

and we trust in this service we receive Insight illumination we do not walk in confusion we filled with understanding in the name of Jesus Lord again in this service we declare the things that ought to be said will be said the things that ought to be done will be done to the praise and glory of your name we declare that we shall be mightily blessed transform built up by the power of your word amen amen amen amen God bless you have your seat amen hallelujah Exodus chapter 15 and verse 11 Exodus chapter 15 and verse 11 Exodus 15 and verse 11 the there let me know are you there Exodus 15 and verse 11 who is like unto thee Oh Lord among the gods who is like thee glorious in Holiness fearful in Praises doing wonders who is like unto thee Oh Lord who is like unto thee the Deni statement who is like unto thee none there none like unto him now the denial statements in the Bible we said are to Telegraph God's uniqueness his incomparability his matchless his matchless his incomparability who is like unto thee Oh Lord among the gods who is like unto thee the gods cannot be nonexistent creatures the gods cannot now just be figuring it will make no sense that's not a praise that's an insult in local word we say they sub me AB that's not a praise say among what does not exist like saying God is stronger than Superman if you want to insult God just say you want to Super that's a fictional character the person that acted it is not Superman that's why there are different person that played it God is not playing different roles are you following so the use of the word Gods I've told you and it's much of um uh the Protestant theology the Protestant Reformation from uh Martin Luther not Martin Luther King go the one the only Martin Luther people know is I have a dream no that that one was named after his parents named that one after the original Martin Luther with hopes that he too will be a reformer that's how the parents named him all and oh boy did the word turn out true he became a reformer truly and he was a preacher in his own right Hallelujah much of a social reformer right y that was not a social reformer but more of a theological reformer in how uh much of the church theology has been shaped and um before that uh massive change in the Theology of the Nations then we have Augustine in church history and much of what is taught today as mainstream theology revolves around uh Augustine theology or the Protestant or you just have the Catholic theology you're teaching the same thing they teach much of the mainstream what is most popular and so much of the ideas that people have about God the things of God the word of God has always been shaped around those popular belief system that if you were to type a question on Google there always going to be those traditional viewpoints that your answer will come from one of what those people have to say uh thank God for the different um restoration movement thank God for the different Revival has a different restoration over the years of different biblical truth every Revival brought a restoration of a Biblical truth thank God for uh the last of such major Revival restoration which was what was called The Grace Revolution and after that people began to see that oh proper Bible interpretation is not a move of the spirit is what we ought to know because that was the last of the major Restorations of basic Bible Doctrine and so the day of the saint began where every believer can realize now that I'm what God's word say I can do what God's word says and

is the day of the sent every believer doing what their pastors can do are you with me so let's walk with that understanding so among the gods among the God's language in the Bible is unique it's used by the writers to speak of God's uniqueness his matchless his incomparability the incomparability of our God is matchless there's none like unto him there's none like unto him did you get it all right so Psalm 82 quickly run there Psalm 82 we see God judging the Gods Not fictional characters not statues and images God stands in the congregation of the Mighty the word mighty is the word e in the Hebrew which is the word God God s the congregation of the Gods he judgeth among the Elohim how long will you judge unjustly and accept the pressings of the wicked and so if your idea of supernatural beings Angel the favorite nickname for all supernatural beings as we see in New Testament is used more in New Testament books as anges the New Testament writer's favorite Monica ABI nickname Angel so that's has uh shaped our understanding that every time we use the word Angel we speak of the whole all the members of the Heavenly Host however the word Angel is a function terminology have you ever I'm before you get angry with them have you ever called um say give I I don't want to advertise for any brand but have you ever called a brand used a brand to refer to everything related to that same I uh don't want toti for anybody they not paying me all right but you get the point so there's a way we when it comes to Noodles for example you say give me this one I didn't say it to you said it all right give me this and by saying give me this what they are is so you not say which and say which of the which of the I me do you have Madame which mag do you have as she will tell you which of the Margaret she has to give you madam which of the which of the clothes do you have whether it's down or up now say the one we have is we have pep Gua we have sense you know they use so which one so you guys understand Parables so you don't nobody says Ah was that so we are using one to refer to all there's even for detergent you use what we call detergent which is really not detergent but powdered soap for powder that soap we say you see that you can say you know so that's what and that's what the biblical writers did so they use Angel is a function technology they now use that