

in the name of Jesus we thank you Lord open our hearts again to your spirit and we trust that in this service the eyes of our understanding again will be enlightened we leave here having a full grasp of our Authority in Christ Jesus and walking in the same in the name of Jesus and in this service again we will be built up our lives will be transformed by the power of your word and to see how we function in the Unseen World and we see about the Unseen Force around us that truly truly will be men walking in our rights and our privileges in Christ Jesus that in this service the things that ought to be said will be said and the things that ought not to be said will not be said Lord again we ask that in this service you show the tokens of your part do what only you can do let there be great explosions of all mightiness Lightnings and tanding acts of your power in the name of Jesus am amen God bless you have your seats and as you SE turn your Bibles to Hebrews chapter 11 so go back to where we started on our journey on on sin forces is our opening text Hebrews chapter 11 and um Hebrews chapter 11 it says now Faith is the substance of things hoped for now Faith is the substance of things hoped for now faith is the substance of things hoped for and we said that faith can we call it the faithfulness of God our faith is the substance the substance the substance the word substance in the Greek is the word hypostasis it's used for confidence is used to explain a ground like a foundation or ground and that ground could give you confidence that ground could give you confidence so when he says now Faith Faith there or the faithfulness of God the faithfulness of God is the substance of things hoped for and the use of the word things is not used for because the what is calling things will deal with all chances of Things Not Seen of events actions as the word things because the things he will mention in Hebrew 11 is not is not food it's not shoe it's not clothing it's not houses it's talking about actions events as you read down to verse 40 of Hebrews 11 so when it says now Faith is substance of things hoped for just like the word things is used God created things in heaven things on don't when you he things your man didn't go to inanimate man always go to shoe clothes all of those no so when you use the word things pragma the actions the events faith is the substance the ground of things hoped for the evidence of Things Not Seen that's the word unseen faith is the evidence say evidence faith is the evidence of Things Not Seen faith is the evidence of things unseen faith is the evidence of Things Not Seen and the word not seen relates to the invisible relates to the immaterial so faith is the evidence of Things Not Seen and he says for by it remember what faith is talking about the faithfulness of God so we said the faithfulness of God was expressed as the evidence of Supernatural events Supernatural things faith is the the faith or the faithfulness of God again as we have said when you hear the word faith and the fa on your mind is I receive my possession I name it I claim it it's going to have a lot of challenge with understanding Faith because that's uh an imbalance an imbalance mentally in reading the Bible of fa concerning Faith because faith is not expressed like that in the Bible as the only expression of faith faith is explained in the Bible as a persuasion faith is explained as a persuasion that's why if you in fact if it were only the Pastoral episodes the Pastoral episodes are three First Timothy second Timothy and titles alone you read you will

not have faith as claiming receiving anything you have faith purely as a Doctrine because that's all he taught Faith as then you read the four gospel all you have concerning faith is I believe I receive I claim it I take my healing so you have to read it across board because when you're using the word faith it stems from the Hebrew word that is used to explain amen you trust you rely on the Greek word piece is persuasion persuad bless and persuadable can be seen in different context because a word does not have a singular meaning a word has meaning in the context of usage now in the context of usage here you notice that the Hebrews 11 faith is not people who claim rice and claim beans and claim shoe and claim cloth that's not the context of Faith except you have never read verse one to verse 40 so again that affects I know popularly people say faith is the Bible is not a definition that you put is for something doesn't mean you are defining it increase your natural understanding the use of the word is is not always as a definition ah I don't think I need to give you English examples for that he is a lovely boy a handsome guy for that matter say I'm defining him come on now come off that stupidity which is defining him he I said he every time you put is is where where did you learn that one in grandmar that is I'm trying to tell you that that that text is not a definition is that lazy way we read Bible because we feel like okay we have to pause our brain because we want to be Christians we want to know God's word it's not true the Bible is not even profitable for definitions the Bible is profitable for explanations and explanations are more broader field you get definitions from explanations that's why if you check how dictionaries are made the research that goes into making a dictionary that's why modern dictionaries since the 1960s I've all had more than one meaning of a word because you can't say this is just what the word mean because there's a broad explanation because the word Define means um um um directing it somewhere that's the origin of the word definition so I'm trying to Define it so it can be broad but I'm trying to localize it to this I'm trying to Define it so when you say Define it means bring it down that cannot be what you say I want to get the full the full G no no no that's why definitions are short but when they tell you what's an a you say an acid is this but the textbook is big now you are still learning about seed sorry those of you that don't like chemistry all you maybe uh biology for example say excretion is the removal so you say I've last I've learned enough what about the organs what about the this the that all of those other things I they not part of the subject say I've learned it I know the definition now I know all I need to know I know now that's not learning um it eies is this I have known the definition now production I know the definition now so what the re that we teaching is for ghost no now are you getting it so when you bring that same leg into the Bible you'll be angry with the Bible thinking you are right as often the case of arrogance nobody can tell me that kind of nonsense B now you not smart not be Bible Bible is innocent because your preconceived notions affect how you read your natural intelligence will affect how you read in fact the things you that enters your mind when you hear a word is what you also hear when you read the Bible and you'll be angry with the Bible not thinking like you the Bible should not think like you you should think like it amen because you are not giving the Bible

your own meaning you are taking his own meaning and many times Bible words are not as English as we suppose them and words are more deeper that's why they teach you the origin of words the etymology of words where words are gotten from and also show you the context of usage in sentences so you see that we can use this word like this we can use this word like this there are certain words that are nouns certain words that are verbs certain words that are adjective the same word the same word is a noun an adjective of verb the same word so that already tells you a different part of speech the same word so imagine how you're defining that that's the same thing with the word faith so it I know it has been so taught over the years that that's the definition of faith the only place you have faith defined the Bible doesn't do definitions all scripture is given by inspiration of God and it is profitable for Doctrine Doctrine the word explanation not profitable for definitions the Bible is not a dictionary once you know that you are now ready to be smart because and nobody ever passes W with key point say summarize it for me use summary to pass Jam Baba you will not do well use summary just big Tempo Dynamic T book you just reduce it to two two Leaf say I now know it chemical engineering students here or anybody you see how big the textbook just what the topic is just thermodynamics one mix two you just read it I put it in two lines say I know it does not work that way now be no no no no no it doesn't work that way doesn't work that so faith is the substance of things hoped for that Faith follows up from chapter 10 because he had mentioned Faith the just shall leave by faith the J shall live by faith 10:38 the J shall live by faith so again he Trust the book of Hebrews should be read together so I did that in our very first teaching so let's move on because of time now he says for by it the ERS obtained a good report which Elders the word Elders is used to explain the prophets the Patriarchs they were Representatives they were spokes men spokes person for by it for by what's that it that faith that is the evidence of Things Not Seen remember that the faith there so remove the short form the condensed way of saying the faithfulness of God is what is summed up with just saying Faith the faith just like you say your the Christian faith there's a lot you are saying when you say the Christian faith so the faith the faithfulness of God was expressed as the evidence evidence faithfulness of God was expressed as the evidence the proof of Things Not Seen and by it the elders so the elders were Witnesses of what a supernatural world so the Bible in your hand the prophets the Patriarchs were writing about the supernatural word it says they were they obtained a good witness like we said they we first read this text in this series obtain a good witness obtain a good report is not obtain report card it's a report so you think to Primary School where they give report card he say I obtained my report card ah no no no no no so use the word obtained you you stretch your hand out and we said use that hand to give yourself a slap as you stretch it out when you say obtain return it back because what he say is good report so it doesn't make sense reading like that AB so obtained a good report the word obtain a good report is to Bear witness so they were reporting the the word obtain a good report is one word in the Greek Mato is used to Bear witness so the prophet were spokes pressing of the Unseen word they were spokes pressing of the Unseen activities

