

wrapped attention Tong so thanne your breath I'll be blessed because I came Hallelujah father in the name of Jesus Lord we thank you open our hearts to your spirit and we trust again that in this service the eyes of our understanding will be flooded with light we live here with the Deep seated understanding of what you have done for us the kind of man you have made us to be and how we function in the Unseen World again in this service we declare that the things that ought to be said will be said the things that ought to be done will be done to the the praise and glory of your name and we declare that our lives and our Ministries will never be the same again we open to the mighty workings of your power in the name of Jesus amen God bless you have your seats and turn your Bibles to that amazing book of Hebrews what a book Hebrews chapter 11 and we started this journey reading Hebrews 11 and it's come it's fitting that we end this journey reading Hebrews chapter 11 now Faith is the substance of things hoped for now Faith is the substance of things hop for the evidence of Things Not Seen so the Bible tells us that our faith would be if we're going to study faith faith is a matter of the Unseen faith is a matter of the Unseen Hallelujah faith is the substance of things hoped for the evidence of things not the evidence of things not and the use of the word not sin relates to Invisible events immaterial beings or events and the word faith there we said is the word the faithfulness of God or our faith in the faithfulness of God so Faith or the faithfulness of God in the scripture because he deals with the Patriarchs the men of old Genesis to Malachi men is what is referenced in chapter 11 the Genesis to Malachi men are who is reference you know Daniel is there Daniel's name is mentioned there all right so you see the men he mentioned there are pre Exile and post Exile of the train of Israel so that will cover Genesis to Mali so he mentions those people and it says faith or the faithfulness of God was expressed was seen as the substance of the things they hope for or was expressed as the evidence of Things Not Seen and they said the word things there it deals with events happenings Hallelujah so the faithfulness of God or their faith because you know Faith or believing is a natural response to God's word when you hear God's word you're normally supposed to believe so since there's the speakings of God a lot of utterances of God in Genesis to Malachi so it says faith because if You observe the faith here is not I believe I receive a house I believe I receive a wife notice the faith he explained here are quite extensive Doctrine it has to do with the promise of God has to do with what we call the gospel today amen so the faith or the faithfulness of God is expressed as the evidence of Supernatural events the evidence evidence is the word proof so the faithfulness of God is expressed as the proof of Supernatural things or events or happenings the word substance of things hope for the ground of things hope for confident expectation hope is the what the definite outcome hope can also be a greater fact a greater reality just like it says Abraham who against Hope believ in Hope he had a greater fact Hallelujah ver two for the elders obtained a good report and we said the word obtained is not the report card obtained is the word they were witnesses matal to witness they bore witness the elders there are the Patriarchs the prophets they were representative spokes person they bore witness they bore witness of

the Unseen World evidence of Things Not Seen the that's bore witness of Things Not Seen so we said that they bore witness of the seen word that their words and their writings must be read in the light of the supernatural world view their words and their writing must be read in the light of a supernatural world view true faith we understand again what is that Faith through the evidence of Things Not Seen remember you always have to put that together so when you saying Faith don't give it your own meaning through the evidence of things not seen through the proof of Supernatural events and things we understand that the wordss the word worlds there on periods of time cycles of time Generations were framed knit together kit knit together prepared restored order in chaos so that we're framed by the word of God so if God's word can frame the periods of time I think he can do a better job in our lives so that the things which are seen so that the things which are seen were not made of the things which do appear you you get that so that the things which are seen were not made of the things which do appear so the Bible has both the sinen and the Unseen word the Bible has both the sin and the what so there is a spiritual context of what is being said and done and the man that God created interplace between the seen and the Unseen World Hallelujah that's where we interplay between the seen and the Unseen word hallelujah and first Thessalonians chapter 5: 23 says that man is Spirit soul and body and I've told you over the years what that means it's not for you to divide man into three parts the very God of Peace sanctify you holy and I pray God your whole spirit soul and body be preserved because when you actually get into Bible study you will find it difficult to divide it into three parts like that because the word soul is used to explain the entirety of man there are more references of Soul being used to explain the entirety of man than you looking for a path that has has mind intellect and Will are you following and I think many years ago we did a study on that and we're going to do a study on that again this year just talk about the whole mans just rush it and we said man is Spirit soul and body so the spirit is used to refer to man the soul is used to refer to man in the Bible I mean look at an experiential book like Revelation I mentioned it in this series that the word soul is the only word used to explain human beings the word spirit is not used because in an experiential world only supernatural beings should be referred to as Spirits because in the realm of the Unseen they are the ones that are actually spirit in that world we are physical in this word and we are not physical in the Unseen word but they are spiritual in the Unseen World and if they are they can also be physical in the physical world but they don't have a physical body we have a physical body we don't have an a supernatural body we have a physical body and that physical body is going to be a glorified body amen hallelujah our bodies are going to put on immortality amen so in a book that is very experiential just like the book of Acts you see how he used the word Souls 3,000 Souls 5,000 Souls your his soul is in him even look at Jesus's use of the word Soul Jesus used it for the word life l i f e his soul what shall he provid a man to gain the word and lose his soul soul you can't say oh to lose his mindset to lose his intellect that's quite lazy and that's why we said don't study your Bible with a reduction mentality there a theological name for it reductionism you always trying to reduce

things trying to just can you just put it in one sentence for me no we can't we can't always be putting this in one sentence one sentence one sentence I know you like key point and summary but nobody gets intelligent with key point and summary can you just put it in one sentence we can't be putting things in one sentence that are extensively taught amen so we see that Bible words don't have a singular meaning and sadly sometimes even sound teachers make the same mistake after saying it in their explanations they begin to use generic words like that and give people the idea that okay this word everywhere which is not helpful which is not helpful and that's why Bible teachings must be extensive so when you ex when you get excited that it's very short and you are learning on a doctrinal topic it's your life that you are playing with it say very short ah that means you don't have any understanding can't be is say I'm going to learn about supernatural angels I'm going to learn about supernatural beings for 45 minutes I know everything about super which kind of which kind play be that one like just tell teach me about faith in 30 minutes which Faith because we have to you see the word now you have to ask which faith I 30 you see even to get somebody born again the past 30 minutes to explain Jesus Christ to somebody ah so which Faith are we doing say just rush it just rush it just rush it no so we said when God breathed into my Genesis 2 Man became a living Soul the living Soul so man man is a living soul man can be referred to as a soul and don't get scared of that and we said the Bible characters now develop other words that they use the word heart the word life the word heart the word mind conscience they began to use all that words and we can put it a very simplified form but sometimes trying to make Bible Doctrine so simple in itself is a challenge the Simplicity is to is not to distort the meaning get that Simplicity is not always reduce it Simplicity is make it free of ambiguity make it free from uncertainty make it free from inaccuracy so when you he simplify don't always he reduce it it's not mathematics and even with mathematics we still have to show our working hallelujah amen so say I just I think this is 23 part message I can just into the last one and I have everything I need what a joke say I listen to the first one I listen to the middle one I listen to the last one I just put it together then you not quote me Pastor you said it's not me oh time when you give people the opportunity to ask so you not realize how they year that that's actually how they hearing they Hearing in a reduced form like when I put together what you said ah this is what I got and what they are said a far cry from what you thought ought not to be so amen Genesis chapter 1 in the beginning God created the Heaven and the Earth in the beginning God created the Heaven and Earth and we said the together should not be separated you can distinguish them but you can't separate them because God did not intend Heaven and Earth to be separated and we explained the three wordss that man functions now was two at the beginning the sin and death produce the third part so that man in sin and death will be somewhere and supernatural beings in sin and death will be somewhere which is called hell Philippians 3 says at the name Jesus so our name of Jesus we use that phrase on Wednesday I know you like it I'll do it again our name of Jesus not no no no is in the name no no no stop pointing hand in push it our name of Jesus because we are in that name

you're a child of God he has s named you our name of Jesus sir is powerful in heaven Earth and under the earth and the reason why the biblical writers use such terminologies for their cosmology is because they wanted Their audience to understand and because the Bible is an ancient book what does that mean the biblical writers were not 25 Century men thinking with our 21st century intelligence and words and phrases so we are wicked when we want them to reason with 21st century words we are wicked when we want them to reason in 21st century words they cannot reason with 21st century they cannot because they don't have it we want them to be very scientific you are bullying them you will be bullying Paul when you are telling me about I came to the meeting with a private jet private jet Jet Jet we check the language is a phenician word for a donkey jet flying jet flying jet is that is that a word for an ego in a language maybe that's ugaritic you have lost him you can't say you communicated to him you would not understand what you are saying private I flew I came private jet private what what what does that mean you notice to explain you say it's like like it's like it not get you find another it's like it's like so you want pre scientific men to use our words and PHR so that you have understanding I mean that's then you are the one that is not smart not them if you can't figure out what they are saying with all your sophistication then you are not sophisticated and so we can't bully Bible writers to think like us instead we think like them and that's understanding we don't give the verses our own meaning we take the meaning in the scriptures amen and we must be careful of proof texting I have something in my mind and I go into the Bible to try to give me meaning no no no no so our name of Jesus is powerful in heaven Earth and under the Earth that what we say is what we see hallelujah our name of Jesus is very powerful in heaven in Earth and under the Earth the Unseen word yeah Earth the sin word yeah hell heaven and earth a way or outside God's reality outside God's promise outside the system of functioning so another word for that we just say hell is a Dominion of death or place of the Dead that know what is called sh he this the place of the Dead is outside life outside his life outside his origin amen hallelujah and there will come a day where sin hell and death will all be kind Lake of Fire and there will be no more amen and all we will still have is Heaven and Earth we talk did all of that in this study we talked about it here there so quite an extensive study we've done so far amen we said our choices also matter and we said how our choices influence what can influence our choices and we said five things can influence our choices ES five things can influence our choices five forces that can influence our choices or force is any influence that tends to change the motion of an object I think that's a basic definition everybody knows force to be so our choices matter can our choices be influenced by the Holy Ghost absolutely yes he said the Holy Ghost B me go you see that in Acts 11 Peter said I while Peter was thinking this the holy spirit said go with them doubting nothing the Holy Spirit influenced the was thinking on it in Act 10 why Peter taugh on these things the Holy Ghost say three men follow them doubting nothing then in chapter 11 act Peter said the spirit B me go so I can be influenced by the holy spirit is that not so have you been influenced by the holy spirit before yes sir have you been led by the spirit of God before

