

pray father in the name of Jesus Lord we thank you open our hearts to your spirit and we trust again that in this service the eyes of our understanding will be flooded with light we receive again illumination your word comes in such Simplicity we declare that there is no confusion there is no disorder we're walking in prision or walking in order in the name of Jesus the things that ought to be said in this service will be said the things that ought not to be said will not be said for how forcible at the right words bless us touch us transform us heal our bodies heal our minds touch us in a mighty way lives and our Ministries will never be the same again we declare we shall be built up edified and even as you are glorified in this sermon in this service in the name of Jesus Amen amen God bless you have your seats amen so we again Hebrews chapter 11 we saw now Faith is the substance of things hoped for the evidence of Things Not Seen so there are things not seen within the life of Faith the things not seen within the life of Faith within the subject of God's faithfulness so we talk about God is faithful we talk about the faithfulness of God talk about the Faith of Our God are you with me there are things not seen for by the elders obtained the good report through faith we understand that the wordss were framed by the word of God we say the words there is the Greek word Aon used for cycle of time events Generations so that the things which are seen were not made the things which are seen were not made of the things which do appear did you get that the things which are made were not made of the things which do appear right so are you with me so good to have a note a BAL Bible ready to take notes turn your Bibles when we say turn your Bibles so that the things which are seen were not made of the things which do appear so we said um the faith or the faithfulness of God that was expressed there is as an Evidence of Supernatural things and the things that deals with events actions evidence is of proof when you use the word things is dealing with events and actions Hallelujah and Faith or the faithfulness of God was expressed as the evidence of Supernatural events and for by it the elders bore witness the word obtained a good report we said the bore witness to so the Patriarchs the elders the prophets were representatives of spokes person for the Unseen activities and beings they bore witness of the Unseen word their wordss and their writings must be read in the light of a supernatural world view is that what we said so their words and their writings must be read within the context of a supernatural world view within the context of a supernatural world view so when you read by faith Abel by the faithfulness of God and you know the word by by by when he using the word by fun of the word by faith is just one word just the word pce it doesn't give the Greek word that is using for by so you have to go within the context when he saying by is not by believing and speaking by speaking to the mountain so when he says within the context of Faith within the subject of the faith of God because the word by a preposition could explain the either of the three Greek words used to explain it uh e n d i a when you use e n is the word used for with it's still the word by is the word for are you following still the word for so it say by it so we know one of the clues we have because for B it the word he uses for by there is the word n for by it so if we're going to use that premise it has to be within Faith are you getting it so when it says by faith within so

talking about the faithfulness of God we see Abel what he did because it's summarizing a lot of events by saying by Faith by Faith by faith so it's not a one sentence action that they did but is compressing it so is within their belief in God within the life of faith that they had or expressed so it says true faith we understand that the worlds is that still salty today the periods of time I didn't need together by the word of God all right for all generations to Generations God's word frames eternity to Eternity so we now read Genesis chapter 1 Genesis chapter 1 and we I'm going to uh stretch your brains a lot this evening um I was doing that to someone last week for engaging that line of thought because his argument was I've met a lot of persons and every time we argue on the subject of creation and we argue um in the light of Darwinism we argue in the light of how did the word because the Bible writers believe in Flat Earth say the Earth is FAA um how do we defend the Bible as an intelligent piece of work and without making it look like we're now no longer teaching it in context or should we defend the Bible one of the things we always need to know is that the Bible will always be here you defend it you not defend it the Bible will always be here in New Generation of men will come again that will try to abuse twist so God's word is capable of Defending itself because what the Bible says is what any man that God is Raising in time to come and explain is going to do now we have not become more passive at the face of false teachers no because no matter how much we speak against false teachers the Bible say will grow worse and worse so we know part of the size of the last days that they will increase so how do we how do I have a Ministry to wipe out false teachers it won't exist because part of the things that leads to the end or as we continue doing our work Satan knows he has a short he has to raise more heretic people so what should we focus on so sometimes these are distractions to take you make you remove your eye from off the ball so of focusing on developing building your people you're always answering questions that your members are not asking always focus on what is happening across the body of Christ God did not call you for what is happening across the body of Christ God called you to a specific people that you are pastoring he is Shepherd over all the body of Christ he will fix his body you fix your the local assembly he put under your Authority amen and um so many times the argument like I said let me not deviate out of it argument um how do we answer these questions I think the challenge we have with those kind of questions again I'll remind you what the question is a question of um where is the correlation is it that there is no correlation between Genesis 1 and science there's no correlation at all is it that uh the literal view is totally wrong to just take it literally there was Darkness there was that to totally wrong to do that or we just have to uh give it anation a bit differently what exactly can we say about such a text so one of the first things we should underline is that aient people had acient thinking Asian people had what it's like um bullying a child I'll give you um it's like asking a fivey old list out all the parts of the human body then when the fiveyear old could not answer you started giggling laughing you were so he you they could not name all the body part congratulations what a scholar you are we are so proud of you it's obviously one thing we should be seeing there you are part of the evil in

society that's not something to be proud of you're laughing at a 5 year old what a shame you could you know I'm going to report you to all the biology professors that you can you cannot name all the body parts they're going to report the 5 year old to all the biology professors are you did you grow up where we we critically examined we are going to be finding out that maybe this person is not well oh I was I too fast that's I say think it you know 5 year old you ask a 5 year old to list you you say they should know it stop that nonsense do you know all the body parts I'm stop it are you 5 years old you can list all the body parts Cal down some people it was in anatomy class 300 level that they finally knew the body parts me I read I ask questions I do research is what I do my research my knowledge is not from Google I ask questions I I I basically use research to upgrade my IQ so I ask questions how many people can name on the body parts that you want a 5 year old because they my hair my shoulder my Mye so no that's what the child just finished learning touch your eye touch your nose those are the easy parts you not say you are angry with a 5-year-old for not being able to list all the body parts what an adult you are so take it two pray me first one the child Le some and could not finish it and he say so you don't know take the two answer the first one the professor the who asked the daughter asked the question say so you don't know all the body parts laughed second premise the child said is that not all the body parts eye shoulder knee and to say I will report you to all my biology professors I'll report you to everybody that I know I will report you to the academic community that you do not know are you are you following the premise how does that make sense you're going to report the child one thing is the child we are going to ask is the child wrong to say that's all the body parts is the pro the adult right notice technical when if you are going to be very technical with your answer you have to say both of them are right both of them are wrong you have to use the word both of them are right both of them are wrong because within a premise that child is right because that's all he knows that's all the parts of the body the child knows now the professor or the adult is also right that there are more however he's not right because he's dealing with a child that's how biblical arguments sound where we are the writer of did not know that the Earth was what kind of idiot are you how can he know you will get it come that you soon see how we are answering the wrong question because ancient people have ancient brain brains it's like it's like it's like asking Paul shame on you you don't know submarine I don't know sub what is how can I know it before it not be invented in my timeline my brain cannot think in that direction that's how we sound when we are trying to conform ancient men to 21st century line of thinking and we call it I'm being Scholastic I will report you to my academic board I report you to the board of Scholars that you are not you can't answer Bible question H the book is pre-scientific the book is premodern the only issue is that its truths are Timeless the spirit of God is boundless so we said handle the Bible as an ancient Work First Century men wrote it and second millennium BC men wrote it that's the prophet and the apostles you hope you got it so look at who you are arguing with congratulations you are really a scholar I mean the guy was like why I never saw it like that I say sit like that use it as your argument use it as the premise of you and he called me

sent me a message back on Gmail that he got it it w he walked everybody was astounded because he was going to make a defense apologia make a defense of the Faith said everybody was just dumb founded because he realized that is quite dumb wanting the bial writers to think like 21st century for God's sake the B writer thought that the seat of our thinking was our kidney look at who you arguing with not just them before you have an issue with B that's how everybody in their timeline are you see so everybody in their world view that's how they were thinking sir and today they have not changed it are you seeing it so can we edit it today and not put brain put all those things inside there yes so does that mean that the Holy Spirit was giv there wrong wrong things that can be corrected in time no you relate with your audience imagine God omniscient now this is another argument some people over think like I said I stretch your brain a bit that this God is omniscient he would have just opened their brain to think like 21st Century men yeah enter she thinking it open their brain like 21st Century men and they become schol the only challenge we have to open everybody in the audience too you see how dumb the idea is you have to what kind of work is that one let them be what they are allow people be what they are are you f because if you open the right their brain to be thinking for all generation they have all the IQ who are they teaching people that they go the next day you are telling farmer like telling farmer d y thex what you seen how it sound that's how you must understand the Bible it's an ancient book so you say why is he writing it like this wow wow you really try congratulation you're just a bully and that's what scientists are we can answer the questions within the provisions of God's work but don't use science to try to bully uh the book the book is true because it writes from it's like it's like um using our today's textbook today mathematics textbook to fault the first mathematical textbook that was ever written and you say wow I really know something Baba people preserve those text library of Alexandri library in uh Egypt oldest libraries in the world those two old oldest liaries they preserve all those texts you are fighting it what kind of you know people people have a word for those kind of people like I leave it now it's a relic it's a work it's a work of art to keep so people just look at the beauty there could be better it reminds us of something Hallelujah so it's dishonest and hypoc critical to fault the Genesis account for not being what it wasn't intended to be it is dishonest and hypocritical to fault the Genesis account for not being B iing for not being what it wasn't intended to be is that not the is that not the anger the anger with Genesis for not being what they intend it to be but the writers could not have been writing what you intended it to be the writers was writing so that Their audience remember what guides teaching your audience how would you feel to show you you are very smart you gather two years three year old children and you are teaching them mindblowing things there's a reason why there called prery there's a reason why there's Nery there's a reason why there's Primary School AB there a reason why all of these things you can't say I I need to show these children that there are so many things out that they don't know wow let them grow up so in the passage of time are you following so the reasonings began to change and that's how honest the Bible is because the man God

