

will be flooded with light, will be able to walk in your word. In the name of Jesus, we declare that in this service, the things that ought to be said will be said. The things that ought to be done will be done to the praise and glory of your name. We declare that we shall be edified, built up, transformed by the power of your word. And our faiths are released. And we know that our needs are met by the operation of the power gift gives in our midst this morning. Open to all trances and revelation by your spirit in the name of Jesus. >> Amen. God bless you. Have your seats. Isaiah chapter 55 and we will begin from that particular text of scripture. Isaiah chapter 55. Isaiah chapter 55 and verse 8. Isaiah 55. two major paragraphs in Isaiah 55 1-5 and 6 to 13. So for the sake of uh for the sake of situational context, we'll start from verse six uh seek ye the Lord while he may be found. Call ye upon him while he's near. Verse seven, let the wicked forsake his way and the unrighteous man his thought. That's the introduction of where we see taught. the wicked man his thoughts and let him return unto the Lord and he will have mercy on him and to our God for he will abundantly pardon he will abundantly pardon. Then he says in verse eight, for my thoughts, remember he had used the word in verse seven, let the wicked forsake his way and the unrighteous man he thought. The unrighteous man he thought. Verse 18 now says, "For my thoughts are not your thoughts, neither are your ways my ways, say the Lord." So which man would this be? This obviously won't be the believer, the man that God says should turn from his thoughts, his wicked ways unto God's way. So, and that is the intro. It says, "For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts. For as the rain cometh down, and the snow from heaven, and returneth not thither, but watereth the earth, and maketh it bring forth and b, that it may give seed to the sower, bread to the eater, so shall my word be, that goeth forth out of my mouth. It shall not return unto me void, but it shall accomplish that which I please, and it shall prosper in the thing whereunto I send it. For you shall go out with joy and be led forth with peace. The mountains and the hills shall break forth before you into singing. And all the trees of the field shall clap their hands. Instead of the thorn shall come up the f tree, and instead of the briar shall come up the mighty tree, and it shall be to the Lord for a name, for an everlasting sign that shall not be cut off. Now see the emphasis. First paragraph 1 to 5 was an invitation to life. How we ought to live life according to God's terms. If we are testy will come. It's not uh our performance. It's not what we have but it's about the grace and the mercy of God so we can buy without money. Speaking about how God intends life to be. Then he talks about how we ought to live. Seek the Lord. So in my step to reconciliation to be God's man to live the life of God he now says we have to drop our thoughts for his thoughts. So this speaks about what we call conversion repentance repent which is to change your mind change your mindset change how you think repent and be saved. So the believer first and foremost is one who has taken God's perspective for life. The believer is someone who has taken God's perspective for life. How? Because you heard the gospel. You acknowledge I'm talking about hearing the gospel as a sinner. You acknowledge that oh I cannot save myself. I cannot help myself. I am finished in my

own condition living without God's help and God's power. You needed a savior. That is already dropping your thoughts and dropping your ways. That is biblical repentance. It's not about crying. The goodness of God is what leads men to repentance, not the threatening, not threatening people. Amen. So you repented. You changed your mind. Which John doesn't use that word repent in the four gospel. Matthew, Mark, and Luke consistently use the word repent. Repent. For the references in Matthew, Mark and Luke that have repent, John says believe. That same reference is John just says believe. So to repent is to believe. The act of faith where a man turns from the vanities onto the living God, where it turns from idolatry, turns from the sin and unseen forces we hand power to and say now God will be the controller of my life. I will serve the Lord. I would worship him only. He is my God. I will live for the Lord. I want to be God's man. I want to be welcomed into God's plan for all the earth. I want to be the blessed of the Lord. I obey the gospel. I believe in Jesus. Whatsoever is the construct you understand in the simple form the gospel was preached to you. I accept Jesus as my Lord. Amen. That point is where a man apprehend God's thought and God's ways. Amen. The starting point from that moment you are a man of God, a man from God, a man of God because you have become the man that God uses. So from that moment you need to be vast in what you have come into. So after salvation is spiritual growth. God would have all men to be saved and to come to the knowledge of the truth. So after salvation is the knowledge of the truth. So God wants us to be saved and to come to knowledge of the truth. So there is salvation and there is coming to the knowledge of the truth. Amen. Which is spiritual growth. The essence of ministry gives Ephesians chapter 4. It says he gives some to be apostles, some prophets, some evangelists, some pastors and teachers as stated in 11 for the perfecting of the saints. For the perfecting of the saint, which is the word equipping catismos in the Greek, complete furnishing. For the complete furnishing of the saints, nothing missing, nothing lacking. And the ministry gives supplies whatsoever is missing and lacking. That's why God gave gifts to men in men for the perfecting of the saints. For the work of the ministry. So again, if you take the 444 for the perfect of the saint, the saints perfected do the work of the ministry because the pastor's work of the ministry is to bet ministry in you. Amen. Just like a business school bet you you should a business school should produce business owners. The medical school should produce medical experts. Abby, every of the uh the lawyer school that they every of the profession that has uh a specialized training to now say okay you are this is to produce it is to produce that very thing. Ministry is what is producing the believer. So you cannot say, "Oh, God called me as a pastor to make people rich." That's a very noble thing, but it's not a calling from God. Amen. You don't need a church for that thing. Very good stuff. It's good that you are against poverty, that you do not like poverty. However, that's not a calling in ministry. You don't need to know Jesus to have that. Every call of a pastor must involve equipping people to be God's man which is the use of the word ministry that Christian vocation identity and vocation. So the work of every pastor is to help believers in that vocational life in how we image God how we represent God in the world. How we shine as

lights in the world. Amen. And that would involve growing and walking in God's word. Amen. So nothing like that. Some say oh God called me so that it will be heaven at last. No such commissioning in the scriptures. Of course every man is influenced by that doctrinal persuasion. So in order for us not to tear such uh sacred commissions that those ministers of God have though uh much of it is is is is deep in error and babyhood because as long as people are not exposed to sound doctrine they will never mature and grow. They will have experience in the Lord that they are old in the Lord but they have not grown in the Lord. So there will be because outside sound doctrine there's really no firm maturity. There is always instability and inconsistency that you will see much difference between the character of God and the character that is being formed within the person because outside sound doctrine a man can never really know who God is. The essence of sound doctrine is not so that your prayers are answered. It's not so that God can talk to you. It is for accuracy of living, precision of worship so that you can worship God properly. They worship me in vain, teaching for traditions the commandments of men. Matthew 15 verse 7. So how what you believe would affect your worship life. Amen. What you believe is surely going to affect your uh verse 9 precisely. For in vain they do worship me. Teaching for doctrine is the commandment of men. So how they worship God. The doctrine you believe. The doctrine you believe. The doctrine you believe is very core for uh in fact an emphasis in the pastoral episodes. First Timothy 2 Timothy and Titus. The pastoral episodes you see that he constantly spoke of sound doctrine helping proper godliness. Amen. So it's for accuracy of living and accuracy of worship. So where you um a true life story a pastor um in Italy of course it been repatriated now some years back the story trended a bit and he woke up one morning and his god spoke to him and said that woman and that child dagger them and he killed his wife and his child. Of course the they repatrated him, deported him, banned him from life from entry and in when they as he landed in the airport they took him straight to the psych ward obviously to psychiatric hospital and a pastor was preaching to him try to get him born again and he said and he defended his right to the voice of God that he heard and the pastor said to him that God's word judges every voice we hear but he was really convinced because the voice mimics scripture for him and said therein I will know you love me for I told Abraham sacrifice your son so sacrifice what is dear to you and we have such lunatics in society today that is the reason for sound doctrine so that is not any voice that people who are told debase yourself deface yourself don't ever look pretty don't ever look beautiful don't ever look nice because how will you show the Lord God that you have repented from sin and they buy into all such foolishness. Very easy to tell that that is not God. Very easy to tell God's voice is leading you against God's word. That is what we're talking about. We must establish sound doctrine. You see the Lord said to me that people who do not pay tithe now another person said is so innocently because they defer to him and he just said if you don't pay your tithe you will not go to heaven he didn't put God another person because that person has that beloved man of God as his or has interpreted and brought God that God should not be worshiped you and your God are