yes sir that's acts 11:12 and we can be influenced so influenced by the holy spirit that will be influenced by God influenced by the Father the Son however you want to explain uh the whole concept of the Trinity so I find it hard to explain it is good like that just let it will forever be hard to explain because there will never be a natural example good enough to explain Trinity every time you try to use water make a as you improve your Bible knowledge you will see that is not no no no no I can don't explain it just believe it just believe it just believe it just believe it great is the mystery of godliness God was manifest just believe it is to believe it is not it's not to your faith is your understanding there are things that we don't understand and that's there's no problem there that many things your child does not understand for those of you have children but you are able to take care of them regardless of their understanding they don't understand where the food is coming from but they have food all right so don't over exaggerate understanding when you have a good father all right are you get don't exaggerate what okay so by the Holy Spirit then we talked about man can be influenced by good Heavenly Host is that so is that so man can be influenced by good Heavenly Host supernatural beings have influenced man's decisions over the years the good guys not the bad guys Abby look at how the angel Gabriel affected Mary in Luke 1: 26-28 did you not influence her or he did not what about act 8 the angel that told Philip arise go towards the South told him to go into the Wilderness is it your Bible so nothing can influence my decision so I mean what about in Sodom those angels that told lot to leave did they influence his decision you know he had already mapped out how he's going to live there forever and ever he has even finished building his house all right that's why was that's why his wife could not look back which is not physical looking back obviously this stupid how can you look back physically and turn to pill of s is a figurative expression of she went back into Sodom because her heart was in Sodom so she went back I've explained this over the years it's not to 10 neck because Abraham was facing Sodom nothing happened to him it's not about looking towards Sodom it's not about looking towards s Bible phrases have Bible meaning AB looking back is not turning neck so good Heavenly Host what about bad Heavenly Host so we see that also evil supernatural beings also have influenced people's decision John 13 Satan entered into to John the Baptist AB I Satan enter into Judas Satan enter into Judas AB John Chapter 13 John recorded it what about David David was sted up by the devil to number Israel 1 Chronicles 21 so evil supernatural beings can influence people's decision is that not so okay what about good human beings and good here we don't just say Christians I use the word good in a generic sense of the word good because there are unbelievers that that have influenced to do good thing all right so good good persons have also influenced you then bad persons can also influence you AB say I need a Bible vers it shouldn't be alive there's no reason debating with people like that ABA what you need a Bible verse that shows that human beings have influence human being you first need to know if discussing with a human being a human being needs the question the person is asking is you trying to influence them now because if I give you the answer the thing you are saying you don't understand say I I don't think I

need the Bible ver that another human being can INF another human being show meh it's it's kind of like the same way today somebody says what the does this preacher have to say this preacher that teaches sound Doctrine what does he have to say about God meeting our needs you have been duped if you need to type doctor Tam Tam Tam what he has to say about you don't need a Bible verse when God is even telling you to give to people you need a Bible vers know that God cares about you having food say I don't know if God cares about us having food ah I don't know if God cares about us having things ah you don't need a Bible for that it's quite lazy so preacher says um believing in God is not for material things he say oh get it so they are saying God cannot meet our needs nobody said that you're just hearing voices you're hearing voices L to because I did not believe in Jesus because of food to eat neither did I believe in Jesus as my Lord because I needed cloth faith in Jesus is not faith in material things that's simple everybody knows that is so that's why we say You must be careful how you now preach the gospel so hermetics is Bible interpretation hom is how you talk because sometimes how you say what you say can give people the impression that what you are saying is wrong and many times if you cannot say it well it's because you didn't study it well because what you are saying is what you know so if you know it well you can say it way hallelujah amen so man is the product of influence is that not so Hallelujah man is a product of what man is a product of influence how do you know an unseen being is involved in a matter when you see a common sense of thinking and behavior a common sense of thinking and behavior a common sense of thinking and behavior when we speak in faith or express our belief supernatural being could be involved in that because every time we speak in faith supernatural beings act on it or against it what about hearing God's word when we hear God's word are supernatural beings involved yeah we see the par of the so Satan came for the word say Satan does not really have time for me hearing God's word no he does you actually reading your Bible upside down Satan came for the word AB be the power of the makes it clear that Satan comes for God's word that you are hearing comes for God's word that you are hearing so that it will not bear fruit that's why he resist our preaching the gospel Paul says a messenger of Satan to buet me so when we carry out function for God Satan also is involved supernatural beings are involved they aid you in carrying out function for God and some also resist you carrying out function of God hallelujah what about when a human being seeks to leave in his natural ordination as king priest and prophet and that natural ordination is spiritual whether saved or unsaved remember we say Satan is not the one that is making anybody a priest of anything is that man by Design is a temple either you are a temple of God or a temple of Satan is what you yield it to so Satan is not the one creating the nature within human beings called priest that you see that's a priest of h no it's not Satan that made him a priest is the of H that is the devil there not the priest that function is of God Amen that King priest function is of God and every time a man seeks to stand like that either has God back up and God and supernatural being back up all powers of Darkness back up is that not so seeing that over the years also within the study of the scriptures what about our interaction

with the unsaved our interactions with the unsaved can supernatural being be involved there light and darkness our interactions with the unsaved and many times this where I Tau you the power of discretion you must be careful what you say to the unbeliever because sometimes the way devil Satan knew what you were planning to do was because you could not leave social media alone you always had to tell your friends keep them up to date you know it's a cost it's like a drug once you are addicted to social media it can actually kill you all you everything you always you can't stay without your phone you have to tell somebody you have to just tweet it put it out there put it out there as you get older in life you realize that people don't care people don't give an f about what you are going through the people that care you they did not need Facebook to know what is happening in your life I'm telling you you learn it and you have peace you don't don't see it as a need no no my wife just give better I have to inform my friends nothing wrong to please don't the baby and the B you can do that but I mean let it not come from that edge that if I've not put it there they will not know then they are not your friends then they they are not close to you people close to you ask about family how how your family even the ones that say ah big head how you did that you know how women don't understand it's males that understand that because how how males throw B I say don't born again say yeah yeah of course it don't mean it is just just talking women mean their own when they say that men don't mean their own and I'm not talking in Christ Jesus I'm talking based on the societal default and many times that societal default we keep reaping it because male and females are not ready for Bible conversations we not ready for Bible conversations we're ready for a lot of St stupid conversations that um this how women are this how men are all those things I just see as all um choosing to act unsaved say this is how women are but you are in Christ Jesus now there are no fruits of the spirit for male and there are fruit of fly spirit for females we have the same fruit you say no no no but you know that's not how it really works with us women we got not call us to study the female psychology doesn't mean it will hurt you if you deal studi it but that's not so you can't hold me responsible for not knowing it then you tell me that's a healthy human being you cannot be holding me responsible for what I did not know I should not read a book called understanding women because the one I read in the Bible about women is enough because I'm supposed to relate with you in Christ Jesus not this how women normally are this how men normally are you know we men are normally proud and stubborn talk for yourself and your father leave us you know we women are normally witches talk for your mother and your sister leave the rest of us don't generalize all women all men and every time we say that because you always find an exception to all of those things you always find an exception to all of those things Hallelujah and if there are no exceptions then you are feeling as a Christian because you should be an exception to those rubbish tags it's very hard it's very hard to say woman that does not nag it's not you just find people that don't pray it's not hard very hard to see it's very hard to see a man that does not cheat you are mad s we tell you all those generalizations are not good generalizations are because and those are the things that also shape life every time you

are working you are looking for something behind cobweb something there something behind the c nothing you can't live life again there's a true story that a Visionary shared about an officer who wife committed suicide because the man used to come late to the house and they not know that it was always because of work because some higher ranking officers would say hey come and do that because the man was loyer he will always the wife will go through the phone do all of that I I I listen to that this morning I mean very sad story as I listen to it and she he kept telling the wife there's nothing like that the wife said no no no one day he just came home the woman drunk sniper and killed herself for nothing because she just you can't tell me that there's you can't that's how real Satan can make things look I very how we should ask God's word she went around asking friends confirm me say no people can say where I was the woman refused to believe say call call see call my he will not have an issue with you you say you have already told all of them to lie for you say I can't take it anymore you know I can't fight you you know I can't win you because you're an officer s she ended her life without him knowing unnecessary that's why you call Die For Nothing life for nothing that's not how to live life that's not how to live life that's not how to do that say oh you know women when we are in our this when we are in our that when we are that this normally how we are of course the female anatomy responds to environment en responds to different things differently and you do that have that knowledge of biology and all of that however doesn't give anybody the right to be a devil that's just it we can and when we call you out for acting like Satan do not hide behind I am a this I'm a this I'm going through this I'm I'm pregnant I'm in my flow I'm in my this that is not true what is not true it is not true to hide behind that just simply say oh forgive just sorry about that my emotions were all messed up honorable not take me like that oh that's how we are that's not how you are that's not how you are what about the man saying H once my club loses normally I'm a wife bitter once once my club just lose because my emotions my head y used to touch once he P arm was not pounded well once I E I see seed my head used to SP imagine that for you hear my container ah that thing have killed people used to run CU any c around me any knife around me I used to St people what container you are seeing it you know how it sounds say that not happen to your body okay once I just have running stomach I say man since you're looking for what happen no no no no you can't be selective with living God's word you know I say this every time and these things are not to whether you like it it's not Pastor I don't like your Laing is useless to what I'm saying that's God's word there's no fruit of the spirit for male and for female we have the same love joy peace gentleness not say no no no we women are not gentle no gentleness no no we men are not kind you better be kind say we say things you say we don't we don't have time to be kind huh we are brutal talk for yourself I'm inan Christ so say no my temperament is chlorine and we that are chlorine and Florine there's a way we be in Christ Jesus Florine and chlorine I'm a flag Sor I'm a FL sorry I'm a flag I'm a flag you know that's why I always hide I always in on my own I'm a flame m in Christ Jesus don't make normal mood swing don't make spiritual isolation don't make spiritual things that are wrong stop spiritualizing it

amen so our interactions with the unsaved has affected a lot of things how we think how we behave because supernatural beings get involved because Satan is the god of that person you are talking to many times if the person is very deep in devilish things very deep in the flesh opposed to God's Kingdom in his conduct Supernatural there's just no way you will remove I thought it was just Herod and the wise men but not Satan knew I don't have we have taught these things in this serious want say show me the Bible will not show you anything nothing will be shown you other than the sentence I'm making like this is just Herod and wise men where the devil entered there was no devil in the room there was no Satan thatan was not in any chair after that all first borns are been wiped out all babies are been killed yeah is was imagine ask telling the asking the wise man who did you talk to he say her though he said you did not see a horn there was no Satan's horn there was no two horn and a fork it was holding standing beside her there was nothing s he even called for Bible preachers he asked say where is that preacher on and they called they called their name they all came they check through the books and they saw that it's not yet time they check they were checking they said okay seemed like somebody will be born at certain time like this the scribes is not what every not call for magicians so you now say ah there was no magician there there was no s there how do now know the angel of the Lord appeared to the wise man I'm being warned of God not to return back the same way because erod said when you see the child you come and tell me give me specifics tell me exactly where the child is staying hallelujah amen our interactions with the unsaved what about our actions and attitudes as they weigh on our soul act 5 anas and sa must have thought it was just their normal action but Peter that day full of the Holy Ghost operating with the of the sign of spirit say Satan has filled your heart to lie Satan has filled your how did Peter just put Satan inside there but they made up their mind as that they will come and lie say Satan has filled your heart Hallelujah so supernatural beings are involved we look at from the Garden of Eden where it was just two men Adam and Eve the sacred place we see a Temptation we see a fall is that not so where it was can and Abel I mean if you want to just take it step by step from Genesis you cannot remove supernatural beings from activities of men where it was just two men we saw supernatural beings involved we saw the Unseen word where it was Kain and Abel we saw the Unseen word you cannot remove it what about the genealogist in chapter 5 of Genesis anoch worked with God you cannot remove the Unseen word then when that is been explained in chapter 6 and chapter 7 you see again the Unseen word wickedness is that not so the Genesis 6 people the anakims the destruction of the earth debates you see all of that sons of God Daughters of men Noah's leading the flood the act that was Genesis 9 the rainbow the sign the Covenant Genesis 11 the tower Genesis 12 the call of Abraham Abraham and lot parting their ways Abraham battles with the Kings to rescue Lord I mean if you just take the stories step by step you cannot remove the Unseen word you get to Genesis 15 Abraham is having a vision of the Lord the word of the Lord came to him that word we talked about the d The Vision the visible God invisibility AB what about the next chapter 16 hagga and Angels

