

Father, we thank you this morning Lord will open our hearts to your spirit and we trust that in this service again the eyes of our understanding will be flooded with light. We leave here with a greater understanding of your will, your purpose, your plan. And even as we again study around an issue of our souls, this quietness that we find the answers in your word and we find comfort in your word. And of course we draw strength and boldness, courage in your name. We know that our lives, our ministries will never be the same. We thank you for the wisdom. We thank you for the clarity. We know that the things that ought to be said in this service will be said. The things that ought to be done will be done to the praise and glory of your name. Amen. God bless you. Have your seats. Answering souls this quietness. Hallelujah. Psalms chapter 42. And again look at that text of scripture. Psalms chapter 42 and verse 5. Psalm 42 and verse 5. Psalm 42 and verse 5. Why art thou cast down, oh my soul? And why art thou disqued in me? Hope thou in God and I shall yet praise him for the help of his countenance. Oh my God, my soul is cast down within me. Therefore will I remember thee. Of course that's the solution. Verse 11. Why thou cast down, oh my soul, why thou disqued within me. My soul is disqued within me. Hope thou in God. And we said that's the uh the the Hebrew causative the hippil hi p h i l hippil imperative a command you give back. So it's an imperative stem root used in the Hebrew to speak of say to your soul. So is I give a command to my soul. Hope in God, no shaking. Hope in God. Hope thou in God. For I shall yet praise him who is the health who is the health of my countenance and my God. Then Psalm 43 and verse 5. Why art thou cast down oh my soul? And why art thou disquited within me? hope in God for I shall yet praise him who is the health of my countenance and my God. So all of them he said for I will yet hope uh hope in God for I shall yet praise him. So that means there is no circumstance no situation that is good enough for us not to praise the Lord for us to become ungrateful of ingratitude. Though we are full of thanksgiving in all things give thanks. We thank the Lord in all seasons of our life. Not because of the bad things that are happening. We thank God because he is a good God. He is faithful to his word, to his name. And we know that ultimately we trust him. We know that things would always work out at the end because our faith, our trust is in him. And we said that disqueness, it's that state of of uneasy where people mumbl, growl, rowl, there's a disqueness, an inner turmoil of a sort. And we explained all of that and that word disqu is to be troubled of spirit and soul to be distrust to be worried upset over circumstances that one cannot control upset about how things have turned out to be. That's that so disqueness uh border troubled disturbed and it can't even lead to depression where the heart is heavy that disquited that state of inner turmoil. Uh I don't know what is happening then people start lashing out and Paul uh the writer David in psalms says I I do not start guessing. said, "I say to my soul, hope in God. Trust the Lord. Do not allow my present emotional condition to cause me to hurt others or to hurt myself." And so he speaks to his soul because in that soul disqueness, we lash out. We say things about God. We say things about people. We are not in a good place at that time. So said, "I will not say anything." Instead, I say to myself, hope in God, trust in God. And I said uh

for the sake of this teaching to be make it a bit very practical and thorough in my small study of the Bible of reading the Bible cover to cover. I can uh say seven things that would help that soul's quietness and I think if we live with that knowledge it will help us to be in that state of peace at all times. We are not bothered. Nothing troubles us to the degree where we fall out of joy, peace. We fall out of our strength, our power, our courage, our strength. No, I have strength for my destiny. I'm strong. I'm I'm never weak. I'm never And yet the circumstances, situation can be overwhelming. But no, no, no, no, no. I'm tougher than it. Tougher than the storm, fiercer than the wind, and all of that. Amen. That is the believer. built to last for all seasons. Amen. Hallelujah. So, but we shouldn't uh deny that issue. Like we said, Jesus the apostles even when we saw God in flesh, God incarnate himself, he wept over Lazarus death, he wept over Jerusalem. Lament is a human condition. God in flesh is still lamenting. That means lament is part of the human experience as it were. You notice Thessalonians before Ecclesiastes talks about the time for everything. Then he says the time to even mourn is even put there now because the world has variations. There are now contrary days because there is light and there is darkness and God did not make darkness. But now in a world of light and darkness, good and evil, you will see contradictions in the day of adversity. It says consider is God that set one day over the other. So there are days of adversity. There are days of abundance. There are days where things are working fine. There are days things are not working fine. It's part of the human experience. In fact, John 16 Jesus said in this world you will have tribulation. So Jesus never promised us or told us that there will not be issues or difficulties. So when we face difficulties, why is it always God we get to lash out on? That is because of again wrong biblical teachings of what Christianity is for. Because some people have Christianity as come to Jesus, he will make you rich. Come to Jesus, he will make you this and he's always making making and that's where the frustration comes from because this was why I came. That's not why we came to Jesus. Come to Jesus so that he will give you his spirit. You will have eternal life. It's not come to Jesus so that he will make you rich. And it's not because rich is a bad thing. Neither will he make you poor. Are you following? Is that if you come to him, he will give you eternal life. Say come to Jesus. Come to Jesus. And many times the catch phrase, the the selling point that we give to people in a supposed evangelism, which of course we have always refuted in this ministry. That's not how to preach. That's not the gospel. That's not even how to win souls. Uh come to Jesus, he will heal you. You don't have to come to Jesus for him to heal you. That's actually the bad school you are preaching. The the gospel is if you don't come to Jesus, he will heal you. If you don't come to him, he will give you fruit of the womb. But if you come to him, he will give you his spirit. He will give eternal life. He will live in you. That's the gospel. Those ones are what God does for people. He causes his rain to fall under good and evil. That's how generous God is. A God who upgraded not. He doesn't find reasons not to answer. You are the ones who look for reasons why God could not have done this. No, he upgraded not. He finds no reason why he shouldn't answer. He's a good God, a merciful God, a

gracious God. He seeks to answer us. He seeks to be a God over all flesh. However, in him being God over all flesh, he has created man in such a manner that the heavens of the heavens is the Lord, but the earth has he given to the sons of men. And God will the earth to man in a stewardship responsibility. So man basically is in charge. When we say why is these things happening? Why is life like this? We ought to say why are human beings like this. That's obviously the answer. We don't like that answer. But that's the answer. Stop mentioning God. Why God? It's not God that made the world the way the world is. Just like it's not God that is making your business, your life, your your choices, your decisions have done a lot of damage. Leave God out of it. Let to take responsibility. Amen. Now, God did not make man to be an absent story to be absent that man is to live life without God. No, God made man to dwell with man. I've used that phrase over the years. He is the dwell among us. God. That's the biblical story, not a fly away to heaven theory that was created by false philosophy and all of that. The biblical story is that God has always wanted to make his home with man. God always wants to live with man. And that's why you see from Genesis to Revelation, the story the Bible tells is creation to new creation, creation to new creation, God's plan. And you notice how Revelation ends. God is now dwelling with man. The God is with man and forever and ever. That was his intention. All the promises as we call them in Genesis to Malachi, all promises of God dwelling with man. That's why the coming of the Lord, not the going to the Lord, is the coming of the Lord. Is the coming of the Lord. Get that into your head that God wants to dwell with you. Not we say we go away. Even all the the lazy foolish escatological explanations lazy foolish I mean because they have destroyed lives how you some people tell people don't don't go there is the mark of the beast I mean very foolish hindering their members from many things say that's the mark of this is this is the antichrist everything is antichrist later they never get to repent for those foolishness never get to cover it up with pride and many things I thought you said s this the mark of the beast Shame on you now that this you say rapture is going to happen and we're going to watch it and see that the rapture does not happen in that six years. Shame on you sir. you are destroying your members from having businesses because why do we do all of those things? That's why I use the word fully. So it's not like I'm trying to because it's painful because so many lives have been destroyed. They now say Jesus. It's not Jesus. Your pastor was just stupid telling you things and you didn't fact check it by reading the Bible. The only person that spoke about antichrist was John and he said he's already here. Why is your pastor telling you he's coming? Say he's coming in seven years time because you no stop interpreting Bible with your mind. Interpret Bible with Bible. Much of those interventions have come from Hollywood, Left Behind Movie, all those wonderful books written by people that have said some other good things that are correct in many other areas too. But it's not that somebody says something correct in one area, doesn't mean he says everything correct in every area. As we have seen though somebody says something good in one area, we ought to be able to trust their position in other areas. But we've seen that people like to be specialist. A Bible teacher should not be a specialist. We

should teach all the scriptures. We should learn all the topics in the Bible. Not I'm a specialist for healing. I'm a specialist for this. Is again is a shock when we started teaching on some topics maybe 2015 2016. I remember the shock on some people's face say oh pastor you know about I thought pastor you just taught you you teach the supernatural the prophetic healing. I said it's in the Bible now. Why should I not be able to teach what is in the Bible? said, "Oh, people are used to abnormal people." I felt shocked that they were shocked. Why should I not be able to? This is the book now. I don't understand. We read it. This is what we do for a living. Read Bible and teach Bible. So why should I not be able to teach it somewhere that is in the Bible? So we not be surprised if your mathematics cannot teach mathematics. Don't know how we normalize absurdity. It's a shame that a pastor can't teach every Bible subject. That's why you should work hard. That's why you should leave everything and be reading Bible. So, so that it will not be I don't know that one. Why don't you know it sir then spend time now don't close your door stay inside and learn it. So that is why he says hard work we give them double honor. They labor in the word and because it's labor it's labor. It's labor. It's labor. Hallelujah. Let's rush away back to what I was saying. So the soul's disqueness many times can even come not just from your choices can also come from pastors how pastors teach and preach and how they promise things and how they say things that are unrealistic. It can also come from there also come from there and people get discouraged and said oh I thought they said even you see those comedians are very funny they do those comedy skit that they said I thought they said this year is your year but he said not onto your year. Of course, it's not going to be your year with such a stupid attitude of holding stone and waiting for the pastor to corner him. Obviously, the year could never have been your year and no year will ever be your year because obviously have a cost attitude that itself means that life forces will be ad will be against you. Yeah, that's not a posture to have at all. Now, people say things, why do people say things? What are confessions for? What are declarations about the new year for just to give people hope? Hope is for the living. You can as well say this is your year of no expectation. It's okay and I said that in the end of year service you know many time we like apologizing to people. No, it's okay that you don't have anything that this year is for you. It's okay. Learn to always tell people that it's okay for them to fail. It's okay for them not to have hope because if they don't want don't make me not have hope. I in the natural people said I don't think it was church that people said that we g for anybody last year I don't think it was church they learn that now different h different uh tag lines or different slogans that people use last year they didn't get it from church now you guys are not in the world it's not last year that they did that not g for anybody we not g for pap is that not having focus what about the people that not g for them why you not come out and I I want to write to this Instagram person that said we should not grieve for last year but last year not great for me. I want to write to my favorite Facebook blogger. People know not to be stupid but they know to be like that because generation and people that have not been taught honor not been taught proper civility. How look at how people get angry that other

people other persons don't hold on to their view. For God's sake is your view. And that's the same reason that lead to jihad, lead to killing, lead to all of these things. We are intolerant of people not holding on to our views. People can hold on to their views. Does it make it right? Let them hold on to their views for God's sake. God gave man choice for God's sake. Even the choice of going to hell, let them believe what they want to believe and destroy themselves now. But ultimately, you can't say you didn't tell them the truth. Amen. So soul disqueness is quite a lot and many things get to lead to all of that soul disqueness. It's not just my choices, my wrong choices or life is just tough or just devil cuz some persons have one approach that uh is just my choices. No, sometimes it could be uh the choices of others persons are now falling upon you wrongly which we have also seen or it could be devilish. Jesus said ought not this woman who Satan has bound this 18 years be loosed. So Satan attacks people. Satan like a lion seeking whom he may devour. So Satan seeks people to devour. That means they actually people that he has devoured. If he's seeking people to devote that means he had devoured many persons. And that's why I say resist steadfast in the faith. First Peter 5. The same thing in James 4. We resist him steadfast in the faith. Verse eight. Whom we resist steadfast in the faith. So there's an emphasis. First Peter 5. There's an emphasis of how we live. There's an emphasis. James Peter resist. Resist. So we resist the devil. We resist him. Hallelujah. So there's a teaching on that. We know that our choices, people's choices, sometimes it's not your choice, it's not people's choice is the devil or as we call it the powers of darkness. Sometimes it's just uh life because there is sin and death in the world. It's just life. It's just uh many chain reactions coming from many other places governmental ethnic uh u economical there are many things chain reactions now bush we are not seeing it so it's not it's not god that make purchasing power to have reduced it's not god that caused the inflation are you following many it didn't just happen today many things have been leading up to All right. So some things build up over time like that. So if I don't tell myself is not a way that I will always leave that I'm not disquited within me. If I do not tell myself that there is a way I will always be tossed back and forth. Every day I wake up my hands on my j that's defeat that's some people have had to live around. My soul is always disqued within me. No, you need to now learn there must be a solution to this. It's enough is enough. I want to actually live my life without my soul being disquited within me. Every time I I'm in inner trouble or every time I'm broken down, every time I'm looking like without peace, without joy, without I can't just let things be determining my joy, peace, my state, circumstance not go my way. Are you a baby? Things don't always go your way. Now, children grow up to know that. But again, Hold on to all of this is in the heart. Ah, nobody can tell me. Oh, God. No, no, no. But that's not life. So losing peace, anxiety, stress, overwhelming circumstances, all of these things cause diseness. And we said that word soul there is not oh my mind, my emotion is entireity you. soul deals with life. The Hebrew word nep the same Greek word suk means the same. I gave you some context about that though I don't want it to be about soul. So but when you use the word my soul he's talking about his being e i n g his being is disqued

