

pray father in the name of Jesus Lord we open our hearts and we trust your spirit in this service again to flood our hearts with light and illumination and we walk in the light of your word and even as we study of every critical subject of the scriptures about the Unseen word and we trust the eyes of our understanding will be open flooded with such light and direction that we would be able to comprehend what truly The believer's Authority is and we see that voice of victory over life circumstances challenges and will walk as Victors on this Earth again in this service we declare that the things that ought to be said will be said and the things that ought not to be said will not be said there is no confusion in this atmosphere only light in Revelation rain Supreme in the name of Jesus Jesus amen God bless you have your seats hallelujah [Music] amen go to Hebrews chapter 11 and we'll begin Hebrews chapter 11 and from verse one Hebrews 11 and verse one now Faith so we're teaching this evening on unseen faith forces unseen forces Hallelujah now Faith is the substance of things hope for the evidence of Things Not Seen for by it the ERS obtained a good report for by it the elders obtained the good report now Faith is the substance of things hoped for the evidence of things evidence so when we talk about evidence are we with proof it says the evidence of Things Not Seen so there are things not seen then he says for by it the elders obtained the good report so they were Witnesses of things not seen in the scriptures there were Witnesses of things what through faith we understand that the words w r l d that the that the word WS were framed the word WS there in the Greek is the word Aon a i o n the word Aon is a period of time through faith we understand that the periods of time were framed the periods of time were framed the periods of time were framed put together is that so by the word of God so periods of time were framed by the word of God so the word of God has framed has has framed different periods of time did you get it so we can arrange different periods of time with God's word so through faith we understand that the words the periods of time were framed were put in order by the word of God can be arranged by the word of God so that the things which are seen so that the things which are seen were not made of the things which do appear So within our Bible we would have a supernatural context that the things which are seen I'll repeat it again so that the things which are seen were not made of the things which do appear so they are seen things s n there are seen things being used to explain unseen things then he gives you an example by faith so what he's calling Faith here obviously once you have faith is I know he said faith is the substance but that is not a definition I know say the only place where faith is defined the Bible that's not a definition the Bible does not do definitions for a reason and in life you would appreciate it definitions are very myopic very limited very lazy not Broad in a spectrum of understanding when you do definitions where did the definitions come from now that is where you need an explanation are you following so explanations are deeper than defined definition because there is a direction in a definition that's why it's called a definition you're are trying to give direction to a concept you're trying to give direction to a so but as you have seen which everybody here who have a dictionary in your house or in your phones must have seen that one word have like five

six seven⁸ means so have not enter into trouble when you say it is then will not say within a context is different say oh boy oh within this context with once you already started doing within within within that's explanation so the scriptures second Timothy chapter 3 say the scripture is profitable all scripture is given by inspiration of God and it is profitable for what for Doctrine Doctrine the that's CIA the scripture is profitable for explanation for Doctrine for Repro for correction and for instruction in righteousness so the scripture gives us what the scriptures gives us what explanation so we can get our explanations from it we can get our explanations from so it says through faith we understand that the words the periods of time were framed by the word of God so that the things which are seen were not made of the things which do appear the things which are seen were not made of the things which do so the things which are seen were not made of the things which do appear were not made the word made gomite did not exist of the things which do appear so the things which are seen were being used to explain things that were unseen so there is an unseen context of the scriptures now what's the timeline of the book in your hand what time did the men write what time did the men who wrote the scriptures wrote the scriptures what timeline do we have so if you want to get serious with Bible study we have to study the Bible within the timeline it was written and when we studi the Bible within the timeline It Was Written we see that those men were not scientific men the first context of the world the first timeline of the world the first world view which is the proper world the first world w o r l d world view the first world world view of the world was Supernatural the first world view of the world that it even for the first thousand years of the Earth every learning people had was around the Unseen World that people had to go to school not like today you're learning science in school people went to school to learn the Unseen word they were T about the unse word because nobody ever had the idea that what you do do not see does not exist there was no ideology like that so you must know that the Bible in your hand especially the scriptures was written in a timeline that nobody was arguing if the word of spirit exist the issue was which Spirit you they follow it's not which if there was Spirits if there was a supernatural world view ah everybody so there is no argument against every commentary is for that Supernatural world view and I tell you when we interpret the Bible of course this year I'll teach you on Advanced Bible interpretation uh I've given you a basic context over the years the last two years we've talked around three context of scriptures the historical context the cultural context and the literal context of the scripture which is a simp way of putting it now I wish the Bible was as simple as it looks then we should not be asking how come different denominations so they have different Viewpoint so there is an advance there is a complexity within Bible study and we cannot throw that away so we have to situate a passage within a specific time period against a backdrop of certain events that's the historical context AB all right the cultural context we concerned with how the people live how they live their lives because where we that manner of Life the literal contest would have to do with the piece of literature does it conform with the thinking the words the grammar that they are using what does it entail sadly when talk about the context of

interpreting the Bible many people think to the church fathers we think to not the Nigerian one I mean the early church fathers of the faith we think to the Reformation we think to the Protestant movement but we're going to interpret the scriptures must see that there's a whole lot of things in the Bible the Biblical context includes the supernatural a lot the world as we know it is home to not just God but the angels as we call them or supernatural beings and within the scriptures we see that the biblical writers wrote in a manner that shows that that these Divine beings this unseen creation could eat drink fight relate with humans so there are a lot of weird passages in the Bible and we over the years have found creative ways to explain those weird passages by even trying to remove what it means but we have to be sincere with Biblical Authority we're going to let the Bible be what it is then we have to interpret it within that world view so the Bible is a pre scientific book so the cosmology of the Bible the world Cosmos is the world w l d so Heaven Earth under the Earth the three cosmology by now you should be used to but it's only two that God created the third one was because of the supernatural nature of the first two so is the Heaven and Earth that produce the under the Earth because something happened to the Heaven and the Earth that produce the under the Earth so and the under the Earth explains Heaven and Earth away from the promise away from how God made it because where do spirits go because God originally intended spirits to be in heaven and earth so where do this kind of of spirit go now that there is something that has been introduced into the timeline that was not in God's creation called Death d a t h so now that there's a place of the dead now that people are dying where are they going to go so we have a teaching on that and we do a little study on it don't just don't be scared do a little study on the place of the dead because we're talking about unseen forces the good and the bad so the Bible is a pre-scientific book so the cosmology of the Bible is pre-scientific are you following so trying to argue oh no no no science science that's not their world view that not how they were thinking so those the world view that they have that we should have in studying the scriptures are we good so and that world view I'm taking it slowly do not take my going slowly for granted so we can think the idea is not to be so fast that's why I a teaching all right say let's rush it we have heard it before it doesn't hurt to hear it again before you start hearing what you have never heard from your mother's womb is that okay because say Pastor how can you be so sure I can be very sure because I do research and I can tell you some of the things we're going to share in this series you will type it on Google you will see Zero reference if you will see it will take you to non biblical sources you will not find a sermon to download that teaches on it because these are many areas that people shy away from and if we do not talk about it if we allow some preachers today with their love for the Unseen and their old talk of Dimension pter teach on things like this people will be destroyed because they won't have a toor understanding I if we know that all of God's renewal all of God's Restorations have not happened without man then we will take teachings like this more seriously all of God's renewals on the earth God's Restorations on the earth so when we talk about about a new Heaven and a new Earth why don't you want to be involved because you want God to just