word to refer to all of them because they were wanting to write in a simple manner that you see Angel demons so that you can get it the good guys the bad guys so they just put it like that amen but the word Angel has a very broad you that if you just type angel in concordance you have not learned anything about Angels by typing the word Angel so on Wednesday I give you a list of terms how many did you have seven I gave you seven terms used to refer to the nature of those supernatural beings seven of those terms used to refer to death so Psalm 82 God stands in the congregation of the mighty among the gods how long will you judge unjustly and accept the prings of the wicked defend the poor and the fatherless do justice to The Afflicted and needy deliver the poor and needy read them out of the hand of the wicked they know nothing that we don't understand they walk on in darkness all the foundings of the Earth are out of course is not how God founded yet I have said ye are Gods God doesn't change what he calls them he still called them Gods your gods all of you are sons of the most high Benny Elohim a word

used for supernatural beings too but ye shall die like men so that means they are not men but they will die like men so they are found in the same judgment with fall with disobedient men you shall die like men and fall like one of the princes arise oh God judge the Earth for thou shall inherit All Nations so you see that this is a judgment that why bringing God inheriting all thetion so we did the a great job of that on Wednesday so when the Bible story The Rebellion where will build for us a hour we explained it on Wednesday and God now when they said they will go their own way they will build God came down to see what they were doing and Scattered it and the scattering was not the structure what he scattered was the Nations to go their own way in the worship the same word use in Romans 1 where it say God gave them over to their re mind so God is being used as allowing what they want God allowed what they wanted since you want to uh be under supernatural beings you love them so much I'll put them over you so that's the origin of idolatry that God put supernatural beings over Nations not for them to be worshiped but as placeholders not that they were so powerful that they filled all the Earth they are not that powerful it was God who put them as placeholders where you saw the Deuteronomy 32 Deuteronomy 4 Deuteronomy 209 he said which God did not give Israel so God put the Nations put assign son moon and star to the Nations assign the host of Heavens to the Nations but Israel was God's portion God was the god of a Nation he was going to form for himself but the other nations he gave as placeholders those supernatural beings to also do what they were to do from Genesis 3 to point man back to the tree of life we don't know the Bible doesn't tell us exactly when they became rebellious and the Bible does not give us the exact number of how many of them became rebellious but we know that there were 70 nations in the Genesis 10 11 table of Nations so if God assigned supernatural being to all the nations so in the 77 known Nations had supernatural beings assigned to them not for them to be worshiped but as placeholders to lead men back to God but they became corrupt so Psalm 82 is one of those texts where we see there are different texts of God judging supernatural beings in fact they are loud in Isaiah Jeremiah Ezekiel they just have um not a simple phrasing they have an ancient world view phrasing you see God judging Sun Moon you always think it's physical son what does God have with sun and moon so there are many of those text that even new writers used to explain Hell Fire uh the Lake of Fire the etern up damnation you see all of those text used to explain that there's a judgment on those beings amen hallelujah so there was a judgment on original reel in Genesis three the Judgment of the original reel was his cast to the place of the Dead where he becomes the Lord of that dead because the Fallout the first thing that came from the first Reb on was death Exile and uh separation from God so men are now separated from God the second Fallout of the Rebellion is the origin of demons and the little threat to humanity that now there are harassment things that can harass man but the Fallout of the third Rebellion is idolatry and the abandonment of the Nations where it look like uh God is Not not concerned with what is happening look like God is far how come God is Not Looking far because before Genesis 11 God was not so far in his dealings with man so the even in M Hill Paul says God is not

far from us but that was I mean it was literal God was literally not far from people I mean you could it was so easy to have Encounters in those days so the abandonment that be to create a big golf where that Fallout now led to a massive idolatry and abandonment or what we call misery why it looks like you are left on your own you are forsaken are all a Fallout from the Genesis 11 Rebellion so that Fallout is is what we see in the different nations today where it look like you are just on your own except you um you a phrase that I used on Wednesday so those placeholders were supposed to what point men back to God but instead of pointing men back to God they began to take worship and that Genesis 11 frames the rest of 12 to Malachi from Genesis 12 to Malachi that ideology frames where you see the whole world view w r l d v i e w that world view where you now see God versus the Gods Israel versus the Nations why all these versus versus all is a Fallout from the Genesis 11 the Babel story so and it's sad that much of church theology doesn't know what happened in Babel doesn't know what happened Genesis chapter 6 we only are stucked with the blame game because we like one man Adam and there is not much theology in the Bible that has everything