that means everything within him. So that means his mind, his emotions, his will, his choices, everything within him, I'm tired. Many times we get there in life. And the point we are making is God knows we get there. God does not say how dare you become like that. He knows. So we see that the prophets wrote like that. There are several portions of the Bible where we see their humanity where they also like ush what is this? What is happening? But what we never see as a teaching in the scriptures is to justify those positions. Instead they say I will hope in God I will trust God. Then later they say I'll come out from the situation. So it's understandable and that's where we now learn oh stop talking because as you are talking when you situation you say many things that you not like that's why I say either you hurt people you hurt yourself. No just tell your soul to hope in God. So are there circumstances and situation? Are there things that want to cause that inner turmoil? Yes. But do we have the answer? Yes. So number one, we said the answer of meaning. The answer of meaning or true essence. When I know the true essence of things. When I know the true essence of things. Luke chapter 12 and verse um Luke chapter 12 verse 15. And he said unto them, "Take heed and beware of covetousness. For a man's life consist, a man's life, the word life there." Remember how he lives. All right? A man's life consist not in the abundance of the things which he possesses. And he spake a parable unto them, saying, verse 16, the ground of a certain rich man brought forth plentifully. And he thought within himself, saying, "What shall I do because I have no room where to bestow my fruits?" And he said, "This will I do. I will pull down my bands and build greater to increase his storehouses. And there will I bestow all my fruits and my goods. And I will say to my soul, so thou has much goods laid up for many years. Take thine ease, eat, drink, and be merry. But God said unto him, Thou fool this night. That's a foolish way to live. Thou fool, this night thy soul shall be required of thee. Then who shall those things be which thou has provided? So is he that layeth up treasure for himself and is not rich towards God. When are we going to learn the lesson the easy way instead of always the hard way? Ecclesiastes gives us that wisdom. The preacher says vanity up vanity all is vanity and he said everything I desired my soul went out for it. And we said all of this on Sunday so I'll just rush out of it and move to number two. But you see that when you will make when you make your life about acquisition, it will never be enough. You have made one million. You want to make your next 2 million. You want to make your next three million. And please don't get it twisted. God is not angry or against you making those things. But don't make it the focus of your life. That's it. Don't make it you can't serve God and m the focus of your life. You are backslided already. You always because there will always be some except you don't have sense. So there will always be something to acquire. Except you were not born for much. People like us that were born for much. We have something to acquire. We want to move to the next level. We want more. There's nothing wrong with more. There's nothing wrong with more. It's just common sense. Anybody with common sense, we want more. Sorry, I'm just talking for us that have sense because I don't know because there's nothing wrong with that. The issue is now make more the essence of my

life. That's not the essence of my life. So we now said once I know the meaning of life, the essence of life, the true essence of things. Why was things made? Why is life? What am I living for? What is my existence on this head for? Aha. I've already found a major answer to my soul's disqueness. Hallelujah. I've already found some of people don't listen. They have made up their mind. This my problem is too much. I don't know what to say to you because there's some person that let pastor just finish. Let's close your friends are sorry for that trying to help you. You ought to be forsaken left to himself because we need to allow people the consequence of their so they can grow up. Grow up. Nobody has told you the truth that life is tough. A believer of all things that that who faces persecution does not know that life is tough. Quit you as men. Look at how Paul is talking. Be strong. What? What are you even going to now find investigating foolishness now? Carry enter the problem. Then let me just close. No sir, you cannot determine my message. Deal with your silliness. And I'm talking to somebody that's just how I preach. Forgive me and don't forgive me. You know that what I mean? I'm not sorry. I'm just telling you. Stop thinking stupid things. When we come to the church, the house of God, we we we come to he who hears the secrets of our hearts. Be careful how you are thinking and talking. I may just point you so everybody will know in your seat. That is you. If you are thinking is hard to know. We Paul says when you gather my spirit is there. Look at when you see how solemn the assembly is that cuz God can answer my can answer the questions in my heart man the power of God comes don't joke with church oh don't see when you sit as a place of refuge you realize that oh we draw strength there not what is all of this what is this especially when you know the minister of God gives himself to the lord he's not chased by moonlight he's coming to read for you amen because some people need this to survival. People need this. And the church is the people of whether I need it or not, they need to learn every day because it's not just about what I need this season. I always should grow. Amen. Me, I just want to have things. Have you have the things now? So calm down. Listen. Nobody is saying don't have things. Have things. But let things not have you. Things have obviously had you. That's why you are all down crying. Why are you crying? You say I couldn't make as much money as I wanted to make, but you are alive. So you get to go again. I get to go again. And why are you making your whole life about what I get to have? You see those same people who cry that their phone is broken. They have never cried that a soul somebody's going to hear. They have never cried over a soul and say ah I don't just know why things are not just working now your home has reduced to two you have never cried about it be your own judge you say is about is about natural you are not you are not serious you have it's like a a story a mom they had a house help in the house and the house help entered the room the child allowed the house help into the room And the father, the mom came back, a true story. And the mom came back and the mom was leaving very angry. And the mom so furious. She said, "How could you have done that? I have so and so and so and so." And she mentioned all the many treasures she had. I have \$250,000 there. I have gold here. I have silver there. I have are you allowed enter into the room. And

the child was just listen to the mom, listen to the mom because the mom was saying all of those things. and said to the mom because the mom said, "How could you allow this child this person enter into my room? You know how treasure how valuable things are there." Then the daughter said something that we need to say. She said, "But you left me with her. Am I not treasurable? Am I not valuable to you?" Common sense. Am I not valuable to you? My gold. But you left your child with the person you not think of that one is silver and gold that you want to die for later if you not have child that's why you know oh god why not give me a child now go and give you child so when we realize like I said once don't have to learn it the hard way because look at the questions say now the man have born child he has born a bastard child the other one say of I've collected everything. He asked all the questions that comes with human pursuit. The everything that my soul desired, I got it. But it did not bring joy, not bring happiness. There was still a void because life was not designed to be filled with all of those things. The core of life is God gets to live with us. We live one with another. And that starts with faith in God. Love the Lord with all your heart. That's the Shema prayer. Love the Lord your God. Jeremy 6:5 and 6. Love the Lord with all your heart, with all your strength, with all your soul. Love your neighbor. Ask yourself that. Love the Lord. Love your neighbor. Love the Lord. Love your neighbor. Repeated over 13 times in all the scripture. Love the Lord with all your heart, all your soul, your strength. Matthew, Mark, Luke, John, all of them said it in different ways. Love the Lord with all your heart. What's the whole duty of man? Ecclesiastes 12. Fear the Lord, keep his commandment. What is fear the Lord, worship the Lord, serve the Lord. Because why did God make man a family and his kingdom? We get to live with him. We live with one another, a family. Then there's a responsibility steward his purpose on the earth. That is what life is for. That's why in the accountability, nobody's judged, nobody's rewarded for how many house, how many cars you have. And when we say that somebody who is quick to who is who does not listen, yes, that we are saying don't have things. Who said that? God never said we shouldn't have things. God never said we shouldn't have good things or best things of life. Whatever that means to you because it changes as you grow older the best things of life. You know when you are at a certain level you say if I can have this my life is made now that you had it. You want to have more because it always changes. The goal post always shifts as you start getting bigger. All right. Just like some person who never say amen when we are praying prayers of increase and favor because they feel that their salary is enough. Very poorminded folks 1.8 million smile he he say this prayer pray for them they don't have money and you think you are rich 1.8 date every month. That's why now when you live life and you have carry responsibility of other persons, you live life in a generous manner. You see that why you must always say amen because the one is not enough. Not because it's not enough for your own food, shelter, clothing, but because you have carried the responsibility of others, it's not enough. Again, you will see the need. You will see the needs. And people are just selfish. They think life is all about the if we combine our two salary, we don't have anything to worry about. is life is about you and your

inside your house. Now a sickness have come and finish all that money. You have learned the hard way. Why do we always want to learn the hard way? Life was not designed that way. So can I have more and more? Yes, but those more and more should not have my soul. Luke 12:15, beware of covetousness. A man's life does not consist in the abundance of things he possesses. Look at that man. He said, "I will say to my soul, so you have laid up enough goods." That's not it. That's not it. Because how much is enough? So you now set target you now live a healthy life. How much is going to be enough for you? If you don't know how much is enough, it's like in the natural. I was talking to some persons and and I heard that mocking tone. They said, "You are still doing budget. you don't yet have money. I said shut up countries have budget sounds stupid. What do you think you are saying? Talking from play play mocking trying to mock me when you should be mocked. You are in a in a laughable condition that we should be pried that you don't even know budgets are not for poor people. I had to ease and he said I said keep quiet America look at their budget you richer than them no say I get the point no you not get it I will finish you let's continue more point no I get it now I said no if you saw it is it that you don't know before that countries have budget because you have trained yourself to always intimidate people with your riches bring other people down that's why you are sounding the way you are sounding I had to deal with the character issue but that was my only opportunity to bring Jesus in was I've been trying to talk to that business person about Jesus since. So I brought my Jesus in after we have we have he said ah sleep on these things and I'm happy today he's saved believes in Jesus that's a good one I didn't pity him because business talk we entered the business talk the right way I finish his life there he listen to this message it's not true because it's not fair there's money we have you are learning from your boys be intelligent how much is that one we can spend it in one you spend the one doesn't make you intelligent be learning like that living life that's the is the is the is the pride that's why it's called the pride of life calm down calm down they finish people richer than you that are not rich again. Oh, because they not know many things. Hallelujah. So the book of Exodus is look for meaning of life in many vain pursuits and at the end he described everything that I still feel empty. I still it will still bring you back to that same soul disquiet. I still feel empty. That's what I mean by vanity upon vanity. This is meaningless. Vanity empty vexation of spirit chasing the wind. Ah, look at all the main things he said. Says chasing the wind, vanity upon vanity. Let's not learn it the hard way. Is that okay? Because many of the things uh how can purpose, fulfillment, satisfaction in life be found is found in God. When you learn that that is it, you will now play the game of life. where like I told you somebody 40 years can still have more educational qualification if he wants so he can go to school again if he wants so he can have more degrees if he wants to there's no end to acquisitions there's no end to acquisition you always want to acquire more and more that's why we always tell people even the natural way want to say why do you want to if you don't state why you want to be rich you know because that's why there's There's no particular amount of money that is called wealth. It's now that state where you are financially free where you