it's a new Heaven is a new Earth we realize that the church is the people that renewed the heavens and the Earth we just be sleeping on our Authority because we will get to that place if not us our children children's generation will get to that place in their understand of the scriptures where they be begin to renew the Earth and renewing the Earth is not speaking to the gases oxygen nitrogen in the air everything take your proper place no more uh oia depletion is more than that and that's why we also need to study about that end of the world that renewal what exactly is going to happen in the end of the end are you following so these are things we study before the year comes to an end what is really going to happen in the end of the end and why does because once you already have a bias let's say you have a bias that all JW people have to say is rubbish then you will be shocked when we begin to talk a lot about the Earth you now start thinking maybe have started reading their magazine no because they talk a lot about the earth the earth the earth and you don't need to throw away the baby and the bath there's something about the Earth that because we have that bias that once I get I just beat you don't talk anything about the everything about us is heaven we already have thrown away because of our bias and bible study is not done with a bias I do not study the Bible to defend my position I study the Bible to take the Bible position I do not study the Bible trying to defend a position or defend a certain truth on understanding I have so I do not have a mindset that I try to read the Bible to confirm it that's not Bible that's proof texting a form of IIs not AIS e x e g e s i s so wrong interpretation I C J is e i s e g e s i is what you will have a bad interpretation because you are proof texting and that's what most people do say I like this what are the verses that shows this support this in the Bible and you see verses that support things that are not what the Bible is saying hence the need for a what Bible study I wish you got that okay clear clear clear so when we start seeing the Bible in the eyes of the ancient reader will it destroy a lot of our filters thank you so there's a supernatural world view of the biblical writers when we say biblical writers the people who produce the Bible hope you get that all right so if we are going to read the Bible properly we have to really retain the ancient mindset do you get it we have to review the ancient mindset that they had because they didn't have all of those filters that we have today so I'll give you one thing many Christians believe in the Supernatural but they think and live like Skeptics we talk about the supernatural world and in many circles especially Evangelical congregations it is very uncomfortable it's only the charismatic movement that very comfortable with the supernatural talk that if we were talking things like this among the Orthodox among other uh denominations of Christianity you will notice like I know I believe in God but is not getting too much what all of these old talk what all this so really are not comfortable because we have been trained over the years against the Vitality or the importance of the Unseen World that's why you have the best of the best Bible scholars are not charismatics because the charismatic do not appreciate Bible interpretation and that's popular over the years but that's changing by God's grace that so the people who love Bible study are the evangelicals all of these other denominations are the ones that give to the academic part of

the world super charismatic Pentecostal just Hallelujah Glory doesn't matter the Bible the power of God is moving now say whoa wow and we have mured many texts why the guys who believe in that because they have a bias against the supernatural world view they can't see anything so when they see those things they try to remove it they have filters for removing it say and you will see how intelligent they explain other portions of scriptures but when it comes to the supernatural they will just whisk it away are you following and one of the reasons why those guys do that because of the suspicion that the charismatic practices are detached from sound interpretation of scriptures which is true because in many charismatic Cycles what they do is totally opposed to sound Doctrine why the second reason is the scholars are too mod in their world view and they are bending to rationalism what is popular how today people think view things so our mod Christianity view of the Unseen World is not framed by the ancient world view of the biblical writers and once that is the challenge once our mod world view of the Unseen World is not framed by the ancient world view of the biblical writers all that we will see will always be wrong so we will not be able toach appreciate these things now I must tell you this as a student of history and also somebody who loves reading so I ask you a question and I'll answer the question did the biblical writers ever read non biblical books did they ever read other materials or the only books they read was the Tor the Nim the Kim is that all that they read oh beautiful so you agree that they must have read other books it's like saying that my understanding today re my pastor understanding today is totally shaped by the Bible he doesn't think any that he doesn't know any other thing in society really you must not know me at all is that if we were to leave this conversation I want to talk about football my understanding goes back you know I know many things about football I know many things about Nigerian history I know many things about politics I know many things about business I know many things about entrepreneurship I know many things about wealth I know many things about literature I was a science student and I read literature as a science student and we was not supposed to but I used to go and take the CL because I like literature and I have not stopped liking literature I like all the writers that the fantasy writers the all of them and I read their Works do you have the time I take success very seriously I have time you I want Fe not get time you know I take success quite seriously the time is not my problem success that is my focus so this is not time something I'm looking for so I want to do well I want to so I I all to say all of those things will not affect how I now interpret the Bible brother you they lie it it will affect it because when I see something that tilt in that direction because I've also studied in that direction I have words I'm full of matter I have ult so now I know how to use the uh technical temps if I'm talking to the technical expert I also know how not to use the technical temps when I'm talking to people that are not the expert and do not kid yourself I remember somebody saying it's very very simple I said no I chose not to be simple with him and I we began to dig it in business I began to use big big terms and quote the the founding fathers of certain theorems in economies commments that the person thought maybe I did not know her me business person I have boss [Music] one I have the tbook

from 100 level to I didn't have to read it in school I had I read it because I wanted to do business I take very I take success very seriously I have their textbooks I I have many things that I have read that are not Jesus nor him crucified are you following so to have the idea it w affect my interpretation of scriptures oh boy to affect my interpretation of scripture or to say maybe I don't understand use of words I have AOS I have two versions AOS is a book that gives you a lot of synonyms of words and I have one I had before jam and I had to memorize it so you say he doesn't know I know big words he's not going to you a preacher to come here and speak grar he won't confuse me I just don't teach like that and I have a love for big words and I have an app on my phone where I learn one word every day I'm choking you now AB all right so say is only Genesis to Revelation that pastor's brain is concerned about not true are you getting it now so to say that when I handle the scriptures there's no other knowledge in my head AB that's what we try to do to Moses and Moses is telling you boy now you me not door we try to do that to Moses and Moses telling you that no no no I was Leed in all not some are you seeing it and we try to do that that all Moses will know is just all Abraham passed on to Isaac and what Isaac passed on to Jacob that's all Abraham AB that's all Moses know so I only know what my great great great great great grandfather Levy told his generation what kind of nonsense is that one he knows a lot even look at the motives he began to use in his teaching he used the motive of seven days he used the motive of creation how did he get the motive of seven days Sabbath from Egypt he used the T there was no Biblical word as tight it was in a word in their in their normal world view or what about the word anoint those are not biblical words because they not used in the Bible today we have already have them as spiritual words so when you see anointing to you think it's from Bible he learn it no the we have this idea that sacrifice is from the Bible how daughters are also making sacrifices is it Bible they read to not to make sacrifice no are you with me so we must not have that idea that the biic writer the later ones that they were not exposed to other forms of writing that's going to affect our Bible St like I said these are some things we'll talk about later on the year about Advanced Bible interpretation because having that idea that because we have the idea that the prophets were just I want to prophesy it moving me around so the prophets were idiots all they knew was I see I hear it's quite crazy when you realize that the prophets were the interpreters or the preachers of the promise of God or the what you call the Testament of God they were the ones who interpreted it so they have to know they were not just for telling all their prophecies were not about I see for telling the future though they were interpreters are you with me why are we seeing all of these things so that we realize that they had a wild world view now then where those understanding was against the scriptures when those understanding was against the scriptures or against the understanding that their fathers taught them about God they throw it away yeah just like today I know a lot of things but does not mean that I'm going to embrace those things when he negates the written word I'm going to kick it away however in my explaining the written word to anybody who has any understanding like this I will well be able to communicate with them in that

