when you are going through issue you lash out sorry okay you lash out so that's so don't say anything stop guessing stop answering the question this is the reason this is the reason I will yet trust in God Amen another message you can also bring in which you will see as we go on is where I taught you about dogged in faith I told you seven dimensions of Faith because people only used to one the speaking nature of

Faith what about faith that trust God what about faith because uh Daniel will sleep in the Lions then Samson and David will tear the lion and both of them is Fai all right so you must have a complete approach to view scriptures and to interpret things now we who are much younger I mean anybody under 30 uh and even those of us under 40 going even those I think we'll just put it that under 40 we use that now this 2025 so under 40 have a low tolerance for uncertainty but the older persons have a higher threshold for uncertainty because they live through Wars fight fings issues notice how the covid came it was much Young longer person that believe the word was going to end the other person just just go through it because they have seen enough days to know that things come and things go say everything is about to nothing they end anything just the go It Go end because they have so the younger persons much younger in fact have a lower tolerance so if they under 40 under 30 under 20 the under 20 have a lower tolerance forcity a no no no I want it now now now now now and people also divide so easily people divide very easily and people are very inflexible in their epistemology people are very inflexible they are very brutal in their ideas of knowledge how they get so there's a lot of argument you can't tell me that I know what I'm saying you can't tell me that everybody has a view here and there but we should be patient to hear what other persons have to say because sometimes when someone is going through you just want to answer because you have the answer let the person finish let the person rant all that rant and tell the person are you done all right then give a hug and just go the next day answer sometimes it's not just just give the answer I give the answer I give the answer because I know everything because I know everything no you don't know everything oh [Music] Hallelujah okay so the psalmist said I would hope in God now Lamentations chapter 3 the same thing it says the Lord is my portion verse 24 seeth my soul therefore will I hope in him so what's the answer hope I will cling to Hope what hope the steadfast mercies of God never fail a new day is a new hope I know a new day will come if I see tomorrow I know that things can change there are possibilities yesterday is over this a new day something and that normal expectation is okay that's why a living dog is better than a dead lion There's Hope for a tree though it be cut now it shall Sprout again as the scent of water so at least I'm still alive the person that is dead that is the one that can now change the circumstance now that is a starting point And now when will now take that answer as the only answer to the question in the Bible that becomes a lazy way of studying that and that's where all of those other denominations that are opposed to Miracles and they not opposed because they don't want a miracle they are opposed because they had too many questions that they could not answer so they now said this not they work they work for some person why does it not work for everybody leave me count me out and they now keep suffering more and they now answer it off with I know we shall go to a better place then use that one as the last consolation that and throw in Romans 8 there for the sufferings of this present time are not worthy to be compared with the glory that shall be revealed so the sufferings of this present time what I'm just going through now is the sufferings of this present time it's just this present time is his present

time but in the streets of gold you not add all those ones it's not me that thought you that type Street of God Mansion my Paradise my this at least it gives a bit of consolation though it's a false hope because it's not biblical it's not correct it's not according to sound doctrine but it allows people go through circumstances now that is a terrible way to live that there's no solution no cure as much as we should have hope which is a better way and everybody must learn how to answer the disquietness the answer to the disquietness must first be the answer of hope that you command your soul I will yet trust God because a lot is in a lot is at play here that I can't tell I don't really figure I think I know the answer I think I don't know the answer I trust God so quickly give that command to your soul first now if nothing changes okay for those who that's where they now get the idea that nothing change but ABA things changes it may take a bit of time but things change nobody stays in one state the same way except the person is not leaving among or amidst people and that's why we're going to take it one by one amen amen all right so it says the answer of meaning so with I'm teaching on answering my soul's disquietness uh so let's start with the answer of meaning it could be that you don't know the meaning of life the meaning of things uh the the true meaning of things so the true essence of things so start off with the answer of meaning or the answer of true Essence the answer of meaning the answer of true Essence why life why the world why the Earth why Faith why why all those because that's a starting point not KN the answer to those questions why hope why why why Faith why all of these things so the answer of meaning the answer of true Essence and that's a starting point are we good that's a starting point why are we put on this word this I'm just going to say many ramblings that people have H we are put on this word to um um make money no go to school go to school make money marry give back to Children make more money die that's one view no different perspective say um to love to live to enjoy ourself okay so different views different ideas there is a book in the Bible with the name Ecclesiastes that people don't like and um no one was richer than that Solomon in Israel and he answered and asked all of those questions that because he was looking for meaning so he was asking many questions and he uses the word all his vanity all his vanity several times in that letter so let's look at Ecclesiastes a bit go go there so that we see the different questions this man had because you know every human being have an intuition that there is more to life than it appears in fact so CS Lewis is one of my favorite or best writer of all time he said you can you can uh deduce theology from how a man respond to a cops when he sees a cops you can people you can deduce theology from the sight of how people feel around cops people have different that already tells somebody that I don't want to die I was not made to die that's why we are not we are not happy we are not joyful when we are seeing cups say wow hooray another cups again even if you're are M attendant in fact that is the worst down there's no more joy in your life except you have other ways of dealing with that because if you leave it naturally you have to have a therapist or you deal with it if not your mind is gone your heart is gone you have no soul amen you can see a lot the same thing you can a lot can be said with how we respond to things notice how we all want a just and

a fair word say that's not fair now that's not everybody has his own perspective and interpretation of it but there is a response we give to certain things that shows that there is more so and that's why we shouldn't just easily throw away people's view some questions will make them look so simple like it's just a simple answer a on line answer a two line answer but the Bible rather explains them with many Concepts hallelujah amen