confused we don't need to buy into that cheap trick you try to use God to bully us and say no no no we have God's word enough to know what God is saying the word of God became flesh God manifest in flesh and is stuck with it is written you cannot fool me or deceive me all the temptations of Satan gave Jesus Jesus answered with God's word >> every time they asked Jesus a question the scribes the Pharisees the Sadducees did you never read in the scriptures how did you reads in the scriptures. He will always use scriptures to answer them. You cannot tell me to forget God's word. The same thing with the error. Of course, it has been a bit corrected now by those not apostles. They used to say, "Don't let the written word limit you. There are experiences beyond the word. I don't want it any experience beyond the word so that I can be telling angels to help me wash plates. Insanity. I don't want such experiences. I I've allowed the written word limit me. If there's anything like that, the the the written word should be the standard. Whatsoever is beyond God's word. I cannot call it wisdom for life. So the origin of the word Torah, T O R A H, the word used to explain the law of God, which has nothing to do with legalism. The law of God, the word of God. Genesis 26, Abraham obeyed my voice, my law, my charge, my convert, my commandment had nothing to do with that. There was no Sinai in Genesis 26 when he saying Abraham obeyed my voice. There was no Sinai there. Sinai Moses was not even born and he used the word laws, commandments. So we mustn't have and all the same what Moses gave them in in Sinai was not legalism either. The point We are saying is this once you have this idea against God's word that God's word is trying to limit me. God's word is trying to stop me from being the best I can be. God's word. So people try to do that with God's word. God's word is the reason why I'm poor. God's word is the reason God's word or God's work. Did you get it? Then we ask, "Have you even spoken to the God? Have you read the scriptures?" Because of course, riches of poverty will not determine who God uses. Because the gospel is ex is is inclusive of the rich and the poor, male and female, born nor free, abi, Jew and Gentile. So everybody comes in as one new man in the sight of God. So any gospel that says you can't be used of God because you are rich or you can't be used of God because you are poor because most people also know that one exists because people have mastered in life to defend poverty. God is not defending poverty. God is simply saying he can use everybody because not everybody wants to work hard to be rich. Not everybody even have the sense or the knowhow to be rich. And if you try to help them, teach them how to fish, you simply get a bad name that I beg you want me. But so people prefer welfare package. It says uh help me with 10K there. Help me with 15K there. Help me with 20K there. Then if you dare, do not give them the 15K. Ah but that money is not big now but you don't have it. It's not big but you don't have it. Entitlement. So you try to okay let me help you set up this. They won't even put all their life and energy into it to see that that business grows or that venture works. No, they have this great uncle and great brother and sister and in-law and grandfather that they want to use work to kill or use by work I mean bill to kill. So there are provisions within God's word. God used a poor man. God used a rich man. God used a male. God used a female. God

used Jew. God used Gentile. Every man is inclusive. Why? Because God's plan Genesis 1:26 male and female. Every human being can picture every human being is welcomed, has been blessed, welcomed into God's plan to be fruitful, multiply. So every believer, every human being that accepts eternal life, that accepts the Holy Spirit can and will be used of God regardless of their financial status, regardless of their intellectual status. God will use an illiterate as much as he will use illiterate. But we should not now be found trying to defend illiteracy because God can use an illiterate say nothing wrong to be an illiterate and I see that among many cycles of trying to defend of course we should be careful of common from in our sermon. We should be careful of of multi- realism. We should be careful to try to monetize everything in the scriptures which is very wrong and ungodly which the prosperity message and all of such proponents have led to great extreme. I've said it over the years that when Paul writing to Timothy said the love of money is the root of all evil. He was writing to a pastor so that the pastor is educated properly to know that this is how people pierce theel with many sorrows. So if you enter into ministry to make money, you're going to obviously be broke. You're going to pierce yourself with many sorrow. You will become what those charlatans are. Dip your hand in your pocket, bring an offering and come and kiss the altar of God with it. Uh uh first uh uh what do they call it? First fruit uh redemption offering. I think that's it. Redeem. If you are a firstborn, come and redeem yourself from family pattern and family lineage. Then um all the different come and sew your Isaac to the Lord. That's Abraham. Now Abraham dropped his Isaac. And we get that is and again that's the challenge because of such people. People do not see that God can lead you to give. There is blessing and a benefit for giving. Such there is such a bless and a benefit for giving that God God in his reward system consistently uses giving as an example of how the judgment day will look like. So giving is such a noble thing that we should not forever throw shades against and say oh to hell we give it because where did you see me hungry? Where did you see me naked? In as much as you did it he says no cup of cold water. So there's all of those provisions that shows that oh if you sow to the flesh you are the flesh rec to the spirit of the spirit you reap life everlasting that there is a reward for these things in life everlasting but in the natural the blessedness that comes from the man of God's prayer that just like Paul says to the church of uh Philippi my God shall supply all your needs according to his riches in glory because you have taken care of me my god does this for you the prayer of the man of god which is uh the speakings of faith and miracles, works great things in people's life because he's a human being for God's sake. You have touched his emotions and you have triggered him. Every man blesses from a depth within them. And because he's touched the word, the power of God will work. But is it only those who give to you also pray for sincerely like that? Then that's not a genuine man of God. A genuine man of God prays for everybody whether they give to him or not. However, he will not take lightly people who have helped him to pastor without tears and pain because uh if we have given you spiritual things he say Paul says they bring for you reap your cannot people like that are helping the pastor that in quotes uh leaves only on

the things of God live only on the ministry doesn't have any secular engagement which is why Paul begged that said okay let the pastor have something secular he does so that he doesn't look like die if not help me I'm finished because there we have seen congregations who don't care in fact it used to be a statement of Lord bring them to us we'll keep them poor and humble for you ha much have changed in Christianity that used to be slogans churches that had personage that's how they wanted their pastors to be so when we see Puritans today try and cry and and try to make just of pastors with private jets always turn away from all such foolishness. There's nothing wrong in a pastor using a private jet. A pastor using a private jet does not mean that he has is is he he he stole money or something is wrong. Just say you are jealous because many times this is where all those unnecessary puritans coming. Not fair. It's not fair. It's not fair. What about when people are broke? Is that also fair? Leave people to have what they have and stop uh unnecessary uh comparisons that do not edify that do not edify. You can say what you want to say. Sometimes I call it cowardice. You know the preachers that have perfect jet in Nigeria just call their names and don't be don't be a coward in the name of purity. I mean purity holiness. God is sacred and is not timid. He's bold. You are old enough to call names. So just call the names directly. Call the names directly. I have a problem with Bishop. I feel like he's destroyed Nigeria. I have a problem with I feel like he has destroyed this country. I have a problem most especially with Chris. You see it now. Have a problem. Yeah, you are old enough. Nobody's going to be angry with you. You have the name and the stature and the rank to correct and speak. But they come they be like say you get problem with private jet. It's unnecessary sir. Poverty is not a good thing. Nobody should nobody should be an apologist for poverty. I'm trying to help you here. >> Because if not that's what they will tag us. Oh we hy sound doctrine. We encourage people to be poor. We have never encouraged anybody to be poor. However God's choice of a man has to do with whether the man has money. Now those other guys who now pervert the gospel now tell you that if you don't have money you are not serving my God. My God maketh rich and start quoting text that was not following. Amen. >> There are so many persons in the Bible God used that were poor. In fact the example Jesus used showed us that one man was rich which other one was poor. And the one that was rich does not know Jesus. The one that was poor knows Jesus and he is in heaven with the Lord. The rich man Lazarus. You know the story that Jesus told you. So Lazarus was a believer. So God's choice of a man. This is normal thinking. That's why the Bible examples are God leans more to the poor. So that because everybody normally should know that the rich is more preferred. So God leaning to the poor should show you that God's choice is not the way man's choice work. But we now took it to say God is for poverty. Ah Jesus in his own testimony said the poor you have with you always. Because there are actions that perpetuate poverty. There are actions that leads to poverty in perpetuity forever. that there are actions, mindsets, environments, cycles of influence you come into that we know, we can already tell you in a simple prophetic declaration that s you shall remain poor. This that you have begun to do.