that we are suffering in the earth to be about Adam so I used the word two weeks ago when I was teaching that if you were to ask an ancient Israelite or a second temple Jew second temple was when they build the second temple to after the resurrection of Jesus that's the period say it's called second temple period if you were to ask anybody in that era the why is the word the way the word is they will not say Adam they will tell you because of ad Adam Genesis 3 because of the sons of God corruption in chapter 6 of Genesis and because of Babel that's why the word is the way the word is because that's what shaped the Earth forever and ever and every other thing that began to happen after Genesis 11 is still relative to the gods of the Nations having their way in the hearts of men so it's not a different Rebellion it's still the same thing that's why the word is the way the word is so the first one the Fallout is death AB separation that's why men need to be to have the life of God because something has entered into the world that has affected the scope of Eternity eternal life something has happened to the second God wants man to image him but now Supernatural beings want to create their own images by a perverted system because the idea is the proliferation of Bad Seed because it is an attack on the Genesis Theory the seed of the woman will bruise the head so we will corrupt all the seeds so that that will never happen so that is the proliferation of evil that's why wickedness where you say how did man just became so wicked man was taught wickedness by being and that is not Noah's LIF again there a crazy way people read Bible Genesis 6 just say that's Noah what kind of OBO way of thinking is that Genesis 6 is not Noah Genesis 6 the verse one verse 2 vers 3 verse4 shows you a timeline that is from chapter 5 because Enoch is still living in that time that's why you have geneology to calulate their age they all alive in that time Enoch dies me when dies and you see that lamech died before mea that's because you see the age lamech is a son is is the father of Noah but he dies before his own father meusel that the flood comes so you see that era is not is not Noah preaches for 120 years but before the 120 years was already wickedness

on the yeah that's why you have a genealogy to see that oh this has been long the Earth was filled with wickedness that wickedness that corruption because King goes to build a city I explain that when is this just give you a quick rund down because King goes to build a city so we now have Abel versus King now Abel is dead who takes Abel Place set so we now have set and Cain so Cain descendants are not in the way of God that's the first big difference between where you have light and darkness that's why there are stories in the Genesis story so some people say oh the Bible is a Israel is a Jewish book no it's not because if you read the Genesis account you have no Israel you have a pure Gentile background so and that's the Genesis why is isra now mentioned a lot is because of the Fallout of the nation because what Israel will Telegraph is what the church will now be today that's why Paul calls the Church the true Jew the true Israel because what Israel represented is God's Nation away from All the Other Nation now God has a nation amongst all nations of the earth which is the church the body of Christ so Jew and Gentile in one new man AB thanks to what Jesus has done so Genesis um Israel being mentioned a lot in the Bible is for that background story because again that's where the mesiah will come from not because God is just particular with one nation no God kept repeating it through the seed shall all the nations of the earth be blessed there was no time God said I don't have time for the Nations anymore no all that happened in Babel was God said because God does not force people against their will I have repeated it again and again God could not stop Adam why do you think he would stop them no what he stopped was that I give you in a spiritual sense covering all the El in the darkness that's one what he stopped was in a spiritual sense a unification one language of worship for all the Earth in the darkness no that's what he stopped because that's what we can stop Even in our prayer like we said not all the Earth was at Babel not every human being so we read Genesis 10 to see how it led to chapter 11 are you following so the origin of the Rebellion on the because how do you explain psm2 bringing for thou shall inherit All Nations I thought the nations are young why you not inheriting them because they were dispossessed they were disinherited that's where God disinherited the Nations and said since you want to not worship me I will allow because God always allows you your choice but he begs you he will in God said plead with you be reconciled unto God He will always appeal to you you literally even beg you not to go your way because that way will be a way of death so so since the nation said they want to go their way they want to build have a name for thems a top that reaches up to heaven remember it's not skyscraper highrise building building is a place for Gods to descend four things in verse four a tower the top reach up to heaven a name for ourself L we be scattered all of that explains corruption so what God does he allows them their choice because supernatural beings normally work with men so those supernatural beings that are working with you will guide you back I did not are they not all ministering Spirits sent to minister for them who shall be of Salvation so these guys normally Minister for you so okay they have a walk now their work is to point you back that this way is not your way so since you like them so much and you don't like