inspired first century ad men are you getting it first century ad men and second millennium BC men to write so is dishonest and hypocritical to force the Genesis account for not being what it wasn't intended to be so should we stop protecting the Bible should we stop protecting the Bible yeah stop protecting it it can speak for himself the Bible will long be around so all the things are trying to do is that I say uh there's an issue here don't mind the way Genesis put it abba we there's nothing wrong with Genesis put it the way they put it is the way the ancient mind could understand it because they had an audience I want to start on that pray me so that realize that oh why are we not thinking from a science place I ended with sun moon and star think how can they use some and start to mean Supernatural bodies oh God they know no better just like when I was on mountains there was nobody in the first century that ever climbed a mountain mountains were dreaded not small Mountain mes clim M go climb you die it takes special skill special we equipment even though you die climbing those highest mountains say Mount Si Mount Si have you seen don't you go and look at Mount Si he's not among the top 20 say Moses must have been really healthy I I like say stop it so there are many mountains get no he's healthy but get my point it's an unnecessary argument the B the men in those did not know that you could climb Mountain for recreation it's like those euroba mountains that people are climbing that's how m s that's how those mountains are if you have gone to the West you will know what I'm talking about why can you be using that one to compare Mount Ararat I say Mount Mount Everest want to climb Mount Everest kill manaro st stop it now you know that is not people that is a special skill and how many persons in this world have able to to attempt it those many would have died if not that they tied rope imagine ancient men knowing that there's something called hook rope you you are you are over you are you are you are bullying them nobody ever was climbing Mountain out of the front of it so they saw mountains like this is where the gods will be because no man could climb they didn't know that today we'll be jumping it for fun we can use every play to land on top are you following so you have to think within their timeline that within their timeline within their world view they had this idea oh the gods will have to be on the mountain they didn't know submarines will ever go inside the gods have to be within the sea are you getting it the gods have to be in a because of the subsistence farming that they were doing not commercial farming subsistence farming so the best of areas have to be where the gods are the gods have to be in a garden because no man can live in the wilderness the gods have to also be in the wilderness are you see so they selected all the areas and said this where the gods will be and say ah they know know that the god are in the heavenli calm down that's what they taught all those things that's how they use heaven to represent so don't that's why we say proper Bible interpretation interprets the Bible within its context making sense to you now the cultural context the historical context and the grammatical context of the world view AB that's how to interpret the Bible and that's how we're going to continue teaching so you're wondering how they could have used it better they could have no you have to think it within their timeline within their world view then you appreciate what they are doing did you get it

so in the beginning so the word he uses in the first fruit so that is already a beginning that has a passed that's why we can find Darkness there that cannot be A word without sin that's already telling you that there's something has already happened to the world because he's already giv you a beginning with a past they will now see darkness in it ABA God could not have created the world when God created the world there was no Darkness the original creation of the Earth had no Darkness it was the fall of Man that brought Darkness into the Earth and the fall of Man is where is also the fall of Supernatural being the very first fall Hallelujah so to properly interpret Genesis we do this in Bible School Genesis 1 to1 the prehistory chapters Genesis 12- 50 Abraham and his seeds gives you a a proper historical context So within Genesis 1 to1 you have all the prehistory all the beginnings or Beginnings after then he's going to now use Abraham and his to explain faithfulness to the promise commit living to according to God's promise is that not so so you can breaking down all the books same thing Exodus narrative The Exodus lus numberly so it has a reason why they are writing the way they are writing are we good I didn't start too strong you get it all right just take note for example the use of the word day imagine your mindset of the word day is 24 hours look at Genesis how Genesis uses the word day and God called the light day and the Darkness he called night and the evening and the morning were the first day God called the light day so what is day here what is day here light God called the light day and the and the Darkness he called and the evening and the morning were the first day you see evening and morning were the first day ab even and the morning where the first even and the morning look at Genesis 2 Genesis 2:2 Genesis 2:2 th the heavens and the Earth were finished and all the host of them and on the seventh day God ended his work which he had made and he rested on the seventh day from all his work which he had made he rested on the seventh day are you following he rested on the seventh day so the word day is the the word they use only to explain one day or 12 hour period or 24hour period or day has many other applications in the Bible you already agreeing okay because the word day which is the Hebrew word yom y m how they are using it is not the way we use the word day look at Genesis 4 and verse3 Genesis 4 and verse3 and in the process of time it came to pass that King brought of the fruit of the ground an offering unto the Lord it came in the process of time process of time there is the the word time there is the word day so it's calling day normal season of harvest planting and reaping did you get that Genesis 43 I need you to Genesis 43 and verse 9 Genesis 43 and verse 9 and I will be shorty for for him of my hand shall thou require him if I will bring bring him not unto thee and set him before thee then let me bear the blame forever let me bear the blame forever that word ever there is the word day let me bear the blame forever the forever is not eternity let me bear the blame forever of the man's life the man's lifetime I'll be the blame throughout this man's lifetime throughout the man's lifetime is called day the same word day so the word day is used for seven days the word day is used for for uh evening and morning is used for 12 hour period AB the word day is used for a normal Harvest growing of crops the season you are used to grow crops Genesis 44 just the next

chapter learning something Genesis 44 and verse 32 Genesis 44 and verse 32 for thy servant became shorty for the L unto my father saying if I bring him not unto thee then I shall bear the blame of my father forever you see it then I shall bear the blame of my father forever you see the use of the word forever then they is also used for 40 days 40 days is also called a day so imagine those are the people you arguing with that every time I see 24 hours just like today the day of salvation how long that day being imagine you read day as day are you following so the biblical writers had the way they use words so we can't force them to think like us we are trying to read their book they are not the one trying to read our book so we are trying to read their book we have to think like them and that's why the Bible gives us a context becomes easier to think like that and why did God Inspire I mean God is omniscient why is it those people Inspire to write a book why not today and I'm grateful it's not us is inspired would have had a lot of junk in our book I've had a lot of junk in our book I've had a lot of junk because the true timeline the true world view of the word of God ought to be Supernatural this our modern era is too scientific and IQ I know use the word IQ is too is too much of H ER unnecessary reasoning let me use the word unnecessary reasoning help me with another word much of this modern era has been fil logical it's very logical you almost sensual there's almost no place for the spirit that if you sound is that one never use your imagination father shared with me a story how when he landed in Belgium was going for training calls then and he was just wow thank you Lord thank you Lord so one of the fellow coaches from another country heard him and said you thanking God you believe in God he said yes so oh why are you thanking God said the plane we landed safely said you thank God for that did they announce anything was wrong with the plane my father did not understand that thing say no did they announce did the pilot announce something was wrong with the plane say no why you thanking God it wasn't God that flew the plane people go want to inspire to right day but that thinking has no God in it they will not retain God in their thinking it has gotten worse now imagine the Romans one quoting old things that say reprobate this one is worse not God in their thinking you get it so we have to study the Bible within that context or look at the creation days for example Genesis 1 what was created day one light is that not so come on day two what created day two skies and seas verse 8 isn't your own was created on the third day dry land and plant ABI is that your own verse 9 to 13 day 4 verse 14 to 19 son moon and stars come on day five 20 to 23 what created sky and sea animals are you following day six was created land animals ab and Mankind land animals that we eat plant life and and and so land animals and Mankind is created on the sixth day so observe Genesis chapter one that within its editing don't be afraid of the word editing how can inspiration be edited I'm not serious editing does not mean changing it use what's the best language we can put we all edit our prophecy if I tell you the way I'm seeing it depend on who you are giving the word it may confuse the person so as you the Revelation is from God the inter application is also from God however your presentation of it is based on your intelligence so if you are intelligent with what God is saying you can sit in a manner that this person will understand not