Ecclesiastes 1 the words of the preacher the son of David King of king of Jerusalem vanity of vanity say the preacher vanity of vanity all is Vanity what prophet has a man of all his labor which he taketh under the son what prophet has a man of all his labor so somebody has worked hard what prophet has a man Tak one generation pass away another generation cometh but the Earth abided forever The Sun Also ariseth and the sun goeth down and hasteth to his place where he arose the wind goeth towards the South turn it so it's it's talking about all the things that people go through so he will consistently use the word vanity upon vanity all is Vanity meaningless emptiness and what he does here is the absity of life without God that's what he is blessing the Absol of life without God life without God and Under the Sun perspective and Under the Sun perspective so it says vanity upon vanity in verse 14 I have seen all the works that are done under the sun and behold all his vanity and V SP of spirit is chasing the wind that's exactly what it means chasing the wind I've seen that he just chasing the wind every day hle buzzle hle buzzle hle buzzle so they has to be more to life now this is not a poor man now this is not a poor man speaking now often time people live life and they bring it into Christianity too and they expect that's what Christianity must be about in the name and that's why people do solution centers I'll give you the framework that life is about I make a lot of money I make a lot of money I make a lot of money I make a lot of money life is about that that's what some persons believe that life is about I work very hard I make a lot of money I acquire so many things I acquire acire acquire acquire I've acquired so many things now we don't need to die to be able to answer that question we need to just look at wealthy persons now in my study of the top 100 rich people in the world and I did that survey for 5 years something I found that that um notice that many of them don't even buy a Ferrari or Lamborghini and here they can buy the company what they have learned the hard way which people don't want to learn and when we say this they say because you don't have money no talk for yourself you should I don't have money say because you don't have money because you don't know what I'm going through know there's the arrogance of always shutting people down when they're trying to give answer because you don't know what I'm going through don't tell me that don't quiet me I must hle I must make money but looking at all the people that have made more money than a generation don't want to say yours I don't look like I'm swearing for anybody though I'm not speaking to you I'm just speaking generally have made and when you observe all these people that have made so much money the other man is living his house he's bought 1970 something precisely does he not have enough say oh he's a sing man okay but he gives a lot now he's one of the biggest philanthropic piercings on the earth okay that light not work there we cut you easily he say CG but you don't give half of what

he has giving to humanitarian causes you don't say oh this is this we try to site different examples what they have learned is that which is the the the hard way which is where we start as Christians after getting so many things it has now humbled them to realize that there is nothing that they sell that I can't buy there is nothing that is sold out there that I cannot that my money cannot afford there is nothing that is sold there's nothing in this life that anybody is selling that I cannot buy with the money I have so they become humble they now get to that point where the presence of the absence of money does not control them they are not moved so they just take a t-shirt take an easy and that's again they show that they have gone beyond the law of branding because if he wears sleepers you say it's sty you may say the sleepers is 500 million you you not think that that sleepers is your normal sleepers all right because that kind of that's what it means now he has gone beyond the law of branding he now defines what his sty because you can't ever say he lacks so you cannot look down you can't look down on him say oh you you you're comfortable dressed like this yeah say go ins sir you can't say not have the money you can just say okay I buy the restaurant she don't leave me to enter I don't know if you getting you know how Batman does so money people have learned that don't know bman yeah you enjoy your childhood leave me alone it's not me that we help you with that one say huh Batman no I don't know why you don't know Batman but it's okay leave it like that those that know you get the point of what I'm saying how is always buying Bru Wayne is always buying things up now the point I'm making is this okay if life is seen as this approach I make a lot of money I make a lot of money Solomon is not enough to answer you because you say it's Bible let's use everyday life and see why we can interact with unbelievers and tell them because the man has made a lot of money all these people have made a lot of money but they have now they start giving it away they start giving it away they have made so much money they are giving it away they are giving it away they can't eat everything the money is too big it can't can't finish it of course Freedom absolute freedom they are financially free I mean they can fund the lifestyle of their choice they can fund the wastage of their choice all right is that bad that is real wealth I've gone beyond his absolute freedom so they can fund the lifestyle of their choice they can also fund the waste of their choice so as is wasting and if you do those calculation it can be buying one uh uh one leg us every minute because you calate the money divided by 20 the number of days you do those calculations you can see it so before before you they will give you the paper of the first one you have made another money it take more than 5 minutes to buy one car before you have finished you have made more than that because you can put the money in even footballers you can calculate their own in per minute per hour you know what I'm talking about if you have not done that study he yeah what you do you have fun in your life they calculate some things think about some things don't be looking shocked that we are saying it all right so some things those are part of how you just think about some things so look at how all these people gather many things and one of the things we see about all of them that are very wealthy not celebrity not fake money I mean real wealth not not looking Rich proving a