me that created them all let them be with you and the guys that God said let them be with you were not corrupt they had not falling it was again their partnership man's partnership with them that not led to their fall just like man's partnership with the serpent led to the Serpent's fall and man's fall so it's always supernatural being man's coroporation that leads to that massive Rebellion are you following so those Nations are now taking those Gods assigned or those host orever assigned to those nations are now taking worship what they ought not to take what they ought not to take amen how does Angels again use the word Angels how does supernatural being become Devils we've been teaching that for the last three years four major things AB be how Angels become Devils number one to take worship God Alone is to be worship sh AB there's no text in fact you just let's run through this is God to be worshiped him alone yeah Exodus 20 the same Exodus 34:14 for th shall worship no other God you you worship no other God so are there other gods yes but don't worship them for the Lord whose name is jealous jealous is the word qu is the Hebrew word hallowed only to explain God it means the Lord who is passionate for relationship the dwell Among Us God who is always Desir us to have you and him together doesn't like that so he say it's a jealous God doesn't like that lest thou make a covenant with the inhabitants of the land and they go woring after their gods and do sacrifice unto their gods and one call the and thou eat of his sacrifice and thou take of their daughters and unto thy sons and their daughters go Hing after their gods and make thy sons that shall make no molting Gods verse 17 so they will now carve an image now we are used to the figuring more than the supernatural being behind the figurine so the molten Gods is now a figurine the statue that Europeans came to take the one in B which are returning back all right Deuteronomy 4:19 lest thou lift up thine eyes into heaven and when thou seest the sun moon and stars even all the host of Heaven shouldest be driven to worship them and serve them which the Lord that God had divided so you see it was God that divided the host of Heaven onto All Nations under the whole Heaven see where God is responsible God is not responsible for men worshipping them God is responsible for putting supernatural beings over Nations that's the origin of princes of the Nations or what do we call territorial Spirits the origin is not Satan has so much power no he did not Hallelujah there were supposed to be placeholders but it turned out to be something else that's the whole talk that's why you see a lot of talk about land inheritance possession in Genesis because a land or lands are no longer an inheritance and a possession all the Earth is the Lord possess of Heaven and Earth but now he wants a nation for himself a people for himself and that Nation for himself is going to be a light to the Gentiles we can read text of that Israel's mission was to be Kings and priest be a light to the Gentiles reconcile the Nations you saw how many times different men from the other nations could believe in Israel's God so there was no exclusivity that it is just for us israelit which is why the circumcision became a corrupt message the circum does not exclude people because it was simply a seal of the Covenant because how did root come in how did all how did um Rahab how I mean there's a story how did Ne man get to know he didn't have to live in Israel some even have to live in Israel NE so show his

conversion he says can I take death again you see the whole sacred ground concept can I take death sand from Israel because I recognize that Israel is Holy Ground Every Other Nation is for Devils Israel so can I take sand from here then he now says that again you know my king is an old man and he Lings on my hand and when he he he say he removes himself and when he goes into the Temple of his God remon to worship not me because I'm no longer worshiping that God and I bend over because I'm not bowing to his God but I'm bending over because I'm have to support the king as he's bending does that mean that I'm no longer safe Elisha say fire down you are over saved what a man imagine today you are say I interal salvation man say fire down so you see that whole concept Mo David when he fled into the Philistines land and King ashy saw him and he began to play dead play as a mad man act like he was R speit all over his body rolling on the ground what was his fear in that uh Samuel 23 David said how will I now leave God's land and dwell with Devils he called other land because he saw Israel as Holy Ground saw Israel as Holy Ground so that whole concept in the Bible of Holy Ground and every other ground is not holy was not supposed to produce torist Center as we use it today that you have to travel for T CER Holy Ground no the Holy Ground concept that's why they are still fighting for peace of Jerusalem because they still believe that there are God's angels hanging around till today so that's why everybody is fighting for a piece of that Center because it's Holy Ground are you following so but the reason that made it Holy Ground was to explain that this place is unique for Yahweh these people are unique for Yahweh other nations now is embedded in many strange worship but these people belong to God so and that theology like I told you is wor shapes the rest of the Biblical history are you so you see that the Nations they were not to worship them jomy uh 29 in case you wondering where is he getting all of these things from this is not what you manipulate Bible text there are at least over a 100 mentions of God dividing the Nations to other sons of God so it's not what you find in just two portions which is what we are reading right now but you not see the conquer answer set just like ask say there's no Bible verse that say that Jesus called himself God because they are typing j e s u s space i s space g o d see no reference imagine that's how you learn in