confuse the person are you following all right so inspiration can be edited it's a book for God say books are edited because it's not so easy in Nigeria to think like that but outside the country you can never if you say a book is edited everybody Express that of course it's normal you are supposed to edit a book with a book editor all right so observe Genesis 1 The Way It Was Written is written as a Prose so it's a literature and the manner in which it was written you can see a poetic flow in the prologue the opening that's the introduction that chapter chapter one that within the first week of creation as it were day one will correspond to day four day two to day five day three to day six is it not so you see how it corresponds day one light day four sun moon and star is it are you seeing it that that shows you that there's something that they are writing so is it just writing to show you creation or there's an order that's why day seven we now rested because that's an there's there's a pattern to the writing that you can already see that there's something being communicated there's something being what something being communicated so material creation is being used to explain God's order God's way of doing things and that's why God's plan and purpose is being explained Within the Ambit of creation so creation is the parable being used to explain God's eternal plan and purpose so he he not teaching creation is using creation I wish you got a difference is using creation story that his audience is well acquainted with he's using that story to teach God's story I've told you the pattern before remember Romans 15 the things that we read our four time we W for our that which the pent and might have hope so he now takes a story of creation to write God's story of creation what's God's story now the God's story will now be a new creation ABI come on just like it take a story of when God helped them same I took that story and now use it to write ebona I Tau you that when we were teaching on ebener last year uh so it took a normal story and use it to explain to them God's story and that now became a theology on ebona that they would have because the audience knows the story he's not writing the story to them to inform them like wow that is not their history book this is a spiritual book so nobody was reading the Bible as a history book the audience knew where to get that's why I give you when we're opening last week Wednesday that there were many other books in circulation they were recording other books so they knew that the Bible was not where they were going because they want to learn history and what happened to our fathers let me read the Bible no that's not it when they want to know how it relates to God's word they read the Bible or we know the word we use now the Torah the Nim the Kim the three the law the prophets and the writings then you now have the uh Apostles which is uh Matthew to Revelation so the prophet and the apostles together is the whole Council of God as the 66 books today other books are good but they are not inspired and so we do not take them with the same weight with this one these are the 66 books that I inspired like I told you biblical writers did read other books and were exposed to other knowledge however they didn't let it distort the understanding of God's word in fact if you will read Genesis carefully you will see that it is a poic against their attacking the wrong views that the cultures around them had about God there is no the Mesopotamia uh uh why we mention Mesopotamia

because these are part of the oldest civilizations on the earth so in case you always wondering why have mention mesopotamian ugaritic these are the oldest civilizations on the earth the earth World began from that side are you following around the Africa belt to that region was where all life began so it's from there development began to to spread AB so that's why we mention there that's why I we always mention so when you observe there a lot of Mesopotamian words in the Bible you now call it Semitic language today because of the modern use Semitic language so we call it ancient near East it's a terminology you can Google it and see for yourself ancient so that's how they explain because because that Asian is made up of many countries today but they used that word Asian here is as a you know just as we use medieval period those are our coinage to classify all of that so they use the word ancient near East to classify all of where life began so you notice how in the Bible we always seeing towards the east use repeatedly AB thank you can the east of you always see that east east east use a lot thank you making sense learning something all right so we ended in day four the sun moon and stars and we said the sun moon and stars say they are for signs so the sun moon and stars are signs in the heavens are signs in the heavens so what signs they are Pointers or indicators of supernatural beings on the earth just like the SM Moon and S on the earth that's how so every time the Asians saw the the cryptic message which they saw that supernatural beings they shine on the earth the activities can be seen on the Earth are you following sun moon and star the day you get it come on come on come on so the cosmic elements in the sky indicates that there are supernatural beings in the cosmic Earth so what is seen in the atmospheric Heavens are indicators pointers of things that are in the earth that are not natural so there are things in the that are not natural no man has been able to make something like the Sun so his son standing there is now a major pointer and that's how the ancient their are first view to know that there was a God not today that we are too logical and we argue things foolishly thinking is is wisdom they couldn't have they saw the son somebody had to make this cannot be us they look at themselves they can't even light fire they knew that a God made this this cannot this is the work of the Gods and because it was high up shining yet this will be where the gods are that's how they are understanding beautiful now you see why it's easy to grab it you are thinking like an ancient man think what what how can they see that they don't know that planes move Baba they are not in 21st century they are not thinking it like that they did not know now that we will now have the idea when you he Heaven you raise your head up because they were not raising their head up they were just using those things to as a pointer that heaven is on this Earth they didn't have to be raising their head up when you he lift up your eyes I told you before lift up your eyes they Pro word to mean seeing the Unseen so when he say Abraham LIFT up his eyes it means it's just like we telling you look into the realm of the spirit is not sh sh his eyes were not closed before now I mean somebody that not close his eyes now said he LIFT up his eyes was his eyes closed before Sid were not closed now so you know it's not physical is referring to you get it so the host of heaven so we're looking at that word host of of Heaven the host of Heaven are you with

me so let's run that word the host of Heaven th the heavens and the Earth were finished and all the host of The Genesis 2 verse1 all the host of them so we saw that the word host generally cannot say it's always used for Angel no it's used to explain the word Sabah is used TS a ba a is used for a mass m a w s a mass of person used for a collective number so when you bring many things together so within the Bible is used for an organized Army it's also used for host of angels it's also used to explain sun moon and stars it's also used to explain all of creation are you following and the word Sabah is also used to explain service these are applications of the word is used 483 times Genesis to Malachi so that word is 483 times it's not used to just mean Army physical Army now I give you a bit of context Genesis 21:22 for example and it came to pass at that time that aimc and pil call the chief captain of his host spake unto Abraham saying God is with thee in all that thou doest did you see that and the chief captain of his host so is that angel or physical Army physical Army thank you so the chief captain of his host vers 32 clear now look at Genesis 32 Genesis 32 and when Jacob saw them he said this is God's Host this is God's host you see what he has done and he called the name of the place what happened and Jacob went on his way and the angels of God met him and Jacob saw them he said this is God's host and he called the name of the place mahim are you seeing what he has done this is God's host now of course the word host there is not the word sabba but you see the idea this is God's host the word host there is now the word used for an encampment that means God's host is camping here it's just a broader term he uses are you following God's host is camping here because a host normally Camp you know when soldiers go for war they Camp they have to encamp clear clear so the word host is used in different context so Deuteronomy 4 see the use of the word host of Heaven andless thou lift up thy eyes into heaven Deuteronomy 4:19 andless thou lift up th eyes into heaven and when thou seest the son the moon and the stars even all the host of them shouldest be driven to worship them and serve them which the Lord thy God has divided unto all nations now you can already tell that they are not idiots son Moon and sty is only Theory divide to all the nations how many son will be in how many Nation I okay Stars maybe many but sun and moon is just one one so trying to use the Bible to argue for seven planets is unnecessary I mean the Asian never went into the air looking at all the things that you can see to know how many planets are there but they do know that everything is in an inhabited world and what they said is correct because all the things that we are calling planet today is what they called it we don't want to call that Earth today we have given them different name venu this one no Mercury Jupiter Pluto okay you try AB Uranus Saturn I mean know all of those all those things you are saying how do we assess them I've always told you I asked the professor many years ago I say why don't we go through the ground to assess them why don't we dig down and fly out of the Earth surface you want to go out of the earth why don't we go down through water just fly out of the Earth surface he say ah n no now when you look at it from up have you been up he said no so which up did we look at it when you look at it from up you know that there's space under oh yeah let's try it let's somebody start the