and being the bore witness of the Unseen word so their words and their writings must be read in the light of a supernatural world view are we good verse three true Faith what faith it believes that you're going to be reading verse one into every expression of faith if not you're going to be reading bind and lose I wish you got that true Faith through the evidence of Supernatural events I wish you God that through the faithfulness when you say true Faith through the faithfulness of God expressed as the evidence of Supernatural events we understand that the walls were framed are you seeing it the walls there the aeons the cycles of time the periods of time the different periods of time from the beginning of the word was framed by the word of God they say what word of God is that so that the things which are seen so that so the periods of time were framed in such a manner so are there periods of time in the Bible we are from the first men so that the words framed by the word of God so that the things which are seen is that clear so that the things which are seen were not made of the things which do so the generations the events the cycle of time were frame were knit together K and it were knit together can be put together the things which are seen were not made of the things which do appear so the seen word is used to explain the Unseen word is that clear the seen word is made used to explain the Unseen word but what were the elders the prophets spokesmen of the Unseen World so the words and their are writing speaks of a supernatural world and if you do not know that you're going to be reading it as if it's just oh it's just English oh doesn't make any sense so and um it's a modern word but the gods remain the same it's just a modernization is not more than you see the same thing it's just having a newer Outlook and a newer inter reputation but it's still the same thing U somebody said and um I I think I saw this some months back somebody said uh bar is represented as a bull what is the front of the New York Stock Exchange bu I please I didn't say it's correct don't quote me I'm quoting somebody I'm quoting somebody and he said though uh that's why people talk about the bull rush bear bull all of those words I used to explain I okay that's what I just I always don't say rubbish when I hear things trying to explain super okay I think we can say the better way but try to get the point what the person is trying to say but you see the Unseen word did not stop because we are modernizing because this is or we in the 21st century into the 22nd Century where we now say oh this is 21st 22nd century is looking like it'll be more driven with AI doesn't mean you'll lose your job come on now come off it doesn't make any sense it's like saying uh cars as replace horses people still use horses but you you have you know what to use horse for you know what to use those things are not not they are not obsolete you now find a different used for it so sorry I didn't know horses are obsolete they don't exist anymore because they are cars no now you you were using it for this so you you just find a way to use it because it's it's people that are programming the artificial intelligence with that level of smart AB all right so very very important amen so the Bible has a seen and an unseen word so that the things which are seen were made of things that does not appear so we have both a and an unseen word in the Bible so there is a spiritual context of what is being said and done so man interplace between two words so go to chapter 12 and verse one

chapter 12 and verse one wherefore seeing we also are compassed about we so great wherefore so by using the word wherefore he expects you're going to continue from chapter 11 AB so chapter 11 ended with God having provided some better things for us that they without us should not be made perfect they without us should not be made perfect who are the day and these all having obtain the good report through faith receive not the promise so he's talking about an audience AB these are the Old Testament folks the Patriarchs he mentioned from verse 4 is that not so Abel down and he says all these men did not they obtained a good report through faith but they not receive that promise what promise is he talking about the promise of eternal life AB they had not received the promise of eternal life they believed in God just like we believe in God but they did not receive the promise of eternal life because the promise of eternal life needed a Reconciliation a reconciliatory work of Christ to restore the Earth back to his original founding for man to have what God the original intended man to have though men could believe God but men did not have eternal life because man had lost that had fallen away from that amen and so he now says God having provided some better things for us that they without us not be made perfect so that means they will be perfected the same way we are perfected so in one work which has already explained in chapter 10 so he not expecting you to be confused because he used the word perfect in chapter 10 they would so he had perfected them forever 10 10 10 14 of Hebrews he had used the word perfect that by what Jesus has done that is now seated he has perfected us we are now Sanctified we have been perfected so we who are perfected that's the same with the Old Testament folks so it was not their wonderful living they needed Jesus's so Joseph saying no to didn't perfect him until the work of Jesus so the perfected language is a Hebrew language you to explain complete it is now as it was meant to be wherefore seeing we also wherefore seeing we also so the we also is that the audience that the writer of Hebrew is writing to we also because they are taking them back to their Jewish fathers because the book of Hebrews is written to a Hebrew audience so Jewish fathers they are Hebrew forefathers is chapter 11 now says wherefore see we also so the we also has to be the those are life in the time is writing we also are Compass which in this context we also explain you and I because what was written to them is written for us I be we're not the direct audience but what was written to that direct audience was written for us it was not written to us but it was written for us wherefor sin we also are compassed the writer uses the word compassed which is the word surrounded he uses a stadium because there had been Olympics had just begun in that era and the context of being surrounded like in a stadium or Stadium you're surrounded people are watching people are cheering you on so he uses that same idea wherefor see we also are compassed we compassed about with so great a cloud of witnesses now the first thing on our mind which is very dangerous is just to run to chapter 11 so we are surrounded by the cloud of witnesses in chapter 11 so we are surrounded and most people read that like almost cses were surrounded with dead people some okay no not dead people okay surrounded with the sense of old okay okay not correct of course it's very wrong to have that idea alone

wherefore see we also are compassed about with so great a cloud of witnesses we are
Compass surrounded by a great cloud of witnesses let us lay aside every weight and and
the sin which does so easily beset us that's not your weakness say I have a weakness this
my weakness is that beset me not that beset no no no the Bible is more intelligent than that
there's an audience and from chapter 2 chapter 3 he made clear what is the sin that also
easily beset them was unbelief they were always running back Hardness of Heart unbelief
he had emphasized it so let us lay aside every weight and every and the the sin because
he had talked about that sin already a lot the which does so easily beset us and let us run
with patience the rise that is set before so you see the stadium idea the raise because
you're surrounded the raise that is said before so we have people cheering us and that's
why we have the idea that oh is those that have gone ahead they are cheering us they are
saying woo because they in a planet called Heaven remember again that wrong idea so as
you reading surrounded cloud of wit in one planet fire with cherry no and say go go Bennett
go go go go go you make it you make it Go Go Go De go we are healing you we are
cheering you off elishah move move move move move move they're cheering us wonderful
as that may be but that's not what he's talking about Hallelujah that's not what he's talking
about alone because surrounded by so great a cloud of witnesses should you have 11 in
mind yeah why does it not now bother to go a bit deeper concerning what he meant by
cloud he uses a cloud because he feels we already know what cloud means so he doesn't
explain cloud in that verse because cloud is a popular word used to explain something from
Genesis to Malachi and cloud is used a lot to explain the supernatural World Jesus with a
cloud Jesus with a cloud is littered in Matthew to Revelation you see the different
expressions of a cloud Hallelujah so in order to let's go let's see what cloud means so you
get it don't take my word for it looking onto Jesus the Au finisher of our faith so the faith
that look forward to the coming of Christ and the faith now that he has done the work Faith
the author and finisher the beginner and the one who completes it Jesus the author the
finisher of it was the author When Faith was looking forward to the work of Christ is the
finisher now that the resurrection of Christ is behind us the author and the finisher of our
faith so the the use of the word cloud go to Genesis the book of Beginnings Genesis
chapter 9 the very first use of the word cloud very first use of the word cloud come about
are you here this morning Genesis 9:13 I do set my bow in the cloud I do set my bow I do
set my bow I do set my bow and which is where we get rainbow from Ab I do set my bow
now if you have a supernatural world view I do set my bow in the cloud and it shall be for a
token see now is using words the word token is the word sign just like sun moon and star
are a sign so also rainbow that's why it's used a lot in Revelation when explaining
supernatural beings the whole Throne set up he uses rainbow because it means something
is not Roy beef re re orange yellow green blue violet it's not that one AB be all right and it
shall come to pass when I bring a cloud over the Earth that the bow shall be seen in the
cloud and I will remember my Covenant which is between me and you and every living
creature of all the Flesh and the water shall no more become a cloud to destroy all flesh