school say there's no place where acid is being defined other than the first paragraph in aab textbook that not being dull is thecid that we talking about when we no longer mentioning acid is so we don't have to say acid is to know that we talking about acid so the context is where you now take up because look at what is being said look at what is being said and funny enough like we said Jesus did refer to himself as God in several portions which I read for you when we're teaching who is like unto God says to Satan that should not tempt the Lord your God who was Satan tempting is when you give those explanation they say no but it tells I don't want to do it in fact listen to that message give me work all right 29 back to where I was verse 26 okay let's do 25 26 and they went and served other gods now anything I'm telling you right now you cannot use a conc set for it so if you are going to go home and type Nations God your dull you must read everything that laziness of looking for one verse it's not Bible study are you following because this for

example you if you read the whole of deom you AR this I've been explained to you the god of the nation because it is lited all overom is the second law so they are seeing it again so there's not explanation of why Israel is different from other nations and why Israel has a law has a covenant Israel worships God so the difference is loud in theonomy Jesus favorite book quoted more than any other book all right so theonomy 29 and they went and served other gods and worshiped them Gods whom they knew not are you see they never how did you get to you didn't know them because they were not assigned to you Gods whom they knew not and whom he had not given so he gave Gods to Nation but he didn't give Gods to Israel God whom he had not given unto them remember God giving is not in the idolatry AB was as placeholders to point men back but they now became corrupt the Bible doesn't tell us when if you have I'll celebrate you I have not found it in all my hundreds times of reading the Bible and studing I have not found it I do not believe I'm I'm I know everything but there's no record of when they actually became corrup when the those sons of God became corrupt there's no and there's no mention of how many among the Heavenly Host became corrupt but actually Genesis 11 is the only text in the Bible that has a plurality of supernatural beings rebelling a plurality that very many of them because they were assigned over many nations not chapter three the chapter six owns are chained so they are not roaming and moving all over the Earth because those ones are more wicked Spirits because those were far high ranking in the cada soy 30 we get to hierarchy give it time we get to hierarchy of supernatural beings still here so Deuteronomy 30 verse 17 or read 16 15 into uh 17 see I have set before thee this day life and good death and evil in that I command thee this day to love the Lord th God the Old Testament use of the word love the Lord thy God is believe in him believing loyalty so love that means you are in a relationship with him because it's how they explain love believe you are committed you are loyal you are faithful so he says so the Hebrew word love Ahab is not yantic know when you hear some people hear the word love all they think of his romance very perverse way of thinking so when some people hear the word love what they hear is like like is preference love is not preference you say I like ice cream I like biscuit I like ausy soup I like pounded yum I like you you say I like you don't you see how it sounds there's no there's nothing special about that because you like different things that's preferential and there are things that controls preference your emotions your taste when you say I don't like this food my best food is fried rice how many food have you eat in the world so it takes exposure you will as you CU exposure guides your preference but love is not that love is an affection you show to somebody requiring something in return to offer it is unconditional it's an affection without self so it's not about me me me there's no me inside it's just an affection an unconditional affection I give to you and it's the same love you are to have with all men plus your husband and your wife the only difference is that in a marital context we do two things that we can't do we do not pour Our Lives into another person life like we do in marriage and we don't sleep with everybody that we love all over the Earth that's the only difference and in there you now teach a different thing about not that there are different

types of love come of it if you cannot love your brother you will be a bad husband too you will not love your wife it's as simple as that if we can't see you loving people you not love you will not be any different if you are not friendly with us you will not be friendly with your husband sorry Ma you will not be he that wants a friend must show himself friendly if we don't see you friendly with us you cannot all of a sudden just find one new B you are just friendly no no no no man becomes like that are you following when people are in love the hardest people to correct or instruct are in love because they fail they didn't work they fell in love so they are blinded so you try to help them you can't help them because they are falling in love with you but if they were walking in love you could have guided them but because they fail they have to stumble and keep stumbling all right that's why it's not a Biblical phrase to fall but to walk in love I'm serious it looks like I'm playing but I'm not playing of course today we know what we use the word fall in love to mean but I think it's a word we should uh renounce from our ideology because it's not a healthy word but we do know what it means in our verac when you say fall in love with means that I'm head over heal with