can live independent of things and it's more than a particular amount when always want. So you need to now be able to situate things and say okay this is this. So first Timothy 6 having food and women with be content because you realize that the basic things like I told you which is what people learn the hard way because there's nothing out there that money cannot buy. So even all the plenty food you see they serve it plenty all over the table still remain because but growing up they would have you not see any remnant life is more than food and yet food are the basic things if not if those three things are not there food shelter clothing you go vex so but you reach a certain level now don't have so much money you have to buy so many clothes you make a lot of money you be you have gone beyond that law of branding Whatever you wear is determines style and class. You can choose to wear singlet. Imagine uh Jeff Bess with singlet. Everybody will start wearing singlets. We sing every day. Every day, every day not know that he forgot to wear shirt. Let's say he's forget to wear shirt like that regular. Nobody's going to think that he's so broke. So this man could not afford. Nobody's going to ever think it to he could not afford a style. A style, a style. We make excuses and we supply the answers for the people who have gone beyond those things. Life is more than. So let's not learn it the hard way. Because even those people still want to make more, still want to make more. Why are they making more? Not because they already don't know. That's why they always giving half away, half of their wealth away, a quarter of their wealth away to philanthropic endeavors. Because how much can I eat? How much can I? So I need to learn that without having all of those experience. I need to tell myself now how much is enough? Need to be able to tell myself that. If not, why are you disquite? Why is your soul disquited within you? Because you have not said you have not told yourself the real meaning of life and all of that. So no, I failed. Oh, God has failed me. Which one is God that failed you? So when I understand the true answer or I know the meaning of life, the essence of things, much of my soul's disqueness has already been answered. Is that point clear? I think I have repeated it again and again. So life is more than having things. Things have a purpose. But when things become my God, that's idolatry. when things when we worship the creation more than the creator things is not my god so we try our best to have time to serve the things of God not I don't care about Jesus I don't care about his name I don't care about his work I don't care about his cost because I want to make money how much will be enough because you say if I can just make enough I will take Bible study seriously how much is enough where you take Bible study seriously realize that they will never come because As long as you have sense, you have exposure, you want to make more again next time. That's why you must tell yourself what is important to me. Look at David like we always say, richer than many of us. One of the richest men that ever lived because he stored enough that helped Solomon to also be rich. He said, I rather be a doorkeeper in the house of God and to dwell in the tents of wickedness. The same David said, I was glad when they said, let us go into the house of the Lord. That's a king. He's wealthy. What do you think he's lacking? Because there's more to life. There's more to life. And that's what we learn in church. When we see that, oh, rich and poor sit

together. Educated sit together. Because what puts people over people in the local church has to be their maturity and their service is not who you think I am. No, not like that. serve one another cuz that's also you know okay so that's not about I can abase I can abound yes I can do all things through Christ that strengthen me in Philippians yes I can live with plenty I can live with small and every believer trains himself that way that is the reason why every believer can be a minister because that's what I remember uh sharing a story with some person I say the fish you cut it into two the Say you want to eat fish every time cut it to the half this one is poverty how you how do you understand this like this because I'm poor and suffering and dying say ah no then why not hear what I'm saying because you don't have the money to buy you want to cut it to like say no you don't learn sense of management now I give you the sense of management because you think people get to where they are without learning those basic things now you have gotten trying to rise you cannot rise because you have failed in basics, you cannot manage things. Some some persons I mentor in business and I said to some of them, I said, "You spend more money in a month than me. I've never been able to spend over a 100,000 for myself in a month. Never been able to." I'm not saying, of course, maybe I'm conservative by nature, but that's not it. What is how many Okay, you learn it the hard way. get to see and that hard way is now that frustration that wrinkles all over your face because here we go again. Here we go again because how much is going to be enough? I'm talking about house expenses. I mean not like your own pocket money and you spend more than say because God things are a bit better for you financially. Calm down. Calm down. No, calm down. No. And I talking to some Christian brothers and I said to them what I give in a month and one of them was so interested and said so that means you make this amount. I said no I don't make that amount monthly. Of course in the day of abundance I had sense enough to ensure that my finances I put it back for investment assets. I don't buy liabilities. I don't spend for liabilities. I ensure because it's the wisdom of not the seven years of Abundance covers the seven years or five minutes just so so always plan for the day of scarcity. So put things in place structures have been put in place. So the money that comes in a month in itself is not the issue is that money now comes from many which is again the concept of being wealthy of pushing be to be wealthy. You learn all of those basic things. It helps you. I explained to all of them and they said so so that's just it because for me core of what I use money for is the things of God either I'm using the money to make more money if the major percentage is either to make more money or if you start what I'm doing that month is generosity that's just you can have other ones for your life but the reason why I wanted to be wealthy in this life was not because I wanted to have food to eat. I was not working and I have food to eat. I had all of those basic thing that used to survive and I learned management the right way. But I wanted to have more. That's the reason. So when you want to have more, you must do what people do natural to have more. Not just they give you your manager like that. You can't be saying I would have wanted a better one. go and work for your own you get the better one. So you learn all of those things. I came up the

right way. Anything you don't grow into will crumble. You will destroy you. So should why do you want more? For your wellbeing, for your happiness, for your joy. Say money does not make me happy. How come you are sad now? Because no for one year. Calm down. Money makes people happy. Stop saying foolish things. So say money does not make people happy. No. Say I'm a Christian. Money doesn't make me happy. Christian, money can also make you happy. Don't be saying things that Bible not saying you. Are you not happy? Are you Don't be a hypocrite now. Money makes you happy. Sound of out loud is a joyful sound. If it's not joyful for you, it's joyful for me. Oh, it's joyful for Jesus too. Look at how the apostles were happy. I mean, read Bible properly. There's no pretense of No. So you want to make more for your wellbeing, your happiness and for the cause of God. For me, I reverse it the other way for service because priority everything God is priority for service and for my wellbeing. That's the same thing. That's the same thing. Same thing I say to my family. I say when I get to that level where I can offer, it's easier when you are climbing the ladder to fall down. So daddy mommy understand when I get to that level where I cannot fall again that will not be an issue but I'm climbing the ladder it's easier if you all pull me down all of us are here now nobody can help anybody again we looking at each other you're looking at me I'm looking at you too like where do we go where do we go to no let me put structures in place so that I can't fall and while I'm doing that this is the level of generosity that I can afford not because I I don't More than that it's just common sense say oh yeah nice give you parents that listen I explain myself so I do all of that because the time is coming where that will not be an issue but for now and that for now is for now still be strate no no this is what I want what is uh look at that first Timothy 6 writing to a pastor which every believer should take as his minister as his normal way of thinking food say be content you know why because at the core when you have made so much money you will fall back to that same conclusion which is what I'm saying plenty riches go teach you that how much can you eat those of you who have seen big money how much do you eat how much do you eat how much do you eat even if you were born a glutton the more money you make you realize that sometime you skip some skip breakfast or skip lunch or because you were pursuing a deal that deal was how much food there's more I'm not talking about because you lost appetite all of those things I know you have appetite your phys all your your appetite is working your the multivitamin or whatever you are taking to boost your appetite your appetite is fine but there's more than that food there people say how do big men leave food in their plate you think they wanted to be leaving the food on plate is that there's more to life than that chicken. You see the chicken once in a while, they see it every is not an issue. So there's no let me devoid it. No, I'm not trying to put anybody down. Please get the point of what I'm saying. That is because wealth have now taught them the thing the hard way that life is more than this thing and life is more than it. Life is more than it. Life is more than it. Life is more than all of those things. Is it now wrong to have those things? No. But to make it the essence of your living, you will always be disqued. You will always be in turmoil. Don't sign up for frustration forever and now as a

Christian look at the people who did ritual to make money now. Did they want to die when it came time to die? Now two two months ago they don't want to die again. Why? Why? I thought you said it's enough for me. It is never enough. Don't make life about material pursuits. Don't make life about So is material things okay? Yes. But don't make it your life. Don't make it the essence. So once I know the true essence of things, the essence of life I'm okay. Look at how people put down people who are not rich. And yet they love Jesus. You to envy them to be like them. You are putting them down. They are rich towards God. Because now we say win so you have not won one soul for one year money perish with you say say I put my money there which put stupid money are you putting there I put my money there you care nothing about the cause of Jesus that we didn't learn that from the Bible people who put their money also went don't be learning from greedy pastors read scriptures people who put their money also give people who pray also go not I will pray for you I won't go no I pray for you and also go I preach and if I can't travel outside B city to go preach I can't follow them for missions I can do the in my street I can walk with my s leaders about that say ah I don't know what to say we did we all know what to say at the first that's why you have somebody you are going with over time you get good at it how will it feel how will it feel are you saying when you win so you will realize the joy So now you not realize that when you feel that joy cannot be gotten with alert and alert gives joy don't remove it remember but when you start living for the things of God I can't describe how I feel when I get when I see somebody healed of a disease I can't describe how I feel it's enough that one can last me for a month and I that's why I'm always doing another one so that I have enough have enough things to think about and I'm happy I'm joyful Because life is more than life is more about what you do unto the Lord and onto others. I put smile on that person's face. I help that person achieve that goal. Oh, I gave that person that wisdom that was so needful. We ought not to leave onto our self. Much of your soul disqueness have come from the purpose of life. Living onto yourself is sign up for frustration. You will always be for selfish me I no life one to another God one to another that's it when I realize that I can now live properly and when I'm living I now realize that all those pleasures I put on myself is not found in my living to go and living one to another because in my living one to another genuine friends are not bought with money because money day money all A silver acquires friend now but a friend is born in day of adversity. You notice how proverbs define friendship is when you don't things are not working you know. So that means you don't buy friends. A wealthy man has many friends. Proverb said you know why he has many friends. They are friends of his money. Not his friends any nonsense. No we don't buy friends. We don't do all. So when people are sick and dying in the hospital they not saying where's my house put off of my bed. They say, "Did he come? Did this person visit me?" We care about our family. We want the people we love around us. Don't get old and learn it the hard way. No. That's what scriptures are for. We've learned the wisdom of God's word. Amen. Number two, the answer of hope. The answer of hope. Lamentation 322 to 24. It says, "My hope is I will yet hope. The Lord is my portion." The lamentations of

Jeremiah. So there's even a book called lamentation. God knows that we lament. Lamentation 3:22. It is of the Lord's mercies that we are not consumed because his compassions fail not. Verse 23. They are new every morning. Great is thy faithfulness. Verse 24. The Lord is my portion. Seth my soul. Therefore will I hope in him. So another way I can answer my soul's disqueness is hope. By hoping in God. Hope is expectation. Notice that uh Psalm 42:5, Psalm 42:11, Psalm 43 verse 5, the instruction after he says why thou crows down while with me say hope thou in God. So that is the obvious one. There's hope for a tree though it be cut down it shall sprout again. Job 14:7. Ecclesiastes 9:4 for him that is joined to all the living there is hope for a living dog is better than a dead lion. living dog and lion is better than doggo but the fact that the dog is alive is better passion or die there's hope so that means as long as there is tomorrow there's hope and he now says his compassions fade not his mercies are new every morning that means a new day is a new hope I'm still alive and that's why when situations are tough notice what Satan promises you kill yourself you'll be better have I died now help the situation always know how to answer Satan. Always know how to silence the voice of the accuser. Always know how to steal the voice of the avenger. Never lose your praise. Never lose your wonder. Never have hope expressions. Ah no. Some people do thought replace thought. Stop learning from psychologist and therapist. Learn from the scriptures. Thoughts do not replace thoughts. Now words break thoughts. That's what you are doing when you don't have Jesus in your life. You can be doing thoughts replacing thoughts that those things don't work. You need to come for the next therapy session. Words are greater than thoughts because words are what I think about. So if I want to break a thought very fast, I use my mouth. Open my mouth in the name of Jesus. You ought not to think like that. This don't end. I'm not going to hear your next whisper. It's everything will just go silent immediately. Words break thought in the twinkle of an eye. Words are greater. That's why I say take no thought saying because when the thought has now entered your speaking you are overwhelmed that's where depression all those things come from because one thought your thoughts have a voice you are worried you know have you not seen people along the road when they are walking I've seen such many years ago I've said that story say this my daughter no keep me up she was just walking on the road that's what she was saying this my daughter no keep me up another one doesn't happen again this my daughter said she you think she wanted people to know she was lamenting of her daughter. She was full of matter. She was full of issue. Out of the abundance of the heart, the mouth speaketh. What fool your heart will come out from your mouth. Amen. And when thoughts come like that, no, we use words to break the thoughts. Is that okay? We don't voice it. We don't give voice to our worry. No, we give voice to our faith. Believer's voice of victory. Kenne give voice to our victory. We don't give voice to our worry as a solid one from that man of faith. Yeah. Give voice to say it, declare it. And the answer of hope, what say you? That hope is expectation. Hope is the cure for every disquited or troubled soul. That hope that is rooted in God's word. It disarms anxiety. said it uh uh God's wife said that