are you seeing that 16 and the bow shall be in the cloud and I will look upon it that I may remember the Everlasting Covenant so God has to look to the cloud physical Cloud to remember that's quite stupid that God will be looking say I'm seeing physical Cloud I'm seeing physical Cloud oh yeah beautiful it doesn't make any sense that God is looking at physical cloud if it is above the heavens how does he look at the cloud from up or from down so it says from up so you look down and you see the cloud okay if he on the earth you will look up you see the cloud okay nah so he uses the word cloud verse 13 I set my bow in the cloud remember the writers they will use natural things to explain Supernatural things now the rainbow the bow because the lord of the heavens Thunders and because there's thundering and lightning then you now see what we call a rainbow normally follows that old thunder and lightning effect and which is used to explain the act of power of a monarch so just like Zeus has a thunderboat so the audience thinks from a supernatural world view so the prophets when they are writing Their audience understand what they are saying when they say I set my bow in the cloud it has meaning now don't take my word for we're going to read a lot of referen of the word cloud so you see how they use it a lot the word cloud cloud Hallelujah don't take my word oh so let's let's let's study first we'll come back to Genesis 9 but say I don't get what Pastor is trying to do there it's not fair all right exod 13 it's not fair let's make it fair remember we said cloud is a natureal terminology but do ask if you don't know that ask if you don't know that Exodus 13 and the Lord went before them by day the Lord went before them by day in a pillar of cloud wow the Lord is in a pillar of cloud the Lord Lord is in a pillar of cloud and your mind is seeing physical body of water the Lord is moving with a physical body of water lord is moving with the physical body of water the Lord went before them by day in a pillar of cloud now we saw who that Lord is in our teaching on who is like unto the Lord AB right so that we can put Jesus there went before them by in a pillar of a cloud to lead them the way by night and in a pillar of fire to give them light to go by day and night he took not away the pillar of cloud by day nor the pillar of Fire by night from before the people Exodus 14 and verse 19 you see Bible study is wonderful it's beautiful it's a beautiful thing when you are studying you see that you are not manipulating the meaning the word cloud Exodus 14:19 and the angel of God which went before the camp of Israel removed and went behind them and the pillar of cloud now mind you this is so we have the first reference Genesis 9 the second reference of cloud is Exodus 13 the third reference is Exodus 14 I'm not talking about the verses talking about the chapter the third so the first was Genesis 9:13 to6 the second was Exodus 13 21 and 22 the third is Exodus 14 and none so far have talked about Cloud as physical everything has been said in the Unseen World so no none of their audience would have been thinking to physical Cloud because they know the Genesis one Waters above by using Waters which is where you not um uh quite um where they use the whole Marine concept from to explain P because a body of water is a power so Waters in the heaven Waters gathered together the Gathering of water together oh can be a cloud so because cloud is used to exp a gathering together of Supernatural Waters Supernatural assembly that's that's the

setup that's the setup that's the setup they actually have in because there's water above the firmament because they had already used that idea and water as is used to explain the world in his ancient setup primordia set up all right so the word cloud let's go on let's go on let's go on Exodus 14 and verse 19 and the angel of God which went before the camp of Israel removed and went behind them and the pillar of cloud went from before their face and stood behind them verse 20 and it came between the camp of the Egyptians and the camp of Israel and it was a cloud and darkness to them and it gave light by night to this so that the one came not near the other all the night so the pillar of fire and of cloud and troubled the host of the Egyptians verse 24 so you see the use of the word cloud Exodus 16 is this the fourth reference Exodus 16:10 we still don't have physical cloud and it came to pass as Aaron spake unto the whole Congregation of the children of Israel that they look towards the Wilderness and behold the glory of the Lord appeared in the cloud now Glory of is appearing in the cloud is that physical cloud in the sky God forbid B cannot be that that's not what he's talking about the glory of Lord appearing in the cloud so it's cloud is referring is used as a sign of a supernatural world so there's something Supernatural that has been spoken of there what Supernatural thing the context will not help you see the context will now help you see what particular supernatural so but these are markers of the supernatural word just like tree is a marker of the supernatural word uh in the certain context not every use of the word tree just like not every of the word cloud is Supernatural but so far you notice that all the ones we have been reading so far are all Supernatural Exodus 16:10 and it came to pass as Aaron spake unto the whole Congregation of the children of Israel that they look towards Wilderness and behold the glory of the Lord appeared in the cloud so the glory of the Lord was seen because that has become a supernatural place the glory of the Lord was seen because the Lord was with his host that's the use of the word Cloud so under a short form of saying Cloud the Lord with his host a mass of water a mass of Supernatural being an assembly or Supernatural assembly that's the word cloud or Supernatural assembly get it Exodus 19:9 the Lord said unto Moses Let I come unto thee in a thick cloud the Lord again is still using Cloud language I come unto thee in a thick Cloud Exodus 19:9 Exodus 24:15 and Moses went up into the mount and a cloud covered the mount verse 16 and the glory of the Lord Abode upon Mount Sinai and the cloud covered it Mount Sinai that Mount of assembly in their Wilderness journey and the cloud covered it because if you do not see that Supernatural world view you will now be shocked when you go reading Hebrews 12 you now see it talks about we have come mention sign you're not following the context because the audience gets the context that's why I can just bring that in what led to that kind of narrative something is saying so give you an example of profane Esau because that one is is part of the uh sin that does so easily beset is profane it doesn't believe doesn't care about the Beth doesn't care about the promise of life so it gives you those example then goes on to what he was saying so the glory of the Lord Abode upon Mount and the cloud covered it so Moses and the sight of the glory of the Lord was like a devouring fire on the top of the mount in the eyes of the train of Israel verse 18 and Moses went up into the midst

of the cloud and ascended up into the mount and Moses was in the mount 40 days and 40 nights Exodus 33 9 10 11 the same use of the word cloud now I want us to read the next one Exodus 34 and verse 5 because this is why the New Testament writers continue with that same Monica that same using that same nickname of cloud to explain supernatural being because we go to New Testament books now you see that is the same context of cloud and the Lord descended in the cloud verse five the Lord is descending inside physical water the Lord is the REM Marine as see that's not what he's talking about there's nothing inside physical water you're just being dull is that the ancient world use water to speak of the way water is there's a power there's a physical power to the water because water has current but they are using to explain a supernatural world view only water fishes now you see a lady say or M is which one which is I forgotten this is that one black guest is black guir gu which one you know this thing you are fair which one is a okay is one they call okay D come back okay okay then come back to family okay ah wow which one is not the water owner okay M that's his name they call it which are fair guest that seduce pastors the pastor has lost Fair guess Fair guest that's why Fair guest one say bring her for deliverance ah you the deliver your weakness have got a hold of you every man is when he's drawn away of his own loss the only spirit in the Bible is Doctrine it's amazing how Deliverance ministers are cashing out on people's say they say a seducing spirit in her young girl seducing spirit in her say Pastor you mean that there's no seducing Spirit out there in the world there is for you because you believe in it that's why it's working on you in the Bible seding Spirit has always been doctrines say are you saying somebody cannot seduce persons AB people seduce people but that's not seducing Spirit sing spirit is the word SED using is deceiving because the end point of that that seduction is to deceive that's how John puts it all the reference of seducing spirit in the in the New Testament books explain you see Doctrine along it you see you don't see Fair ladies the problem is where you want to make the scripture profitable onto demonology so every time you read the Bible you want to see is demons all around you so every time you open eye is devil so every text is now read with a bias of devils which is wrong so the Lord descended in a cloud and stood with them and proclaimed the name of the Lord so the Lord is that the visible Yahweh now see the use of the word cloud New Testament books Matthew 17 and while he yet spake Behold a bright Cloud overshadowed them now this is the m of transfiguration and behold a voice came out of the cloud a voice so there are voices coming out of a cloud you are still looking for water it cannot be water a voice from a cloud we said this is my beloved Son God is speaking out of a cloud this is my beloved Son in whom I am yeah are you seeing Cloud first use of the word cloud New Testament books first use of the word cloud Matthew 17 they saided the same thing again giving you a supernatural world view can the Lord because you have the Lord Jesus disappear to a planet because your own Heaven is plan Planet Matthew 24 so this is the one that is used a lot for Jesus disappear to a planet so we see the Lord is here Jesus how can Jesus be with you and be in a planet far away your Doctrine is not consistent because say ased up