appearing to her you cannot just I mean just one to genes 16 is what I just quickly ran through for you just now you cannot remove the Unseen word so when you not want to remove it from your everyday life you are the one that is naive you are the one that is naive you are the one that is naive don't remove the Unseen word hallelujah amen you know sound doctrine whatever people mean by that many people don't know what they mean by sound doctrine lacking Bible interpretation can also be used by the devil to distract you that everything everything you wake up in the morning you don't care about acting God's word all you care about is that Bible verse correctly explained what is your life correctly lived is that Bible verse correctly is that so every day you wake up oh that Bible explained correctly you can't pray you can't read your Bible you can't speak God's word over your life and ancestors because you first have to think is this Bible verse correct think you are putting too much weight on yourself than God intended you amen proper Bible interpretation is important and I've told you the reason why it's important is for our worship of God it helps us to know God accurately doesn't is not going to is never going to be the reason or the hindrance for us receiving anything from God God is never I mean that will make God very Wicked that will first wait for do you understand the Bible very well before I answer answer your prayer like the father says I don't you could not speak proper English just now my son I cannot pay your school fees now it's not so out of context in context God have answered our prayers God has worked miracles for us and the reason why we take sound Doctrine so seriously is because of the accuracy of our worship and the accuracy of our living and the accuracy of our relationship one with another that will not misjudge or misinterpret God to somebody or say God is doing something that God is not doing Hallelujah so the believer who seeks to engage Supernatural forces we said number one must give himself to prayer AB we saw if we ask all our brothers and sisters from Genesis to Malachi what did you guys do remember Gen is the scriptures that the apostles had that's where Paul got the fruit of the spirit from so if you have a wicked Holy Spirit from not the same Bible that Paul read Because from there Paul got the fruit of the spirit amen God so loved the word that he gave it was they were reading that's why over the years we have had to correct the idea of an Angry God that is not God was so angry with the what that he sent his son no no no no that your concept of angry God In The Name Of Grace teaching doesn't fly with the Bible because the prophet said God is gracious several of the prophets called God gracious now the difference in their understanding that over the years we have also had to say that their understanding our understanding are not the same and we have a greater light is because of the Holy Ghost within us and because the event of the resurrections that can be used to further explain all that they said and did has now happened it is that light that we have over them come on said that also so you get it that oh and I said last week is the same spirit that says it is Old Testament Miracles have ended it's the same spirit that gave birth to the Canon of scripture is complete so we don't need Miracles today it's the same it's the same it's the same devil the same logic that tells you that those are Old Testament books God should not do why should God appear to you today why should an angel appear to you

today all those are not necessary you have the written word talk for yourself oh is the written word that says that shows us that we can have those experiences I will not with the written word throw away the experiences that the written word says we can have or shows that is available to the man that believes in God I wish you got that so we said the need to pray every time we pray we can actively engage actively just like um in contrast with the div Vance the sorcerers actively engage on sin for that's how we can also actively because we are greater than magician Sorcerers I say we're greater than pile all of them together they're not they're not rich we're greater than the greater one is in us we're greater than we have the Holy Ghost God is on our inside Hallelujah you have overcome them he that is born of go whatsoever is born of God overcomes the world and this is the victory that overcomes the world even our faith every one that is Born Again has overcome the word now we know we're maturing from the least of the greatest but it's not the least of the greatest that gives us our Authority I already have authority I already have all God says I have amen and we know if this kingdom is really a powerful Kingdom the least in our kingdom should be able to beat the strongest that Kingdom that's how you arrange Authority and that's how it is that the least yeah can beat the greatest there hallelujah amen so there's a need to pray and we said Elijah Elisha Esther modah Hezekiah I mean we can go on and on Jesus Peter Paul we saw the example of prayer and every time they prayed something Supernatural happened say something Supernatural happened something superal happed Hallelujah we talked about the cloak of humility we talked about the sides of the spirit sides of the spirit I can see you can get that wisdom by the spirit fear dies when your eyes are open so the Bible teaches us to live with vision open our eyes and see so powerful was sight that Moses told one of the sons of Jetro called ragel or Ro three names used for the same person the same person Jetro Roy depending on the transliteration Moses said to Hob up in numbers of 10 he say come follow us so that you be our eyes we need you as eyes come be our eyes as we go in our Wilderness Journey now Moses is a is a prophet of his own right but he said there's something about you that will allow us to always know where the enemy is so they say walk with us walk with us it tells you in this life select your company select your company select your company aight we saw aijah the shilonite job's wife had disguised herself but she he could still see her say come in daughter wife of jeroob and why have you disguised yourself then told her that child you came to ask me about will not survive he will die number four the sounds of the spirit and we said these are not we're not doing number you know there's a pastor I grew up listening to him very one of the wisest preaches I know just that is uh Prosperity Lord so had to get rid of all his uh the wisdom is still intact but the prosperity teachings it likes seven days 21 and growing up I used to feel like they were actually 21 there were actually seven not that is seven he wrote is seven he knows say 23 this 21 and way he says it you would think that's exactly the number in the Bible there are only nine ways nine wisdom Keys nine laws there are 31 laws in all the Bible H number one the law of the seed access is the seed for opportunity I that can make us run mad those days can preach that thing for one year

sound oh that mean a lot of how I need to leave here all right sounds of the spirit okay careful the things we say so what do we say all the Orr gift will be sound so I can prophesy tongues and interpretation which can also equal prophecy the sounds of the spirit Hallelujah I can also speak God's word in faith and power which can also be called prophecy to speak in faith and power can also be called prophecy but that's not the gift of of Prophecy because this is me knowing what I am actively saying the other one is by Revelation I am knowing what God is saying Speak God's word in faith and power and uh the spirit of faith is an overcoming Spirit we can survive thrive in the midst of difficulties we believe and therefore we we believe and therefore we speak so the power of utterance so we talked about the sounds of the spirit we said we can speak in faith I think we thought that on Wednesday our words have connection with the ministry of angels AB words have connection we read ecclesiast 5 he say you will not tell the angel that is an error I don't mean it I don't mean it I don't mean it I don't mean it I was just talking I just by talk no no no no no you cannot you know why that is so powerful your you know Revelation has entered you until it can enter your emotion the Revelation that shifts a man that changes a man must enter your emotion and that's the fil is your emotions are triggers when it comes to speaking the thing must enter there that's the same way when you say things from emotion you will come to pass I've told you before so say negative things I said came to it will come to pass well because you said it and you meant because it it shifted your emotions your your emotions were involved your emotions were involved that so I told you that um there is anger for example when somebody's angry laid the C you know why it came to pass because there's enough energy there's enough energy within his soul as he's talking somebody's happy and he's blessing yeah there's a one of the old pastors now in the country what somebody did something very nice for him and he said ah nobody has ever done this for me when a old Pastor said nobody really touch him yeah remember the first time I gave something to a pastor the said to me nobody has ever given me this amount before I said this man knows many persons I a you believe I have money I don't need all of this so just put change together put change together you say nobody that nobody is a very strong statement nobody has ever say you are blessed to you see some people say there's nothing about those things I I I beg I there's nothing everybody live your life the way you like there's something about it there's something about it so there's nothing about that there's something about that H your father your mother your days may be long on the earth he said this is the only commandment with a promise AB Proverbs tells you he that CET his father and his mother I will not finish it give you a lot of explan Nations nothing a make in life now we be talk you now took it outside contest and push it that man that cost that you are mentioning is God that cost him that means he was banished from God's Garden that's it just simply means it's unsaved the ca there means he's an unbeliever he wanders in death is not saved how does it to do with the ca that res somebody not the lazy in Bible study say there's nothing like caes ah there something like us and they are not you see the blessing is empowered to succeed materially cause is disadvantage to succeed no no no no

no blessing and caes are not things that's it in scripture because the very first mention of the word bless and all the reference of the word bless you see that is an utterance when Jesus say when men bless you when men Cur you that's simply tell you bless to speak well of Cur to speak evil of to speak against and we saw last week and I read for you an example Bala called and I saw you how it is referenced in many places in the Bible balac called balam to come and CA that CA is not the one you will CA and build a city they read Bible Well that CA the ca that they we call somebody and everything will work out fine for him that's the one that so that I even said the reason so that I will be able to not overpower them and win them so there was so don't give the Bible General application say every time I see the word CA no because c r s e could be if it's relative to God where a man is cured of God it means he not welcomed into God's family so if it involves a family to be blessed All Nations shall be blessed All Nations shall be welcomed in it's not all nations have material things so the context if it is Barak Bara to speak well of that's utterance is a pronouncement CA there is also to speak evil of to speak against which is where you not get the the lighter meaning of to speak evil which is where we get insult so you somebody's insulting you say they Cur you m are you with me at all there nothing like there's something like that to are you yeah so there where ca is exile banishment AB you are not welcomed so which cause there's cause that is death see when you see the causes of the Lord were they nice nice things sorry you have never read it say Jesus has freed us from the ca of the law thank God you got your grammar right CA of the law not causes S I don't understand you again is see that all those caes I know happen to people you know that thing that you always want to be the preacher that help people expl somebody a pastor was telling me uh that oh is somebody betray you somebody betray you somebody betray you and a pastor will be laying C on there Pastor laying C on them is not good I say it's not good for a pastor to lay people but why are you betraying pastors let's deal with the let's say the right thing let's deal with the right thing why are you a betrayer why are you a wicked person why is it the last part that you are concerned with of course no Pastor that really submitted to God should do something that's stupid but why is that your focus because whe I not told you I whether the pastor C you or not you actually cost I you making it worse I said okay let's leave it you want to ask my viewpoint I not talk my viewpoint all those there's nothing like that there's nothing like that there's nothing like that because you are not prophetic because you you are not reading Bible spiritually because you think Bible is is a test book because we said observe analyze so all you are focused on but there's an unseen context which is explained in the scriptures you cannot remove it Hallelujah somebody has me on that question say can't somebody just be a billionaire by God I say by God how does God God's method is men now you think it you have 5 billiona I don't think you just take one billion and dash your friend that voice of God you will debate it for almost 10 years you are still debating that voice of God take that one billion n now it's only four you realize that man resist God's will take that four that four billion that you that 4 billion is net worth it's not in my account sir it's 1.2 that in my account sir no take one billion and give the person Lord