point that you are rich but you are not rich no not that one is fake life the goal is not to be looking rich but to actually be rich not to deceive people that you are rich me why you are suffering so of us to help you you have deceived the people that could have helped you no not that one that one is fake life the celebrity the type that people learn where those celebrities can be house help self to this realthy people that I'm talking about what they have learned and they learned it the hard way from acquiring they have learned the uselessness of money number one they have learned that money should not control anything about my life my happiness my joy my anything because they have too much of it so the presence or the absence of it does not move them because they have made a lot of it and that means contentment but they have now learned it not from godliness not from God in their heart they have learned it from having enough another thing they have learned is that I can't eat all my money I must share it that's why even Harvard and all the other wonderful reputable instru institutions Now teach philanthropy as part of a wealth course for people to learn big big you need to learn also how to give away your money so in part of how to make money you need to learn because there are main things people spend money people waste money people give their money away people invest their money different things people do with money now and part of it people also squander their money all right so now teach you can also give your money now the long and short of all of that we see that you can't remove the place where you also share it with your friends you give it to some persons you you just have to because life should not be lived alone life should be lived am amidst people amongst people so you have to share you dwell amongst men you must share one came back and said oh I like this newscaster they are concerned about Mass which one is mass stay on the earth look at hundreds of thousands the millions of dollars that are being used for all those project what are you looking for out there I never eat food they think about Mass what concern concern Mass what is in MK leave Mass alone sir give me that money sir all this money we are going to find out what is happening find out what is happen in my street sir so you get the point but the money nothing to use it for because you can't eat then prover Ecclesiastes now says there's a man that makes so much then he cannot sleep again the night like amas will soon come there you see all the Book of Ecclesiastes to chapter 12 there's another one that has made a lot of money then he says he now has a useless son he say yeah after all this my hard work is a useless son that we last last inherit everything n of King then you have so it goes on and on he tells all those different stories then he says all is Vanity and say no it's just Bible no it's not it's the same thing the billionaire of today have come to realize because they have made a lot of money and they have seen that ah last last so the man that wanted to be rich that said Baba give me it doesn't mean 5 years 10 years is enough hunting women pant and all the nonsense stupid people do to make money they have died 5 years 10 years is what 5 years is enough sir I will just paint the town red notice even in that money they have made they still have to live among men they they have to prove a point spend it among people give people some just to Fe you cannot remove people from leaving that already means

one of the essence of life would have to do with relationship because long and short you can't remove people okay keep that aside because we keep seeing people let's not quote what a man to gain the word and lose his soul because he say oh that's for poor people when they want to encourage the I will gain the word leave me let me gain the old word well people that have gained the old word are still uncomfortable where because there are still questions they are asking and that is what the preacher is in ecclesiastes is that all is Vanity the authority of life without God because I've made so much yet I still want to make more more I'm not wanting to make more because I can spend it I'm just wanting to make more for the fun of it and that is the only part that I like out of it is for the fun of it not because if if not I'm dead no so Jesus said what a man's life does not consist of the abundance of things he possesses learn those basic things so that because at the end of the day when people are in the hospital they are not saying where's my car can you put on top of my bed where's my house is that did that boy come did that girl come did they it me they are looking at their family their friends who came around who was around them they care about family community who came around who was around those things matter most as at that time you now begin to learn the lesson you would have learned early that relationships are more important than all these other things so relationships are important oh relationships oh so God did say relationships are important it's not for man to be alone relationships are actually important but you know the answer of what why God made things we have been repeating since the man of our lives and even before then what did God want on the earth a family and you said it so easily so you know that God made man to human Divinity and Humanity to enjoy each other you can't we did all of this series thought on this things again and again and again in different messages so God angels or supernatural beings and man dwelling together so the way God created things what God wanted on the earth is a family God supernatural beings man all dwelling together in a family then there is a vocation where we image him let them have dominion kingdom King and domain the Dominion is every place under the reign of a king the Dominion so the Dominion is the places under the reign and Rule of a king So when God now says let them have dominion he saying man is the agency that will share in my good rule man is the agency that I will use in my having Dominion so man is going to be the one to have dominion for me with me through me amen so that's how we were made God wants a family and a kingdom and we cannot remove that a family and a kingdom a family and the kingdom let them have dominion for those who want to be singing forever and ever you see that a lie Revelation says Revelation 59 and 10 he has redeemed us also God out of every Kindred tribes and tongues to be Kings and Priests unto our God and we shall re on the earth there's always rain on the earth Revelation 21 revelation 22 1-7 you see the same that it may rain on the earth there's always rain on the earth not singing forever and ever I've told you before learn Bible the right way it is creation to New Creation creation to Recreation it's starts with a garden it ends with a garden the global Eden Project there's a project God is working on on the earth so why did God make all things we can now see

