

We believe and receive wisdom from your word, clarity and understanding. There is no confusion in our hearts. We walk in the light of your word. And we declare that in this service, the things that ought to be said will be said. The things that ought to be done will be done. We give room to supernatural revelation, supernatural utterance and we trust that truly truly we shall be edified in the name of Jesus. Amen. God bless you. Have your seats. Biblical perspective on of life. The biblical perspective of life. All right. Second Timothy chapter 3 and we begin with that text of scripture. Second Timothy chapter 3 and verse 14. But continue thou in the things which thou has learned and has been assured of. Continue thou in the things you have learned. The local church is the place where we continue in the things that we have learned. So it's the place of learning. The church is the pillar and ground of truth. Continue thou in the things you have learned and has been assured of. Teaching comes with much assurance, knowing of whom thou has learned them. The consistency of the pastor of the teacher should make you trust what you're receiving. Then he says in verse 15, "And that from a child thou has known the holy scriptures which is able to make thee wise unto salvation." The scripture makes you wise unto salvation. And the use of the word salvation there explain God's plan and purpose from Genesis to Revelation. So the scripture makes you wise unto salvation unto the plan and purpose of God. Makes you wise about the kingdom of God working in with and through you. And it says verse 16, all scripture is given by inspiration of God. The scriptures is 100% God, 100% man, 100% inspiration of God and also 100% man's vocabulary. God did not zoomify the biblical writers. They were not in a catatonic state as they were writing. God providentially prepared people over the span of their life for the time where he would uh prompt them to write. And so their experiences and all they went through would help in the writing that they would do. So holy men wrote as they were moved by the Holy Ghost. So it is inspiration. That means God did not write it itself. The Bible has in the inspiration of the Bible is 100% God, 100% man, not 50/50. is fully of God and fully of man and many times people try to remove that fully of man part no is there all scripture is given by inspiration of God and he says and it is profitable so one of the things we can do with the scriptures which is what we're focusing on in this series biblical perspective of life all scripture all scripture is given by inspiration of God so the scripture is given by inspiration of God. And it is profitable for doctrine. The scripture is profitable for doctrine, for reproof, for correction, and for instruction in righteousness. On the line, he says, "All scripture is given by inspiration of God. And it is profitable for doctrine." For doctrine. The scripture is profitable for doctrine. The scripture is profitable for doctrine. for doctrine, for reprove, for correction, for instruction in righteousness. The scripture is profitable for doctrine. So we get our doctrine from the scripture. And when people see doctrine, they see it as a church thing. So my my understanding I have in church. No, the doctrine shapes everything. Tell your neighbor, your doctrine shapes everything. >> Shapes everything. Yeah. In fact, you cannot separate doctrine from worship. I've taught you this some years ago where I read the Matthew where it says in vain they do worship me. Teaching for doctrines the

commandment of men. You cannot remove doctrine from your worship. You cannot remove doctrine from your worship. You cannot remove doctrine. 59 of Matthew. You cannot remove doctrine from your worship. Amen. You cannot remove doctrine from your worship. So when it says all scripture is given by inspiration of God and is profitable for doctrine, that doctrine cuts across everything which is again what we're looking at that biblical perspective of life. It's the doctrine from the scripture using sound doctrine which is biblical doctrine not sound doctrine. Sorry for throw words like They say uh sound doctrine. They start saying rubbish. I say sound doctrine. Sound doctrine is doctrine from the Bible. Not doctrine that I put in. But doctrine that I took out. It has to be what the Bible said, not my own bias in your secrecies, beliefs. I read it into the Bible. No, I take meaning from the Bible. I do not give the Bible meaning. So, I take meaning from the Bible because there's already meaning in the scriptures. Amen. So it says all scriptures given by the spirit of God and it is profitable for doctrine advantageous for doctrine. So we get our doctrine from where the scriptures and the word doctrine there is the word dascalía which is explanation teaching instruction. We get our explanation our instructions from the scriptures. We get our instructions from the scriptures. We get our instructions from the scriptures. We get our theology from the scriptures, our knowledge of God, our beliefs. So in talk about doctrine, explanation, teaching. So we get our teaching, we get precept, information, learning, all of that is in that word doctrine. It is the word used for specialized training. A pilot for example is instructed. Sometimes we feel we know the word instruction. There's so much laziness with words that many of the meanings people have of words have been watered down. Instruction is far greater than information. Instruction is far greater. Now the pilot has learned everything that he has learned and for him to fly a plane. He has to sit with other pilots. So he will have handson experience. What they will be doing to him is called instructing him. It's in instruction that you become. Instruction is not I've heard some information. No, instruction is I have been programmed. Instruction is to wire you. So there is an information or a fact. But instruction is far greater than just giving fact in a lazy way. No instruction is that I am having the knowhow, the technicalities, the functional practice is being impacted to me. And that's why the word impacted is used for knowledge. So instruction is the impartation of knowledge. Not the impartation of fact or data. So no not that type. Not oh I now have info on this. No. So the p so that that pilot is being instructed to be a pilot. The lawyer is being instructed to be a lawyer. That's why they go through that instructions. The having gone through school, they still are instructed again. It's every of those practices you see it. The doctor again is being instructed again. That instruction he's receiving now, housemanship and all the other places they receive it in the medical field is the instruction. So when he say the scripture is profitable for doctrine. So don't see somebody say I don't do doctrine. Then in the next breath he say Jesus is not God. That's already doctrine. Now you know how people feel the word doctrine. So there's doctrine. Then there's the word teaching. Oh boy. Who bewitched you? Say hi bewitchment. They mean the same thing. He say I don't do doctrines. I do teachings. And you now see the

kind of teaching so is correct. He really does not doctrine. He do teaching. And the kind of teaching is not is not teaching is um you know God's going to visit someone tonight. You're something going somewhere to happen. Can I get an amen? Amen. Motivational preach. I can't do it. I don't know how they do it. So God has blessed those people with the madness. Not from God though. I mean I just polite way of telling people that they are here not correct. I don't know how they do those things with the poopit and do those things with the Bible and is all motivational talk. You're going to make it. So uh what I got from the service when the man of God was preaching even the same way the the man of God preaches how they also explain them and it's all uh you know Mahatma Gandhi said in fact that's why one member of a church said that uh is Bill Gate a pastor because his pastor have so mentioned Bill Gates. Oh, motivation, motivation, motivate, motivate. That's not what the min poopit is for. Biblical teaching explains the Bible. Hallelujah. The Bible is actually being explained. So it says the scripture is profitable for doctrine. So that doctrine is learning where you and that learning is the same way apprentice are taught to become. So the tailor instruct other tailor in making Abby the every of just see it see the word instruction within the proper framework which is apprentichip where where you always have any apprenticeship or you have other persons that are what you are seeking to be right there with you teaching you which is instructing you. So it's not what I got in the university. Now after university I'm now with a doctor every day learning to be a doctor. I am with a a tailor every day learning to be a a I'm with a this learning that consistency is you are being instructed. So it says the scripture is profitable for doctrine. For doctrine. Did you get it? >> Four doctrine. And that doctrine will affect your worship. It will affect your living. It will affect your thinking. It will affect your faith. It will affect every area of your life. It will affect every area of your life. So he says all scripture is given by God. It is profitable for doctrine. Then he says for reproof. The Greek word elicos used in Hebrews 11:1. Faith is the substance of things hoped for, the evidence. That's the word evidence in Hebrews 11:1. The evidence of things not seen. So the scripture gives us evidence. So evidence concerning what we believe. So this should be the framework of how we think. Amen. And it's not oh in church, oh that's just Bible. No, that's how I think. That's how I live. That's how I interact with the world at large. That's how I interact with the world at large. Evidence reproof. Proof again. So the scriptures is how I reprove everything. So I've heard this then I reprove it with the word of God. That is now my evidence. That's it. So oh is true. you I saw myself flying hey they have come for me this is no I reprove it with God's word if I'm flying then God is showing me that I I'm above all things I cannot give it any other mean I'm reproving it so that I'm reproving it of course there are times where dreams are communicating a message to you and but your dream should not make you restless because if it's from God the meanings come with the dream except You're dreaming rubbish. If you the meanings come from God. That's why there's no special gift of interpretation of dreams. Your dreams come with the meaning. When you wake up, what comes to your mind is the meaning. But we don't like that to be the meaning. Not with your