regard are you seeing it I will be able to enter them in that regard I will be able to I will be able to are you with me so the biblical writers did they they open to other materials did they read other materials obviously that's why they could use different words to say the same thing because they knew how people were thinking they also knew what was happening they didn't know the news happening around town that's why they could know what is happening in the neighboring Nations what is happening neighboring Nations is not inside their book they could tell what is happening around now that is a proper not reading the Bible like one dummy book like oh just no it's an intelligent book are you with me not just what is this a Bible 66 books no now doesn't do justice to interpretation are we good so the biblical writers did they have other books that they read now did they also have other Christian books that they read by Christian we mean just like today we have risings of Ken or Robert rard bony we have books of Great Men of God Pastor CHR I mean have many books we could buy re will there are several books we could buy and be reading that are not Bible so the biblical writers also have books that interpreted the Bible in their timeline you don't think so the did oh please don't go be saying no they did just like Paul told you he wrote All how many books of Paul you think these are all the books Paul wrote there was Paul say I wrote a book to you in you you see that there are many Lost Books of Paul that are not in the Epistles you're not observant if you were you would have seen it Paul wrote that I wrote in there was another book he wrote to L do how come you don't have that colos and he mentioned there's a book he wrote where is all those books and to imagine that he would not have written all things about must have written all that things are you with me so how come they are quoting look at the writer of Jude look at what he's quoting the seven from Adam Baba which text are you reading that one from are you seeing it so it's obvious they open to other materials not all extra biblical materials are satanic just like are you getting just like nearly all extra materials today for the different things you learning in World they not all satanic now are you follow I did not say you should going to be looking for the Lost book of Moses neither did I say look for the Book of Jubilee Enoch I didn't say you should be looking for all those books the that those books do not have what Divine Authority they do not establish Doctrine but to say the biblical writers did not know about those books or did not know what was in those books is a lie they did know just like the apocryphal books were around in the time of Jesus and he didn't quote anyone neither did he reference anyone for Authority are you following so there were books I have shown you over now pay attention to this introduction there were books as we saw in the Bible that are not in the Bible you have not seen it before there are books in the Bible that are not in the Bible some of you are quiet let me I will help you as if let me see if I can find that note oh God help me First Chronicles 29 now the acts of David the king first and last behold they are written in the book of Samuel the and in the book of Nathan you don't have that one and the Book of Nathan the prophet and in the book of God The Seer in the book are you seeing the books you don't have and they are recorded in the Bible that these are books okay 2 Chronicles 9 are you see that there are other materials 2 Chronicles 9 verse 29 now

the rest of the acts of Solomon first and last I did not written the book of Nathan the prophet and in the prophecy of aijah the shilon night so there's a book called The Prophecy of aijah and the B you see they they are writing that there's a book like this but you see that book now you'll be if you read it looking for re Doctrine reprove correction you'll be crazy because it doesn't have that Authority is not given by inspiration are you following so the book is not for it's like reading my book today and reading my book for with with the same authority of scriptures no my book simply interpret the Bible you can't put my book alongside Moses and say I can throw away Moses and take what P will leave you because will not follow you in that Madness are you see that's what we we try to do that oh this but there are many books in the prophecy of aijah in the visions of Ido the sea did you get it so I want to repeat it one more time so are there books thank you 2 Chronicles 30 2:32 now the rest of the acts of Hezekiah and the goodness behold they are written in the visions of Isaiah the prophet the son of Amos and the Book of the kings of Judah and Israel 2 Chronicles 12 and verse 15 now the acts of jeroboam first and last are you not written the book of shiah the prophet and of Ido the concerning genealogies are you seeing it and there were Wars between ream and jeroboam continually First Kings 11:41 and the rest of the acts of Solomon and all that he did and his wisdom are they not written in the book of the acts of Solomon we don't have that one the book of the acts of Solomon if you read that one now you looking for Doctrine that's not more talking as a prophet are you see he has many stupid things he has there to say you don't know Solon said many stupid things he told us in his book you see that the benefit of reading the Bible with intelligence he said because the preacher was still wise he Tau his people's wisdom then he said he set in order these Proverbs that's the book of proverb that you have because that's the one that the word set in order there the word used for rightly dividing that's the first use of that word rightly device so Solomon himself because he was still wise which is wise because he feared God are you seeing so in his restoration the book that he put together was the one that he had rightly divided his Proverbs and rightly divided so it's not just anything he just like it right so that book of Sol making it into the scripture is because this the the context is not against the motive of scripture because the Bible motive is a love story so the Love Story explain with the schulam might with the women of Jerusalem with the bridegroom can explain the story of redemption so it's not against inspiration are you following and on and on and on there's a book called The anas a n n a l s 1 chonicles 27:24 the Hors of King David there's a book called The visions of Isaiah we don't have that we only have the book of Isaiah then there's a book called the sayings of the SE 2 Chronicles 3:19 they are written among the saints of the seers so I mean we can go on and on for books the sayings of the seers clear clear clear so are there many books thank you so did they know of other materials yeah they did so can our background affect our Bible interpretation thank you then another key issue that has affected our interpretation is we assume that a lot of things in the Bible are too weird for it to matter so when we see something weird or odd once we see weird or all things the Lord came from par read my Bible enjoy myself it can't make

