

in the name of Jesus Lord we thank you Lord we open our hearts to your spirit and we trust again in this service uh insight and illumination will flood our hearts even as we study on a very critical subject concerning the supernatural Authority that we have authority in the Unseen World we trust that this study would open our eyes to walk in the light of our Authority we know that at the end of this service we shall be blessed transformed built up by the power of your word we declare the things that ought to be said in this service will be said and the things that ought not to be said will not be said your name will be glorified we shall be edified the people said amen God bless you have your seats and we'll continue this is part two on UN forces understanding your Supernatural Authority understanding your Supernatural Authority turn your Bibles with me to Hebrews chapter 11 and that's where we will begin Hebrews chapter 11 is in your Bibles Hebrews chapter 11 are you there Hebrews chapter 11 now Faith is the substance of things hoped for now Faith is the substance of things hoped for the evidence of things what the evidence of Things Not Seen for by it the elders obtained a good report through faith we understand that the words were framed by the word of God so that the things which are seen were not made of the things which do appear did you see that so that the things which are seen were not made of the things which do appear so the things which are seen were not made of the things which do appear were not made of the things which do appear Hallelujah so the believer now when you see the use of the word faith there said it quite a number of times now that when you see faith in the Bible it doesn't mean the same thing everywhere so every time you see faith is not I believe I receive it's not uh speak to the mountain every time you see faith in the Bible it has a different contextual meaning so several applications of the word faith and again we've also told you that the Bible is not a book for def definitions definitions by Nature are limited definitions in their scope are limited explanations are broader definitions originate from explanations because the definition is you are trying to give a definite direction to what you are explaining so when you're trying to give a definite Direction you define it because you want it to be like this you want it to stay in a particular context are you following that's why mod dictionaries now began to giv definitions of word now give you more than one because they're trying to show you that there is a broader aspect to this so that you are not limited to just oh this what it means I Define it like this I Define it like that no no no no no it's deeper than that it's wider than that are you with me so how do we make this deeper how do we make this wider now the scriptures is not profitable for definitions the scripture is profitable for Doctrine the word Doctrine there is explanation Didia the scripture is profitable for Doctrine 2 Timothy 3:16 all scripture by inspiration of God and it is profitable for Doctrine for reprove for correction and for instruction in righteousness so the scriptures the Bible in our hands is for explanation so the Bible when you take note of that so you see is we use the word is a lot in life and doesn't mean that we are defining things so again I will help you so that you know oh he's trying to Define no he's doing something bigger than that because the faith is using here is even a short form the faith is talking about here is the faithfulness so we use the word faith because he trust you

know Genesis to Malachi because Genesis to Malachi teaching on faith teaches on the faithfulness of God so when you see Faith faithfulness they mean the same thing only in a narrow explanation to they mean the same thing but when you want to make it broad you cannot make the teaching of Faith broad without talking about faithfulness are you within so Hebrews 11 is not uh now Faith is the sub hope for from the perspective of Matthew Mark Luke and John you have great faith you have little faith you misinterpret what he's doing here because to see that that's not what he's talking about that he's talking about your walk with God it now mentions ab ab is not commanding anything and receiving anything so this is not Faith as it were I believe I receive right now look at the examples he keeps giving you by faith Enoch walk with God H some people are wondering over time like what kind of faith is that it takes Faith to walk with God you have to believe and receive no now you are forcing a context that is not what he saying at all and say for by by believing and receiving obtain a good report what kind of report is that by name it and claim it by speaking to the mountain that cannot be so you are forcing Faith to mean one thing are you following so to get a clue about what he's teaching here you see that is the Faith of Our Lord Jesus look at Hebrews 10 because it says look at Hebrews 10 before the 11 now observe verse 38 and 39 now the J shall leave by faith so you see has been talking now the book of Hebrews of course chapters and verses were not being used by the original writers nether it's not even up to uh a thousand years since we had chapters and verses to the Bible it's not it's not up to the book of Hebrews is one of those books that will show you the dangers of reading the Bible in chapters and verses and not reading the whole book because the book of Hebrews by interpretation must be read together because he's not breaking his thought the same way if You observe now don't get angry and say I just they hear gospel they they tell me chapter and vers be careful about it no it's the same way a good movie lover somebody who loves good movies or just not the unnecessary critical critic deliberate repetition not the unnecessary critical critic in the B to be critical but the Pres just a Critic just somebody that is negative that's why I use the word double times like that not just the critical critic like we see on Twitter or X as is called now do naturally when you watch a movie episode one episode 2 episode Three only somebody not wise wants episode one to stand away from episode two to stand away from episode three and many time when we when people who watch TV series if you ever have watched any TV series before you have the time winning time once in a while it's good to do those things if you have ever watched a TV series Before You observe that the episode one episode two sometimes for some people who do not know how writing is done feel like oh they are not connected you start get to episode 145 you now realize that ah it's connected though I thought they just irrelevant actions they just trying to show the antagonist and the protagonist like this however you not start seeing that this thing is important these things I was thinking were unrelated much like what happened in the Cinematic Universe of Marvel you see there was a lot of things being brought together so people didn't understand the cross over from different world and all of those different movies that they never said this

was related to this are all now interrelated what were they doing of course trying to sell their product wanting everybody to watch everything they are releasing but it was also literal genius because you shouldn't speak down on when you see something that intelligent that's how the Bible is it's a literal Masterpiece that you have to read everything together so that's the same way that you now see chapters and verses will not stop you from reading everything together because just like a good movie you have to take everything together and you can't say ah that was a different they did not know that you have it at different chapters or different episodes are you mean so now the Bible has 66 books so that's like 66 seasons and you see how you must follow because they are saying the same thing just if it's a good movie you say oh that's a great story line but today because of the laziness in handling the Bible we say oh he contradicting itself because you are jumping so it looks like it's contradicting itself so a good handle of the Bible why Reas why we say a pastor must be uh trained in the word of God you have to read the Bible again and again and again and again and again a pastor ought to have read the Bible like 4 5 6 7 8 9 10 keep going and by reading I mean study not just a lazy casual reading which the English meaning of the word read but the Greek meaning of the word read is more deliberate that's how we ought to read the bible anos to read again and again until you have understanding and in that understanding gain further understanding that's how we read the Bible so that is what the We Now call a Bible study in our English word but if you use a Bible study in the Bible it takes you to the English word read because we have an English translation of the Greek text and the Greek do not use the word study for reading because the word for study is where the English get Dent so to be studious is to be diligent when you say show approved is not flipping Bible is be diligent so the Greek aninos Go covers everything about reading because it's a foundational language unlike the English language is a borrowed language from four civilizations so the uh the these language are deeper in their origin and so they don't have to find too many other words to say it so this word can say what is saying so when they use the word read they are not saying what you do in the pry reading is English meaning of reading to pick symbols and letters and join them together to form a word and what does it mean so you have to join symbols letters together that's when you are reading they first teach you a b c they teach you all of those alphabets because that's how you read you have to join them together now that's not the Greek meaning of read to read there is just like a judge before a judge can say guilty or not guilty he has to read all those plenty papers again and again and again and again and again and again are you following has to read all those things again and again and again before he knows that okay this what the witness this what this one said this is the defense for defense against said okay okay okay this is the best judgment so to read again and again Hallelujah and that's how we do the Bible you he faith is he presupposes that you are used to the faith he has been teaching in the book because the faith in the book of Hebrew has not been I speak to the mountain because he mentions Abraham Faith too in believing the promise and believing the promise there is not I believe my mountain is going to be

