

in the name of Jesus Lord we thank you open our hearts to your spirit this morning again and we trust that in this service the eyes of our understanding will be flooded with light we live here with a deep-seated understanding of who we are what we have and of also of who our God is and even as we again study around the Unseen word as we look out unseen forces understanding our Authority in the Supernatural word that this would be that meeting where our heart is flooded with light with full of insight Direction wisdom by reason of the word that the things that ought to be said in this service will be said the things that ought not to be said will not be said the things that ought to be done in this service will be done to the praise and glory of your name and we declare that in this service we shall be mightily edified built up transformed by the the power of your word we believe in miracles so we receive Miracles we believe in Vision so our eyes are open into the Unseen World and we see what you do in our life in our midst in our nation in our families we see what you're doing thank you we declare as truly truly this will be our meeting in the name of Jesus amen God bless you have your seats amen Genesis chapter 1 Genesis chapter 1 Genesis chapter 1 still on the series unseen forces understanding your understanding your Supernatural Authority this part how many six I think so Genesis 1 and verse one in the beginning God created the Heaven and the Earth now we' have laid a premise already in the course of this study especially on Wednesday we laid a premise where we can easily just jump right into chapter 11 because we started Genesis 11 then we took a pause and we ended on Wednesday so we're just going to start from there however that's going to be our focal point for this morning into other things amen Genesis 1 in the beginning God created the Heaven and the earth when God began to create when God began to create the Heaven and the Earth what did God create the Heaven and the Earth it's what God created we said if you look at it from uh grammatical context Genesis 1 verse one verse two and verse three verse one and verse two are dependent clauses there is a clause and there is a phrase so there's the use of a clause dependent clause means the statement will not cannot stand independently cannot stand on his own the statement is leading on so if you take verse one verse two conclusively you'll be wrong because it's leading onto verse three where now said let there be Li us the conclusion Genesis 1 verse1 to verse3 has more than one way of viewing it and more than one way of viewing it it's in the input that Moses the writer puts into the text now we said we must allow ancient men be aient men acient men acient thinking and the way they are writing they are not writing now 17th century was the rise of science they can't be writing with a 17th century mindset the rise of a lot of scientific ideologies was in the 17th century the scriptures we have Genesis to Malachi and the uh gospels the episod which is uh Matthew to Revelation put the two together the 66 books we have that 66 books that we have in our Cannon of scripture God inspired second millennium BC men and first century ad men to put it together and that's premodern precient specific so what you're reading do not we call it bully you'll be bullying Moses when you want Moses to understand about priv jet Christ s you can't fault what he's saying because what he's saying should be read in his world view in his timeline are you

following because if we're going to fault the Bible for that then we're going to fault every literature that was ever written before our day which is stupid so when people say the Bible is quite outdated so let's bring in some things like uh the alphabet Community rainbow color Community women changing no longer women and all of those nonsense that we see because the Bible is not more than so they're trying to no no no what it meant in that timeline you need to find what it meant today and thank God we have not just Genesis to Mal we not had the what the apostles wrote Because that's a bit closer to our timeline first century more closer to our timeline are you with me more closer to our timeline than second Millennium B you say that's very far but at least so we now saw how they cross those words over in the Epistles so you have a complete scripture in your hand what is in Genesis to Mal what you also find in Matthew to Revelation both explaining the same fact the same detail in fact all the apostles began to that's where they taught from so we have have a complete scripture there's no contradiction in God's word so we said um all the proper way to read the Bible is always in his historical context its cultural context and its grammatical context would help us every time in interpreting the scriptures and this morning we're going to be very intelligent in our explanation some people hate the word intelligence some people hate the word academic approach say because it make it not to be spiritual a book is an academic work the Bible is a literature and the fact that you have a translation shows that it was not done by idiots idiots could not have translated idiots cannot translate anything it takes an intelligent man to think the best word we can use to put it in another language it is not a community of idiots that come together to translate from one language to another so when you want to speak against an academic or an intelligent way of presenting facts you you'll be shooting yourself on the feet because it makes no sense because the Bible is a work of interpretation because the translation you have is an interpretation you have the Greek the marginal reference all those Interlinear they all references they are all interpretations they are all and interpretation is a scary word interpret interpretation is finding a word that explains that word in its original setting in our word today that's why you see some different translations and those translations have U some have footnotes some uh give you an introduction into what they are translating some what you call a paraphrase translation they tell you not to take them seriously that they just paraphrasing the normal Bible they advise you to not take their what they are doing as the word of God that you normally know because this is like a pure interpretation they make it clear in their introduction in their forward that this is an interpretation so you can't miss it that interpretation because the Bible now is in different languages across the nations of the Earth all the known languages have the Bible is Rel to All the known languages in all the Earth has the Bible have been transl into those languages and so we can always look at the context of what is being said amen can always look at the context of what is being said so this morning we're going to do that kind of intelligent study don't sleep up let not become boring to you no should be very important to you because that's how you see that the scripture is not just let's just put together any nonsense we like no the Bible actually is

written with intelligent design the biblical writers were not idiots amen but will not bully them with Mod thinking because they were not they were premod were pre-scientific and if God wanted them to think the way we are thinking today that would mean God would have inspired all Their audience too which would have made that timeline to longer be the first century but the 21st century are you getting it which will be dumb because let time evolve let men grow into things if God manipulates and changes things like that then nobody would have ever been primitive same way some people say God God makes some people Rich God makes some people poor why so God is the one responsible for class in society no your hard work your intellect your upbringing your Gans they play they go a long way or good family a good upbringing a good man lives inheritance for his children so all of these factors come together for why there's different classes in society AB so you can't be bringing God into that say God makes some so that those rich ones will give to the poor one that is itself makes God tyrannical makes him not to be a true judge because how does he decide that some people don't need money that somebody else will be the one to give to them no it is within the love work that we we now equalize all men by saying you can share what I have what I have I can share with you and we are taught to do so amen because God is always for for things going around that's to show that if God were to be the Sovereign ruler religion tries to pent God that God would do anything he likes he does not need man they would have also stopped Adam from sinning you seen how dumb sometimes those views are say God will not allow you do something they would have stopped Adam it was just one man one woman it didn't stop Adam because God allows our choices and sooner you realize that sooner you begin to to understand God that is such a loving father he didn't make us as robots he expect us to use our choice to obey him to serve him amen so Genesis 1 says in the beginning God created the Heaven and the Earth and we said the use of the word Heaven and Earth explains two things heaven for the invisible word or the Unseen word the supernatural realm as we call it Earth the sin word and we said both of them are here in God's Universe before the fall God's Universe God's word before the fall was double teer Heaven and Earth and they intersect each other God created the Heaven and Earth together it can't be separated it can only be distinguished you can distinguish it that say oh this is what heaven is this what Earth is but you can't separate them and look at much of today uh movies you see how people are living their life you see in some of those magical movies MoGo Community you saw it in the work of the great lady in her writings what she wrote in that series you see that oh that there's a world view around it there's an Unseen World that other people cannot see there's an unseen word in those Harry Potter series there's an Unseen World you see it in all of these movies they always try to bring an unseen word or they bring aliens walking among men or you see where did man get that kind of rain from taught it in two years ago where we taught heaven on Earth for the very first time man in two was all those our teachings we emphasize that God has put eternity in the hearts of all men he has put the Unseen he has put Heaven he has put uh there is a longing in every man act 17 said the same thing God if

happily we may feel after though he be not far from every one of us in him we live move and have our being AB so Paul was very clear in that teaching act 17:25 26 27 I mean was very clear in his teaching in M he the kind of man that God made so God made man to feel after him so there's a void in every man that only God only the Unseen can Cobb can help can satisfy some people try to fill that void with drugs some people try to fill that void with hard substance sex all those other things to fill up that void void without being saved that's the context I'm talking about without being saved try to F with many some people try to fill it with aism with the fact that there is no God some people use that to feel so you are so preoccupied about what does not exist that you are now a student of what does not exist just to prove you see it now so some people become so preoccupied with it that they Venture into science more and more and in the name just but there's that void that is been answered with different things there's a Fascination man has hard for the world beyond that we try to spend now people are sending billions just to go into outer space saying okay can we find all habitable PL there's something within man that is longing for something else and that is answered within the premise of the word of God why men look for something more out there because God made man to be more than ordinary there's something in man that does not like to be trapped to be AR to be just be because we're not made like that we're not made like that just like um your DNA will always bring you out your jeans your I mean those things will reveal you that's how God's wiring of man will always reveal man man as his best will always gravitate to be more than ordinary no matter how much you try to box him limit him man at his best we always want to go beyond that because he knows that there is something more so look at the highest gross selling movies of all time in the whole world always movies that tilt to the supernatural because that is the greatest number of men on the Earth are more preoccupied with the Unseen even those that say there is no God or do not want to affirm Christianity or do not want to affirm the things of God tilt towards the Unseen word is not just and again sometimes we uh forget to always mention it we are not the minority in the world population but we are not yet there because we want to be a greater majority I mean Christians we the majority on the surface of the Earth always remember and don't allow movies make you look like oh the Christians are not no we are the majority on the face of the Earth you didn't hear me sometimes you just have this U it's a it's a very cowardly nature you just some walk say I don't want people to know I'm you are not the minority sir you are the majority on the earth even if you don't want to know God's word to be bold to not be ashamed you not the main minority on the face of the Earth some people are wondering the English I'm speaking and when you put all the religions together in the world Christianity is the majority not the minority so stop allowing a westernization and an ungodly world give you the idea that we be few we not be few we be many are you following and we want to be many more that's why we have a work to do if you look at yourself when was the last time somebody preached to you that should tell you why we are so behind in global evangelism no one has preached to me now for almost 10 years no living Soul has walked up to me and said they want to preach to me so that

means if I was not saved before 10 years ago and I did not get saved 10 years ago so imagine I was not saved I will never have been saved are you following all right because some people never get and they segregate who they should preach to who they should not preach to no Jesus belongs to all men doesn't belong to Christians Jesus is for all the nation God is for all men Hallelujah so we need to know that there is a seen and an unseen word and they intersect they they overlap God did not create them to be separated we can distinguish it but we can't separate it the heavens and earth were created together they ought to function together now the fall of Man uh brought in separation but that separation is Union that how the Heaven and the earth work together is longer the proper way but it cannot separate that heaven and Earth are in the same place no that is the design the design of the universe is that heaven and Earth are in the same place what sin did was to create create a gap a separation in our Union in how both words intersect with each other there that there is now a distance there now all of this uh we need to get into the realm of the spirit there's all of these uh Protocols of entrance there's now a difference between uh sacred ground we thought on understand our gathering together the very first place on the Earth was the GID of Eden because the GID of Eden which we have seen in our study Ezekiel 28 Genesis chapter 2 showed that it was high up but the rivers flow downhill so if the rivers are flowing downhill so we can say Mount Eden Garden of Eden the very first Mountain because Ezekiel 28 called it the Mountain of God the garden is a mountain and because they trying to Telegraph something in their world because ancient men saw that the Gods live up in the mountain because nobody was climbing mountains for recreation they didn't know the ancient men did not know that would be able to have aircraft things to hook on mountains and climb and nobody would just set out to climb even to date nobody just set out to climb mountains it's still something that people don't do so much AB very uh Li very limited number of persons we can count the number of persons in this world that have attempted it all those Expeditions we can count we can still count it as long as we can count it not count that is more than a thousand it has not reached that been succeeded in climbing different Peaks different mountains some used to die those days so imagine how man attempts things why what was he looking for up the mountain there's just something but the ancient men knew that up the mountain has to be where the gods are in the sea now that's how the ancient men saw it and this is not just in Christianity it was in even all the Pagan religions all in that their timeline too had the same Asian cosmology so it was the fall of Man that now brought Heaven Earth and under the that under the that we now see the tears Heaven Earth was always God's plan but under the Earth was now the fall of man the Rebellion because death came in the first rebellion and death that came in the first Rebellion there have to not be a place for the dead people a place of the dead so shol is used to explain a grave and he used to explain a grave for Spirit the Unseen word and just like in the Unseen word so Heaven and Earth hell three so you see that in Exodus 20 in the 10 commandment shall not make any graving image AB Exodus 20 let's go there thou shall have no other gods before me verse three verse four thou shall not make unto