that God the life will be I get to live with God I get to live with one another forever and ever that's why we all hate death so is and we can remove the world if leave is paining you enjoy I get to enjoy God I get to enjoy one another and I get to represent God that looks so simple and but over the years and over the months of the different things that we have tght we can say that and when I understand that all of those definitions have nothing that have to do with money has nothing to do with many of the things that make somebody to be angry anxious frustrated you realize that you already taking too much upon yourself so now see how Philippians thought now see how First Timothy where he says where he was teaching about contentment let's look look at those text we'll come back to it came to this word naked look at that text 1 Timothy chapter 6 but godliness with contentment is great gain now let's start from five perverse disputing of men of corrupt mind and Des of the truth supposing that gain is godliness so people who preach that come to Jesus he will give you money say godliness is gain that is a false gospel godliness is gain neither is godliness poverty either is not come to Jesus he will make you NE is he come to Jesus he will make you poor he come to Jesus he will give eternal life all right rich and poor is in the choices of men Hallelujah all right uh but godliness with contentment is great gain notice the answer godliness with contentment is great gain for we brought nothing into this world is giving you a position of how to see things for we brought nothing into this world it is certain will carry nothing out and having food and rment let us be there with content so even the least things that you will not expect is enough for somebody to be content food and rment is not saying food arment is enough no you have other things but he saying even even if it were just food and rment is enough to be content then he now says what he wants to say verse 9 they that will be rich that's those who have a desire to accumulate more it says fall into a Temptation there is a proposition that comes to their mind a Temptation there a proposition that comes to their mind and it can also be a snare because I want to make more I mean because of that cut Corners do many things that's the snare and into many foolish and heartfelt LW so foolish and hurtful lust because of the desires can go into different things it says we drown many in destruction and pedition then in verse 10 For the Love of Money it didn't say you should not La money love of money there is greed aaries the Love of Money aaries that word Fagor avarice greediness because it will never be enough until you learn that money will never be enough every other thing will never be enough sex never be enough power will never all of those other things will never be enough so when you make those things what your life is about you have just signed up for vanity upon vanity because they will never be enough prostitutes should be the most loved people they sleep with people every time now in fact they sleep with people more than you can ever sleep with anybody but not the most loved they to learn the lesson that there's more to life than sex so notice when David could not touch the woman against they say the king is dead ah it not touch sh B shag ah the King don't die know and he was alive they say the king is dead he's not functioning again you see woman fresh woman when Sol enter say not touch that F girl you know sorry you guys are spiritual so you didn't get that part all right so is that lesson so

we brought nothing to this world so he says that For the Love of Money the greediness the desire to I want more I want more it will never end love of money is the root of all evil not that if you like money like money or if you don't if you don't like money you don't mean you have common sense that's the Bible is not against people liking money or having money love of money is greed it's one word it's not love of money is one word in the Greek filaga which means aaries greediness selfishness conciousness and all of those things explains it is the root of all evil but there's no end to cover which while some cted after have heard from the remember talking to a Pastor said this how many pastors like the ones you saw in Abuja saying money to Jesus to the Cross have he from the faith you he from teaching the gospel you he from the faith you he from the faith not that they are not born again they a from sound Doctrine they Heir from the persuasion of Christianity they he from the faith and Pierce theel through with many sorrow because they have signed up for futility said I'm now so rich and I was wor some the other time last week and I said to somebody I said he's not the richest man in jaar Road calm down the other lady that is looking for Lambo is richer than him and he's talking in public keep quiet calm down see ungodly Lambo girl is richer than you cool down cool down cool down you don't need to know all those things know church people are wonderful they very hypocritical they look like what's that you don't know don't worry at least thank God I follow chin I saw he did Lambo he was singing it I'm going to deal with him later for that I'm playing and I'm not playing back to what I was saying how much is the money they started sharing testimonies that should not be shared it's amazing how because what is 250 million say it's okay but I don't want to throw banter on that man so it doesn't look like this message targeted at him no and defeat what I'm trying to build say uh 50 million 100 million you see this is the problem it look big to you now because you are broke 250 million 250 million 250 million is it dollars you didn't even put Dollar in fund say 250 million n and this why you are shaking \$1 billion is what some people used to do let's not make this meeting a cous meeting there stories I will tell you you will be sure say I know persons who I do business who told me that uh um I I just did something now of 4 billion C see we we t-shirt no we have taken over taken over over calm down all these things now poverty all these things comes with poverty that's why you must raise children well so that they don't use wealth to to be arrogant to people you can't greet people you can't hon people again because you know how much I keep quiet somebody have had more don't be poofed up with anything so the point we are making about life some people have made this is the purpose of life so why is the Christian man not happy now see the reason though I don't have money but there's more to like he cannot now he because first and foremost don't even know the answer of meaning the meaning of things because how much is going to be enough see I don't I will use I be using so I use myself you put too much attention on me no there was a time in your life where if you could see 100,000 oh boy 100K now you have made a 100K it's not big again now now you are saying if I can just make 200 when will you ever say I've made enough if I can just make 200 then from 200 it now be 500 entering the new 1 million which is 500K two years ago now 1 million