research say nobody has ever done that nobody has ever attempted that but science is about attempting new things let them attempt it let not use up take it seriously so the whole argument was because he he was mocking Flat Earth so I wanted to show him that okay with all the flat it's not flat Earth let me leave the aent they were reasoning from a supernatural world view to them the Earth was flat didn't see anything faal because you could walk to everywhere you are going they didn't you enter water so that the place is is like this nobody has fallen from South Africa into Nigeria now beautiful you are seeing so I mean they thinking was easy you say look at where America is in the globe in the map that look at where it is in the map are you seen so it's flat Earth they in say well we know that the Earth is fa when you go around it okay there's many things that we are discovering but the surface that people move through is flat so we can all agree that what we calling Earth is the surface that's all they knew are you foll flat surface get the point all right so host of heaven so shouldest be driven to worship them and serve them which the Lord th God divided unto all nations take note of this we come back to this text he said God is the one that divided unto all nations so we can hold God respons for what is now has become of idolatry not cative or permissive but how is God in the permissive sense I explained that to you in our teaching on when we explaining toah of B inside which series was that we're not paying attention we have expain things God's thank you God's holy Temple I gathering together I explain the bab story I've explained that before in Mountain of God I also explained before in in man's will and thank you explained it before so that was we brought it from that context of you see God does not stop man's will if not would have stopped Adam from sining all right so we have explained we explain we explain this year again from a premise of of tongues you not see where the languages were divided what that represents as to the p experience but the underlining factor is the same are not giving it different context the same context is that like I said the once you understand what it means the application is varied but the context is singular clear so this is the Deuteronomy uh 32 world view that's how it's popularly explained this world view where it divided onto All Nations under the whole heaven so how did God divide unto we answer it in this series again don't worry so even if we're not around in that one we're going to explain it again how did God divide all the nations divide these Gods onto all the nations see that but notice what is calling host of Heaven can that be physical sun moon and star obviously no AB look atomy 17 jomy 17 and verse 2 if there be found among you within any of th Gates which the Lord thy God giveth thee man or woman that has wrought wickedness in the sight of the Lord thy God in transgressing his Covenant and has gone and served other and worshiped them either the sun or moon or any of the host of Heaven which I have not commanded so God never commanded that those beings should be worshiped but you notice jomy 4 now always take not of what he he didn't say they should be worshiped for he divided all the Nations under the whole heaven to them but not for worship now I'll say this and I'll come back and rearrange it for those who have heard all the other context of our many teachings so during that Rebellion at Babel God now assigned the gods to the

nations of the earth 172 Nations basing on what translation you are using if you're using the sep agent you have 72 if you are using the normal KJ table of Nations Genesis 10 the table of nation Genesis 10 is 17 all the nations in Genesis 10 one two three when you count the N all those where mentioning Noah's children where if you don't understand if he's looking lost to you you turn your Bible you'll be looking don't be angry with projector people in case you have never all the names are there so when you count that gen that Genesis 10 you see 70 if it's the seent you are using the Greek translation of the whole Bible Genesis and to Revelation you would see in the SE that it will have 72 because they break down some of them now all those gods of because that's their known world view so all that known world around them because you know as they were moving they were breaking into more Nations so the original number of nations originally were 70 is the same thing that Moses tried to counteract with the wisdom of Jetro when he had 70 elders because he knew that Israel was a light to the nation so I'm having Elders that can teach the Nations so the same concept the same way Jesus was particular with 70 because within the scripture when he sent out 70 he could have sent more but he sent out 70 sent out 12 and 70 sent out 12 only to the Lord sheep of Israel because is telegraphing Old Testament text cuz there are only 12 sons I've told you before the only reason why Jesus not choose a woman as a disciple I say disciple not choose a woman as one of the 12 a fully not choose one when you see May m disciple of Jesus so I had to arrange that because it's people that have issue with women cational and the rest they have a way they think of those things so Jesus had women as disciples but the reason why he didn't they were not number bad among what is called the 12 was to M exactly because Jacob had daugh daughter and she's not mentioned among the 12 so it's to follow that pattern is to follow that pattern the 70 Jesus sent out and now say go to all the neighboring towns the same idea to reach out to all the Gentiles is the same pattern are you following it makes the Bible relatable because it's like watching episode 1093 and episode 1093 does not follow what you started with episode 10 you will see the writer has forgotten the story line the Bible is one book so you see that the writers make everything follow those are the people God that's why you can see that there's an inspiration to it only takes an inspiration to gather it like that and they not meet each other but there's a consistency in how everything is following in communicating the worship of God hallelujah so all after that Rebellion go your own way so the now this is hard to Phantom but this series will also break it down again for you because one of reason why is hard most people do not know that angels are not erand boys okay you know why I'm using the word angels to bring everybody together now get rid of that word Angels Supernatural beings are no erand boys it's just a tiny faction tiny part of them a tiny portion of of of supernatural beings that are erand boys a very tiny portion I'm using what tiny deliberately tiny is not used for people I'm using it deliberately so that your mind will go to if you are cutting it out are you following I mean the the the vast Supernatural host the vast Heavenly Host to call all of them Messengers is that not going too far when we have Chev beam function cherubim is

Mesopotamia in origin sarim is Egyptian in origin I've explained that before we'll explain it again this we we talk about the Angels and Demons again and this time a bit more comprehensive than we did before because comprehensive that we are adding to it all right adding to it because within this framework of this study are you aen so God divided so all of those um because what am I yeah I get it the host so once you know that the supernatural host are not H messenger messenger messenger messenger once you remember that I thought about council there's a council there's a council Heavenly Council thank you God has he does not need them but he have one and that Heavenly Council participate in God's rule over the Nations now you can think so now that the nations are going away from him what did God do he now assigned the Nations to those lessons Gods other created beings that are called Gods this is going to be hard today hard for those who have never heard this kind of talk before that's why we teach in series are you see how hard to try to make something that is very voluminous very short it's quite complicated I wish I'm as intelligent as you to be able to do it I don't know how to do it because he a very broad subject matter to just sit in five in 5 seconds you you bloggers cut off that part terrible are you seeing how dangerous it is that's why you listen to the whole thing proverb says if you conclude the matter before you hear the end you're a fool you can't do that now because that's why I give you a framework that many has been taught so in case you are new here the word g let me help you so that you the word g in the Bible is not used for only one being it's not used to explain only Yahweh the god that created heaven and earth half a dozen other beings are referred to with the word g if your first time hearing it sorry but that's true and the biblical writers were not scared because the biblical writers refer to half a dozen you know half a dozen AB six the biblical writers refer to over half a dozen entity with the word Elohim so if your understand of Elohim is only uh uh the god of Israel the god of Abraham is and Jacob that's you know I'm using Old Testament language god father Jesus Christ if that's all you have in mind you are not reading Bible because the gods of the nations are also referred to as Elohim are you seeing it the god and goddesses of the Nations I've taught you this before the disembodied human dead Samuel is God and Elohim when I saw God sending out of the Earth when the witch of Endor in her out of necromancy which is where his um um ancient men got their their mentality on ancestors any cow a Latin word v so he say talk to the ancest I think it's in all languages now all cultures have the ancestors all right so that idea is also the Bible recognizes that people had not that Israel was worshiping them notice what we said not that they were they were praying to ancestors what kind of foolishness is that they only worship Yahweh but they realized that those people worshiping those ancestors refer to them with without word God just like I told you the man worshiping Idol when he says God is not your God that referring to now is you that is calling his own small letter G but for him that is worshiping is Cap G so the biblical writers were that Hest so they refer to many things they refer to the good guys the loyal members of God's Heavenly Host were also called Gods the gods of the nations were also called Gods the Devils were also called gods are you seeing it say I no now that

just means that Gods is used for supernatural beings we know yeah but we are dealing with the breakdown you see the six distinct separation I gave you I know you you are very skillful you want to just sum everything up suing it up is not hard but always wanting to sum up things is not intelligence is you are cramming because know where it come when you know it you can bring it together not that you started your learning from from how from a summary you can't start your learning from a summary as much as you are happy now that I've helped you don't be happy still go and listen to that one is more voluminous it opens your understanding better those who have been through those classes understand what I'm saying that's said there nothing for you so right say no no it doesn't mean I will just get it you cannot get it we are not idiots we not teach idiots here if they did not get it once you will not get it once sir you exaggerate your intelligence you the later you asking question I don't get this ah it's not clear it's clear now say you come late in the series that we have be teaching Supernatural things are you following so it's not that it's not clear it's very clear it's where you he outside it's like you joined um Pythagoras class after we have already derived soat you asking what is what is what is sign B I know help you we are now in world problem of of trigonometry is that's when you not joined us we not mention so so say what is this now what why is man making things hard will not get that time you follow trigonometric class like that every other thing you do not know go back and read it did you get it okay when before I used to be very nice now tell you go back because that Ness will put you in trouble say let me help you baba we cannot help you the thing is tooo long if we are helping we will not go further in any series as much as there's repetition but not that type of repetition so but the good thing is no matter where you jam us you will understand what we are teaching but if you want to go deeper listen to the Frameworks the things that support that teaching then you all right are we good beautiful beautiful beautiful so because those heavenly hosts participate in God's Ru over the nation so upon that Rebellion where the people of the earth we building a tower that Tower is not a skyscraper I don't know somebody was in today's today's you are still mentioning Tower skyscraper there's a technology there no technology s there's no technology there that they were build skyscraper is not skyscraper into the EV that's a normal zigurat AB the zigurat structure and I give you that picture when I was teaching you I showed you that picture I showed you that picture when we're teaching on heav um our gathering together if you have the picture maybe you can project it so that they see it just you seeing it not the online people all right so the point I'm making is this so when zigurat is like a temple a a temple on a mountain so you can also build it but sometimes they build a temple on a mountain then sometimes they put many steps like a pyramid in Egypt they have know it's not the same thing though a pyramid is also have the same function like a zigurat zigurat is a different name a pyramid is a different name because Egypt call their own pyramid and the P the zigurat is a pyramidical structure so it's like it will slant so you can climb are you for following so you can climb they believe that the gods will be at the top top of it so they were building a place for gods and that idea was to cover all the Earth in a Darkness AB that's what God rejected