sense because it's odd how can the Lord come from par is par what is that one I you say it's odd so it must not make sense ahh whoever trained us in our disciple system to think that when something is odd I give you one example you know there are many odd things ah you have never seen all things in the Bible in this series you will see all things don't worry maybe you have been jumping Bible study if you have actually read your Bible Genesis to Revelation you would have seen all things that's why who are the 24 all manner of things they are angels how can they be Angels he explained Angels living creatures John is not an idiot he knows well enough how to explain cannot be calling Elders Angel is not stupid he already used words for supernatural being in the letter obviously they are men Elders in the Genesis to to Jude have always referred to men how can you be calling ERS all of a sudden but we don't want men to be in heaven we only want lightning Stone drinks there are many odd things who just it's odd and I once then it's also possible to just say it's a figure of spech it does not make sense that something a figure of spee does not mean does not make sense it means know what the figure means then explain not just that the figure ofure he does not follow how can you not just follow are you following so we assume that because a lot of things in the Bible are OD it must not be important there's a theolog Bible School curriculum I was going through in America there's a theological school I was looking at the because I wanted to take a certain course because I was looking at um the origins of languages and how it CS across Bible interpretation so there was somewh that was referred to me by uh a professor of a certain University that I answer some of their AR theological questions and so I wanted to look at the bial writer because I'm very careful with all these Greek Hebrew Scholars Bible scholars especially when they are against kisman so one of they were telling me that there's these two guys I will love them but they they are very very very very sound and so one reason that Drew me to one of them was he said I was in church and my pastor said let's just keep this because it's very weird I was like I would like this this guy because what an intro in his opening of his book say I was in church one day and my pastor said this thing that Peter is saying yeah Jesus going down to Hell all this baptism for the dead has to is doesn't make any sense so we just keep all of these things let's not bug you with what Jesus has done for you ah so yeah that was going to make it do his research so he did his Doctorate on baptism for the Dead since the preacher said what all the things could not make sense so he took it upon himself because that's what bical Scholars do just having fun with reading the Bible so he wanted to study that thing that made the B the Pastor said this has to be weird it must not make sense because bical schol don't believe that there's something called odd now of course guy likes the supernatural but doesn't use the supernatural so it's not my kind of person but I liked him at least he tried of many of the Bible Scholars that I know that are alive in the world that's what I mean by know there are very few that are open to the things of the spirit or the charismatic flow very very few and that's a challenge in itself are you following it's a challenge in itself so we should stop assuming that a lot of things in the Bible are too odd to matter and this was the text First Peter chapter 3 and it drew my attention the lack figure

well to even baptism does not now save and the putting way of the feet of the flesh how does baptism save and the answer of a good conscience towards God so this was the text from Verse 18 to verse 22 so the preacher just found a way to dodge this text and the man said he's going to take it upon himself to stud it so there are very strange passages in the scriptures so there are very strange passag I think we helped you with some of them last year September can you recall all right so maybe we'll do that again this year September again handling weird text to just judge say what does this mean it can't make sense it makes sense so anywhere we end today we end important thing is have understanding so do know that there's a lot of um Dodge then the people who explain Supernatural just say It's Supernatural now you cannot use sense to explain it now it's supernatural now use it to SP all the many rubbish they want to say but Bible is giv to us for what secondth CH 3 just to refresh your memory 2 Timothy 3 and verse 16 all scripture is given by what inspiration of God and it is profitable what is the scripture there the documentation the past graph all scripture are you following not the hrose grammar not the content in verse 15 say Timothy has known the hyros h i e r o o s the hyros grammar the that's the word Holy scripture in verse 15 Timothy from has known the holy scriptures which is able to make you wise not the documentation the content what is inside the grammar the words inside able to make you wise and now say all scripture past graphy all documentation is given by inspiration of God and is profitable for for Doctrine for reprove for correction and for instruction in righteousness that the man of God are you with me don't worry I'm still your pastor that loves the things of the spirit the only reason why I'm trying my best to increase my academic learning in theological things because I want to penetrate those denominations with the things of the spirit because they don't even think when somebody is not sound theologically and the what God has given me will require that diligence to be able to penetrate those regions and so God trains the men he uses and when God sees a vessel that is willing to go an extra God is willing to go an extra too know one of the issues God had with Miriam and the brother was not what they did was that they could not recognize what they could say I talk to all of you but you see there's a way I talk to Moses the issue was God not even deal with the issue that they had with Moses the the issue go had with them was their failure to recognize that Moses is not them say there nothing special about this guy Mr OBO there's something special about people that was God's issue with except you have not remember that text they say how come you were not afraid that what God's issue was not about what they did it was just the failure of recognition that they thought that me and because it's possible to get familiar like that we are all the same now what is trying there's recognition and in life is good you learn to recognize what people have and what God has given to them who God has brought your way recognition is very very important in our life so like I was saying verse 16 says all scripture the documentation how the whole book was put together is given by inspiration of God and that inspiration that documentation is profitable it's advantageous for Doctrine for reprove for correction and for instruction in righteousness did you get it so the documentation is the documentation is

profitable for Doctrine so we can get our doctrines from it did you get it can get doctrines from it that the man of God may be perfectly fished onto all good works so I'm going to start like this there are things you have been told not to believe that they do not exist so we start with that are the gods real the gods are Idols man every Jesus [Music] you I doesn't change the fact that they exist you don't believe exist now are the gods real yeah see that kind of teaching no no no no what is an idol an idol is anything that you put in your heart money is an idol sex is an idol by laughing you the ID know is a god sex is a god money is a god Baba you lack experience a god a god whatever you mold you see it so because it was certain theologians that came up with that idea and we now use to nullify every other place and the Bible mention Gods a lot from Genesis chapter three you have been seeing Gods shall be as Gods even the serpent use shall be as Gods the use of Gods starts from Genesis to Revelation the use of gods so you see the where I'm starting the gods are real say no no there's nothing like that there's nothing like um uh help me um my orientation is to Greek Hebrew and Canaanite mythology so let's let me mention Nigeria there's nothing like there's nothing like there's nothing like the Indian side there's nothing like all those sh Lord Shiva be Krishna AB shivu I don't there's many pronunciations there are many Lord C like there's nothing like even m is trying to in Celestial movie for you nothing like the gods are not real there's nothing like then have their own the evil have their own it's nothing like all those things they trying to explain about CH about this about that then they mention say you see you say a queen soup is U the devil are you sure is the devil because you're trying to translate okay this this will be the best way to explain it all right because there are many words use now if you are new you'll be wondering what is this has something happened to our pastor if you are new nothing has happened to me I've t you these things for the last two years that the Bible used so when you see the word go in the Bible it refers to over half a dozen entities that when the biblical writers use the word go they're not thinking only to yahe they're not thinking to th are God of gods how can you be god of what does not exist that's that's not a praise that's an insult you are is like saying you are you are the finest of all trees are you not say there are no other trees HH no other trees are you not the finest of there's no praise there thou are the this of and it does not exist I taught you that in who is like unto God call that so the denial statements in the Bible do not mean that the gods not exist but to they use the denial statements to Telegraph God's what uniqueness incomparability it's called God of gods what does not exist the Lord is amongst them the Lord stand the congregation of the Gods Jo among the God how long judged among what does not exist stand among what does not exist what kind of the language is there in the scriptures and it becomes easier to preach to atic people I tell them you're worshipping one of the things that my God created and you are calling it God let me show you something are you seeing it it's a better intro say there's nothing that you are worshipping no I know what you're worshipping now that guy you're worshipping is one of the rebellious beings that my God created and he ought not to be worshiped only God Alone ought to be worshiped they can assist man or they can walk against man and that's they have been assisting you