doctrinal biases. Now, just the normal mean that comes to you before you now interpret it because everything is subject to interpretation. You now interpret it with God's word. But the meaning of the dream is always with the dream. Only the hidden needed interpret needed somewhere to interpret their dreams for them in the Bible. The unsaved that needed that you have the spirit of God. If God is teaching you something, you could easily just ask him. You woke up. Lord, what does this mean? If you got nothing, then go on with your Christian life and learn to be learn not to make your life harder than it should be because you are not deaf. You are not dumb. you are not that God could not have spoken to you. God is not mute that he can't talk. So he can talk to you. So if for any reason you were too busy during the day, he gave you something in the dream to pass an information to you. That's the very reason why you should know what it means. But since you don't know what it what it what the dream meant, ask him what did this mean and what is coming to your heart. Take note of it. So the scripture gives us evidence. So it says for reproof, reproof, inspiration of God, for doctrine, for reproof, to prove again. So the scripture gives us evidence. We use the scripture to prove things. It is the evidence, the proof. We use God's word to prove things. We use God's word to prove things. We use God's word to prove things. is the evidence. I know my life is finished art. That's not the evidence I have from God's word. I know that I will not live long. That's not the evidence I have from God's word. So my life is regulated by the evidence of scriptures and that evidence so that I don't have to go again and now be studying from Genesis to Revelation looking for evidence is why he uses 44 444 for doctrine. That means every other thing will be predicated on the word doctrine. So the word doctrine there is a precursor to every other thing he's going to be saying for doctrine. And with that doctrine we have reproof. With that doctrine we have correction. With that doctrine we have instructions in righteousness. Say no no I don't I won't take that. Okay. So the evidence you have some people is is this thing that's why say go to school everything is argument. You can't tell me that. You can't tell me that. Okay. So the evidence you have now is it in line with a teaching say of course now it should be in line with it. So what did we say? So as well so people just like to win that it's not how you said it is how I believe it. No wah but is a figure of speech where a word is used repeatedly like that. It shows you that the first is the key. That's why it says four four four four. So you always pick the first one and you see that every other thing is saying will be that. But if you don't like um understanding things properly for doctrine for reproof. So I go into the Bible again and I start digging the Bible for reprove what I will get is a doctrine and that doctrine is the reproof that you have gotten. I study the whole Bible again from Genesis to Revelation trying to get correction. I will first get a teaching a doctrine before I will get the correction. So everything is it flows and when we say biblical perspective of life we are saying a sound doctrine perspective of life. Did you get it? Sound doctrine from where? From the word of God from the scriptures. Now we have a complete cannon of scriptures Genesis to Revelation regardless of uh the theory of inspiration you upheld uphold to or p better speaking not the theory of inspiration uh regardless of your

theory of canonicity you uphold whether you have 20 30 40 60 80 books doesn't change what we are saying there is a doc a biblical perspective of things. Amen. So another day we'll have that argument and this is not the place for that argument at all. Amen. So this not the place for the argument of how many books are in your Bible. But the important thing is we are dealing with a biblical perspective of life. And from the scriptures we get doctrine. Hallelujah. From the scriptures we get doctrine. we get doctrine and that is it says profitable. I go into the scriptures to get doctrine and he said that in 2 Timothy chapter 2 already in verse 15 where it says study the gospel as be diligent to to show yourself approved unto God. Be diligent. Study to show yourself approved unto God. A workman that needs not to be ashamed rightly dividing the word of truth. So there is a straight cut the surgical court there's a straight court of scripture there is a rightly dividing so if you can rightly divide and you can wrongly divide and so rightly dividing is suggest I take what the Bible is saying the way the Bible is saying it and I allow the Bible explain itself within its own context. So the author's intended meaning is the meaning that I get from the text. The author's intended meaning, not my own meaning. The biblical writer that the author that author of that book, the biblical writer's original intended meaning is the meaning that I must have in my Bible study. And that's how we view life. Amen. So for doctrine then he says for reprove for evidence concerning how things say so I don't need experience that's why it's stupid when a Christian says you don't you have no experience it so you cannot talk to me shut your yap you you remorseful human being that is now wicked and vengeful towards other people because are you praying your experience to people so that we will leave you in your in your states because it is not fair that people come to mourn with them that mourn and I've seen people do this they just lost their uh their mom their dad and I go visit them I mean in my early days as as a teenage president then early youthful days the same thing and they say you don't understand when you lose your own father you will know and and I got home one day and the Lord said to me you better rebuke all these confessions Why do I have to understand? I didn't tell them not to mourn. I said the Lord will see you through. So I should have told you the Lord will not see you through. Lord will not help you. Lord will not comfort you. So I learned when I visit people who are money. I just sit down there. When it's 2 hours, I say we will see again. I come back another time. I just sit down there so that they will not be telling me. until you experience it. I don't some things reveal your your your heart and I found after some years of course still uh in those early days I found out after some years that some person another member then lost the mom and the person say you have lost your mom now you understand what I was telling you now what is this understanding that we are sharing so may I not share that kind of understanding of course everybody ultimately loses their loved one So in just a matter of time but I don't need that experience to be able to speak to you because we don't build doctrines on experience man we don't build doctrines on experience s no matter our experience it doesn't truncate God's word when God's word tells us we put aside those experiences because we are to experience God's word but there are also experiences that

are against God's word so as much as the Christian life is vital by experiences. True. But if what I am experiencing, if what I am experiencing is against and away from the wisdom of God, sorry sir, I will not buy into it. No matter how much you try to convince me because it's the same reason why people have told us until you experience it now, you will not you will not understand that this healing thing does not always work. It will always work for me. I will always receive my healing. I will abide in it then because there's always somebody out there that say ah what about the many people have died of sickness is is them and that know how they died of sickness because what about the many person that have also not died of sickness you not see that one but there's always and the experience is across the divide there are people who have I mean the contrary experience is across the divide there are some that have all good in that regard that they didn't die of sickness. There are those that died of sickness. So why should you always believe that once somebody wants to die, it must be sickness that killed them. But there are people that died and it was not sickness that killed them. They were just tired of living. They were satisfied with their days. >> You do not see all and there are many. Oh, you not see the people that raised their children where you only saw the people that not raised their children where they used to use that ah one square go which is again a perspective of life. You not see the ones that raise their own way and learn. No, no, no. Is experience. Why will experience even in the natural we know that pain should not be the best teacher. Wisdom can come from pain. Wisdom can come from experience. Wisdom also comes from scriptures. Wisdom also come from mentors, from teachers. Say, are we against experiences? No. You can't even be a human being and not have experiences. You will surely have experiences. But is not my experience that gives me what I believe. I am to interpret my experiences in the light of God's word. So, oh look at what I'm going through. That must mean that's what God is. No, no, no. What I'm going through is not a sign that that is God's approval. >> Amen. Let us call down fire like Elijah did. Jesus say you know not the spirit you are made of. There is always viewing things from God's perspective. Amen. That a man of God called down fire. God backed him up did not mean that that is how you should live. So when we the word of God became flesh, we saw his interpretation of that matter and he didn't say Elijah is wrong. He simply said you should not. Simple. He didn't say Elijah is right. Elijah is wrong. It's not an issue. That's the wrong question to be asking and he was not answering that question. The question they were asking him is they wanted to call fire on these people and just say no you know not the spirit you are made of. Act differently. act according to the constitution of love. Amen. >> So I don't need the experience. I don't need the experience. Are we all going to experience things? Yes. But the experience is not the best teacher. Are you 12? You past teenage age. Experience is the best teacher. You are you 12? Experience cannot be the best teacher. I want to know the proper use of my hand. So let's cut off your hand first. Everything experiences. Let me experience this first. Let me experience it first. Ah sir, there are some experiences you cannot live to tell. >> Because in the experience you have died. So you cannot tell us what is the best experience of what is