when you you he jump up it's a challenge it's not the Bible that oh God see is say I I say what you what you hear you ascend you not I I levitate Ascend you jump up because that's how it is in the movie sorry but when you use the word Ascend it is word used to quantify variations of Glory So when you say Ascend that means you are going to a higher state that's what you should be seeing a higher and what state Jesus said I will no longer be with you physically the way I was with you physically I will now be with you in the Unseen because I will come to you with the comforter I'm not really leaving you I mean the disciples got that clearly I'm not really leaving you because I will still be with you but you have him not with us because yeah I vanish away into a different planet no he's here so he say no he's not but Matthew say he went up into heaven the next verse after that said the Lord walking with them I thought you say it went into heaven so that heaven is not not Planet the Lord went up sorry oh Matthew 16 no uh Mark 16 you will get it and once you begin to appreciate the Bible like this and it does something to you are you there Mark 16 so after the Lord has spoken 19 unto them he was received up into he was received up so you see the again Heaven as a planet see the foolishness where it starts why the Rapture theology is always going to be wrong as long as you have that in your mind you keep concerting that does not follow because you have dis you have distance once there a between you and God you are not born again any distance between you and Jesus Christ means you are going to hear but it's sweet to teach there's a distance there can't be a distance because you are in an Inseparable Union you are joined together but is not say that's just spiritually speaking Sha but it's not with me sha what is all this Sha Sha Sha inside the doctrine see that is with you or is not with you say with me sh but really I'm I'm Just sh behind precious we place sh but really where I am inity sh no you no I just SE sh what all the sh ins your doct the next verse so follow as somebody that has not been deceived with Planet Heaven he was received up into heaven and sat on the right hand of God right hand of God also to Joo and the right hand of God so he in a place of Reign and Rule verse 20 is in the Majesty it's in the place of all authority and power the same thing as Matthew 28 when he say all authority in is giving me is in the right hand and they went forth and they went forth and preach everywhere next statement one to go next statement was he received up into heaven so where is the Lord received up into heaven Cal down you will get it now let's bring that received the Lord that has been received up into heaven into verse 20 and went forth and preached everywhere and the Lord that has been received up into heaven was walking with them so where are the men on the Earth where is heaven like with that kind of explanation it's obviously tell you that heaven is here so which Heaven the Unseen World is where you are there's no distance there's no distance you say I want to enter the Unseen World now I want to there's no distance is here is here so Earth the visible word here Heaven the Unseen word here and I give you the other seven uh context of the word heaven in the Bible so we explored all the eight appli of the word heaven in the Bible don't be having distance but that distance is a distance in the brain too in understanding that's what I mean a distance because every time you do heaven as a distance the brain shifts to

so and your understanding recedes it may look like I'm just being tough I'm just using strong words but I mean it that's why all those confusion you can't take what you are reading because no no cuz heaven for you must be a distant planet where dead body day sorry where people that and he yet spake Behold a bright Cloud overshadowed them and behold a voice out of the cloud so Matthew 24:30 and then shall appear the sign of the son of man in heaven not planet sign of the son of man in the Unseen and then shall all the tribes of the earth mourn and they shall see the son of man coming in the Clouds Of Heaven with power and great Glory does that with Old Testament use of the word cloud so coming in the cloud is it descending with a cloud Ascend descend so Ascend a higher realm descend a lower realm not Planet not jump up hey God not jump up so why do they now use the picture of levitating the movie in the movie oh acts let's go to Acts chapter one see Jesus ascended he didn't say jump up oh God this going up into heaven is is a matter acts one so you say say don't tell me that nobody can tell me nobody can Jesus was Jesus he jump [Music] up verse n and when he had spoken these things why they be why they beheld he was taken up you see why that up has to be jump up in your mind Cloud because you have Cloud the wrong meaning of cloud but if you have an Old Testament use of the word Cloud you not think of a jump up if not for the Bible F many times the Bible f is beginning of misunderstand that's why you don't dramatize the gospel say I can learn with drama know they use drama they learn Doctrine drama is entertainment leave it like that say are you saying we cannot dramatize it no we can't how do you dramati on high you have to put confusion they come again how do you dramati you know I can go on and there are so many you can how you dramatized forgiveness of sin it will not be a statement for you your sins are forgiven person they die you say sin are forgiven descend how do you dramatize descended down into hell you now put picture of somebody climbing ladder what exactly everything you are doing there is now wrong Doctrine everything you have dramatized now is a wrong parallel as why is not drama the foolishness of preaching is what God chose to save say I don't like all these churches they will be trying to tell us that you but I got born again inside a drama no you did not you are a liar you did not get born inside Dr it was when the preacher came up after the drama and said words he had to say something eternal life is not impacted through theater the same way AI cannot get people sa say AI can he say AI is coming now so we can have an AI Pastor can AI speak in tongues is AI born again can he can can he meet the needs of people can he empathize pay attention oh he cannot do the things of the spirit AI cannot it's stupid to believe that you can your pastor can be an AI say you can use an a is actually very dumb that you say as we are we don't need pastors again no because you think preaching is just arranging Bible verse Oh was a spirit have to be born again who is saying it matters it's not not it's not s k or BK just put his put this verse and use it to join this verse when this verse kiss this verse you have the message how many time that the Bible okay shake shake shake shake shake shake you don't get the doctrine no cut and nail approach is what has led people down into ignorance AB so acts one he said after he have spoken these things while they beheld he

was taken up he was taken up and a cloud received him out of their sight is that physical sight out of their sight is that their physical sight yeah so he was received out their physical side so where did he enter the Unseen not that he levitated up hi are you following there's nothing God there's nothing up people have been toying up that's why they everybody's for we up because we have put God up so much that bion now their new their new fantasy their new hobby is to be SW is to be flying all over the air trying to see that there's something there nothing there up there the only place that have life is it there no Discovery scientists have discovered Baba you the waste time all the discovery are all foolish the only place human beings live is on the Earth the only place you will find alien from another we have found that you you're just not okay is all if happily we may feel after man believes that there's something else out there that all those you are calling UFO has to be supernatural being the only aliens out there different from man out there is Supernatural being be say we will find you know science is just knowledge and knowledge as you get older you keep discovering more and more so there's no end to scientific discoveries thank you so science is too young to be speaking down on faith faith is older than fact fact is a boy a smly before Faith so when you are trying to use fact to cancel our faith they do now the one that is stronger is the one that will still be standing faith is it's even faith that made the whole world and if you don't believe that it takes Faith to also believe the idiotic big bang you have to really have faith because you don't have that much faith for big Bank creating a house for you you just enter the land and boom there was a house I don't know how the Architects how the civil engineers how the builders will feel where you say boom a big bang tell the man that wrote the book that it was Big Bang that produced his book may you say the book I me a professor I've been sweating to write this book you say just Bo it just came to be the book just came to be no now it doesn't work that way you get it learning making progress so Jesus was received up into a cloud a cloud received him out of their sight is that the same thing with Mark 16 the same thing with marthew 28 when he say now we are taking you getting it now Matthew 28 let's see if it's up a jump that jumping up is not Bible and Jesus came and spake unto them all power is to me in heaven and earth go ye therefore and them to observe what have command with you always made put heaven I'm with you always so he just I'm with you always so you can't have so that's Matthew account I'm with you always he's in heaven but I'm with you always so he didn't put distance Mark the same thing let's try Luke maybe Luke will give us a content of where he went to to a planet verse 49 and behold I send the promise of my father upon you but T in the city of Jerusalem until you be endured with power from on high and he led them as far as to bethney and lifted up his hands and blessed them and it came to pass while he blessed them he was parted from them and carried up into heaven you see no jumping up where did you not get jumping up from you see what truth does to the brain you are free we break the Yoke no jumping up so Jesus woo a jump you are quiet this people ignorant let's try this people a jump that's what you so why are you jumping why are you raising head up you God all our prayer need to pass the roof because if if roof is your problem pray outside now say I mean

the ignorance problem is much you say you say our prayer need to pass the roof because the way you pray now go God can hear our prayer our prayer cannot pass the roof pray for outside no roof outside so that he will go straight up is he looking silly he jump up so s you mean there's no Bible reference Heaven as a as a planet zero zero zero why is it now such a popular no now get money popular is this we are teaching is is not new I can I can mention people who were teaching this 1533 I can mention people who were teaching this yeah now majority of our doctrinal person uation is shaped from three three to five places I'll mention the three I'll not mention the other two one from Augustin of Hippo St Augustine much of the theology that the church have is filtered around what Augustine taught about every biblical subject that's that is so when you type on Google a question is one of these threeory places that they will give you answer from three to five places that the answer comes from you and I know at we have people here that are doing H search eding optimization you it's not always the first that shows up that is correct now who get money now show face thank you so we have St Augustine majority of the teachings majority of the teachings still to original scene all of those I mean majority of the teachings having only had d as the responsible as the only person responsible for why the Earth is the way it is majority of the teachers and I told you in one of the classes the man did not speak Hebrew he didn't like Greek he was Latin is he loved Latin and the scriptures is not written with Latin if you already have a bias against the two original language of the scripture Baba your explanation go get comma and before you say ah he doesn't know anything Baba is far intelligent than me if you don't want to say it because you are gentle you are humble me is I speak with utmost humility I wish I grow up and become like them I mean when you look at some of the things that they were able to do at their age how much they have read the Bible they inside with the limited material they had you see always speaking down on people who are older because you know something that is correct it's actually immaturity because as you mature you realize that with what they knew then and the resources that they had I mean much of the languages now the ancient history of the Bible that we have today in modern discoveries they didn't have that that they could read the Bible without Viewpoint so they were stuck with all that they were stuck with so give them the benefit you may not clap your hand for everything that they thought but please don't just don't throw away the baby and the bath water they did have a role to play we do love but the issue we not have is where you not try to downplay what we are saying because you believe truth is quoting the church fathers no truth is according to Revelation that's what what God called us to do this teach truth as it was revealed so we teach exactly red I know teach anything to church fathers not call me to defend Church fathers called me to teach the Bible I'm a Bible teacher so are you with me so then we have uh the Catholic doctrinal perspective persuasion which is loud so the same then we have the Protestant Reformation which began to affect Protestant Reformation you put the Pentecostal charismatic inside death starting from Martin Luther so is those three major views that you have for doctrinal questions you see that oh much of the answer and they are the populars that's why that