moved not that his walk with God sh that God is faithful are you following so when he gets to chapter 11 he doesn't need to now tell you so any assumption you are having from the the book of Hebrews is not done by the writer Because he believes that you started from chapter one he did not know that there called chapter of course like I told you he they didn't put it in chapters themselves so he expect that you should follow the thought because he had used the word faith several times before in fact he said the old children of Israel did not enter into the promised land because of unbelief they didn't have Fai so imagine that faith is now what you are doing using to say speak to the mountain it won't follow but you get that the proper meaning of Faith here is what he has been saying in the context are you with me so Hebrews 11 now says now so that faith that we have talking about is so the use of the word is means we can bring it together like this based on the conclusion we can bring it together like this and say it is the substance of things hoped for the evidence of things not seen is in your own the evidence of Things Not Seen now remember what was studying on this morning unseen forces understanding your Supernatural Authority faith is the substance of things hoped for the substance of things hope for the evidence of Things Not Seen say evidence So when you say an Evidence an Evidence is a proof AB so faith is the substance of things hope for the evidence the evidence of Things Not Seen the evidence of things not the proof of Things Not Seen not seen not seen does that bring a bell not seen is that unseen not seen so it says faith is the evidence of Things Not Seen so let's Supply the ellipses what is omitted because so put Faith or all the faithfulness of God into verse one and see how it reads in your understanding now Faith or the faithfulness of God is the substance of things hoped for so we can start it again Faith or the faithfulness of God is the evidence of things not sin so you see that cannot be definition so it telling you that the faithfulness of God is expressed the faithfulness of God was expressed as the evidence of Things Not Seen the faithfulness of God was expressed the faithfulness of God was expressed as the evidence the faithfulness of God was expressed as the substance as the substance of the things that they hoped for the faithfulness of God was expressed I'm using words because I'm in them so if you want to take it back and put is faithfulness of God in the scriptures is expressed are you following the faithfulness of God I'm using words because these are the old men of the men of old that is referring to so I'm using words but the same if you want to put is get it the faithfulness of God in the scripture is expressed as the evidence of Things Not Seen evidence of Things Not Seen evidence of Things Not Seen now faithfulness of God does that sum up the whole Christian work because of his faithfulness that were not consumed meres are new every morning that's why you have a new day we thought that on Seasons faithfulness is that what God required of man that man be faithful Adam was not faithful to what God told him to do so his faithfulness a very broad subject matter all right so within the subject of faithfulness we talk about believing we talk about trust we talk about hoping so encompassing was so the faithfulness of God in the scripture was expressed as the evidence of Things Not Seen not seen the word not seen relates to Invisible events or immaterial beings or events now of

course you if you read the chapters you see that what is calling things is events does that make sense so when you say things don't count your shoes your bags your your cars don't count are you following when saying things notice in the context you saw events events because the word things there is used for actions pragma actions events so it's not things like my Buro my shoe are you following so faithfulness of God in the scripture is expressed the faithfulness of God within the scripture we see in the scripture the faithfulness of God within the scripture is expressed as the evidence of immaterial event as the evidence of the Unseen word so we said on Wednesday I didn't explain it this way we just introducing so going a bit deeper Faith so we said that the Unseen word is what the writers of old were writing about because their timeline their world view was purely Supernatural that even schools taught people concerning the Unseen word science was not a subject that was being taught in schools the supernatural was being taught in every form of learning because their world view was purely Supernatural that there was nobody who argued against it so they so in their writings no they're not writing to convince anybody that there a supernatural word because even the dumbest of dumb know about the supernatural world so they didn't have that issue of trying to convince Their audience that's why they are not surprised when you are hearing voice from ground all those kind of things are normal in their timeline the kind of words that they are using they don't have to say sorry sorry sorry I know you're not used to this no no they are used to that kind of thing are you following so it's an ancient setting so the faith or faithfulness of God was expressed as the evidence of Supernatural events so it's evidence the proof so the faithfulness of God was expressed as the proof of Supernatural events Things Not Seen the things there Event Event actions not seen did you get it actions not seen every Supernatural event the evidence of Supernatural event so for by it did you get that verse one don't R faith is the substance of things hope for the faith is talking about is the faithfulness of God which is explains our walk with God the faithfulness of God in this book within the scriptures that was explained by the that's the prophet is the substance so we see that is expressed as the substance of things hoped for the substance there is the ground the basis the ground the ground of things hope for the evidence the proof of Things Not Seen so the Things Not Seen Supernatural events evidence of Supernatural events did you get it now the word hope is a very strong word there are three things things in the Greek text that explains the word hope is not just I wish in fact that is not even used to explain hope in the Bible I wish is not the meaning of Hope at all the word L peace e l p i s not a p so that you are flying all right word lpo e l p i z o it's used to explain confidence it's used for a definite outcome so confidence a definite outcome and it's also used for hope against hope a greater fact when I have a greater reality that makes me on not shake so hope in the Bible is not just I wish I wish no it's stronger than that so it says faith is the substance of things that of events actions hoped for evidence of things proof of things proof of events not seen evidence of Supernatural events and things so faithfulness was expressed or their faith was expressed as the proof of Supernatural events look at verse two now says for by it for by it what is that it is that the

faithfulness is that the faith for by it for by that persuasion the elders obtained a good report the word obtained a good report should not be reasoned as you are receiving report card from school because the word obtained a good report report is not report card I've said before is the words that enter when you hear a word the thoughts that enter your mind can destroy your understanding so because you're used to report card they say obtain the good report your mind is oh they got something once you stretch your hand use that same hand return it to your face as as long as you do obtain just return it you understand it will help your brain yeah you not you're not thinking that well is obtain the why is your hand going out what are you obtain obtain report he say give me the report what did you do just now when P was giving the report you open your ear you didn't stretch hand why are you stretching hand we good report you stretch hand what are you obtaining say give me that good report HH no now are you getting it so you can't do obtain a good report and you stretching hand no now for by the that obtain a good report They will receive things ah obtain a good report no now drop your hand drop your hand don't stretch hand as if you are collecting something so by it for by faith the elders obtained a good report so a good report the word good report F enough that word obtained a good report is just one word in the Greek material is used for obtaining a witness witness so obtaining a witness is used for witnessing so implies that they bore witness or to Bear witness for so for by the elders bore witness for because they were bearing witness of the faithfulness of God that's what they will begin to talk about because that's all there is to talk about because God dealing with man is explained as faithfulness that's all you will have God as that's why he made time so all you will have time to talk about is the faithfulness of God so in the faithfulness of God because every day is in the faithfulness of God are you following so for by it the elders will these Elders be the Patriarchs will these Elders be the prophets in Hebrews 1 verse 1 and 2 The Prophet when he say God who has divers man spake in time P unto the fathers by the prophet had in this last days spoken to us by his son so by the prophets so this will be Abel is a prophet Enoch is a prophet Noah is a prophet representative of God they bore witness beautiful you thinking it so obtain a good report is to Bear witness to witness for so the Patriarchs Elders prophets were what spokesperson Representatives Representatives for what there were spokes persons for the Unseen activities they bore witness of the Unseen word how do we know because it says their faithfulness in God was expressed as the proof of Things Not Seen Things Not Seen Things Not Seen now in case you are wondering why are we mentioning Things Not Seen unseen unseen because God is in the immaterial word unseen word and that God that they are relating interacting with that they having actions for are you falling the god that they having actions for or The God that they are doing what he says cannot be touched with men's hands except he decides to have such an encounter experience with man so the Patriarchs the elders the prophets were representative spokesmen they bore witness that was for by that faithfulness that evidence of Supernatural events they bore witness of it they bore witness of it they obtained a good report so that means their words and their writings must be read in the light of a

supernatural world view is that so there are words they are writings because this prophets these Elders Patriarchs prophets were were spokesmen representative so they are words and their writings will be what have to be read in the light of a supernatural world view are we good so observe verse three through faith you understand that when Bible is Tau contextually it's easy to interpret so you see how verse four will make sense now but look at verse three through faith remember what that faith is not I speak to a mountain faithfulness of God through the faithfulness of God we understand that the words you see what it now does now the words the words WS WS WS the Ws the walls what did you say is that ws on Wednesday periods of time thank you the worlds cycle of time period of time periods of events periods of generations were framed the wordss were framed worlds that's why we use the word in a colloquial manner of speaking we say which word are you living in to explain the way somebody is acting see you looking as if you are not here so the use of the word world as much as it deals with where you living can also be used to explain periods of time so the Greeks have different word for it so the normal word for World o r l d is Cosmos they don't use it here they use use the word Aon which is how the Greeks measure time so and the Greeks use it for revolutions so a cycle of time a cycle of time so through faith through the faithfulness of God we understand remember that faithfulness so if we are reading through the faithfulness of God Express as the evidence of Supernatural events you have to read verse one into everything he says from verse three down so because that's why short short things so through the faithfulness of God that is expressed that the evidence of Things Not Seen we understand because this is what he believes that you should be understanding we understand because you should have understood from one and two we understand that the periods of time because I just mentioned Elders so the different Elders different periods of time we understand so we should understand that the elders will understand that the world the periods of time were framed that word framed is the word used in the four gospel for the Disciples of Jesus when they were mending their net so is to knit together kit is to knit together to KN together to prepare so we know that the words were put in order the words were put in order the periods of time were put in order we can arrange it we can order the periods of time we can frame it knit it together kit we can knit it together and when we knit it together by the word of God are you seeing it by the word of God what God is saying by the word of God by what God is saying what do we get so that when we put those periods of time when we knit it together like we are mending it when we arrange the time of the first man Adam to his children Abe when we need all the times together through the faithfulness of God we understand that the periods of time starting from the first man Adam to his children Abel King we understand that the walls that period of time were need together framed together rendered fit are you following by what God is say because from the beginning God said something to Adam are you following by the word of God so that so you now see so that what is it so that the things which are so the things again pragma the actions events that are seen will not be made of things which do appear so where you are seeing their physical activities it says there is an unseen in