the next thing to do. No. So understand that. Amen. Amen. >> You will not understand what I'm going through. No, many of you will not understand what I'm going through is not viewed from I must not experience what you are going through to be able to empathize with you to be able to sympathize with you. Abi you no we have clearcut rejoice with them that rejoice mourn with them that mourn. That's clear in God's word. So I cannot come to you morning then I'm I'm I'm I'm rejoicing and say hallelujah glory. No I understand we have joy in the Holy Ghost but when I meet you I'm supposed to mourn with you. I'm supposed to say ah sorry about this. So and that's the same reason why people that have parents and have good home training know not to mock the dead but they are pastors who even because they jump into train. It really doesn't matter how useful the person was in life. Even an arm robber or a thief should not nobody should be happy. Nobody should be happy at any debt because death itself is an enemy. Don't be liking what you should not like. >> Amen. Death itself is an enemy. It's a violation. God hates death. Death is an enemy of God. >> So you cannot laugh and rejoice at death. Amen. Nothing wrong is same. Some want to wish somebody birthday. Oh, birthday. Happy birthday, sir. Though we may not agree on you are a witch. Though we may not agree on everything, is that the time? Just wish me happy birthday. I get out of there. This is not the place. The next day you can write that. >> Just say happy birthday. Say happy birthday. Uh though uh we do not agree on many things, but I must say you're real. I don't care about that nonsense priest. that you have done. But but happy birthday. Happy birthday. It's simple enough. Happy birthday, sir. Happy birthday. Since you don't have anything to write, full stop. Happy birthday, sir. It's once in a year. HPD. I be what? >> I don't know. It's rubbish. I will never know it. L N P HBD. HBD. One year you download HBD, >> you'll reap what you sow. >> I'm playing. Amen. HBD. Once in a year. HBD. Wow. So the Christian life is made vital by experience. True. Because we will experience God's word. So that's what it means because we taught on experiences with the Holy Ghost. We want to experience the written word. We want to experience God's word. Not that you are telling us that we are going to use our experience as a teacher. The same way you say um God is not always good cuz in my life sorry sir it's your life. You must learn that because if you have okay in one place experience is a great teacher. No experience can teach things and that is the lessons you have learned. Are you getting it? But negative experiences affect all of us and nobody wants to experience negative. Of course, we know issues of life will come. But nobody is actively saying let it come, let it come, let it come as if it's a good thing. Except you have never been through any negative experience of life. It's not something you would desire. It's not something you would delight in. It does come but it will not shape our understanding. This is how I understand life. This is how I see things now that they not they trust man. They not they trust woman. No, don't do that. Those conclusions you are having are not everybody's conclusion in this world >> but you have bought into it. H there's no one that can ever have money and will not lose all his money. The same way people say things like uh I will never learn from somebody who has never failed in business. Teach me

about business. Huh? This is a problem of education. Foundational problem. You are used to failure. All those statements are to encourage people that are failing. You are a failure. Those are statements to encourage them that bounce back bounce back bounce back but you must not fail stop having that you see now it's even looking shocking because in your in your in your philosophy of life you must fail who said so that's the reason why I see some big men that have never seen poverty in their life trying to identify with the trenches you can never identify don't bother don't don't try to say how what they going through so they only have one driver. Ah, have one driver. Is that trenches you're explaining? Is that That's not poverty s. So, you know, things have been tight for me. I only had uh uh \$10,000 allowance in the month. That's one year. That's one year for the average rich man. What are you saying? So, it's okay. It's okay. It's okay. See, in order to feel along, in order that No, no, no, no, no, no, no. It's okay. Everybody will not everybody will not have to experience things the same way because there are many things and factors and persons that have shielded us from experiencing things the same way. So, I cannot use experience as the finality of my learning and say, "Oh, I've experienced it, so this is how it is." No man, no sir will get into God's word. What does God's word have to say about this matter? That is my theology. That is my belief. That is my philosophy. Amen. That is my perspective. That is my opinion. That is my point of view. So my perspective, my point of view, my opinion, my philosophy concerning everything is shaped by God's word. I will experience things, but my experience will not become my doctrine except the experience is the experience of the doctrine. I'm to judge everything with God's word. So if it is not what God's word say then that is not the experience that I can call my teaching. No the only experience that is in our teaching is in the experience of what God's word said. Hallelujah. >> If not we all be sad people, depressed people, heartbroken people because we want to live according to our experiences. Imagine Joseph was like that. I told you before I would have said what I have gone through with Portifer's wife all the women go take for prison any from now export any woman I see open season but that's not it say in fact I rebel against God he didn't let his experience he remained imagine he said I'll never interpret dreams again I'm Done. I'm done. I'm done. For people that are always done in their life, I'm done. I'm done. It's over. It's I never I never I never I never just one issue. That's how that's why you must go through experience so that you can have spine backbone. Just one experience. I never I never I give up. I don't think it's for me. Hey, it's for you. No, that's where patience that's where character that's the crucible where character is formed. where patience is formed in rot experience. So you must go through experiences because it will test what you really believe. It will test your convictions and those convictions we have as believers must be from God's word. So there's a young lady who I love Jesus. I love you. I love you. I love you. And then she's 31. You say oh Jesus came too late. and she goes marry somebody who is totally opposed to the Lord Jesus. What went wrong? And this is again experience. You we have them in society today. What is the issue? She really her convictions were tested. She really did not believe what she believed because for her time is going. Time is

going philosophy for life. It had never been God's word. Time is going. Time is going. That's why because experiences will test time. You say no. H. And again before we even bring it to God. How are we sure they haven't been working? Because people know how to be angry with God. And God is a big God. He can take all the attack we put on him. And God is just there like wow. So what the wisdom I give this girl? So she call fool is rich. All right. No. Well, it makes her happy to put it on me. I can take it. Where were you God? Where were you gone? God is saying but I gave you that advice that I not to follow that man. I gave you the advice to stop saying to stop switching off your phone. I gave you the advice that day to stop rushing out of church as we just close fume. I gave you all this advice. So I gave you all this advice. I gave you that advice to you say why would somebody be calling me and they don't know my name is from calling you I will know your name. Say hello there. Hello there. You can't if you don't know my name then I cannot turn. I cannot turn. I cannot turn. That's why you are not married. So and God is wondering. I have done many things. How many times do we reject wisdom, reject direction, then later put it on God. I said God is a big God. He can handle it. But we have put many things on God. And even God is shocked like but I give this girl wisdom that time. [Music] So our experiences are not enough to form our doctrine. The same way uh you know how powerful doctrine is. If you have a doctrinal perspective of physical mansions in heaven being built skyscrapers in their near death experience or in they are going to hell because these are people that are going to hell that should not even be able to talk to us because they were not saved because I don't know why a Christian is dying and he's going to hell and we think he's a Christian that is even the first problem we have this unsaved people who were raised in church. So they thought they were Christians because as I come to church I'm a Christian. No, I my father's God is my God. No, you believe for yourself. But so they die or in that neardeath experience before they whether it's the chemical phase on in the hospital where they return back sudden and they get their for 5 seconds 2 seconds 10 seconds as we have seen or they literally die for 30 minutes 1 hour 2 hours which people have experienced and that gap they now I was going to hell then I was sent back. Then they are telling us I saw fine fine building. This is why some doctors can never be saved. Say delusions of grandio say what is this because some strong me that they give you too. You will see all those things. You'll be seeing many things too. The same way high fever makes you have vision. High fever, not low fever. Hi. Say there's a lion in my room. Aha. It's high. Why is the ground opening up? Why is the ground opening up? The ground is not opening up. The fever is high fever. That is giving you this experience. So we learn from God's word. Our doctrines is from God's word. Did you get it? So the scripture is what we do for doctrine, for reproof, for correction. Nobody can nobody can tell me what is right. Nobody can tell me that this is wrong. We can we can s we can man we can tell you this is the right thing. This is the right way. This is what God's word says about this matter. So we get our correction. The word in the Greek epanotosis to set things right in the mind. Right thinking, God's word gives us how to properly think. Right

thinking and right living is from scriptures. From the scriptures, we know what is right thinking and what is right living. And the symptoms can show you are not thinking right. No matter how many persons you want to bully with a sudo spirituality or a sudo maturity, we can see through it and tell that this thing is wrong, this thing is wrong. Amen. Are you here? So the scripture is probable for doctrine, for reprove, for correction. Then it says, "And for instruction in righteousness." The word instruction there in the Greek is *padia*. The same word for pediatric word in the hospital, the training of a child, the rearing of a child. So that training of a child the scriptures is profitable to train me to train me to train me. So you see children are trained. You see, that's why I don't know how I've seen some pastors say things like um my children must not be pastors. No wonder that now all your five children, no one want to serve Jesus Christ. You you you you said it. You have consistently said it the same thing. Say u I don't know why people must have large churches. I don't know why people must have so many members. That's why you cannot have member today. I don't know why a pastor should be wealthy. I don't know why a pastor should be rich. That's why you cannot be rich. Even though you have done 12 business on top your pastoral work, the businesses will never work. You have long sentenced yourself to a life of penury. All those conclusions we give because we are not there yet. The same conclusions the poor man have against the rich man that feels like the rich man took something from him. So every time a poor man says the rich man is angry like this person is this person became rich by taking something from me. Do I know you before? Do we? So there's always that anger. So if you horn car roadwise and is backing where the vehicle is coming from or common sense of of walking on the highway does not have who backs vehicle you should always walk facing vehicle common sense 101 that's why we had to horn because in sena clims I don't know how we put it in more civilized places you could be arrested Ed for walking anyhow and say why they arresting me for this waka waka walk properly now you can't be then the worst is those ones that put their children because any fool can spread leg to have child just put the baby there on the highway the child is protecting the mother tick tock uploader just put the and be walking so that the vehicle will take the baby. I thought these are things our mothers help my mom said to be there said walk this side now. Why are you always going this way? Stay this way. Things that some people should be blaming their parents that the parents not trained them well. They will be angry when they hearing wisdom from church from places they go back to your foundation and go and say you were not raised well will tell you we'll be fighting. Not my mom every time used to say ah don't stay there or stay this side. No, we are walking together. I could still remember all the times we were going to primary school. Then walk this side. Walk this side. Hold my hand. In fact, hold my hand. The way the vehicles are moving, I don't understand again. But now because you are you just they burn them. Just they burn them. That's why sometime I see some I said this child is like three years. Is my eye three or four? He's just running on the road. No father. Then I look no father, no mother. Then they are going to be angry. Mob action. Say vehicle. Should vehicle not jam that child? Should the child be running over?