There shall be no riches in your life. Say nobody can simple prediction simple what they call spoiler give you the spoiler that I know you shall be poser. So nobody should defend poverty. At the same time, nobody should defend riches and put down the poor man and say the poor man cannot be used of God. Amen. So the church, we've said this over the years, is a classless society where the rich and the poor meet. What differentiates us in the house of God and in the family of God is not our wealth. And that is how good societies ought to function. That the poor man has a voice. And he's not he doesn't have a voice because he has money. He has a voice because he's a citizen. Every Christian is equal in the sight of God. What differentiate believers from believers within the local church and in the family of God is maturity. Maturity and service differentiates us. Those who grow spiritually maturity and their service. He who wants to be great, let him be your servant. those who serve in the local church. So it's not do you know how rich I am that's why I can't be in the ory department. What are you trying to say that for poor people and these are the things that sound doctrine correct because why will a Christian have that kind of mindset is a um is a find a unit to join find an activity you need to join in your local church. Let this be a way you contribute in your service to the Lord. Is um um u can't we just pay people to do all of these things because money is talking here? Ababola, you dip your hands into your All right. Uh uh pastor sir, this is a a check of 5 million. Let's just clear all of those step. get rid of all those technical guys and they kind of like don't know what they're doing there by the way just I'm not talking about you guys who clear all those protocol guys clear the sanitation people they just don't know what they are doing because I can give you spotless and I will just foot that every month it's just 5 million foot that until one service day the pastor says you see um we shouldn't have idols in our hearts just uh and he he preached wonderfully and he finish yeah want to see the pastor you know pastor that message today really touched me I felt you were using me as an example and because of that I'm withdrawing my support from this great assembly what shall you do 5 million have gone. You have to go back and beg them and say guys, you know, I've always believed in you guys. It is voluntary service. Oh, it's voluntary service unto the Lord. And that's why the argument came. Oh, should we pay this? Should we not pay this? It doesn't come with people that are okay. It's churches that are not okay and the pastor are okay that they have the kind of argument. Should we be paying people in church? There is no such debate no not in the churches of our lord Jesus Christ that that uphold sound doctrine question is should we pay should we not pay is any the question first is the pastor himself even be paid that the key bodies want to be paid we celebrate you our key bodies our pastor what is payment we don't pay because it's not of full time you you are not always in church Monday to Sunday and it's not every hour of the day. So get a job. You because it's a voluntary service unto God. This is how you serve the Lord. It's different from when you are a technician, we bring you to come and do a work. We cannot say our brother, your brother in the Lord. Our brother in the Lord will not buy the speaker. Our brother in the Lord, our brother-in-law said speaker, buy it. He's not our brother in the Lord. I used to buy it from

China. Are you following you? Buy the things that are needed and all of that. And you shouldn't expecting you to do it free. He should be paid for his workmanship. Now that's wickedness. The best he can do for you is maybe reduce it, give you a discount. But to expect that you should just do it for free. Ah pastor a thief. And that's how people some pastors that's why some people never want to give pastors their house to rent. The pastor he never he never move into my house. We are still talking about house r you sir. Ah go parent. So I said uh drop down m the blessings of the lord stay up use that blessing to be paying me. Oh keep that blessing or let it make sure the money is coming and you see all of those stories that have been told about oh I gave my house to a pastor I gave my house to a and not pay. He kept owing me for three years and praying for me praying for me every time. Now prayer person go in fact I arresting say don't touch the anointed when anointed were touching me what did you do which is again wronging touch not my anointed how does that to do with touching the anointed what is touching the anointed there he said any man who suffer let him suffer for the righteous case let not suffer for being a murderer or a thief so if you suffer Peter If you suffer for that, you suffer for a just cause, they should lock you up. It's a just cause. It's not ministry. That's not persecution. That's you being a thief. >> Amen. >> Sorry about that if he's paying you. So doctrine matters a lot. Hallelujah. >> And in doctrine is where we get God's thoughts. So it says in the book of Acts um let's do Psalms before we do Psalm 103:7. He made known his ways unto Moses. His acts unto the children of Israel. He made known his ways unto Moses and his act onto the children of Israel. The ways and the act of God are with the man that knows the way of God. Amen. He made known his ways unto Moses and his acts unto the children of Israel. Romans chapter 12 again uh verse two. And be not conformed to this world, but be transformed. So we're talking about a biblical perspective of life. Be not conformed to this word but be transformed by the renewing of your mind that you may prove what is that good acceptable and perfect will of God. So it says be not conformed to this word. The word conformed is the Greek word suk matiso to be fashion shape take the mold. The same way you mold a cup. The same way chairs are mold everything takes the shape of the mold. production engineering the way everything is made it takes the mold. Now it says do not let the don't be squeezed into the mold of the word but instead be transformed changed by the renewing of your mind. That's that word renewing of your mind. Renewing of your mind. So the believer ought to renew his mind. Hallelujah. Amen. The believer ought to renew his mind. Renew his mind. Renew his mind. That's Christian growth. That's how we pick biblical perspective for life. That's how we ought to think and see things. So a biblical perspective. So when we talk about a perspective is your ways when we talk about a perspective is a perceptual framework that everybody have. Your ways of seeing. Your ways of seeing. How you see things, how you see life, how you see people, how you see everything. It includes your philosophies, your ideologies, your theologies. It is also your world view. Your view of the world. Your perspective of life is also your world view. W O R O L D V I E W. And a biblical perspective is not a moral system. Let's start with that. A

biblical perspective is not a moral system. Some people uh try to identify a biblical perspective with moral behavior. Of course, certainly someone who holds on to biblical perspective ought to behave differently from someone who does not. So let's say that first so that what Paul said they slanderously report that we say let us do evil that good may come. No. So at least we have started with that one. You know that we all have we are thinking properly. So a believer ought to behave differently from one who does not uphold biblical perspective. Is that okay? But traditionally the use of the word morality must always be seen as not a Christian construct because a man can be moral without the Lord. But a man cannot be righteous without the Lord. A man cannot be used of God without salvation. So when we say salvation is not morality, we do not mean that salvation is bad behavior either. But the issue is that people have people can't be moral without the Lord Jesus. Morality is seen in every form of worship, every faith, every religion have what they call morality. So it has to be beyond that. So we say salvation has been moralized. Salvation is bigger than that. It's more than just a change of behavior. You are my son, you are my son. You are my daughter. You are my daughter. Obviously behavior is important but for not not for the wrong reason and not for the wrong purpose. So a biblical perspective is not just a moral system. So when we talk about biblical perspective the very first thing some people think is that oh we're talking about moral behavior. All right. No, no, no. A biblical perspective. Of course, like we said again, the quick disclaimer, a believer ought to behave differently from a non-believer or somebody who does not hold a biblical perspective or philosophy or worldview for life. Abby. Yes, sir. >> Okay. So, but morality alone can never be a biblical perspective because several errors will come from that. And we explained the use of the word perfect. I think I did that here. So you say be perfect. Perfect in the Bible is used to explain maturity. Perfect is used to explain uh what Christ has done for us. Hebrews chapter 8, Hebrews chapter 10 and 14. The word perfected. He had perfected them forever that are sanctified. The word perfect is also used to explain conduct and that is the Matthew chapter 4. Let's read that. When it says be perfect, now this is not morality. I want to repeat it again. will always keep separating it because morality can be produced without the life of Christ, without the Holy Spirit, without God in your life. And what is produced without God in your life does not glorify God. Matthew 5:48 when he says, "Be ye perfect even as your father which is in heaven is perfect." The word perfect there is the word used to explain completeness, maturity. So behave, this is a behavior text obviously be therefore perfect even as your heavenly father is perfect. What is the context? It talks about verse 43. Ye that ye have heard that it has been said, thou shalt love thy neighbors and hate thy enemies. But I say unto you now you have heard that it has been said, thou shalt love thy neighbor and hate thy enemy. That is how some people interpreted the law of Moses because the law of Moses also say love your neighbors. So the law of Moses I've told you over the years it's subject to interpretation just like uh lawyers Facebook lawyers and Twitter lawyers know how to defend and explain case and people who should know better learned colleague s that should know better is learning from Facebook and YouTube

keypad warriors what they have to say the same way uh Uh uh Abuja is the reason why somebody wins an election. Abuja is how somebody win an election. I see how in the law court your great lawyers were all silenced because and the judge said and when I read the report from the the judge said and all of them said yes my lord. Then afterward they came out and said we not agree or we not agree. cowards on suits eating the man's money because the judge said if we are going to make FCT so powerful that if a man has not won if a if a person wins many states and do not win FCT that means we are making FCT a greater state than every other state that means and FCT is not even a state now what did the founding fathers say what did the writers of that provision of the constitution say and he used the word situational context of them say yes my lord then they came outside and started argued again we not go agree oh we not go agree people know what ultimately who want to be wise know who to learn from ultimately ultimately people that want to know school go to school and no book know what to learn not cheap uh black male Because people are very emotive. So if you just appeal to their emotion, oh they triggered, they excited. But doesn't mean that they are ready for proper intellectual framework of thinking because this is the reason why people are trained. This is why people learn. Every lawyer knows that that you can state the provision in Nigerian constitution as a 1999 he is have an omnibus applic [Music] I I've read constitution. I just as I just get to the court, I just read it as those of you that are involved in litigation. You just go to the court session. This obsession is not is the judge going to say where did you do your own law school? Get out of my court. You have to defend the case. So that is interpretations. You have an interpretation. So it's interpret. Then you now look at a law and not know that it's interpreted. So the interpreters of the law in that second temple period, the scribes, the Pharisees and the Sadducees had a very devilish interpretation of the law of Moses which Jesus and Paul corrected. And that's the reason why it look like they hate the law. Nothing is wrong with the law. The law is wise. The law makes a man. The law uh is the doctrine that everybody have. In fact, all that Paul taught, he taught from that Genesis to Malachi. Nothing is wrong with those portions. is just the interpretation that had been given in that second temple period, that intertestamental period, the 400 years gap between Malachi and Matthew. the rise of Alexander the Great and the rise of Roman Empire, the Greco Roman world. That in between is where the challenge came from and certain theories of the students that were mentored by Ezra and Nehemiah and Zerubabed the governor. After their timeline, we had the rise of the scribes. Then the set of the Pharisees who believe in the resurrection, then the set of the Sadducees. And they were interpreters within those cycles. Two most prominent of such men, Shamay and Hel. And both of them held views that if a man is not circumcised, he cannot be saved. Which is the argument in Acts 15 that some men have come and said if they are not circumcised, they are not saved. And it says the same way they trouble you and put a yoke upon you. So it's interpretation. The same way in Matthew 19 they came to Jesus tempting him and saying is it lawful for a man to put away his wife? Notice their issues always the law. Is it lawful for a man to put away his