but it comes at a price or has it not come at a price now that's an introduction oh boy the guy is going to tell you yes that come at a price they have asked me to do this and that but Yahweh doesn't ask you that he give to all men freely all things to enjoy it doesn't say Transaction what will you do for me now for me to do for you doesn't do that as though he needed something is not worship with men's hands now we have started a study say it not matter to know Bible that know your Bible has not help you to win one person but imagine you come and say there's nothing like the gods so I'm a Fool now every day I need down I say you you created your God really I created the statue not the God use words properly they didn't create their God they don't create you don't create a god it's only the statue or the moldings that you can create so they just and just like the Bible characters were intelligent that's how your grandparents are intelligent so when you see people say let's go back to idol worship idol worship was not the first thing idol worship was not the first form of worship on the earth there was a time where all the Earth recognized Yahweh and there was a time where all the Earth began to shift away and it was at Babel and that's also something that has not been taught in many circles most people still don't know what happened at Babel it was after Babel that the rise of idolatry began where all the nations of the earth were given to the sons of God and where all those different nations had supernatural beings over there and that is in a measure can be attributed to the uh permissiveness of God are you with me don't run off it's one thing I said don't run off with what I did not say so we explain all of those things in a measure again so is there the spiritual word now the idea we have of the supernatural word are the rubbish ones many persons have this idea that there was a rebellion of angels before the fall of Man that's rubbish it doesn't exist in the Bible there's no Bible verse that has any rebellion of angels one third of angels fighting there was war in heaven there was no picture like that the fall of Angel is not explained like that in scripture is explained Genesis 3 chapter 6 and chapter 11 that's where you have the theory Supernatural rebellion in the scriptures and we said this one time and it was shocking to many person there are more stronger Devils than Satan that's why Satan was not locked up but there were stronger Devils that were locked up even Peter had to tell us all the is in the garden was not locked up but you see there were some guys they in Chains Satan is not in chain I must admit in my theology many years ago I used to have this idea that oh they are just been changed just that by their Spirit they move to and through the yet no there are the ones moving to and through and there are the ones that are chained don't mix them up and that all of them are called Satan or devil does not mean that all of them are what was in the garden are you following so devil is not a noun but a verb it's a function terminology now we love those words to be noun that's who they are but that's actually what they do because devil is adversary Satan accuser those words are function terminology not nature terminologies are you with me so they are nature and function terminologies just like cherubim is a function terminology so the gods are real they walk among men and some people the idea they have of the Unseen Lucifer is Jesus brother it takes you to Latter day and their Theology and because

you don't want to ever think that there's any sense to what they are trying to say see don't be scared of any extreme when you know the truth don't be scared of it because any extreme you know may be the reason why you're not studying you're are trying to defend from those extreme what do Muslim have to say about our Jesus I cannot allow it hear whatever they are saying and don't use that to study the Bible the Bible to see what the Bible is saying then you can answer any of those extremes but when you already afraid that be sounding as if it will affect what you are seeing in the Bible are you following okay there is nothing like Cosmic geographical rulership there's nothing like that when Prince of Persia that's old Testament there's nothing like that again today then you have Ephesians 6 Paul says rulers of Darkness of this world Paul obviously does not know that there's no longer Cosmic rulership I wish you got that so Paul does not know of evil Supernatural Powers he does not know but he mentions about rulers authorities Thrones Dominion it's not pause later so there's a lot of things to study on so let's introduce this a bit then we'll take a pause this evening Genesis 1 and verse one we have to come here now you knew it was just a matter of time we have to come here in the beginning God created the Heaven and the Earth so what did God create the Heaven and the earth now of course by now when you hear Heaven your mind your head should not go up once your neighbor head trying to go up light them with the light of the Lord I'm joking slap anybody don't slap anybody that may be your wife to be in case you want to not tell her you love you already W up inur I'm playing all right so back to what we were saying so when you hear Heaven everything you think of is a planet away from the earth Heaven a planet away from the earth but they do are you see how how stupid the theologies are you will never understand why one preacher is always angry shouting fighting on YouTube until you know how ignorance how dangerous ignorance is we all used to be like that you need to see us those days we have changed now when you first get exposed to the truth of God's word and you are looking at where you are coming from and papa you militant man Mount go bloody ah when you realize that do you mean people are preaching that say rubbish we rocking that they used to say p go hate all the church fathers they hate them I we know we not hate them but we not just know how to say we not hate them because we actually hated them but not like we hated like that like that like that are you seeing but we really did not he them the call of the matter were against that thing they were teaching when you realize that that's people imagine that thing come making Heaven it looks very nice very demonic you are shock I put demonic inside very very demonic teaching it's a major distraction that takes the church a 100 years backward you're trying to make and you look at the arrogant people who are trying to tell you to make heav look at their lives look at the way they teach even now bloggers can find fault with the people that try to make Heaven I'll leave it there I mean even bloggers they could even pass the Judgment of bloggers these are the men that wants to make Heaven even bloggers can find fa with them how much more the judge of all the Earth you I hope think I just say it like I just dropped it a blogger you could not pass the Judgment of a blogger the Judgment of a blogger saw you faulty this is not

Yahweh that seeth all things that knoweth all this is a blogger this is somebody that love G that did a research on you you understand if you know you know yes sir this is somebody that is freezing you they did a research they now saw after do the research they could now say that these pastors we suspecting them and you are the making Heaven gang your members must not be on Facebook must not be on social media because they should have started asking you question P you know you make it if you cannot stand before freezer can you stand on the last say so now many pastors are afraid of online say it's not really what I said now they having to defend yourself because they will bring you to online courts you will train for one week say is that's not really what we meant there's a longer video out there why do you not put the short one media them are you following so the man that wants to make Heaven cannot even stand before a a court no no no no no there's more making Heaven see some of you the way you look at me shock like CU it's your first time of hearing no phrase like that in the Bible no one Prophet Apostle nobody mistakenly uttered that phrase for the first 1,000 years of church existence no preacher altered making Heaven until some Holiness guys came up i s that we need to let people know that they are not of this world that was where the problem began in all we are not of this conting theology that has Heaven as a distance we now have making heaven when I having all of these demonic things I use demonic so that you be against it in your thinking and it has affected our understanding that it's better to tell people to live holy than trying to use St trying to say so that you will make it if anybody deserve it I sometimes you look at the people that trying to explain sanctification you are always in every Scandal you are the one trying to teach us sanctification sir sir you you have issue with po we call you a man of God if not for Paul we will not recognize you and you have an issue with pa pa that we using to say nothing shall separate us that's why we have not separated you you have an issue with Paul you have an issue with Paul we don't want to use by the spirit to observe you we just believe the best that it can't be true but if we check we may see that is true CU all these prophets of nowadays they will be every time you look at their churches there celebrities in front they will now hear that you are with a celebrity shouldn't we be suspected that is true but let's leave it why do you recognize celebrity so much you can tell that you want to be a celebrity or you want to make it as a celebrity or what but let's leave the matter all of that was to say this and I'm of course being serious there are certain phrases that have been used over the years that have destroyed our understanding so that when we hear innocent Bible was we can't think in the light of the Bible so you he making heaven so what can I do to make Heaven these are people who can't make a if you make Po you have to put it back into the pot you couldn't you have not been able to make up well if we give you one single key you lose it you always have to destroy your parlock you always lose your set of keys this the people that want to keep eternal life they don't want to lose their salvation but always losing keys they are losing things are you with me so there are things we have to explain better what does these phrases mean what does this mean are you a me so that's the essence of Bible study so a statement like God of gods does it mean exactly what he