mainstream idea you have that mainstream you know mean of mainstream now the most popular so it looks like oh all these things that some of these people are preaching now is new something it's not new because some person who are teaching the truth of the word of God are very excited you won't blame them they coming from ignorance we didn't follow them their light so maybe that's why we're not as excited as they are they jumping shouting and appearing very controversial good and fine does have his use God can always use people in spite and despite of them I be but there are better approaches to handling God's word the preacher of the Gospel must not be a brawler AB all right so very very important but God uses Us in spite and despite so that's why method is Grace so that you will know that the Excellency is not of you AB the praise does not go to you God will use anybody say who are you to say God can use that person that's the reason why God will use him once you say God will use somebody that's the very reason why God to the person any person who has been Forsaken and everybody have rejected God always rallies to them when you everybody hate a man just know that will finally win you will not believe but you think it's a joke but because that is an unfair how can everybody just be against one person now it means we have Supernatural backup to equalize it it's not fair there's a justice system it may be it may look slow but he just collecting data Matthew 26:64 so the same idea coming in the Clouds Of Heaven Clouds Of Heaven so the cloud of Heaven idea is used a lot look at First Corinthians 10 you now get it now moreover beden I would not have I would not that you should be ignorant how that all our fathers were under the cloud and all passed through the sea and were all baptized into Moses in the cloud and in the sea you see I is using cloud and did all eat the same spiritual meat and did all drink the same spiritual drink for they drank of that spiritual rock that followed them and that rock was so is it tell you that Jesus was there remember there was a Cloud that descended in a cloud descend in a cloud descend in a cloud descend in a cloud so it was there so Hebrews 12 okay first Thessalonian 4:17 and we which are alive and remain shall be caught up again cut up is jump up I don't know where that is happening we which are alive and remain shall jump up and wear cloth because we naked first before we wear glorified body how those very dumb position that is not in the Bible but popular which are life and remain shall jump up together with them in to meet the Lord in the air and that air again you have air you don't have Prince of the power of the air the air will breath but you have air all of a you determine where you are crafty with the Bible Prince of the power of the air you don't inhale but this one air you have jump up because you like to jump up because Superman is your role model that thing about being up and just floating that's the same way the ancient use the word air because a when you say a Supremacy that's what they want you to see but what you want to see is jumping go and register for high jump no to meet the Lord in the air and so shall we be ever with him in the air because what is calling air now he's using air to explain that paradise idea the whole earth becoming he then will be with him forever this is something he's trying to explain Hebrews 12 so where now says wherefore seeing we also are compassed with so great a cloud of weakness are you see how he uses it so who are

the cloud of witnesses supernatural beings now see what we have done now now your mind will tell to supernatural beings and when you hear supernatural beings all you want to think of is Angel but no supernatural beings I there not two supernatural beings now there's a family in Heaven and Earth sir Genesis 15 tell the Stars say give me three hours I they count one two three tell the Stars Abraham started counting say God give me four hours I will count no so we said tell the Stars your seed shall be as the stars of Heaven what is Stars C be what a a nature terminology for supernatural being so your seed shall be Supernatural so Abraham your descendant your seed those that believe in the promise those that are faithful like you that believe in the same promise like you shall be a supernatural host that's why the same words used for angels are used for believers learning something all the words used for nature terminology for supernatural being are used for you and I as New Creation the same words because we are explained as a supernatural people you are a spiritual man he that is born of the spirit is the natural man cannot receive the things of the spirit because they are spiritually discerned but are you that spiritual man in 1ans 2 yeah so the believer the church Galatians 3 explain the same thing with Genesis 15 Genesis 22 Genesis 26 that talks about the seed shall be as the stars of Heaven innumerable just like it's an innumerable host that's how the church will be an innumerable host but is Supernatural learning [Music] is there now a parallel this cloud of witness something cannot be new that people are dead does that mean they not here they are still here they just not with a physical body Say Yeah remember biblical cosmology Heaven Earth and under the Earth is in one place beautiful so those that are there they are here they are here but they can't interact anymore because they are without physical body they are not demons they not roaming Spirits are they bastard Spirits they are not those unclean evil spirit no they are disembodied but not in the same context they are now in a place which if is unsaved hell the place of the Dead Fall unsaved now because of the interpretation of Jesus what he has done to the heavens all those who believe are with him all those who believe are present with him because you can never be separated from him death cannot separate a Believer nothing can separate you I mean Paul shouted neither life nor death nor nothing can separate us who they be where they day they not reach wor translation AB nothing can separate you from the love of God nothing in an Inseparable Union with God I will come onto them and have our and we be together forever he that is join to the Lord is one Spirit when the head is without the body not die you die if you are without the Lord then the Lord is dead you thought I would have said we are then no he is and we are all right how can the head be without the body that's why the concept of losing salvation first a is grammatically wrong secondly theologically stupid you lost salvation get your grammar right you don't they save things so that there is not lost you not lost what was saved NOA but it's it's it's grammatically stupid theologically stupid that you are losing salvation is it key is it ATM card where is Jesus say everywh are you say sh that's why that's why there's always that sh that sh you not ConEd thaty of making it one day we make it make it to heaven so where are you right now so I'm not really there but we are

there H so one day we make it that hle that jackar spirit is still in our theology one day talk for yourself we are there Deuteronomy chapter 4 Hallelujah I'm tough on your ignorance allow it say I don't like what this scure is doing to me not be you ignorance blow give and blow for that ignorance that thing that tries to make you not understand the truth land it attacking it with this sword of truth so if you are having scars now not the thing bad with they cut off allow it allow God cut it off Deuteronomy 4:26 I call Heaven and Earth to witness so Heaven and Earth can be a witness witness remember cloud of witness so is there two beings in a cloud now before there was only one being in a cloud but God has said that the seed shall be and because the original foundings of the Earth was to have man on high man far above is that not so all right Deuteronomy 4:26 I call Heaven and Earth to witness against you this day that ye shall soon utterly I call Heaven and Earth I call Heaven and Earth come on walk with me is in your own I call Heaven and Earth I call Heaven and Earth look atomy 30y 30 and verse 19 I call him Heaven and Earth to record this day against you again if you have Heaven as a planet I call a planet far away and a planet here I know now Witnesses let English help you Witnesses so it has to be talking about being cannot be Cloud that is witnessing I have something to say cloud say I have something to say I know now so beings in heaven so Moses knew that there were beings in heaven and the the Earth was his audience he was referring to to Bear witness so the writer of Hebrews say we have a cloud of witnesses cloud of witnesses a cloud of witnesses made up of spirits and Saint Spirit you see I'm using the same word cloud of witness is made up of scent human scent and spirit scent cloud of witnesses a cloud of witnesses a cloud of witnesses for the humankind the spirit kind is quite easy to get the humankind Witnesses made up of two living and dead but why do we have only Dead We like cses your Stadium full of cses they call the chair no God is not the god of the dead but the living the dead don't die because they only change address they only change activity for a moment and that moment may be 500 years that moment may be 200 years but there was a day where we put on our glorified body H so the Lord with a cloud a cloud is used to explain a supernatural being or host or Divine assembly or Supernatural assembly clear clear so is it clear that you function in two words is it clear that you are Supernatural yes sir you are Supernatural yes sir you are Supernatural you function in two words so have you ever been in that place where somebody says uh uh in the natural mean growing up you see that thing you say h draw this line cross not cross you cross I'll beat you person will cross the line you draw another one again have you I think you understand that follow that example a bit then all of his s you now see somebody run to a place as if you know when two fighting so now run to a place now if you get mine come this place H why are you po you have kind of sometimes the person fear then you maybe you not pull sh when you don't have power you have learned mommy tactics and daddy tactics they taught you at hope that rake so so you know where I be say you know who I been not get anything pull clo start doing all of those things so you enter into a place and say if you get man join person stop that's the same way it is when you hear somebody say we will see it would