God I mean it's my net worth it's not like I have 4 billion in my account is the netw sir you know netor asset minus liability you not be explaining to the Lord you see the asset what it means is that when you put all my investment when I put all the asset things of what I own minus the depth commercial dep anything I have minus all of those things this is what I now get so Lord Lord say so you not realize why nobody's nobody is a billionaire I'm using using simple logic to explain it to you some people see have not gotten it that's why it's paliative 19480 I say wow somebody just me 19480 yeah 2,80 NAA says for your marriage it's marriage for your for your child hospital bill 10 15,980 there's always fraction it's pallative [Laughter] money you don't understand really you don't understand you have not sent that kind of money to somebody before say I just manage this 122 this is level T 30 I mean just just use a whole body notice when it becomes bigger it is commanded something told me to just send you that money that's something that hand of the like this is because left for me I say that's why you understand you must realize that God is involved with Mater yeah because God's going to use somebody and not everybody has worked on their heart like that to just just Dash somebody one millionaire not everybody has worked on their heart like that because some people money is a god many things are they can't so how many of so people do God have so if God has to look at his list how many do I have say there are only five in this list now only I only have five men on the earth that can drop one billion without thinking all the list of the people that want breakthrough list of how they are sold out to God in the list of how they are sold out to God you are 9,430 he can wait let's do 5 years for him Let's do let's give him another 10 years I'm playing this is just I'm playing no say Pastor I just broken down how the king of God work now where I'm serious is God uses people that's why even in the natural when natural men are trying to make another man a millionaire and a billionaire you cannot remove physical infrastructure so when a Christian start saying things like God just going to make me Rich and there's no business no natural thing he's doing he's a thief we should be telling him the truth oh he's a thief he a lazy Wicked evil person con virous f I mean o I a Covetous one ah without anything so that means every day I just wake up in the morning I just say I need to send you another 500k say where they get the 500k for you know if you dream me you cannot join me let's be doing it together so it will work that's why people that like hand out hand out just go get a job no I'm not going to get a job but I know Y is enough for me me it's also enough for me too me that is also enough for me because we must remember that every generous person also have needs also have things they need money for so that they count you worthy of what they have does not it's not because they have SS it's because you are that important so every time somebody gives to you know you are important so every time you see an alert I'm important to this person that's why we say you want to know you are important to somebody you i' given you something anybody that's important to you you find a way to give them something say sir sir please now it's not fair oh God that conclusion you not did now now me I don't love you sir you don't Wicked Man Wicked Woman say go check my I will not check anything there's only to check when I was blessing you did you

check my heart did you see it say you know when it comes to stinginess not be saying Lord should check my heart say check it when we blessing you did you have to check we bless you you without you say I want to look in the realm of the spirit now if he really going to bless me this service you were blessed so when you want to say God really know my heart that if I I will give but you could buy card that is not have go my that things are really and you have not fasted three days dry because of hunger have not fasted days dry because of no food and you say you don't have you have you just are not prioritizing ever giving to somebody as important because somebody told you growing up that is when you make money that you become generous you were scammed that's ungodliness that's not how we are taught in Christ Jesus that's not how we are taught in Christ that's why the example for riches in the Bible the Bible specifically use poor people so that you cannot remove yourself poor people are used people who gave their last are used doesn't mean everybody should always give their last the those examples are deliberately selected so that you cannot say this is the reason why I could not give you have enough example of people who give their last so that you cannot M church at the example they give their deep poverty the wi gave what she had the boy when he gave his lunch he had nothing to eat I be know your Bible now we are scared of Bible interpretation no say search my heart search it Lord God uses people so what are the chances so you see that what are the chances of somebody just sending you 1 million like that oh you don't need to think like that oh how do you not have faith for material things how do you not have faith for Provisions you must think like this because God okay oh okay I just woke up in the morning wow what is this this that I touch is dollars Glory 100 another 100 another Oh Glory to God every day I wake up I see dollars in my suit you will not need to teach me ah no no you will not need to teach me I will be doing it why why do we now have to take an offering why do we have to now give for a project we just bring bring one of these money doublers that say they double it just this Gana Must Go sir no no no no n please now or 100 oh I don't have much okay it's only 20 I have here use this 20 it doesn't mean doesn't matter it doesn't matter just be double EUR in this in this Ghana must go double pounds in this the queen yes don't leave the queen that picture double double our own year put Dollar in the middle so we have pounds dollar euro please double double don't bring P here those ones double this the sir just I give you one one pieces so I you double it double you pick another one from double it feel this when you finish this g go there more I mean I have enough GH go to last a lifetime I start pretty go if afterno and he has made progress I will start pretty go say this say there are enough bags in this lifetime sir we bring drums snuff it inside the drop put inside the drop inside the drop I mean that's thinking but on the earth we see God using people we see God using people what multiplies is matter the power of God can just way bones can rearrange that's way the power of can can hand can tamper with matter bread multiplied not currency legal tender that's fraud but you say no no no we okay use it do it in your own life you cannot do it let you be the example of it you don't want to be an example of your teaching so that mean you don't believe in Miracle money what do you mean by Miracle money God telling

somebody to send money to you or somebody giving you money I believe in that that has happened to me and it will keep happening to me every Christian I I'm a Christian I can not believe in something like that that's God's word that's how it happens but you want me to believe in magic I'm not going to believe in magic that work for the magician the magician has business ah no you know in the are you an man in the the in the money is in their wardrobe really and is 2003 B that they driving 2003 203 B is what your it could give you I beg I beg I beg I beg let us let us hear word b what you bought from the proceeds of evil the sounds of the spirit arrest my case are you with me yes so the sounds of the spirit something to say so we learn to speak by faith so does it matter what say it matters what we say matters what we say it matters what we say matters what we say matters what we say and we are told how to speak so allow God's word touch your emotions shift your your your feelings God's word is affecting how you know when you are happy when you are excited be grieved at evil look at the emotions for different utterances I also mentioned that in passing in this series is that so so mankind man is Spirit soul and body the the words to explain man but we said man is um man is at the core spiritual and we said the best way to explain man that every human being has a life and that life can be lived naturally and supernaturally I think I oh I did oh Master when I did that okay I had an assumption that all of you were there okay naturally and supernaturally and every human being has an expression and that's why we are trying is those expression that's where we now get mind which is intellect mind emotions will conscience that's where because every human being has an expression every man has an expression we leave on the on the Earth with we Express ourself on the earth so it's those expressions I I I live on the without my body you are dead sir are dead man without your body you are dead there's nothing like living on the without your body so stop breaking it into Parts the reason why it's broken into part is for contextual explanation of different concepts do the same are you following all right so the sounds of the spirit there a shout of a king a shout of faith those are speakings Hallelujah those are speakings notice what Isaac said to Jacob he said I have sustained him with corn and wine when Jacob was when Esau was saying I is not a blessing I've already sustained him so there was something about what he was saying there's utterance there's what to say we said leave led by the spirit is that not so help in Fellowship number seven we said receiving a prophet in his office because sometimes one of the ways to engage Supernatural forces is receiving or prophet and Prophet there is not used for Apostle Prophet evangelist Pastor teacher prophet in that list but Prophet as a man of God somebody more mature than you in spiritual things so we use the word of man of God you must learn how to receive from Men of God that's why everybody should be a part of a local church there's a pastor over you and that's why many things can happen to get you to not be in a good relationship without Pastor because now he cannot now speak over your life now he cannot be there physically with you and walk through walk you through circumstances and situations Satan plays the long game if you don't know that you still know this Satan plays the long game there's something is targeting he will first knock this

knock this like like a chess player four moves ahead five moves ahead a good chess player calculates four moves ahead so you are happy say he I'll just take this move now he already calculated that in the next four moves I've killed the king I've taken the queen and taking the king or I just leave the queen and take the king directly based on this person say nois will spoil my hand so Satan knows who he's playing with son and no the play here I will just can sacrifice precious is for you to take why trying to take your king off the board the chess board Hallelujah but Satan is not the only strategies our God is also a strategist and is his strategies that always work he has always have smarted Satan had they known not I of Glory that's why I walk with God Walking with God is my power nobody would tell me otherwise and make me leave otherwise no working with God is a power so we live in a word where I can do it by myself I can do it by myself as great as that is God also gave us men and is no weakness because Satan can also trick you to believe that is a weakness don't ever need anybody don't ever need anybody oh God first that's a lie in the natural that you don't need anybody a lie in the natural because in the natural you have always needed people like a mechanic I don't anybody are you the one that made the engine that you are using I don't anybody you one that made his spner fix car get out of there I don't need anybody I don't need anybody the other the doctor is say I don't any body in this life everything I one that made the shoe you wearing is it doctors that make clothes that hand glove was made by a doctor no what are you saying you always need somebody there's nothing like that so we talked about that help in Fellowship then there's something about specifics God puts a man or a woman in your life there's something about that a man or a woman in your life Hallelujah you must learn how to receive from them Matthew chapter 10 he say you receive a prophet in the name of a prophet you receive a prophet's reward the same way he says if you receive that brother how you receive that believer so if you receive a prophet in the name of a prophet you receive a prophet reward is that not so Matthew 10:41 now where did he get that teaching from Genesis to Mal I always remember that because they not fighting so you now have enough examples of people receiving how did that woman come out from a situation she said uh man of God your servant my husband is dead see the husband could not change the situation you can already tell that there was familiarity there because the same man of God that the husband serve that the woman is coming to meet situation have changed oh I wish you got that and you man of God told her okay get into your house shut your doors that was just a miracle amen a miracle the power of God can can deal with material things amen just a miracle the man of God had worked a miracle on her behalf I've seen that kind of thing happen in business say was it not another is not another company that is competing say there's no other company say no check and I check I see that oh this company that is competing now put the company name inside that thing that made the man said the list is enough why you say is there another company that is competing for this that we not add say there's none there's none say go and check that go and check now those your prayer go and check they have checked they have put your name inside say I think we should give this five so it's not who

all you were going to give and you see wanted to add more in the five your name is not inside say is lock they locky like that now they lucky like that every day no it's not lock it's deliberate Hallelujah time and time again in this ministry we have seen how such massive speakings have lifted people there are 24 person here there are 45 persons here say how mean how many of you have gotten testimonies like that the power God came on you in a meeting you say set for special miracle in that week some people have got in fact this days in this ministry where we are winning scholarship and Grant look like they were made for us because you are the one that know the special miracle I mean i' I've read some in special meetings that we have had not this kind of meeting I won't do it in a church service like this Clos I m I give you some examples I was in that number I was in that number side I mention names I won't mention it here and they looking at me I'm looking at you which amen say it's not by that thing it's by that it's by that where somewh uh was there saw and the say he said I am that se say worry not any your father now is bothered about you people look at the man's life changed they say there's nothing it's not about men about men for Joshua was full of wisdom because Moses had laid hands on him once you get to that place in your walk with God where you say it's not about men Satan has duped you you are not doing well because that well you are doing is against God God's word because you may look like you are doing well for some time but on the long run Satan plays the long game you not realize that I've tried everything I've tried everything you try natural money not work try everything Supernatural on your own all work you cannot try anybody else because you have used your mouth and rubbish everybody you have enough uh post against I don't know why a sensible Christian will KN down that that person not lay on their head I neede down for no man traditional wedding you can lie down you idiot your village people have I've already I've already mared down your life for for wedding you can lie down I anybody in school the preacher say give me another king there go on your knees you KN down you KN down for punishment you KN down for wedding KNE down now for blessing there's something assigned to you only you know what it is I'll rest my case there I it's very fair sir there something under your car you KN down to check you have KN down to check under your bed knee down now sir I I I I I I I just I just I I just to million you Cann only need down so a picture putting n down to hug his children his grandchild knelt down you are not richer than him that's not just the H will be tender we now are snapping family picture photographer say I beg KN down for the sh to walk carry your family I need down for no one you are you are you against your breakthrough you know what you are doing against your life nah that's not Bible are you with me that's arrogance that's arrogance some people use age when I check 4 months 4 months he used to sen me I will not need down People Like Us it speak Jesus speak to that man's eye if you will B inside my eye for the for my eye to open some people know what they want some people don't know what they want don't have preconceived notions against Miracles all of those things no so we saw that receiving a prophet in the name of a prophet because he can give you words he can lay hands on you and sometimes it's all about that hand look at how loud the Bible is On