says yeah it means exactly what he says so let's not be throwing away terms like that so when he says in the beginning God created the Heaven and the Earth the word created is not always out of nothing to create is make out of nothing people that have been creating today is out of nothing that they are creating if you going to use a scientific world view to explain create tell me one man that created something out of nothing are you seeing it so when we use the word create and our meaning of the word create is always out of nothing to create is just to shape to make don't remove that out of nothing because that out of nothing can force you to already know it has to be out of nothing so because the work create has many cont is to shape is to order is to make so you see that within the framework of that work create you see several applications of the word so once you already have create is remember that definition I told you to beware of definitions always be for explanations say Pastor is not a way you can just compress this teaching and just say this is this is this is this that this we love our man of God his teachings are filled with this is this that this that this this this this that no so you have to explore all the words in the beginning God created the Heaven and the Earth and the Earth was without form and void and darkness is upon the face of the deep intelligent question how can there be darkness and God is creating are you see I told you before J 1 is not a creation can you cannot use it to say this is the beginning beginning of the world because there are many question we have to now ask this God this God that is creating Heaven and Earth and the Earth that is creating is without form of so now say the Earth was empty now try to fill it up we understand that TOA B is a state of like when you are moving from one house to another house when you park things will be scattered everywhere you have to put it in order now the fact there already things and he has created or is creating makes it to be technical how created water how come there's water there how come is dividing light from Darkness inside creation when darkness divide already already divided divide but that used to separate sanctify is dividing light from Darkness so there are many things to what study Hallelujah because there are questions if we are going to use this because in the beginning God created and there's a gap by one of the most intelligent men who could quote the whole Bible brought out that Gap theorem that there must be a gap somewhere because you see God created in the that God created is not without form and void so there must be a fault is all this hard work trying to bring into a text what is not in the text because they have has to be there has to be something there there has to be something there has it struck you before to realize that Genesis 1 did not write itself and it fell into to somebody that wrote it and the person that wrote it did not live in the timeline of Adam the person that wrote this is over 1,000 there are thousands of years between him and Adam if you don't want to think of thousand is 969 years it's not after that Moses was born beautiful you are thinking it's not after M was born that Moses was born it's not after died M died and the flood came and there was still no Moses nether was deil and ab and Abraham that we born Isaac that born Jacob that would not go and be borning Levy and Levy that will be bor b b b before bned you are thinking so you cannot have Moses talk about a creation story as if he

was there so he and he cannot be informing people that have lived before him that God created things and they blind don't they know that God created it can't be informing them it's like your children 10 years time 20 years time Tred to inform that daddy do you know there was a covid 19h boy where they born you they cannot be informing you like as if you don't know so they can only give you an application an understanding of what happened in that time based on something that they are reading now maybe a research that they are doing that's how Moses is writing about a beginning that he didn't he did not see Moses wrote the beginning when he had that Vision with the Lord the Lord showed him Genesis he wrote Genesis by Revelation he also wrote about the phosy by Revelation wow he was seen so many history so many histories as much as it looks so sweet so beautiful but it's idiotic you understand that part it's idiotic in interpretation to to to believe that there is no oral tradition nobody told any story that pass any story when we know that the major way history was passed on in ancient time was Ora tradition use word of mouth because there was no of writing then before the technology of writing was invented people were using mouth to tell stories and you you would command your children to tell their own children that the olding days idea of tales By Moonlight it was not to make up stories it was to tell the stories that so every day they tell the children everyday stories of their fathers and they repeat it they repeat it so that's why anybody could remember the stories you are wondering how come they could remember stories vividly how come the disciples remember the stories of Jesus vividly we see that they were writing as Jesus was living no because Jesus used to repeat it that's why repetition is very key so when you say Pastor I told this before why is he repeating it again then you should be comparing not as is repeating to see if you really remember not H what's is this one what's this one repition is good except when you have a hasty Spirit Earth was without form and void and darkness upon the face of the deep Earth was without what Earth was without what the Earth was without form and void and that and God said so you see there's a way already teaching Genesis 1 2 3 for there's water there's light there's Darkness how did God create water then not every physical thing that is created is in chapter one not every physical thing is in chapter not every spiritual thing ah a lot of things yet to see so God created the Heaven and the Earth Acts chapter 17 and we'll come back to Genesis 1 Paul see Paul he didn't say there's nothing like this he was at Ms Hill verse 22 then Paul stood in the midst of M's heel M heel is a agos the rock of Aries Aries is the god of war is the God of War so the Greek deity of War Aris a r e s so this Mass here is where they believe that Aries used to descend on the earth so arish is a Greek god of war and Paul stood in the midst of M heal and said ye men of AR I perceive that in all things you are too superstitious you see it I will prefer a superstitious guy to someone that knows nothing about the supernatural world that one now work are you following the superstitious guy just believes everything is pooooky everything is weird everything Supernatural but you guys don't believe Supernatural trouble for as I passed by and behead your devotions I found an altar with this inscription to the unknown God whom therefore you ignorantly Worship You ignorantly worship Him declare

unto you are you seeing it so there is who you are ignorantly worshiping is him I want to declare unto you because you wrote an unknown God so you see what he has done now he didn't use the popular ones that they know but the ones that they know cannot be yah so since you wrote an unknown God let me tell you about a god that you don't know that's where he entered them of course they are really not worshiping Yahweh as the unknown God but they recognize that we have so many gods there's a God for let's just also worship a God that we don't know there may be another God that exist somewhere that we don't know so an unknown God are you seeing it so Paul now wants to teach them say he ignorantly worship Him declare unto you God that made the world so you see how to talk God this God now that I want to teach you about Paul says is the one that made the world the word world here cannot be period of time AB has to be Cosmos is the one that made the cosmos it's one that made the world the cycle of the earth that's the cosmos the cycle of the Earth the world tree the Heaven and Earth so world tree God that made the world and all things there seeing that he's Lord see what he has done there seeing that he's Lord of Heaven and Earth Lord of Heaven and Earth dwelleth not in temples made with hands he see he going transcending their ideology dwelleth not in temples made with hands he does not dwell in temples made with hands because they are making temples so it's beyond that neither is he worship with men's hands where he say let me help him you can't help him he one that helps as though he needed anything see he give to all is this God that gives to all life and breath and all things are you seeing he's the one that gives to all life breath and all things and as made of one blood this is where racism becomes stupid AB be cuz everybody Trace back to one blood and even if you don't want to agree okay what about your ethnicity because as long as you lay claim to ethnicity to a certain tribe that tribe holds back to one person who gave better to this who gave better to better to this they spreading it ab and that one maybe one family five person four person but there's always one original f there's nothing you can because somebody cannot produce somebody and you will not be able to say who was that person that produced somebody so everybody Trace back to One Source just like you are not born Now by four fathers now if you are tracing you have to look at one father I be one mother so you have to go back that's so nobody can fault it that everything all to must have began from one it takes one to have more AB and has made of one blood all nations of men for to dwell on all the face of the Earth and as determine the times before appointed and the bounds of their what that they should seek the Lord if happily they might what and though he be not for in him we live move and have our see what he has done and as has made of one blood all nations of men for to dwell on all the face of the Earth and as deter the times before Appo and the bounds of that they should seek the Lord if happily they might feel after him and find him though he be not far from every one of us 28 for in him we live move and have our being see how he's explaining God in him we live move and have our being are certain also of your own po have said for we are also his offspring so he quoting secular material are you seeing that Paul is intelligent quoting a secular mat that they all knew so your poets have