their physical activities are you following so faith of of faithfulness we understand that the periods of time were need together by the word of God so that the things which are seen so that the things which are seen were not made of the things which do appear are you seeing it so the things which are seen were not made of the things which do appear the things which are seen were not made of the things which do appear so does the Bible have both the sin and the Unseen World so when you read your Bible do you have the seen and the Unseen word and the faithfulness of God through every period of time was KNE together AB be through faith we understand that the periods of time we need together by the word of God so that word of God that thing that God has been saying to man so that the things which are seen what is the thing that is seen now the actions the events in their expressing thems their actions events under the faithfulness of God AB so that the things which are seen were not made so of the things which do appear so the SE actions and event show an unseen action and event did you get it so man interplace between the seen and the Unseen word so there's a supernatural context to what they said they are words and their writing there's a supernatural context there's a supernatural context to their words and their writings we mustn't joke with that there's a supernatural context to their words and their writings are you with me so Supernatural context to their words and their writings Supernatural context to their words and their writings make sense by Faith by that faithfulness because Abel was not commanding Mountain to be removed there was no mountain to command by Faith by faithfulness are you following by faithfulness in God by the faithfulness of God Abel offered unto God so are you seeing he showing that he believes God he showing that he trusts God he's showing that he serves God he's showing that he works with God so what you see AB offering you see him offering a sacrifice but the sacrifice explaining something the Unseen word come on come on that's why it look if it was just about the yams and the the it was just about the Lambs the goats the ram the yam that they were offering how come God was not now pleased with K's own because King offered something too don't mind the Bible themes actually read it from the Bible it's not that King offered leftover y there's nothing like that King offered so but King's sacrifice God had no respect for it so you can see there's an unseen in that sin action it says you right from the beginning there's an unseen in the Sin action and not because God loves blood so much because had blood that's silly no God testifying of his gift for by it he being dead yet speaketh so what was the issue he obtained witness that he was righteous righteous and he offering gift the excellent sacrifice that AB offered that is better than King's own was by it he obtain witness are you seeing it that word obtain witness is that the same word obtained a good report so Abel used that sacrifice to Bear witness to bore witness that he was righteous so God used that that he was righteous God testifying of his gift and by it he being dead yet speaketh so in Abel's sacrifice we see an unseen activity we see the immaterial World shaping it Hallelujah so invisible events immaterial beings or events unseen activities or beings so they bore witness of the Unseen word so there was something Abel was doing by the offering of the sacrifice that bore witness of the Unseen

word hallelujah amen Genesis 1 and verse 1 Genesis 1 and verse 1 Genesis 1 and verse one still here this morning Genesis 1 and verse one in the beginning God created the Heaven and the Earth the word in the beginning is this a beginning that has a past because the word he uses for beginning here is the word *ret r e s h i y t h* is not I want to start a story now something something the word beginning is used 50 times in Genesis to Mal and every time we saw the word beginning is not used for a dateless past it's a beginning that has a p there's something before this beginning so when using this beginning it is an editorial beginning it is a The Writer's beginning not a beginning of I want to begin now now let's test it because you are intelligent and you should be intelligent and you must be intelligent whether you don't want to be we force it on you must be if this is a beginning of Beginnings I mean there is no past this is a fresh beginning beginning follow a very fresh beginning what what is Darkness doing there there's already darkness in a fresh fresh beginning that's darkness is God now Darkness was before the word began so why is God now wanting to correct darkness when it was there before the word began just like we're singing I you were there Darkness was there before the word be because that's what it will mean because it says in the beginning so when you see in the beginning now look at what I said some people already get creatively Scholastic so oh yeah wow so that I read in one book I'm not the one that read the book I'm not the one that said what is in the book I don't know what is in the book I only know what I'm preaching right say okay so that's they used to say there are many beginning Baba count me out I never said any of those things I'm responsible for what I am saying just like Moses will say I call heaven and to Bear witness against you I call Heaven you see the heaven and now to Bear witness so heav cannot be scy I call supernatural beings and the men to Bear witness of what I said that's why Moses used to say it to Bear record that I am not the one I'm not the one that said or give you 14 Beginnings I don't know anything like that only know Genesis 1 that the word beginning is the word used for first fruit in the first fruit so you can't have a first fruit if you didn't plant so they have the farmer's first fruit does he have a past there's a past of that first fruit when it was planted thank you so it's telling you that in the first fruit in the Harvest you can't have Harvest without having a beginning now so that word he uses for beginning is the word Moses the first writer of the script that Moses that that wrote this Genesis exonomy that is now later edited to be the first five books of Tor that you have other portions that are edited but Moses wrote it that Moses that saying in the beginning is the same word he uses for first fruit the word *Rashid* is the word used in Leviticus 2:21 212 Leviticus 2:12 ask for the don't turn just write the references they can put it on the screen so that you see it as for the oblation of the first fruit you see that word first fruit ye shall offer them unto the Lord so you see it's a famous terminology the word *Rashid* is a famous word is a famous word you can't have a first fruit what is first and fruit life is not hard English is really not hard fruit and first so the first fruit that mean we dealing with harvest the first harvest simp so what is first fruit the first fruit is actually the first fruit means exactly what it means the first thing we are why is it calling it fruit when it's not because it's the first that you are taking out that's why

they're using fruit because it's like being plucked doesn't have to be literal fruit it can be yum and yum is not a fruit are you following so the first thing that is produced so Le 212 some people don't like when you teach like this teaching like this is me putting h on you like it you need to be treated with respect you deserve it when you teach like this I put hor on you I'm not teaching like you don't have sense I you teach like you don't have S you're an adult for God's sake you have different background so teaching must put horon on the audience that not like just rush it just say anything you like and leave there you can't say anything you like now got all of us together and be rubbing our head like we don't have sense we are have the scriptures is intelligent in design so we should be intelligent in our presentation too you me so the word first fruit Leviticus 23:10 speak unto the children of Israel and say unto them when you come into the land which I give unto you and shall reap the Harvest thereof then ye shall bring a sheath of the first fruit of your Harvest unto the priest so you say that is first fruit of your Harvest so you shall bring the beginning of your Harvest does that make sense you see the beginning now the beginning of your Harvest so this is not in the beginning that does not have a past so this is not God's beginning because you know God is before the beginning of time and this beginning is using here like I told you is the editorial beginning is the writers beginning so so the word beginning if you don't want to put it in a agricultural setting numbers 18:12 all of those references are all first fruits Deuteronomy 18:4 first of the first fruit that made it worse the first of the first fruit in the same Genesis Genesis 10: 10 and the beginning of his kingdom was Babel Nimrod and Kush began Nimrod and he began to be a mighty one in the Lord might 1 in the 8 verse 9 he was a mighty Hunter before the Lord wherefore it is said even as Nimrod the mighty Hunter before the Lord was great upon the face of the Earth that's the use of the word before the Lord and the beginning of his kingdom was Babel could nimrod's Kingdom has existed without Nimrod no Nimrod has to have existed before he can have a kingdom now so the beginning of his kingdom cannot be the beginning of nerous Life as a baby had a kingdom no now he has to have lived before he having a kingdom the same way you see the word beginning used for the child of Jacob Genesis 49:3 Jacob speaking or Israel speaking Reuben Thou Art my first born my might and the beginning of my strength so you see what he's doing Reuben you are the beginning of my strength that's his first child see the same first fruit the first child that I born is Reuben you are the beginning of my strength note that Jacob has to had existed before reuben reuben being called the beginning so there has to be something before this that's why I say you are the beginning of my not that I never existed before until Reuben know so when you see in the beginning that's why I told you there are so many things we can argue what is Darkness doing in chapter one and it's a beginning story what is Waters doing in chapter one so there was water before God made anything so water the word water is yah God not create water but water was there he only separating water from water water no no no no that's a lazy stud then we start arguing with scientists that you see Genesis there is s that timeline the world view of the people is not even scientific so he's not writing to an audience that knew what is called science there