LAN of hands and you say it's not by hands it's not by a man is by a man of God does that mean you should now on your own it's not this ministry that taught you that that you're angry with because this ministry teaches you that you can handle issues on your own should not now give you the impression that to be with pastors how do you not learn to handle issues on your own you are not thinking well you are not nah that trap that never worked for me impartations that have changed our lives I'm bold to say I'm a product of men I'm not scared I'm not self-made I'm Not Afraid ashamed to say God have used men for me men and I'm not and I'm going to receive more of that help Hallelujah the number eight we talked about attitudinal cooperation and this was where we ended on Wednesday attitudinal C I just have two more to tell you and we'll close amen attitudinal cooperation many times in life is is that attitude your attitude your attitude because like I said and which is which I even gave you that kind of example in this teaching yeah it's one of the part in this where I said the first man I was called Ste be City I said it this te long before there was a Facebook post so it's just a it's a simple fact however let's not use it outside his context is it possible so I give you that example on Wednesday is it possible we can't use you so is it possible CU if I point to you look like it's real is it possible for somebody everybody said this person will not make it it's not health it's not Health that has been targeted physical things and by virtue of a relationship we exempt the person from that thing say you will never have things okay every day they bring bag of rice come you know it's different from every month where is the lacker you will not have I'm coming to carry you with the send a driver it's not your car but you have a driver what is the essence of every time I want to go somewhere there's a private Jil waiting for you it's at my Hunger no w h but this is the man that the L C on that will never he will never every I give him a PR to you want to take anything just go pick as much as you want this man that c is blessed to you know the what what has changed the game people who have made commitment to him that we will not let you go down I give you an example of an evil man that said that that as long as he lives nobody in his family and his landage will ever be poor you see people like that let all the Calabash let they throw it up let They smash it on the ground it will not work you know why is not working is because is the same reason why the other day she did not work for p passion sorry you know what for RPG oh you are sleeping I'll do the example again you know they somebody say I get Juju for gunot I get Juju for gun AK-47 is not now work not because something is wrong with it because the person that fortified did not fortify thinking of AK-47 okay now after we have able to do AK-47 there's now RPG you know RPG they put on for shoulder that's why you see it has initials RPG think of the thing that come out from think of RPG it can be similar depending on the one that you are using your who supplying you so that RPG know what the Baba will tell that person is that you are mad sir you saw RPG you did not run you were testing to see oh sir so I was supposed to run say yes now before they arrange it because it takes time to arrange before they arrange on the shoulder you should you not have already jump fence he say I just wanted to see if the thing will work it has worked you are not yet to tell the story so say so get the point so

instead of the power of God doing this it would do that but when you already told yourself that it must always be like this so the power can tell okay don't be here what the power will now do is that maybe the RPG will now be able to walk again shoot it they shot it but nothing all of this is in the spectrum of Miracle the father you like the harder Miracle of the shooting shows how much you want to leave the Earth you always after it was short it was short why it not being short you see your mentality because whether you like it or not the man you did this thing for must follow the instruction don't greet anybody as you are going don't hug anybody say say it's my real guy now I hug him that's s that the same way in acting the realm of the SP there are instructions that you are giving you refuse to follow the instructions and you are wondering why it's not no it doesn't work like that because a greater than all those Calabash is the power of relationship he hand join to hand that one is a power relationship is a force on the earth because we could never have known that somebody would be that committed to to that individual so there's attitudinal cooperation are you with me and that thing itself is how men have engaged forces pharaoh Hardness of Heart look at his attitude 1 Samuel 15 it says Rebellion is as a sin of Witchcraft AB stubbornness is as iniquity look at the example in that first Samuel chapter 15 verse 23 then he says to after that say to obey better than sacrifice I mean you can look at attitudes there I think the way I like I would think look at what the hardness of heart TR of Israel the witness and you say attitudes cannot engage Supernatural forces it kind of you can engage forces with your attitude you can engage forces with your attitude and in that attitude talk about mindset there are some issues that people go through and they believe that it's the devil it's not the devil it's just the attitude ude their preconceived notion there are superstitious belief that everybody in our family this always what that belief that you have believe it some person I was talking to last week and I said there's no devil in this matter it's just your attitude just your attitude just your attitude people say uh I I'm calling I call this person not pick my call you not get offended who the who are you I not picking I not picking you so you get offended is an issue say there's anybody we call there's somebody we see they say I should see they not told me to wait 1 hour it's not fair what about other people waiting you are not looking for something if you are looking for something you'll be willing to wait forever that's mindset that's attitude because sometime you can see it in the way people behave their attitude Hallelujah so Str strong head stubbornness all those things that you think don't matter matters if I that superstitious believe that I don't need to have anything I'm doing but I will be Sly rich on this Earth it's a s a mindset that limiting you because everybody one of the ways to build wealth in the I mean if you want to use in the Bible we saw people were Rich via industry nobody in the Bible was rich only Supernatural no no single body was rich in the Bible by saying I I'm reach only by the things of the spirit no one single example in the Bible he say but as Isaac sold in the land that you see mention physical that's industry they had a business they were doing or it was oppression or Conquest somebody was oppressed that oppression conquest or evil use evil means to make him you don't know people use evil means to

make him that's economy people are not fighting on the street now because the boys that should rob you have things that they are using to make their money sorry you didn't get that I'll leave that another day those that get it get it the people that should rob you are already making progress so so there's oppression there's evil there's all of that are together conquest and we see people make money like that hard riches like that then there in itance that's the same way it is in life now people make money from all of those things inheritance gifts Aid help who made money through all of those things but you cannot remove the place of physical infrastructure your needs can be met without physical infrastructure but when you start talking about you know that why that you are to it healthy wealthy you cannot remove systems and process even the power God will not remove it because if not that's not definition anymore say I can be healthy by the power of God without caring about how I eat what I do you are not okay how can you be healthy without because healthy is from being healed I can be healed but to be healthy I have to be conscious of certain things and doesn't mean that I should now say it is because I'm eating that's why I should eat well I should do all of those but I don't put it as the source of no no I make the power of God the things of God my source that's maturity that's living by faith because if not the day you want to live by faith you will not find difficult because you already said that the day you did not exercise is the day your heart fails so now that you have no exercise now your heart has failed so because you signed it into law no so there's attitudinal cooperation and this is the one church folks hardly talk about that is a force on the earth it's a force on the earth it's a force on the that mindset that people have Consciousness that people have are some persons I mean no father no mother 15 years the young boy said to himself I will be I will still be rich in this life you see that mindset that dogness why is another person is 33 popsy said you are mad at popsy momy you are not the ancestors now you are the ancestors that people are looking out for it's like somebody at 60 years saying is because because I don't have father or mother that's why I've not made progress you are the pro you are the you are the father and mother now of many 50 and 60 years you are you get to a certain age you cannot blame your father and mother again because now you are a father and mother except you are still responsible you have P 30 years say my father my mother is the reason my father my mother you are looking for excuses you are too old to stop to still be looking at father and mother as the reason for something not working no no no no no and we must say this more often in church J people don't like this type attitudinal cooperation your attitudes and in that attitude your preconceived notions even superstitious beliefs have hindered people I told you a friend of mine who said is a million he said I don't think I don't need anything from anybody that was his mindset for many years until he met me in a conversation and said that to me I said no it doesn't you a Christian one month after that he paid his workers one of his workers is the worker put money in an envelope to just say sir I want to thank you for all the things you have been doing for me in this office this is not Church employee put money in envelope to say thank you ahh he said man of God people have G I say you have changed the mindset now you're no longer did something for

mechanic mechanic say leave the change the mechanic said no no no no need no no want to leave change for the mean say no no have been too nice now oh wow all of a sudden now somebody the office mechanic have said no no no no no don't need to send that fraction is 13,800 say no no leave the 800 just send 13,000 ahh no no no no the mechanic forget that your can send the money not forget but all of a sudden it change of mindset because he's now expecting even God when he walked the was expecting to you you don't expect why should anybody ever give me anything in life I have all I need I is also a deceitfulness of riches I have I have I calm down this I have I have it's also a mindset I don't need anything from anybody nobody should ever give me anything no don't think like that oh don't the same thing a young lady I don't think I deserve the best after wasting my life and now I'm born again h I think if I ever see husband that beat me I try now I try now if I can see husband that beat me he that one that married I try now I try now now you are married wedding night the man said yeah let me see you say what heard you it started from wedding night started giving you flying header the next day he said why is this Del B said I not know backand so now we have header we have backand and this is just day two ready for the time of your life the Visionary Shar the story I was listening to that this morning of a of a lady who said that I think I'm better off getting married to an allergy she used to say it because all these Church chur Church boys they used to break somebody's heart the people that kept coming for her allery not the songo the real one I think I should stop mentioning somebody I should not come back to you have you not seen it enough in your life that your mindset has come to you that's why you say things like this that's what I was even thinking before congratulation what you were thinking before has come to pass how can somebody just stand with you like that forever can somebody just commit to you happen happen now when we commit to you we also uncommit our because for you person person like that with somebody like that Paul say go to that he said they were superstitious people those are preconceived notions those attitudal corporations that supersti unle supernatural beings in that environment just like you go to some parts in this country supicious beliefs Hallelujah amen so what what kind of understanding do you have what kind of Consciousness do you have what kind of mindset do you have and that's why God's word targets our attitude because it matters it matters we are not able we are not able look at that hardness of look at those kind of people the Lord now said that you have said in my ear where did they bring God's ear and was talking inside God's ear none of them entered the promised land none of them all of them died in the wilderness say attitude does not matter we are not able that was they not even for the people to say they not just hearing they say we are not able to go we are we cannot those people no no no no no but another person has the attitude of a winner he falls down he gets say no no no no in this life this is what will happen the say for me for me for me for me break out of that nonsense hallelujah amen so attitudinal cooperation so speak God's word and have an attitude that cooperates with the power of God also in your life does that work receive L of hands and have an attitude that because attitudes does don't use because like I said on