thee any graving image or any likeness of anything that is in heaven above or in the earth beneath that is in the water under the Earth so you see Heaven Earth under the Earth the same thing you have again in Philippians chapter 2 recall Philippians 2 at the name Jesus come on Philippians 2 and we read verse 10 that at the name of Jesus not at the mention you don't have to mention it no if you have to mention it the name has no Authority it's at the name at the authority because the word name is not what you pronounce the name is a function a status an accomplishment at the accomplishment of Jesus every KNE bow so I can mention it but whether I mention it or not it's is still at the name at the name Jesus every knee should bow of things in heaven things in the earth and things under the Earth you see that their cosmology has Heaven Earth and under the Earth are you following now please by no reason think that these are only the references for it it is littered from Genesis to Revelation and we've done that study in a different place in a different time Abi Revelation chapter 5 we also see the use of that word verse 13 and every creature which is in heaven and on the earth and under the Earth so so Heaven Earth under the Earth it's used a lot in the Bible so the ancient had that ancient cosmology had that round circle it's like a round circle I think we have a picture they can pull it up for you to see a picture so this is in all religions in ancient time this is how they so you will not see it's not just in Bible all Hebrew cosmology all the ancient had this kind of cosmology they put God above the cycle God is up so there has to be Windows because that's how they are thinking so in they thinking they put God up there around the cycle are you seeing it God on top then Shield under that's just how this is not uh even Plateau I mean even the Greek Scholars all areir that's their whole world view all the bus men before Christ all right you get my point all the before Christ so it's not a Christian where you say Christians have this idea of Heaven Earth and under the Earth no it's everywhere it's like an anient understanding of the cosmos they all saw heaven Earth under the Earth are you following only that the explanation of it differed based on the different Pagan religions and the biblical writers wrote poic or pmic is a counternarrative they wrote against they wrote against those world view that was wrong they wrote against so if science was at his Peak they would have written against some of those scientific things today but they wrote counter many of those narratives because the ancient had the flood story too Mesopotamian flood story they haveu they had different of all those stories so the biblical writer wrote to counter those narratives even uh sons of God walking among men the biblical writers wrote to counter those narratives too so the biblical writers in their world view put together things that would because Israel could be shaped by their thinking I mean newspaper gets to let me use word newspaper internet you could hear something either for Their audience to hear something differently the prophet which were responsible not just for say to the Lord th say the Lord is just a tiny part of what the prophets did the prophets were the teachers of the convener they interpreted the promise of God to the people and they also told the people what the Lord was saying now those prophets were charged the responsibility of making their people know about God and how to worship God God so they had to teach against

those World Views that's why you see a greater portion of the Bible has a lot of talk against idolatry because if you read your Bible there's a lot of against Idols against Idols everywhere because that ancient worldview was deep in idolatry are you with me so that was how the ancient saw the Earth and they also had what is called a world tree you must have heard that in the movie talk if you watch movies you would have seen that a world tree so either this or the other one that was totally their world view and that's why the Bible uses trees a lot I taught you that in that teaching mountains of God that's why trees you see because trees were that's why today you see native shrines are around trees because trees in ancient time were contact with the Unseen World because when you see a tree they paint it you see it in all the fantasy writers starting from the all the CS Lewis J.R.R. Tolkien and all even to the modern fantasy writers of all the dragon movies and all of those stuff you see they all depict that idea you see somebody talking to a tree they climb faces into tree they tie a cloth on a tree are you following you see you see these things in your in those movies the Bible is a very accurate book in presenting that world view so you see the writers also use tree you will see that most of the encounters the men had with God was around trees around tree Abraham was under the tree where he saw those beds you see tree tree tree we talked about that in that Series so you can go back listen to that it's very extensive we did a very serious theological work in that series mountains of God so you listen to that now all of those things like I prepared you last year were to lead to this because we need to see and know our Authority why the repetition because it doesn't hurt and also because we always have new faces so we say repeat but without turning the study to be just about the repetition amen because repetition helps understanding amen so Genesis 1:26 why did God make man and let them and let us make man and let us make man and God said let us make man in our image after our likeness and let them have dominion God said let us make man the use of us does not speak of a plurality of people creating God is the sole creator of mankind so if you observe it's only one person that is talking it's only one person that is doing something because yeah Israel the Lord your God is one Lord one Lord one Lord so the Old narrative shows that there were people and this where many persons have come with their theology that there were people before Adam there was a civilization before Adam and they start saying there was Adam is not the first man and they try to teach some very deep stuff which is purely dull because the only civilization or the only world before Adam was the Unseen world heaven was made before the Earth so instead of calling it people instead of calling human beings just say use the Biblical word the Heavenly Host were made before men and we said that on Wednesday Hallelujah the Heavenly Host were made before men Job 38 when the sons of God shouted for Joy the morning Stars the sons of God shouted for Joy so God made his invisible family or his unseen family before he made man so is that audience he's talking to you see that that us is used again in Genesis 11 which we will soon go to let us go down when us go down is one person again that is performing an action because I give you the idea it's like when we say let's go shopping normally in a I told you that on Wednesday in a normal world where

with people who were raised properly the person that said let us is one that should pay the same thing with let's go let's have uh let's go on a uh let's let's have lunch let's have this let's is that person that should pay so when you see the use of us speaks that there's an audience some people have used to say oh the us there is God the father God the son God the Holy Spirit and that's very barbaric because there is no template in the scripture for that kind of reasoning I'll tell you why because it's a mockery on what you are trying to explain that there's a tri Unity so God if God is in if the father is informing the son it means the son is not God because the son is now all of a sudden not omniscient he doesn't know once one member is informing another member of an action like oh I get it now it a wrong way of viewing it's a wrong way of interpreting but say Jesus said he doesn't know the day or the hour that's why you should come to church when we interpret hard Bible text that would be stupid if J not the day that is coming said but that's what the Bible say no I don't I want to put dummy but I I held myself don't do that when you don't know something you shut your Yap don't generalize don't say what it is that's not what he said that's what you read it because you are you don't read the whole chapter the chapter was not speaking of the chapter is filled with knowledge and within that premise is what he said what he said it cannot be read outside once you don't read the Bible in in context you are a con Co or Conn artist you can you can kill you can deceive people about there's a context say Jesus was not the de you know the deal or the hour because first what you call the day or the hour is not biblical in on in orientation because the day or the hour you have is where is destroying the Earth and rescuing us to a space so that we will live forever and ever with him in the cloud but that's not Bible because Bible has us returning back to the Earth Bible has final destination of mankind being on the earth so as much as you love your heaven heaven heaven story you must realize that God's plan has always been to have Man live on the earth and function properly and God will have what he orig God never has plan B never has plan B he may do a Reconciliation back to plan A but he will never have a plan B he doesn't change his mind his counsel will stand and so God's original plan was to have Eden spray Genesis 2 planted a garden East and he wanted man to dress and keep Genesis two ab the word dress and keep is be priest and Prophet we had the general School of ministry we talked about that spread this influence all over the Earth let Eden be all over the Earth and that's the first biblical explanation of the word kingdom of God hallelujah so there is an already but not yet Paradox in the Bible you see an already but not yet Jesus has already done it but not yet the kingdom now but not yet we are now this but but not yet you see there see something we anticipate that Paradox is deliberate in scripture because something has been done but something is still going to happen Hallelujah are you with me something is still going to happen something is still going to happen so uh there's a world view that the biblical writers had and we must retain that in our thinking our Bible explanation and God said let us make m in our image after our likeness and let them have dominion so God made Man In His Image and the use of a like a a o u r shows that man is Imaging God but shows that not only man man is not the only

being that images God the Unseen family also image God the invisible beings supernatural beings heav L host also image him they represent him they are the Heavenly administrators so where you see Heaven on Earth just as it is in the Lord's Prayer it's not a new idea in heaven as it on Earth as it is in heaven it's not a new idea it's not a new idea God wants heaven on Earth and that is his intention from the beginning and what that means is what we saw in the first place where Heaven and Earth were together in one place God God angels man functioning living together in one physical space in the physical world God and man in the physical world living together indivisible and indivisible in one that's why it was not a normal place it was a sacred place you see it was guarded around with cherub beims because it was showed that this was a seat of the Gods because surrounded by Throne Guardians so that means this was the seat of God as Ezekiel 28 verse 2 three said before you get down he said that was the Mountain of God so that place that's why man was kicked out of it not God because you know who a place belong to by who you drive out all right God drove man out of the garden paraphrasing the use of the word god drove man drove himself out with his conduct that's the use of God so that's how the B writers right they put God for what God is aware of all right what man is doing before God or unto God put God did so God drove man was man drove himself because it was man that ate in the day you eat of it you shall surely die Hallelujah so there were unseen beings made before man Colossians 1:16 says whether visible or invisible all things were created by Him and for him I be God made everything Thrones dominions principality made visible and invisible beings God created everything there's no text in the Bible that has God sharing creation creative with men no God is the sole creator of man kind Isaiah Ezekiel Jeremiah we read many of these text even in this series God created alone God is called the Creator God if fact in our last lenty series where we taught on who is like God we taught extensively that one of the attributes for God is that is the uncreated Creator and that's how we were able to explain that Jesus is God because Jesus he's called The Creator and if he's called The Creator that means he is God it couldn't have been created then some people have this idea of oh he's a son so where is the mother and that's a very dumb idea because the ancient never viewed sunship in that order they didn't because you could use son to say many things in the Bible son has like six applications son was even used for for animals s o n yeah so they are context of son is not the male the the male child it was more than that just like you say that is a son of be Kingdom that means B Kingdom pushed him out you have to be crazy to be thinking like that so bie came and pushed the baby out no we use those we use those terminologies stones of God and we also had to explain explain that Over time however to be a bit fast this morning so remember Genesis 1:26 let us make M our image after our likeness so God has two beings beings in heaven and beings on the earth that what represent him is that so that's what Ephesians the says the family in heaven and on the earth God has a family in heaven and on the earth not God has a family in heaven and on Earth that's verse 15 of whom the whole family in Heaven and Earth is named the whole family in Heaven and Earth is named so we looked at

Heavenly Host there are a lot of things in the heavens Psalm 103 lot of there are beings in the heaven or things in the heavens just as much as there are things on the earth I told you the reason they use the word things is because yeah creatures so things is used to explain creatures just like on the air they are creatures So within the supernatural host you see the same there are certain beings that are that are hybrid Str hybrid they look like humans they look like animals we explore that also Psalm 103 and verse 19 the Lord has prepared his throne in the heavens and his kingdom ruleth over all so the ancient saw the Lord has to be if God made the Earth for man he has to be Beyond it he has to be over it that's why in their Cosmos they put God just upon they were not thinking that when you climb up the cloud you will see God they were smarter than that but if he says the Earth belongs to man is home to man he has to be he has to be over and beyond that so they were intelligent in that thinking he has to be over and beyond that but how many times in the Bible do you see the Earth is the Lord and the so now get them he simply gave it to man so he's over upon it so he say he has the whole word in his hand hence the whole globe picture AB be he had he has the whole word in his hands so the heavens were made before the Earth we've talked that talked about that before uh this is not the place to be repeating repeating repeating repeating Isaiah read a lot of Isaiah text Heaven and Earth were created together so but Psalm 103 19-22 the Lord had prepared his throne in the heavens and his kingdom ruleth over all now underline that his kingdom ruleth over all so the heaven his kingdom ruleth over all bless the Lord he his angels that excel in strength that do his commandment hacking unto the voice of his word bless ye the Lord all ye his host ye Ministers of his that do his pleasure so they are called his ministers bless the Lord all his work bless the Lord all his Works in all places of his Dominion bless the Lord oh my soul observe verse 11 for as the heavens are high above the Earth you see again and again is this is this text are there many text like this Heaven higher than the earth Heaven higher than the earth yeah so you see heaven higher than the earth Heaven higher than the earth Heaven higher than the earth Daniel chapter 4 Daniel chapter 4 walk with me Daniel 4:25 Daniel chapter 4 and verse 25 that they shall Drive thee from men from 24 this is the interpretation oh King and this is the decree of the most high which is come upon my Lord the king that they shall Drive thee from men and thy dwelling shall be with the Beast of the field that they shall make to eat grass as oxen and they shall wet thee with the Dew of heaven and seven times shall pass over thee to thou know that the most high ruleth in the kingdoms of men and giveth it to whomever he will Did You observe that that the most high ruleth in the Kingdom of men and giveth it to whosoever he will and whereas they commanded to leave the stump of the tree roots thy kingdom shall be sh unto thee after that thou shall have known that the heavens do rule are you seeing use of words the heavens do rule because of time jum to 32 and they shall Drive thee from men and thy dwelling shall be with the Beast of the field that Nebuchadnezzar eating grass and they shall make thee to eat grass as oxen and seven times shall pass over thee until thou know that the most high ruleth in the kingdoms of men and giveth it to whomsoever he will the most high Ruth so you can