wife? Then Jesus answered them with the same law the same law of Moses. The same Genesis to uh Deuteronomy. The same first Bible Jesus used to answer them. They now said, "But Moses commanded us to write a writing of divorcement for them." I'm in Matthew 19 for those who are not familiar with scriptures. Amen. So you can read it. And Jesus said Moses because see again went back to the same Moses. Notice he's not leaving the argument. So he's showing them is how you are reading. Moses wrote you that law because of the hardness of your heart. So you go to Leviticus, Numbers, the those boring books that you say is boring but has doctrine but it's not boring because you see why Moses said what he said. So uh s we not go we not go because I cannot take it anymore. I cannot take it anymore. I cannot take it anymore. I cannot take it anymore. I don't want people to be laughing at me in society. S there needs to be a law that says a man should a man can leave his wife. I don't want I don't want I cannot take it anymore. I cannot take it anymore. Say Moses wrote you that law. The Greek word is one scero kadia. He wrote in response of your heart. It was your heart. Moses simply gave you what you wanted. H how can that be God's law? God already accommodates human frailty. He does not endorse it but he accommodates it. So Moses in writing and interpreting the law of God accommodated human frailty. That's what Jesus was simply saying that now put away wife put away a wife. Leave Moses alone. Simple interpretation. The same way they Moses commanded that they should stone such. Which one did Moses stone? None. Except you have never read Genesis to the thronomy. Nobody was stoned by Moses for breaking any of those things. As people try to interpret again an interpretation issue. So Jesus said, "Oh, which of you without sin?" So in other words, which of you is without sin? Throw the first stone. No, Jesus did not say they cannot throw stone just be without sin. So that means if they were being sincere. So what was Jesus favorite word for those wrong interpreters of the law? Hypocrite. Hypo have washed Christ out of their life. Hypocrite. Hypocrite. Hypocrite. Hypocrite. Then he says in Matthew, you sit at Moses's seat. You become, you have become interpreters of Moses for Moses. You will not let other people enter and you yourself will not enter. Blind leaders leading the blind. You love salutations and greeting. You take widows captive for a pretense horrible people and they interpreters of the law. No. And that time they as us which was the end of the argument. M 22 Jesus now said how is it David's son? If David in the spirit called him Lord how is he David's son? The Bible say and no man does ask him a question after that day. What was the issue? Taking them back to how it is written. So it's how do you read it? Have you not read? How the word have you not read is how did you read it? Every man years according to the state of his heart. So it shows you the hardness of their hearts affected how they heard the law of God communicated by Moses. The hardness of their heart affected how they heard what they heard. This is the reason why we avoid the law versus grace debacle conundrum that people like [Music] I preach Bible because where did Paul teach the grace of God from Genesis to Malachi. So how can he not be there? Some people have I have said this for so many years. Jesus did not die to God to get God born again. Some people's theology have

Jesus making God a good guy. Now Jesus came into the world so that God can turn a new leaf and say God is over for you. Time up. You better behave yourself. I've shed my blood. Now I've washed you clean. Behave properly now. Become uh gentler. Become more merciful and forgiving. Which Bible is that one? Jesus's death is not for God. It's for you. It's to make you a new person. Amen. It's not. Some people have even taken John that you know from from primary school without Jesus Christ. So you know it's from primary school Christian school. Amen. For God so hated the world. For God so loved the world that he did what? >> So that he gave his only begotten son that whosoever believeth in him should not perish but have life everlasting. God so loved the world that he gave his son. The way people read John 15, God so hated the world in the angry Bible translation. God was so angry with the world that he sent his son to bear his his anger. He wasted his anger on him on the cross. This is when you are doing grace versus law. You want to be a grace preacher, you have to wear white canvas and jeans and put hand in your pocket. You know your long jeans cry. That's not what we are doing here. It's not it's not a movement. Proper Bible interpretation is not a movement. Proper Bible interpretation is how every believer should handle the word of God. >> Amen. >> The introduction of God to Moses. Exodus 33, God said to him, "The Lord I will come and you will see me. The Lord the Lord God gracious and merciful." First first sentence in the articles of introduction, God introduced himself to Moses as the Lord the Lord God Yahweh Yahweh the Lord gracious and merciful. God is gracious. It's not Jesus that made God gracious. The word gracious and merciful is used for God 319 times. Genesis to Malachi. Jesus have not become flesh. You know what we mean? The word had not become flesh. Ah ah gracious merciful in the Psalms alone tender me abundant in tender mercies forgiveness don't have a god who is something else because where did Paul said in in acts 26:22 he said I said none other things than those things which Moses in the law and the prophet say shall come I said none other Paul said he quoted only what is in the law. In Acts 17:3 the Bible say opening and alleging Paul verse two say reason with them out of the scripture opening and alleging that Christ must need suffer these things and to be raised again the opening and alleging from the scripture that's where Paul reason to them from the scriptures. Amen. >> Amen. from the scripture acts 28 the same thing the law of Moses the and the prophets teaching persuaded them about the kingdom of God that's what he he taught from that's where Paul taught from the law and the prophet the righteousness of God without works without this wrong interaction of the law is evident is made manifest by the law and the prophet by the scriptures amen Amen. So it's the same scriptures that Paul used to defend his righteousness by faith. The same scriptures when he was explaining justification is the same scripture. He was quoting Abraham in Genesis. He's quoting the same scriptures. So it is how you interpret it. Amen. It's how you interpret the Bible. And we must uphold proper biblical interpretation. So we said a biblical worldview is more than a moral system because a man can be moral without the Lord. Principles and points do this, don't do this. Avoid this, avoid this. Don't go here, go here is different from walking in the spirit. Is different from

walking in the light. Walking in the spirit is the power behind the believer's conduct. Amen. Walking in the spirit. We are told to walk in the spirit. We are taught to walk in the spirit. We are to walk in the spirit. Hallelujah. To walk in the spirit. That's the Christian walk. Walk in the spirit. Walk in the spirit. It's used a lot of times. Walk in the light. Walk in the spirit. And I gave you that text in Ephesians. Let's look at Ephesians chapter 2 again. Ephesians chapter 2 verse six. And has raised us up together and made us together in the heavenly place in Christ Jesus that in the ages to come he might show the exceeding riches of his grace and his kindness towards us through Christ. For by grace are ye saved through faith. And that not of yourself it is the gift of God. Not of works let any man should boast. For we are his workmanship, created in Christ unto good works, which God had before ordained that we should walk in them. So he he says, "Good works which God had before ordained, prepared beforehand, that we should walk in them." So is God just like Philippians 2:13, it is God which workketh in you both to will and to do of his good pleasure. Every the same thing Moses said in 30, God will sanctify your heart to love the Lord. God will sanctify. God will help you to is God that is helping me produce what is right. is God that is helping me not I'm using power and principles working in this that's the difference that's simply what so every time we speak about morality we're not trying to speak against behavior please have behavior the issue is what is producing it because for you as a Christian if you feel like what produces your behavior is what how many principles how many I know and don't know no is the life of the spirit the power of God spirit in you so you know to do right and you know to do wrong. So every Christian who does what is wrong, it's simply a matter of choice. Not because you do not know how to walk in the light. You know, you know, and if you want to overcome temptation is the easiest thing is just to lean on the power of God's spirit. It's just to say, God, help me. And you'll be helped. Hallelujah. Just to lean on the power of God's spirit. That ye might walk worthy of the Lord onto all pleasing. In Colossians 1:10, being fruitful in every good work and including knowledge of God. So we are called like this. Are you following? But it's not a moral system. We must establish that that a biblical perspective is not a moral system. A biblical perspective. It's not a moral system, but is actually Christ working in and through you. So both looks like they are the same but technically are not the same because one can be powered and produced without God working in you. The other can only be produced by God working in and through you which is Christian living. Amen. God in me working in and through me. Hallelujah. or biblical perspective is not also a political statement because now in Nigeria uh we use Nigeria I use America so you get it for you to if you say I uphold biblical perspective you cannot support APC because a party of liars and thieves and you can only support Labor party you have to be in the obedience movement you cannot be a Christian that's why they canceled many pars the other the same thing. You cannot be a Christian in America and not be for the Republican. You cannot be a Democrat because Democrats are for abortion are for allah blah blah blah blah. These things alpha uh alphabet community rainbow society [Music] because the democrat so once you say I am a