also said the same thing that we are his offsprings for as much then as we are The Offspring of God we ought not to think that the godhead is like unto gold or silver so if we are The Offspring of God then you cannot think that the God is like silver or gold cannot be what you are molding or stone or graving by act or man's device and the times of this ignorance where you are worshiping God through things God wi that but now God commanded all men everywhere to repent because he had appointed a day in which he would judge the world in righteousness and by that man whom he has ordained wherefore he has given Assurance unto all men in that he raised him from the dead are you a me so may they head Resurrection they mocked him and they said we hear you again on this matter so that's the problem of being biased they already biased against resur so may they had resur said we hear you again so it was going very fine until mention the word said you would have said ah there's no need now you shouldn't have mentioned it there's no gospel without reservation so if he scared to mention resur they will not burn anybody again there has to be Resurrection he can't Dodge that part can't dodge it are you a me Psalm 33 and verse 6 by the word of the Lord were the heavens made and all the host of them by the breath of his mouth did you see that by the breath of his mouth by the word of the Lord were the heavens made and all the host of them host of them by the breath of his mouth on that word host h o s t the word host of heaven when you see it in the Bible is not used to speak only of physical someon and remember we saw Hebrews 11:3 that said the Unseen will be explained with the sin all right so you see the physical host of Heaven is now being used in the Bible to explain Faith to explain persuasion so seen things are being used to persuade you of unseen things so in the matters concerning the faith we see that sin was used to explain the Unseen Psalm 148 praise ye the Lord Praise ye the Lord from the heavens Praise Him in the height because there's a height that he made praise him all his angels praise him all his host are you seeing it this cannot be talking a physical s AB be praise ye him son Moon praise him all ye stars of light Praise Him ye heavens of heavens and ye water that above the heavens let them praise the name now nothing he has mentioned from verse one to verse 4 is physical let them praise the name of the Lord for he commanded and they were created he commanded and they were created he commanded and they were what commanded and they were created so just like the Psalm 33 we read just now by the word of the Lord where the heavens made and all the host of them by the bread of his mouth for he spake and it was done he commanded and he stood fast so God made is a God that made them nemiah chapter 9 nemiah 9 and verse 6 thou even thou are Lord alone thou has made Heaven the heaven of Heaven Heavens with all their hosts the Earth and all things that are daring the Seas and all that is daring and thou preserveth them all the word preserve is thou givest them life and the host of Heaven woreth thee did you see that the host of Heaven woreth thee host of Heaven host of heaven now like I said if you have already been introduced into host of Heaven meaning physical sun moon and star so when you see host of Heaven in the Bible you already have a biased interpretation Genesis 2 vers1 thus the heavens and the Earth were finished and all the host of them

host of them host of them so how does this sound first king KS 22:19 and he said he thou therefore the word of the Lord I Saw the Lord sitting on his throne and all the host so God is sitting be before physical sun moon and star so every time we we fly on the plane we we see the Lord I see the Lord as I just fly on the plane and say wow the Lord is sitting surrounded with the sun moon and stars no that can be did you get it and I saw the Lord sitting on his throne and all the host of Heaven standing by him on his right and on his on his right and on his host of Heaven theonomy 4 verse 16 to 19 lest you corrupt yourself and make you a graving image the similitude of any figure of the likeness of male or female the likeness of any Beast that is on the earth the likeness of any winged fowl that flyth in the air the likeness of anything that creth on the ground the likeness of any fish that is in the water beneath the Earth and lest thou lift up thine eyes into heaven and when thou seest the sun hope your lifted you don't need to lift lift up th eye the term lift up your eyes in the Bible is Supernatural so when it say see in the Unseen that's lift up your eyes into heaven heaven is not the physical Cloud I've told you Heaven has like seven to eight applications in the Bible so which one you will know in the context because it's talking about worshipping lest thou lift up th eyes into heaven when thou seest the son the moon the stars even all the host of Heaven should us be driven to worship them and serve them which the Lord thy God has divided unto all Nations under the whole heaven so it shows you that all the nations have one of these things that they are worshipping Israel is not worshipping them see that there's already an exclusion against idolatry so the biblical writer spoke against it so not nothing like people are free it was always there no it was not always came in in time and there's a reason are you seeing the word host Joshua Joshua chapter 5 and verse 4 and he said nay but as captain of the host let's start from 13 and it came to pass when Joshua was by Jericho that he he lifted up his eyes remember what that means and looked and behold there stood a man you don't need to lift up your eyes to see a man you see men every day without lifting up eyes so the word man here is not the normal word for man but the word used to explain and he saw a person that's why I use the word man so the translators use the word man and he saw a person because the spirit had a shape had a personality and he saw a person over against him with his sword drawn in his hand and Joshua went unto him and said unto him are thou for us for for our adversary and he said n but as captain of the host of the Lord so this is a captain of the host of the Lord captain of the sun moon and star are you following can't walk now and Joshua fell on his face to the Earth and did worship and said unto him what seeth my Lord unto his servant I'm the captain of the Lord's host unto Joshua lose thy shoes from off thy foot for the place where on thou standest is Holy and Joshua did so are you seeing the word host are you seeing the word host so the host of heaven so that host of Heaven do we see light and darkness in them so so the creation story that have host of Heaven does that ring a Genesis chapter one so look at the physical description the fourth day verse 14 and God said let there be light in the firmament of the Heavens to divide the day from the ninth so there's light in the firmaments of the heaven to divide the day from the ninth and let them be for signs and for