see that God's Throne ruleth over the Earth and God's Throne is set up in the heavens in fact you don't need the Bible for that everybody know that is when we're telling people that heaven was created most people never saw the idea of Heaven being created they saw the idea of Earth being created because all I mean we grow up knowing that God is in heaven God is in heav so nobody ever argues that and the Bible does explain that God lives in heaven I've explained the eight applications of the word heaven to you before and one of the applications of the word heaven or one of the context in which we see the use of the word Heaven Is God is in heaven his throne is in heaven and we also saw that invisible beings are in heaven we also saw that heaven is a short form of explaining supernatural being so instead of saying Heavenly Host you just called them Heaven because you can name somebody with where they are from please don't argue that's how we name things AB that's why we can call you say that's an we call you from the place that you are in AB where you live that's why you are called a Nigerian because you live in Nigeria you can be named after the place AB we do it even in the different ethnicity the different ethnos the same thing second chronicles so underline something something we're seeing so far is that the heavens Rule on the earth now these are things you are supposed to know but I want you to see from the Bible of course we do know that this idea is a lot in the Bible but doesn't Hur to read it 2 Chronicles 20:6 and said oh Lord God of our fathers are not thou God in heaven and rulest not thou over all the kingdoms of the Heathen and in thy hand is there not power and might so that none is able to withstand thee did you see that 1 Chronicles just go back a bit 1 Chronicles 29 that's the last chapter First Chronicles 29 and verse 2 both riches and honor come to thee and thou reignest over all and in thy hand is power and might and in thy hand it is to make great and to give strength unto all are you getting it Isaiah 66 Isaiah 66 Isaiah 66 verse 1 and 2 Isaiah 66 to here the Lord the heaven is my Throne the Earth is my foot stool where is the house that he build unto me and where is the place of my rest for all those things that my hand made and all all those things have been say the Lord but to this man will I look even to him that is poor and of a contrary spirit that tremble at my word all right so Heaven is my Throne the Earth is my food stool now what does food stool mean in their language food stool is the place of your Dominion so the place of your Dominion so the place of your Dominion so Heaven over the Earth the heavens rule on the Earth but yet they are together but you see that the Unseen is over the seen but yet it is in the seen that you are controlling on the earth you regulate Heaven I know you are used to that phrase let me maintain it so on the earth you regulate Heaven why because that use of the word Earth has Heaven and Earth on that Earth even the under the Earth is on the earth they use three words for it AB the Earth Heaven the flat surface of that's why the ancient had idea that the was flat you saw that line that was rude in that picture of the ancient cosmology just that's why they had that idea of flat not that they were dumb because they wanted to explain that everything is in one place everything is in one place so above the Earth Heaven the straight line in the Middle Earth under the Earth so you see you use Earth to say three things walk with me walk with me walk with me I've

never seen it before Heaven is called above the Earth under the you so there because they want you to see that everything is in the same place because the idea of Earth is not planet Earth the idea of Earth is the whole universe I mean what has all the planets what we call planets today because as I've taught over the years you don't dig down I know you look at you are looking at everything from up like wow nobody has ever Dig Down to go out of space so stop having that crazy and dull idea that sign sales to you that is just hanging on nothing Bible shows you the Earth has Foundation you better believe that it has Foundation say but people have gone why have nobody gone out of space from underground I ask you again you that one I'm still waiting for the professor to answer me maybe if you know more intelligent professors out there you can ask them to give you the answer why nobody goes out of the Earth from digging ground you're looking at is is strange it's a good question to ask now because until you realize that as much as we science is just knowledge is what you know so there's no you can keep knowing so there's nothing wrong with science but when science starts speaking against what it does not know shut your Yap science because there are still things you are discovering hence hypothesis theorems laws I mean there are many processes they go through before something become a law so calm down that's why they have and there are many laws that they call laws that change and say long a law so science is still growing are we good so Heaven Is Thy Throne the Earth is thy foot sto so that idea I told you on Wednesday the theory Paul said was C to the third heaven and we told you what the third three Heavens the first atmospheric Heaven the second the heaven for unseen beings the third yahweh's throne room that's the heavens of Heavens the yahweh's throne room and that is used to explain the kingdom of God that's where he Reign and Rule that's why it can also be explained as Paradise not because it's a geographical location of a Sal but is used to explain the reain and Rule of God Amen and that rain and Rule of God God has a counsel he works with he has a counsel he works with in the heavens he has a counsil he works with on the earth throw away the word counsel if he they pain you he has people he works with in heaven he has people he works with on the earth the people he walks with in heaven we call them and supernatural being people he walk with on the earth we call them humans AB so God partners with two images God partners with beings in the Unseen that image him and he partners with beings in the earth that image him so he's not acting alone he doesn't need to walk with invisible being but he chooses to walk with them he doesn't need to walk with man but he chooses to he doesn't need a counsel but he chooses to have one because he self-sufficient he doesn't need to but he chose to have one God can do without us but he chose not to he made man and even though man in his full knowledge and omniscience he could see that man could have a different Choice he still chose to have man just like could you can see that your children will stress you but you still rather have children than not have children that's just because love trums all knowledge that's why love can cover a multitude of sins so God is Not reactionary he's proactive he's the God of All Flesh he would rather have man than not have man because of of one issue that in his wisdom he can deal with and he doesn't

change and say no no no I will make robots no so his two images allow that phrase his two administrators in the heaven and in the earth he gave them will what you will call Free Will I don't like putting the free he gave them will choice they both have choices and hence we can see a rebellion so they have choices they can obey and they can choose to disobey him by even wanting to argue that becomes stupid when everybody affirms that there is a devil so how did the devil become the devil right everybody knows that that's a rebellion that's using your choice wrongly so Ezekiel 28 in the day that that was created so every being in the heaven and the Earth had the day they were created AB all right so unlike the natural being that are created by procreation for after the first man and the first woman every other being will come from procreation you don't need to go back to the dust supernatural being were all made at once there there's no procreation amongst them in producing more are you following all right so Isaiah 66 th seeth the Lord the Heaven Is Thy Throne the Earth is my food St like I said the Earth being the food St is the place where Authority is being exercised so underline something the heavens rule the Earth the heavens rule the Earth that's why man must function from the heaven so God in his full knowledge made man to sit on high that was his plan and let them have dominion that's what led to the Rebellion let them have dominion so God telling the Divine counsel the Unseen family that the man that I'm making is going to have dominion over you hence one snake became jealous of man's position that because man is the being that is like God and a being like God that will sit on the sides of the north that will take that place on high so there's a height there's a height ABI there's a height that God created for man to sit there's a height there's a place a height that God created for man I've never seen that before ah we thought that a I but Psalm 148 praise ye the Lord Praise ye the Lord from the heavens Praise Him in the height you see the word height Praise Him in the height praising him all his angels praising him all his host you see the word height Praise Him in the height quiet have you seen that what Seated on high before far above you see that that's where we are are seated is called on high far above so there is a high that is far above Ephesians 1 21 be far above Ephesians 2: we that with him be beautiful so there is a on high there's a high place a high position God who is most high is on high that high there's a height uh let's do this look at the psalm that talks about Z Psalm 48 Psalm 48 great is the Lord and great to be praised in the city of our God in the mountain of his Holiness in his holy Mount that's the same thing mountain of his Holiness holy Mount beautiful for situation the joy of the whole earth is Mount Zion on the sides of the north are you seeing it now there's a text in the scripture that says promotion does not come from the East nor the West not the South it doesn't mention North I've always told you before because biblical geography is not the same thing with your geography because not is used to explain where God is because that's where promotion comes so it doesn't use it because he's teaching something are you following so just like they say lift up your eyes to the heels it's not physical heels up your height to the heels from where cometh our help from where God is because God is in a height so in the hierarchy of all creation we have God who is the god of gods the Lord of

lords the King of Kings then we have a place he made for his loyal beings his loyal creature to see and that position he named it that it is mankind that we sit there then there's the invisible beings that he created I mean I'm talking about that hierarchy now this is where it is quite dicey where we want lengthy teachings to just be summarized we outrun n that's a quite quite a very dismissive statement because we don't and we also do are you seen it and you go explain you go explain because there's a lot of evidence [Music] yeah evidences that show that we at rank but that out rank is now in the global Eden where all the Earth is hidden will take our place we now see that we really outrank them but within the study of SC you see that right now we do not outrank them it is only the church because of the general assembly and is not outrank language we will use is that by virtue of we sit together with him but in the end of the end of all things where all principalities and Powers have been thrown out of their high places out of all the nations and the church God is not going to assign the Nations to his lower Heavenly beings he's going to assign to you and I which is why I thought you were not doing Choir in heaven or in the water to cup that water to c is now go all the nations that has been disinherited that we in the work of the Great Commission have reclaimed have disinherited from unseen forces the church Reigns and Rule and you see it don't worry you'll get it clearly as we go on in this series don't just take my word for it but these are things you should have already known from our many studies so far not just in this series the ones before this amen Hallelujah but what I'm saying that led to that talk was height there's a height there's a height there's a height now that height is what is over Angels not man that height because he said and let them go man by stature is lower than Angels that's why when God became a man you see the word in Psalm 8 took on lower than Angel lower than Angel is not just in Authority no Lord the angel is in our in our physique because he took on flesh and blood so you can see that word lower than lower than is used to explain a structure Hallelujah now you will see why this is important because that Divine counsel God works with them in his rule over the Nations so they cannot be your boy boy that you are commanding come here come here that's why Peter uses that language that you you cannot speak in such manner to such glorious ones that it is you can't speak in such manner because beings which are more excellent look at the word Peter you almost think Peter is trying to worship Angels no because that is the language used to speak of that Divine Council and there's a hierarchy within the supernatural beings all of them are not all called Angels Go Angel is a function technology within their within the um organogram if you are arranging it in the organization the way the structure is set up God is the chairman and CEO of the Unseen realm he has board of directors he works with which will be the heavenly host and everybody in the heavenly host and not in the same position the same company but everybody does not have the same position that's how the Unseen World too so there's an order there's an organization Hallelujah so on the sides of the north so there's a sides Isaiah 14 and verse 13 now this are things you should have known so far based on our many teachings but in case you do not this is your hour for thou Hast said in my for thou Hast said in thy heart

Isaiah 14:13 I will Ascend into heaven I will exalt my throne above the stars of God that's the word used to explain supernatural beings I will I will exalt my throne above the C beams the Stars I will sit also in the Mount of the congregation in the sides of the north so the sides of the north is one of the synonyms for on high there size of the north there's on high there's height there's Majesty there are different words they use then there's the word glory in the clouds so depending on what they're trying to explain so Bible words like I told you are not for definition where you just cram this one means this everywhere no it's more intelligent than that because different men is not all all the men in the Bible do not live at the same day at the same time at the same hour so to a different audience they will use a different word to say it but it's the same thing that they are saying and they to show that same they will not explain the same way they explain the other one this is reason why over there told you that Bible teaching is not concordance search just check the word in concordance search any reference you see no the reference may be a different application so you have to study and study requires diligence to find out if it is the same context with what you are saying so Isaiah 14 I will I will sit also upon the man of conation in the size of the nor verse 14 I will Ascend above the heights of the cloud is this being not in the heavenlies he's in the heavenli because of course you know it's a parable talking to the king of Babylon but is explained the king of Babylon with uh with an unseen being that also rebelled so that king of Babylon is called hel The Shining one where we get Lucifer in transliteration uh is now being spoken to so just like Jesus said to Peter get behind me say you're talking to a man but you are dealing with the Unseen force that the person is acting like so the king of Babylon was like a physical manifestation of Satan because the kings in a time were said to be a Reincarnation of the Gods so because this man raised himself up like that Isaiah Ezekiel when they are talking will talk directly to the Unseen being that he that is in him so you see the language there we explain that that in that teaching very comprehensive listen to it I beg you mountains of God AB for thou said in thy heart I will Ascend into heaven I will exalt my throne above the stars of God I will sit also on the M conation on the Sid of the north you see it's not trying to kill God I told you in fact we laughed over it that is quite absurd to kill God that idea you should be killed for it even having that idea that Satan wants to fight God shows how dishonorable you are it is not a there's no no writer in the scripture that was that stupid or drunk to think that a being could fight the Lord of spirits I mean is a is a it's a lack of Honor that produce some theology just like attitude can affect how you read your attitude can affect how you interpret things you can interpret because of an attitude you'll be hearing voices that's the same thing no text in the Bible say are you not saying all if there's no all is it's not all because it's not everybody that teaches that rubbish is that ignorance is popular because it's on YouTube and is it has more money not that it's not everybody that is teaching that rubbish you know the absurdity to have Satan carry one third and is doing go like this that you should not worship God that's a very weak weakly have you seen light and darkness fighting before even in movies if you flip even the movie if they own light if they flip light switch once you flip it you see the

light will be Shi shift there go go now oh shift jaw that's how he does it it's once now once you God is light in him is no Darkness you can't have that that whole idea Say Bo the Bible know and my said m is your God because you are from the wat Tower M fought the Dragon no can God no God now sent M go help me fight you have limited the Holy One that's why God is slow in your own life and family because you have a very horrible picture of God God I know that's why we did that series before this he say it is he that sits upon the see look when the prophets want to talk about God today we are singing Love Song for God that's why we don't talk to God anyhow you think of God you thinking of God in a romantic way very demonic way of presenting God say I just I just want to hug my Yahweh it is from a father position that you understand that he is the Lord of all the voice my daddy but that Daddy should not bring familiarity and again the same thing with people when you bring them clothes they become familiar H that is your daddy do don't mean he's not he's God of gods let all the Earth tremble at the breath it says the hind calf gives birth the mountain look at description all those descriptions is the height of majesty in the ancient word they use it to explain God the highest words I always used to explain God Gabriel showed up to Mary and said the power of the highest the say what most high God most high the Devils believe there is a God and tremble are you see proper response not and go to battle even to date they tremble there has never told there's no phrase that has Satan and God in a breast match it may be sweet but sweet in ignorance there's no theology like that no theology like that same theology that gives birth to worshiper because God created to be singing song this why young people don't want to go to heaven because you have Heaven as one rubbish place going to wear white robes we are turn to choir we all singing We Are the mar mar say you didn't you didn't get that key a Sur heaven and by heaven we mean the proper meaning of Heaven in this which is all the Earth as his garden which is his plan all the Earth as Zion that's what we are doing marous you see you didn't get it we come back again for realas H really how do you defend defense how do you protect protection how do you direct Direction no now God embodies all of those phrases he didn't create angels to protect him no he didn't create angels to guard him no say God needs no no no is for the audience to understand how because what they are gathering is that that height that rule that rain that rule over the Earth that sacredness not God need guide God needs prot protection from who to the m thought is to die you know why because that's why you should have good concept of God he say he in his hand is all the bread of all life of all Spirit his hand has the breath so immediately Satan say I want to kill just die I want to kill God just fall be dead but God is a big boy can't so when people say I I I I will do this I you will leave your plan don't work you are too insignificant to think that your plan will work so let's be seeing how you will do it that your plan will work so it is the it is the it is the frustration that's why he that every will be laughing like really think I am one small boy what are they up to beans that I made have you seen how e it to destroy you're not see how easy to destroy after you look how people bu look how they destroying inos very easy caterpillar boom that's the end destroy have you ever seen a car say like all the beautiful things is