that's what God said no to are you following but there who they want to Worship Is God cannot stop somebody from worshipping where he wants to worship if he would have made everybody born again so when they now went their own way they now went their own way into those different worship but now it's not a global covering all the Earth in the darkness are you following we're going to explain this a bit like I said this is just because I threw a word so we'll continue let me PA it there so when we get there we continue are you follow you're not taking my word for it I want to show you from the Bible so but what we are teach right now let's go back to our paragraph I'm in host of Heaven in my notes I hope that's where you are okay let's go back Soom 173 so host of Heaven is for supernatural beings AB First Kings 22 First Kings 22 and verse 19 and he said hear thou therefore the word of the Lord I Saw the Lord sitting on his throne and all the host of Heaven standing by him on his right hand and on his left this is the idea a Biblical example of council meeting left and right I will not teach you this what exactly is happening here until we explain Devils demons and our the bical meaning of the word Satan Satan s a t n Satan D Satan what does that mean negative positive explanation of it within yet positive AB be yes because God stood in the way of balam and the same word Satan that was used God was a Satan to balam thank God he was a Satan to balam are you are you see how scary Bible words because they are not thinking you are worshipping a word so I'll go back to an word I started using five years ago never worship words because it's just a word Satan is just a word it's just a word it's just a word it just means oppose just like God opposed the proud so God is a Satan to the proud and Satan is a Satan to the proud too that's why that you finish how is God resisting the proud he doesn't have god with him so it can be explained but God resists that means he won't find God God is in opposition to Pride so since what he stands for is what God is in opposition to are you following that's why when they sin they were in the hand of their enemies that that because that their sin was not normal sin that their sin was a rejection of God now that's not how we sin today as Believers we are in our s we are not saying that God is no longer my God that's why the use of the word backslide was used a lot in the old test because they were always going back and forth in their worship of God are you aen so First Kings 22 so that we are simple let me stay within my notes and he said he thou therefore the word of the Lord I Saw the Lord sitting on his throne and all the host of Heaven standing by him on his right hand and on his so this can not be sun moon and star now physical some and start standing by his side and the Lord said who shall persuade up that may go up and fall at Ram gilled are you seeing it he's talking to Sun Moon and so no now and one said I will go and there came forth a spirit so you can tell that the Heavenly Host is made up of spirits so we developed those three bucket terminology remember the three bucket terminology nature terminology function termin ology status terminology remember all right so there are words that I used to explain the nature of the Heavenly Host there are words that explain their nature there are words that explain their assignment oh my Lord you are sleeping I taught you that three years ago on anges AB okay it's in the series on Supernatural things and all the host of Heaven standing by him on

his right right hand and on his left so these are spirits did you get it 2 Kings 17 2 Kings 17 and verse 16 and they left all the Commandments of the Lord their God and made them molten images even two calves and made a Grove and worshiped all the host of Heaven even served Bal so Bal is one of the names of this heavenly host so Bal is so he said I'm how many names of angels in the Bible was asking me so he said um two I he said I told him very many he said there are only two now I said no there are not only two there not only two now you are also surprised not only two there only two loyal guys you see their name m and Gabriel be within our inspired text but there are many Maybe by they see ba ba ba there are many names of sorry I should I read for there are many names of gods now what do you think those things are that's the name they are calling it now just like Gabriel because a Hebrew that's not how we pronounce it now if he appear to will not give introduce himself to me with a Hebrew name now I'm not Hebrew now I'm a b boy I'm a b guy so I should be hearing the angel say his name is O me I'm playing I'm playing with you but you get the point so M we say he is that's how will make you not come and be telling me use the believe ver for it for me are you getting it God is not a Hebrew man now is the biblical writers oh you are thinking beautiful you thing is working the biblical writers where Hebrew see the idea in God's relating with man is for man to understand him God makes himself known in a manner that the people will understand him the same way he can make himself known to you if you can't speak English don't you know God will talk to you in your language God is not limited to now say I can't understand English how will we talk to him now my language is English just like today now we believe that God only speaks English that's how in a certain timeline they believe that God only speaks Hebrew you're beautiful you getting it it was a global language before the Aramaic and the Greek and the Latin now the English is a dominant language ab and they left all the Commandments of the Lord their God and made them molten images so you see that the molten image is made to represent the host of Heaven the host of Heaven is not the moting image all right host of Heaven 2 Kings 21 and verse three for he built up again the high places which Hezekiah his father had destroyed and he reared up altars for bar and made a Grove as did Ahab king of Israel and worship all the host of heaven and serve them and he built altars in the house of the Lord of which the Lord said in Jerusalem will I put my name and he built altars for all the host of Heaven in the two courts of the house of of the Lord and he made his sons pass through the fire and observe times and use enchantment you know what you mean by observe times practice magic that's the word are you following is the word used for magic so today's word will be forun teller that's why he say observe times will tell you the future practice of magic and used the enchantment and dealt with familiar spirits and Wizard and rought much wickedness in the sight of the Lord to provoke him to anger we're going to explain in this series wizard witches where do they stand in the category because they are mentioned in the Bible all those words mean so going know like I said B up now sener said what he has done to the gods of the Nations AB I have taking them captive they had destroyed the gods of the different nations 2 Kings 19 2 Kings 19 now you see he was

worshipping in the house of nrock his God that's 37 however the man himself that look so invincible and what he did to other gods 2 Kings 18 let's start from 18 look at his boast he said hacking not to Hezekiah for th the king of Syria vers 31 make an agree make an agreement with me by a present and come out to me then eat ye every man of his own Vine and every one of his fig tree and drink ye everyone the Waters of his system until I come and take you away to a land like your own land the land of corn and wine and land of bread and Vine and the land of oil olives and of honey that ye may live and not die and hacking not unto ezechiah when he persuaded you against persuaded you saying the Lord will deliver us had any of the Gods of the Nations you see the word Gods there the Hebrew word for Gods there is Elohim are you seeing as any of the Gods of the Nations delivered at all his land out of the hand of the king of Assyria now these are Founding Father Nations uh um Canaan Mesopotamia all the childis um Assyria these are Egypt these are the founding nations of the earth and they had strong men Mighty Men what is called the rafs the neims were part of the origin of those Nations that's why they had such scientific development that could only have come from The Unseen because they were ahead of their timeline we see that within our subject of our cont of this teaching so there were forces they were not just intelligent like that they were intelligent with forces that's why they were far ahead in their civilization and westernization so that those were the people that will you call westerners in those days they were the one Western westernizing the word had any of the Gods of the nation delivered at all his land out of the hand of the king of Assyria where are the gods of hammat are you seeing it where are the gods of hammad so this is the land of hammad he had conquered them or the gods of apad where are the god of seim the Gods of Hana evav have they delivered Samia out of my hand are you seeing it who are they among all the gods of the countries that have delivered their country out of my hand so you see that this man is alluding to the fact the king of Assyria through the hand of RAB Shak that sent that the hand of his Ambassador that we shall be something no Nation have survived us so his own God is powerful enough to overthrow all these gods for people who say Satan organiz don't fight each other you are seeing it how can order be used for Satan when he is called Satan just just because you want to teach say the calm downed calm downrite your own church you see how break away calm down things that experience will teach you you be calm M body body leave Body of Christ Alone brother CHR right now is sick brother ch I die what are you saying Body of Christ right now body body of Christ you know when you talk about the talking about the head s s why thou me calm down cuz now all this accusation is now one the Lord said to me leave those people that are insulting me alone I didn't understand when did they insult you that says Lord forgive me sometimes I do as if I know Bible he said no you know Bible you just are not thinking it fast let your truth be your application and be your reasoning so that's why you got it so we can be slow that's why we are not omnicient we can be slow but the brain will come around because the Lord is talking based on my understanding that I know that the church is himself he identifies with the church you are in Inseparable Union with him don't