Wednesday is one out of 100 that sometimes power does not that is that attitude that they now even though there was negativity spoken against them don't be the one out of the 100 one out of a thousand in that regard I'll say it again many times in life we can say many of the persons that use attitude to survive is just one out of a 100 one out of a thousand because there were also many other person that they spoke evil against there were a lot of conjunctions against and nothing came out of their life true that it happens like that does not remove the the fact that there's even one out of a 100 shows that there is something powerful about attitude now you that knows the power of God that knows the word of God why not also have an attitude that cooperate with it I he a disadvantage is not you you want to observe some people when they are talking just normal conversation tell me some is a lie is a lie that kind of person can never trust he say no every time you don't mean it is a lie is you don't mean it is a lie you don't mean it it's a lie you don't mean so your your response to things always have to start with you don't mean go back you not see there's a mindset it's not just a slogan it's not just a catchphrase it's not just just a trendy statement mad M that has rained it has passed but people are still using it so people cannot talk until they say mad that seeped into their soul that seeped into that sh into their life you cannot separate them from that statement anymore the way you think the way you behave look at people no no conscience you are dying they will still want to stab you again it's builds up over time it's an attitudinal cooperation because there are forces that are telling them St B again yeah I will clear now because you are not you are not ordinary you have backup in the attitude backup bitterness all of those things all those attitudinal cooperation bitterness wickedness all those things so there's attitudinal cooperation number nine a submitted life now this is a power of his own and I mentioned I want to talk about this why this is very important I said there's a place where Satan does not touch a man cannot touch a man yeah that's that place where a man is submitted onto God and that touch I'm referring to here I trust you have been following our series but if you have not there were some things were saying and explaining that people started having this impression that oh that mean it's very easy now for Satan to just enter into my life I said no no no it's not easy for Satan to enter into any believer's life because the believer that Satan can affect his life how he thinks that gives place to the devil easily like that because I mean even in sin that's what I'm talking about I don't like teaching like because it looks like I'm giving permission to sin because God forbid no Pastor should ever give anybody permission to sin so I've nullified if that's what you want to hear but many times when we he do what is wrong and sin it is quite popular a theology to believe that ah Satan can just destroy life it's not always true because if it was true half of all of us here would be dead it's not it takes a bit of time and there are things that opens people up to Satan it's not every action that people have done have opened them up to Satan I now give an example of David in the scripture look at what Saul did then before you know an evil spirit is manipulating Saul but David there was never a place where we saw an evil spirit manipulating David around town we know he was influenced wrongly how did Satan influence him to number Israel was depending on Army

strength that how many are we again in Israel we have enough power to win our enemies but or guys was not physical power you have been using to win that was the deception that's why it was such an issue because he was putting trust something else Hallelujah James chapter 4 James chapter 4 for a submitted life we have examples in scriptures men who engage forces had they submitted unto God James chapter 4 James chapter 4 and verse 7 now remember I gave you the whole spectrum of the powers of Darkness can you recall powers of Darkness you are quiet there are beings that are associated with the realm of the Dead do we have authority over them all yes there are beings entities associated with geographical Dominion territorial spirits and princes we have authority over them all what about entities associated with idolatry we talked about that asaz quaring or howling creatures n monsters all of those things we using those phrases what about things or entities that threaten the natural world where we saw chaos Beast we looked at four different classifications of powers of darkness in Genesis to Malachi in this series okay so James 4:7 it says submit yourself therefore to god let's start from verse 6 but he giveth more grace wherefore he said God resist the proud and gives Grace unto the humble submit yourself therefore to god notice the word submit yourself therefore to God then he says resist the devil and he will flee submit yourself unto God then he says resist the devil and he will what submit unto God so there's something about submitting to God there's something about what so a submitted life where you say absolute surrender I submit to you it's a power it's a what it's a power it's a so power submit yourself to God you cannot resist the devil when you do not submit to God remember we talked about that two operations of devils in that regard where we said where it is spirit and disembodied spirit and where they are looking for a body to possess then there are also devil affecting somebody's life without actually looking for a body come on come on come on we talked about it a lot almost five parts inside this series we mention things like that so because yeah now this is not casting out devil when he say resist the devil of course we can put it under the spectrum of using our Authority but this is not this resisting the devil so you in your life you resist the devil it can be attacking it can be withstanding in the sense of there's an attack you are stopping the attack it can also be you opposing you taking the fight of the enemy's territory but an end he says submit unto God then resist the devil the emphasis is purely in the scripture thought like that Hallelujah that's where we have You Shall Serve the Lord your God with all your heart is in your own serve the Lord your God with all your heart with all your strength let's run through some 1 Samuel chap 12 and verse 20 1 Samuel 12: 20 and Samuel said unto the people fear not ye have done all these wickedness yet turn not aside from following the Lord but serve the Lord with all your heart this what David Samuel was telling them when they were looking for a king you have done enough wickedness okay but s did not listen AB they saw listen so did not follow the Lord with all his heart the same thing he said to the children of Israel hope you know there's already s you are quiet there's already sa 1 Samuel chapter 9 where we saw Saul was introduced all right just for those who know Bible stories so first Samuel CH 12 the context

this is like Samuel's Fairway like his fairw seron and that's where he tells them Ser the Lord
oh verse 20 look at verse 24 only fear the lord and serve him Faithfully with all your heart
all your heart you see that all your heart explanation are quiet all your heart is that is that in
your Bible should we serve God with all our heart or with some of our heart Deuteronomy 6
the sheema what Shema is the message so what can say what is the message in Genesis
to Mal or the message in the first five books yeah oh Israel the message is just to believe in
God believe in God and love one another you can summarize it so yeah oh Israel the Lord
our God is one Lord we thought that in preeminence of Jesus AB all right yeah oh Israel
the Lord our God is one Lord one Lord is one Lord not God one Lord and thou sh love the
Lord thy God with all thy heart with all thy soul and with all thy might is he in the Bible did
we see this emphasis a lot in scripture love the Lord thy God with all your heart
Deuteronomy 10:12 and now Israel what does the Lord thy God require of thee but to fear
the lord thy God to walk in all his ways to love him and to serve the Lord thy God with all
thy heart and with all thy Soul all thy heart and with all thy Soul all thy heart and with all thy
now if you read Deuteronomy you will see that not serving Lord with all your heart was all
always used to explain opening yourself to other gods there was a direct consequence a
direct consequence of not serving God with all your heart you will always put other gods
alongside Deuteronomy 11 let's try thisy 11 look at verse 6 verse 13 and it shall come to
pass if ye shall hecken diligently unto my commandment which I command you this day to
love the Lord your God and to serve him with all your heart and with all your soul to serve
him with all your heart and with all your soul verse 16 take heed to yourself that your heart
be not deceived and ye turn aside and serve other gods and worship them and then the
Lord's rth be kindled against you so it opens you up to the absence of God's power which
is the rot of God the rot of God is the absence of God's power so you will not see God
walking with you and he shut up the heavens and there be no rain and at the land so it
begins to say different things jomy chapter 8 verse 19 and it shall be if thou do at all forget
the Lord thy God to walk after all gods and serve them and worship them I testify against
you this day that you shall surely perish 8:19 I mean it is it not fair that reading verses
because the whole book of theonomy is to teach them why they should not serve any other
God the whole book The emphasis that's why the second law the emphasis of the book of
the is to teach worshiping God alone and not worshiping something else letting your heart
not hold on to something so it's a submitted life to God so where our heart is not submitted
said to God we open the door for many things because this an example of such is Matthew
6:24 where Jus now say you can't serve God and mmon you see he shown that there's a
leak say because I don't have money many people are serving money that does not have
money in fact it's actually true that the man that is poor serves money more than a man
that even is rich serving God and mmon you can't you can't serve God and mmon charge
nor trust you see sold out nor trust in certain riches there's example of the rich fool who say
soul thou has laid up enough Goods we have the example of the Rich Young Ruler that
refuse to follow God yet he say I've kept all the Commandment say sell all you have

because the Bible say because his trust was in riches that's not serving God and yet he he was forming a moralist I've kept all the law he could even love Jesus revealed him I've kept all the law he couldn't even love sell and follow me could not Bible say because he was ex the man was stinky rich his trust was in riches so as we commit ourself to God our trust is not in riches no no our trust is in the Living God God has men if God looking for a man he has me and that's why many of you are the people God have to use where all the people around us s nobody's hearing God's voice God has to use you to be the one to see send the money because you are the one that he can use and some people feel bad that they are the ones God can use no no no you are in a good place where you are always somebody that God can think of talking to God can talk to you about other people you in a good place because it means you can hear his matter that's the example we have of of um in Acts 13 Verse 22 when talking about David acts 13 acts 13 and verse 22 look at how it was said and when he had removed him he raised up unto them David to be their King to whom also he gave testimony and said I have found David the son of j a man after my own heart which shall fulfill all my will did you see it we shall what we shall what shall fulfill all my will so when you are after God's heart do you care about his things do you look at verse 36 and David after he had served his own Generation by the will of God is that our desire that's what every Christian this is be the every Christian desire this is the whole I want to serve God with my life so serving God like that submitted unto God absolute surrender I submit to you God because of one woman you cannot now pray you cannot now come to church that's not submitted to God submitted to God I can drop anything notice how David it didn't it's not like he didn't have failures but never did he resist God people you tell them this is wrong nobody can talk to them you immediately Nathan or any of the other Prophet told David what he did that was wrong he say ah I've not tried I've not tried never is resisting God never is found resisting God never is he found blocking God's voice that God God you can talk to me in this area in this area but in this area leave me alone Luke 11 I read for you a story I promised I was going to read it and this is the last of this series I will just read it Luke 11 and we read from verse 17 unclean spirits and he knowing their thoughts said unto them every Kingdom divided against itself is brought to Desolation and A house divided against itself so notice the word divided every kingdom divided against itself is brought to Desolation so you easily can lay waste when there's division then he says Verse 18 if Satan also be divided against himself how shall his kingdom stand so it says that there is an organization doesn't mean that Satan is not the father of chaos so so Satan also organizes himself when he's going out against people that's the focus that's the contextual background Satan organizing himself is not F if this is his Target this is his Target there's no other agent of Satan that say no no no let's living for some time no this is our this our Target let's finish work here so there is not divided in his mission statement all their mission statement steal kill and destroy they not they are not divided in that area set the C they must follow to sh men as weight looking for whom they must devour Satan is not divided on that mission statement that's the end point how shall his kingdom stand