have been more of a threat if you do like we will see if physic if you head gone but the fact you say we will see and you say it's in the night ah you don't die now me go kill you because you are going to my own world that day with they function when things too hard will carry I say follow me come that cloud follow me follow me now follow me if you feel fly follow me you need to start thinking of the Unseen World like that you function from there you have authority in the Unseen World your Mar line you get man cross when theing his head down because there Sacred Space you are in God's Temple that's where you function your man in two words amen amen what that's why Psalm 8 what is man you get time for mind what is man mindful of him or the son of man th visited him for that has crowned him with Glory and Honor what is man Jesus became one of us that's will show you how Supernatural man is that's will show you how Supernatural he is so Jesus becoming like us shows us where the authority is where the authority they now on The Human Side we because human why say I'm human you just touch flesh because you feel like being human is your limitation being human is the reason why you have authority in the Unseen word your being human is not your limitation your Being Human put you on high supernatural beings cannot function on the earth without man that tell you say who get the I mean who be the main the man I mean supernatural beings Spirits cannot function on the earth without going through the gateway called man man is the gateway to access the Earth real you cannot access the Earth real without man but man does not need angels to to to assess the Unseen World because we made for the Unseen we function in two words we are in a height of height Hallelujah they learn something the next time somebody say we see see I mean let that thing bust your head hey I love you sir I thought you was police were going to call ah oh you have helped me you have helped me you have helped me because you are knowing where your Authority is I thought it was me was going to call say we see we see you see you don't know my go red cloth oh God so he needs cloth he need red cloth he need foul he need mirrors to function you Church Church of the Lord God sense see the word he uses for if you understand the imagery a Heavenly one the church is called the same kosim language is used for the church a Holy One untouch a higher than in a word untouch that's why I say touch not and nothing shall by any means hurt you what beli say things they hurt because ignorance have something in common with Darkness the two are dark the man that is ignorant is dark in his knowledge and he can't function that's why the most operative word is No in fact knowledge is even used to as a synonym for spiritual growth as a synonym for our now making progress in God God wants all men to be saved and come to knowledge God wants all men to be saved and pray no come to be saved and the knowledge because knowledge explains now our whole spiritual journey without knowledge we are nothing without knowledge we have no functioning right we function below there's this excitement I'm telling you this when I he if when I hear somebody say you know who I be once I start hearing those kind of talk that looks like the person trying to threaten this is the DB they say you have refused to to H cooperate that's why they brought you here I just want to tell you something are you sure you really want to

another another time one of us in M we working I called the person's name by word of knowledge I mean the person was scared to his bones now you get evil plan we they tell you your name no run far above all principality for thou oh Lord are far above all the gods no comparison and God puts the man he has made in that height a height a height of height was seated far above you function from that word h where were many years ago for a meeting and there's a lady that they brought to me Pastor was with me and they said the lady she used to Prophet she she used to all this activation she used to do it too she just talk to you she this prophesy put the lady to me I saw somebody with a familiar spirit I shook I always like to shake hands with bad people the the less is blessed of the great I just shook her hand and I said to her and the people around I said she will not be able to see and prophesy ever again you see the word ever again that was the end say she used to not brought her they use her to merge us that is the same thing say I can't really see anything but I see you are men of God you blind we preach here now how can we be men of God on our s they see that one we don't be We Are Men of God not see anything when I followed up that story till that the last time I checked she could still not see she still could not hear she still could not see anything try it she will go to the other world sees that ability because I have to run cash is nothing in the realm of the spirit a stupid manifestation and deceiving people with it you can end things that are wrong say there's that lady she put something in her mouth s there's this everything I dream used to come to pass better get born again everything you used to dream everything all the things you dream are evil things Baba start dreaming good things now I you work for the Satan everything I dream everything I just close my ey like this I just dream I us to see myself we don't need to close our eyes to see where we are seated no no no no no no we know where we sit we know the height we function from Hallelujah Lord amen we surrounded by a cloud of weakness Hallelujah say I get backing back not the song go but that's the idea you actually have backing amen Hebrews chapter 12 so you are you surrounded the angel of the Lord encamp round about them that fear Him the mountains as the mountains surround Jerusalem so the Lord surround I mean that's a a Biblical theology that we are surrounded with the Lord and his host Hebrews 12 but you have come unto Mount Zion verse 22 tell your neighbor you have come unto the mount the the city of the Living God notice what he calls it the Heavenly Jerusalem that means this is Jerusalem that has a Heavenly usage that me this is the Jerusalem that the Bible speaks of in a Heavenly manner the Heavenly Jerusalem the Unseen Jerusalem so not the one that they are fighting over now and to an innumerable company of angels that's we are we are with an inable comp that's the camp that's the host that's where we sit to the general assembly General ass assembly is that the cloud and the Church of the first Bor which are written in heaven names are written and to God the judge of all and to the spirit of just men Spirit of just men those before and those now based on what Jesus have done and made perfect and to Jesus the mediator of the New Covenant and to the blood of sprinkling that speak better things than that of ab see that he refus not him that speaketh for they that escape not so you see the context is

shook the heaven the Earth receiving the kingdom that cannot be moved vers 28 so we have come to Mount Zion and it says an innumerable company of angels Hallelujah we are surrounded are surrounded as the mountains surr so the Lord surrounds his people so never forget that you have rights to function what is man of and that that to have dominion over all the works of your hand you have dominion over the heavens and the Earth the man have dominion over the heavens and the Earth just like Yahweh God now has a Dominion that sits with him Master over the heavens and the Earth just like him because this is what he always wanted a man that would sit with him not as the uncreated Creator not that he becomes all of those attributes that is used to Telegraph God no but he's now in functionality placed and made like this which is a work of Grace Grace is always his method Hallelujah made us a little lower than the Angels but yet he crowned us amen far above made us to have dominion over the works of his hands Ephesians 1 Ephesians says all things submit everything is under us everything is under our feet everything is under Authority everything is under Authority because he uses the food sto that the place where Authority is exercised upon we exercise authority over the heavens the Earth and under the Earth we have authority in three words because we are as Jesus he's there as us we are here as him an invincible Oneness totally one Hallelujah the head and the body together what great functioning Hallelujah we have taken our place far above all principalities and pass so the next time somebody triy to threaten you with going spiritual should is because that's your word that's your real you actually have right those are illegal because they are going through the route of falling beings those are illegal people you are the legal custodian of that real you are you have have the right to function in both words you have the right to function in both words you have jurisdiction there Hallelujah you have authority you have authority and this what it don't teach you [Music] in class that Authority used to grow that author increases and the increasing is in your wielding say we have authority we all have authority but we don't use it the same way there's an increase in that Authority there's an increase in that Authority there's an increase in that Authority you learn as we begin to see our place every man of God who has ever seen his place in the heavens and the Earth great Powers he wielded that's why everybody is looking for man of our Bishop I don't know why that the the church best days are not behind the church best days are ahead of us because we have the advantage of knowing what they know and adding to what we know today we not disadvantage we're not inferior to them no Hallelujah I mean when you hear the stories of our Bishop you look like overed stories look like he was controlling those are true stories I wish you be out had the privilege to sit under him as a child I mean one of the very first starings I have for the things of the spirit what's that still remember little children like this can heal the see devil rais the dead and do the things of the spirit see God's word then is powerful tell your neighbor God's word is powerful God's word is powerful the day you believe it the you believe your word changes word changes the day you believe it the day you believe God's word that's the day you'll never be the same again the day you believe it the day God's word become real to you touch the person