was no Pythagoras there was no arimus there's no soes there's no Plateau to explain anything are you following there's none of all this nether there maans leor there's nothing like that there's no there there's no all of those Scholars that you are thinking from their point of view from the way he if you look at it from the way D normally talks and draws and there's nobody like that this is giving you a timeline that has none of those people in their mother's home are you following and he saying in the beginning God created the heavens and the earth and the right top is not like I said the Bible is not a scientific book are you seeing it not a scientific book it's a supernatural book it's a pre-scientific worker are you following so in the beginning God created the heavens and the Earth is it clear that this man Moses is not the first man that lived on the earth neither is it the second third if m is 9 69 years when he died and M did not give birth to Moses what does that mean that there are thousands of years before Moses then Moses now tells you in the beginning nobody in Moses timeline could have been thinking Moses want to give them a proper arrangement of how things work from the beginning of time no they know that is trying to teach because just like when you see me up here teaching you are not thinking that I want to tell you story for story sake you believe that the story has there's a reason behind the story AB so when we are telling stories you know so the when they tell story they use a story to tell God's story they use a story to tell what God is doing Hallelujah they use a story to tell what God is doing so when he says a creation story yet this creation story is being used to explain another creation because there is already sin and death in the world when Moses is writing so he uses the creation story to reintroduce another creation which is what we call the new creation and the new creation explains three things when you hear New Creation God's New Creation will God in God's New Creation God restores the theory fact you've heard before man in God's house this one this one we have said it in different ways over the years I give you one way we said it when we're teaching on two words man in God's house man as God's house the Earth as God's house now in God's New Creation three things are in view in God's New Creation God restores these three things he restores man back to proper Union with him so there's a restoration of man back to proper un with him which is what we call the New Creation man man in Union with God in an separable Union with God upon the resurrection AB then not only does he restore man back to God it also restores man with men because from the beginning King started killing a are you following so he restores which is where there's a community a local church there's a community a local church are you aen so that's also being restored you get it as also being restored so God restores his Union with man man's Union with God is restored man's Union with men is restored are you following so we where all the all the people of the earth is one because God made all of us to actually be one so all the people of the earth is one in Christ Jesus then the to thing we see in that God's new creation is the Heaven and the Earth in Union together as one God wants to sum all things up in Christ so Ephesians 1 uses all things in heaven and all things in Earth both in one so he wants to gather it together the things in heaven and things on the earth so a union of the seen and the Unseen word is properly

restored in Christ Jesus so from the beginning so let's put it this way what did the first man
he God's plan God's promise what God is up to what God intends for man when the first
man and the first people which will now be can and Cain is in Disobedience Abel is in faith
fell away from that that order what does God do he doesn't change his mind he starts he
keeps saying the same thing now in God saying the same thing there is now a re there is
now a what a restoration AB now if there is a re a re restoration something must have
happened so right from that beginning still in the beginning that's why you have everything
in gen genis because Genesis explained everything in that foundational stage which is
what we explain to you one time as the foundation of the world foundation of the world is
not one day just like you can't make Foundation of a building carelessly takes a lot of time
so there's a lot of days months years so the foundation of the world see how many events
we in the foundation of the world so the shaping of the world so in that restoration we are
seeing things are being restored back so mostos is now writing thousands of years after
knows of these three things that God is restoring which is what is now explain as the
promise of Life The abrahamic Promise any name you want to use to explain the New
Covenant the Covenant of God the promise of Life The Eternal purpose of God similar they
all mean similar things just unique emphasis the Eternal purpose of God AB what is
purpose the intention of God what is the promise of God what God is intending to do are
you seeing it so it's now a promise it was first a purpose that it became a promise and
because Abraham was having doubt God now made a covenant there's now an O is the
same thing but the reason for it now being called a covenant is because of assurance you
know the say I joke you know say I lie so the same thing is now what been called the com
but just added emphasis are you following all right so just different words but they are all in
the same family clear clear clear so Genesis 1 in the beginning God created the Heaven
and the Earth so once you have that beginning as a beginning that has pass you can read
this intelligently so in the beginning God created the Heaven and the Earth create here
remember we said when you hear the word create why does your mind always have to go
out of nothing because we are thinking okay God is creating but why is God creating out of
nothing what is nothing so when you say nothing you are saying creating out of the
invisible world then say words properly because God cannot create out of nothing because
God is not in nothing and God does not handle nothing God handles things so the out of
nothing explanation many times can again when you hear create two words for create bar
and Assa say once you hear that word it means to create already forcing because we like
definition of explanation so because you already defined it you already localized it like this
your brain cannot fly your mind cannot run to the wider picture because you already said
out of nothing so create out of nothing calm down the word create that creating must not be
out of nothing are you following so to create is to shape I can create something by just
separating it and that's also a creation creating can be a separation just like we say
separated light from Darkness I think I taught you that in one of the teachings where say I
create Darkness how I shape it I means I'm not afraid of Darkness I can do something with

Darkness that's the word create so I can shape so the word create by is to shape to separate to order o r d r to order so if this is a restoration are you seeing how you are thinking don't worry you won't force it you see how it makes sense within the context you see how it you see how it makes common sense in the context how can Bible teaching be making common sense because Faith was was what made brain faith is not afraid of brain that is Supernatural does not mean how to remove your brain it now restores your brain to proper functioning it was God who gave man brain so how can brain not talk about God can so in in soundness the brain functions as it should when so that's why we say it will make sense not that the sense is making sense knowledge but the sense is making is the sense of living because there are many things that did not make sense like when the right brother said plane could fly it didn't make sense but they saw beds flying are you following and now it makes sense to enter airplane it didn't make sense the first men who entered airplane took risk they had to sign a death certificate if anything happen to them they didn't know if were where they were going to land there was no navigation know that you are going to land in so you left but you don't know where you going to land wherever you land oh are you ready for the Expedition are you ready for the experiment say I'm ready so it's not like to that a fun thing nothing fun about it because some people had their doubts but later now there are no doubt but yes that is still sense knowledge of science knowing science is knowing so observation Discovery so to have the idea that science knows everything in itself against the law of science because science is knowing that's why textbooks are changing every time because we just discovered this we still yet discover more but what with your puny brain you want to use to fight God for you that is still discovering God is Not discovering every anything he's omniscient days are new in him so why are you not trying to use what you are discovering to negate and cancel out he who is before all things and by him all things consist so that science is now labeled in the scripture as false signs are you following not that the believer should have an issue with s say I can never allow touch my body will touch my own touch my own the only issue is when the doctor gives me a hopeless report I don't do business with hopelessness no you give me a hopeless report but there's hope against hope that's why I say hey forget what I can you say forget doctor forget doctor you like saying forget vehicles I can't forget Vehicles can't be checking all over Nigeria using leg to get to Lagos as olding days I can't try it again we can't try it in this mod era are you following say we can't do away with science because the knowing has helped us are you follow but when that knowing tries to make me negative the weak broken without hope ah I reject it I'm not saying they are evil people they are saying what they saw what they know from their Discovery however there's another thing that I know that's why faith is hope against hope I wrote it in my book on healing you should have read it on the book on healing hope against hope so I'm not changing what the doctor said his body was dead but against hope believe in hope I believe something else I'm not denying what the doctor said but I'm holding on to a greater reality I'm not convincing God God's word is true I'm not saying so that it will not become that's the problem with people