now is 500,000 2 years ago all right so entering the new 1 million which is 2 million so now 2 million is not big again you say 2 million somebody say 2 million is 200,000 ah so you see different people have a way they see it so that's 2 million I say say I was having the issue say how much is it say 47 million say ah it's too much sayh that's one n in the club uh how many person will I go with uh will'll be 15 we just party all night now right so 47 million right you you are seen the challenge the other man say hey I don't die say let's just spend it one person is trying to accumulate is saving to build up to 40 million 50 million 100 million and that person spent it once pain that is life are you seeing it because people have more than people and all of those things so when you now make that the reason for living you are never ever going to be joyful or happy so what is the is it that you should not now have no that's the beauty of the Gospel proper interpret of scripture God is not against you having money it's nothing against you having plenty of it if I have it if I put it inside put this spoon but where you must not put it is in your heart you cannot serve God that mmon you cannot use money to money should not detect how you treat people how you treat the work of God so we say come and pray he said do you know how rich I am shut your Yap we didn't say how much you have we say pray why are you telling us about how much you have zachus climbed tree to seek the Lord and God said Jesus said to him come down Bible say and he hasted I told you that on Wednesday he hasted than David who say I rather be a doorkeeper in the house of God and DW in tense of wickedness calm down this morning they make you proud in serving God I've told you before who is great in the kingdom is the least is he that serves what put people over people in the local church God bless dadd and what he represent in his denomination in his church you notice how you have MD Bank owners chairman of Corporations some of them users some of them cleaning toilet and you are wondering because that's the Christian life is not what I have who is over anybody in the local church is our maturity and our service is what differentiates us our maturity and our service is not the church is a class Society where they reach the poor educated everybody merge it's a multicultural Community we are we ought to teach the UN what it means to run a multicultural Community the church takes its place as the light not flying away the light of the world we take our place we show that this is how things ought to be we are the people that have been made right and we in turn brings the word into the right God has made us right now we put the word in the right which is what righteousness mean or justification mean amen hallelujah so I learned the lesson the hard way but I don't have to I don't have to say all is Vanity Vanity upon vanity meaningless because I made enough now is he women that man had 700 wife 300 concubines and it was not enough it was not enough there not enough how many can you sleep with in a day how many can you sleep with in a week and with 700 and 300 there were see outside once is the book is there now then he says let us hear the conclusion of the whole matter chapter 12 it now says fear God keep his keep his commandment there is not 10 commandments keep his commandment there first John chapter 3 first John chapter 5 tell us what his commandment it says commandment is not Grievous that we should

believe on the Son of God people are looking at me let me read this some people are so new to Bible study that some things shock them Ecclesiastes 12:13 let us hear the conclusion of the whole matter fear God and keep his commandment this is the whole duty of man the word fear God I fear the Lord no reverence God let us serve God so he said the conclusion of the matter is serve God have faith in him believe him love him with all your heart that's the what keep his commandment in the Torah keep his commandment is love the Lord the which is found in the famous Hebrew sheema prayer shall love the Lord your God with all your heart with all your strength with all your mind you remember that now so Ecclesiastes chapter 12 it says let us hear the conclusion of the whole matter fear God keep his commandment for this is the whole duty of man the whole duty of man look at first John see the way he explains keep his commandment two I just run through several references allow it 322 and whatsoever we ask we receive of him because we keep his commandment we keep his commandment and do those things which are pleasing in his sight and this is his Commandment that we should believe on the name of his son verse 23 Jesus Christ and love one another as he gave us commandment he that keepeth his commandment dwelleth in him and he in him and hereby we know that he abides in Us by the spirit which he has given us notice the word keep his Commandments notice s is there sorry you read it again keep it this commandment so somebody said to me said there's s so it must be the 10 no I say why is it not the 700 since you want to be doing smart no don't give Bible words your own meaning keep his commandment is in the Torah Genesis Exodus Numbers Deuteronomy the emphasis there is same 6 what is called the Hebrew sh is the Lord your God is one Lord you shall love the Lord your God with all your heart with all your soul with all your mind with all your strength I mean that is the call that is the Commandment when they say keep the Commandment love the Lord with your how do you love the Lord with your all your heart the word love I which is this word now translated as have faith in God I worship the Lord love the Lord I serve him there is devotion I'm devoted to him that's the core of what he says that is the whole Duty of man what is simply saying is man was made to be a believing creature to have faith but what is life God made man to live together with him so God man and supernatural beings went together so man was made to live with God to live with one another forever and ever are you following so simple to live to enjoy fact the live and to enjoy God to enjoy one another forever and ever while again stewarding the devotion or our vocation of representing we can't remove that vocation even in the new creation New generation royal priesthood holy nation that you must show forth the praise of him first Peter 2:9 that you should show forth the praise of him who has called you out of Darkness His Marvelous life there's always the vocation mentioned you cannot remove it amen you cannot remove it so the very first answer should be the answer of the true essence of meaning of things so if I know that God made me to reflect him into the world and to reflect the praise of creation back to him which simply means we're made for his glory so life is existence on the earth why do I exist on this Earth so life is existence on the earth now if you want to know the purpose of a you ask the