But you have to be careful because mob action that mother you not see after 5 minutes [Music] put tire. And one of the reason why they want to burn because they can never buy it >> is let us be the same. We will never be the same. The fingers shall never be equal campaign. Fingers will never be equal. It's the same thing with uh a a a force. People have to live fake life. Fake life. Fake life. You cannot afford it but you want to get it. Baba, there's something like growing into things. When you grow into things, humility will be normal. You will not be proud and yet you are wealthy because you grew into it. Oh, you grew into it. It's not about ch talking, raising shoulder. Oh, be humble. But you grow into those things. Grow anything you grow into, you can handle the weight. You want to impress people. People don't look at where you say this is the person that is trending now. After one month, everybody forget and go back to their life. Oh, you're impressing people. Better do what you love. You're impressing people that are not impressed. I said, "All right. So uh so you you went to be borrowing money to sew fine fine dress. You borrowed money to be sewing fine fine dress to impress who? That's why some people can't wear one cloth for 3 years. Say I it's uh I I feel like it's old. This reason why you should not have only one cloth man. If it's only one and you wear it for three years, obviously to not just be old, it will be worn out. Remember somebody thinks poverty is not good. He said why would somebody have more than one white shirt so that I not wear out sir? He said but how will people know I I don't dress because of people. This one is people. Somebody said that to me. Yes. But he said sir you have two white shirt. I said not two. He seven can't be two white shirt yet two. It's just one white long sleeve. See the all the things I challenge of going to a school that has only one uniform. Everything starts is it's progressive. It's pro everything one one one. So in no way no I'm not trying to put anybody down. No. Please don't do that. What I'm saying is there are things we should correct in our thinking but we think it's other persons. No. So two two of these have it in pairs then it will last longer. If when your style of dressing is impressing people so it's only one you have. So it's okay start with one then as you can afford another have another and have the ones that if it fade it will fade into the color back. You must learn those things because you should know it. You cannot say you don't know those things and you say I'm coming out from poverty and you don't know these things. Ah you did not learn the lesson. So that's why you will go back and repeat class cuz immediately 1 million entered your hand you had to go back to penury. It is the sentence of your soul because the conversation of your soul has always been to impress people. So your first one million brought you back to zero naira zero cobble because aha money has entered our handle. We have made it. So you started living large you started balling for 1 million. You don't have a destiny. 1 million is enough. Ah, they still if no because of 1 million you have I'm done. I'm done. No, can I make another one? Not now the money. So consumption brain not how will this continue and it was instilled in everybody growing up. You must break those patterns of thinking too. Everybody has a consumption. It mainly monitors their hand. The first is what can I buy? What can I get? Question is what can I buy? What can I get? This is the symptoms of of bondage. Money cannot enter your hand

and the first you think of what can I buy. Is can this come again? How will this come again? Of course, expenses will always be part and parcel of life. We must buy things. True. But the first thing that comes to my mind when I have money should not be that those are the psychology of poverty as much as there's a psychology of wealth. Amen. >> So we get instructions in righteousness. There's how we are instructed to live. There's a training for for for my life. And we get that training from scriptures. Instruction in righteousness. Amen. Amen. >> Hallelujah. >> I remain little in my eyes. >> That's training. Oh, so that now is a big say I can be an those are for poor people. Huh? Where are you getting all this idea from say uh you know it's broke people who join an activity unit in church. I don't do that. I just worship God in my own ways. God 7 million in the whole full year is what has produces arrogance. It will not go far. Will not go far. Pride that people have that don't have money. Pride. You must always realize that everyone's status differs. So that's why you must know early how you can be satisfied. Yeah. You must choose your satisfaction level. [Music] So for where I am now, okay, I'm not yet there. So this if not your eye will be evil. You cannot see your neighbor have something and not feel like uh can I see that watch again? Can I can I can I say it one more time? You have seen it three times now. Not go become thief. Buy the one your money rich. Say wow. Where did you get it? And you know you cannot buy it. Where did you get it? You you this is too much bondage. Where did you get it? I like to get my own. You not go get same reason. Once you see your brother have something that you don't have, you feel like I need to take it from him. It's the same place that arm robbery comes from. Robbery thief tiffy tiffy. Amen. >> Hallelujah. >> Oj is the same spirit. Oh, the same thing. Um I I I like that that that that canvas. I like that shoe. Can I try it? It's on my leg, sir. I cannot pull it for you to try. Should I walk barefoot because you want to try this shoe? Say, "No, I just wanted to see if it's my size. And if it's your size, what will happen now?" So t they start to feel like things are really working for her now. So you didn't want it to work for me before. things are really working for him now. Don't do that. Don't have an evil eye. That's why some people are shocked when they realize that that person have money. Say he get money. I be not know. So how many persons do you want to know that have money? So I supposed to write it on your head. I have money. I have money. When you have plenty, I have plenty money is written on the head. No, some of the pressures that you are living in, the anxiety, the tension you have, you gave yourself. I need to impress my friends. I need to impress my friends. Grow into things. So, if you really have reached that status, you to handle it. But that's why you can't handle it. You have to fall back. Your not being able to handle the status have shown you have not reached there. You are a pretender. So live with what you you have reached. I can so we give those simple life saving principles that people don't take seriously. You can afford something expensive. Buy the cheaper one first. So that when you I remember telling somebody told me he lost his iPhone. He said I've lost I said then get a new one. So I didn't know people don't think normally. So he was shocked when I say get a new one. I say sir it's expensive. I say and so you shouldn't have something you cannot buy. You shouldn't have anything

you cannot replace. He was shocked like ah no now sir it's expensive. I said that's why you should buy a new one. I couldn't understand because it has been long I stopped thinking abnormally. So I because I think normally so I'm not used to because not it's just a team. If you are going to get anything, you should have the asset to be able to replace it. It's just my financial education is too strong. So it's not allowing me see think normally again. I can only think that way. So he said, "Ah sir, hey this from I think last year." I said, "Get a new one." said, "Ah, get a new one because that's the normal. Buy the one you can afford except you are a content creator and it's part of you have turned it to your your saving project." I don't know. I'm just trying to be merciful so I don't look like I not give allowance. But you always buy the things you can afford. Buy things you can afford and when you can afford big so I let me just say this as a quick one this is bonus when you can afford a Camry start using Uber start using both that's when you should start using both when you can afford I'm not trying to put down Camry please know there are different grades so I'm talking about the older years I don't want to use Corola because it passive some some SUV. So, so when you can afford pencil light, okay, let me use that one. For those if you don't know, it's okay. Just think of pencil that is light on top of pencil. It's okay. I cannot start to explain it's how we came to meet it. So, if you can afford it, that's why you should be entering both or that if you Yes. Then when you can maintain that car, when you see feel like your resources is enough to maintain it, then you can have it. Then you will not be calling us to help you buy for say sorry the car broke down. Can you help me fix it? I this is not a this is not a a a is not a joint project. What you can afford is life sense. Amen. >> I've kind of like been waiting to see all of these things. So this series has afforded me the opportunity to shoot many arrow. So every arrow is correct. I know shoot every arrow and I will not miss all these different arrow target. Those on first not let me talk now I will talk. So when you can afford something higher always like that. So you can afford something higher go to the one just before it. It should not be exactly what you can afford is exactly what you have. No do there are times where you do like that if it's your first time always say it's good where people have first exposure so that because no matter how much you try to help them they will not understand. So again because they have chosen that experience is their teacher because when you are giving them superior argument they will not take it because they have not experienced it because their philosophy is life is experience is the best I must experience it so go and experience. After they have bought the one they cannot handle, they broke them. It was very expensive. They have jam this jam this jam they said. Oh god. That's why you have start with the car because every first driver to second driver except by the mercy of God and by extreme skillfulness will be bashed or we bash something or somewhere cuz you are still learning. Now sir, are you saying is is is wrong to get brand new car? Nothing wrong if you can afford it and it will not put under pressure. Please don't buy a Nigerian used car. Don't buy a direct bedroom car. Buy it with a lilon bag. Never driven before. Let them ride it from Lagos. So let them put it on top of the trailer and bring it to your house. Carry it down. your money longish like that is okay this is how