when that sickness was ravaging her hope I trust in you oh God she was reducing by the day but my trust is in you my hope is in you that faithful date husband prayed many persons prayed Taylor was born walk into that room and all of a sudden things have gotten but it lasted for years yeah sometimes you don't just know why these things is taking longer than it should but my hope is in God and she in her book she said hope is the cure for this quietness. That's true. That's true. Hope in God. I trust in God. This the Bible is loud on hope. Loud on hope. Loud on hope. Hope. I trust God. People who have been through things know the power of hope. The place of hope. It may it it say oh it's just a suiting relief. It's just a temporary relief. But it's every day I'm having hope. So that mean it's a forever relief because I always have expectation. I always have hope. I always have hope. You say, "But sir, hope deferred makes the heart sick." Yes, but I always have hope. And those are two different words for hope. Hope. I know. Oh, my did not come to pass. It's different from I say to my soul, have hope. There's a different context. Don't mix the two. That's not the same hope deferred there. No, expectation deferred. But when you say hope thou in God, it is a charge to your soul. That means always be in the situ in the always be in that place where you will yet praise him. Not yet mo complain. God is not true. God's word is not true. What God promised you is not so. What God said to you is not so. No, no, no. Answer all of those things with the response of hope. And I much of what we said when I was talking about the answer of many meaning when we say the answer using many to answer the disqueness use hope to answer the disqueness. We've said a lot about hope already because we read the Psalm 42 Psalm 43. All right. So hope in God. Hallelujah. Look at Psalm 31. Psalms chapter 31. Been on the Psalms for some time now. Just refreshing myself. Psalm 31 and verse 24. 31 and verse 24. It says, "Be of good courage and he shall strengthen your heart all ye that hope in the Lord." So that means hope can strengthen your heart. Go backward a bit. Psalm 27. Psalm 27 and verse 4. Psalm 27 and verse 14, wait on the Lord. Be of good courage and he shall strengthen thy heart. Wait, I say on the Lord. So you see that it can strengthen your heart. But we say strength for your destiny. That's an anchor. I always have hope. I'm always full of in the natural this word some people call I'm positive. Is it not better to be negative? But it's beyond that. What we have is more than positivity. I have hope and it strengthens my heart. No, I don't crumble as a pack of cards. No, I don't No, I don't melt. I don't fade easily. No, I'm sand. I'm a man for all season. I'm built to last. A house built on the rock. My trust is in God. My trust is in God. That's a posture. That's uh a first response that so no matter the storm, the first thing is I know I my hope is in God. So I'll come out for me. So I immediately begin to deise the way out of it. Not there whining crying thinking that uh your whining and crying is going to make things change. No. Be an adult. Some people are just babies. They don't want to grow up. Take responsibility. Whining, crying or dying doesn't change anything. Only left the problem for other persons. If you have any sense, it means you're a wicked person because you have children. You want to now die over an issue you are going. you have killed your children. So the man cry said they have come to take my train as as shorty no

now that does not solve any issue deal with the issue deal with the issue and that's why I must start off with hope I say to my soul why all of that inner turmoil I said no no no this is not the end this is not the end so the psalmist solution to the disquieted so he said hope in God for I shall yet praise The word hope there sa y a c h a l. Sometimes the s is removed depending on the uh Hebrew dictionary you are using. The Lord is my portion ses my soul. I will hope. I will cling to hope. The steadfast mercies of God never fail. A new day new possibilities. Many times what people call luck is that the person refuse to give up. Then all of a sudden now jam that person have prepared for s opportunity now jam preparation say the person was lucky but the person could have given up since hope is the cure. Look at those three Hebrew boys. We know that our God can deliver us but even if he does not we still will not bow. That is hope. Their hope is not broken. They know they know where their faith and their trust is but they are not they are not serving God because he go do not do this. No no I may I never lose my wonder. May I never lose. I I I keep my heart steadfast in that which is absolute and unchanging and unfailing. And I know what's unfailing. His steadfast mercies, his first. Even if I'm not sure of anything, the bloody hands, the nails, the gap in his hand, they nailed him to the cross. That's enough to show he loves me. Look at how far he will go. Then he says his mercies are new every morning. That means a new day. The same way how is God merciful to the wicked man, giving them time to repent. That's why they don't die. That's why the police don't catch them the first day. God's mercy is seen in time. Look, I can tell you a lot about that. Look at the woman who has waited for many years to have a child, 20 years or 10 years as you have seen in some cases. Then she wants to have a child. She starts with who? Mercy. The mercy of God is always seen in time. God has compressed time for her now. And now in one go she have had two which is almost the same thing if you were splitting putting time between children like that three years four years between them. So she has two at once or some you just see three at once. Have you not seen stories like that? I mean you think all of them are faked stories abound like that. Some triplet was one I saw 21 years I've not had a child and they just did three at once. Oh God faithfulness. That's how sometimes you just get to know that God is God. His mercies fadeth not new every morning. Great is thy faithfulness. So a new day means we get to go again. So for every day I will not be in negativity. For every day this marriage, this marriage you are sounding somehow. A new day means we get to fix it. We get to work on it. Oh, and you every time whining, dining, be full of positivity. Make things work. Stop always throwing away everything that doesn't work. Amen. So hope can strengthen your heart. And in prayer, we find hope. Hope is for the living. When we pray, that's why we should pray. That's why in prayer, prayer, we get hope. hope, faith, love. These three things are by they are for life. You cannot remove it for life. But love is the greatest motivator. So he says love firstians 13. You can't remove hope from life. Can't remove hope from life. You can't remove love from life. You can't remove faith from life. Don't die. Hope is for the living. So I hold on to my hope. So I may not know how is going to change but I have expectation. I'll be patient. Everything does not happen immediately

now. Even delay should have taught you a lot. Everything do not happen immediately. Everything not answer immediately. A woman is pregnant. She doesn't give birth immediately now. It takes nine months. Don't say oh the child has come. The child come out now. in the seasons where things are not going the way you wanted them to. Everything must happen fast. Everything in life does not happen fast. And that's not because something is wrong. Some natural things just don't happen fast. Learn all of that and learn to always have hope. Learn to always have hope is the cure for that trouble, disqued. So, Amen. And in prayer, we get hope. in prayers. I don't know what is happening. Learn to admit that you are not God. I don't know what is happening but I trust you God. Just pray those simple prayers. Some people are always wondering, oh, how else should I pray? That's a prayer. Now, Lord, the darkness of this world is slowly trying to seep into my soul, but you are my God. Help me. Help me. I find strength in you. Just pray simple prayers and just walk away. Pray and walk away. Walk away from those situations. Live life. Just trust God. Some people never get to see their prayers answered because they always dig it up every time as they pray and start digging. Say, "Are you sure that was the right? Are you sure God have read me?" It's like planting something always digging up what you have planted. It will never grow. It will never grow. Some things take time just like some all trees don't grow the same way. Some take time before it even sprout out of the ground. Takes time before it spread out of the ground. But those are the biggest trees. Could just be that yours is the always have hope. Say ah you're not giving yourself hope. Hope is for the living s living hope. Stop apologizing for having hope. You say just encourage yourself. Should I discourage myself? If I discourage myself then I'll be like you disqued so I can't discourage myself and David encourage himself in the Lord. Many times when you at the edge of your breakthrough it's always when giving up comes till two days later David is king that so he could have even all the mighty men that have raised have all betrayed me now because they went to stone him and David because all their family everything has gone but he rallied them again as a leader does and they push over take recover then after that the next day Sing battle he went to go and fight in his own side and David is coming back and tell him and now for you know three days later he's kingh why is he have not seen that s I saw the people not they acting in Amazon rubbish don't ever learn from a movie when they doing Bible learning what they not send you to learn say is Bible is Bible is Bible they take they even tell you they take creative liberties too much and sometime they take it too far take it too because they take it too far. I was watching uh a friend of mine said, "Are you not entertained?" I say, "I'm not entertained. I am angry." That's why I don't watch things like this. How can I be entertained when they are changing Bible story? I can't be entertained. There is no entertainment there. Say it's just the trailer. I say I know they watch. How can the spear touch David? When Julia th David like don't do that lie lie lie lie and I'm not entertained though I'm no entertain I'm grieved I'm grieved because he's the wisdom of this world that always tries to hide God what kind of nonsense because it's Goliath because he's big that's why I fell once not that's how I also see life

because the situation is too big so it is one stone I will use you know you know that you're not encouraging me you are discouraging me but Again, I don't learn from movies. They're just for entertainment. But that one doesn't entertain me. So you go vex me. I'm in control for God's sake. I have the remote. I have the phone. I have the subscription. The vest control. No, just remove it. So you don't go wrong with Jetly. You just know trick. We just I'm entertained. Don't go wrong see the man flying I know human beings don't fly is enough you are watching say that's how you ought to love me I beg I beg I beg I hope you know this man is divorced three times we all watch this fil in peace cuz if the guy was so great walking alone he would not div it's a script I beg you let's not fight over script you need to learn to have conversations like that with people a script a script all right doesn't mean you shouldn't enjoy each other that's not don't quote me or please I don't know what you are going through that you want to use because I just saw somebody say when I get home I'll tell her ah The answer of hope, please. Hope is the cure for every disquited or troubled soul. Is that good? Number three is the answer of wisdom. Answer of wisdom. Wisdom. Wisdom. Wisdom. Wisdom is the principal thing. Go after wisdom, wisdom, wisdom. You know, Proverbs said that now wisdom is the principal thing. Proverbs 4:7, therefore get wisdom and with all thy getting understand. So wisdom is very principal on this earth because wisdom helps you live life where so one of the Yeah, that's what it means by wisdom is the princip principal thing in this life. One of the greatest principles you can ever have principal principles you can ever have is to always have wisdom. You'll get far in life just by having wisdom. And that word wisdom there's the Hebrew word choke man c h o o k m a h which deal with a skill your ability to interpret things well to cover all perspective. You now have a skill of life which is what the Hebrew call wisdom. He has the skill of life or like the Hebrew rabbis we say the breath of the Lord he has fed on the Torah. So God in turn has breeded into him wisdom. The answer of the tongue is from God. Preparation of the heart belong to man but the answer of the tongue is from God. The mouth of God. Wisdom comes from the mouth of God. As we feed on God's word, even if you don't get to learn many natural things, as you feed on God's word, he breathes back into you, which is in meditation. As I meditate on his word, he breathes back on me and I get wisdom. All of those things I've been saying are all quotes. So, proverb dead there. If they can help you, put them up, they help you. But wisdom is very, very important. Wisdom comes from the mouth of the Lord. God gives wisdom. Look at how Solomon got wise. So wisdom is for the humble. Wisdom is for the humble. I'm but a child. I don't know how to go in or come out. Now this is the 13th year I've been praying that prayer. I have not missed a day once to pray that prayer. Lord, I'm but a child. You say, but you're not a child again. I still pray it. Still pray it. Immediately I discovered that prayer. I pray it. Lord, I'm but a child. I don't have to go in or come out. Help me. Help me. It's an everyday prayer. Help me with wisdom. Help me with wisdom. Help me. Help me. Then I answer in faith. I know how to do what to do. I always know how to do what to do in the name of Jesus. Release your faith also in that area. But wisdom helps. Wisdom helps. Many of the challenges people have, it's just a