Creator you ask the Creator if you want to know why this AC why this I asked the man that made it why did you make this what was this made for and he give me the reason now God knows why he made man and he told us his reason why he made man we have it in the scripture so we don't have to guess when we can ask the me of and he said it to the first men and the first men in tone told it to their children and they now over time there's now the technology of writing when it came they wrote things down and in they are writing it down they now wrote God dealings with them God's plans God purposes on the Earth are written in the scriptures and within that scripture we now find that the purpose of all things is that all that I created created for my glory 43:7 were made for the glory Revelations say we're made for his pleasure AB we're made for his pleasure made for his glory made for the worship of God hallelujah so that's why he made and life is existence on the earth so and how does the human narrative follow we find out that we are by being we find out who we are by being in relationship one with another so human life is exocentric as the more you live the more things make sense that's why there are different perspective so everybody will have 5 20 30 meaning of life and God is okay with you having different meanings of life but why did he put man on the earth his family and his kingdom God is Not not afraid of your opinions he's not afraid of your intelligence he gave you brain for God's sake it's not scared that you are using it and you are getting smarter it's only when that smartness now rejects faith in God so it's okay your definitions are okay but don't just remove God from your life all right did you get it yes sir all right no matter your definition of life just don't remove God from it because the way God made man is and made the Earth is that God wants to live with us and that is answer New Creation God is now at home in us we are in him he's in us forever and ever all right and that means that we can fix any issue if I have the the person who made uh this AC I touched just now if I have the person who made the AC with us will I ever be bothered for any issue that this AC can have will there be any reason to ever be bothered because I have the the maker with me now God is in me with me why am I now bothered so obviously I have forgotten that God is with me the question of Fai that's why I can say to my heart that relax now the Creator with us I can say to my heart even if I don't know the answer or the meaning I say calm down or God With Us I can come down for before I know the answer or the meaning of the question I know we like to carry other people's load and responsibility but they are adults they should be able to carry their own weight and responsibility too know sometimes the reason why many of you are so angry or disappointed with some situation is the people you were believing for can those people believe fors or they are dead go they kill yourself on necess really they are human beings soon they have sense they have brain they can only carry people as much as they can be carried but they have sense they have brain they can believe for themselves they can agree and stand with the power of God's spirit amen so when we understand that oh many of these issues I'm going through if I even knew the purpose of life because the author of The The Book of Ecclesiastes looked for the meaning of life in many vain Pursuits the different many vain Pursuits he had Wealth Beyond measure

wisdom beyond the people in his time hundreds of women palaces Gardens Best of food best of wine entertainment he spoke about different things he said anything his heart wanted he went for it Ecclesiastes 2:10 anything my heart wanted I went for it anything my heart wanted and that's what people call Life whatsoever my eyes desired I kept not from them I saw a woman I took I saw a car I took anything I saw I was taking I withad not my heart from any joy for my heart rejoice in all my labor and this was the portion of my labor then at the end of the day when I still looked it was still vanity that's how he explained it so a very intelligent book of Book used to uh speak to the philosophical mind speak to the so the book answers an Under the Sun an Earthly perspective of doing things under the sun the world view the physical world seeing Life One Way life without God and he says it is meaningless so the answer to that meaninglessness is Christ and that's why it brings faith in faith is the answer so it's so it brings that in as the answer now we we said I know why I'm put on this Earth I'm to leave god with me I'm to live with God live with supernatural beings live with with man come on now all right and it's supposed to be a forever s though that forever got affected but we see in Christ Jesus the r Redemption the renewal and all of that so we know that we are to live with God supernatural beings man dwell amongst men forever and ever so that is why he made man and of course we can't remove the vocation to Steward him into the air to represent him to have dominion to share in his Reign and rulership all right which we said to reflect God into the word the good God the loving God the wise God his wise order his sovereignty reflect that into the world and in turn reflect reflect the praise of creation back to God like an angled mirror so man images God images God into the word and images God back to God and say God this is who we say you are which is what worship means we image God back to God and in that Imaging God into the word which is assignment vocation purpose we see that in general School of ministry we live for his purposes now that's why everybody have something else they want to leave for something everybody wants to leave for something after just living with people enjoying people there's purpose wired into everyone so eesi say he has put it in the heart of every man so we realize that there's something more there's something more there's something more so once we get that the answer of essence the answer of true essence or meaning we can now boldly say that okay one way or the other this will answer many questions when I realize that okay what was life even made for I think I'm carrying too much load and baggage because uh you have made money I remember one time there was something I was pursuing for and I was just anxious Restless my wife said to me that uh it's not like you don't have money now it's not like you don't have food to eat now come down now just don't me really that if it not work it not work now going go kill say not get food to eat or is that you are P like there's no hope no because the unnecessary heaviness and weight you are carrying as if we can't live without we can live without it because anything you cannot buy so you can buy tomorrow tomorrow may not be the next day but you know what I mean by tomorrow can actually so will they still be selling it tomorrow then you can get it so calm down don't go kill yourself and when you learn that then you shouldn't be it's easy to now