season and for days and for and let them be for light in the firmament of the heaven to give light upon thee and it was and God made two great the greater lights to Rule the Day and the Lesser light to rule the he made the Stars also and God set them in the firmaments of the heaven to give light upon the Earth and to rule over the day and over the night and to divide the light from the and God saw that it was and the evening and the morning were the fourth day so observe the things made on the fourth day now I've thought you before that this creation explains visible and invisible creation so that they are invisible doesn't mean that they were not created are you yeah Colossians 1 Colossians 1 verse 15 who is the image of the invisible God the first born of every creature verse 16 for by Jesus Christ were all things created that are in heaven all things that are in heaven and that are in all things in heaven all things in the earth visible and so are there visible and invisible that were created whether they be what Thrones or or or all things were created by him and so did you notice that visible and invisible things were created so supernatural beings what we call Angels had a beginning they had a day they were created so and there's light and darkness in them so you now see that term angel of Light Angel of Darkness 2 Corinthians 11 verse 13 and 14 for such are false Apostles deceitful workers transforming themselves unto Apostles of Christ and no Marvel for Satan himself is transformed into an angel of Light so Satan is not an angel of Light are you seeing so if he transforms himself to an angel of Light is that in the same order with 1 deceitful false f a l s e thank you false and deceitful did you get it Satan himself is transformed into an angel of Light Satan himself is transformed into an angel of like Satan himself Luke 22 when verse 49 when they which were about him saw what would follow they said unto him Lord shall we Smite with his sword and one of them smote the servant of the high priest and cut off his right ear and Jesus answered and said suffer ye thus far and he touched his ear and healed him and Jesus said unto the chief priest and the captains of the temple and the elders which were come to him be ye come out as against a thief with swords and staves so showing them that you don't even know you are puppet you are being controlled said you're coming out against me as you are coming out against a thief when I was daily with you in the temple you stretch forth no hand against me but this is your [Music] and the power of Darkness so this is your hour even the power of Darkness so this is the power of Darkness that is working here then took they him and led him and brought him into the high priest so Jesus gave himself ABI gave himself to that because he need to die for the sins of mankind had they known like First Corinthians 2 not have crucified the Lord Of Glory so he tricked them it tricked the tricker they couldn't see the long game are you following so there is light and darkness in the Heavenly did you get it so there's light and darkness there are host of Heaven that are in the light to separate the light from the darkness now you can argue that oh that's the physical sermon and start separating light and darkness but like I've told you before the Genesis Chapter One Creation explains the two words because it's Heaven and Earth creation that is explaining the invisible word and the visible word is always explaining with the Eternal purpose of God that's chapter one of Genesis gen chter one uses creation

story as the parable to explain the visible and the visible word so is what he's using as his illustration what he's using as his template to explain is creation using creation to explain the Eternal purpose of God the promise of God God's plan how God wants the foundation of the world and the end of the world to look like so what is God's plan from beginning to end he explains it using those words Luke 13 verse 10 Luke 13 and verse 10 and he was teaching in one of the synagogues on the Sabbath and behold there was a woman which had a spirit of infirmity a spirit Spirit of a spirit that makes him lack strength a spirit that makes him lack strength a spirit that makes him lack strength did you see that a spirit that makes him lack strength a spirit that makes her lack strength I me there was a woman which had a spirit of infirmity a spirit of infirmity there's a spirit that is making her infirm infirmity when you say somebody's infirmed they lack strength they lack power 18 years so Spirit of infirmity was upon her for 18 years and was bowed together and couldn't and could in no wise lift up herself and when Jesus saw her he called her to him and said unto her woman that are loed from the infirmity Authority and he laid his hands on her and immediately so he spoke to her then he put the hand on her laid his hands on her and immediately she was made straight and glorified God and the ruler of synagogue answered with indignation because they also are filled with evil spirit answered with indignation of being happy they answered with indignation because that Jesus had hid on the Sabbath day so they looking for reason and said unto the people there are six days in which men ought to walk in in them thereof come and be healed and not on the Sabbath day the Lord then answered him and said thou hypocrite does not each one of you on the Sabbath lose his ox or his ass from the stall and lead him away to watering verse 16 and ought not this woman being a daughter of Abraham whom Satan has bound low this 18 years be Loos from this Bond notice what Jesus had just brought him that is Satan that has bound her for 18 years did you see that so there are unseen forces so meanwhile where that woman could have thought that she was just sick Jesus had diagnosed that there is what that there's an unseen force in the negative now not positive in the negative that is causing her sickness did Jesus cast out Devils okay so this is an introduction to a study on DeVos like I told you we're going to look around some advanced studies and study around demonology not so that you will fear the devil but so that you are not ignorant of what he's doing for an aspect of sound Doctrine Jesus walked on water and water was used to explain quite a lot of things and because of time I want to stop in this place so observe that um there's Heaven and Earth there's the visible and divisible word and um there's a wide application of the use of the word heaven and there are things that happen that will normally not want to bring the Unseen word or say oh this is this this is that well within the framework of the Bible we see that the biblical writers attributed certain things to the Unseen Daniel for example the three Hebrew boys were in the fire observe that when Nebuchadnezzar saw that nothing happened to them he was looking intently in the fire to find out why and upon looking he saw the fourth one showed up in the fire he saw the Fourth Man in the fire and how the reason why there was no h Hebrews 11 said by faith they quenched the violence

of fire so that's what you are seeing but in the Unseen something is happening remember the FI the sin is used to explain the Unseen but something is happening the Unseen but all you are seeing all they wrote is even not for Nebuchadnezzar looking like what is happening what is really happening it saw that it was not ordinary the things we just feel like oh that's ordinary if not that the angel told Daniel that the prayers were with stood for 21 days would not have known that we just feel like it's just a normal delay is that it was not a normal delay are you following is David golat golad said I will offer you to the bested of the air bested of the air and many things he saying then says you come to me with this this I come unto you name of the Lord that is an unseen context Hallelujah I would exploit it in a very systematic manner in a very Toral manner we get to see how the heavens and the Earth affect our activities the supernatural world view how we can walk with these unseen forces and how we can with our Authority deal with the negative the forces of Darkness are you with me so buckle up for the ride Hallelujah so I leave you with this there is no issue beyond the power of God say ought not this woman who Satan has bound this 18 years be loosed from our infirmity Jesus could see that it was Satan act8 how God anointed Jesus with the Holy Ghost and with power who went about doing good healing all them that were oppressed of the devil for God was with him how God anointed Jesus with the Holy Ghost and who went about doing good healing all them that were oppressed of the devil Satan oppresses people Satan oppresses people hallelujah unseen forces Hallelujah thank God we are not afraid Jesus leave the Earth as a master and we can learn how to leave the a to as a master they said what manner of man is this Mark 4 that even the wind and the Sea do obey him what manner of man is this and that's the manner of man he has made us to be the new creation what manner of man you you are you you you you you you you you you you you what man of man that's the new creation Hallelujah so in God's New Creation God unites God and man in one place God unites all of us in one place and God unites the Heaven and Earth in one place and there's a renewal a restoration of of the Union of God and man a restoration of man's Union together with man and the restoration of the heavens and the Earth and man plays a role in all of that restoration and God even having to die for man had to be a man so man is key in the work of restoration and renewal as we learn about our Authority we have authority over Devils we have authority over the forces of nature the circumstances of Life contrary winds that blow on the earth be ready to see your Authority as a believer that in this life I will not lose my voice I would have a voice of Victory I will be an overcomer I will not cow in fear in timidity but I'll speak boldly and courageously always expecting a miracle always knowing that this is not the end Hallelujah you learn something come on jump on your feet and pray the Holy Ghost