wisdom issue. It's just a wisdom issue. Tell your neighbor, it's a wisdom issue. Wisdom. It's a wisdom issue. It's a wisdom issue. The Lord gives wisdom. Proverbs 2:6, if any man lack wisdom, James says, let him ask, wisdom come from the mouth of the Lord. That was the text I was looking for. I just read. But James say, if any man, let him ask God. So we can always ask God for wisdom. And that is spiritual wisdom. And that is all perspective wisdom because wisdom is earthly, sensual, devilish. There are different kinds of wisdom. the wisdom that is now of God. And God's wisdom is for life, I'll have better interpretation of things. Amen. Also, I don't throw away uh the wisdom of this word. As long as it's not against God. Did you get it? So, that's why you brush your teeth. You don't say, "Where is it in the Bible?" You need a Bible verse to brush your teeth. You need a Bible verse to eat food. You'll die. See, if I don't find 20 Bible verses on this, I will not wash my clothes. pig. That's all we ought to say. We don't need a Bible verse. We just answer the question, you are a pig. Say Bible. Give me 12 Bible verse that I should wash my clothes. No, you don't need a Bible verse. Pig. Next answer. Don't be stressing yourself. Say I'll give you 40. Don't give 40. Common sense. The words of the immortal one. Wala you are immortals. Legendary singing. So the answer of wisdom, you listen to those things. What if I do? I don't. But what if I do? That's you are taking life too seriously. I don't listen to things that are vulgar. That's the important thing. I've told you before what is secular? What is listen to things that are against what I stand for? Please listen to good music and they sing better music than all this your butter my sugar my teeth all this need centered song that you call gospel songs which are not gospel songs everything is always we go we go everything is always dream it's always looking like you know entertain it's like it's like worship to god now they have brought different songs inside joy is Call me joy call me. So people will not die. Well it's a figure of speech. I mean what is that one inside church again? You can as well just sing Lambo inside church too. Since everything that trends is in church you will hear it and say not be that inside church you are singing. Wow. As I say, it's high praise. It's high praise. It's high praise. Is high praise. Go to school. High praise. You think high praise is shouting praise. Oh my lord God. High praise. You have carried chair. You have injured your neighbor. Now we have your neighbor. You swing chair Chris say I crazy. No, you the crazy say I crazy. You enco yourself. You are actually crazy. Say I crazy. Now God I pray. You are actually crazy. It's not not be say I crazy. See, but that's what David did. No, that's not what David did. David did not care about his wealth, his standing in his worship of God. So that means he danced and rejoice before God regardless of his. That's why his wife, which notice how David, you must know how to answer. When his wife said, he said, "Is it not God who made me king over your father?" your father that's meaning of your father David he has lines so you know what he wanted to say was your father so he just found a way around and say your father yeah think I don't know what you are trying to do and that's how he looked away from that woman and she was burying all the days of her life forgotten that she is also a priest so they did sell her off to another man but it didn't matter didn't matter contrary winds blow And in his disdain, in his state of his heart, because he's a

priest, a king, a prophet, that look meant everything because she mocked him and he said, "You have brought yourself low." He said, "No." He said, "Then in his answer, he said, I will even yet be more base before God." That means I will not regard any state. I'll lay it all. That's that's the believer. It's not. Don't use that verse to justify our decrease. God doesn't want us to be crazy. No, no, no. Should you dance? Yes. Is there a Christian dance? What is that? Please dance. You want to dance? Don't is Christian dance. Christian dance is this. Just go back 1967. Then you see this. It's also MJ [Music] Jackson. Calm down. What dance say Christian dance what are you what are you saying just dance if you want to dance I beg sing to your God praise his name what what determines gospel or not gospel is the lyrics and that's why the lyrics are more important to us not not the beat that they are playing say that beat is from hell after all it's from hell rose cannot frighten us now. Where shall you flee? His presence is there too. So don't come down say no what I'm trying to say now to say we have brought Bible now to also hook that position. Wisdom is important. So we have to learn how to live in two words. For morning for example, m o n e y for morning for example, do natural things like somebody say I don't just know the way life is. I'm just tired. I'm tired. I'm tired. Say okay. I know you're tired. I know you're wanting to give up. Do you have a job? No. Do you have a business? No. So learn this skill. No. We are tired of you too. It's not just you are tired. We are tired of you. Ah because we want to help you. He that hiding his neck will be destroyed without remedy. He say money is not coming. No money is coming. Keep marketing all of those things that you used to get money from. Market it again and again and again and again and again and put so much pressure or attention on it. It will it will work. It will work. And also as you are trusting God we didn't say remove that but do what you should do in the natural. Maybe somebody say oh that 50,000 is too small for me with your unskilled labor. It's unskilled labor. They say go to school. Education has scammed. School come. Adulthood has scam. Education has scam. Everything is scam. Have you not been scammed now? I've been scammed now. Now 50,000 is not enough for you since you don't have. It's not an insult. It's the truth. And because you don't say that to your friends, you don't say that to people you know, that's what encourages the foolishness. Why should you not be content with 50k? Say, "Ah, the things are too bad." But that's what we can pay. You say it's not fair. It's not fair. We are going you employ you employ people. You see those same people who say it's not fair. It's not fair. When they employ people, they can't pay them too. You mean I pay people well? I don't have an issue with paying people well. I'm not trying to justify myself. I know enough scriptures to not but starting point depend on the kind of business. Some people don't even think can this business make this money? Can this business make this money that we are so oh I can then go for another one no but there skilled and unskilled labor always know that. So this kind of amount that you are looking for then you are going to stay alone. These are just common sense. How can somebody make 50k and they live alone? Don't be go die alone. One day just wake up die. Can you stay alone? Then you say it's our ebo brothers now. I don't want no can be five in one room now, four in one room. I cannot do

that nonsense. You have pride with poverty. You can't live with somebody too evil. Only you scarcity was not enough. You had pride to it. Ah no. Because if you can't pay your rent in two months, then you you living a house too big for you. These are common financial principles. you learn so that there's no weight there. Then also you learn to remove it every month divided by 12 you know okay it's just a fraction here so because it's uh you have a a house of 120,000 which still exist now you look for nearest to vote are you a banker you looking for a house to live you close to with 50k that they are paying you looking for house close to vote it's life you just give yourself unnecessary heartache why do you want to live near road people that have more money that live near so they can quickly go and make What are you going to say near road for? Trek out. Trek out. So as you are trekking, you are thinking. Trek out. Then I say a lot of things like this. You think I'm just throwing banter but I making you think they say I need to live near road do waiting. Why not living near road? Because you say there's no cheap house. Now you go look for near road now how day it cheap go inside you see house cheap you want live near road I don't know how people don't have money they can't tre what is happening there's a how did you even get used to that comfort life without money say just it's far I just have to enter oh when you don't have money it now becomes your healthy routine you just tread Just like all these our people are going to gym that's your you just dream it out it say because it's in phases then as you are doing that say I'll not be here not I'll not be here you want to rob from your madam you will go jail and I will agree I say pastor what do you have to say I say lock her up throw away the key not that typo of I will not be here next year you want to rob your madam not that type. But realize there's skilled and unskilled labor. So you have to do something to make money. Can God meet our needs? Yes. But doesn't he exempt us from now? He met your need once in a month. You de vex. But he met your need. Met your need. Say ah. But that's why you should have fasted the rest of the days that your needs were not met since you want to make it about God. common sense, food, all of these things. You see, but close the quote Bible verse. Everybody knows it. Everybody knows that verse you're trying to quote. How does God clothe the lilies, clothe all of those things? How are you here? Yes, sir. So, let's answer the questions. So, the answer of wisdom. So, for money, do what you need to do in the natural. That is legit. Say, "Oh, there's no money in my hand." Where were you expecting the money before? Sir, you are a t. It's good. We tell people that if you don't want to work, why do you say a 19 year old say I'm I'm done with life. I'm tired. I'm just broke at 19. Your father failed you. You are tired of life at 19. Never start. If you use hand, count your age. You are tired of what? You can use hand to count your age. You are tired of what? I'm done. I'm done. 17. I'm done. I'm done with iPhone 15. I'm done. I'm tired of life. iPhone 15 with a cost brain. I've sold that phone. I have buy the truth and sell it not so that you have sense. I'm tired of life at 15. That's all the identical crisis we used to have when we teenagers. So which one is I'm tired of life? It comes with this new I'm tired of life at 15. You're tired of life. Say all my all your mates. There are many of your mates that are dead. Why are not motivated to go and die? All

right. It's true. Now you say all my dead why not say tonight I die. All my mate are dead. 15 years I'm tired of life because of what? Say I couldn't buy iPhone 15. Is that part of age requirement? So when you get to 16, you ought to have an for 15 iPhone for 16. Is it an age requirement? Say no. When you want those things, you work harder. That's why we work hard. If by working hard, say that to our mother, say that to our fathers. Stop justifying evil. Is say that to our father. Say that to our mother. You know how honorable your parents were. Give birth to four children. Look at you now. Just one child you have is hard to take care of them. Then you you dare say your father was not good, your mother was not good. You go old. You go learn life. You thankful for the parents you had that put your needs over their needs. that put your priorities over their priorities that your father never bought a new cloth for as long as you were. Look at the things they never did so that you would now you now you want to get everything get everything you have sold your children's future because of your pocket just to look good for who wear your cloth more than once is a proof that is yours I be say I don't know why I I can't wear one dress four times wear it 50 times it's your cloth you're the same person now that say wants life has yellow trouser. Everybody knows to buy black trouser to start life, you know, because because it's it's it's about ste composure, whatever you call it, poise, ambience, packaging, yellow trouser. We thought that was enough. Then you now had purple trouser. What are we going to combine it with, sir? After purple trouser, red trouser priest of no black, no blue, no no navy blue, no brown, no ash, no you didn't see all of those things. They're the same way we not give you 100,000. That's why you misuse it. is the same brain that did not tell you to buy black trouser. The same brain that's how when one million is given to you will squander it. Look at people how they handle. I I I I speak with investors a lot and real investors, not comedians saying they investors, not sabi one, whatever that means. I didn't want to say the real ones they don't sue me. Oh god, I think about everything. It's good to have lawyers as friends. think about everything. So back to what I was saying, real investors are not impressed by you snapping picture with a plane like you are a cockpit cleaner every time recycling pictures of airports like you work as a cleaner in the airport. Real investors look at how you manage funds. The real investors they don't look at you where to borrow car to snap picture they know that you are going to use their money to buy car they won't give you real investors not I'm telling you not this because you will see it as you get older people interact they will look at your management look at sometimes where we even get to investigate people's uh account statements why all these frivolities Say I I I I what I need is a 100 million that 100 million don't move 30 joy call me that 30 million you know that joy that is coming by one ride to pepper them pepper poverty have you not learned enough no don't prove a point to anybody so wisdom I know what I need to do in the natural so how do money come money is in the hands of men Money is in institution, money is in ideas, money is in many things and I do all of that I have value. The value economy is what created money in the first place. So if I meet the needs of others, if I can solve the problems of others, if I can offer value to others, I always have money. I you know those

things in the natural saying what are you now doing? Say no, I trust God. Stop it. Stop it. I didn't say stop trusting God. Don't trust God like that. That's a foolish way of trusting God. So for money, work hard. So wisdom. So many of these souls disqueness. Like I said, look at the person is not happy. Oh there's no food to eat. So I ask say I live alone. Say how much are you paid? Say 50,000. You leave alone. The person was surprised that I was surprised. How can you live alone? So what if you die in the night? He said you live alone with 50k. Then you say the economy is tough. That's the reason why you should not have lived alone. Then you have a flat only you. Then how much you earn in a month? 100k. 100k went to go and rent flat only you in a flat. Big boys are cheating. You are not a big boy. I'm not a big boy. I'm not a big boy. That's why you are crying tomorrow. Say show glass. Every day you come with new philosophies. What is that? No, you learn it. Look at people who are not. They know oh three of them. You are not married. You are not making so much money. You are staying alone. You want say Google be careful express no now you should be falling in that flat that way you notice that in one month you have paid the rent no pressure go pressure and say God God I cry to you God cry to you too I say I have sense I have sense I cry to you oh Lord let the world know ask me where my God God said so they will tell you now you will not hear that one and say unnecessary pressure people put themselves underne so wisdom tell your neighbor wisdom go after wisdom so to be disquited to be troubled distraught worried upset over circumstances one cannot control and with wisdom we can control many things with wisdom look at for example people who live their life with compare Comparison is that's a thief of happiness. Now that is one major way people are disqued within them. Comparison. There's always going to be something you don't have that somebody else have. Calm down. Calm down. Not go kill yourself. Do better than me. Go and do better than her. Now you want to do better than I understand. So she should die. She is happy. How come? May God take her place for her. I use the ones that are but they are more evil comparison. It's a thief of joy and happiness. Always comparing but you can compare yourself but you cannot say how many hours does he work? You can't compare say how many books does he read those ones. It has never motivated you. What's always motivating you is is the is the things we have. Is the good things that people have that you don't have as if they stole their own? When will you No, no, no, no. Don't do Don't live life like that. Read books, interact with people, glean wisdom everywhere you can glean wisdom. say they that compare themselves with another are not wise. That's what Paul says. So and wisdom and one of the core things that makes people a bringer of this quietness is comparison. Comparisons look at what this man is doing with are you married to the man? Look at what this woman is doing. Are you are you the wife? Look at what look at look inside your house. Ah the eye of a fool is in the ends of the world. Every look look to be content with eyes everywhere. Wisdom is for him that has understanding. The answer of wisdom, use wisdom to answer the disqueness. Even the same thing for relationships. Learn how to dwell with people. There is no human relationship that gives you unchanging or lasting happiness. None. None. And that's