democrat say are you born again then all the conspiracy experts would do all their because um anyone who is still supporting the Democratic party doesn't know the Lord Jesus. You know we evangelicals we uphold the Republican party. What a joke. Amen. >> So you can and those are emotives but they will not know that is emotional. You cannot be a Christian. You cannot be a Christian. I fought for that man. Where my brother fire you to tell me I not to vote for who I want to vote for. You don't have that power to stop somebody from voting. Even God allow people go to allow me go to hell. You are too evil and wicked to take away another man's choice. And that's it. That's you cannot tell me that every in fact write it down. Any Christian that in the next election that does not vote for this party a dirty believer that's not Bible perspective you holding on to that's of should should we vote for people who are ethically and morally upright? Yes. What is your definition of ethically and morally upright? Let's leave that one. But if we are going to weigh and scale who is better than who? Beautiful. Who can walk beautiful? But last last say I choose to be mad allow my choice of insanity that I want to vote for who cannot work. You must know that because even God protects your right to go to hell. Your right to want to live without him. Please be use God and beg everybody allow people their choice. That is being a Christian. A Christian in society is tolerant of other people's view. No, I dagger you there now. I you know let people their view. You don't need to buy into it. You can explain and defend yours. Somebody say if you somebody said this properly. I I don't know who said it but I've seen that quote several times that if you always have to turn an argument to insult insult name calling you wearing raise rights. That's true. Just defend what you want to defend of OG kill your mama there. You don't know OG. I got you there. That's the real OG. Hey, finish your mother. Say the og oini you know o you know you know it's not I'm just you get the so people cannot but use one of these falling deities to swear for people you just see they call banterers on social media. How can you say you are a Christian and do not know that Wazeri is our choice? How can you say Daniel what is your political party? He brought out party that have witches, sorcerers. One of Daniel's political party baba which happened to be the king was drinking with sacred cop that they brought that from Jerusale before wrote political party member. So that's how much insanity and depravity those people had. But it was in that party. Joseph was not in a good party. He was in the party. He was not in the party of the Lord because there was no party of the Lord because that is the party that will later put the children of Israel in bondage. You are not your Bible study is not correct. Is that not a favor? Is that not in the party succession party now? It's not hand over the handover. There arose a pharaoh that did not know Joseph. It's not the only difference is they don't know Joseph. It's not that the same party but that one said we need we need hard working people. This Egypt this Israelite what are they doing here? They gave them one land. Yeah recruit all of them. So they recruited them like that. Then bondage came 430 years. What was just a visitation turned to a permanent residency and turn to work force. So sad that means you don't believe in the right candidate. What is the right candidate? What is the right candidate? What is the right candidate? before you

cancel me. What is the right candidate? What is the right candidate? What is your definition of right candidate? They want to Islamize Nigeria. It's only people that don't win souls that are that silly on social media. Which one is Islamiz? Have we not been Christianizing Nigeria? Where have you seen and now they want to Christianize Nigeria? Baba go and win souls that don't be lazy. So is the president that will defend us. They want to Islamize Nigeria. Go and win. Go and win souls. How we have fooled ourself publicly to be talking about Islamization agenda when we have a Christianization agenda. What about our violent agenda to take it by force that does not involve of course it doesn't involve all of that does not involve Abdulai [Laughter] jihadi. So I said this is a holy jihad. The Hebrew word kum utterly blot out. I stand with that know what brought the crusades. So the movement people with the ninth templars finish all the people that don't want to lay claim to the kina movement you know the kina movement north south east and west you know the north south east and west you don't know why and of course they have apologized for the many bloodshed that came with all of those uh small power that constant time and the rest since they say Christianity is now a state religion they just now move it now move it far we now bullying other church that have suffered persecution for years forgot that they persecution everybody a Christian now we dagger them so that's not how so we shouldn't be bothered that people who do not know the law of course we just of interpretation not all of such people not all of such is Ishelites uphold uh weird views some of them are some of the best people you will ever meet and you must be tolerant of other people at the same time. Are you with me? All right. But in the preaching of the gospel, we have an agenda. Jesus said go into all the world and preach the gospel. When was the last time you won it? So then you are you have the gods to type on social media they want to. You are the you are part of the people that are allowing it. Because if we are all aggressive on our station, we have more person saved. Because you never see people crying that we want to Christianize Nigeria or Christianize the world. You know what I mean? I'm trying to use I try not to use that word Christianity because of how it is now established as one of the religions in the world. We want all the air to worship his God. All the air to worship their God. And that their God is the maker of heaven and earth and the maker of all the gods. The true God is what we are introducing to. So if not you will lay claim and say uh Jesus died for Christians. What does that mean? Jesus died for the whole world. All the world can be for the Lord. Now the tag used to explain all those that are for the Lord through the through Jesus Christ is called Christianity. We can adopt it and use it but we know that we are not holding it in that uh ideological manner that people hold on to it as one of the ideologies you upheld religion religious one of the ideologies you uphold the one I uphold is Christianity ah that's more than that too it's a way of life for us it's not a system of rules and dogma we uphold so if I can follow the this and this. If I can follow the this and this 10 then I am no is have you met the man Jesus as involve an introduction to the god not a set of rule which is why we separated from morality because every other religion is entered in by the gateway of morality there's what to do and what not to do for the Christian is not set of rules is meet

Jesus meet Jesus No one cometh to him and he cast out. So biblical perspective is not just a moral system. Not because it's against morality. We said it's not a political view or a political statement. I'm right-wing leftwing. Did you get it? So because the ultimate ruler we are we are for is that the Lord Jesus will be the governor of the nations. That's the that's what every believer stands for. Now do we want uh righteous people to rule? Yes. Do we want all of that? Yes. So a biblical perspective should not be seen as oh the political statement who uh which party you belong to because the party is just a vehicle that brings the person into position and any rational person which people don't want to be because of the whole social media craze C R A Z E in that context the whole uh energy G doesn't allow people to calm down. So let's assume this new political party that everybody want and like becomes the dominant party with this pot belly tips not crossover. Sorry about the use of the word pot belly. It's just for emphasis so that you will know the people I'm talking about. Nobody's coming to your mind. It's a transition of tips now. So the thieves have crossed over too with some good well-meaning people still being part but the thieves will also cross over because this is how they look at some is it not some thieves that also entered that we saw that people were surprised say ah that guy is the party that we voted for because people did not look everybody was just we need to vote out these people. So some thief snuck in through the window entered and they got the ticket. I think some of them are decapping back to what they are decapping back to. Politicians will be politicians before you start getting angry. It is a science. People have to win election. That's why you now your own will not win because he does not want to learn the science. Now heid to learn it. You're angry with him now. How can he go and shake hands with what do people want? How can he form quorum? So that people will just we send your white that's just it say oh he's not the saint has joined the thieves they are still not happy say let's bring him out again parables these are all parables if you know you know so as a Christian my biblical perspective is not a political statement my biblical perspective is far greater than that because if there's a political statement to my biblical perspective is that the Lord will rule all the nations. That's ultimately my bibl my political perspective. So, so which political perspective do you have for the whole world that all the earth will be eaten? That's the political perspective that every believer have. Are you getting it? If we are even going to have a because that's how that the kind of politics we are looking for. We are looking for God being the ruler of the nation so that righteousness and equity cuz only then can you see as long as he's a man that is seen with imperfection and frailties there will always be even in the best of what we call sena climbs c l i m e s even in those s climbs outside the country welldeveloped nations you still see corruption in the words of the sen lawyer that He said where did we learn the word corruption from? Is it not them that taught us where is the word corruption? Is it not come with additional be English? So if they were not corrupt if there's no corruption there where how come they have agencies that also tackle corruption and all of those things. So there's a perspective or philosophy. So a biblical perspective we said is a biblical perspective. It is not a moral system not because that it is against behavior