mind those people insulting me they are still my people nonetheless but they are always insulting me and yet go we show up in their service that's why the Angels every time say thou are worthy only you can do this only you can that's why they are singing you don't understand that's why they are singing Because wait like C now they realize the supernatural being say thou worthy thou wor they always go they always B that when and you still came through for them you are the one I'm serious so you know it looks funny but actually that's what happens they always that's why within the service in the heavenlies they praise him they praise him because they see and Heaven is not a planet away within the service in the Unseen they see what he's doing H I see what you're doing why they are seeing it been caught up have visions of the third heaven s to the Unseen World you know what I'm talking about you see an introduction there's a need to always praise him just there something you say oh he's worthy oh he's worthy not they're not being spooky that's how the believer ought to be we ought to abound in Thanksgiving and so when they see AC say oh you're worthy you're worthy you're worthy that's the Revelation narrative that that's why because something happen oh something that what that what they not being spooky they being normal that's how you in your own life to break out in Thanksgiving you see something say oh you are worthy oh Lord you are my God thank you for not giving up on me you're my I mean even within your unfaithfulness you declare it thank you that you did not give up on me with my shortcoming in the morning you still stood by me in the evening you are God you are learning right so he say I I have taken captives they could not deliver them out of my hand is that the word of captivity but the people held their peace and answered him not a word for the king's commandment was saying answer him not then came elim so you see the whole story AB so and they told the words of R Shak to him I just love Bible stories so chapter 19 what now happened he came himself verse 12 have the gods of the nation delivered them which my fathers have destroyed as Goan are you seeing it that was a Mesopotamian City by the side a query town and haran remember haran remember haran is not in Genesis 11 Abraham the once dwelt there and his father Tera when they came from the O of the childes remember Genesis 11:31 you see that haran he said have the gods of the Nations delivered them which my fathers have destroyed as Goan as haran as Reser now the names changes over time and the children of Eden so there was a physical place which were in tasar the Assyrian Hill they named the Assyrian Hill Eden because it was a pleasurable place where they wanted to just be enjoying themselves they conquered it where is the king of hamat and the king of apad the king of the cities of seim and H and IA ezekiah received the letter of the hand of the messenger and read it and Ziah went up to the house of the Lord and spread it before the Lord see one fight spread it before the Lord and Isiah prayed before the Lord now look at hezekiah's prayer and said oh Lord God of Israel which dwelt between the cherubim so this matter go is going to be Heavenly now you are seeing it you're getting the clue you are brought Powers now so he had in his prayer he had to be direct many times we just say oh God our father but was specific God that dwelleth between the Chev beams in other words

you know why I use Trev beam language Israel sacred ground oh God that seeking Israel
sa ground you that was show your jealousy show your jealousy that's why nobody fought
you going know how to the toast God lack of word you understand you know how to use
words the prophets were skillful ah is sa that's why go say nobody he said they will not
after I finish asah came say they will not shoot one Arrow the thing don't change because
in the thing that the gods behave them proudly God has dealt with them that's the same J
pattern so that's what heah is doing here so he's taking the battle you see the follow
because this unseen forces because you should know when people are making their boat
like that you should know how to bring your own see you we will see now you will see now
you will not see [Music] tomorrow I'll see tomorrow because my God is the source of life he
gives life to all men don't close your own mind Say Ha then the N you remember Pastor
phone number pastor Pastor somebody said to me laugh go then you not remember that
old rugged Tong God save you in the nth they have cabash on your head as you [Music]
you I shall not die but live any all of a sudden you say Pastor something almost happened
to me something almost happened to me last night oh Isaiah said every word every tongue
that rises against me in judgment I condemn you condemn it say it does not matter words it
matter there are some words when you when you have a war position there are some
words people say you laugh your laugh is a declaration of your status that laugh is you I'll
have you in derision there a revelation that making you laugh he that sits in the heaven have
you seen his aaba you see howu used to laugh that laugh was going to beat a that's why
he beat him it's a posture in Authority there certain laugh you know say he he does see he
does see the guy weak point oh I know you people don't understand what Saka mean but if
you understand you understand if you don't understand no I find another narrative to help
you all right you don't know no I didn't watch it newly I didn't watch it newly you want to
know the contest just fit it contest just fit it Second Kings 19 so Hezekiah prayed before the
Lord and said oh Lord God of Israel which dwells between the Trev beams again these are
Under name of invoking the god of the Covenant so two things he here the god of the
Covenant The God Who does not break his promise with Israel then he says you are God
who has taken Israel as sacred ground remember holy nation peculiar people so this is
sacred ground that's why outside Israel is called hell I remember I give you that the where
you say Jesus was crucified outside Jerusalem and yet Jerusalem but they are saying that
because their geography their spiritual geography mhm so say outside Jem because
outside Israel was seen as not a sacred ground I thought you this sacred ground okay
Thou Art God even thou alone you see what he has done now alone of all the kingdoms of
the earth thou has made Heaven and Earth Lord bow down thy ear and hear open Open
Lord thine eyes and see and he The Words ofer which he has sent him is it that God is not
hearing and seeing that's why we pray it's not because he does not know because now it's
a petition all right of a truth Lord see faith is not Deni of a truth the king of Assyria had
destroyed the Nations and their lands and have cast their gods into the fire the word God
says Elohim for they were no Gods but the works of the men's of men's hands wood and

stone thereof they have destroyed them now therefore oh Lord Our God I beseech the that petition save thou us out of his hand that all the kingdoms of the earth may know that thou are the Lord God even thou only and Isaiah the son of Amos sent to ezechiah saying you see at that same time the prophet send message to sayth the Lord God of Israel that which thou has prayed to me against natur king of Assyria have heard this is the word that the Lord have spoken concerning him the Virgin the daughter of Zion has despised the see prophetic posture virgin is Israel that's the righteous Israel have despised thee have laughed the to SC are you seeing Supernatural narrative so that means Isaiah where he was had taking all Israel which is the prophet function he had gathered all Israel unto himself the same thing Daniel was doing when he was praying for Israel he was saying we have seen when he did not sin people that se but he say we when is putting all the people CU he's interceding so the prophet function of intercessor he's doing that so he must have paced the floor in his room he don't dance he don't laugh because he also have heard those words ezechiah pray pray to so this is the posture so you can see read the Bible with the Unseen word so it says the daughter of Zion has despised where did the Israel Israel was afraid because of the letter now but the prophetic this prophetic communication have laughed the to scor the daughters of Jerusalem have shaken their head have shaken their heads at thee whom hast thou reproach and blasphemed and against whom hast thou exalted thy voice and lifted up thy eyes on high even against the Holy One of Israel you don't cross line by the Messengers thou has reproached the Lord and I said with the multitude of my chariots I am come up to the heights of the mountain are you seeing it you are saying you are an authority to the sides of Lebanon sides of lebano remember the height lebano had a high mountain very white used as a golden Peak it says and will cut down the tall cedar trees thereof the choice fight trees there you know how used to use paros when he's talking this m a lot today I you watch it well you get my point you know there's no other way to say it now Parable they explain Supernatural thing for it to enter you can you just say like just look like normal conversation so you sit in the parable child that says mother will not sleep him too will not sleep without bringing down trees water river water does not flow through the forest without braking down trees you want to bring down something cabay it's effortless I don't need to remember it I remember it anything Supernatural I don't forget it my entertainment is the Unseen word so and I will enter into the lodgings of of his borders and into the forest of his camel you see what he's doing all these words sorry have Supernatural implications that's what I'm trying to show you leave the play the entertainment part that I was just mentioning movies all these words he's using are all words that say something about the supernatural word are you following I have dig and and drunk strange Waters and with the soul of my feet have I dried up all the rivers of the besed places hast thou not heard long ago how I have done it and of acient times that I have formed it now have I brought it to pass that thou shouldest be to lay waste fence cities into V hips fence cities that's the word Garden Gand therefore their inhabitants were of small power you see the explanation the people you conquered their inhabitants were of

small power see Power they they were of small power they were dismayed and confounded they were as the grass of the field and as the green herbs as the grass on the housetop and has come blasted before it be grown up but I know that bold and th going out and I come in and thy rage against me because thy rage against me and thy tumult is come up into my ears therefore I will put my hook in thy nose and I will breed in his lips and I will so you see what he's doing now he's talking about the supernatural being that that is empowering this guy so the same way God has put a hook on leviant so he's using chaos symbols to explain it I'll put a hook on you I'll deal with you as as a beast and this shall be a sign unto thee you shall eat this year such things as grow up themselves in the second year and the remnant that is for out of Jerusalem shall go forth a Remnant 31 and they shall Escape out of m z the of the Lord's host do this therefore th say the Lord concerning the king of Assyria so back to simple English he shall not come into the city so all of that if you know what those things he said before this is what they means he shall not come into the city nor shoot an arrow there nor come before it with SH nor cast a bank against it no Bank not hit the wall try to break the city gate by the way that he came by the same shall he return and shall not come into the city say the Lord for I will defend the city are you seeing it that's the word Ghan I will defend the city to save it for my own sake and for my servant David's sake are you see the two things is that what they engage for my own sake and for my servant David say my own sake is that the jealousy part for my servant David say is that the Covenant part because that's how they engaged him and it came to pass that night that the angel of the Lord that the angel of the Lord went out and smoke smoke in the camp of the Assyrians and 1004 score and 5,000 say power day say you defeated those other one because they were of small power one Angel 185,000 and when they arose early in the morning behold they were all dead corpses that means they were dead to the dead when you say dead corpses AB M so sin king of assria departed he woke up you know his testimony only him he woke up to see everybody dead nobody told him running something for him so every king of departed and went and returned and dwelt in why he not die there because of the parable the those Parables did not like what it meant those Parables that were there we have shaken our head at you with the multitude of that Trav I will come up all this I will enter so since you want to show Power be let me give you the I've dried up the rivers of Bes places so you see all the words he using as I not heard that you you and you dare come against to lay waste on a fence City 27 I know that ab and they going out and they coming in so watch it now so the man thought he had fled so say I know where you stay so he's running for safety now I know your house at myama I know the other one at gppi I know the other one at asokoro I know the other I know all your ask in Abuja where they run so king of Assa departed and went and returned and dwelt at N9 n is not his hometown are you seing it he now went to another of his house the capital this place is by the tigis river n is the capital of of Assyria and it came to pass as he was worshiping in the house of nrock so you see where he St as he was worshiping so he went to a house of his God and then he enter so when he said he went do and it came to pass