your money take long don't put other people under pressure say yours is a Nigerian car
 mine is a I don't care they move for road they move for road don't put me under pressure
 never put yourself under pressure does that mean oh I again this is what we said what
 somebody else will say I should never stretch for big things in my life. Why is every
 knowledge fighting? Why is why why can't you learn something without it fighting another
 thing? Don't live under pressure is different from having elastic frameworks in your mind.
 Stretch for things does not mean you are stretch for things is not going into depth. Stretch
 for things is not uh I need to show that I'm not in their class but you are in my class. You're
 just pretending. I don't want to look like I'm in their class, but you are in our class. >>
 Amen. >> So the scripture is probable for doctrine, for repro, for correction, for instruction
 in righteousness, that the man of God may be thoroughly furnished. That the man of God
 may be perfect, thoroughly furnished unto all good works. That the man of God may be
 perfect at the man of God may be fitted. So, we get our doctrine from the scriptures. Is that
 okay? >> Yes, sir. Colossians chapter 2. Colossians chapter 2 and verse 6. As you have
 therefore received Christ Jesus the Lord, so walk ye in. So as you have received him, so
 walk in him. For by grace are you saved through faith. That's how you walk. You are saved
 by grace through faith. You live by grace through faith. Then he says rooted and built up.
 The word rooted and built up. Exactly what rooted means to have roots. Rooted and built
 up in him. So that means I am unmovable, rooted and built up. I'm rooted and built up in
 Christ Jesus. I'm rooted and built up in the doctrine of salvation. I'm rooted and built up in
 the doctrine of my faith. Rooted and built up. That's me. >> That's me. >> Then he said,
 "Establish to be firm, unmovable. rooted and built up. So rooted and built up. Established in
 the faith. That means I should be strong in the faith. I'm rooted. I'm established in the faith.
 Strong in the faith as ye have been taught. You see this? You see that it involves doctrine
 just as you were taught abounding therein with thanksgiving. So what I continue doing is
 I'm overflowing with thankfulness. Hallelujah. >> Beware. Then he says beware. Tell your
 neighbor beware. >> Beware. >> So there are always things to beware of which is part of
 instructions for the Christian life. Beware lest any man spoil you. Don't spoil me. Oh. >>
 Yeah. And this word spoil is to carry, is to be seduced, is to be led away like a captive.
 That's the word spoil here. Don't lead me captive. True philosophy is he doesn't have a
 problem with philosophy. Is showing you that philosophy can be one of philosophy is just a
 love of wisdom. is that's why there's right philosophy and wrong philosophy. All right. Says
 let any man lest any man spoil you lead you captive. So let no one take you captive. true
 philosophy and that's it and so the philosophy that is vain deceit so this one is vain is vain
 is deceitful is empty so that is the philosophy that is against the philosophy that is deceitful
 and empty and he says it is that is after the traditions of men after human traditions.
 Human tradition tradition is not to bring cowies and bead I don't know is tradition tradition is
 what is passed down tradition tradition their men go to to bead in the hand cowies native
 port tradition tradition is what is passed down so what you are calling tradition is oulotic
 pract practice. Accotic practice the name of aotic practice is not tradition. Tradition is what

is passed down to the next generation. So it's hand it over hand it over to hand it over to hand it over. So it's what you pass down after the traditions of men. to the way men normally the sequential the order in which people think which is also after the rudiments of this world and not after Christ is then he brings in that word rudiments of this world is what it means by spiritual forces. So see that no one takes you captive through philosophy and empty deception which are based on human tradition and the spiritual forces of the world rather than on Christ. This is the birian standard Bible I read from just now. So that word rudiment and I've always thought use the word stoon which is used for elemental spirits. So it's showing you that many philosophies have spirits behind them. many ideas, thinking patterns that people have, what they call the rudiments of this world. There are heavenly bodies involved in that thinking. And it says, "Not after Christ." The NE translation says, "Be careful not to allow anyone to captivate you through." Now, please don't lend this. Pastor lens through translations. Haha, you have been deceived. I don't learn with translation. So it's only KJV I use and I am deep in the original language and I don't use translation. This is just I because I don't have time. It's not a Bible school. I'm trying to save time so that before you ask me where the pastor gets I'm just trying to say that translation this is to save time to say that it's not only me that said it and that translation I've even said it. It's not that you want to know any text in the Bible translation not work nothing using translations but what is translation is rubbish because the transl nobody can translate beyond their doctrinal correctness and there are different types of translations. So there is the formal equivalence, there is literal word for word translation, then there's thought for translation, then there's paraphrase. Three types of translation. So which one is this one? And that's why there's normally a preface before the translation to tell you that this one paraphrase also not a Bible you read again. This is my what I think the Bible is saying. So that one is not even Bible. That paraphrase is not a Bible again. That one has become my own opinion. Then thought for thought. So what the KJV why people like it and even to the ROSV and all of that is because it is word for word. They try to translate what the word meant in Hebrew or Greek to English and it does have some trick uh some um it trickles down a bit with a bit of Latin because of the Latin Vulgate. So it's not just from Hebrew and Greek is Hebrew to Greek. So all the Bible was in Septuagent the Greek translation of the Hebrew text to so Greek Greek then Latin then English. So it has moved from many languages before English before Tinddale and White Cleave and all these amazing men translated. Amen. So no Bible writer taught in English. They taught in their original language Hebrew or Greek. So that is how you should see Bible words. So when we want to understand the meaning of a word we check the language that's what Bible dictionaries are for to give you the meaning of the word there then we now situate the word which is another work situate the word that word within its context which is called situational context. to that context. We look at that word in the context of use. Then we look at that word outside that particular context which is now called corroboration where did this same writer use the same word to say the same thing. Then when we are done with that we now

do an intercoration of other books. Where else can we find this? So just like intra and intercoration. So internal evidence within the book and external evidence outside the book first by the author and by other authors. Then if you have the materials for you to check the culture of the day how was this word interpreted in the culture of the day? What is the history behind it? So that is how I study so that you don't put me into that laziness. So I saw somebody doing just now that oh wow. So I just go buy this bian standard Bible. Pastor likes it. No that's not it. Oh that's not so studying is deeper than that. And some of my study materials I bought them for 185,000. That's just one. Another I bought for almost 400,000. So just like you take your life serious in business and that's how I take my Bible study life serious. So if you want just ask the person that said book don't worry case you are shocked at the prices he will fill you in on how expensive some materials are. If knowledge is so cheap why is everybody not wise it's not everything that you can see on WhatsApp status now it's not everything that is free on YouTube some things you have to spend money for. So he says buy the truth. There are some truth you will buy and because you want to gain wisdom. Is that okay? So study texts are a bit harder. Then I have all of Rabbi's book. So that that's also another one and that is quite a lot. And I've had to read those books again and again. So because there's always a not star for doctrine. There's always a human person because anybody who is afraid to quote anybody is a heretic. How did you just emerge? How did you just say so to as a north not star okay it doesn't say it any different okay so I now study within that framework so that I don't study outside it so I go see I not supposed to so I study within that framework which is you study within the framework of your teachers trusting that your teachers are being exact amen so beware lest any man spoil you through philosophy and vain theat traditions of men after the rudiments of the world and not after Christ. So did you see this? So Christ should be my theology. So is there something wrong in having a christologology? Never. And I've told you before Christologology is the direct resultant is the conclusion of proper theology. The conclusion I have upon reading Genesis to Malachi should bring me to Christ. The conclusion I have upon reading Matthew to Revelation should show me Christ. So nothing wrong in seeing Christ in the scripture. The only challenge is where we now say you must avoid Christomonism which is looking for Jesus Christ in every sentence. That's a lie. You won't find it. So you can't even teach anything normally again now because you are in your Christocentric movement. And in order to live up to your movement that only you put yourself under that pressure to dream movement it's like you are in the charismatic movement you are in the Pentecost that movement can't you just be for the Bible that's enough so that you are for all movement someone ask me which one I say I'm for I'm in the charismatic I am a Baptist I am a Presbyterian I am an Anglican I am say you you mean you are all of them I'm all things say how I say through Christ who strengthen I don't get power for the argument. I beg. He say, "Oh, oh, oh, so yeah." I say, "Yeah." And I threw another out of context for him. I say, "I'm all to all men." Say, "Oh, wow. Nice." I have the patience for any explan cuz he know he doesn't even have the patience. Some people you