who speak God's word they are speaking it so that it will become I'm not saying so that it will become I'm saying it because it is so my speaking is to get my mind my body my circumstance to align with what I already know is true to confirm I use that line because you getting so much a popular word today prefer the word confirm I'm getting all the whole situation to confirm to wow to that which is the greatest reality the reality of my creator of the Creator what does the Creator say is is what is what I'm discovering is not final because there are still many have not yet discovered so what you have discovered cannot be final you say yeah that's what we have seen is three months to live you are discovering things you are saying three months to leave come there there's another place we get facts another place we get reality and what our God says is reality that one I will superimpose it on what you have said and the greater reality wins simple division cancel out I will cancel out this fact with another fact that is faith superimposing that reality so I'm not saying I know that I'm not fertile I know I cannot have children from your report you have said it bar oh okay but I know something now Abraham our first example of that had nobody to look back to Abraham had no story you even have examples in scriptures Abraham had no body that's why the Bible uses Abraham to explain faith that Abraham had to cast himself into the hand of Yahweh that he becomes an example of Faith nobody to look up to but God told him say your name is not Abraham your name is Abraham say my name is Abraham my name is Abraham yes your name is Abraham father okay he said but there that's why he's staggering that's why I staggered here but it got to a point he staggered not are you seeing it where he now gave himself over to God who against hope believe in hope that this God that said my name is father of many nations he is not a dummy he has led me since from from the from Mesopotamia where I came from ah no no no no no no no no no no no it was the same God me with I went I rescued lot from four nations four nations that overcame five nations only me and 318 servants ah no no no no no no no he has to know what he's saying everything changes so you see the Romans 4 explanation of it colored those things that be not as though they were that's Abraham now he call those things that be not so what he saying so it give you the loudest aspect of faith is speaking and we get there because we're talking about the supernatural Authority we have to learn how to speak what are you saying amen see an emphasis on what God Said and he said into a soul and into Soul it is not documented for nothing the things that we waiting our time waiting for our learning that which the might have hope expectation so if we see how this how God does his things then I to we say and it will be so because what God says is so his words form thoughts and his words give us what to say we thought you in our year of Prophecy that the essence of Prophecy is to give you what to say I have what to say God's word comes to me so I will have what to say and God's word forms my thought so I can say it so when I'm seeing a negative report doctor's report say I have one week to leave one year to leave I remember what God's word say but it's not the day of sick I should remember what God's word say I should have remember because it's now harder where the life of faith is easier is when you without any situation you have been saying these

things that's why some of us look like a she every time we tell you some of our stories tell you the circumstances the way the contrary wind blew against us but he Jam Rock meet byab me I said I set I set for this situation the spirit of a man will sustain him in the time of infirmity a strong spirit will blow it off because that's not the day you are trying to fortify yourself me I day no shaking AB Hallelujah that's what we're teaching so in the beginning so do you get the beginning now in the beginning in this Restoration in this beginning in what God is harvesting in what God is harvesting God created the Heaven and because the Heaven and Earth will explain those three things because heaven and earth we explain those three things as Heaven and Earth is Union of God and man Heaven and Earth is the union of visible uh unseen things and visible things AB visible and invisible things then Heaven and Earth is used to explain a collective togetherness all things created together which is same as all human beings together are you following so those three things is summed up in that word in the beginning God created God reordered now you see the emphasis because where he's emphatic on in those three Resurrection is the first God's Union with man because he goes on to now use Darkness and Light and the Earth was without form and void now before somebody gets angry ah this man is arranging things using sense using sense it's not fair God's word is spiritual okay and you reading a letter how is that for Education say God's word is spiritual you are not and you are reading a book it's spiritual but you are reading a book that means there should be a grammatical law to it if not there should be no grammar to it since it's spiritual because it's the grammar that we explaining so they offend you look at e Genesis 11 so you tell me which Earth is this so that we should be the old Earth was of one language so is Earth sand is Earth the people so can be to refer to people so which is without form and vo sand ground land oh people so that same word this same word without form and word only two times is used in Genesis to Revelation only two two times the word without form and vo is used so look at the second time it is used Jeremiah 4 which they have used to say they were human beings before Adam very lazy study when you Jeremiah from Jeremiah 4 it will say mad things so you will not there where go enter his mouth from chapter one that's why you have Jeremiah seeing a word when there was no human being that before there were human beings there was also you see the nations were destroyed then there is now without for my voice Nations before Nations you are deep but deep in ignorance that's the depth I see Jeremiah 4:22 are you there Jeremiah 4:22 now I've had to do this context again and again Jeremiah in chapter 4 tells them to repent why should they repent because Israel is now a backsliding nation so God was contemplating divorcing them and not is divorcing them because it is his nature to divorce is because their unbelief separates them from God then Jeremiah gave them an example of Samaria the King Josiah from verse 6 down then he calls them to repentance and in calling them to repentance Israel's response is not good that ended in verse 25 then in chapter 4 he continues again giving them instruction why they should repent and they did not take him seriously so verse 5 to verse 10 I'm giving you paragraphs you know when you write you write in paragraphs that's how they write so in verse 5 down

to verse 10 he now writes telling them that Baba danger they come tells them of an impending disaster is it your own try it look at from verse five Jeremiah look at your Bibles you won't see it on the screen not because it's not on the screen but the focus that I'm giving you you won't see it like that because if you have been observing the text so that you see the paragraphs you can't the screen cannot give you the paragraphs so you have to be looking to observe what I just said notice from verse 5 that there is a warning of a coming disaster is it your own I will bring evil from the north a great destruction something is coming something is coming shall come to pass at that Day verse 9 are you see that something is coming so he tells them what is coming tells them is a scoring wind then what was the people's response verse 13 oh Jerusalem so what their response is that they should wash themel from what are you seeing it that should be their response then God continues speaking then from verse 19 Jeremiah has observe something my B my B so I'm in anguish so it's lamenting lamentation it begins to lament because he have seen that the disaster will surely come because they not repenting so remember that when you are what you are reading here have an audience so as much as you want to speed read when you read with an audience you can see feedback it's just that he's the only one talking just like if there's a feedback and you listening to this message now you hear the feedback in my own response because your voice will not enter I will not see what you said or what I understood what you said that's what you are reading that's the Brilliance to the writing are you following so he laments from 19 and tells them so he now uses the vision of chaos 2223 down to 28 it gives a vision of chaos because what he seeing is a chaotic situation for my people is foolish they have not known me they are SSH children and have none understanding they are wise to do evil but to do good they have no knowledge are you see the words Genesis 1 to3 wise to do evil just like Eve and Adam wise to do evil but to do good they have no Knowledge Tree of knowledge of Good and Evil are you seeing good and evil being used a lot 23 I behead the Earth so Jeremiah being a student of the Torah uses a popular vision of chaos to explain what is happening to his own people so there's not like there's nobody existing prophesying to an audience having Vision does not mean he was he was translated back in time that's silly that means every time that Vision will travel into you are where you are you're just seeing something beautiful so verse 23 I behad does that show is having a vision I beheld I looked the earth I looked at the Earth and lo it was without form and void and the heavens they had no light has been calling people to repent but see now using Earth and Heaven I beard the mountains and low they trembled and the hills were moved lightly I behead and lo there was no man and all the beds of the heavens were fled I behead and lo the fruitful place was a Wilderness Israel is called a fruitful place it's now a Wilderness and all the cities thereof are broken down at the presence of the Lord by his Fierce anger Fierce anger is used to explain their unbelief so when you see at the fierce anger because of your unbelief because God is not happy at unbelief so it's a fierce anger for th had the Lord said the whole land shall be desolate yet I will not make a full end so that means this is not going to be total the Earth this land will be