inventing making say we don't need the Creator I off you from Office that's how it sounds when you say a created thing wants to fight the Creator and so how will he now be created so how will he Now function does he know how to function outside no he's the Lord of all Spirit the father of spirits just get a proper concept of God not that weakling you want to be worshiping that's not our God that mayy Shang go is the one that fetches water with the basket to this Grace bucket don't no no no no no those are Praises for Dua don't bring that the one that use egg to break coconut no that's not our God those are Praises in EUR mythology bring that here it is God there are more excellent words to use God is Not competing your whole your whole explanation has a lot of I go win you now I go win you now to disgrace the which kind competition be God does not reason like that those are not reasonings among the holy that's not how [Music] to King of Kings Lord of lords God of gods most high he Creator God uncreated creator AB Eternal no other being is eternal he is the one that gives immortality to men he gives it it is we not Chinese Immortals that they used to Kill confu movie not that nonsense he's Eternal days have beginning in him aent of days CU he's Eternal days are old in him he has before the mountains were established you have been God so he's Eternal L lamb the Everlasting God AB Creator uncreated Creator Eternal all powerful even the supernatural host say all powerful Thou Art of the supernatural beings all gathered and they all said they shouted Thou Art of great Powers oh most high I have text in your Bible it was a supernatural be said power of the highest you say my power the power that high and high past all powers to him alone that's why there's that alone language in the scripture so those Deni but there's none like him is to Telegraph God's uniqueness and incomparability amongst other beings Hallelujah all right so you take our teachings more seriously so you see we teaching Series so the teachings are following I will exalt my throne above the stars of God as were in Isaiah 14 so you see that there's a height and that's the divine counsel Psalm 89 Psalm 89 Psalm 89 we see Teach bab today fear not Psalm 89 verse 5 and the heavens shall praise thy wonders of that cannot be the cloud so you see the the thing he says after the colon Thy Faithfulness also in Congregation of the saints Saints there is the holy ones the kadim used for supernatural beings for who in the heavens can be compared unto the Lord who among the sons of the mighty can be likened unto the Lord sons of the mighty can be likened unto the Lord sons of the Mighty the word mighty is the KJV translators trying to be uh forming good people the word mighty is the word eel God they don't want to just be using sons of God Sons of God the you sons of the mighty can be lack who among the sons of God can be lacked up to the Lord sons of God yes is not human beings supernatural beings the same words for supernatural beings from is used for you and I and by now you should be knowing why I've have taught you this since two years we have been teaching on more Supernatural word I've been telling you because invisible and visible family have the same D the same um purpose image God so they have seen the same light and one is over because that's how God set it so God want a being which will be humans to sit on that side of the north that's why in the Eternal Eden that's the way I like to put it because we say

heaven is always confusing so let's use the right word in the global Eden where all the Earth is Zion you see that you everything that you are seeing in that Global Eden is what was his plan in the beginning is the same thing he has not changed his mind Hallelujah God is greater to be feared in the Assembly of the Saints or you see those words assembly of the Saints and to be had in reverence of all them that are about him oh Lord God of host who is a strong Lord like unto thee or to Thy Faithfulness round about thee in the assembly of the Saints you see the use of the word that's a Divine counsel word so there's a gathering of beings that are like God how are they like God that they are residents of the Unseen World that's how they are like him they not like him in any of those seven uh distinct pictures of God they are not Eternal they are not the Creator they are not omnipotent they are not omniscient they are not omnipresent AB they are not um faithful or faithfulness or true God is called the amen the faithful the true meaning the same context God that's why they can s God remaineth the same he doesn't change he doesn't he cannot do what is wrong can never be found being inconsistent That's why nothing has been destroyed that's why Humanity's invisible word have not collided on each other say hence the sons of Jacob are not consumed because he changed not so the Earth Heaven would have collided if God was inconsistent God stands in Congregation of the mighty judged among the gods so God is among the gods I've told you before also in this series the gods are real and the gods are supernatural beings of which we use the word Angel and if you are new sorry we have explained this extensively so the use of the word g o DS is not man-made things or carvings that he's talking about he's dealing with invisible beings that God created and he called them Gods because of a reason because God's Elohim I am once you see I am in a word it it speaks of plurality just like the English we put s e s or i e s for plurality the Hebrew put I am so when you see I am it's already plurality so it's not plurality within the godhead that they using Elohim to say no Elohim is a word that is used for six used to explain six entities in Genesis to Malachi is used for the God of All Flesh because he also is Spirit Elohim is used for members of the Heavenly Council Elohim is used for devils devils are also called Elohim we will see we will read the2 soon Elohim is used for the diseased men who have died that had a great name that men would easily worship hence God had to hide the body of Moses because already seen he had a status on the earth as a God so Samuel was being summoned and Samuel when that Necromancer The Witch of Endor was summoning said I saw Elohim ascending out of the earth Elohim use Elohim status so Elohim is so you see when you put Elohim is also used for the Malak Yahweh Angel of the Lord so you see those six Elohim Elohim Elohim Elohim means a resident of the Unseen word that I don't use it for man are you following so it's a it's another word it's a classification of spirit there are many words for Spirit many words for Spirit of which we will also explain in this context unclean Spirit familiar Spirit foul Spirit where does that come from there are many words for Spirit are ghost three different words are not the same words used so Elohim is also a word for Spirit but a resident of the heavenlies is called Elohim another word for that is sons of God son is used to explain

what is created you can call the father of modern day geometry ukl is is because ukl slept with his wife and push out Geometry no we have brain enough to know that when we say father of we are not speaking of that it had to be biological so son you can call just like you say that's my baby you call a car your baby you call this so that what you create can be called a son and that's how one of the meaning so God created invisible beings hence they are called Sons a people of a Nation because there are people of the Heavenly Nation people of the Heavenly race they can be called Sons sons of God sons of Elohim that rep just like you say that's the son of B Kingdom that's a son of anra that's a use that word so God is being used as a residence STM God's nation is heaven man's nation is Earth so Angels inhabit heav so they are called sons of God a member of a group that's also is Sons of Bia I love the way the Bible put it the sons of Eli were sons of B so you can't miss who their father is their father is Al but they are called sons of is it that Bia pushed them out no because a member of a group because they were members of a group member of a class sons of the Prophet because Elijah gave birth to all of them no because they are members of a class members of a group member of an order are you following sons of because they are member of a class did you get it members of a council then Sons is also used the one that we know as family members family members are also called sons and because it is ancient world viw their world view is dynastic household that you retain great names that's the origin of s names so where for example if your name is not great why do you want your children to answer it leave the former one that is great because it's of renown so that's the origin of s name so great houses great houses so you must have seen that before a family lineage called a house ah so the members of that house will go by sons of even to six seven generation they are he called son of they will call it son of that great great great great grand person that was so sons of so dynastic household and where you share rulership with your children just like the B Kingdom you see it is it is it is passed on it is members of the family will be the ones that will be in that ruling class that's how so God created beings they are members of his ruling class then another reason why they are called sons of God it is a characterization in ancient times for supernatural beings is in all mythologies Greek mythology all mythologies had all the sons of the gods are Gods Greek mythology for example that has um what's the name that has Zeus that had uh posidon heres all of those are all called sons of sons of God in their mythology so it's an ancient characterization for unseen beings so that's how intelligent the biblical writers are so when they are saying sons of God they're not speaking of biology so when you hear Jesus is son of God don't be looking to Mary as mother except you are in that Cardinal Point religion not that that's not what they are teaching so when he looking for mother God there has to be a m no the use of son is to explain function so one of these five things so in the context where now called the Son of God because he has that function what function that's why we did a lent Series where we explained the angel of Yahweh we explained the visible God we deal of that in that who is like unto God series AB thank you so there's an assembly of gods that God is over just like Jacob in that Vision Genesis 28 saw a ladder and God was

over and Beyond it made a lot of progress all right I have made a lot of progress so is there a Divine counsel First Kings 22 Mah the son of imla said he saw host of Heaven to the right and to the left Daniel chapter 4 we saw a council being set up again what and the by decree of the Watchers this is what shall happen so there's a Divine council a Heavenly Host I told you that's the reason why we pray AB that's the reason why we pray that's the reason why we should pray so that because you see that in where you can as a the Council seat to decide a certain matter so the church today has is also called an assembly Hebrews 12 call General Assembly so are you with me now Genesis 11 let's run to Genesis 11 based on the things we have said so far now if you were to ask a first century Jew and you were to ask a modern day Christian today why is the world the way the world is traditional Christianity blames Genesis theory for the whole problem of mankind but the H Jew or the first century Jew or the first century Believers blame three things for why the Earth is the way the Earth is because they actually read their Bible much of what we have called the Protestant movement have been a Raza of what somebody else said that we should to say so when we say the Bible we actually saying what our Protestant Church father said not Bible because if we allow the Bible be what the Bible is saying then we will see that what has changed the face of the Earth has been three significant events which I exp Genesis 3 Genesis 6 Genesis 11 that changed the world forever and they did not the consequence of the Fallout are not all the same the first Fallout brought death and separate the second is the origin of demons is where Israel now has a liter threat in the gods of the Nations being explained the third is why the nations are the way they are today that looks like why is it why do we not have to win souls why do we have to tell people because the first people not to tell that there's a God but now we now have to preach so that is a plenty explanation we've done that in one of our series the message we taught around the three great rebellions that has made the world the way the world is ABI we still going to teach it again and where it will just be that topic alone just that only those three things that I want to teach about so Genesis 11 keep that in mind so this is where you find that third Rebellion that the H Jew so if you were to ask Paul if you were to ask John if if you were to ask all the first century men the harage Jew till today in fact if you if you ask a judaa any biblical scholar or any of the rabinal scholars why is the word the way they it is they won't see Genesis Theory they won't see Genesis Theory and that's why you see that we force Genesis Theory into all the Bible and there's a limited explanation of Genesis Theory you have Romans 5 trying to explain again but you see there are louder Expressions because that one is key because that's the first Rebellion that spoiled the order of things however that's not the only Rebellion because we want Angel and one to be marching to do Mortal Combat so we couldn't see where all the heavenlies rebelled and now became a vast number because we want our Doctrine instead of going to the Bible to take meaning we have a meaning that want to see from the Bible which is not aesis ausis is letting the Bible say what the Bible is saying so I keep my preconceived notions my bias my secrecies and I allow the word of God be what it is I don't read my mind to the Bible I

take meaning from the Bible not give meaning to the Bible if I give meaning to the Bible that's proof texting I can use the Bible to see anything even kill my father my mother if I like you can find Bible verses for that and that's using the Bible out of context say Judas hang himself so do likewise that's not how we teach cannot say so if Judas hanged himself are you not seeing something is a disciple of Jesus Christ so what should disciples do Disciples hangs what are you waiting for huh that's what kind of cut and na approach is that so there's a context as every work of literature is there's a context to understanding are we good so back to where we stopped because we sitting on the new premise on Wednesday so back to where we stop on Wednesday Genesis 11 we saw that chapter 10 they were already we saw language the three sons of Noah Shem and Japheth and he said the languages were divided so 17 nations in Genesis chapter 10 chapter 11 the whole earth was of one language and one speech we said it cannot mean they were all saying the same thing because it will mean you didn't read chapter 10 so it's you that is to blame not Bible it's you and your wat Tower society that have everybody speaking one language no they understood the same because understanding was common in the worship of God because everybody knew about God they didn't need a teacher to tell them that there's a God that we should worship or no everybody knew all right so there was a similarity of communication and this is the origin of tongues and Inter of tongues too because is one one language for worship but this is one unification under Darkness so and it came that's why I can use it to explain Tong which is what Paul did and it came to pass as a journeyed from the East so let's move one language word language is the word leap lib leap language there is the word used for shore of a the bank of a river the so I told you the word the etymology of the word language is the bank what is the Bank of our mouth that's the tongue the lip so the tongue to the lips AB the lip is the so the tongue is the then the lips so our lips is what language means was of one language the furthestmost part of our mouth is the lip ABI so the tongue to the lip and the whole earth was of one language so that word language is the word le so it couldn't be that every body had the same lib you get it so the words have meaning and and of one speech and the word speech is the word daas they had the same communication what is the end of communication understanding the reason why you communicate so that somebody will understand you so they had the same understanding that's what you should be seeing the whole earth had one understanding yeah and it came to pass as they joined it came to pass as they join it now that's why the ancient were um pilgrims they were always moving from place to place as they joined what is the beginning of journeying That's why I was taking my time since did God make man and put man in the G of Eden did God tell man to journey to spread that Eden so that is the origin of migration migration is to bet the gospel spread this influence take what is here everywhere in the same idea of colonization which is the concept of Kingdom that's why Great Britain a kingdom new to colonize you spread your influence all right so it's a language of Kingdom so as it came to pass as they journeyed from the East because all the Earth began from the East that's why we say ancient near East so it came to pass they