answer why are the young people now in a craze so if I know that my choice is how I make money my choice will be found because I live life with my choices I live life I make decisions so how do people make money for using money as an example how do unbelievers make money so we unnecessarily spiritualize things to our own detriment it's the same thing either you are working for somebody or you have a business on your own so when a Christian now say he needs money one of the two now except is is that you are working for somebody now say no I don't want to work for anybody then you are ready to suffer your poverty now be content with such things as you have and if you are not something is wrong with you cuz there's now skill and unskill labor you say no that money is too small small for who with the kind of brain the way you live life that is the money you deserve people pay you based on your skill level stop thinking too highly of yourself you say h then you give the person 500,000 is doing two five work then they sack him the next moment and before they paid him they have sacked himh you are looking at me wow okay people employ people to dash their money say I employ you and now I've employed you this day I Dash you I Dash you you have to work for it and in working for it that's where so they skilled and unskill labor you are now on skill labor you better take do on skill labor work because you don't have the education you don't have the skill you you don't have the sense the wisdom the the tenacity you don't have anything for it then take the one you have the sense the skill the drive the push for sir that is life sir not be that they Cur me they insult me that is life that is life then you realize that oh I got to do past myself so since I want more and I've told you before that God is not God is not against you having one degree you go have another degree have another degree but don't use those things against the true Essence and meaning of things Hallelujah prise Lord I'm ending on this note cuz we did a lot of the introduction we conclude on this on Wednesday amen are you learning something there is meaning so once I understand the true Essence and meaning of things so the answer of meaning I realize that many of my Souls quietness is answered because like hey hey hey where am I going to pay all of these people if not for many wrong choices you made would you have been in that depth so calm down before you are panicking and and shouting for God as if it's God that follow you to go and take loan some people are so naughty nobody because nobody talks to them they don't have friends who are brutal with them faithful are the wounds of a friend than the kisses of an enemy it's better your friend is brutal with you than your enemy your enemy is brutal with you you go die die but if your friend is brutal with you you go faithful are the wounds of a friend it's a true proverb for friendship your friends are brutal with you tell you say boy you not try you not get S think say no just Le on me now those are the people that are Sent From Hell into your life now they leave you to be destroyed are watching you say then you are destroyed and I say hey yeah you should have known your enemies they watch you be destroyed they say yeah what is the a for if you were my friend a friend is born in the time of adversity you know your friends when things are tough because they will be brutal they tell you say you canot I'm not going to tell what you want see but I with you I stand with you I your back

I'm for you because they are not just for what you are for against what you are against they are for you you go to prison they still visit you and he you not try not try but they visit you so in the hospital I mean that's your friend we have a message on that now who is are you a friend so listen to those teachings have friends don't have VES and and and people assigned from Hell against you and call them friends so you know how you give people access to your life and you know how to withdraw those assets too because people in your life matter a lot so part of the anxiety and the weight sess that people have can only can even be answered with just if they know the true manyan of things so you see the young lady she's anxious is panicking why have I not married why have I not married why have I not married I must marry and marriage is a good thing love life relationships amazing wonderful stuff but she doesn't even relate with people he doesn't even relate with people he want a friend should show himself friendly now you're not even talking to people how you going to marry when you you're not friendly with people you hardly interact with people but the Lord is seeing me don't be stupid now I mean you have a look at how the saved and the unsaved so for the believer the difference again as we are rounding of like we said about money I work I start my own or I I'm working for somebody and I teach and I pray and I beg you that you should at least work for somebody first give a wisdom that any Pastor should first do field Ministry for some time they will learn how to treat other persons because if you have gone to places to preach you will know how to host people and treat people people better just some common sense too if you have worked for somebody before you will learn that ah this is how to do things you will treat people well you you will know how to treat your own employees better and all of those things too but the unbeliever can do things The Believer cannot do he can cut Corners he can do all the atrocities in this world to make his money weak and and that's the very reason why God in our lives now Bridges the Gap interventions we have favor we have have miracles to bridge that Gap so that we are not allog together disoriented so there's help here so there are things they could do now if you not say okay they too can go to the supernatural there's a limit it didn't pass four signs that the magicians could do and they said this is nothing but the Finger of God even in physics you know that Darkness does not have so many spectrum light has all the spectrum light there's no limit to light there's limit to Darkness but there's no limit to light so the magician say this is nothing but the Finger of God power they pass power and I have that God in Me with me through me and that's why we are not afraid to pray for people and say Miracles let God help you let favor and it's not that that should now become the entirety of your life that you are not living for God all you are living for is you you live like an unsaved man everything about your life is my money my this my this my this no there's more to life because just like a woman is pregnant one child she said I will not give birth again after the the child started growing say honey can we try again she have CA him or swear for him in the hospital you know depending on if if she talks if she not talk she kept it in her mind but all the swearing is this man no better for her but then afterward she's happy smiling and say wow nice wow we produce good babies let's do it again you have