want to just start talking for five minutes say I can't just give you one line. I've given you one line now. One line, one line answer. That's how you pass Y. One line. Nobody pass Y key point. Now you know how some people I remember some those days people were ready for exam. I saw one. I said is this what you are using say? I said but this doesn't have the biology drawing. Say K you don't go understand. You don't go understand key point. You cannot you nobody uses key point to pass anything. key points I want to know the subject I don't want to know just the key points are avoid specialization so you know that thing they call uh and papa he always to talk about it beware of being a specialist I am a specialist when it come to healing say I like that pastor the only thing he knows in the bible is healing that's a door pastor like you are praising so but when error has been made popular I like that pastor he's very vast when it comes to marriage. That's how I know that he will lie. In the multitude of war, sin is not lacking there. The fact that he have to teach marriage from the whole Bible, he must lie. Ah, I don't even need to listen to the message. I already know that lie must drain. Waking marriage ah lie must drain. All he teaches from Genesis to Revelation. Every time he teaches he is always on prosperity lie must day Bible don't talk and sings you see philosophy of biblical perspective I already so later say I observe it you needed to observe to I don't need to hear it to know how can the whole bible be about prosperity what about so even when you want to mention prayer you prosper everything even healing text prosperity everything prosperity So you say uh because every man has his message from God because what shall I cry? Cry this chapter 40. What shall I cry? So God gives you what to cry. So cry that's the verse that is used to explain the gospel that we preach. Oh that's where Peter say being born again not of corable but of incor by the word of God which liveth and abideth forever. for then he quoted Isaiah 40 that you are using to say what shall I cry that's the gospel he said which the gospel of your salvation after that is the next verses which we are going to put reference don't put references that we show as if I not know Bible second Peter 1 put the under part and says which is the gospel he's explaining that situation and he calls it the gospel they not put it again they're afraid let Let me read it for you before they quote 1 Peter 1:23 24 and it says for all flesh is as grass. Then 25 but the word of the Lord read forever and this is the word which by the gospel is preached unto you. That is the quote from Isaiah 40. For all flesh is as grass and the glory of man is as the flower of the grass. The glass with the red the flower thereof fallth away. And that is the Isaiah 40. You read the grass wither read verse seven. So when he said the voice said cry and I said what shall I cry? Then verse seven the grate the flower fed. You see the interpretation you not have it as a specific message. That is the word of God. The gospel that we preach. Amen. >> So everybody has his own message from God. There are people God call and gave them holiness message. All they see in the Bible is holiness. Holiness unto God. And every message, that's how I know they will see rubbish. And that's how I know they will be very judgmental. Because if that's all he seen from Genesis to Revelation, every time you read the Bible, all I see holiness, you must be holy. So even to receive healing, so you must be holy. If I know he mean Jesus healed people

that were not holy say no everything reasons why people are not rich on holiness, but there are more unholy people that are rich now say no leave that one. We're talking about biblical righteous uh biblical prosperity sir. Biblical prosperity as there biblical nodes. No, not that one. You see confusion go to confusion? Unholy people have money too. Now which one is every money is not religious. Thieves have money too. Now you are forgotten. Look at the society. Look at your politicians. I think that's enough evidence. I put it to you. So my message from the Bible is holiness. My message from the Bible is a wisdom. I'm a wisdom preacher. I preach wisdom. My message from the Bible is power. Every time I read the Bible, I see power. After I read the Bible, I see power. Be a Bible preacher. Preach the whole word of God. That's why a Bible teacher thank for that wisdom gave. Never be a specialist. You are special. No. Learn everything that the Bible says. Then you can teach on different topics because you should be vers in the whole Bible. Amen. Be this is my own. My own is relationship. Pastor, relationship coach. Do those go together in a normal word? Which one is pastor, relationship coach? Which one? Which one is that? He's already a pastor. That means already that means he will give us wisdom for life and relationship and everything. So already inside that word pastor. Why do you have to separate the two? Because he's really relationship coach. They will not start hearing. You know women are this is relationship coach from Bible. So that is the opening Bible. You know women are not wired. I just log off once I just start hearing all those women are not wired. Now you wire them. Women are not wired because they always have to use their emotion because women are not logical. Your mother as you say your mother you didn't get that. All right. It's okay. Man think die that in fact the issue is that my own used to think too much is the problem I have I don't know your own mother does not think my own think oh I say oh because your sister is just the only one so uh I said she was the eldest she senior also so three boys say no it's because he's the only girl I said my own family have disproved your theory I say no no no think it true now I say feel it true my brother feel True. You know, I as a lady I I don't I don't I I don't have I can't think. That's what you should be hearing. Any these things is not looking like I'm hitting. Why is that thing still popularity today? And they say there is research. There's even a research that says that you don't have eye. There's research for everything. There's research. There's research. You know who did the research? Mathematic research. You you go and there's different research. There's even research that says you you're not a human being. So everybody has research said the data shows it. Which data? Every human being has brain. Every human being can think. Why are people like this? You are not studying what they not saying to study. See material you are studying. Why do women act the way women act? It's not in the stars. It's not in the sky. They book If you go turn Bible, you cannot talk from Bible. Why do men behave the way men behave? Um, my father, my mother, my brother, um, predominant pattern. Let me AI help me. What's the answer? This a this a this a pastor that is depending on AI. Say to his advancement, which advancement is that one? What is which research is that one? AI cannot teach anything beyond what somebody has said. You don't

be making if not go school, we go school now. Which one is that one? Is it not somebody that that instructed the AI? It can only work with the data available. What if I did not upload my book online? How will he know to you add my knowledge to know he's using to answer you? There are many things that are not accessible like that. Now, >> Amen. Amen. >> But this is where I get it from. This is where I get it from. Every human being thinks so. The reason why predominant and we say the male and female difference over the years have come from upbringing has come from the society has come from the labors. The societal defects. How the society has now viewed men viewed women has come from the years of abuse. All of those things have shaped people. So when you are saying this is how that's why the Bible our wisdom for living does not have character for women and character for men. Everybody have the same fruit of the spirit and you know who you go meet. But as a manag uh we I you know we we women talk too much we men blow too much. How does that work in a home? Say we women talk too much we men blow too much. You know we are quick to use our hand. Bible says not a striker. This one is a striker. Not footballer. We women talk too much. We men. How does that What kind of home would that be? We women knock too much. We men leave the house too much. I balance it up. Now you are nagging. You are home alone for 3 months now. I don't know where my husband is coming. He may never come since you always nag. Better to dwell in the wilderness than with man want kill you. Say it say better to dwell on the rooftop just go the leaf or roof than with a contentious woman. Not saying women are contentious. Just giving you principles and telling you that no try your best to avoid this. There's no reasoning with somebody that is controller. We can't wear one trouser obviously. So I'll be outside until you calm down to realize that this is insanity. You cannot be wearing one trouser since once I vest like my head is scatter. That's insanity. Oh madness. Once I realize anything I see I break bottle I I I stab person suicide. One day as you're sleeping you just see somebody on top of you with knife. See I could not express myself. Ah handc her before you sleep. So that [Laughter] say cuz we men we women no no no no no no you are a Christian you are you are a Christian that affects everything about you get your understanding from God's word if not that's what gave room to the feminist movement the equality right people all of these people because of poor biblical ical intervention over the years people say no women have marginalized that's there are people who say things that when a man is and I did that when I had a forum for only brothers where we talked some years back I said that in the house they grow up a woman cannot talk it's only the man that talk the women dare not speak and the last born say listen to what your brother is saying people old to say born say listen to what your brother is saying because after me he's him. There are homes like you guys are >> there homes like that. That one still brought it to Christ Jesus. It still passed through the cross. That bloodline was able to pass through the cross. God's word not touch your heart. Never. He say we aquarian men don't say sorry. How come I went to say aquarium and I look at you and you are really from aquarium. See this enter even in example led by the spirit of God. I wonder why I was we I am an ishan woman. What does that mean? If