Journey from the East that they found a plain a valley in the land of Shinar and they dwelt there and they said one to another go let us make us bricks and burn them totally and they made bricks for stone and slime had they for Mortar are you following and they said go to let us the word go to explain what that means speaking of daily happening so what they did in in a manner of in uh in the different time what they now did as time progress was they now said let us build us a city cuz it couldn't have happened in one day so it's the same way James says go to you say let's go to a city make this and have this you to sum up life that life is about not about life is but a vapor summing up something that is more than just Earthly Pursuit Length of days buying and selling life is more than those three things so he used go to go to go to so he and they said go to let us build us a City and a Tower Cities I told you the origin of cities is where does not sleep that's why a city today with modernization to explain city has to be functioning 24/7 light power and all of that but the origin of city is an encampment around the Watchers a place that is always awake so it was used to explain Supernatural world so when you say a city you mean a stronghold you cannot just penetrate like that because so you see the O you see uh e there were C City not anient were called City because they were boundary places Ben City boundary places because powers are there you can't just enter and go out free so origin anient meaning of city is Stronghold Powers is from the word watchful so the place is awake because so the Mesopotamian meaning of the word city is bounded around by Watchers Watchers another word to explain supernatural being so this is this place is surrounded by Watchers so be careful how you enter so you already know as you are walking you see a city say this is a city I'm about to enter so that's how the ancient viewed it now science has made us see city as oh you use the geography h Village I mean you know you go on conation they have different words they used to explain town you explain it differently you now say this is a this this is a this that's not how the bial writers were thinking they were not thinking with your mod day geography come on all right I think this not be your first time now you have heard Hamlet Village before now they explain towns and now say City that's not what they are doing when they say let us build us because they notice the word build they build City now I mean just wake up wake up your understanding you don't build it as you leave you'll be spreading they say build that shows that there is fortification mhm so that word is used a lot that's why it's also used to explain the city of God and the City of God where God is Zion city of God Mountain of God remember second millennium BC first century ad allowed acient men be aient men beautiful you see that you see that the understanding is easy to get because that's how they are thinking they're not thinking that they put street light oh it's a city every Power day and that power is not science power that's making it a city the power that making a city is the powers you got it all right so let us build us a city and a tower look at the conjunction and a Tower the tower there is not highrise building as the briefcase people told us is not highrise building a tower that word tower is used 50 times in Genesis to on mcdal now it it origin is from two places Egypt and Mesopotamia Mesopotamia had zurat Egypt had pyramids they Ed pyramids to explain so it's a it's a

pyramidal structure so what they wanted to build was a zigurat z i WG u r a t I think we have a picture put it up you see this is what they wanted to build it's not a highrise building it's a is a temple structure on a mountain or part of a temple it's not a temple but a temple can be on top of it so that Tower is you will find it in cities um that's where you get Olympus for example Olympus is like a zigurat because it is not is where we build a place for the gods to land on the earth we are building a place for D so the word tower there is not skyscrapers quite silly that we exp like that that God is against skyscrapers and S they F the Earth today what a frustrated God he could stop Genesis 11 but he can't stop them again your God is very weak and dull he stop skyscraper in Genesis 11 go to a skyscraper I don't want to say outside the country go to VI skyscraper skyscraper everywhere just be raising head just keep raising even Hotel skycraper everything everywhere so they have twed God's plan land have true hand in God's eye you think you can stop us we will stop you you see it that's how when we explain the Bible as if we are we are we are we are all right and they said go to let us build us a city and a tower now verse four is where it gets interesting notice the four things in verse four notice those four things let us make us a does that still look like somebody building skyscraper for Les we be scattered abroad upon the face of the whole earth so four things is mentioned there that should show you the significance of what he saying come on come on come on come on come on is it your own and the Lord came down so the Lord actually did come down they were building for God's a place for God to come down but not the way they expected now what was the plan I start again so that we will do a uh let's do a textual analysis so let's just do verse by verse uh verse two and it came to pass as they joined from the East why are they joining they are joining because he part of they knew everybody knows his common knowledge because Adam told everybody he was kicked out of the garden he told Abe he told king that's why they wanted to reconnect but King kills Abe King left Enoch is born and Adam give it to more sons and daughters and please do know that that you know we read the Bible in a very allow it I'm not insulting anybody but in a very dull manner so Kain Adam gave it to Kain and Abe then waited for Cain to kill Abe after King K AB to Sons After Enoch was almost dying to other sons and daughter what kind of thinking is that they are not the B did not think we will be D like that so they could not anticipate that we will not know that they don't to space children like that when you don't space your own like that so the hypocrisy in reading that after 700 years n on that child is not in the Bible so he want thing you to know that one of these Sons is the one we are using to follow genealogy so he say and to other Sons and Daughters you now put the son and daughter at the end of his life AB so they did give bir to Sons and Daughters they not they born one ping they know they do Family Planning there was no family planning stop at the what are you stopping at the for the Earth is Big the wife is strong climate weather the fall had not had a greater toll on the female body so they could just be dropping them are you see how old they are living somebody is in his youth 500 years say a youth aha so it's beautiful you are thinking and it came to pass as a journey so why are they journeying so this is consistent with God's plan

spread the influence so it looks like that's what they have in mind let's spread this influence let's spread this everywhere to go to let's just spread this so they are Journey so Eden we have been kicked out of Eden let's continue let's continue in our journey let's make Pro let's make progress so it's in the same order the word as cap to as they journeyed because God's plan Genesis 1 12628 it was F multiply the same Genesis 2 dress and keep it but observe something went wrong in verse two which is what led to three and four and it's so easy to miss it because if you are not used to this language which I will go back now you see that it's a language from chapter two and they dwelt there that's the problem it was it made started dwelling there that led to that verse three and the issue so go back you know chapter Series where Adam fell come on SO chapter 4 AB there will be children now are quiet chapter 4 Kain has killed Abel look at what happened the Lord said unto him therefore whosoever slay King Vengeance shall be taken on him Sevenfold and the Lord set a mark upon King L any finding him should kill him verse 16 because God is against M but it's amazing what God is doing there verse 16 and and King went out King went out from the presence of the Lord and dwelt so just like Adam is cast out of Eden King also we see the same idea is cast out of the presence of God King left the presence of God as if the Pres of God is geographical yeah because there was a concept of they had a what we call Sacred Space Concept in mind so let's keep moving but we understand that we are a people under Yahweh so Kade said count me out of that I'm not going to the first person to say I'm not going to So Adam is in Rebellion but he gets himself back but too late something has already happened to the Earth because his choice has produced something because the word is Supernatural because it's not only his Rebellion his Rebellion is a partnership of Heaven and Earth so it has already affected the seen and the Unseen word so you can't go back and say sorry sorry sorry had already done something to the structure of the heavens and the Earth aha however he tells his children about the way of God so they offer sacrifice which Hebrews 11 Say by faith that remember that Faith explain the Unseen word they offer sacrifice because they're trying to reconnect back to this Yahweh Abel is the one that follows God or Prophet Kain kills Abel notice what happened in that 16 he went from the presence of the Lord went out from pres of Lord and dwelt in the land of on the East of Eden he dwelt in the land of nor and K knew his wife and she conceived and be and he builded a city see the concept of City have started and he builded a city now jump to verse 25 now we have it as after K has been given birth to many children Adam was just waiting after K to many children said let me try again then Adam his wife again and bear his son that thinking we should not be alive for Maniac how about K has K has left house for Adam and his wife are waiting say how many children he say get great grandchildren say I can start again that's not they are not arranging chronology they wanted to finish a line of thought with King before they now go back just like I'm teaching you go back that's how you think that's how to write that's how to other thought so you are not chaotic you finish a thought just like I'm going back so let's finish this talk of King not they didn't know that we were reading oh so Adam does not have so say who the king now marry I always answer

ignorant people that ask questions like that not to learn your sister or your mama R it in AB who they came Mar your mother who do you want King to marry at least you believe he married so who would he have married say that proves it proves nothing other than you are ignorant what you say Pro that proves there were other human being on the earth outside Adam and Eve that intelligence is not intelligence use brain wear don't use it backward no people were marrying themselves because incest did not exist on until there is an abundant of people on the a to marry and you not say no one I like is my sister but other people there now say no it's just this my sister that that I so love her it is now lost because there are many other human beings to Mar but you say that my one the one my mama born is still fresh in my eye why why so there was an explanation of incest the Moses just speak against it he gave a reason why incest is bad so not to [Music] say that's not how to interpret things because who could they have been married before obviously sisters clear clear clear this Adam knew his wife again and she bear his son and called his name set for God has said for God said for God said she had appointed me another seed instead of Abel whom came K slw and to set to him also there was born a son and he called his name anos then began men to call upon the name of the Lord are you seeing it so the lineage of set is calling upon the name of the Lord what are the four things that happened in Tower they build a tower the top will reach onto Heaven they will make a name Les we be scattered okay so people are calling the name of the Lord are you following then we have chapter five that gives us genealogy then we have chapter six where Noah is picked out in that timeline that is not one day neither is it one month so that timeline began from before Enoch that timeline that in chapter 6 is not Noah's age alone so Noah is born to meet such wickedness so there expecting you understood that concept from chapter 5 where you are arranging their ages look at when this one gave birth all right so chapter 7 chapter 8 then look at chapter N9 After the flood verse one and God bless Noah and his sons and said unto them is that the same thing in Genesis 1:26 2728 fruitful multiply replenish yet so God does not change his henic vision is still the same thing he repeats the same thing he said to the first men to the people that survived the flood fill the Earth AB chapter 10 we have the table of Nations then chapter 11 where we are reading are we good so and it came to pass they Journey from the East that they found a plane in the land of sha and they dwelt there so the use of word because you should dwell where did God make for man to dwell Heen in his presence AB so as they join it follow you get the migration language called Hebrews 11 said if they were mindful of the city they would not have they were looking forward to a city that Mak is God so all of that migration had that idea which is why chapter 12 will not explain chapter 11 because there's always a counternarrative if there's AB if there's King there is AB if there is the people of Noah's time that there is Noah a counter a counter because you see that Abraham to with journey but Abraham journey is not to build is looking for which is what they should be doing because in Journey you are not to build because you not to build a place for is God that builds a place for man is God that say we dwell Among Us he's the dwell Among Us God and the real place to dwell is in our heart

and where we are he will be around us in Fellowship not for us to build a place which is human invention so you see the initiative they now took initiative let us build us a tower whose STP May reach onto Heaven whose top May reach onto Heaven are you here whose top May reach onto so get verse two the Jour that journey is along with the same Mission but they dwelt there so that dwelling there has that happened before yes King against God's plan dwelt in the land of naone left God's presence so what did they do they say let us build us a tower all biblical Scholars agree that that's a zigurat that verse three it shows their initiative they intended to Kickstart something let us build let us make it is not man to make a place for God is God that makes a place for man God cannot be washing with men's hands as though he needed something they said God does not dwell in temples made with human hands I know you're going to say Moses built a tabernacle that's why I explained to you he was to build it according to pattern and he was shaken he was admonished what admon there was warned to build according to because if he not build according to PN will be doing what they are doing in trying to Kickstart Eden outside God's plan so build according to pattern that's why what he built is now an exact representation of Eden because God is still passing a message I will not stop my plan of having Eden everywhere so I explained to you that that Tabernacle that Temple was the same imageries I used in the mount in the temple in the garden the same imageries so let us build us a tower that's acts 17 you see the word I'm explaining just now God is not washing with men's hands uh when Sol was the temple he said the same thing so verse four we now see the four things that he has been explaining together three and four so verse two initiative that they were trying to Kickstart he in in three and four and four he now mentioned the four things that makes it clear that they not serving God that these people here are not Believers he uses four words they said they are building a city whose STP May reach on heaven now in Genesis 28 where Jacob had a vision he saw that same thing so the tower judges 9:46 to 47 we saw the Tower of she in the house of the god bered I explained that on Wednesday that Tower is Temple space AB part of a temple structure is used you build a place to bring a Dy down de is a space place where dieses are worshiped you build a stronghold a place where the gods can descend so the that's what they were building and the explanation of the tower is whose top May reach onto Heaven whose top May reach onto Heaven that word top in the Hebrew is the word r o s h is used for head figurative to imply Source or authori is used for head so whose authority whose top May reach onto heaven we want this to be our Authority we want this to be our Authority from The Unseen remember Heaven is not a planet Unseen World they were not building a skyscraper that we touch physical Cloud no they were building a zigurat remember that picture were building a zigurat it does not touch into heaven and Heaven There is not a cloud into the Unseen word because who top that top there is the same word in Genesis 28 Genesis 28 so you see Genesis 28 is the same word and he dreamed and behold a ladder was set up on the earth verse 12 and the top of it reached to heaven and behold the angels of God ascending and descending on it that's the idea once you once the top reaches Heaven is