destroyed Jeremiah was the first to explain their captivity it was Daniel that now read Jeremiah to that it was 70 years but it's not a full end so this is this is that book of Jeremiah are you following so they had a vision of chaos for this the Earth shall mourn and the heavens are both be black because I have spoken and I have proposed it and I will not repent why is God not repenting because they have not repented so the Hebrew language does not separate the cognitive and the evolutionary tenses because if you are uh if you are full of matter like our moms all our moms are deep they speak in such de deep deepness yeah so it looks sarcastic there will be sarcasm in there say where should I put the pot on my head but is you know those kind of the way mothers just be dropping lines it look like they were born for sarcasm but beyond that they also mothers talk like because there are so many things in their head they are full of many things so they can because the Hebrew language is very deep so they can right causative the so you what he's saying is permissive but he's writing it as causative just like a mother will say why did you let's say mother give you their baby to take care of and the mother will say why did you fall my baby everybody we sense know that no adults that you gave your baby to will open their eye and for your baby but you Noti what the mother is doing his mother say why did you fall this baby why did you fall my baby you see the mother has WR two things the permissive and the cative together because she's not thinking she's talking to an OBO she's simply saying like that because it was within your the child was under your care and the child within your care falling down means you allow the child to fall down does not mean by you allowed means you tumble the child so now writing causative that why did you F this child does not mean you fail the child so we can interpret what was just said that's the same way the Hebrew language we can interpret the causative and evolution So when you say I will destroy there's nothing like I will destroy the Earth is the earth will be destroyed so the same word I will destroy is the same word used that your sin and your wickedness is going to destroy the Earth but he putting I will because it's putting that volution and causative because they are translating it to another language and the English language is full of voler we use will will will will will a lot but the Hebrew language does not use volitional tenses and volitional tenses are not as obvious as it is in the English language are you following so that's the rule of grammar that guides the Hebrew language so when you study on biblical languages you know a bit or two about what we are talking about so the way English language and the way Hebrew languages is not the same so the same rule that guides English grammar the same rules that guide the Hebrew grammar you get something there all right but this man is having a vision of chaos we're talking about unseen forces now there we day I didn't forget so notice without form and void in Jeremiah 4 is not there I behead the Earth and lo was without form and void and the heavens had no light so the words without form and void is he used is it descriptive thank you is descriptive he used to describe a state and one thing we see about that state is that the heavens will have no light that's why the very first thing God in one after he said the Earth was without form and dark upon the face of the deep and God said there be light so darkness is there so go back to

Jeremiah Genesis 1 the Earth was without form and voice so since we know Earth can be used figuratively to speak of people not just the ground Darkness upon the face of the deep now you are thinking Darkness upon the face of the deep why using Darkness because Darkness can be used with the surface of the but you can use Darkness also to explain people so you now use face of the deep so that already shows you that use of the word face of the deep is also descriptive now in my study on figures of speech when the same word begin the same word be the same word that ends one sentence begins another sentence you already know that there's a figure of speech being used in the beginning God created the Heaven and the Earth Boom full stop and the Earth the same word say no sir is and the Earth it's and the Earth that ended the first sentence to whatever way you want to try to confuse what I am saying it cannot be confused say you said the the same thing and the Earth so that is how you write like sentence beginning so so just like there's an aora there are also there's the opposite of it so another word what ends a sentence begins a sentence that means pay attention that's grammar so if I'm ending what I ended sent what I'm beginning next sentence I'll give you an example uh cristano Ronaldo now you know I don't I'm not his fan but I cannot say he's not a great footballer so I'm going to use him so we say Cristiano ronal has got his 66th hatri are you seeing it that's a fit so Cristiano Ronaldo has scored his 66 heart tricks what a player he is a very skillful one for that matter we pray to have such skillful footballers walk the air again because footballers like that are very rare on this earth now are very rare on this so I want to continue and now say this Earth this Earth this Earth has also been graced by other Legends notice what you are focusing on what exactly am I going to say that continues that one what exactly am I going to say so once I now start mentioning P you say ah you know know they talk Maradona I'm not saying this has been graced by Legends before but we pray to have men like this Ronaldo Messi again in this hour if our children will not enjoy football you get the point they W know what we are talking about so you see what you are doing anybody who is observing how you ended because in that communication oh this there's an emphasis you slow down just like they do in theater actart not just read it in a boring man read it with emotions you know that as I'm talking if not that I was being fast just now I say this Earth they now say this Earth you already you're already listening that's how they are writing in the beginning God created the Heaven and the Earth and the Earth oh you see you are observing you are paying attention so what's he going to say and the Earth are you following the Earth was without form and darkness upon the face of the deep and the spirit of God moved upon the face of the waters so face of the waters face of the deep is figurative what is spirit of God doing upon water water you have to be intelligent what the spirit of God of physical water silly stupid there's not a teaching like that so he using face of the waters face of the deep figuratively are you there so darkness is the writer's explanation of the state of the of humanity without something that he had just introduced in verse two and the Earth was without form and void and that upon the face of the deep and the spirit of God so the only thing that we are used to here is the spirit of God that does not

look figurative and in verse one God so if God created heaven and earth that God created heaven and earth verse two now has spirit of God if we are going to rearrange this we know that face of the deep face of the waters has to be figurative because he uses Darkness Darkness is the right explanation for the state of humanity without the spirit of God and the state of humanity without the spirit of God so the spirit of God will be used to explain what if there's Darkness there has to be light so darkness is the absence of light are you following darkness is being used to explain the state of man without the spirit of God so the spirit of God will be used to explain what light are you following so when I I be the was without form and Jeremiah 4 the heavens had no light you see the next thing is going to be light because without form and voice another word for explaining Darkness how do we know that's why he uses the conjunction and darkness after I say form and void check it isn't your own so the conjunction and so conjunction is to conjoin either in a cative or in a cumulative manner so we are joining two things together to say something and darkness was upon the face of the deep and the spirit of God moved upon the face of the water the spirit the roak the wind of God moved upon the face of the water so Darkness if darkness is how the right the state of the humanity without the spirit of God darkness is the absence of light absence of the spirit of God so the word without form and void to which means chaos disorder confusion everywhere is in confusion so the state of man without the spirit of God is chaos to without form and void are you following now Isaiah 42 you just keep your hand here go to Isaiah 42 Isaiah 42 now see the use of word Isaiah 42 and verse 5 4 into 5 he shall not fail not be discouraged till he have said judgment in the earth and the ALS shall wait for his law the Gentiles that's the word the Gentiles shall wait for his law his people referring to people verse five th sayth God the Lord he that created the heavens and stretched them out he that spread forth the Earth and that which cometh out of it he that giveth bread unto the people upon it so there are people upon it AB and Spirits to them that walk therein did you see that Spirit to them that walk therein Spirit to them that walk therein give bread unto the people bread is that the word wind spirit Spirit to them that walk there I'll read it one more time th say God the Lord which created heaven and stretch them out he that spread forth the Earth and that which cometh out of it so by using it is your mind going to be on people yes that's talking about ground ground he talking to sand no that which come out of it the people cuz he using Earth to explain the people and the emphasis is that he gives breath onto those people and Spirits to them that walk therein you will get it just be calm trying to make complex things a bit simple so that's hard work Psalm 102 two okay let's stay in Isaiah first let's finish Isaiah go to Isaiah 65 Isaiah 65 Isaiah 65 and verse [Music] 17 for behold I create new heavens and new earth are you seen the new creation and the for man shall not be remembered nor come into mind but be ye glad and rejoice forever in that which I create for behold I create Jerusalem a rejoicing and her people a so when he say I create a new Heaven and Earth is it empty globe or it has to refer to people so new heaven when you say new let's assume that what you mean by Heaven and Earth is uninhabited where does that exist So when you say what we are

looking for is a new Heaven and a new Earth you don't want it to have people okay how does that make sense if there's a new heaven without people why you always want to remove the people when you hear new heaven new Earth or Heaven and Earth don't remove people because without people then there's nothing so the writers are not thinking like that that's why when you say new heavens and new in in Revelation you now say a bride how can Heaven be called a bride a people a bride prepared so he used the word create follow so that you see that Moses using that word create is not new Genesis 1 when he said and the beginning God create Psalm 102 and verse 18 this shall be written for the generation to come and the people which shall be and the people which shall be shall praise the Lord so this is where Paul got his teaching on New Creation from it's obviously because is reading so I did he now know that there's a new creation because he has been seeing all this word of create create create so there's a people that God is creating Hallelujah did you get it so go back to Genesis 1 please pay attention though because we not just for the fun of it explaining properly but so that our practice will be Torah it's not just for the fun of it so the Earth was without form and word Now read it without the figures without the manner of speaking that what figures of speech is the Earth so remove the Earth and we put what the people or if you want to supply the ellipses the people of the earth remember this beginning is not before any human being was born it's Moses writing thousands of years after and the people of the Earth was without form and void and darkness was upon their heart ABI and the spirit of God moved upon the heart of men face of water Waters is being used to explain men Waters is being used to explain men don't take my word for it take my word for it so d upon the face of the deep is reference to the state of humanity so Humanity without the spirit of God face of the waters refers to humanity I am not sure is it Rivers Waters is it rivers that they used to determine locations are rivers used to determine the locations of towns and cities the river serve as borders to divide land is this the ancient world will they take rivers and water dividing land seriously okay so if they take it seriously and they are using Waters okay as the waters cover the sea is it literal water God wants to cover the sea where we say the glory of God covering the Earth so water has covered the sea is using water is using sea AB but he having figurative use beautiful so Genesis 2:10 and a river went out of Eden to water the garden and from T it was parted and it became into four heads the name of the first peon that is it which compassed the whole land of har Villa just told you that the river is passing through land is so you can use that to explain the whole of her Villa and the gold of that land is good there's bellium and the O Stone and the name of the second river is gon and the same is is it that compassed the whole land of ethopia are you seeing that Rivers is passing through land serving as borders using to determine the location of towns and cities are you with me so right from Genesis Waters and rivers have served as imageries for Nations and people water and rivers is being used as imageries being used to image what he's teaching so Darkness was upon the face of the deep is reference for the state of heart without the spirit of God so look at verse three and God said let there be light and there