you see tomorrow ah no you forgot that I am from Ewatu. You forgot I'm from a way. You forgot I am from what does that mean? You know we beanie ladies like Italy not Italy all those conclusions. Is it true? There are so many ladies that are not in Italy. So all those are you know and I've seen pastors even do the same thing. I was into a a a short clip on Facebook and the pastor just shade that the whole ebo culture he say you know to trust an ebo man to your detriment like this is why you there are basic etiquette before you become a preacher at least have common sense which one is that nonsense what the hell is that say ebo people what is ebo people I say yoba people it's almost like I'm a night of a thousand Euroba people. Ah, this is this is I can tell the comedian that talks like this. You brought it to church. You brought it to church. You finish. There is a view of ethnicity. A believer must never be racist. Must never be must you are your brother's keeper. You love every culture. You love every people. You can't hate from that and they bring that same thing to Bible. So that's why when we say the Greek word say what's the meaning of that nonsense but we tell them the their language you use their language for them the word for it they won't be offended the Hebrew word for it the bin word for it they will not be offended don't be like that nations will rise against nation ethnic clashes are with the unsaved are in the flesh is a we have been taught against that in scriptures say pastor I noticed that you love all culture. I say before uncle, I'm taught like that. That's how we have learned Christ. We have learned Christ to love every culture. Say but you can't trust those fool people. Ah you trust a man to your detriment. What does that mean? What does that mean? Because there is that illiteracy of thinking that people have this idea that no fan man can be a doctor. Are you you are not this is the problem of staying inside one place. You have never passed the boundaries of benicity. You are talking with lack of lack of data really. So when you see that's a full name I remember telling somebody about a vice president that that person's intelligent person I said until they now saw the you can't even your handwriting is where F used to fight handwriting straight you you are the one that think everybody is like you not go to every voice say an is a new man I said no you can't even remember what We said yesterday this person can remember information. The bankman owner said if I want somebody to recall information word for word that we had seven months ago I call him you not get that IQ they they they yap somebody of going to learn you can't recall anything you can't recall you don't have but as you just see full say not go school he not know anything can people are that's the worst what is this you are a Christian you don't judge like that you don't deal with people like that. We have not sold land cry. It must it affects everything. Say ah it's my town people. It's my town people. Hey brother. Oh, tell me. If you know, you know. Oh, boy. It's only somebody from So, I only deal with people from my tribe. No, we don't do that. We don't do that. >> Hallelujah. >> Praise God. >> Our wisdom is shaped from God's word. Amen. >> Amen. So there's how you see life and that's what we mean by perspective. So biblical perspective is that so we're in Colossians chapter 2:8. Are we learning something? >> Yes sir. >> So world view is how you see life or perspective is how you see life. So the word perspective is a worldview an opinion. Did you get it? Or

philosophy. So you must have a perspective of philosophy for life or perspective or world view what we call a biblical perspective or biblical worldview or biblical opinion or biblical philosophy. Did you get it? And that is how you see life. a biblical perspective or a perspective is not what you look at but what you look through. So that what you look through. So the biblical perspective is how I look through the Bible to see anything. I look through the Bible to relate with anything. So how I interact with racism for example I can there you should have no racist bone in you. No racist bone in you. You're a Christian. I never used to have time for any culture. But now at least like 20 cultures in this country. I know at least five words in them. I'm telling myself I will to know at least one word in about every culture. If I meet somebody from that culture, I just tell me this one. I my brain is trained to remember good things. So what does thank you mean? What does good money mean? I will never forget it. If I hear it once, it will stay forever and ever because my emotion is mingled with good thing. So I will always remember good thing just and it's that is even a good trait of what is God's word that gave me that idea of understanding about those days where we call it what we call shoe maker the cobbler the repairer of shoes as they walk we say uh you know in in the south where they say abi insult even to stop again know said that man is an abi What do you think abi mean? That's why it looks weird. This one is a this. This one is a this. We don't know what those words mean. So a good word like that has been given weird meaning. So what I used to do those days when I was I now added so they will stop. They know say this person is trying to be friendly cuz I say ah my friend. So, so it couldn't have been that he's using it the way other person because that naboki never ready to walk. They call you abi. They call you malam. That's even the words malam. Malam look like you saying you are a cow. That is a scholar. A malam is a scholar but lack of exposure. Say a malam sayh and the uh bandits and the uh remember Amos was a headsman for you. Remember Ian was also a headsman. Let there be no stri between my headsman Abraham and so before you speak against heads man work. It's just that those ones are now carrying AK-47 and all of the the other many issues. Speak against that. Don't speak against the culture. The culture did not do anything. Speak against that. Speak against violence. Speak against crime. is the same reason why Christians also don't because they don't have a perspective of viewing things when it comes to politics too. They can't say anything. The government of the day that was not doing well, no one letter written about it. There's always one activist that believe he knows activism that want to tell pastors how to behave. What are the churches doing? Let them rise up. The one you rise never do. That's not what church is for, sir. Don't give us direction when you you are. That's not what the church is for. The church is for teaching people God's word that we affect their values. And if we teach it very well, a Christian ought to be different in society. Because one of the best place to produce good people should be the local church. Should be to let the church do what churches are doing. But now hate from the church. A pastor gets up and he say you know I want to read for you this president is Jubilee even if it is true that is not what a pastor I mean what are you reading all of this one

for he have died not he died since and there were so many churches that did that thing that time they have they have swapping they have cloned him from church that's what the service is about we gather to come and discuss say and now bed let's talk about our agitation for Bafrah you should have run because because if they come to raid people now they should raid you you stay till the end you say after all we are able people that's not how we are able people is it sad that e people have been marginalized yes should you be impacted into the ebo man's plight that is humanity that shows you are human humane as we will put it. You must be sympathy to anybody that have suffered any form of stigmatization. True. But my view is from God's word. Once it don't get way be count. Amen. Amen. >> I like it when in my interactions with unbelievers and there's a billionaire I do something with and he said that ah forget him. Ah forget forget him. I when it come to his matter he prefers his name than that money. His integrity is greater than that money. I have not seen somebody whose integrity is more important than that money. You cannot trill him with the amount or he will not drain. He will not do his name. He believes that his name is greater than that amount. Ah because my name is bigger than a good name is better than riches. Ah no no come give me say that's a thief. Ah no no that's a this. No no no. A good name is better. A good name is better. You work on your integ all those things matter. Not that they say ah it's a that's why some those days when they put pastor as in their name and they say they want to be president or vice president it's easy for us to vote for them but we have found out that if you put pastor in front teeth thief thief doesn't have any respect anymore doesn't have any respect anymore doesn't have doesn't have doesn't have any respect anymore because it is not being seen it is the Christian the one that is doing early morning prayer that you cannot trust in the is that's the person that we backstab the CEO. That's the that one that as you just come we lift our hands to Jesus Christ. Can we just pray I told you about once they finish praying before he gets to 10 you start hearing blow pa go inside the office and I one day ask who they say is the same person. What a shame. The same person that does prayer say because this why is money matter because it's a lonely they drag for their their money. So if for God that is and they have marked him the person that does early good morning Jesus it's not Jesus it's Jesus you are good morning I know you came from heaven above the Holy Spirit the truth good morning Jesus good morning Lord you want to know the song is correct you already know now what kind of song is That one we call his songs embarmed in unbelief. I can pronounce it well. Don't worry, it's deliberate. Pinotoior. [Music] I or thou are calling. You not get m Why all you not calling? Do not pass me by. But you know we are careful how we speak about music because it's other person's intellectual act. You already know the answer. Though it's not intellectual but it's okay. But it's other person's act. I think we should remove the word intellectual but it's okay so that we are not critical for critical sake but that's against scripture it may be painful it may hurt the man but the song not follow at all is against Bible there's no text of scripture that God passes anybody by he said in fact he said without any condition I will never leave you nor forsake you there is no condition to