for ascending and descending it's a sacred place so that's the same thing Jacob saw but he did not build it he saw it so they are trying to kickstart something that is not for man to Kickstart so our parents told us about a sacred place where Heaven touched Earth we will build it no you will be loyal to God and God will make you his habitation that is the teaching no they say we will build it oh yeah are you all with me yes I remember this is not everybody on planet Earth because descendant of set are not here I told you chapter so you understand that there are people that call name of the Lord that's why Nimrod you see the lineage he follows it's not now explain that a chapter 10 gives you Nimrod which is the chapter 11 man so there's a background they are not expecting that you are jumping if he's looking hard is because you are jumping which is why we Tau on Wednesday with the background of chapter 10 which I'm continuing with so when it say let the top reach onto Heaven that is the Genesis 28 and what did the man do when he saw that place where Heaven touches Earth he said this is the Gate of Heaven AB when he woke up in the morning he poured oil on the place poured oil upon the top of it notice the same word top poured oil on the top of it the same word top r o s H used for that Authority that I recognize the authority that was here so they are building and say this place will be our Authority from The Unseen we are building is the sacred ground that's why when I was teaching you mountains I said before Sac space was localized after bar localized in different places you see where men had but yet they are trying to build it you cannot build it the person that built a sa place was Moses and it was according to pattern it was God that told him how to build it and that place was only a shadow of the real thing not the real thing but these people were trying to build the real thing which they can't do because they're not doing with God so how do we know they're not doing with God those four words Tower a top reach on to let us make us a name chapter 4 the last verse we are calling on the name of the Lord we are not making a name we prom proot the name of the Lord we are not promoting ourself so but they said let us make a name let us make us a name so they are making a name fors let us make us a name so we are to call upon the name of the Lord we are to believe in the promise we are to promote name of the Lord we are not to make a name for ourself so making a name for ourself means this is about us this is our initiative this is our our place Abraham God said I will make your name great these people want to have a great name not God making their name great so he see away from the worship of God chapter 12 God told Abraham I will make your name great he's using the same language in Genesis that we are used to from chapter 1 to 11 so they say call on the name of the Lord so they say we make us a name we make oursel famous we're going to make oursel famous that people will we are the one that buil Eden again we're going to build us a name no don't build it believe in the Lord your God say no we build us will make us an an Eden the top May reach onto heaven so this will be our Authority will make us a name of promoting name of the Lord will make us a name we don't want to be loyer to God let we be scattered abroad CU scattered abroad is you see less they not see from it less will be scattered abroad so what they want is not to spread this influence let this be the place that covers all

the Earth go from place to place so these are not Believers so it's now clear that they may have started because you know it's summarizing Genesis 11 is a summary it can't be a one day thing that's why I say and it came to pass as they joined because within that normal migration that is according to God's plan dress and keep it multiply fill the Earth with the glory so that going from place to place is filling the Earth concept so the opposite is what we saw with Abraham Abraham will not build a city he will look for a city whose Builder and maker is God is God that build it Abraham will not make himself a great name God will make Abraham a name so famous for the wrong reason Abraham is famous for the right reason because he calls on the name of the Lord Abraham will be he will not stick in one place he will move because all the Earth is what God calls him to inherit because all the Earth is what God is after so it will be migrating so opposite so the counter explanation is with Abraham so they said we will not be loyer we will not we will not so what does God do after this failure God goes pick a man from that lineage Abraham and to make it very clear it takes Abraham and Sarah two baring people two people who have no womb which is clear and Supernatural it has to be S that's why it couldn't be beer because it passes a message because both of them could not have children on their own so since mankind have said they will do without me they will make for themselves Sac place they want to build a tower they want to kickart Eden without me that cannot work in order for man to know I will put mankind these nations under my lesser sons of God to rule over them as Place holders p l a c e placeholders so that these sons of God will be the ones I I will explain I'll show you from the Bible Deuteronomy 4 32 we explaining 17 it's all over the Bible these placeholders will now emphasize to them that didn't you people know you should worship God didn't you people know you should worship God since they like super beings so much I will now use supernatural beings to draw them back to me because the whole reason why I made supernatural beings before were to to worship me to worship is not to sing We Did a series on worship God it's not more than singing to serve me so these placeholders will tell them worship God but what did those supernatural beings do they rebuild instead of pointing men to worship God they now say you guys can worship us God has put us in in charge no it's for a time being that's why Satan could tell God boldly to his face the nations were given to me and I will give it to you if you bow that's why upon the resurrection all authority is given unto me in heaven and earth go ye therefore go and reclaim the nations from the falling sons of God that have turned to something else so Psalm 82 is God judging the sons of God those Elohim for corruption because this is not how you are supposed to reign with me because God has a counsel he rules with that's why I took my time council council council Heaven on sinen so verse four we are going to Kickstart this we have the initiative we know what we are doing we build a tower and it's for these three reasons the top we reach onto heaven will make us a name Les we be scattered abroad upon the face of the Earth so instead of promoting the name of our God will promote ourself let this be about ourself and not God we're going to build a stronghold and the Lord came and the Lord came down to see so there one Gods to said God have

ascended now descended on this place God came down to see the city and the tower which TR of men builded and the Lord said behold the people is one the word one is e car they are united and they all have a United understanding that's the word United language language is again the word used to explain leap they have United understanding and this they begin to do and now nothing will be restrained from them which they have imagined to do so this is so you see the idea is the Romans one just like those reprobates God gave them to worship what they want so God will give the people over because God cannot stop people's choice but what God can do is protect his plan and purpose because God watches over his plan and purpose you will not change my plan and purpose because is God governs his purpose amen so that's why we have explained this with different context uh the same context different applications we use this to explain human Innovation human because they innovating we will do this on our own we Kickstart this this they begin to do and now nothing will be restrained from them which they have imagined to do go to let us go down and they confound their language in other words they will be confounded not let us go down and they confound their language that they may not understand so you see the emphasis since have be understand that they may not understand one another speech they may not understand one another speech so the Lord scattered them abroad from tense upon the face of all the Earth and they left off to build the city therefore on account of this is the name of it called Babel because the Lord did there confound the the language the language he means there is that verse seven they understand standing and from T did the Lord scatter them abroad upon the face of the Earth these are the generations of Shame Shem was 100 years old now remember are you to build a tower are you to build a city are you to Kickstart Eden on your own or to believe in God are you to make a name for yourself or promote God's name call upon God's name be about God's name okay are you to build a tower W stop reach onto heaven or for you to allow God make you his habitation where Heaven touches Earth in that interaction Fellowship which one the latter be the last one okay so but what they are doing is the opposite now we'll come back here just keep it Deuteronomy chapter 4 we'll come back here Deuteronomy 4:19 now it's a bit hard to see because we are used to Babel from the Watchtower society as skyscraper nothing wrong with explanation but the brain is adamant to Darkness so if it is that's why it takes longer time you have to heat it for the wall to break because once the brain has retained a dark position it doesn't like leaving it that's why dark things spread more than light things because the word is wicked so for ignorance you have to heat it very hard which is why I use strong phrases in my teaching I'm not trying to insult anybody I'm just trying to attack the stronghold in the mind so that you can drop that notion with with speed because nobody likes to be brought low all right jomy 4 19 and 20 and less thou lift up th into heaven and when thou seest the sun and the moon and the stars even all the host of Heaven shouldest be driven to worship them and serve them which the Lord thy God had divided it says God divided those someon and stars unto all nations question when did God divide this which the Lord that God divided unto all nations so God is the one remember I told you

we're going to explain how God God is responsible for all the nations worshipping the differ that they are worshipping and how he's also not responsible the both language because involves explanation Deuteronomy 32 now we have to read all of these other phrases because the Bible explains itself so you walk with me Deuteronomy 32 and verse 7 remember the day of old consider the years of many generations is that time passed ages passed Shan Generations ask thy fathers and he will show thee and thy elders and they will tell thee verse 8 when so there was a time when when the most high divided to the Nations their inheritance when he separated the sons of Adam you know what he's using sons of this I told you son descendant so humanity is what he's calling sons of Adam he set the bounds of the people according to the number of the children of Israel for the Lord's portion is his people Jacob is the lot of his inheritance he found him in a desert the Lord's portion is his people the Lord's portion the Lord's allotment the land allotted to the Lord is Jacob Jacob is the lot of his inheritance he found him in a desert land and in a waste howling Wilderness he led him about he instructed him he kept him as the apple of his eye as an eagle stir up her nest fluttered over her young spread abroad her wings take them bur them on her wings so the Lord alone so the Lord alone did lead him and there was no strange god with him so it goes on and on jump to verse uh coming uh verse 15 but J was fat and kicked thou was wax fat thou was grown thick thou was covered with fatness then he forew God which made him and lightly esteem the rock of his talking about Israel forsaking God later on they provoked him to jealousy with strange God so Israel is doing what the other nations are doing provoked him to anger they sacrific unto devils not not to God to Gods that's where devils are called Elohim to gods they sacrifice unto devils not to God the word God is eloah but to Elohim whom they knew not to New Gods that came newly up whom your fathers feared not of the rock that begat thee Thou Art unmindful so there's a rock that beg Mindful and has forgotten God that so Moses is using ancient history to tell Israel you are acting like the Nations before now pay attention how does it become Israel versus all the other nations what is the Genesis of Israel and the other nations how come there are many other nations not having time for God and God now created a nation that has time for him where is Genesis of that that is Genesis 11 because Genesis gives you the Genesis of all the accounts so Genesis 1 to 11 gives you a prehistory the way they are writing from verse 12 to verse 50 chapter 12 from chapter 1 to chapter 11 gives you a prehistory that will govern the whole concept of the whole Bible Genesis to Revelation Genesis 12- 50 gives you the descendant of Abraham how they now responded with that history so showing you how the rebellions affected them and how they Contin to follow the promise of God and what led to the origin of a Nation Israel because Moses is the one that will write Exodus Leviticus so they has to be a flow in his writing are you with me so Deuteronomy 32 that we are reading verse 8 when the most high divided to the Nations their inheritance when he separated the sons of Adam he said the bounds of the people according to the number of the children of Israel now keep the children of Israel one side because Israel did not exist in chapter 11 so why does he use children of Israel

this is a KJV standard authorized problem so you look at the Dead Sea Scrolls or other translations because it is I told you the the translations are interpretations so what is there is sons of God because the translators are assuming that sons of God there has to be Israel because Israel is God's Nation because they see that the context has to do with Israel they now put of Israel but the Dead Sea Scrolls which is Dead Sea Scrolls has the biblical and non-biblical the biblical one is just like the Bible that was found in the Des scroll so there's the biblical the non-biblical scroll the non-biblical ones are where you get those nonsense books that people used to deceive themselves not that it's faulty but they are not inspired but the inspired ones are the 39 that we have before the uh before the um New Testament books as we call them so that de C SC which is the translations that try to mirror it the ESV the NLT you notice n all the other translations will remove children of Israel if you have another of the Bible let me know how many of you have a translation that puts sons of God or Heavenly assembly who has a different translation check check check your translations how many of you have seen it raise your hand if you have seen a different translation from children of god let's work together let's work together one hand the rest of you don't have translations okay you are like us the rugged KJV so the isv international Standard Version say says when I will read for you isv says when the most high gave Nations as their inheritance when he separated the human race he said boundaries for the people according to the number of train of God now historically it would be a lie to say Israel because Israel is not even born until the Exodus Israel is not even born just because Abraham lives his father's house but that is how isra is Israel is being born so he cannot say where God divided the number to of Israel no now there were 70 72 Nations so God divided the number according to the sons of God it cannot be children of Israel because of Israel does not yet exist that's why the next verse The Lord's portion is his people and now mentions the Israel so this is separate from what I'm saying here so to bring Israel into it doesn't make any sense so so you have all the other translations that read from the desis cross remove that children of Israel because that's not what is in the original what is the original is sons of God now strong concordance translates from the KJV so KJV if you have Interline we have train of Israel as Israel which is not that's not the original that's Tas Greek and Hebrew mention are you following so when we say the original we mean the original that the prophet and the AP which is available you can buy it you can just 60,000 70,000 for the SE to agent you have a big Bible you can they sell it it's not it's not what one person can say you cannot just lie behind Des scrolls you cannot hide and say seent they they sell they they buy you cannot manipulate and say what you like are you following I have it I read it are you following so I can obviously see it that's why I can tell you that all those because in the introduction of those other translations they tell you that they copied from the Des SC so there are three types of translations the former the dynamic and the paraphrase the paraphrase are Message Bible those ones are the ones they want you not to use they tell you in introduction that now paraphrase we are paraphrasing what you know so it's not literal the literal translation try to translate word for word from the original