so where he was nobody could track him but he was in the house of his God which was the safest place and it came to pass he was worshiping in the house of nro his God nrock the great ego that's the name it's on a Babylonian Idol used as the symbol of their Authority in conquering other nations as the ego is Swift so shall we be swift to conquer territories so this rock that ad and sha his son smoting with his sword and they escape into the land of Armenia and asadon his son reigned in instead Now kill him he couldn't even see it in the house of his God no eyes he could not see in the house of his God he could not see that is death his death was now are you seen how the drama ended so that story is not written because they know the story they not so this they not wrote it to teach something AB thank you you're learning learning something so are there forces so who wants to fight can't you just come and start fighting say you are sending letter you are demoralizing the people Spirit I'll tell you why because one of the ways to engage forces that will be total you want to have total Victory because there is an attitudinal Corporation somebody supposed to have I'll explain biblically that's why strong head can res resist power know you can resist God of course not because God can be resisted but because God does not force himself on people now unseen um The Devils force them on people however stubbornness can resist them yet the manipulate but stubbornness can because there's a cooperation there are some people that their head is not there their head is not there the eye gate the ear gate and the mouth gate must align because the mind guard your heart for are the issues of life so where are the gates the eye Gates AB the ear Gates the mouth Gates the three greatest Gates into man's Soul so to get an attitudinal cooperation you have to hear it you have to see it you have to see it for us to say you will not make it and you really did not make it say that thing to somebody that have strong head and have lo lo as his god father that have high chief that I not mention names Now High you know you say high chief in the East many of those four high chief and Prince I will not mention name again and that's the person you said you will never make it I lift up my hand to the heavens you will never make it Baba no work no work those powers that be with him will not allow it they're not allowing that word because they say why one of our c is not going to make him there one of the Giants in the East that rose up and said nobody is lying willever be see that kind of L C have laid in store against every CA the know light you know work sir say why is you working by his power he reason They Carried your they carry your ancestors Idol and put it in museum in Britain the gos the gos the gods are read the gos are don't ship your Gods through water mhm because the white man did not believe anything there and because they did not know how to engage a higher power because the white man power is greater than the black man power you may not agree one day you will realize it because the power is more Innovative that's why he invents things because our power is more wicked it's more primitive for enslaving so because the powers find greater ways of exposure it could subject all these weaker Powers that's why the the Baba did Juju for the man but no to you for for RPG clear Theo you know he's gone you shoot say carry RPG the Baba will say you did not know to run the gods did not know of RPG the go not know bomb he go walk and

say that's why in the world of the ult me I I grew up in oper you don't know what that means I remember many years ago we saw I was still a a child witness class IC and ner College not the reformed one now if you know you know I mean we in the boss people H in the airag it down they not tell me I was seeing it so you f he not enter guy touch chest go touch chest now how can you hand something it fell off but it stayed there for some they rck then grab it again oh as a child that was my motivation to drink C I have to have power in this life this is the first time I'm sharing that story I said God power day no it fail it couldn't have it couldn't is it's temporal but it it it could sust just like they went over that law of gravity you can go over it for a moment to sustain it you need a higher power which is the power in that's why airplanes now you see they able to but they will fin land but that you see there's a physical power they now use that anything power can go beyond something I go learn many things for this series don't worry like somebody one of my friends we still learning about supernatural things I told him you always jamming arm robbers and always robbing you better start talking later on when I he the story we saw it because we came to his house there were gunshot but I told him now God save you you allow them shoot because the guns were on the ground they shot several times the bullets were all on the ground they shot him as they shot it fell down I said we not they let you say it the guns will not fire Baba the day of [Music] ARG you not look at the power not working you will learn learn how to speak because why the Baba told them that they fortified they just talking they just just they are letting the people shoot because his arrogance his pride your boast is that this thing will not work not that shoot now shoot now you are a forcing you are a spirit sir you can't say shoot now shoot now shoot now shoot now shoot now you will see you use your own mouth to say shoot now shoot now you will see get my point I'm not saying you should confront please don't give them your phones please even your laptop the one that did not know just says you you forgot my laptop now who no Believers Authority I've told you anything that makes you try once you want to try what I'm teaching just give them say sir you forgot this I also have 1,000 you not know I eat this my socks just corporate way so that you live is who is alive that can win one Souls when you leave say you know know it's Authority we will be using you you know it's Authority so we always say if you going to try it that means it will not work don't try don't try I know some things or two about power sa I kept the peace in the C so so I know some things I have jamed am a lot to the my com with am is enough to last a lifetime so I should know something or two about these matters you would get M because there is a corporation that's why Daniel David notice they were talking how can you not be talking not talk David was talking you come to me I come you keep quiet no you talk our gu said he matched his leg was on on an uh on the land M when they posted him to sisa they were just trying to get rid of him but the hand of the Lord was with him they posted him there so he his leg they said Don't Panic told all the people don't go back go back I will follow follow got a lot of he picked it up you know what land man mean then he went to go and throw it away then now exploded sir that has powers yeah you go against those elements you go against it the man talked about you go against those

things poison you must have fortification so it's part of Spiritual Authority that's why it takes a lot to knock that's why you see that we don't force the symptoms don't knock on our door easily it's like once in three years because a strong Spirit pushes away infirmities you must have strong Spirit you get it here we here we are learning AB learning something so host of heaven so were they created to accomplish a specific purpose were those host of Heavens created for a specific purpose yeah they were they were created for a purpose God is the judge of all the Earth Genesis 18:25 but is he also the judge of supernatural beings Psalm 82 and this where we end for today because of time trust you learn something like I said we are not rushing this thing a s of Assaf it was the Lord that saved me from arm robbers told me why are you always saying they cannot do anything to you why not say you will never see them again why not say I mean you see how God helps us in this because you the mature in Authority will be making you wiser because the other one is why you are jamming you having confrontation there's another man with another level of authority that does not see it he's absent in the day of evil so I changed my world no I can see me for evil in the day of evil I'm not present I'm never found all those that Rise Against Me Fade Away started so now I don't see anything against looking like nobody no none of those kind of things ah there was a day I was passing this road I was going to see a property inside I got here I reversed back went to go and turn around I was laughing I say life is good to be sensitive and one of my community people called me that they were fighting there we are the real man M I turned around one time I was a security went to check some property I was the security police people had guns with them and I said to them don't worry that there's something I would do that car will not move our forefathers you see those women they say I mess for the vle the ve don't move one old woman you didn't hear that thing I I I stayed in Village small say I mess for the vle that ve no Fe move move you be thinking is the Real mess no it's the other one it's another thing something we do maybe we test with your car not my own now work in case we try to stop it to now work again refuse to work more mechanic so that we have to sign an agreement but it will work now is if you can start the car afterward are you following so Powers h H other times you know the same AR Bishop deliver AR Bishop John fence I like that's I like to expl so same AR Bishop John fence when Bishop go Victory same AR Bishop so all of them is the same same AR Bishop but different times different that's why it's good say move say why for no evil shall come near now no evil you move so you'll be quoting you know some people people when you look at you just know they W this after I was telling somebody that was with me I said see death is calling this guy we saw a bus driver a conductor he was burning out of his bus like this I told the person with me I said we try it again tomorrow he will try it again until the day we now die I was not cing him it's what because there's a voice telling him to die death is calling him so it's for him is enjoying himself Baba stay inside the car you that's how you just trailer be which kind of cruise are you catching but there's something I telling him let do it like that let's do it like that let do it like that let's do it do like that don't be doing it like that s so the host of Heaven Psalm 82 and this is where we end oural of us have God stands in