common sense to know that so that in fact if this person enter my life now will always be happy what if the person die happiness have come people die also too people change people die so that's already unpredictability people don't live life like that people change people die don't expect anybody to be God and even God people get angry with God and you think you will not be angry with your say if you love me we should never be angry with each other you didn't love your father be didn't love your mother now man you want key you they look for and woman you want key you they look for it's common sense 101 which one is if you love me we we are not ready for the the the place of interaction dialogue where we get to understand our viewpoints which one is don't do all of that any small thing you love you don't love Any small thing you don't you don't submit to me. Any small thing no you don't you don't bow before me I live forever sorry I'm a wife as I come I live forever I have come again your lawful subject is before you until submission wear weary you say it does not honor me honor me honor me give me my honor that's why I blow large for eye now I calm down doing going too Amen. Learn how relationships work. Healthy relationships. And we have teachings on how to build healthy relationships. Build healthy relationships. It's not a gift of the spirit in the name of Jesus. Oh, I receive great friends. And why you are toxic? Why you are poison? No. He who wants a friend show himself friendly. say I don't just mingle with people may be a hired killer. No serial killers are like that. All right. Narcissistic tendencies, horrible tendencies creep in darkness. Since you always like darkness, you may be a witch. I have to put that in now. One long [Laughter] se I don't mean all those things. All those are just communication teasers just to get your brain to jot back to position like oh this how to think all right so a thief of happiness or bring out this quietness is comparison avoid unhealthy gist all these things weigh against your soul don't entertain it look at how people just like I was telling you some people say marriages are not working marriages are not working you are reading say why the marriage not work you want your to work why of the one that work I don't have time to be learning anything negative say these people have never clicked it say this one already know the man is nothing to write to me about so she married him oh he's innocent not face I don't want to watch I don't want to view [Music] it starts with a end with y to z we don't All these issues will always be there. You are watching, reading, reading now. Maybe my husband is doing maybe my wife is doing it. I don't want to live long. Give yourself unnecessary heartache. You are feeding. That's why you anticipating even when there's nothing you are creating it because you have failed on junk. Of course, we know trust is broken. It's hard to repent. We understand all of that. But beyond that, there are things to deal with. Don't feed on. Same thing. There's this article can take it. I know they watch. I know they read. I know they listen. So they all fake. All pastors are fake. What am I watching it for? Am I fake? What am I watching it for? I'm fake now. Let the fake ones watch it and entertained. So they see how to be fake. Am I trying to be fake? Why should I now watch it to learn how to be fake? I don't want it. When you realize that your mind your emotions out guard your heart the issues of life you protect your heart to not just be exposing to any junk you it's not

a does be some of you you overthink just one word you have thought it into 50 ways kill yourself with unnecessary overinking could it be more he didn't pick my cup he also did not see it why did one enter your He's angry with me. This is the second day. Call again. If you were not told, he say I What are we? What are we? And this morning, what are we? What are we? What are we? Every man that call your number, what are we? Just the next the next day you have chattered. What are we? I was too fast for some persons there. What are we? What are we? What are we? What are we? So what are we now? Hey, what are we? What do you want us to be? So that the foolishness will now show. I thought in one day you thought well with your soul. in one day just have the number of 90. What are we? Wisdom. Wisdom. Go after wisdom. Understands how relationship works. Look at friends. Look at family. Issues come up. Then you tell yourself that I I thought it is relation. Stop living in a dream world. People have issues. Issues come up. If issues come up with family, come up with friends. Don't you think it will come up with the most closest of all relationship which is the marital one so calm down have unrealistic expectations even God people have issue with God as good as God is so calm down so are you sure you are putting things in perspective the answer of wisdom many of the disquiteness is just lack of wisdom Psalm 90:12 teach us to number our days that we may apply our heart to wiso one day at a time learn to live cycle constantly redeeming the time because the days are evil one day at a time and that's with wisdom wisdom is for everyday living so it will help you and that everyday is where troubles come so with wisdom I know what this one not rich that's why sometimes go wild and you realize that that is overwhelming you is no issue it's no issue now you just let something that is one wisdom have solved No, don't set unnecessary expectations. They make you unhappy. Learn to take your eyes off on important things. Hallelujah. Number four, the answer of peace. Philippians chapter 4. The answer of peace. Because when people lose their peace is they hold this quietness. Is that not so of peace and Philippians 4 and verse 7 or let's read 16-7 be careful for nothing but in everything by prayer and supplication with thanksgiving let your request be made kn and the peace of God which passes all understanding shall keep your heart. So let the peace of God keep your heart shall keep your heart and mind through Christ. And the peace of God, this peace here is not a passive state. It's not just about avoiding anxiety or feeling calm, but about a profound trust in the power of God. Is a guard for the heart and the mind. So it's a protective force. Guard your heart and the peace of God that passes shall keep your heart. Keep that word keep there is the same word to protect to guard. Peace is the one guarding my heart. So also while that discreted within me that means something my peace was attacked that's why my soul is within me. So I bring my peace back. Hallelujah. So the peace of God is not simply a feeling of tranquility. is an active force that guards the heart and mind is rooted in the reality of Jesus's reign and the hope of a new creation. When we know that then we have peace look at how the in numbers 14 chapter 13 we have gone they have gone to spy the land and they were all discouraged broken that numbers 14 verse 21 as I live say the lord all the air shall be filled with the glory it's just one land but

now talking about all the earth look at how issues in his response to them. He say as I live so it's not just that you will have this land all the earth will be mine that that's where peace come from peace come in where I realize that the earth is the lord's peace come from that why the gospel gives us peace that's why say think on these things that's what we're talking about so there's the peace of god there is the peace that you can get from terror peace but the peace of god is from understanding the gospel understanding what Jesus means to you the the reign of Jesus, the new heavens and new earth. Understand just like we taught in walking salvation when I understand that it brings peace to my heart. Peace to my heart. I'm not trying to change things that so that uh disqued a stay commotion turbulence troubled and that quietness can come from anxiety, from stress, from overwhelming circumstances as we said. So we do not just have peace nor do we have joy when we put all of these things based on circumstances. I'll explain that again. Notice Paul said he has learned to be content. So that means he wasn't born that way. There are things we learn because many persons see peace joy as just the absence. What about it as the presence? We always like defing things. Oh peace is the absence of this. Not about the presence of not just the absence of because it can be peace can is first the presence of then is now the absence of not absence to presence presence then absence. We put the two together then you have peace you have joy. Then we bring it to circumstances where we talk about everyday joy and happiness. Why the Christian never do depression and why a believer in God's word can never do all those down that depression. I'm finished. I'm I'm done for. No, never. No matter the circumstance or situation because happiness, joy, all of these things are based on our view of things. Don't get happiness from things you can't control. Don't get happiness from things you can't control. Don't get happiness from things you can't control. And you know there are also few things in life you can control. That's why you should determine your expectation then manage them properly. And one way to determine your expectations and manage them properly is to put your joy or happiness in God and under your control. Simple. You will never lose your peace or your joy. Put your peace and your joy in God and under your control. And that under your control is based on the expectations you set. So how much makes you happy? If not, you will never be happy. Put it under your control. Put things under your control. So what can I now do? Just like I practically was telling you guys on Wednesday. So what I would learn it so because of that I should now be broken. and I should now be scattered and confused. No, I can't do anything to change it right now. So, what can I now do? I will not allow it now overwhelm me and mess me up and there's no joy, no happiness again with me over what I cannot change. I didn't say you can't be happy in material things. So, please let's not lie to oursel. I've already told you before. If they increase your salivity by 50%, won't you be happy? Which happiness is there that you can't pay your bills? Which kind of happiness is that one? I'm just happy I can't pay my bills. What kind of madness? We should cancel you that you're not thinking, well, you should not be happy that you can't pay your bills now. No. However, put happiness under. So what am I now doing? Put happiness, your joy,

happiness, peace. Let it be under what you can. So you say it's in God. It's now a fruit of the renewed man or fruit of your spirit. A fruit. So it's in God. God has given us peace. But things can steal our peace. So he said my peace I give not as the word give. So he has given us peace. Notice peace calms the storm. So it's not just about quietness. For peace to calm storm is stronger than storm. So peace is a force. So there is a strength is the presence. So what is the peace? The presence of Jesus in my life calms every situation. It keeps my heart when I realize that it is me and Jesus before every mountain. Me and Jesus before every storm. Me and Jesus. Learn it to so you can manage your expectations because if you don't manage your expectations, you will never be happy or joyful in this life. And a heart of joy and contentment is peace. So he said, "Use peace to answer this quietness. Use peace to answer it. Put your your peace in God, your joy in God. The joy of the Lord is my strength. Put your peace, your trust in God. Let that keep your heart. They shall be led forth with peace. Peace is like an umpire. Let peace keep your heart. Let it keep your heart. Let it keep your soul. Let the peace of God keep you. Let it guide you. And what is that peace of God? Because of Jesus, we have peace with God. What is peace of God? What is that? Uh the Greek word is Irene. E I R E N E. That state of tranquility. But that state of tranquility is a power is that we have been reconciled back to God. The core of peace is that it say in in making peace with we have been reconciled back onto God is that oneness with God where things are at peace there is unity there's union you cannot remove peace that's why in a peace accord they want unity unity union so you talk about peace you can't remove so the core of why I have peace is the presence of the lord in my life so even Jesus was in a storm but he didn't lose his peace So it's not there's no storm means I have peace. Even in storm I still have peace because the presence of Jesus is enough. So when you learn that the presence of Jesus in your life is enough and also the fact that you make sure in the natural circumstances you can manage them. How? By having realistic expectations. Sir, so you are saying we should not dream big. Why do you always hear things canceling out things? And I dare say if thinking big is making you not have peace, obviously that's a product of foolishness. Then don't think big since that's your own lot in life. Since you don't want to think big since because why are all things always fighting? Think big. Oh why thinking big for you is always 24 hours. Think big in life. You went to go and think big in 24 hours. If I don't have 100 million in 24 hours, I failed. What structures are in place to have 100 million in 24 hours? Say Yahweh is enough. Oh fool, you have laid up. There's enough Bible verse for that kind of person. That's a stupid way of thinking and living. Realistic expectation say we are thinking big. Why did you put a timeline for 24 hours say anything is possible? Who does not know before that anything is possible? Is that the issue we are having here? Or you are setting yourself up for heartbreak. Then the next day say I really thought I really thought you really overthought. That's why after talks about peace, he say whatever things are lovely, whatever things are just think on these things. So I know where to focus my thought on peace in circumstance. So anxiety, stress, overwhelming circumstances, what do I do? I answer it with what?

Peace. So no fear, no anxiety. Be anxious for nothing but in everything by prayer and supplication. Remove the anxiety, remove the worry, remove the tension, anything that is preventing you. So that peace of God is a protective force. It guards the believer's thought and emotions. It prevents us from being overwhelmed by fear, anxiety, and despair. Is that what you want? Then let the peace of God keep your heart. Let the peace of God keep your heart. May I've learned now to remove my peace from the hands of anybody. It's only in God and under my control. Nothing. Ah no no no no no no no no no no. You will lose your peace for nothing. Before you know you are I don't I can't live life in that kind of broken state in that despotent state where I failed everything is all over. No no no no no. Don't do that. Put it in God and put it under your control. So so immediately things are looking somehow God gives me the answer of peace. I because he's with me. So I hear his voice. There's a calmness that silences every issue. His presence. Then all of a sudden we start eliminating the things. There's now the absence. I start with the presence. Then we move to the absence. Hallelujah. God is in me. Even unforgiveness can eat your peace and joy. That's why I'm say we don't forgive him. You know, go kill yourself. Unforgiveness is not about if the person have told you sorry. Those things overwhelm your heart. Remove it. Why do we forgive? It's not because the person have said sorry. Most importantly, he says we forgive because remember God has forgiven us in Christ Jesus. Reconciliation is from forgiveness. Reconciliation is based on truth. That's why the sins of the old world is forgiven. But they are not new creation. They have to accept it. You have to come to terms. So I say forgive me. And that's sometimes people do that thing a lot. Maybe because of the kind of relationships they have had. Even me when I have some issues with people and they say sir forgive me. I'm like forgive you want to forgive forgive forgive. If you have unforgiveness problem deal with your unforgiveness problem. This is not a forgiveness issue. This is an issue of you making it look like I can't relate with you again based on this and this. So let me know you are now somebody like this or you are working on that. You are telling me forgive. You see I tell you I have hardness of heart. If you have that problem, don't put all of us in the same boat with you. I can drop something a twinkle of an eye because I know how much God has forgiven me in Christ Jesus. I can't hold anybody's matter like that in my heart. The power of forgiveness come from what Christ has done for us. When I realize that he also has forgiven me. That's what the Paul episode is full of verses like that. Colossians, Philippians, all of them that teaches forgiveness because of what Jesus have done for us. So why I'm able to forgive others? He said I don't let it because things are poisonous. It will poison my heart. It will poison my soul. Remove those poison from your heart. I owe all men forgiveness. But I don't owe all men access into my life. No, no, no, no, no. And that access into your life is on the basis of trust. It's on the basis of the fact that we we walk with truth. Reconciliation is based on truth. When Paul wrote to Fimmore, he didn't say put it under the bridge, just forgive him. I know he says he if he has there's there was truth I've taught you that before reading the book on reconciliation it's not just let's ignore as if nothing happened we can't do that if you want to

be insane we will not follow you we can't do as if nothing happened something happened we can't bury it under we can't bury it will come back again let's just bury it no it will keep burying things will keep coming out let's deal with it and how do we deal with it confess your fault one to Another those of you who have mastered the art of gossip, you have an issue with somebody, you want to go and tell on that person. Long may you rain?