the dynamic are dynamic they are trying to get the concept they are translating according to the concept so thought for thought then the par phrase so the KJV is in the liter and it's not the only one the ASV isv there are many trans uh uh translations that is literal word for word so KJV is just one it's not the best but is the loudest because it had the authority of a kingdom behind it authorized by the king AB all right so it's now money who get money push pass all right you get it that's why the King James there not Bible King James is King James of Britain AB be all right so so you see all translations have it different in the isv says he said the B for people according to number of children of God the logos translation now that's if you have uh those of you that have iPhones you can't it's hard to download KJV so you have the logos app if you have the logos app you see the logos translation I take them very seriously because the body of Scholars that come together to produce that translation is the highest in the world so it's the most Scholastic commentary you can ever find the logos so they are very intelligent that's what I mean by that came together because Bible scholars that come together to translate is not do people people I mean people that have like four doctorates that have translations so they are not idiots all right so the logos translation says when the most high divided the Nations when he separated the sons of Adam he set the bounds of the Nations according to the numbers of the angels of God that's logos translation are you seeing it the Isv the literal Standard Version puts the two you now see where they got it from because this one is literal so they want to show you the original language in the most high in the most high causing Nations to inherit in his separating sons of Adam he set the borders of the People by the number of the sons of God or All Sons of Israel you know why I do all sons of Israel in case that's because it's not wanting to give you the interpretation but he still giving you interpretation so in case you are reading from the other side you say son of Israel I also wrote it in my translation are you following all right now the seent the UK translation of the seent that read in 2012 English when the most high divided the Nations he separated the sons of Adam he set the bounds of the Nations according to the number of the angels of God the seent is the Greek transl translation of Genesis to Malachi seent 70 people came together that's why it's called seent lxx the ne translation when the most high gave the Nations their inheritance when he divided up humankind he set the boundaries of the people according to the number of the Heavenly assembly see this one makes sense Heavenly assembly just went stra to the point Heavenly assembly did you get it the N EB when the most high gave to the Nations their inheritance when he separated the Children of Men He Set the bounds of the people according to the number of the sons of God clear clear clear so are you seeing how the are using it uh the ESV English Standard Version tonomy 32 and verse 8 when the most high gave to the Nations their inheritance when he divided mankind he set the borders of the people according to the number of the sons of God and the Lord's portion is his people Jacob his allotted Heritage his allotted heritage are you with me so Deuteronomy 4 Deuteronomy 32 shows that God divided the Nations AB Deuteronomy 29 now see that it's not a made up idea 29: 26 and they went and served other gods and worship them Gods

whom they knew not that's Elohim whom they knew not and whom they whom he had not given unto them God did not give Israel to those Nations remember Hebrews 2 the word to come did not put it under Angels so there was a word that God put under Angels not under rebellious Sons is that man's partnership with the Unseen being that God was addressing when he said let us go and see what they are doing and God is the one performing action in said okay you guys being in charge of all these nations the men partnered with those guys that God put in charge of these nations as placeholders to point men back to God now started taking the worship that's why Jesus introduction in the New Testament books as we have it we have him casting out devils from the gate go it shows that is a man on the mission that reclaims the Nations then when he sends out 70 telegraphing that same idea of the 1 Nations he now sent them to not just Israel he sent the 12 only to the Lost tribe of Israel but when he sent out 70 in Luke 10 he sent them to all the nations around when they came back andoun the Devils were subject he said I already behe Satan fall as Lightning Rejoice that your name is written so I'm about the kingdom of God so you know that Jesus is the one that inaugurates the kingdom of God so the way the four gospel is written is to Telegraph Genesis to Malachi presentation of the literature because they have Genesis 11 correctly interpreted in their mind so they they wrote the New Testament books to fit that narrative now because we we have a disconnect we don't see how it is related how does this connect how does this connect makes no sense let's not not waste my time no not a time wastage so it was God that's how he scattered the nation so he put those lesser I'm using lesser so you understand the concept we say God you may be thinking something else so putting lesser so that you stay within the context of my teaching not what another preacher said he put because God has an assembly of gods he precises over those that assembly is called assembly of the Saints assembly of the Gods sons of God Heavenly Host Divine assembly Divine council of the language you want to use to call it different names is explained by those sons of God he divided those Nations so in the Nations C 17 nations from Genesis chapter 10 so you go your way so one of these sons of God on of those supernatural beings be responsible just like genesis the in case you are wondering where is all of this Genesis 3 after the fall what do you see Cher rings to point man back to the tree of life that's God's pattern because God works with supernatural beings the heavens rule over all things so the angels in chapter three were still pointing man back to the Tree of Life That's why Adam knows to continue telling his children about Eden because the supernatural beings are there they serve the purposes of of God that's why angel can take Cornelius send for Peter because Angel Point men to to the promise of Life did not take worship that's why angels can deliver the good news of a child has been born to serve a function towards that promise to Manu to to the judges you see that Angelic visitation to Mary are you with me so Angel Serv f it was an angel that told join yourself to The Chariot AB so Angels Point men they don't preach but they Point men to where worship is to how to worship God are you following the ones that are not rebellious that's why before you knew Jesus there was something that made you think towards Jesus that's

that unseen there's the there's the good and the bad of the Unseen beings the good ones Point people back to God the bad ones are just about you and them because about your Innovation and your destruction by you I mean other people all about destroying people because they are rebellious they are no longer helping man but trying to deceive destroy and H man which is not how they were made remember I've taught you how Angels become Devils when they take worship when they cross the boundary of Heaven and Earth by having perversions with human beings that perversion will explain it I just like the word perversion I'll tell you why so that you w quote me wrongly until the day where we have a lenty explanation Ser man instead of not serving man they now deceive H and not protect man so they have a function of serving man of serving man they now do the opposite then lastly to carry out God's counsel so in carrying out God's counsel doing God's will Angels don't want to do God's will anymore so that is the problem that is the problem so that's how Angels become Devils I've explained that before but doesn't hurt to say it again soomi 29 26 you see that he used the word god whom they knew not whom he had not given unto them so you see that it was God that divided now the way we explain it is the proper way the Genesis gives you that explanation which is if you are using the Romans one language God gave them to worship what they want to worship but you cannot cover all the Earth in the darkness that means this your plan is not what is the whole earth is going to believe that's why he starts off with Abraham after this because I will not I don't have a plan B I'm still going to walk with my men I'm still going to work with my mankind I've already said human beings is who I will use human beings is who I will use I will not change my mind so I'm going to start with Abraham and he chose of all people two persons Abraham and Sarah which were both dead in their body so it will be clear if I supernaturally enable this man to have a child the nation that comes out of it will be clear that is from me are you seeing it so the Imaging is clear so every time Abraham is saying I have aaza I've done this with haga Baba you'll stay with your wife because get what with they do you cannot spoil the plan has to be sah it cannot be another woman it has to be because it has to be two people who on their own cannot have a child so it's clear that this nation was born of God so that people can look beyond the man and the woman and say now God created the nation it was born out of the Rock God as man's help The Rock SO2 born out of the rock so is that explanation that so why are the gods of the Nations angry with Israel why are the Nations angry with Israel for that Babel reason because it's now Israel versus the Nations God versus the gods which is no battle God will always come out Victorious is Israel that is now in Rebellion too and every time is is in Rebellion God reminds them that's why this deom 4om 32y 29y 17 is lit all over the Bible God reminding them not to worship other Idols like the other nations like the other nations is used over 150 times like there's always a comparison like the other because there's a difference this nation is my own Nation now this not the first time I'm saying this but it's the first time I'm giving it this heavy approach because we are dealing with unseen forces so I'm hitting it from that approach don't forget where you I've said it before now so those Nations is that is the origin of the pantheon

multiplicity of gods that you see in different nations and the origin of Nations worshipping different things they were not supposed to to worship those beings those beings were supposed to point men in every nation were supposed to point men to God but the Rebellion now you understand the meaning of reclaim that's the origin of warfare Warfare is not casting out Devils that are trying to affect somebody's life the Warfare is preaching the gospel is telling those princes as we saw in Daniel princes over Nation those legal principalities that your time is up he first Corinthians 2 had they known do not Havey the Lord Of Glory because their time is up Jesus in ceria on this Rock that Rock pan b as he says on this rock I will build my church in front of that place is called edril and ashro gateway to the underw that's the name of that place in Matthew 16 where Jesus was that place in their geography that's why the Bible gives you that geography it's called cesia Philippi later on because but the name of that place where Jesus was there was a rock there The Rock there is not the Lord is my rocks 23 the Lord is my this it's not that one that one is there but what he wants you to see is in the place the stronghold of idol worship in the Greek culture Jesus says who do men say that I am making a direct confrontation to the sons to those falling sons of God some people said this people Jesus said Peter since Peter was uh speaking to the who do you say I am Peter gets up and say t do son of the Living God say Flesh and Blood don't think you are so wise this is inspiration Flesh and Blood could not have told you but my Father which is in heaven on this Rock So Hear Me Oh Spirit of Darkness so you may know that's what he's doing there on this rock in the place that you call your stronghold I will rescue men so I will go to The Under World death I will be your death quoting hosiah which is the first Corinthians 15 I will ransom you from death so on this rock I will build my church and the Gates of Hell shall not Prevail Prevail there is not that hell is beating us and we are no keep me not keep me no we are the one that doing the attack the Gates of Hell cannot stop remember Gat of Heaven Gate of Hell so Gate of Heaven look at how it was explain in Genesis 28 Gate of Hell the top authority so the authority of Hell authority of Heaven localized in a place cannot stop so no geographical Cosmic prce principality power rulers of Darkness of this world can stop my plan so there is a direct message of reclaiming now you won't get it at first so if you get it now you have great intelligence is oh great one and there's nothing wrong about that some people can get but not everybody will get it so I will repeat it again on Wednesday while going to other point so calm down if you not get it now this is not your last time and as God we have it messages are recorded so you can listen to it again is that okay don't kill yourself just pay attention so one thing is clear God give the Nations to these supernatural beings so Psalm 82 look at where God is judging this gods for corruption because they are not judging correctly Psalm 82 I think I will just read it from the ESV Psalm 82 I'm a KJV guy so don't worry I read it from the two Psalm 82 for the KJV a s of Assaf God stood in the congregation of the Gods he put Mighty he judged the original is e I I God he judged among the gods Elohim how long will you judge unjustly remember the pr supernatural beings are Judges they are not flying now if you have an idea of angels flying with wings

like baby like Q they shooting arrow we cannot help you you are already friends with demons your your mind is gone because that's a Bible picture don't know where you got your own from that that one is play play they not shooting arrows of love romance on people that's not Angel that's not demons there I don't know where you are where you got what you are getting from but it's not Bible so remember the heavens rule I read it oh I read it that's how I started with those text so if the heaven is ruling does God have a council he rules with so in the governance of the Nations does God have beings he work with so why is it strange when you now hear God now assigned Nations to some of them he's already ruling with them before not as de taking worship because he rules over all the nations but he has a council he works with so he simply put his council as placeholder say all right you guys you know better now you point them AB we will Point them and because God does not stop People's Choice he didn't wire them as robot and Say Never So when they saw that because they have an example to remember the original scene they have Genesis the another guy have done it before Genesis 6 has happened before I think this worship thing they sweet oh so they also did their own they now rebelled that Rebellion makes up the whole whole Israel versus all the nations that continues from Exodus to Malachi and now make up New Testament books that has evangelism which is the same word gospel basa territory communication communicate that this territory Belongs to the Lord because is the message of territories so the gospel is a territorial message we have been called to reclaim territories so right now no land belong to the devil that is I mean legalities no land no Nation no people belong to the devil because of Jesus death because he had already taken it back but we need to now tell those people that God Alone is the one to be worshiped what you have been worshiping have been deceivers scammers who told you worship us and look at what it has cost you because that's where the negativity of transaction and worship comes from did you get it because the negativity of worshipping Satan I will remind you again in this series in case you are thinking it's an option say there's something I tie my backyard it's not an option Hallelujah so remember there's hierarchy so you notice that it was members of the Divine Council that became corrupt assigned over Nation Heavenly assembly all right at is when this series is about to end you will now be smiling and say Kai I see I see I see which is the normal thing we learning so don't throw off because it's looking a bit hard no as we remove those blockades how you normally see angels as fly fly people Angels don't fly in the Bible no place in the Bible has Angel ever flown the only angels that fly are not called Angels cherubim are the only ones that have wings but you have Angels flying which is not biblical at all so that's already a challenge we can't will help you because what you are calling Angel with wings does not exist because the beings that have wings are hybrid structure hybrid beings and they are explain with and Sim and their function is quite unique they can never do that thing that you want to be flying with wings to do so against then there's the Watchers then there are different function terminologies but there is nature Technologies like Spirit like this what sons of God host Stars which we are going to surely explain so like I said as we go on it will be making more sense but I need to