but how the behavior is produced. It is not a political statement not because we don't have an agenda. Our political agenda is for God to be the ruler of all the nations. However, it is not which party do you belong to because we should be able to see that parties are just instrument that people choose to because the person cannot come with his own name. He has to come through a party. So that party becomes the umbrella that covers the whole uh candidacy and all the uh policies, the ideas that the individual wants to bring good and bad. It's not everybody in the country that is good. There are evil, wicked, e good and bad. It's not everybody in the country that is good. There are evil, wicked, e uh bad persons within that uh government. But he is going to reign and rule over everybody. So you can't say my first is to get rid of all the wicked and bad people then this is has turned to something else because that is not the work of a politician. rule make laws uh um execute the law in such a manner. That's why you are the branch called executive. Execute laws in such a manner that will help the well-being of the people. Enforce justice things should be done properly. Let the communities develop and grow. Do all the things that you are supposed to do. Is that not what they democratically elected for? But to now want them to be over Christians, it does not exist. Because if a Christian is the president and a Christian is the vice, which you and I like, which is not a problem. What you should be after is that Nigeria developed and got better. Not that we have bragging rights that we have, which is what supre don't understand about that biblical perspective that we're talking about because what we ultimately want is a better nation. Because if you are fighting for the wrong thing, what is the color of the person's skin, what tribe, what language, what uh religion does the person uphold? Important thing, can this person work? Will this person deliver? So the best man gets a job. But because there is now a science to politics, an art and a science to it, it's not always the best man that gets job. Like you know from secondary school when you started contest, those of you that have ever done h schools that allow for people to vote to be head boy and head girl vote for me. I will ensure that all the late comers, all the this, all the lady, all the this, all the late comers, all the people that are unserious, I will stop the bullying of younger student, you know, win because part of the reason why people want to become seniors that they will bully the younger ones because they were also bullied when they were in the younger, they could not wait to SS3 house. They could not wait to SS to to take people's milo. They could not wait because their own was also taken. So how can you where we know and you say vote for me for this? You said all of these statements that are good and noble, moral and upright. Then there's this other guy that says, "Uh, you know me. When I come in, I will allow you all to have things done your way." That's not nice, but it's pleasing to the ear. I will, I'm not saying this the right one, follow how science or politics is done. I will defend you at every time against the authority. Even the school will not want that candidate. But that's why people will vote for when people defend us against the school authority. This guy is really hitting. You see what he's doing is hitting the nail for what everybody likes. They now voted for this guy who appeared to look like he's in an evil umbrella party is in I'm not speaking about the symbol of the the political party. It seemed

like he's in an evil party. He has entered then shocks everybody. He's for people coming early. You know people are going to be angry >> like how did this guy enter? How did we let him say no no no no no he's just trying to play nice but he has done one year he has left things are better many times you must learn because last that's you must learn how to play the game because the important thing is you want to be there but emotive people lie once they just see you sound somehow cannot be cannot be cannot be. That's why you should be bold to say you know me, you know the principles I stand for. So this party is saying all of these things but I am this. That's why we judge the leaders and we say okay these guys who were Christians like we have said they have also stolen money. How can a Christian whether he's democratically elected or whether it's the president of device because we have had presidents that were Christians that upheld and said that they were Christians but we didn't see them standing for the things that they ought to have stood for again what was the challenge of failure or proper discipleship and that proper discipleship is what biblical perspective does for So you know how a Christian ought to behave in society that you know that no you cannot be part of the people causing the trouble. You have to do things. So how does God reign and rule? That's how you will reign and rule. In a world of selfishness you will reign by generosity. In a world of wickedness you will reign by goodness. In a world of evil and wickedness you bring the opposite. So how God reigns and rule is what you will learn. And that's what the biblical perspective gives us. We see how God reigns and rule. How God is a God of justice and how he judges things is what we will learn. Not uh I cannot say I'm a Christian and I hold to a party or a party that know cannot be it cannot be or biblical perspective is bigger than that. So it's not which political statement did you adopt? You know what mean by political statement now? Which party are you in? Come on. >> Because all political parties have their statement. The individual himself where he say what is his own uh what's the word they call it the uh what's the paper they write his manifesto. The individuals have manifesto to the degree that that manifesto is subject to the party because the party itself has it own manifesto. Every political party candidate manifesto is ultimately shaped by the political party that they are in because the political party manifesto should be the individual's manifesto. So that's what why we use the proper phrase. Biblical perspective is not just a political statement because that manifesto is a statement of that party. And if you notice, if you go and read it, you always look nice, constant light. Go and read those manifesto. Now you'll be wondering this is this is greater than the best nation. Yeah. Start walking now. You start seeing what you did not expect. So it's not a political statement. So biblical perspective the same thing um uh a word that should not have been demonized have now been demonized. There's the negative of every of these things. A word like godfather. People pray to have godfathers. They say sir aducated my son. You are the godfather of this boy. You are the godfather. Hey, now you woke up. I knew I know how to get you guys. You don't know what making it work. Is that not the book he has written for you? Sir, you are the vib you sir. You don't know ver you. Ah, you don't know part of the smith competing with the other one.

These are the billion the ones that you are thinking are billionas in that are not Forbes or don't know them. Glow sir, you don't know glow. Glow sir Mike sir you are the godfather don't know glow you are the godfather of this child notice nobody say ah enough is enough say no to godfather my say no I godfather miser you see so we realize how normal thinking people think then um I don't like all of those things so Then uh you try to get a job you could not. So he said uh there's this guy I know just take your phone I just call him uh he's uh the chairman of the whole board of people hiring. So what's his name? Jere right let's assume he's those round ringing but this one you just press it. I he gave you his number. He say oh yeah you're the one chief sent. Yeah chief said no no I'm going to walk it for you. Of course when they come to share that testimony in church bed Yahweh did it Christian nice testimony we remove chief we remove allergy why remove as if God uses men >> and you now get angry that is there of course is there an evil part to it too yes how is based on we I also recommend somebody that is not qualified and you go and put the person. The person that could not do a job is now killing lives. How did you get how did you become a doctor? He say it was my uncle, sister, younger brother, nephew, auntie, son that put me here. They say h the the chief medical uh the what do they call the chief resident the one in charge and the junior ones stretch his hand like this say give me you go and give me cutas say to tear the stomach open say give me scissors thinking that you are seen the operation go and give syringe That's they say, "Oh, you're the one now. You came highly recommended." All right. All right. All right. Don't go. So bandage inside stomach. All the things you used to walk, you left it inside the stomach because as the light you were taking it from inside the stomach to be walking something that you can go to jail for because they say it came highly recommended. You see they highly recommended. So it can work in the negative. You can also if you recommend people that are skillful. Nice. Are you following? Recommend people that oh he can grow in the job. Oh nice. So nobody's angry when it's them that is recommended. So then those who study politics know that you can't get into the system without having people who back you. That's the word. If not for your candidate which when they now became governors they learned they now stop using the same word. They now become governor for the next one that say uh tba these are parables are parables I'm giving parables ab [Music] you put your boy your boy revote against you then switch party to fight you that was originally against god for that reason because when will people learn that you cannot remove it's not a except is the godfather movie you are having in mind as godfather or something else but the use of the word there has to be a mentor of sort whatever name you call that whatever definition you give that is not the issue there has to be somebody who opens the door for you and why Christians why intelligent persons good people like you and I who have proper plans and good plans for the nation can never enter there Because we once we just go for the community meeting in our party meeting and we see some people there ah never this white point is a dirty game it's a dirty game count me out and the more we remove ourselves the more we leave it for the people who are thieves and crooks to stay there are you getting me then oh somebody recommend so

you need to know where to compromise and when not to compromise and say uh if you enter that position you will do this and this and this and this for me question is why sir first proper question to ask is why why should I do all of these things for you sir are you electing me for you don't say that plainly if not you walk you'll walk you out you say madam is that the boy you brought he was questioning me so so indirectly you know what you are seeing so you need to be very astute, very uh uh smart, street wise to know how to use words. Then be careful what to sign. Don't go and sign something that later they have used administrator to remove you. Parables are parables. Then you now said we were we was say this sim card is who we need. Were we there when were we were we there when they were dosing you? Now you want us to fight a battle we did not know where they inserted you into the phone. Parables. Parables I've confused some person. If I just want you to say you are not in this country that's why only people that confused Jesus spoke often in parables. All right. So they have inserted him in the phone and then they removed him from the phone is angry because this is not the terms of the arrangement. We were not there. So of course the emotional we go we go. We not go. If he meant well for the nation, for the state, should he have agree to those terms to be certain to the phone. Now people are angry that he has been trimmed to size to fit the exact device. You know, I'm always inspired. That's just it. I don't pre I don't plan all these examples. They just come. I'm a man of inspiration. And you should know that uh the prophetic function allows for all manner of inspiration good or bad. So it's fitted to size. Now he wants to return properly fitted to size. People are saying ah it's not fair it's not fair. We go we go. So he and his family and his constituent go agree and when the time is right having been fitted to size into the phone he will be slaughtered in that's politics say oh no he goes to church that that has been fitted to size was in church the other day doing thanksgiving with the enemy of his soul. So politics is something that one must learn properly and that's why people go to school and they are taught the science of it. Then you now learn the street. Look at this great candidate. He's in his house posting on social media. Street credibility does not have people do not know him but he wants to win an election. What a joker. I said the Lord is with me as a mighty terrible one. The Lord the Lord will be voting for you. The Lord that's why that one say I am number 30. I'm number 27. I'm number six. I'm number seven. I'm number eight. After this president I'm the next one. The Lord have said the Lord failed again his prediction. The Lord said I'm the next one. He did not win. The Lord said I'm the next one not win. Lord said I'm the next one. He did not win. You have stopped seeing the Lord. Huh? Your pastor that want to be president now. Others like him suffer reincarnation when they put Baba in front of their names. But this one is a man of God and we have seen him come again and again and he said is putting Jesus Christ who know you sir. We only know your big church in Lagos. What credibility? What grassroot? And that's where people say those people get angry. They say we need structure. Say no, we are the structure. We are the structure. You could be agent your poly unit that day. We are don't let people we are the structure. We are the structure. How many of them were destructured that day in the bowling unit? These are