Wickedness, evil things. You never dealt with the issue one on one with the person, you are telling that person. Then an issue is being dealt with, you go on that person. Very evil way of living. Matthew 18, you have your brother have an against you. Tell him to his face. You you have C D E F that's gossip. That's ungodly. You like to spread things around then why just you now just one issue already begging please don't tell anybody let nobody know now just one issue you have told the whole world are you sure you will live life if you were God you won't answer anybody's prayer you won't be there for anybody learn mercy and grace and those of you that have been shown mercy and grace please be merciful and gracious to others common sense way of living amen Amen. The answer of peace, unforgiveness, all those things. Dist will never trust him. I will never go calm down. Oh, people die for less. So, putting your your heart was not designed to to live with such tension. You're carrying too much weight. You're carrying too much weight. The heart was not made for those things. So, no, leave me. So I always tell people what has the cry solved now the same way husband and wife issue say we will not talk I always say it this is just being stupid how does he solve the issue now because for the matter to be resolved are we not going to talk if we are still going to talk to say to people let's tell people let's talk because I always say to husbands and wives say no no let me get out get out I don't want to talk I don't want to talk how do we now solve the issue they just say You are not for you don't want any issue to ever be solved. Let's know that you are a witch. Let's know that you a nagging person is better to in the desert that to dwell with you. Better to dwell on the rooftop or just go put bed for roof. No because you talk about things say no I don't want to talk about it. I want to stop the foolishness. You're getting old. I don't want to talk. I don't want to talk. I don't want to talk about build healthy relationship and healthy life. Your emotions are important. Don't give devil in your life. Any small thing, your heart is not a dust beam. Protect it and guard it. Your heart is your singular most important instrument on this earth. Protect it. Without it, no no no life. Oh, the issues of life come from there and you just let anything get to your heart like that. No, I have this thing I want to tell you. I'm not interested. Have you told the person? You say no. So why are you telling me? Do I have the power to tell the person? say I just feel like you should know and that's all gossipy be I don't want know I think she is just sorry I can't judge people's motive I can only talk about what they have done I'm not God it's God that cause the secret of the heart I can't be talking about people's motive said no I said sorry the spirit of sin and has not come upon me I'm not walking by the sign of spirit now if I am then I can discern the spirit but this is not the case I can't be following you to be passing sentence so that's how he is. That's I'm not in the spirit. I'm talking the flesh right now. I can't say that's how the person is. Learn those things to allow you live your life

with peace. What are they saying about me? You go die. Oh, you die quick. What's happening over there? Live your life without tension and pressure. And that disquickness that you are having, you go carry too much excess garbage. I choose every day to be joyful. I choose every day to be in peace. Hallelujah. The answer of peace. Number five, the answer of faith. And this is so easy. We know this one very well. And there are different dimensions of faith. I beg you listen to the teaching on dogged in faith. There's faith that is speaking and we know that one the active part of it where you are speaking where you are speaking. There's also faith that rest on the power of God. Samson will hear the lion. Daniel will sleep in the lion's den. Both of them have faith. None have greater faith than the other. There's faith that actively then is faith that is resting. That is assurance. I trust God. I rest in the power of God. And there's faith also I taught you in that teaching on dogged in faith. I taught you seven dimensions of faith. Yes, I did. There's faith that is lean on the mercies of God. Many times where you have prayed for something over and over and it look like you're not see any change. Lord I count you faithful. Lean on the mercies of God. God you are merciful. God you are merciful. Help me. That Canaanite woman remember woman she was a worships her. I said that's faith that is worship that worships God. You are still my God. You are worships mercy. Be merciful unto me Lord have mercy on me. Not everything is about power. Everywhere scatter. Some things is just being merc. God is just merciful and gracious to you. Then there is also faith that is not just speaking. There's now faith that is fight. You go wrestle. I will not shift ground. No, I will not quit. No, I will not I will not go until that's also faith too. Learn all the aspects of faith. That's also how we deal with that disquickness. Especially when you now sense that your issue is from the devil but you better resist and rebuke actively speak. Amen. Choices of others you can uh lean on the mercy of God and all of those things too. All of them work. Faith moves mountain. Mark 11:23 shall say to this mountain be remove your heart but believe that what you say shall come to pass you shall have what you say. Say is mentioned three times the power of speaking. So we can't remove speaking from faith. And thank God we are not adverse. We are not against the power of God. We believe in the power of God. Then why not speak? That is how circumstances change. Many of the issues you are going through. Have you ever acted by faith? Choose to live by faith. Choose to live by faith. Release your faith. Notice they tore the roof open to drop the child. Faith is in action. Can't say I have faith and we are not seeing any action. What steps are you taking? What things are you doing? It will show you hard faith. There's faith as uh as a gift because there's a gift of the spirit. The beautiful gate for example, we saw what happened there. Peter says, "Such as I have given unto you in the name of Jesus, rise up and walk." The gift of faith was in operation. Your gift of faith. That's where we have faith in the anointed. Faith as honor. I taught you that faith as honor. You say not many lepers but how many was cleansed? The context there was honor. There is nothing faith and honor cannot receive. And there's Jesus could do no mighty works in his hometown save heal a few sick folks. What was that dishonor? He say it's not the capital son. It's not the capital as father and mother not with us. See

finish. How you see your pastor is how you receive from him. How you see the anointed is how you take from the anointed. My pastor is always anointed for me. Then also God puts word in his mouth because God gave gifts to men and the gift to men are men also. God have set some in the church. Firstly, apostles, secondly, prophet. First of 12:28, miracles, helps, government. God have set some in the church. Men are miracles and healing to us too. And God knows that that person your life, you will be healed. There have been some situations that people say they have not gotten healed over. We find out that it's just foolishness. Some they keep doing the wrong choices that led them there. poor eating habit, poor this and you say, "Hands are made on me." You're going to get sick again. Better live well. You better remove that poisonous un unforgiveness, bitterness, strife, envy from your heart. You're going to fall sick again. Those things rots the organs. Remove those poisonous things from within you. Amen. And live life with joy. Amen. The answer of faith. I have faith. The shall live by faith. We all have the faith of God. And because I have faith, I believe, I speak, I expect. Things can change. And they say, "Oh, these ones are Pentecostal. This ones are for charismatic." No, it's for Christians. We see in the Bible people's faith made a difference. Your faith can make a difference, too. So, if the circumstance, all the rest did not work. And we see that there are some circumstances the disquiteness of the soul of a man that it was faith. Look at how Peter was discouraged already. But Jesus said cast it on the right side. It was faith. The answer of faith brought peace to the man's heart. When he say we have to we have caught nothing. Cast it on the right side. Power. Say power. Power. Power. Thank God we have power with God. Some people live life without using theirs. But I choose to use mine. I choose and faith appropriates the power of God. Faith puts the power of God in motion. And when I get to speaking, I get to see the power of God in operation. I believe God speak. We ended last week Sunday saying that. Number six, the answer of providence. I need to know that God is in control. God is sovereign. Man has a will. We taught that in uh where is God in the silence and delay and we also taught that in another of our message silence can't remember okay I said it twice last year and I referenced both of them in the same message okay so God is sovereign man has a will and two truths can coexist God is sovereign man has a will and we use Joseph as an example when we thought on God is a god of providence. Now, I dwelt I spent more time talking about minion because I've not really talked about that for a long time. But these other ones, I've mentioned them before and you can fill in the blank. I'm your pastor, so I should not be bothered if you have a teaching on it. I know what I taught you now. I've taught you a lot on all those other ones, faith and the rest. So, the answer of providence, God is a God of providence. Look at Joseph looking back say you meant it for evil but God meant me to preserve life. Genesis 45. Look at how Joseph talks about it. So learn to use delay positively. Things don't always happen once. Be patient. Not everything gets fixed. Not everything arrive at once. In fact, life's greatest lessons are learned when contrary winds blow. Because that's history verse one. a season, a time for every purpose. So no say but God God for knows everything for knowledge

doesn't always necessitate predestination. I taught you that in unseen forces taught you that a lot. I gave you David as an example. David said in 1 Samuel 23 with the men of the Philistines that town he had just helped the town and he asked he inquired of the Lord will they protect me or will they deliver me to the hand of Saul. So what did David do? Bible says he left. Common sense not say Yahweh is enough. Is Yahweh that told you they will deliver you wrong. So what God saw what God said was going to happen now happen. There are many God says will happen because that God something will happen does not mean it's supposed to happen. That's the difference between for knowing in the day you because that's why he's all knowing. That he's all knowing does not mean he's all manipulative. He's all man because that's how I don't want to use the word controlling because he's in control. God is actually in control but he's not controlling everybody's action. No, man. That's why I say God is sovereign. That's all powerful. Man has a choice. The two coexist is that sovereign God that gave man choice. And I've taught you this intelligently and doctrinally. So I beg you stop having that idea of God knows what I'm God is a God of providence look at Joseph all of those times you can't say God was not with him because the Bible verses say for God was with him even in the prison God was with him he prospered even everywhere God was with him so God was with him and it's not sin would have said is Joseph is committing sin that's why things are not working for him no God is sovereign man has a will and when you sit in the silence, you start to realize is that when people many times say God is silent God, they say God is God is not who I thought he was. No, God is beyond what you think he is. Is greater than what you can think. Your finite mind cannot comprehend God. He's bigger than that. And that's why we have the word of God to tell us who God is, what God is. So that I don't use one circumstance to say who are you God? I have enough Bible to know who God is and how he does his things. Amen. So God can work things out and that Romans 8:28 which has been a wrong translation over the years says with all things work together. All things work for good to them with them. Not to them with them. The Greek construction is with them. You see modern translations will soon start that God works with man. We always like for them to them. There's an emphasis with and that all God works all together for good. The context there is about God plan and purpose not your circumstance as much as we misquote Bible verses thought that. But do things work out for good? Yes. But that's not the Bible verse for it. But things do work out for good. But that is dealing with the groaning. The state of the earth is going to be renewed. ultimately going to turn out for good because God is the God of providence. So he predestinates events but he does not predestinate all events. The only events he predestinate I told you in that teaching is events about eternal plan and purpose. God has predestinated that I will marry this woman. Keep quiet. Don't predestinate any rubbish like that. And the woman died never marry another one. How did he do that? No. Stop saying silly things. Is God is about salvation. Eternal plan and