pause here time as God Deuteronomy 4 Deuteronomy 32 explains the Bible story God did not assign Any Nation to supernatural beings to worship those supernatural beings where now I will explain from different ways how you get it are angels normally to serve man thank you are they supposed to be seduced by man so calm down and if you don't want to sit for from that place of God assigning are angels normally assigned to men so why assign to Nation now troubling you is Isaac and H is Jacob and Esau called nations are they men okay are people are angels assigned to people are angels assigned to Nations yes sir let me help the brain small small cuz maybe I was too so let's go back to basic Angels normally work with people are they not ministering Spirits sent for to minister for them so are these supposed to be the people that they are ministering for all Minister for does not mean take worship from because to take worship is to become Devils so was one Angel like that okay Angel you get it was one supernatural being ministering for Adam and Eve in the garden that also turned out to be a trickster and now trick them so what did we say that was too complicated Supernatural God assign God don't let that assign the reason why they are putting it like thaty 4 Deuteronomy 32 is because Israel because they are giving you a backdrop Israel versus the other nations so they have to be intelligent in their writing so that you will not see a disconnect because they want the Bible to say the same thing without contradiction so how is God asending those Nations God normally works with supernatural beings that is an order that has already set that is the order of things Heaven over the Earth the heavens rule we read those text so these beings are walking with him however man is to outrank all of them man is to sit which God has done upon the resurrection when he ascended up on high let give to men I've told you before Jesus looking it lower than the Angels marched to the Heavenly Council that Divine Council held all of us in the hand like this the Divine procession carried us and climb up and everybody was watching the supernatural beings are all watching what's happening what's happening he sits down and he does his hand like this we sit down to I will Proclaim your name to the congregation that Hebrews 2 I and they which the Lord has given me we are made that removes that we made for signs and wonderers so God presents us to the Heavenly assembly and say this is the sign and The Wonder of my resurrection this is the man and the men have always intended to have man on these sides of the not see the man and they say that Worthy they get it why is he not ashamed because he comes into the assembly he's not he's their lord lord over that Divine assembly the good guys he doesn't he's not he Lord over the bad guy but they don't sit with him but he Lord over it's only the good guys that sit with him so he comes into their midst looking lesser than them because he has man's appearance that's why he not asham he is not not because he a thing of if it's like I come here wearing a Beggar's cloth you I'm supposed to be ashamed you are supposed to be ashamed but you will quickly remove the shame because now p a pastor so they see him looking lesser H what's happening here but he's marching and they can't stop him because that's the Divine procession lift up your heads we teach it so he leads then he takes his side sit sit sit so we sit with him and he makes the pronouncement this is the

people that we have been after since creation a man that sits on the sides of the north this is it he has told his Brethren because his Brethren is now us and those supernatural being because we are now members of the same Council they are always been in the same Council but now we different from the normal way we have been in the council as Jeremiah 23 by the prophet function and priest function no by an inheritance we have taken our place far above so that pronouncement is what is being communicated are you with me so Psalm 82 which is what I wanted to read they will continue from Psalm 82 on Wednesday how long will you judge unjustly and accept the Pres of the wicked defend the poor and fatherless do justice to The Afflicted and needy so this is what they are supposed to do deliver the poor and the needy read them out of the hand of the wicked they know not neither will they understand they walk on in darkness all the foundings foundations of the Earth are out of CA I have said yeah are Gods all of you are sons of the most high but you shall die like men so they are not men but they will be found in the same death with men because the heavens and earth in Partnership it's always together you shall die like the men who you are following and who you are deceiving you will be you will fall like one of the princes arise oh God the word that Resurrection this the same word in trans liberation that has used for Jesus being raised from the dead arise oh God judge the Earth for thou shall inherit All Nations now are there many Bible verses that have inheriting all Nation why is God inheriting Nations that he made if something did not happen now you are thinking because there is a Genesis account that had where he disinherited the Nations since you will not choose me I divorce you and this divorce you is I allow you go your way since you want to worship devil Sai go do what you want to do but my plan will not change so what God does was placeholders those placeholders now became Devils but God does not change his plan are you following so there's a backdrop of how did he lose the Nations that is now wanting to inherit it so that's that Genesis 11 so Psalm 82 in the ESV says God has taken his place in the Divine Council in the midst of the Gods he holds judgment is is God the judge of all the Earth is he also the judge of all the heavens he's the judge he judges the Heaven and the Earth so he's judging them how long will you judge unjustly so there's something that they are doing wrongly I didn't put you in charge for this reason so S2 context is not just in Psalm 82 we read a lot of these references in mountains but that's what this series is for we would have explored many references for gods and Spirits Hallelujah amen am so Jesus is here to take back the Nations and he has done that in his death Buri and resurrection and he commissions us to preach the gospel commissions us to preach the gospel there is no devil we ought to fear there is no say there's a difference between this and this they are all devils and we have authority over all Devils where we sit today is far above we have taken our place on the side of the north far above we are far above God has a counsel he works with a unseen council he works with in shaping the course of history and Mankind and IND the visible world you and I he works with us in carrying out his plan because he has a plan but he doesn't Force his plan but he has a his plan Hallelujah so and the all Rebellion has always has the partnership of visible and

invisible beings together amen all right so get the point clear I think that should be simple now like I said we'll repeat it again and again sir why are you taking this much time because there are many wised people that have gone out into the world that fear Satan and they explain legalities the wrong way and they tell you that you don't have an authority to deal with Devils that principalities those ones are struggle is Devils we can cast out why some remix it and say I fought with this demon for 6 months now you weak now now you not know who you be that's why this series is to correct your Notions because we explore it we will talk about dark place why are Dark Places why are spirits found in Dark Places how do come people attract curses how come the first man that was C still became Rich because C is not what is stopping you from being rich because C is spiritual it symbolizes that you are not welcome in the Unseen you have no place you have no place but hard work and all the rest so if it's only sweat you rely on you function like a man under C you see it because if that's all there anybody can be rich a man that was CA be City so it's poverty mentality that Mak you think that is cost as making you not make it the first man that was cost made it AB be all right so we're going to explain things because going to explain so that you see that you are your problem you are your problem your ignorance you're not wanting to know who you are do the right things in the natural it's not because when it comes to the Unseen that can be against you baba we get power we get power we have authority we have authority that we can see and it will be so we can say and we know how to as smart principality and Powers that's currently what we have been doing in our work on missions we know how to as smart we have learned from the Lord how to as smart that had they known we don't finish work before you know yeah because we walk with our leader he knows the [Music] way and he wants us to inherit All Nations Hallelujah who can Ascend the hill of the Lord but he that has so he now made us clean because we couldn't clean our hands and clean our act he cleansed us and made us sit on high we are that people that sit on high Hallelujah so Psalm 24 that has the Tabernacle Divine procession that explains how saet ground procession happens we are now there far above all principality and power we have taken our place that dream I will sit on the side of the north now there the church day today Satan's dream is our reality he's that's why he's forever angry with us the same way he was forever angry with is is because this a different Nation from me no no no all of you it's a different Nation but Israel kept winning little against multitude a thousand one we put to th one we chase a thousand the nations were more but Israel kept winning because one way God is the majority I have God I'm not backsliding I'm not in rebellion and you can't even backslide in that order like they did because faith comes by hearing and hearing by the word you believe that Faith was given to you you have the faith of the Son of God that's why no any believer who says I don't believe in Jesus he see that is hungry food he doesn't have food persecution something is affecting him but any believer that actually means it that was once a Believer was has just showed you was never a Believer and we explain that when we used to teach on internal salvation and all of those things [Music] because there's a place we have there's a place that we are in

remember this series on sin forces understand your Supernatural Authority and I told you I don't want to just tell you I want to be theological that's why we are going this route so that you can legally say no devil can stop me I mean it and know it say what about principality Baba far above far above they never born the devil that I will rebuke and we say will not go because I am a principality I am not a small ranking devil Baba Luke 91 I give you authority over all Devils as long as it is a devil crush them tread them oh let Pharaoh die tread it Satan is an wonderfoot reality nothing in this life excit me most than when I hear a problem is caused by the devil when I hear is the devil that did it you reca you reca moment y I found I'm happy because that means it not going take time is a second matter if if your conflict if your conflict is human that one will take time human be stubborn but if he satanic that easy because human beings you have you need to be diplomatic you need wisdom you need Devils now Authority I say to one go but who is saying go needs to know he has Authority needs to know he has Authority and needs to know that his authority is legal legal allow the pronounciation any we pronounce it AB you have authority use your Authority child of God you are not ordinary you are not ordinary you are not [Music] ordinary they put the AR of God they going fail B will say till this day the worshippers of Deon do not tread on that place they don't tread on that ground something has happened there two weeks ago I I explained the sinur story for you sin said look at what I've done to all the other nations I have taken their gods [Music] captive ezechiah spread the petition in prayer and look at how ezechiah prayed engage God on two premises on the fact that we are your people do you know what it means to be God's people say I will give men for your sake touch not my Prophet The Prophet there was not an individual it was the whole nation touch not my Prophet Israel was the prophet touch that Prophet there is not one person oh you are God's people say I will give men for your sake you are the apple of my eye see language one Angel 185,000 persons slept and did not wake up one ancient historian said it may have been the Bubonic plague that the angel erupted among them because there's supernatural beings have a way of manipulating the elements that's why we're going to explain that physical element [Music] but 195,000 died it was it spread around all of them do you know who is with you God is with you I will never leave you nor forsake you forsake I will never leave you nor forsake [Music] you so you not say where was God where was God when I needed him I don't forsake [Music] God does not forsake far above Hallelujah that's where we sit this week enter this week knowing that you are far above Authority your Authority in the Unseen World cannot be second guessed now and when all the Earth is z you are in charge now it does not look like you are in char charge of all things but you are you are a man installed in charge have taken his place coronation rights has happened on your head you are in charge you are in charge you say to one so this week enter this week knowing that there's no [Music] power speaking word it will come to not for God is with us so I don't need to what are you waiting for strong sub your power an idiot I will not fool myself dancing around for 3 hours it is them that need to Dance 3 hours Y Yak at the name Jesus if I know at that I don't need to mention it at the name immediately the Devils saw

Jesus the Bible say he threw himself on the ground that's the order [Music] that's the order you are the one in charge see see you are in charge far above say somebody short Arrow why you know they shoot your own arrow for favor somebody short Arrow so you believe they can shoot Arrow from the other side oh see you see you baba shoot your own now shoot arrows into this week say it is how I have said it you are a priest play Oracle Divine how the week will go how the months will go how the years will go you know that Divine speak it as a spokesman this is how Hallelujah say speak with authority Hallelujah [Music] emphasis this morning as we pray my authority is legal I am legally in [Music] charge no be that means they all know I was I was a teenager when I first confronted a a de very people could not cast it out I I said the Earth is the Lords and I didn't even know what it meant but that word just drop it the Earth is the Lords and the fullness thereof you own no place the devil shouted out of the demon possessed lady I said I know I don't own anywhere I said go now say yes sir you own no place you own no soul The Souls of all men belong to the Lord he paid for it he didn't have to because he created all but in a matter of legality we are legally in charge we have all right you're ordinary child of God oh you're not ordinary time to function like that Hallelujah I'm in charge I was driving on Wednesday uh on Thursday morning and it was ready and I said to the people around me I not commit sin and even if I had commed sin it's not rain God will used to tell me not to travel I'm too old for that childishness that rain God maybe did not want me to travel that's why rain is falling so inside the vle I shout the rain just cease you are in charge that's sh ve with me sh I just remember Jesus what manner of man is this he has made us like him we now pass now saw that rain is still falling we said we can be stopping rain across all the states if feel busy girl Ed but never will I be afraid thinking that maybe God trying to protect my life so God canot now talk to me again he wants to use rain to tell me have I wasted my time serving him all these years no no no no no I'm not a child of fear I belong to I belong to Yahweh my life is not on the road is not on the sea it is in the hand of the Lord and when my time is up he will call me back he will call me my times are in his hands my seasons are no man can control my fortunes my times are in his hands that's what David said my times are in his hands and I know these are the best years of my life I know these are the best years of my life I know a nothing terrified help will always come for me I say it every time I will never lack help I have men in every city God has men in every city I will never lack help I have a commandment not to decrease if my enemy appears great David said I will beat my enemy like the dust of the air there's no great fold that will rise against me that will succeed [Music] give the enemy a miscarriage woman a dry breast cannot perform my evil Enterprises he has frustrated theice of the crafty he has made the Divine us mad where is that balam ready to Cur say I cannot Cur for they are blessed do you know what it means to be blessed blessed without spiritual blessing that means when they see you say ah this one not to ca but knowledge is your functionality I know I'm in a place called cost not if you say something wrong you to your own destruction to your own destruction to your own destruction to your own destruction there's a man that came into

conflict with me a terror in this nation by virtue I can't win him with natural power so I what they have been calling me every month say let's send the first payment you cannot fight with a man that knows Yahweh I will bow the knee and the Lord of sabat The Lord of heavens and me we do battle for me oh hey don't fight a man that can pray Yahweh is my God start pay me back my money business have gone refund refunding that you will refund my own give breath to all men who get breath they fight but you have to be all to give me money I said to some he will be Al life even if you want to die he will not die you will finish that payment now you can do what you want to do after that the Lord is with me the Lord is for me Hallelujah I always win I always win I never be disadvantage even the things I do not know of will end up playing for my favor I may look disant but it's just it will always work out for my good that's what I believe that's how I live that's what I practice Yeah my head is good for prophecy my life is good for the word of God every good word of God finds performance in my life God lift your hands and pray in the Holy Ghost