by yourself if you can touch the person aha so that person is real that's how real God's word is the day you see like that that is real that you can touch you SE on high it's tangible the things you are reading is tangible that is very real is not it's just one of those things inside the Bible no no no no no no no no sir that the least among us even the the one that does not pray if he knows it the least Among Us the the most immature Among Us I've had stories of stories of Believers like that many of them in our mid who were not serious but they went for NYC me thank God for NYC me has help reveal how is have stories all the apost used to say let me try that's how one tried became nccf Papa that one tried became ncf mama say let me try I just do all the things that Pastor used to say so it's not try they say man of God he say to where I'm coming from I know get voice say you knowbody use but these things are real we can use them we can walk with them you're not ordinary child of God hallelujah you're not you're not I know a thing or two about Authority but I have used it I remember I told everybody in the place I used to leave in E many years ago when I was still in school this over 10 years over 12 years now well over 12 years ago I said they will never CU they said they used to Rob when I they said they used to Rob there I said they will never Rob in this street the day they rob hold me responsible hi know what I'm talking about he will come visiting me he will see me in front of primary school I just sit down in 9 11 p.m. oh God I was a spiritist if you you run you dare not I mean I because for me that's what I wanted to because I wanted to use school as my training ground for the things of the SP practical I told myself this what I will everything i' read in the Bible it will be real when I joined enter into school there was a fellowship that wanted to just kidnap me and they were already calling me ah preso My from I said oh this people not know I have a plan my friend we said let's lost let's not lost let's fade away every other name f the people will install us as great ones we not now mature H you know some people La power like yeah yeah yeah you were my disciples when I was a teenage leader I said no no let's run let's find somewhere where nobody knows who can read Bible and pray and do as if we don't know anything I'm grateful to God for those experiences to God for those experiences I have till day people just send me random messages and say you the one that got me born again I mean I preach in all the rooms in alter in one year got uh over 15 persons who became pres of Fellowship in uniben saved that became the president of those fellowships so that's a good that's a good record don't you think so I said they will never Rob I remember one day they told me that some of these foolish guys that wear red cloth and they I c some people I was in the bedro they called me say they outside they want to wanted to lay C on people I said wait for me for I boxers soap was on side of my face I quickly wash it I pursu them oh you have not done things so man of go on box people with cab run move move when you see somebody ping you you know I mean I I took things literarily I won't do that again now I mean por style Daniel's excellent Spirit was not big English was that he said to the King this is your dream say no Sor was able to interpret it nobody ah down they said the spirit of the Holy godh are upon him they don't know the name for it this man is different what they meant was this is like a reincarnation literal this is like the gods working Among

Us Now human being when Peter Paul healed they said the gods have come to they now have to tear their clo now human being will be they say I thought Jupiter merous they now beat the people that they were already calling God when Satan is when Satan is ring a territory the people are mad the person that you are just hiled that they now sincerely told you that they human beings you not say let's beat them I told the what Satan fears is not you Healing The Sick and casting out Devils what he fears because the i t you that on Wednesday the hierarchy is in jurisdiction over places I know a thing or two about J over places where I practice it I wanted to test it that thing about saying this space is my space oh boy man of people there one day I was prayed out there 100 p.m. my house was not far from the primary school so that's why I was just walking I was praying and I saw somebody just walk up I say so you are the one and I say who is that he said no no no no no R I pursued him P if you get my come back person now pray I come pray but I knew say so this is the person it was literal this is the person I knew what that meant this is the person so Jesus I know Paul I know about who are you so say okay this is the person this the person stay now we March I really was looking for confrontations I really was looking for my M I needed stories to talk to my disciples about man only be in the Bible you there are moments like that people say we see you see this was your manifestation this was your day no you not run away no you have great Powers you have authority and it's not that you are mature that give you Authority is that you are born again is that you are born again is that you are born again is that you are born again you have authority to function in both words say I have authority ith is this entering you yes sir sir but as much as it's bad you are not really a Praying person but see it's not prayer that giving you that Authority it's sad that oh you you you once a wife fall into bad things that's not your Authority you still at rank all Devils that is Grace that gives you Authority it's not your qualification that gives you that Authority and you must know it and settle it now in your life that you have Authority have authority you have authority amen amen so what is that whole thing of oh casting out Devils because some people in trying to explain something which is really true they TR explaining something about casting out devils and princip they say things like oh you can cast out what you mean Devils there the word demons you can cast out demons but you can't cast out principalities now please don't say rubbish the concept behind that you are casting out that means it was in it's in something now demons are disembodied spirit I will explain this as we gone in our Series this EMB Body Spirit the principalities are over locations is still the same thing the casting out is now refer to in a different life because the cast used to explain our Authority but some Christians some pastors actually fear Devils actually give Devils so much Authority that you'll be wondering which side they belong to so they now start making it look like oh uh some principalities and Powers at rank Believers ah you have trampled the blood the I mean that's not the Bible mean trample the blood that one is um um blasphemy against the Holy Spirit but I mean that's how I see it to ever think that a devil is above a Believer kind of nonsense Dimension teaching is that one is it true that there are principalities over locations yes I just I taught you that for some weeks now

yeah we cast them out how by planting the gospel in those place and taking the souls of men for the Lord Jesus but is different is there a difference that you see things should be explained properly there's a difference in how but not that a difference that we don't have authority over notice what I'm trying to correct here there's not a difference that there are some we don't have authority over no there's no teacher like that in the Bible that there are some devils who don't have authority over no low guys High guys will have authority over all amen and use your Authority amen use your use your Authority say I have authority have Au to say to one to say to one go go to say to another to say to another come come and comes I have authority I have authority you have jurisdiction over the heavens and the Earth you know what that means all authority he say go I give you that jurisdiction that's how much Authority you have you have authority in the Unseen word to say to do to be look at Jonah how he got his great preaching mantle because he Jesus said he who is forgiven much loveth much I mean because he he was in the belly of the earth Belly of the fish I mean he's coming out look like he came out from Hell itself when he opened his mouth to preach is not when you understand the depth of what Jesus has done there's convicting power that's why he was such a great preacher when you understand the core of the message you know what to say you know how to communicate as as teaching them in our mission station how to go out said you will see who you are going to meet as you are going out an evangelis you will see the person you now go and meet the person you looking at that's cuz he's Supernatural so you already I already saw you before I came you to the person so the person know that it's a serious matter they don't us to drive that kind of because you came you have we had time to pray we have time we just not just just close from work carry bible and no no no no no you can you can you can map it oh this is the area I will go I said choose your area choose your area so everybody say okay this iside me I will go I saw my place never go before you are describing It could only be because we have Authority have authority in two words Hallelujah amen you have authority child of God you have authority child of God amen amen are you seeing how surrounded you are yes sir are you see how loaded you are yes sir are you seeing the backup you have yes sir the things at your hand center jessan say it isn't the things at you now things at your thank you s man you fans will never talk Devils that's why we are speaking against them we cast out Devils Hallelujah trample upon serpents and scorpion of their fall there will be no end when we say this people take it too serious they believe is really prophecy say there's one Prophet that said Nigeria will not they born away Niger there one Prophet that said n will lose the work up shut up your y bring Spirit spirit Spirit spirit inside everything you know what it means to be cured you know what it means to be blessed doesn't mean the things we use it to mean because the first cost Man became Rich say it's the reason I'm not making because I was Cur no Cur is those are Supernatural languages Cur means you are without the supernatural so when a Believer yeah that's what c means you are without you you are without functioning the heavens you are banished from the heavens so you are without so that means anything Supernatural is not when you say somebody is cured that

means the person is without Supernatural Force without unseen there's a without that's the because CA is an exile language bless is to welcome because everything is always how does it put on my table how does it put on my table because the cost man is only going to rely on his we and see what the man on his or his hard work did he was very rich King you God's power you don't want to be rich that was a yesterday matter I will leave that one making excuses because you are spiritual I beg that should be an advantage because without that Advantage people without Advantage people relying only on their hard work still become something it's good you know it oh become something become rich become all because Hallelujah I'll use my authority I'll my author I'll use my authority it's Matthew 28:18 all authority it says go all authority in Heaven and Earth he's not using it we are the one that uses Authority because we function on the earth as him we are his body we are the ones here he's he's walking through us we are the ones using his authority so in the name in the stead of Jesus I've told you it's not about the statement that's why we've taught some things why I say uh I can say the name of right and you still be heal because it's not right that I believe in is more than what you are saying because that's people say to fear say when they are pressing you shout Jesus why they press you kind of nonsense is that one why are you being pressed don't obviously know who you are I say know who you are say I do I do it's not sentence it's not I know that knowledge is the knowledge you can touch that knowledge I know that I know that I know that I know that I know that I'm far above all Devils amen are you with me there's no cause against me how certain Believers of course it's only any cause that affect the believer is the one believer used to Cur himself bam said I cannot Cur them they are an incurable people because of what he saw and this is not even Resurrection po pre- Resurrection fact said they are incurable hallelujah what food soldiers are you deploying what say you child of God what words are you saying what do you believe Hallelujah but there also orchestrated events how do you believe there are orchestrated events against you that can work can events be orchestrated yes why do you believe they will work you don't know who you are child of God you don't you're the one who set men free you say heal the sick cleanse the leper you see use the word cleanse because there are some sicknesses that are caused by un Spirit you cleanse it you cleanse because C cleans fre cleanse the person cleanse the lepers Hallelujah I to say something but if I say it some people will get scared CU I want to lay some Foundation so you're not scared of things that we have authority over amen so Pastor oh so all of a sudden you don't believe I don't believe in anything devil I know that the devil does have a measure of authority but not over the believer I don't I do know and I've taught that also in this we thought that Satan has bound people we thought that in this series that yeah there are issues that can be caused by the devil but when the Bible says spiritual warfare that's not what it has in mind it's the thing that matter because what Satan fears most is his own demise is losing his hold over a place losing his hold over a life not moving from place to place jumping from one body to another body are you following that's not what he fears what he fears most is having no hold over the lives of people and that's the greatest use of