purpose that he predestinates. Every other thing lead to our choices. Amen. And God allows our choices. So it's just life. Tell your neighbor is just life. It's just life. So the answer of providence. God is a God of providence. It's okay if I don't know everything. Joseph didn't know have the answer to everything. David didn't have the answer to everything when he was running away. He was anointed king but he was running from pillar to post running everywhere in the wilderness. But he was anointed king was anointed king. No dishonor in his heart. He still saw Saul as God's anointed. Though Saul was honorable but he did not change his state of his own heart. That man that's why God says to him he was he I will he would his kingdom would have no end. That kind of heart is rare to find. Today, even now, his ministry is still being prolonged by the church. Hallelujah. No end. That has the only reign that has no end. Hallelujah. God is a God of providence. So, he didn't take matters into his own hand and killed Saul just and he had all the opportunity to kill Saul when he had become anointed because he he was in Saul's house. God is able to bring to pass what he have said. Learn patience. If everything happened at once, you will never know the place of patience. Now, and patience is a good thing. That's why there are many natural things that take time like the growth of something. You are you are not dying in one day. You are growing. You are living. Everything must not happen overnight. Let things take their normal progression. And ultimately know that you trust God. The God you trust is able to work things out. Things will make sense over time. Many of your greatest lessons, you will learn it in times of delay, in times of silence, in times where it look like nothing is working. You'll get to even know God better and understand things. See a broader picture, more tolerant of other people. You will now be able to pray more for other people and and see that you are not the only one who go through things. You learn many things at those moments. Number seven, the answer of the spirit. God gave us his spirit. Comforter. Comforter. It's called comforter. John 14 John chapter 16. The comforter. The comforter. He is called the comforter. I pray the father and he shall give you another comforter that may abide with you forever. John 14:14 14:26. And the comforter which is the holy ghost whom the father will send in my name. He shall teach you all things. And notice how he emphasizes the comforter, the comforter, the answer of the spirit. And this is very important. God is with me always by his spirit. He can be with me. The answer of the spirit can come by way of comfort. Can come by way of direction led by the spirit. Inward witness can come by way of wisdom. Can come by way of power which is what we are used to when we hear spirit. Power and the answer of the spirit that God gave us his spirit. We can come through difficult times and season. The spirit of God is always with me. I can talk to him. I can talk to him. And learn to talk to God. Learn to talk to God. Amen. The answer of the God is with me always by his spirit. He's called comforter. And he comforts me sometimes by giving me direction by wisdom by hearing me out and being patient hearing me out and just supplying me strength while he hears me out say all the things that is bothering me that's why it says be answer everything by prayer and so I tell god I offload it on god he's big he can handle it then sometimes by his spirit power that's the one we are

used to every time we mention spirit of God everybody everywhere scatters but the answer of the spirit many of the things that you are disquieted over is just something you can hear God's voice for the leading of the spirit direction is direction is not in man to direct himself thank God I have the spirit of God to direct me hallelujah thank God I have the spirit of God he gives me wisdom gives me direction gives me comfort spirit of God with me in season every time I have the spirit of God with me, working with me. Hallelujah. So long and short, there is no circumstance, no issue, no problem, nothing that is making me disqued that is not that I cannot answer with God's word. Amen. Say, "Oh sir, uh I have the loan apps have come for me. Should you have borrowed money from a loan app?" First is a failure of relationships mean you you are not a honorable friend. You have not show yourself friendly to others. Don't mind those stupid wisdom we see flying around. I've seen so many of it where people say things like u um I don't bother money to my friends. I just find small money and I give them that you are wicked doesn't mean everybody should be like you because some of us came up the way of our friends borrowing us money. Don't learn from stupid worldly philosophies. No. is good transport say out of two evils choose neither I go for the lesser one don't do lesser evil greater evil I reject all evils if it's within your power to help somebody help the person and stop doing we don't we don't do that if nobody borrow money to anybody where anybody have stood institutions now borrow to people is that not how people are able to make money use other people's money institutions borrow people money banks and all of those things where you want to do bigger things than your money can carry So if you remove the concept of borrowing you you are dealing with a whole lot and you say oh I now got it from a loan app those ones that now start sending people message that you are a thief you're a killer bring shame to your name because you needed quick money that's why you should have the sucker of friends you didn't have friends then how have you been living then go listen to messages on how to build friendship and be a friend because me I have friends I can call and I come out from tight situations that Easy like that like this. Say ah God has blessed you. Why did he not bless you too? Stop making everything about God has blessed and realize that show yourself to be a true friend. But now the kind of friendship messages you listen to. If you are the wise person in the class walk out that's not your class. If you are the strongest person that's not your friend. How do you reach out all your friends? That's not your friend. All your so now your friendship are all bought. Everything is all economical. You have merchandise friendship. Have real friends who are for you. Not just for what you are for, against what you are against. I'm for women right. I stand with you. The day I'm not for women right, you are no longer for me. No, I'm for you. In prison, out of prison, I'm for you. That's friends. You build such relationship. And if you have two or three, you're a child of destiny. All you need is just one. and God now bless you with two you are you have enough just one friend that is for you not for what you are for against what you are against but for you that's true friendship once you have such persons you are made for life just one is enough thank God is like that for all of us in case we did not have any other one at least there is a friend that stickers closer than a brother

that one is enough but I can also have it with people and learn how to build relationship many of those things that people are saying oh I did not know how could have cuz that just entered into my spirit now and why did you need to have the things that you didn't have the money for you never borrow money for liabilities which again live life with wisdom so you borrow the money you wanted to buy a dress because you wanted to buy a phone it's not like you will make money with the phone who borrows money liabilities just to prove a point to friendsh those same friends at the end of the day they not help you now they say no I'm learning sir I'm learning sir it's not about learning I'm not telling you to become vengeful where people now do stupid like you will see when I become rich again you will see you are just petty that is not how Christians think or talk when I become rich I will pepper we are not doing pepper them here just be godly not learned the lesson We are good, nice, honest, generous people. We don't do I not pepper. That's not how life is lived. Amen. A good name is better than riches. Build a good name so that people know that oh if I give him money I will get it back. Not that I give money voice me. That's is the issue. Let's deal with the real issue. So tell your friends, hold your friends accountable. I don't want this to be the end of our friendship. Hope you'll be honorable enough. Yeah. Yeah. It's not a crying matter. Clean your tears. Answer logically. What measures are you putting in place? And if God really has blessed you and you know if you give that money and you become stranded then don't borrow the kind of money that you borrow and you become stranded now. Because what if the person failed you? The person have just ended the friendship and your conscience is free before God. Always know that there is a God. I live before God. People fail, people fail, people. Yeah. The same way people lose money in business too. However, that person have just showed themself to be dishonorable. So, can't have such kind of persons that you came through for but now come true for me. We are hearing stories upon stories. It's been seven years and you still stories upon stories. Those are people assigned to you from Satan to kill you. You God revealed them to you in that scarcity or you loaning them. Don't do too much. Don't put too much pressure on yourself. That's where the disquittness is coming from. As we prepare for general school of ministry, this is the best message I could have preached to you. You come ready to learn, grow, not circumstance not they finish. If you have one house, you want to have two. When you have two, you want to have a different states. Calm down. So tell yourself this will not determine. I'm not saying don't. Please do have such but don't let it determine you're serving God. That's the problem. You are doing too much because it will never be enough. There will never be an amount of money you have made that you don't want to make more. So put things under your control so that you can have peace. So you know that okay this state is the state of wealth. So I I I I pursue this state but not against my service of God. So all right because I live for the Lord. One thing I write there that do I seek after I'm zillions for all times. Let the zeal of the Lord follow me. I put a prayer many years ago and I still say it. If I lack anything, may I never lack the strength to pray. I never lack the strength to pray. I lack the strength. Let your zeal fall on me for all times. These are things you pray about. You say it regularly.

Satan can't even tempt those things again. Temp I'll close it down in a second. So say what fire burn. I don't live life. I don't it's not a gamble. You must say things so that Satan knows that he has no place. I don't leave those things are not where my joy is and my happiness is. I'll build another one again. I start another one again. What if all of this crumble I build another one. I start another business. I I'm not going to. That's not the end of me. You will not determine my joy. You will not determine my peace. You will not tell me if I should keep serving God. I will serve him all the days of my life. Same thing, the same posture you have. I will serve him. I will follow him all the days of my life. I'm talking to different persons here. This is the best prophetic service we can have this before camp meeting before GSM. I meant to say talking to different persons here. So should I set targets for myself? Yes. But if the targets are making you not live in peace and joy, then make it flexible. Always have your expectations under control. If you don't manage your expectations, you'll be unhappy. Telling you my own secret and it's from scriptures we learned it. Happy are you if you think on these things there. So there are Bible shows us that we can regulate happiness. Happiness joy are based on your view of things. Nothing takes my joy away. People have tried, things have tried, they still could not take my joy. Nothing's ever going to be able to take my joy. I will be happy for all times. I'll be joyful for all seasons because my joy is in the Lord. My peace is in the Lord. And when it comes to circumstances, I put them under my control because I'm supposed to be m when we were younger, we used to call it MSE. Masters over circumstances, over situations and circumstances. So you have your BSE and your MSE, a master over situation and circumstances. Live like that. So live your life like that. nothing affects your peace and your joy. So every time my soul why thou I answered fast hop in God. In fact not just hop in God I tell it why are you envious if it's if it's my neighbor's goods that I'm eyeing. Why are you envious? Why are you bitter? Why are you jealous? You'll get those things later. You can't get it now, you get it next week. You can't get next week, get it next year. You can't get next year, get it next year. Get the upper year. But I shall get it. But I'm not going to let anything stop me from being joyful. I'm not going to. And most importantly, which is the essence of this teaching because that same Psalm 42 as the heart ped so I p for you. Nothing is going to stop me from being zealous for God. Because situations not finish. But I know the answer of meaning. I know the answer of I know how to use the meaning of life to answer this quietness. I know how to use hope to answer this quietness. I know how to use faith to answer this quietness. I know how to use wisdom to answer this quietness. I know how to use providence that God is in charge of all things. Ultimately, he will work it out because he is my God. And me and him are in the same house. He can't his house cannot be a house of chaos. So I know what he can do. He would fix things cuz I trust him. Amen. And he gave me his spirit. I'm not bothered. I I lean. I trust in the Lord. Hallelujah. Stand on your feet. Lift your hands this morning. Should you make money? Yes. But money should not stop you from serving God of God. How much is enough? I live for God. I live for God. Want to make a million dollars? You will. And I beg you, please have such visions. Then have the sense for it. Have the

sense for it. Have the friends for it, the diligence for it, but don't have the anxiety for it. No, I'm anxious for nothing. I'm anxious for nothing. Can you say these words with me this morning? The truth is that soul you need to say to your soul when nobody is there. Are you anxious? I'm anxious for nothing. I'm anxious for nothing. I'm anxious for nothing. Nothing can steal my peace and joy. Say leave it. Answer circumstances. Answer those emotional states. Say I'm an emotional person. Are we not all emotional person? If you are not me, I am Every human being should be emotional for God. God gave us emotions for God's sake. It's not a bad thing to be emotional. It's not a bad to be logical. But I will not use it against my God. God gave us everything to serve him. I serve him with all my heart, with all my soul, with all my strength. I serve him. I know the purpose of things. I came to this world with nothing. Look at how Paul answers that question. Though temporarily trying to answer question but it's bringing in contentment nothing moves me I you learn it when you get richer too you learn it when you have all the education the intellect how many books can you read that you don't want to read more books now I read so many books and I'm still seeing that there's still more to read there's no end to it calm down don't use those things to now affect your worship of God your fellowship No, I love the Lord with all my heart. I serve the Lord with all my heart. Say it enough to circumstance. Say it enough to the contrary winds that blow. Say it enough to your heart. Anchor your heart. Immovable, steadfast, trusting the Lord. Steadfast. I am steadfast trusting the Lord. Lift your hands and pray. And pray that prayer with boldness. This pray that prayer will. Nothing will ever make me down again. I will answer it with the word of God. Amen. Lord, you know the darkness of our words. You know how difficult situations, circumstances can be and you promise that you would help us. Lord, we ask you, oh gracious father, that may faith and patience always well up in our hearts. Teach us to always be grateful and be faithful to you. Help us to not lose sight of your presence. Help us to quiet our soul with your grace and with your peace and with your love and with your power. Let strength and courage keep us in the name of Jesus and show us greater show us great and mighty things that we know not of. Show us the more to live for in the name of Jesus. that every discomfort, every anxiety, every tension, pressure, stress, overwhelming matter in our heart, we cast it down on your feet. We lay it all down and we say, "You are enough for strength for us. You are enough for courage for us. You are enough for boldness for us. You are enough to see us through." And thank you for the friends, the people you have given us as well. And we know the days ahead are glorious because we have you and we have the people you have put in our life. We thank you, oh gracious God, for we know things are working, things have turned around and you have made the way for us in the name of Jesus. Amen. God bless you. Trust you learn something.