was light and God said let there be light and there was light and God divided the light from the darkness and God saw the light that it was good and God divided the light from the darkness now dividing the light from the darkness don't give up yet be patient Ephesians some people get tired easily once you are making them think they get tired that's why I said don't give up Ephesians 5 verse 8 for ye were sometimes darkness is it people is referring to as Darkness so people are referred to as darkness in the Bible it's easy for you to say I'm the light of you not be light and you forget you're not a bob you son but you know it's figurative and you easy claim it why now you are reading Darkness once you your mind is running to sun moon and star remember that thing I always say return the hand back because son and moon have not been created in that chapter one so why is your mind running to Darkness caused by sun moon and star because you want it to be a perfect creation story and is not telling creation story for the sake of telling creation story telling creation story to tell of a new creation you read Bible is just now looking complicated complex so also is a Child Learning something for the first time all they like is cartoon Coco melon Baby Shak that's all they want that's all they want but you know you will destroy that child if all you give him is baby shark so you have to teach them to be so he always going to look T that's how the Bible is is not the B is not for cees serious Bible study is not for lazy people and the Bible has intelligent design just like we often tell people that uh he don't do this to your girlfriends or your wife somebody told me he said to his uh girlfriend this movie is not for it's not for you just stick with your love F so later I done on him that it look like insult but the lady not get his scope so he was happy I got save media so the lady not understand because the F involved thinking and the lady does not like all those kind of thinking no not an insult I mean he know it was an insult but the lady did not even know he thought it was just he was using to say that I don't get power to interpret this film because you have to have watched one two three and you just like so that's why the father said what he said he said I don't get time for this just stick with your Indian my stick with all this your I don't have to be explaining now you see there are many movies like that does not demand you to think but there are some movies that you are watching look like you are thinking a lot yeah the writer wrote it that's how the Bible the book was written for you to think because it's called words it's actually for a learning the book The thing is written for you to learn so it will obviously stretch your intellect so if it's not stretching you then you should know it's not a book it's like reading MTH book and you're wondering why you are learning you should be learning now that's what I'm saying I'm trying to that that surprise that you always have when we are not explaining Bible like why why why Baba book that's why is a book and there's no text book that you don't have to explain that people don't think thank you why they making it they're not making it complicated when we touch it two three four five times when you read it again you no longer see that that was hard before so Ephesians 5 it's easy to see Darkness but the issue where did the episodes get their teachings from where they get their teachings from Genesis to Mali so how can they all of be referring to people as light Darkness you were light you were Darkness Ephesians first

Peter 2: vers 9 you are children generation called out of Darkness AB to show forth his Mar called out of Darkness so nations are in darkness I was in darkness called out of Darkness they that sat in darkness have seen the great light people are sitting in darkness never chair so you know that figurative you see Darkness Darkness light Darkness light used for people why don't you want it to be like that in Genesis 1 because is a deep teaching where he's compressing those Theory expression inside what he's teaching because that's what God is restoring so there's an order so in the beginning God created the Heaven and the Earth in the beginning in the Harvest what is he harvesting what you planted so what is God looking for in the earth Heaven and Earth together Heaven and Earth together man and God God and man together the visible and divisible together thank you that's his plan you can distinguish it but you can't separate it God never intended to separate Heaven and Earth how does this relate to unseen forces how does this relate to I just want to wear my high heel enjoy my makeup do my fine thing when you call me I will also be doing my own makeup very un serious attitude say m is just to relax all this stress I'm going through Baba you still be small ping life have not stressed you that's why when life start stressing you realize to whom shall we go is he high he you will go don't you have all the high he makeup in the wardrobe is that what you turn to in the day of adversity those are your weapons thank you I don't know why when we are saying serious people start I see I'm not gotten this say I not got this okay oh and face mirror since that's the one you get dig that because you can dig that for two hours you are digging it laying Foundation any other thing that take time offends you very unserious attitude take your life seriously notice the man I said it so say leaders don't quote me wrongly say Pastor say take your life any you're talking to somebody say take your life seriously it's not be like that now a leader know who to refer to like that and say it within a context if not you run we're trying to encourage the Pres to come now the not coming again say he told me and I'm not serious that he look at me he weep you a leader lead better know how to use words communication is essential so God said let there be light and there was light so what God bringing light so God saw that the light was good and God div the light from the darkness so the dark like I told you so there's a creation here so he dividing the light from the darkness God called the light day and the Darkness he called night did you see it so day one day two day three note what was done day one day two day three you know notice that day four mirrors day one day five mirrors day two day six mirrors day three so day one that let there be light when you get to day four you now see light also in the heavens let's jump there hope you are learning so the word divided is to separate so say he divided the light from the darkness he separated the light from the darkness so were there two Humanities in verse 2 and three he has separated one Humanity from another Humanity God separated life from dark separated the people that have the spirit of God from people that does not have the spirit of God separated the people of light from the people of Darkness all right why because before there was ever a fall God already have judged that when man is away from him away away from the light man will enter into a Darkness so now that there's a Darkness God does not

change his sermon say you know that we are genz whatever that means we are in this genz generation you have to understand generation go and calling you to pre to no the message is timeless the spirit is boundless don't be stupid don't understand any genz go understand because there a way the young people today Vibe you have to understand their reading huh the scriptures are timeless the issue you have is that you don't know how to communicate there isue nothing wrong with God's word the word is timeless his spirit is boundless we can't box him and say there's a new gen Z generation no no no no no every generation the word of God remained the same and if I'm your pastor you canot listen to me and be D you listen to me you become an intellectual you'll know something said God's word sharpens your IQ your IQ should go up not go down because you came to church church is not the place for eroding IQ say yeah you submit your brain with the ushers no yeah you use it you use it give me take your seat no when you need it you need the brain ah you need it to so Genesis are you still there so observe Genesis 1:1 to3 so we read 14 down to 18 and God said let there be light in the firmament of the heavens firmament is just the word space so space surface let there be light in the firmament of the heavens so old English F of the heaven to divide the day from the nth are you seeing it to divide the day from the N how come there was day and night before there was sun moon and star yeah because he's not teaching what you think he's teaching you see there are many arguments you can be having so you realize that the creation is teaching another creation read it properly and God said let there be for light in the firmament of the heaven to divide the day from the night and let them be for signs and for Seasons the season part I can understand about sun moon and star but this signs let them be for signs light in the are for signs and for season I can understand the season part I can understand the days and years part but this signs part looks cryptic you are being honest someone for science no of course you know what it mean b you have been a member of this ministry for a long time you will know what it means however but you have never heard that before signs which is signs seasons is easy to figure out let them be for light notice the light will never for heat never said let give heat let he prep them and God said let there be light in the firment of the Heavens to divide the day from remember the word divide he divided the water from the water are you see that there a teaching going on he's dividing he's separating so that means he's teaching something he divided go back he divided what let there be light in the frament of the heavens so divide the day from the so are they already corrupt supernatural beings so we are dividing day from night we are dividing now before you say the word divide is Ed a lot in chapter one Baba Li you lie I'm almost divide God divided the light from the darkness that's verse four AB the next time we saw the word divide was let it divide the waters from the waters in verse 6 and 7 after that we now saw divide we don't see it again in Genesis chapter 1 so to say that everything God created was dividing dividing No Moses used the word divide because it's the word used to explain separate where you now get Holiness removing one from another so to distinguish that this is different so the fact there is a contrary part means there's already a fall so he's using words intelligently so go back to our