done two say we are done with never never never say two two two two let's do three you see that that's the beauty of life God is not against that expression but don't be born you cannot train them oh mhm so if you can't just in same way you can keep getting educated you can keep God is not against those Acquisitions but let those Acquisitions not be the core of why you live so you can't pray you can't give you can't have never a teaching to give I never that things because the call of Who You Are of what God wires into you at Salvation defines many things defines many things so we live for one another and we can go on and on so again why do we now God now helps us because we can't cut Corners can't do many things the unsaved man can do in his Acquisitions so I'm led by the spirit so there are many interventions I can be led by the spirit I can activate favor in my life voice activated I will say of the Lord I will say what are you saying the same thing you say it again and again and again we practice in one scho of ministry but God say I'm favored I'm favored you said it oh so many times and you went around people people wanted to give you something it's the same thing you wear it like a charm you wear favor out you speak it you speak because you activating forces because there is the physical dimension of life and the spiritual dimension of Life the physical dimension of life is what you call it the spiritual dimension of life is what it's called heaven heaven the other worldly hidden dimension of our ordinary life I've taught you that in the teaching on walking Heaven working salvation on the earth so Heaven Earth the Unseen word here Earth the seen word here and I can function from the two but I should be able to do what normal people do so the same thing I'm in a relationship because I'm not praying enough is it prayer used to marry no calm down and doesn't mean again then the other person com with the extreme and say it's not by prayer but some people will have pray for their own so don't throw away it can be all of the position it's not always either or it can be this and that I've taught you before so it's not always no it's either one of [Music] them so I follow that route but the core of my life that's why all of the people who have made plenty money and and serve the Lord notice they are looking for time to serve the Lord they now start relinquishing many of the things that they were doing because if they were so much burning with passion like that when they started they will not have even taken those jobs that not allow them time at thought to serve the Lord you know what I'm saying that's why when they now begin to know much about even pastors like us I encourage and say just see TR my brother just many and I have many of them here too say sir I think I was stop this is what somebody else is looking for but why because they are that's what shows the man is really born again he shows he loves the Lord because he's looking for but when we make our whole life about I need to make money which time will it be enough you still need to make another one you still need to make another one so life is I live God is I live with God I live with one another I live with the supernatural world and I Steward God's purpose on the Earth forever that's it no pressure no tension that can be one of the ways I remove the weight and will share 6 month on Wednesday amen if one can be this powerful I think the other six will try amen removes the weight because all these many questions you are answering the

answer of meaning the true essence of things would have answered it you'd have realized that Cal down Cal down no no I think I'm doing too much I think I'm forgetting that what is life even for why am I all of his say ah this life is no no so there are also other factors when the choices of others the this of others and we get to that but it's also one of the answers we see is the answer of the power of God's spirit the answer of the spirit's power and we talk about that too just like the answer of Peace we talk about that where that peace that pass human understanding because when you are dis quieted you are losing your peace so you can stay in that place of peace and joy and no depression comes at all amen hallelujah but thank God for interventions thank God for miracles thank God for the power of God's spirit and I don't know how people get to throw away those things but that is our advantage we can live life normally to just the same way the unbeliever lives and we don't do the things they do but if we are going to now say ah could I could I have see gotten this thing yeah God is with you God is with you there's help there's help we learn that too and we don't now use that help to also now be anxious do not use that help that favor that miracle that supply of the spirit to now also be anxious and panicking ah Hallelujah amen so there's doing things naturally the right way there's doing things naturally the right way love is greater than certainty love see there's doing things the right way no we we don't know everything like I said if you know everything you'll be arrogant or you'll be mad you don't know everything you'll be you don't know everything always realize you don't know everything and you don't have all the answers and that's why one of the points we mention and we talked about it in in where is God in silence and delay is Providence will get to that as well Providence you learn is that some things are just beyond me but I'll see how it in fact you two want to see how this thing would end I too have had issues I believe God I prayed in fact people who know me know I can pray for those things have told me I say something I say something one month in my own life or something in my own family one month 2 months 3 months 5 months 6 months 7 month one year the thing prevailed there are issues like that some is just life it happens that is not but finally it still work but imagine I said no it can never ever change no it can we learn everything some things are to be taken with patience some things are to be taken like that but God's power is enough for us God is helping us hallelujah amen now I I'm happy that that lightness has returned into the a that's that heaviness there the questions we asking in our hearts but you see God gives us gave us his PR gave us his name we know God first thing we started with is that God empathizes With Us he knows what we are going through so the answering of my soul's dis quietness I need to know God is with me for me but if I understand the true essence of things or the meaning of things the meaning of life many of the things that I am anxious for worried about dis quieted about I already know that I shouldn't be I'm taking too much responsibility upon myself no I can't I can answer all of those things Hallelujah the Bible says cast your care upon Him cast all your cares for he cared for you God wants us to talk to him about our issues it says I will yet hope in my God I will yet I will yet hope in my my God amen amen amen amen thank you Jesus may God give you Grace in this present