mysteries and parables. >> Amen. Hallelujah. Praise God. >> The point I'm making is so I round off from this point political statement is simple. There is how politics is played and see it as a game. That's why many of them they repositions our friends. They shout lambast each other on social media. Then later you see them giving high five hugs. One is standing at the other one's father to give away his daughter in marriage. Then I'm wondering these are enemies for this cause. Two friends have severe ties for this these same people. For this cause two brothers are not talking again the same house eating the same mother soup but they're not talking. They only lay claim to the same mother but no longer lay claim to the same family tie that bank is broken because of party. I all these same people later you see that that same person has crossed over they now saying it was there when I was in that party I said those things but now we are here I cannot say that he's not workingh they blame the old video say when did I say that claim that is how people have seen politics so biblical perspective is not a political statement but actually being shame It allowing sound doctrine shapes you in how you function in the society and in this place in the governmental space. So you will obviously be different and the sad thing is that those over time cannot be different and now bow into the system. It can be different. Choose to be different. Choose to be different. Did you get it? Yes sir. >> So what a biblical perspective is is far more than all those we go we go great concept. So the our perspective is inescapable is our way of seeing. We talked about that already. is the is the perspective we have of life that is shaped by Bible teaching that influences how we relate one with another how we see the world how we live in the world so it is not which party you support put it in simple term it is not oh I didn't like that behavior oh the party you support oh the economic reform you buy into is Not the school, the clothes you wear. A biblical perspective is greater than all of that. It is that my perspective is shaped by biblical teachings which we call sound doctrine. Amen. My perspective is shaped by what? So how you see life is your perspective. So a biblical perspective is the framework that shapes how we understand the world. What directs your actions within it. So everyone views life through a unique filter. And that filter is what we are calling the perspective of your life. Amen. Which we can also call the philosophy of your life. Amen. So as a Christian we should uphold what proper perspective biblical perspective for life. And this biblical perspective like we said should now be shaped by sound doctrine. So what is that word sound doctrine? I wish there's one Bible verse that spells out all the sound doctrine of every topic every every what we call systematic theology. every systemized uh topic we have. Oh, we just go to Romans, you see everything you need to know about this subject of righteousness. You go to Galatians, everything you need to know about graces. Then you have to lean towards intertextual corroboration. Amen. So the word sound doctrine, the word sound doctrine is used four times in 1 Timothy 1:10. For war mongers, for them that divide themselves with mankind, for men, for liars, for per and if there be any other thing that is contrary to sound doctrine according to the glorious gospel. So it says that uh the 1 Timothy chapter 1 from verse three you'll get the context is a warning against false

teachers. So he was given a warning against for false teachers as I besought thee. Look at the original use of the word doctrine. The first time he uses it there verse three. I besought thee to abise still at Ephesus when I went into Macedonia that thou mightest charge son that they teach no other doctrine. Did you see that? That they teach no other doctrine. So there is a particular doctrine to teach that they teach no other doctrine. The word doctrine there that they teach no other doctrine. Teach something different. Neither give heed to fibos. So he says all of those things to be of the law. Then he now ended it that all of these things is also the same things that are against sound doctrine. So false teachers are against sound doctrine. The word doctrine he will use it a lot in Timothy but I'm just looking at that word sound doctrine. Second Timothy 4. I charge you therefore before God and the Lord Jesus Christ who shall judge the quick and the dead at his appearing and his kingdom. Preach the word. Be instant in season and out of season. Reprove, rebuke, exalt with all longsuffering and doctrine. For the time will come when they will not endure sound, but after their own laws shall he to theel teachers having itching ear. So the sound doctrine, sound hugo, wholesome doctrine. Just like when you go to the hospital for a uh a full body checkup, they are going to do all of that checkup. So a sound doctrine, wholesome doctrine, healthy doctrine. So a healthy doctrine. So so people say we are for sound mean they are saying something that does not follow. So it's not it can be a it can be a manipulative strategy people use to buy to get other persons to be on their side and then you not hear what the person is explaining. This is what is sound about this one sound doctrine not be sound doctrine. Amen. So sound doctrine the word doctrine did explanation of the text. So where do we get our doctrine from? So sound doctrine is where do we get our doctrine from? We've read this Timothy again and again. 2 Timothy 3:16. All scriptures given by inspiration of God and it is profitable for doctrine. So where do we get our doctrines from the Bible? So sound doctrine is a healthy explanation from Genesis to Malach and now Matthew to Revelation. to a healthy a thorough. So when you say the Bible says I've told you over the years the Bible says not a Bible verse. The Bible says means I have read this subject matter from Genesis to Revelation and I can come to this conclusion just like Paul says. So we conclude that a man is not justified by the we conclude those conclusions come from having a thorough understanding which is what systematic theology means which is why they teach pastors systematic theology in Bible schools so that they have a systemized approach to those topics so they already know it in an organized manner so you know okay this is what this mean this is how this is used. Amen. >> So doctrine for the time we come where they will not endure sound doctrine. Titus 1:9 holding fast the faithful words as he has been taught that he may be able by sound doctrine go to exalt and convince the gains say so you can convince people better. So the word sound doctrine, Titus 2:1, speak thou the things that become sound doctrine. So sound doctrine is doctrine from the Bible that is sound. Because you can have a doctrine from the Bible that is not sound. And we have all different types of doctrine in the Bible. It says there are doctrines that are the commandment of men. There's the doctrine of

the Pharisees and Sadducees. what the father and son brought out from the Bible. Matthew 16:12, Jesus said, "Beware of the leaven of bread then understood the how that he be them not to be not to not to beware of the leaven of bread, but of the doctrine of the Sadducees." Where he said, "Beware of the leaven of the Pharisees and Sadducees," it is beware of the doctrine of the Pharisees and Sadducees. So there are doctrines. In Matthew 15:9, we saw doctrine as the commandment of men. In Mark 1 27, they told Jesus, "What new doctrine is it? And with what authority does he command devils to live?" So there was a doctrine that does not know that devils can be exercised, cast out. So it looks shocking to those people that doctrine that you can cast out devil. we look. So there are doctrines that are interpretations people have. And he said unto them in his doctrine Mark 12:38, "Beware of the scribes which love to go in love in long clothing." So doctrine Romans 16:1 17. Now I beseech you bed, mark them which cause division and offenses contrary to the doctrine which you have learned and avoid them. So there's doctrine. So there can be wrong doctrine. Ephesians 4:14 that we henceforth be no more children tossed to and fro and carried about with every wind of doctrine by the slight of men conning cloudiness whereby they lie wait to deceive. So every wind of doctrine. So sound doctrine is now that I allow the Bible form my explanation. So which we call exesis critical examination of the text. So I am led to the conclusion from the text. I do not read my interpolation into. So led out. So what I bring out I'm not innovating. I'm excavating. So when I go into the scripture, what I am bringing that is exactly what the Bible says. So I use the Bible to explain the Bible which is more than give me two or three witness. No two or three witness. It's not it's more than that. What two or three witness used to establish a testimony as valid. So when we say two or three witness and you want to use two or three Bible verse, why are you scared of all the Bible saying the same thing? There's a the Bible tells a unified story of God's plan and purpose for mankind. So we can run through the Bible so that we don't have oh this part is contradicting this part. There are no contro there are no contradictions in the Bible. Contradictions only exist in the mind of somebody who is not interpreting a text properly. Amen. >> And Bible study is a painstaking effort. You have to be patient because it's torn. We have to read. We will even read the arguments against read it. Where did they get it from? Then we now go back and read the Bible in the historical context, the grammatical context, the cultural context and the literal context that the people had. So the other was I need to hear what they heard in the then and there then cross over to our world today to hear the same thing in our world today. So what they because I'm not the audience it was not written to me it was written for me they wrote to so how were the people of that day thinking and reasoning that we frame how I interpret text. Did you get it? >> Yes sir. >> Amen. Amen. >> So as a believer, should we have a biblical perspective of life? Yeah. Are there Christians that have things against hard work? >> Because a doctrine they learned in church seem to be against hard work. She looking at me surprised. Are there people that hate anybody that is poor? Are are there churches that look like they support racism? Yeah, there some 80 years back in 85% of all the