14 notice he didn't say for heat I repeat it again because originally the sun and star was not to give heat it is the corruption of the earth that produce heat because the Earth is aging it was supposed to give light AB now the light is not burning light it's burning because it's dying aging that been corrupted by our fall our Rebellion because we have a work of renewing the Earth so God made two great lights the greater light to Rule the Day and the Lesser light to rule the night see they already using the word rule r u l e that's why principalities can be called rulers of Darkness now let's take it slowly the word signs the word SS is in your own let there be light in the firmament of to divide the day from the night and let there be for sence that word sence is the Hebrew word OT that word OT simply means signal signal so signs a beacon an omen an Evidence a signpost that word OT AG it's gotten from another Hebrew word Ava which is to point out that's why you call you can use S post to point out when you are pointing out something look at the idea Genesis 9:12 and God said this is the token that's the word sign this is the token of the Covenant which I made between me and you the rainbow is what is calling this is the token so there was a rainbow in Genesis 9 so that rainbow is a token Exodus 3:12 and he says certainly I will be with thee and this shall be a token unto thee that I have sent thee when thou has brought for the people out of Egypt You Shall Serve the serve God Upon This Mountain this shall be the token making sense Isaiah chapter 8 Isaiah 8 and verse 18 behold I am the children which the Lord has given me are for signs and for wonders so is that pointing at something so the light in the heavens the sun moon and star in Genesis 11:14 are symbols that point or explain what is in heaven so there are symbols that point to or explain the term heaven in Genesis 1 verse 1-2 so it's another way of I'll put it on that way the lights in the heavens are signpost symbols of the heavenlies so he uses as symbols to explain Heavenly beings so it tells you that the someon are symbols they pass a message to any person that's why the ancient use it as a sign that is a Creator because it's a sign the sun moon and star is a sign so the sun moon and star is a sign they are Pointers indicators of supernatural beings on the earth so when you see sun moon and star they indicate that they are natural beings on the earth say that's too strong okay the sun moon and star are they Cosmic elements in the sky or they are not so they indicate that there's something say something that there's something about this Earth put it another way the sun moon and star see in the atmospheric Heavens are indicators of things that are in the Earth that are not natural are indicators of things that are in the earth that are not natural so the cosmic elements in the sky indicate that there are Supernatural things in the cosmic Earth so the sun moon and stars are Pointers or indicators of supernatural beings on the earth hence after Genesis 1 host of heaven will be used to explain Angels supernatural beings because they are already been explained as they are a sign so in Acts 14 acts 17 Paul preaching to Gentile Nations says that God giving you rain son it's a sign that there is God when in that acts 14 where they tore their clothes and say we are human being where they thought that they were gods they use that teaching so the sermon and stars point to something Romans 1 says the invisible creation is known by the visible creation so there's something you see

that showing you that there's an invisible hand look at the son how can a man have made that are you following ah it say something so the asent were very intelligent unlike us today that are two scientific agreeing that big bang produce how can big bang and if you tell the man that is writing that teaching that big bang also produced his book it would slap your eye say after my years of research you say it just came to be my book just came to be you know how many professors sat over this book so to imagine that the people that love science will Design and say whim X you can tell that don't take science too seriously now we no longer we refer to our as we men it's now we X and that will now make it to dictionary w o m y n as a word because you don't want to do women don't want to we cannot be referred to women for that to make dictionary alas be careful how you embrace all that you see I was born a male but I do not identify we are praying for you oh God not identify why are you not identifying with what has already been identified are you with me yes deom me 4:19 andless thou lift up thy eyes into heaven and when thou seest the Sun the moon and the stars and even all the host of Heavens shouldest be driven to worship them and serve them which the Lord thy God has divided unto all Nations under the whole heaven so people are worshiping smon and star because they know what it indicates so they not worshiping the smon and star but they worshiping what it indicate they are see that indic Supernatural amongst us are you following so Theon and sty in the cosmic in the atmosphere show that the Supernatural is here the supernatural word is also yes so the Unseen word so it's a major pointer Hallelujah now this is it so as we round off for today I wanted us to put a big marker so it's clear that the world that God created said have seen and unseen so what are we teaching unseen forces as we go on you will see that these are the words used to explain supernatural beings host of heaven so that's the reason why I'm laying foundation so that you are not shocked when we start seeing host of heaven we read one First Kings 22 when you read first 22 19-22 Jes God set up his throne and there's the host of Heaven round about that cannot be physical sermon and start round about because every time you fly on the airplane you are not seeing some you're not seeing God's Throne you are not seeing some moon and star so those are indicators how the ancient used to explain Supernatural things remember we saw Hebrews 11 remember how we started that in explaining their faithfulness in explaining the faithfulness of God the sin will be used to explain the Unseen so the Unseen will be explained with the sin does that start with Genesis chapter 1 so the same way a tree will kill a man a tree will bring death which tree be that one it can't be a physical tree now there's no tree that that has that is called death and yet Adam ate it and was still alive and yet he died that's already teaching you something the Tree of Life the tree of the knowledge of Good and Evil so what is the tree knowledge because the fruit is knowledge of Good and Evil so it can't be apple Hallelujah are you with me Deuteronomy 30 and this is the last text we'll read for today Deuteronomy 30 and verse 19 so if you don't know what heaven and earth means in the Bible that for you Heaven is where dead body day where dead people go go which is an unbiblical meaning of heaven but look at Moses 13:19 I call Heaven and Earth to record

this day I call Heaven and Earth to record I call Heaven and Earth to record this day what is Heaven and Earth recording this day that I have set before you life and death blessing and cursing therefore choose life that both thou and thy seed may live so I call Heaven and Earth to record this day I call Heaven and Earth to record this day against you so was Moses calling beings in the unseen and man in the seen to witness the instruction is given to the audience thank you see how Moses makes it normal he's talking to people he says I call so he in other words the audience know that unseen beings are with them we are still laying foundation so because I don't agree that there's unseen forces in life now we they do so you will see it that it is impossible to live your life and not jam on sin forces it is impossible to go one full day and the supernatural has not influenced your day whether you prayed or not you can't go one full day without the supernatural influencing it because supernatural beings are with us look at things that you normally you just like it's a normal day now K just killed AB John first John says us King was of the wicked one it was a murderer it was Genesis 14 God said to why Satan Fe your heart so Satan seeing light at your door AB Satan devil is mentioned John mentions M that is the devil that influenced so there are there five there are five sources of influence on the earth AB either God influences you or good supernatural beings influence you angels of light influence you or bad Angels which are devils influence you or good people good human beings influence you or evil communication bad people influence you so either God influence you or his Spirit influencing you or good Angels bad Angels good men bad men which you can be inside the good or the bad men when you are are influencing you also and man is a prod of influence are you a me for of influence when you read Heaven Earth in the Bible Don't just run off to Sky say our father in the sky whatever you bind in the sky all the use of heav the Bible should be Sky it won't make any sense no or Heaven as a planet whatever you B a planet far away a planet far away on the earth which one how does that make sense heaven on Earth you say a planet fly away so are you withen look at how easy you would have seen that battle that day Goliath and David until David said you come against me with sword and spear but I come against you in the name of the Lord look how easy s is going to battle why do you have to consult The Witch of Endor to go fight are you following look at Jesus in The Garden of Gethsemane you just think that is just Judas just came just just drop the keys there Jesus said this is the hour of Darkness unseen does he reach there yes what you just thought was just noral just noral noral it's not so man interplace two words the heavens and the earth and the invisible word as we have been teaching over the years on Heaven and Earth the Unseen word is here so Heaven is the nonmaterial word here the invisible word yeah the Unseen word yeah Earth is the visible word yeah everything is yeah Hallelujah everything is hallelujah glory to God the Unseen so they are unseen forces whether you want to believe it or not that's why we're taking our time so that you will see that it is in the way God made the Earth he wired did with the Heaven and Earth were were interlaced together it can't function alone there has to be a supernatural element every day if not it's not a day there is no day or night without any without the

[illegible]

Supernatural