you but better to use walk because now that is okay if you know it but really that fall that it's what people actually they actually fail that's why they have no control mhm and say say to H with my daddy to H with my mom to h with my pastor to he with every it's just me and you forever you are really falling you are really falling that is the woman that born you that you talking to like that ab and the man that born you you're talking to like that all because you saw one girl all of you saw the the woman that born you and the man that born you are all useless don't you think that something is wrong I find an issue with a man a woman man believing that he really loves you that's [Music] too we know parental choice is tough but not about parent CH is now to hell no my parents just don't because they don't know you so let let them get to know you better not to hell with my dad to ha with my mom it's just me and you we will be cut so no and here again that's what brings all these nonsense people have to say there's no third party beware of third party in every relationship don't third party that's why because you want to kill the woman so you want to kill the man but what you calling third party Bible tells us that we must be open to wisdom in our relationship open to Corrections open to all of that so if you're not open to all of that it's just me and you Red Eye blue eye different color of eye per week you will know that you should not you should be open to correction so you say there's nothing like that I don't want your mom to ever correct us what is the mom correcting us if not that you are a failure you are a failure so what is bringing the mom correction are you seen it so if we don't attack the real thing what is bringing that correction you must have done something not well you not done you have done something wrong if you did something well you will not be bringing if we again is the same thing with communication it says I just don't want to talk to you say babe bless talk say no no no no you know as you get older you put away those Madness 5 years marriage 10 years marriage the woman and the man will be saying I want to keep to myself Baba say okay because at end of the day how do you end up resolving the same issue we still have to sit down and talk even if we go to divorce court we still have

to sit down and talk what a shame so sitting down and talk cannot be avoided in life so you are a child it's why you should not have married because you are noisy 30 let's go back 30 and if th heart turnor away so that thou will not hear but thou sh be drawn away and worship other gods verse 17 and serve them so they were not to worship those other gods I mean it was very clear in Israel that they were never to worship other gods I denounce unto you this day that you shall utter that you shall surely perish and that they shall not prolong your days upon the land whom thou passest over Jordan to go to possess it there a land you're possessing Deuteronomy [Music] 32y 32:7 remember the days of old consider the years of many generations ask thy fathers and he will show thee and thy elders and they will tell thee and they will tell the when the most high when when when when is that when Babel when that's when the most high divided to the Nations that's the word divided you see Genesis 11 God divided when the most high divided to the Nations their inheritance when he separated did you see it when he separated the son of Adam he set the bounds of the people according to the number of the sons of God for the Lord's portion is his people Jacob is the Lord of his inheritance then he tells you the journey God had to make to get the nation to be the nation he found him in the desert in the way howling Wilderness he led him about he instructed him he kept him as the apple of his eye as an eagle s up her nest fluttered over a young spreaded abroad her wings take them buried them on her wings so he said this is a move of the spirit so the Lord alone did lead him and there was no strange god with him the Lord alone so the other nations had many other but Israel had just Yahweh as their God it was their National God just like other nations had a national God that's where Israel now names God Yahweh it's not their National God just like other nations had their National God Israel's National God was not is now yeh but Yahweh is not just Israel national God Israel Yahweh is the God of all the Earth it's not just Israel but Israel now because they know that this is our own God unlike other nations he made him ride on the high places of the that he may eat the incense of the field that he and he made him to Sock honey out of the Rock and oil out of the flinty rock butter of kind and milk of sheep with fat of lambs the ram of the breed of Bashan and goats with the fat of kidney or wheat and thest drink the pure blood of the grape but jesurun walks fat and kicked thou had waxing fat thou had grown thck thou Had cover it Jun is Israel in faith believing Israel upright Israel is just again a name a symbolic name like an epit a symbolic name of Israel but J wax F and kick thou wax F thou grown TI thou covered with fatness when he foro God Israel That was supposed to be upright is now forsaking God which made him are you seeing it and lightly esteemed the rock of his salvation they provoked him to jealousy with strange Gods with abomination provoked him to anger provoked him to displeasure 17 they sacrificed unto Devils this is the origin the word shed shedim they sacrifice unto Devil's shedding not to God to Gods you see that the devils are referred to as Gods come on not the sacrifice onto devils not to God to God so the other gods of the nations are now being called what Devils so that means they are not in obedience to God the other God are being called Devils so these are not in League with the true God whom