that statement he didn't put a condition that by which you will leave that I will never leave nor forsake unconditional statement. So you shouldn't sing your worship reflects your doctrine. Your worship reflects your doctrine. I can't sing that because I don't believe that. Amen. >> Hallelujah. >> Beware lest any man spoil you through philosophy and vain deceit after traditions of men. So everyone views life through a unique filter. Everyone views life through a unique filter. And that unique filter is what is called their philosophy which we are calling perspective. But that perspective must be from from the Bible. Is that okay? All right. So everybody has a philosophy a unique filter by which they view life. It determines how we interpret things, events, how we make decisions, how we respond to situations. That philosophy is how. And everybody has it. Everybody has it. So whether you say, "Oh, when they were teaching me philosophy in school, I slept off." Everybody has those four branches of philosophy in their thinking. Metaphysics, there's a way everybody perceives reality. Epistemology, there's a way you get knowledge and there's a way you interpret knowledge. Ethics, there is your view of what is right or what is wrong. morality, ethics, then logic, how you argue, Abby, the premise for your arguments. That law, of course, there are other branches of philosophy today, but originally they used to be only four, but today it has gotten to like seven, aesthetics and all the rest of those things. The Bible has a view on all of those things. The Bible has a view on all of those things. How we should see reality. That's why when you do a survey of what is your purpose in life, you will look like you are in a business seminar. Nothing about Jesus Christ and crucified. People are being trained. Say discover your purpose. Find out that thing that thing that you hate most. But I hate Jesse. Is that what I was I was born to HSC. That cannot be the purpose of my life. Now say what is that one thing that you hate more than any other thing? What is that thing you feel like you are called to solve? That mean I will be answer coach. That's that one thing that you feel like you have a strong so that we win Champions League that one thing. So I should go back go and relearn become a coach and so that if we are going to use all those questions say no uh when you see the world what is your deepest fear what is this is the Bible did not make life that hard when it comes to career or what you are doing for money. If the one you love not give you money, love the one you are doing. Whatever your hand find to do, do it well. And that's a context of vocation. Physical vocation. I mean what you call a career. Just do the anything your hand find to do. Be diligent in it because you can have like 10 career part. Nobody is born to be a doctor. H that's why I say you know the the way God created me God created me to be a doctor. No but sir when a child is being named we know that thing is for telling we can see the future that this child has the it looks like because everybody has inclinations everybody has those tendencies based on even who gave birth to them so we can and those are all the meters that come together in prophecy that you now said this is this child will look like it's this thing the child will read but if the child not read it don't mean your prophecy is wrong child have every right to read what they want to read and do what they want to do you can guide their choices to ensure that say what I feel like I want to do is I want to be a thief I've made up my mind ah

because every child should do what they want to do I know so we have God's word to guide us so career day your 5-year-old put white chalk on his I it's really career day. Then he put feather on his ear. The making of the oracle is a y eye of the god. He has already marked the eye. This I see wise one. So philosophy is not the problem. Is that okay? So there's how God's word interprets reality, the metaphysics aspect. There's how God's word interpret epistemology. How do we know things? ethics, how we ought to live, what is right, wrong and all of that. So we can view those things with God's word. Amen. >> So there are different world views, different perspective. There's perspective in religion today which is reason why and there are different perspective that shapes religion too. You have naturalism where you have atheism, agnosticism. Atheist says there's no god. The agnostic is in between. It's not yet sure. I think there's god. I think there's no god. Existentialism. All of those people that hold on to naturalism. Then there is pantasism that has hinduism, taoism, buddhism and even all the new age consciousness. The destism which Christian Islam, Judaism falls under that has that monotheistic framework of one God, one God. Then there is polytheism and spiritism that has what we call African worship traditional all those things even to uh the Scandinavian region, Vikings and all of those people that you like their music that is slow. It's you thought that is inspiring you from that music. Vala from Vajala you are being inspired. Any sound you see say it's very slow from Viking priestess is is he's is playing huff there music some people listen to for long just get up I don't think my life is worth living there sound now you say it's not it doesn't. Yeah, there there's different sounds. That's why some of them tell you the kind of sound that they have. But people don't used to check that one. Since there are some songs you listen to, you become mentor because all the song has mentor inside. The idea of the song is so that you will collo. I believe I've spoken in parables and videos. You will never see anything good in your country with those kind of is a because that's actually what they believe. There's every philosophy and ide you can see what somebody believe by what they predominantly sing about what they predominantly talk about. You will see it. Amen. >> Amen. >> So there are different ways people view the world. People have a scientific view of the world. People have a religious view of the world. People have a romantic view of the world. They always living in their fantasy island imagination. I be people have an individualistic world view as well. So there are different views. People have different philosophy, different lenses, different perspectives people have of viewing the world or viewing things. And there's nobody that does not have a perspective. There's nobody that does not have a perspective of how they view things. So, a Christian must have a system of thoughts grounded in biblical principles that guide how we understand and interact with the world because that biblical perspective will frame my understanding and direct my actions within the world. So how do you see life? That is your perspective. That is your philosophy. That is your worldview. And we are saying that perspective must be from the Bible. Hallelujah. God's word is a mirror. We should see things through the mirror of God's word. Hallelujah. The psalist said, "I have gotten wiser because of your word. Your word

makes me wise." And we have wisdom for living. Torah, the law of God, gives us wisdom for living. God's word gives us wisdom for living. So there is a perspective I'm to have and I'm to view all things with that lens. Hallelujah. >> Amen. >> So the Bible becomes how I view things. The Bible is how I view things and not just Bible like Bible like somebody say something is biblical but it's not correct. What we mean by biblical here is that it's correct. We don't mean something that is just in the Bible but what the Bible teaches which is the doctrine. So the doctrine sound doctrine perspective of life is what we are looking at. Amen. You'll pick it up from here next week Sunday. There's how I see life. There's how I interpret things. The reason why some people are always in doom and gloom and sadness is their view of life. Your view of life is your perspective. The reason why people cannot expect much is their view of life. The reason why you can't rise beyond how your pers you can't rise beyond your perspective. What is your view of life? Some people's view of life is why they are greedy and selfish. What is your view of life? How do you see life? How do you see the days? How do you see things? Let no man spoil you through vain and empty philosophies and not after Christ. So my philosophy for things is christoentric. My philosophy for things is of Christ. You have not so learned Christ. There's how we have learned Christ. There's how God's word have come to us which is what it means by how we have learned Christ. That is my philosophy for all things. That's my philosophy for life. That's how I live. That's how I view things. Amen. >> I see everything from that Christ centered perspective. That's how I see honor. That's how I see love. That's why how I see marriage. That's how I see purpose. That's how I see creation. That's how I see all the aspects of life, the sciences, history. That's how I view all things. I view all things through the lenses of scripture. The lens of scripture is how I see. I see through scripture. I see true sound doctrine. So every time you are learning sound doctrine, which is not just this topic, every time you are learning sound doctrine, every time you are hearing God's word, it should be affecting how you think. Should be affecting what you believe. Amen. So that you can think like this, live like this. Man shall not live by bread alone, but by every word that proceeds from the mouth of God. I live by God's word. I live by the wisdom of God's word. >> I live by the wisdom of God's word. >> So when you get when you start interacting with people, you will see people who have weird philosophies in their life. What kind of thinking is this one? What kind of you know I don't know I don't know far I am ah God almost 30 years gone from that way of thinking. I can't say sir should do you know that I don't know I can't think like that I last thought like that as a child when I became a man I put away childish things as you grow in God's word put away childish things put away all those nonsense views that some Christian you talk about prayer they get angry say ah I don't do believe in that I believe in 5 minutes I talk to my father minutes I talk to my father that's why their life is a mess Because it's 5 minutes talk to their father because they have daddy issues in the natural. So they think 5 minutes is enough. You say why do I have to spend time? Because they think prayer is about just give me give me give me give me give me give me give me give me. Prayer is more than give me give me give me.

Prayer is communion. Prayer is cooperation. Prayer is submission. Prayer is petition. Prayer is warfare. There are five aspects of prayer and the only thing you know is the petition of give me not the petition of his will selfh what I've done that's why all your prayer is 5 minutes 5 minutes enough to talk to my father 5 minutes not to my maker there are 24 hours in a day and 5 minutes enough your life will be a testament of that 5 minutes prayer is not for give me give me now is wisdom for living is so that our steps are ordered so that we know how to do what to do. So that we don't wy ourself. It is not in man to direct himself. So I'm always with direction. I mingle with direction in the place of prayer. I mingle with wisdom. I So it's obvious I have fellowship with wisdom. It's obvious I have fellowship with power. I fellowship with direction. That's why we pray. I'm showing that I cannot do it on my own. I depend on you. You see those testimonies say, "Oh, and I I just felt like I just got that staring to do that." That is the reason why we pray. So that we are in tune to God. Oh, so that when you are getting those nudges, you can get it. Say, "What what's the meaning of that? I'm a child of God." Stand on your feet. Thank you, Jesus. Stand on your feet. Thank him. I live by the wisdom of God's word. I live by the wisdom of God's word. >> I live by the wisdom of God's word. God's word. I think by the wisdom of God's word. I do everything I do by the wisdom of God's word. And that is how and that is the rule of my life from today. That's the rule of my life from today. Go ahead and pray in the Holy Ghost. Pray in the Holy Ghost. Thank him. and I've spoken to