our Authority greatest use of our Authority and our Authority increases because as much as God can trust us with his Secrets as much as God can trust us with his ways with his purposes Hallelujah Bible say submit to God resist the devil so there Authority in submitting to God living in a life of submit uh being under submission to God submitting to his purpose there are certain things that that attract demons some people's way but we didn't see anyon to David's way upon all the wrong things he did and all the things because he was a man sold out to God's purpose because there's an Untouchable place where you get to a place is a there's a place Untouchable because sold out to God's purpose sold out to God's purpose you live and breathe the cross leave and breath the work of Jesus you leave and Bre we explain that Matthew 12 next week amen something about that because I'm still laying some foundations that's why I'm mixing it here about our Authority about the supernatural beings putting it together so we get it side by side so that it's not shocking when we start on revealing some other aspects just putting my note in order amen hallelujah you have legal rights to function in two words you are seated far above you are surrounded everything you need is here so when we speak of Mantel in such a silly manner everything you need is here if you need such impartations it will be given you you are blessed with all spiritual blessing all and it doesn't mean that it's inside of you but it's available so anything you need any blessing anything it's available it's available take and use take and use God will God will give you anything God will fill you with anything as much as you need for his work take as much I mean he has shown us the treasury house take as much weapons as you need go into the storehouse take as much as you need to change your world Hallelujah want you to think about it for a moment you have authority you have authority you can get so natural you don't read your Bible you don't pray you only mount it you think you are deceiving us deceiving Us by saying I have authority but you don't no you have authority say that can kill somebody no that's not how we talk stop you having unclean words somebody can just die I telling somebody with about someone I no that individual cannot die it's not the individual time you don't die like that so justly going to hear a voice just a silly fellow trying to do something stupid but you can't die like that still an assignment on the individual life don't just die like that don't just die like that I'm not going to lose my sleep over what cannot happen no the heavens still are over the Earth things don't just happen like that things don't just happen see that certain things we know that we can be talking with facts not moved like Mount Zion cannot be moved just something you know he say we are surrounded say Lord open his eyes that he may see untouched the day fear died open his eyes that he may see a man that has Vision does not fear Paul says no life will be lost sa how can the Sheep be destroyed without I mean without any tra they couldn't find any trace of the sheep but they could see but everybody was saved you know what it means you know the Sheep pieces but Paul say no life will for the Lord has given me the lives of all the men the Lord has given me he collected all the souls that's Authority that's Authority that's Authority churches three have as they were sharpening the knife to kill Peter said I don't know whether I should go or I should stay so

it's not a knife that they are sharpening because you could see through the prison window where they were keeping Paul and Peter and they were saying they didn't know if whether they will go or stay he got my times in his hands I'm careful the things I say anybody can die any time are you are you are you mad anybody you want to die anyhow anybody can die anybody can die any time doesn't matter how you die bab matters my life is not in the sea my life is not in the air my life is not the it's when my time is up I'll draw my leg into the bed talk well do you know your words are food soldiers talking anyhow what we be with be in my life now don't put that nonsense s leave the pronunciation like that I deliberately pronounce it with the lady's name silly I don't know I don't know all your songs all your confessions I don't know I don't you later you wondering why you don't have Direction because you always don't know even when you don't know the the choice to make say I'm a Child of Light I'm full of direction direction is in me I know the path to take I'm never confused so in the name of Jesus I know the right thing to do then Bush sometimes when I'm seeing that the choice is looking hard I said what's the worst what's the worst that can happen nothing auto correct we kick in the inward witness so I if I choose the wrong I choose the wrong road all of a sudden everything within me we say that's the wrong that's the wrong road there's a spirit in man a spirit in Man Child of God you are not ordinary know about your Authority the least Among Us it's not the best to I mean so that's why I love getting unbeliever Save Somebody you jam in be par you can see him cast out a devil on the spot that same day it's not as immature no no no no it's the same the only difference is how you use it the only difference is how you use it but it has the same thing you and I have the moment the person gets to know Jesus a prostitute that just get born again on the spot that day that moment all authority is given to her that day that day when you say I don't really like that's why you should change them when you see people acting like the devil get them born again that's the same thing you should do to your wives and your husbands that are acting like a devil get them Born Again know that you have a project or you have an unsaved demon in your home and we have authority over our devil you may think I'm joking but I'm not joking how [Music] Authority many wives have put your husband head in place say this man this man you go to look for an Chief man you sleep with you look for an Chief what is greater than that say where's his an Chief I will pray on his head AB you sleep on the same bed for God's sake dummy the things you say matter Hallelujah we need to learn the things the whole time and know how to say I I mean can GL jumped on K one day and say devil get out of him he was saying I think this is going to kill me my gu was just negative the wife jumped on me and grab his head K you're not going to die that thing broke off him go I think this sickness is going to I think going to kill me I think it's good to have a good wife put hand on the head say is my husband Baba lay hands lay set there some things I know this things by by experience something one day or something I I went away I would give you the context cuz I don't want to reveal that private detail it's about not my immediate family went to go and pray and Lord say bind it when you get back you see a difference bind it say so reach there reach there because some things now

voices in the name of Jesus [Music] he he reached there oh he reached there he reached there you have Authority have authority the day I was seeing some things I didn't like him I said Satan this is not your home oh get out this is not your home you have no right here you have no right here have to write here all those malleability all those voice no no no nobody hears voice is here no no no no no some things you need to take your Authority become a priest become a priest act as the priest that you are this is what shall be from now some persons you come around is like heaven there some places you enter it's like heaven place you enter it's like hell determin this is an atmosphere an atmosphere yeah an atmosphere of Heaven here hallelujah have authority now use that Authority I one of the first pressings to open my eye to Authority like that was Gary wetstone friend of AR Bishop I mean the father of Lor daa cuz I attended his Bible school and all of that and I mean wonderful man of God it's an online correspondence course and he said you can say eyes I command you not to see negatively I I tried it didn't work I shock you ought not to think like that you ought not to me the man put Jesus Authority inside I've never thought you can put Authority inside I said PR go [Music] wise nobody know children go go s now you go know what you own not my own these ones love Jesus I lay hands on the head I say it every time your father have said you are blessed and you are blessed say have utterances over [Music] there Hallelujah that's words that I have prophetic words that have been spoken I recite it and I think of it I say this is it was have been spoken what have been spoken what are concrete ground we can put our feet on the words that have been spoken mind what you have been saying no Spirit has right on the earth without your permission you give them permission anything contrary you give them permission except just the part that is just normal life because you live with saved and unsaved men because in that directly their activities can cross into your path that's why some days are not good days but any other day that is not a good day that came from satanic orchestration that easy pass you can just laugh it ha that's the end know your Authority except see when you when you know the source of an issue if it's devilish that's the easy one if it's just life normal life based on you live with unsaved men so where the orchestrations where the normal living came your way we deal with it Hallelujah I have authority I have authority come on jump on your feet and say with me I have authority author I have authority I have authority I have authority I have authority I'm not ordinary I'm notary from today to I'll never look down on myself I'll never bury my head in shame I'm not ordinary not I'm Supernatural superal I have authority I'm a man in two words in two words I mind the things I say I'll mind the things I think I I'll mind the way I live I'll the way I Hallelujah I mind the things I think I mind the things I say I mind the things I do how mind it how mind it how mind it Hallelujah so I can say I can say you have authority oh you can see open your eyes and see look in the realm of the spirit look at the help you have look at the backup you have you are not disadvantaged in the secular World there lot of activities sometimes devilish that people are using nothing can come near me nothing can come near me no plague can come near my dwelling lift your hands and pray in the Holy Ghost come on pray in the Holy