because he say I cast out Devils through b zebop verse 19 and if I by B zebop cast out Devils cast out devils devils there's the word demons the word KJV old KJV use the word Devils new KJV use the word demons that's the word Demons by whom do your sons cast them out therefore shall they be your judges that means the children there is the disciples cuz they were teenagers only two were more than 20 years that Jesus chose verse 20 and if I with the Finger of God and please before you argue foolishly and say but they were married they used to marry at 18 years they used to marry at 17 years just like all our forefathers before us so argue carelessly when you don't know something you don't argue with somebody that know AB that's proper attitude the other one is arrogance thank you how old was Mary you think she was a youth she was a teenager when she appeared to her as our great grand mothers too were teenagers when they enter their husband house stop thinking in 21st century when you are reading Bible thank God we have historical references to all of these things let's move on Luke 11 verse 20 but if I with the Finger of God cast out devil the Finger of God there if you read it in Matthew it says by the Holy Ghost if I will the Finger of God cast out Devils no doubt the kingdom of God is come unto you verse 21 when a strong man armed keepeth his Palace his gooses are in peace but when is stronger than he shall come upon him he overcame and overcome him he taketh from him all all his armor so this Jesus using a story which can be explained in what he did for us on the cross and upon his resurrection he have spoiled Satan is the stronger than that came on the strong man AB he that is not with me he that is not with me is against me verse 23 and he that gather not with me scatter it verse 24 when now this where I'm going to when the unclean spirit is gone out of a man he walth through Dry places he walth through what dry places he walth through Dry places he walth through Dry places seeking rest and finded none he said I will return unto my house whence I came out and when he cometh he finally swept and garnished then then goeth he and taketh to him seven other Spirits more wicked than himself and they enter in and dwell there and the last it of that man is worse than the first now observe and this is the challenge in our reading text like this we have said things that are not true over the years we've said that Satan does not like clean places are you are you is everything okay Satan likes dirty places no no no no no no no no steing killing and destroying you want to know Satan is in a place the place has become dirty but the place was if the place is dead he has already done his work so he's attracted to clean places why because he wants to make the clean Place dead thank you he wants to make the clean Place dirty now that kind of theology in itself is the reason why you say things like I'm minding my business I'm trusting I'm reading my Bible I'm praying why will Satan have my time that is the very reason why you have your time your house is swept clean enough for him who should he go after people that already have no now is you that is every time I make up my mind I'm going to be sold out to God all of a sudden I go back because you made up your mind now who should you go out for before the one that have not made up his mind those one have not made up their mind are his own you say I will never do this thing again it's the day you said it that's the day you did it that's the day there

was not backup energy because Satan is attracted to clean Satan is attracted to clean
thank you Satan opposes the light not Darkness it does not oppose Darkness he already
has Darkness so it's where light is shin that he wants to come if not how do you explain
Satan coming to Jesus did Jesus commit sin I mean get your theology right if Satan could
come to Jesus was doing something wrong no Jesus even affirmed and said the prince of
world has come but has found nothing in me this the temptation of Jesus that in the Bible
was Jus committing sin that made Satan tempt him thank you so stop having so when a
man is not submitted to God when a man is not aligned to God what is the purpose of
devils to defile and Destroy things AB that's why it's called unclean the purpose of an
unclean thing is to make something unclean walk with me walk with me what's the purpose
of an unclean thing now that you will listen you are sitting down like you want to sleep pay
attention oh I mention it in the course of this series and I'm mentioning it now because this
is why we can boldly say Satan the number you are calling is not available but anybody
who is not submitted to God number you are calling is available many of you live with such
people in your homes many of you have such as children many of you have such as your
friend people that Satan is living with and walking through they still pray in tongues they still
cast out Devils but they are tools in the hand of the devil because they are not submitted to
God and you can see it in in their talk in how they talk you can see it in the way they act
you can say ah did I not say these things when I was teaching that's what this is the part I
did not say where I said I was going to talk about it all right right so Satan opposes the light
not Darkness he seeks to defile and Destroy things so when things are in place is he
attracted to it so that it will now be out of place does itan like chaos so when things are in
peace and order is it attracted to it say no no no no no no nobody can tell me Shut Your y
we can tell you keep your arance nobody nobody nobody nobody every time you want to L
nobody nobody nobody nobody we can talk to you nobody nobody nobody nobody very
negative way of learning cuz that those are the excuses where you can already start
learning with nobody nobody nobody can you already open to Satan nobody can nobody
can people submitted are humble can take correction they don't get offended with
correction whether it sounds like correction or not amen deal with the issue because does
Satan steal if Satan have stolen from a house before and he keeps coming to the house
does a thief keep coming to a house and there's nothing to steal from thank you now I'm
broadening your mind let me preach to pastors that's be removing you people from here I'm
moving pastors here something because some of you are I don't know the realm you are in
is not Bible you are reading that thing that there's nothing like that's why I gave you a
lengthy list of powers of darkness and I said it's not for you to be scared but it's for you to
know because there where Satan is powerful is not where we are stabbing Mir it's not where
is blowing powder is this one that I'm saying so that have led to homes destroyed families
in run People's Health and this is the origin of spirit of infirmity and all of those kind of
things is those all these kind of things that you say don't matter don't matter it starts from
there you can just easily go into your shell is the same thing that make somebody get there

and say I don't think I want to live anymore we are trying to pray for this person not to Die the person wants to die because because Satan plays the long game he has worked on the emotions what is life I need to just look at my children look at my this I will not say more than that I've seen it several times for different person there's always I'm done I'm tired it did not start like that for those of you that understand what I'm talking about for for a this for a that that you know what I'm talking about those of you that experien those kind of things and you have had loved ones say those kind of things those are preconceived notions and you think he said that day you think saided in the hospital room you think started on the death bed he didn't start there it started small small that this kind of mindset you should have that's some person is a spirit of death that's person you not see any Spirit of death you just lay and the person be heal how did you think where the spirit of death now enter that you lay hands on how many of you have laid hands on sick people before if you keep lay down on people you will one day Jam people that have you he by Des of spirit you will hear that this is a spirit of death that is making the person sick just somebody like that not so long ago I laid hands on and as I laid hands on the person I could see the Spirit of death working in the individual one organ already failed it's not just one it was going to move to more than one organ cast out that Spirit of death the person got better did a test the organ revived say there's nothing like that there's something like that to so Satan steals amen so Satan still kills and Destroy so there have to be something to steal there have to be something to kill there have to be something to destroy so the idea that is only darkness that Satan likes no he likes light for what purpose to oppose it to turn light to Darkness he already has darkness when you know that you canot mount God in your life Hallelujah you cast out something that is inside because you C it out you drive it out so they casting out devils and you resist something from entering you can resist an influence there's a difference between being around and being inside a place sometimes Devils Camp around just like Angels Camp around and Camp around about them that's why you must be vigilant does doesn't mean you should be scared Hallelujah clear so what does Satan now fear he says submit unto God then resist Satan that submit onto God is being tied to the purposes of God once your heart is occupied tied to the things of God is very hard for for those pollutions because you will know you will easily know you even tell yourself as you ah you you will tell yourself devil be this those that have fully been overtaken will now say and so does it matter but you will know once you are a man sold out to God and devilish things devil is now involved not just you doing something that is wrong devil is not involved in how you are living you will know you will know you you will get it you will know because you will know because you are submitted to God it is easy you will be getting feeling very uncomfortable but if you have already been weakened your defenses have already been broken with nobody can talk to me I will do what I like all those negative emotions that break your defenses so Luke chap 11 shows us that unclean Spirit comes to clean places you see you pray for somebody the person God healed let say um you got um somebody born again that was just is mad person because he the common example you casted out

the devil from a mad person you got the person born again filled with the spirit you now said that now that the person is born again devil will never come for him why why would you think like Devil not come for him this has been somebody that devil has been working with he will come and when it comes as we often explain we say the place is swept and the reason why we say the place is swept because we believe that now that the person f with the spirit is his life is too clean for Satan to ever have time for him really how come sickness used to return back and the same way the sickness came before you are you sure you really healed are you sure you really healed people are looking at me you have never heard it ah is not somebody else they also lay down on somebody else the person did not recover immediately how can't you just think IM you accept it the sickness comes back that is seven times more wicked seven is now worse than the first state so Satan likes clean places he makes places dirty but he also likes clean places for one reason to make it dirty he not comfortable with with it but he seeks to make it dirty Hallelujah and our power over all of that is in submitting to God is in being sold that and that's the context was teaching here by whom do your children cast them out talking about being sold out to the kingdom of God that was the context because a man that is sold out to the prop of God cannot say that I'm casting out Devil by an evil spirit because you should know what the devil is doing what the devil is not doing that's the Luke 11 context the same thing in Matthew 12 the context is sold out to God's kingdom tied to the purposes of God Amen once your heart is occupied with that somebody was doing fine and all of a sudden is having fear fear fear every day what if today I lose my money what if today nothing happens what if today what if today and you will know because you will easily resist those things you easily resist those things look at what Jesus said Satan wants to sift you as we but I prayed for you how did it happen slowly slowly Peter said I don't know him I've never never seen him before in my life Hallelujah so when we live a life sold out to God sold out to the purposes of God and this is very powerful I wish I I could tell you emphasize this again and again but I'll stop there on that point that is a very powerful way of living nothing is in fact that's where many person have heard my son from today this will begin to work in your life every God wants us to get to that point where we are so sold out to his things passionate dedicated to his things because that life of dedication is already sacred onto God's use Hallelujah that life of devotion and sacredness to God I'm sold that nothing controls my heart I have money everywhere but never in my heart there's no amount of money that will make me be rude to an elder no there's no amount of money that make me be disc courtious no no no the same way naturally the same thing spiritually too you work on yourself to that extent absolute surrender I'm sold out to God was a book like that a man of God wrote it many years ago sold out to God there's something about being sold out to God sold out to the purposes of God serving the purposes of God loving the Lord with all your heart with all your so when Solomon came back from his backsliding what was his conclusion fear fear God and keep his command what is fear God love the Lord with all your heart cuz that was his issue he didn't love God with all his heart so women led him

away from God his conclusion was taking us back to the most important thing being submitted under God sold out to God hallelujah major way to engage what Supernatural forces a man submitted to God is easy for God to talk to him it's easy for the things of God to be done in and through him it's easy for him to partner with God's will want to see God's things come to pass on the earth number 10 and last but not least guard and enlarge your heart guard and enlarge your heart Proverbs 423 says guard your heart with all diligence for out of it are the issues of life so Expressions guard your Expressions guard and enlarge your heart Ephesians 1:17 to 18 tells us God will give us a spirit of wisdom and Revelation knowledge of him the eyes of our understanding be enlightened so the eyes of your heart needs light your heart needs illumination your heart needs what illumination your heart needs to be illuminated Hallelujah so number 10 guard and enlarge your heart guard and what many Believers have not enlarged their heart for example I give you an example for silver and for gold for material things as your heart been enlarged know there are some persons that don't believe that the best is for them what is this now no no no no I don't deserve that no no I can never have that it's not for me first class no it's not for me one billionaire I see that's so you see no no no no no no no not no no no that an EMB go on your life Hallelujah I've said this before the only place where the man of God was angry Jacob with his wife R was where she said and the B say Jacob was angry cuz she said give me or I die notice now she she finally had children she could not focus on her children no excitement she died and she died giving birth to last child say benon son of Sor Jacob say this woman and this was the woman I loved though sometime what you like is not what God wants for you sorry don't like that kind of teaching was LE thank God for that father that gave him Le if there's no levite sorry let's leave that us another day God will use the foolishness of this world to confound the that's the one he love less but that's the one Jacob Joseph Benjamin special but you can't remove all the other tribe hope you know Judah is not Joseph of which tribe the Lord sprang from it's not Joseph and Benjamin so I'll leave that for another day debate something we need to know about how we choose how we like things God is not against you making your choices and God can walk through things but the other woman was more prayerful she involved God inside but I will leave that so that you don't hear that in this teaching because that's not my focus but heart enlargement if your heart is going to be enlar that's example just forget what I said forget about Jacob for about rich heart enlargement heart enlargement I mean that in the natural there are ways our heart get enlarged to carry things bigger than us uh okay I said this in the master R to the people I said um God committed to teenagers Nations go to all the world and preach the goel gospel some of them have never they have never traveled outside Jerusalem say go into all the world and they not think that they will fail their heart has been enlarged to see that we can preach this gospel it takes a heart enlarged and that's what the script of God came to do in their heart to enlarge that Peter flung the P the the door day of Pentecost he opened the door and say ye men of Jerusalem Peter that said I don't know him I've never seen him before but his b to preach the gospel but his