congressions the banner group of research gives those details. If a black man walked into a church in America, they will be looking at it like he did something wrong. Like is this not the sinner that we're talking about? It's not the people that are going to that have entered. So, so it used to be an issue where you see where people are looking shocked. It used to be an issue. So, because from their Bible what they have been able to use the Bible to support racism tribal is the same way today there are pastors on their pit who speak down on a particular tribe. Whether it looks funny to them but it's not funny and it's not just a joke. You can understand, okay, the person is just throwing He's just being funny. But he actually has a problem with EO people. He actually have a problem with people. He actually have a problem with uh people. He actually has a problem with fani people. Once you see a fan man wrong from church, what kind of training is this? So you cannot that is a problem that one you are not tolerant of other people's views. Ah and laying claim to Jesus Christ to be that kind of person. No. So there are people who uh the same thing from the Bible. They were told that a Christian should have nothing to do with politics. You guys are looking surprised. I be they don't pastors are not they don't teach like that. The same way pastors also teach that women should never having to do with ministry. We talked about that last week. Come on. Don't make me look like I'm wasting my time. Job. Pastors also teach that I think much of the confusions that we having today, there's a there's a there's a doctrinal position for all the different errors that are flying around. But is not from the Bible with just critical examination. The same way the people that want to defend that we should for one hour just be doing la. That one is even nice. Abby just put K in front. You know what that should mean? You don't even know who Okay. We call it chanting 3 hours. Ah, 2 hours, 1 hour. S. So, it's about the time. No, it's not about the time. Music is about lyrics. The words must edify. We need to know what it means. What does I can understand if you put it inside because of melody trying for rhythm and beat but the fact that the whole song is now the chorus is sorry one of we we are we cannot follow you to be mad. The Bible has a perspective on music. You cannot you cannot get angry that we are trying to correct it because he say he did something to me. Sensationalism and emotionalism is not spirituality. That's why we we have a great preacher all the way from all the way and they come and the video the cameramen are training as people are crying. Pour out your heart to the Lord. Pour out your heart to the Lord. Let God see your not show the record where he was say. Let God see your emotions. Be naked before your God. Pour out your heart. Cry out for we need revival. We need revival. Then as for the people to get it, you quickly get one of those guys. Nice. They just start playing. They just touch the key. You need the the melody to go with it. It's the same thing. All of them are the same thing. That is is which melody? feel the see we are connecting with the youth not connecting with the youth when we started correcting those ideas it died a bit you see it's going it's fading away because uh it's fading away we Um say it is of course um no rational or proper thinking person should have a problem with a but the issue is what are you using it to do if you are now using it to say you want to connect that there's a depth and a real inside what does it mean what

[illegible]

is just an attempt to influence people which is basically officials. You are in favor of a specific opinions. So all law makers have their own lobbyist within so that there's a law there's a motion we want to pass. So they lobby people so that we can say the eyes have it. That's just polit politics. Amen. So sound doctrine should shape how we see things. Amen. What about marriage? Should I have a sound doctrine perspective of marriage? >> What about my identity? Who I am? Should I have a sound doctrine perspective of who I am? my identity, my nature, my tax, my purpose. There are many Christians who have a wrong perspective about a wrong perspective about their purpose. What is your purpose on this head? My purpose is to be a lawyer. My purpose on this earth is to be a banker. No, those are physical career parts. You can choose any of such things. You were put on this earth to be God's man, to be an image of God, to represent God's purposes and plan. It can mean different things to different persons, but the general purpose is always living for the glory of God. Amen. So regardless of the occupation or whatever you are to do that you should do well, it should be that you live to the glory of God. Amen. That's who you are, where I am, what is wrong with the world. I mean all your views should be shaped by the Bible. And this Bible is what we are calling in this context what sound doctrine. [Applause] Should I have a proper view about the natural and the supernatural? Amen. Should I have the supernatural fighting the natural? So I should have a proper perspective. In the beginning, God created the heaven and the earth. So should I have a biblical perspective of principalities and powers of devils and demons? Should I have a biblical perspective? Should I have a biblical perspective of the authority of the believer? So we it should be the Bible that shapes not just doctrinal subject but also how I live in society. And there are Christians who when you talk believe for a miracle they say I will come off it. Stop that nonsense. It's a Christian that is telling you will you stop with that nonsense. Which one is miracle? Which one is power of God? Leave all those things j is a concept. There are Christians that almost have atheistic views. Amen. Concerning the faith because they always asking many questions and those questions tend towards atheism. So what biblical perspective do you have? It should be a perspective shaped by sound doctrine. Which is why every subject we teach, every subject we teach is shaping and framing your biblical perspective concerning life, concerning how you live. Hallelujah. >> Amen. >> Amen. >> So there's an ordinary dimension of this life. There's the hidden orderly dimension of this life. And I have the physical and the spiritual component of my life. And that's how I live on this earth. I cannot but live with my spiritual ordination. I have to be to be human is to be spiritual is to be supernatural. That's why man at the core wants to be supernatural. Because to be human is to be supernatural. God made man to be spiritual. To be supernatural. The breath of life that makes man a living soul is from God. Man's essence cannot be seen or touched with the hand. Hallelujah. >> And I must have those healthy perspective. So I must have a heaven and earth perspective. I must have not oh is Jesus Christ so I don't need to do anything. No heaven and earth physical spiritual should not conflict. Faith and science should not be separated. The seen and the unseen should not

be separated in your world view, in your perspective, in your philosophy. They should all come together as one. Hallelujah. >> Amen. >> Amen. >> So what kind of perspective do you have? Must be a biblical perspective concerning how you see the world, how I live in this world. So will that take a bit of work? So how will I get that biblical perspective? Will it not be learning the word of God? So as I become a student of God's word and I commit myself to sound doctrine, I would have a biblical perspective of living life and seeing life. Amen. >> Some people their biblical perspective is all things are lawful. They also forget to add but all things will not edify. If it's lawful does that mean it edifies? Ultimately people know what they are looking for. So I'm a believer. My ideas, my philosophies are shaped by God's word. Hallelujah. I believe in miracles. I'm not ashamed to say it. I'm not ashamed to say it. Do people say think like that? I think like that. I think like that. I think like that. I think the power of God. I think the help of God. I think wisdom. I I don't see people that believe in being excellent in the workplace. As a Christian, I think like that. I believe in excellence in my industry. I should know my craft well. I should understand how to do my things well. I should not have a perspective that says the Christian cannot be the best in a field. No, I want to be a great doctor, a great lawyer, a great uh academician, a professor. I want to be a great a good one, a good one, a good writer, a good business person. I want to do it well. That should be your pursuit. Not using the Bible to say it doesn't matter if I'm good or not. The Bible is not there's no biblical perspective that say you should not be good in it. There's no biblical perspective that say you should not. So stop having wrong perspective that says oh as a Christian I can't be I should be a mediocre. There's no biblical perspective that supports mediocrity. Can God use a mediocre? Yes. Can God use an average man? Yes. Can God use a skillful man? Yes. But ultimately which one do you think God wants to use best? the one that can have the best use per time, per situation. And that's where you always find God. Hallelujah. >> Praise God. >> Amen. >> Amen. >> I care for the edification of the people around me. That's why we pursue spiritual. That's why we love spirituals to edify, to build up people. Amen. Stand on your feet. Thank the Lord Jesus. of biblical perspective of life. How do I get that firm sound doctrine? Firm sound doctrine. Am I mind how I think? We need more Christians in the society. Are you hearing me? You need to engage in society. The Christian life as like I teach you in experience. You are called to engagement and distinctiveness. You cannot fear darkness. You must engage darkness. We are called to turn darkness to light. We are called to change the system. Hallelujah. I'll play my part. I'll play my part. I'll play my part. I'll play my part. Don't be afraid to be in society. We need Christian in society. And you can't be in society without a biblical perspective. If not, society will swallow you. Amen. So make up your mind. I'll hold on to the teachings of God's word. I'll hold on. It will be the wisdom for living for me. God's word will be wisdom for living. God's word I will be different. There's a song we used to sing when we're children. I will be different for the Lord. When others choose to see I be different living for bring it as you have grown. Still be different. Always be different in society. Don't be what is wrong in society. Don't be part of what is wrong in society. That

when they say Christian, no, no, no, no. He say he always says substandard things be that them. No, no, no, no. But he say the light, the one that is doing things differently, that's the nad them that we fall into. Amen. That is what it means to be a believer in the society. Amen. And I pray that truly truly that we learn and choose to become exemplary in the society, exemplary in business, exemplary in politics, exemplary in academics, in every field of life. We choose to be exemplary and God will help us. Amen. Lift your hands and just pray in the Holy Ghost. Thank you, Jesus. We're done.