the congregation of the Gods of the Mighty the word mighty there is the word Gods God
standed in the congregation of the go say the congregation of the mighty of the Gods that's
the word he judged among the gods the word mighty is the word e l l is another Hebrew
word for God God standed Elohim standed in the congregation the ad E D ah H we explain
what that means also in this series God the congregation of the god standed Elohim
standed in the congregation in the a of the L he judged among the Elohim how long will you
judge unjustly so that means they are also Jud judges and they are judging unjustly and
accept the pings of the wicked defend the poor just like man judge on the earth how long
will you judge unjustly and accept the presence of the wicked defend the poor and
fatherless do justice to The Afflicted and needy deliver the poor and needy read them out
of the hand of the wicked they know not that would they understand they walk on in
darkness all the founs of the Earth are out of CA I have said ye are God so you see
talking to human beings and all of you are TR of the most high but you shall die like men so
they are not men it's not that no by spiritual maturity they have grown into the status of
gods no no it's just excited teaching that's why Jesus used this context to explain did you
not call them Gods John 10 it was not men he was referring to but you shall die like men
and fall like one of the princes arise oh God so speaking that these are supernatural beings
in Rebellion shall die like men so you see that they had an assignment they had an
assignment that they did not discharge properly this a good place to end so the host of
Heaven have an assignment amen the host of Heaven have what they have an assignment
they have an assignment with [Music] man remember that Hebrews 12 and 13 that says all
things are naked and open open onto the eyes of him with whom we have to do ab so God
sees everything so everything that happens in your life happens within the sight of God as
they text the Joshua Caleb story they say whatsoever you said in my ear that will I do what
did they say it in God's ear as if God was physically present because everything they were
doing they were doing before him because God is the only being that is only presentent is
in is everywhere with every human being at the same time time but he created a vast
number of Supernatural being just like any human being that knows something about you is
human being you told something to AB or somebody you human being you told when to go
and tell them that the same information Network in the heavenlies that's why uh the Devils
have familiar spirits to familiar Spirit Network to be picking information we know that so
that's why if you want to keep something from the devil knowing you can you can do a lot
of things and the devil did not know know there are some Ministries that Satan is protecting
because they serve his purpose they helping him spread Darkness on the earth only from a
religious stand you me there are Ministries that Satan himself is protecting they can't fail
they must succeed because they have a mission that is not following God's Mission their
mission is to spread Darkness on the earth I didn't use the word church I use the word
ministry deliberately there are some Ministries like that Satan himself is one protecting
them you must work sir way Satan can give some people money oh okay oh they told you
Satan only closes door he also opens door oh you don't know you also give gifts so also

give gifts ah he has different strategies in his steal kill and destroy Ministry Hallelujah but we know just like the Red Devils are going down consistently Satan will keep going down Hallelujah the Devils will keep going down amen some people now want to protect the devil is the devil not down always be down amen seal it to their fall there will be no Rising this which has begun will not sees I see it we have confused some person some people think they all right so if all things are open before God who is omni potent omniscient omnipresent that means angels are not remember we said who is like unto the non like unto him all those non like Telegraph unique attributes that only Yahweh has AB a set of attributes that only God has AB those set of attributes that only God have he's Eternal he's omniscient omnipotent omnes remember it now we T you that who is like unto God that's why we Tau that series early this year I was to prepare you for this series okay so you can say this is a continuation of that in your followup from the previous teachings the arrangement from last year are you with me so when you look at those um attributes that's the word you I like qualities better than attributes uh you look at those attributes as we call them those qualities that Telegraph God's uniqueness over all the other gods something is clear our unseen beings always present around us ah so they are omnipresent so they are always with you 247 you see that that answer you saying yes has an explanation they how are they always with you that means when you enter bedroom to they follow you you're not thinking like that you carry your wife to the other room they follow you what that they look for all you are thinking okay because Spirits don't think like that and see like that but I'll explain you these things have are supernatural beings everywhere of course we know they are not so you must get it clear they are not only the only of the OM is not used for them they are not Eternal they are not the Creator they not called The Creator remember those things now God is the uncreated creator he's Eternal AB the Lord of time is omni omniscient omnipresent now no supernatural being is so just like in the natural it's only what I tell you that you know so when you see somebody knowing so many things that is not word of knowledge and some people pret word of know when it's word of Gossip many things that somebody else know is somebody that betrayed you that told that don't be believing that is is revelation is say I I I get it in my spirit but but no Spirit no Spirit now sister uh sister a and sister B and sister C and sister D I tell you no Spirit some people talk when they are enjoying themselves they are high they talk they in love so like that so information so a b c d informations so that's the same way supernal hast thou considered my servant he was going to and fr no go and consider my servant so in his going to and remember the question has thou considered my god did not say go and consider job no he had consider job already I've explained before the use of words it didn't say I put him in your hand he say he is in your hand that means he was already in Satan's hand are you following all right so we explain those things so has that considered not go and consider my servant job so in the Hebrew it means considerate my servant job is what brought you here and that's really what brought him here that's why I had something to say about job because he had considered job Satan seek who we may devour are you following are you

getting it the prince of this word has come Satan departed left him for a season and Angels Came and minister to Him Luke 4 Matthew 4 AB when Jesus fasted Angels now came and Minister the devil left him so the devil is not always they are not always so they are no omnes they are no omniscient we explain it theologically but I'm just showing you something because it say he's Peter's Angel so is there something called guardian angel don't be quick to say yes where did that concept come from is it biblical how exactly is it explained in the Bible and is there something like your angel and they say it's Peter's Angel are they expecting Peter Angel to look like Peter to have Peter's DNA or [Music] what there are unseen forces with me are walking with me and the things I say and the things I do can also be unseen forces that the things we're looking at in this series there are unseen forces that can be with me for my good and the things I say and the things I do for example charity there a man the Lord said to me if he has the blessings of the orphans and the murders even the Earth wants him to be alive that things God have said to me in the last six years that have affected my theology I had to ask him Bible verse how can the Earth not not want to lose him give me Jeremiah give me Ezekiel right write this man childless the Earth wrote a man childless so that's why we're looking at this what powers were they engaging is a prophet of God or not a prophet of Satan God is saying right this man childless and he was speaking to the Earth so that oh that's why that your days may be long on the earth I never saw it like that so the Lord said to me there are forces that are keeping him he may not serve me believe in me there many years ago person is not in a those you're not thinking is who you think you are thinking about lord said to me he has the blessings of the orphans and the widows even the Earth wants him here as if the Earth has a voice of his own there are some people that they are calling that the other word is calling them I'm opening your heart mind to Supernatural things that's why when you try to raise them up they don't come back I raised the dead so I know what I'm saying first and the experience people we pray for there was a brother we were praying for come back that day I say I go I go be spiritist I follow I entered as we were praying I looked into the Unseen I said I will find them why would they Shout Baba you're the WR other people walk you walk into the unse who pursue [Music] you where you they run was running they don't call him I you see you know don't believe in those kind of things that's why I'm going to show you that the Bible has all those Supernatural context that you think he's not there some people the way they acting like that guy that bringing his head now death they call him because there are different ways to die like somebody that every day act every day you know what we know what we kill him we know what we kill him we know what we kill him we know what we kill him we know what we kill him one go enjoy yourself is enjoy life chop life [Music] [Music] R so that guy is a forces this man is committing suicide every day even the songwriter knew he was committing [Music] suicide my friend you're dangerous h two days you have not drunk water and you are not fasting my friend you are dangerous there are many ways to die hunger also kills people hope you know hunger kills people starvation kills people hope you know hunger kills people have you not seen people that are suicidal

there's a voice draining it that's why be careful how you scone people how you people because con has a voice you will not mount for anything nobody will ever love you you are not beautiful you are it has a voice oh and you say you were mature how could you be hearing voice Baba hey see you mature one day like that I was just driving I just remember something I will not say it I just leave the content voice is you just get out in the name of Jesus where did that come from h what kind of thought is just swap the car swap the car into what where did that come from I Mar break I just Park swap who swab she just sve it like this sve what I beg there somebody else drive sve it no no no no fear has a voice immediately gyus was told your daughter is dead Jesus said fear not he answered immediately because fear has a voice faith has a voice condemnation has a voice guilt has a voice you are demoralized God will never use you this is the end of you it has a voice and because it has a voice the power is given to it because one there something has voice there's a power attached to it Hallelujah be careful what you say I'll never amount to much what kind of nonsense talk is that was a story I was sharing with a pastor that I respect and he said are you not the man of God you are really a healing Minister nothing dies in your hand I mean I won't give you the context only the pastors know the context I mean but where did he think it to that extent so our words matter the things you say matter are going against the normal order because the things you believe compels your body so be careful things are not don't go by the same rules 9:00 a.m. in the morning what a useless day 900 a.m. useless day in said 9:00 a.m. bad news bad news what do you say I will deal with today that today will be a great day remember the devotional how to have a great day you know how to have a great day I'm going to have a great day Hallelujah glory to God lift your hands thank him use your Authority that's why we're learning this series on sin forces you're learning something