heart has been enlarged I can take the city I can take that City put my name there I will go for it as heart enlargement heart enlargement Hallelujah so for big things stop seeing like it's not for me you know people always say things like that no no my my it's not for me it's not for me but meibos said has a seat in the table with the king is it's not for me it's not put your name there it's for me David said is there not a CA 17 years a teenager was not afraid of a giant let your heart go out for big things so people were seeing that a giant was too big David was saying that it's too big for him to miss out on killing him it was no it's not too big for me to remove the head no no no no go out for big things hallelujah it's not for me all this B big things so Joseph is prime minister don't remove yourself don't remove yourself say no count me out count me out no no no that no no ah me ah no no no God wants us to think territorially look at that woman elishah said borrow a vessel she could not borrow enough how do you p and it has finished said there was no more of J to turn more oil again no more jar when they say be turning as much you should empty all of Israel but heart is not enlarge enough say this one we don't try now we don't try there people like that once a bit of success yeah yeah success is their problem once they succeed they can't succeed again no no go for the next go for the nest go for the nest go for the nest let this success not stop you from having more success let this breakthrough not from having more let this amount you have not stop from making more go for more enlarge your heart don't say big things are not for me it's for me it's for me for me enlarge your heart is in that heart enlargement that job 22 verse 22-29 gives us that context of you will now see lay up silver and gold as dust you see money as dust how many person can see money and say look at unbelievers unbeliever that say M Water how many Christians can say that what hle for what you want die put you don't need to be a Christian is a is a mentality that comes with wealth until you can reduce money to what it really is a medium of exchange have been deceived naturally and spiritually you are not smart because money is simp a tool we created it as a med of is paper how can paper be this let me tear paper paper that we pull color paper that we pull color is what your life is about sister is your own life about it no it's not I can answer you since you want to be arrogant I can answer you my life cannot be about paper I cannot wake up early in the morning everything about me is paper paper paper paper no no no before paper was created before the paper before Fiat notes fat fiduciary money Fiat any name you want to I'm in the world of Finance so I have studied it I've learned it from the best from the best of universities that they used to take courses I know what I'm telling you they teach that to the that you will teach unbelievers are being taught to see money as nothing why Christians that and where they are stting from is where we end because Financial Freedom when you at definition I was looking at a professor that def Financial Freedom like that and say money no longer moves you that is contentment in the Bible now what they Define but that's where we started our journey from we started our journey from where an unbeliever tries to get to I can do all things through me I can ab I can abound money the absence and the of Mone does not control me I am a Christian I do not need money look at billion of this world people are angry that does not

have houses abroad is it by force is anyone cannot afford if you wanted to have one when you get to a stage M longer moves you like that you have conquered it is it to have house somebody controlling our economy does not have house you should be Bing you to have house in the economy that is controlling no now there's wealth that controls the economy of a Nation there's wealth that you control assets is different when you think transgenerationally there's a difference so PayPal before Fiat note was made people were reaching silver and gold that's why trade by B was the first form of currency exchange AB are looking at me so how can you Este you must see it exactly the way it is the moral three things they taught you in secondary school Commerce money is a medium of account a unit of account that's why say how much is it say 2,000 a unit of account how much is this they say 200 na AB leave it like that money must be a tool so when I teach you people naturally about money I tell them I bring out money I put on the ground I say match it match it until you start seeing money like that you have a problem you have a problem you Pi fight with your wife because of money Pi fight with your husband because of paper let's decide instead of chasing this I will chase what they use this to exchange because this a medium of EX so if I have the exchange and I can have this common sense and one of the ways to not fear paper is to give it away this is one that people don't like people don't like this one they already left the WhatsApp group is to give it away that's why even now Harvard teaching philanthropy they teach these things they not teach people no longer are you just is is by now you are being told being taught the essence of philanthropy because you get saturated you don't you have enough money put it for projects find all these Nos and help them so that you have space to make more actually the idea is space to make more just like the footballer have won every award what is there to win again that's the real Mercy something else to win I've done it all those that is paining he has done it all he's who tried to do it two times he completing football two times maybe they walk up again at two times to preper all them that rise against him but there's a level of saturation say why was he not playing like he cannot play like if his life depends on him that was PSG but in something now it can relax but even at that can I go again the second time that's another once there something to live for something to go for how do you see money how do you see it I study psychologist I study psychologist of people you see I used that guy at as a case study to somebody when we did did a research on him just check where his finances Network change that estimation until you can see money as small that's why it's like an initiation for all these celebrities you see they will just go to a club and they will spend 15 million which pastors always used to trend on Facebook and I say if somebody gave this leave it there's something that they are doing we use it to say uh not we the people that always do have commentary on natural things say why is this thing not trending if a pastor gave this now it will not train butel give this and train we always reacting to what is train let unbelievers train they want to train is social media for God's sake they made it anything can train in their platform where our things train is by the results we produce we have our place amen so it says you that job 22 that says laying gold as dust is not that you have it

many is that your estimation of gold is like a dust said then the Lord shall be your defense go on and read that I've read that several times in the course of this series then the Lord will be your defense is the lesson in the episodes concerning material riches my trust is not in riches Hallelujah my trust is not in riches my trust is in God hallelujah now there's none of you here that have Dash somebody 10,000 before that you are not scared of 10,000 to eat all the people that that have done it are looking at me you cannot answer are you afraid of 10,000 10,000 you have sleepless night no now you have broken that you can never have S because of 10 10 you know why that's why it it works both ways either you squander it or you waste it or use it to buy natural things but you must have spent it for the money to not be nothing anybody that spent big money can never see that big money as something it reduces it so you are now looking for the nest that's the same way heart has been enlarged there are different negative positive ways heart can be enlarged with that but in the scriptures we see one of the ways people's heart have enlarged is in giving and that's why he said liberal Soul shall be made fat is that enlargement of heart because God can trust you with more you can do more and the reason why generosity is so connected to material increase is and I said this and I'm repeating it again why I give and I get back it because faith is a principle when you give the reason why you are getting back is not because you have a transational brain and because you have said I'm giving this to get which is wrong Doctrine you don't give to get however if you give you do get how come you're not getting when I not say I'm giving this so that God will do this for me is because when I I've said it before I'm going to say it again because when a man gives is showing that he's not afraid of lack is he showing that his trust is not in that money and he's saying I know it will surely come back I will surely have it again it is one of the natural way for a man to have faith that's why people who give open them up to the same thing that they are giving it's just a simple thing in God's word simple thing in God's word that we cannot throw away we cannot throw it away we cannot throw it away Hallelujah I give because God supplies my needs not that I give so that God will supply my need I'm not worried about things because I believe God I give is not why God meets my need I trust God so I will give are you see the difference it's just a very technical difference and when you get it you have gotten it of course giving can be a thing of the spirit but beyond that the reason the connection and this is what many theologians have knocked their head try to explain what's the connection between giving and getting the connection is in the faith principle is in that trust God that's why the originator of sewing seed man thought seed fate who though it has been perverse corrupted the old teaching has been have been messed up by thieves on the pit there are th on the pit yeah but we shouldn't get to that point where we not say things like I don't think I will ever give if God tells you to give give or if you get Leed to give give and as you grow in things of God you must learn to give I have not learned sound to the point that I don't give I give and I get I am not giving to get but I know if I give I will get say how can you know that you give you get I know because I'm giving I know I will get so it's not the same thing as giving to get no the other it's a technical difference but very

loud one shows where the heart is the other one is greed I'm not giving to get that's transaction I'm not mobilizing God if I give this morning now go will not see my giving shows my trust that's why I say charge them not trust because giving is one when it comes to the heart the only way to show you are not selfish is to be a giver I mean scriptures are loud if you the way to show you not a selfish person is that you give you can say I'm not a selfish person but I don't give if you are not a selfish person you give the way you break selfishness is not prayer the same way you break fornication is not prayer not they work pray pray work for that one they borrow leg they run Baba they run brother run Flee for Your Life you say no no no I overcome I'm strong enough you are not strong anything oh don't not strong anything run say I I know what you don't know what you are doing run run that thing that you are talking from is the power of the sedu that is talking to you that know you you don't know what you are doing sir run I've said it run tell your neighbor Run keep running keep run don't stop running don't stop running even when you are married still be running have idea that marriage stop marriage marriage is a cure you can play not somebody that told you how they like married people I trust God and I will be generous I trust God and I will be generous so the technical difference is I'm not giving so that God will not give me back I'm giving I'm giving because I want to meet the needs of others I'm giving because I trust God the giving there is because I trust God that I will not suffer lack because I have removed this from my account that because faith I repeat it again one of our teachers told me he was going to start doing a series on it and i' started seeing he told me one of his message he started introducing him because I me I've had with him on that matter there something like give and get talk there's something like that let's explain let not be dodging Bible verses be dodging Bible there's something like that something like that explaining properly we shouldn't mobilize God we shouldn't have a transactional brain but we should never you know how many Bible go to tr away to say people give and nothing happened to them no people give and things happened to them is lited all over your Bible just that it can be twisted to not be how a preacher wants to use to make it in life are you with me however giving and getting giving and receiving is scriptural where is this scriptural is in the faith principle because when I believe I receive every time you believe you will always receive what you believe is what you receive so the reason why it's even walking in the wrong Doctrine path also is because they also believe that they will receive but the emphasis you that know sound doctrine that throw away baby and B water stop is that when you give know that you are setting forces in your life you are doing something that God is committed to that God even used to Ransom your soul God so loved what I gave it is giving that giving is a strong force on the earth it was giving that God used to get you out of sin and death giving is very powerful very powerful because of his his connection with life people have died because they didn't have we living on this Earth giving is very powerful amen so I'm not giving to get however if I give I will get and the reason why I'm getting is because because when I gave an empty account was not scaring me my trust was in God not in the riches amen of course there are other benefit of giving one of the

major benefit of giving Which People Like Us have learned is enlargement of heart
enlargement of heart first time I gave 1 million I thought that my word was going to end but
it did not end they will increase it give in millions and let your heart not if you have it give it
so that you can that your brain everything about can be thinking how you can make more
I've conquered all those things amen don't let money be fearing you but you are not afraid
to you you are thinking of making more but you afraid to drop more no no no I enlarge my
heart in that area amen hallelujah enlarge your heart guard your heart against
discouragement against rejection don't be desperate you can be dogged but don't be
desperate unmanaged or unrealized expectations have hindered many persons unhealthy
comparisons there are some people their own is Never Enough their own is Never Enough
what if what what if I have money what if I have money but do I have this what do I you
never grateful like we learn this morning devotional with Thanksgiving be thankful they can
never be grateful never be thankful for anything cuz you're always comparing your eyes in
somebody else own you're in a relationship your girlfriend you're not married every time

reason for your unhappiness is comparison put hand in your joy every time you are hiding
in dark place and crying and weeping and opening yourself up to Devils unnecessary