they knew not to New Gods that came newly up whom your fathers feared not underline that whom your fathers feared not will not they fear them as we go further you will literally see that it's outside common sense to fear demons that's this series will literally affect even your common sense that you you you you you you fear flesh poopet you you fear people that have to wait in N you no coward wait in N to be dancing over Calabash Baba if you are man enough let's face you have to wait for us to sleep first obviously depending on something we get there of the rocks that begat of the rock that begat the thatou Mindful and has forgotten God that formed thee are you seeing it so so when the Nations went their way God started with Abraham they are seeking a city Abraham is they are building a city Abraham is Seeking a city whose Builder and maker is God so they are building a city Abraham is looking looking for the one that God is the maker of so you see the counternarrative so God will take Abraham he will take Sarah two people who on their own cannot have a child and he will supernaturally enable them to have a child but Abraham will be impatient his laps of patience his laps of patience will produce ishma because he through the flesh father a generation but God wants him by through the spirit to Father generation which Isaac will be the main so ishma he has produced and God His Infinite Wisdom would have him still blessed ish because ish is a child of Abraham however the nation God is after is Isaac and so that again became a debate the Isaac versus ish debate as we have seen over the years to today that the going forward if you are dealing with abrahamic religions on the face of the I will use the word religion deliberately so as you go on then we have Isaac give bir to Jacob then with Jacob he had gives birth to 12 children we have 12 sons a daughter and those 12 sons will now integrate to form what Israel is called today the nation Israel and that nation is now born from the Red Sea in their coming out they were born so you now have the exodos 19 he led them to himself as an ego you see that word ego that we read 32 is in Exodus 19 go to Exodus 19 verse 4 you have seen what I did unto the Egyptians and how I bore You On Eagle's Wings and brought you unto myself just as the church is born from the resurrection Israel is born out of the baptism of the Red Sea now therefore if you obey my voice indeed and keep my Covenant then you shall be a peculiar treasure unto me above all people for all the Earth is mine God always keeps saying all the Earth is mine so he has not given up on all the Earth so he wants Israel to to be the people but you shall be unto me a kingdom of priests and an holy nation so that's what God ordained Israel to be clear clear clear so nowh Israel was told to worship other gods so when they worship other gods they were provoking God to anger First Kings 1133 because they have forsaken me and I worship astero the goddess of the zidonians Kos the gods of the you see different names of gods over different places are you seeing it how did that originate from Babel The Fallout from Babel because they have forsaken me and have worshiped ashot the goddess of the zidonians why goddess when Spirits is a what is the gender of spirits spirit Spirit is a gender terminology so there's no male and female however in imaging there must be male and female so that's why you have God godess because you have to make a figurine and in a statue there's male and

female in the bodily structure so that's where you have god and goddess is not that they are female angels that is not there's no theology for that Madness the goddess of the zidonians Kos the gods of the moabites mil come the god of the children of Ammon and have not walked in my way to do that which is right in my eyes and to keep my S and my judgment as did they David his father so you see mentions gods of different places 2 Kings 19 and it came to pass as he was worshiping in the house of nrock his God so there are a lot of names of gods mentioned in the bible assigned to different places that people were worshiping that's the um uh Hezekiah and S story remember and s in his own me reference mentions how he has taken captive the gods of many nations that's verse 12 we have also read that in the course of this Series have the gods of the Nations delivered them from my father the gods of the nations are you seeing that phrase because he's now seen as an entity all those gods of the Nations they always fighting for who is the number one who is number one but we see them versus Israel are you following that's why there is so much talk about Israel in the scriptures have the god of delivered them from my hands so he mentions those things so they were not to worship them is that clear Psalm 81:9 there shall no strange God be in thee neither shall thou worship any strange God so Israel was told not to worship any strange God why because I am the Lord thy God that brought thee out of the land of Egypt they not to worship other gods Psalm 97 the supernatural beings themselves have been confounded be all they that serve graving images that boast thems of Idols worship him all ye gods so the gods themselves are to worship Yahweh worship him all ye gods Zion heard and was glad and the daughters of Judah rejoiced because of thy judgment oh Lord verse 9 and this is where Paul gets Ephesians 1:22 from for thou Lord are high above high above all the Earth thou are exalted far above all gods that's where you get the far above principality P mind and Dominion far above so God who is far above and he has a city created for man to sit with him being far above which we now are in Christ Jesus so and the reason why Israel did not fear those Gods because they knew that their gods is far above those Gods but now we don't just have a god that is far above those Gods we are seated far above those Gods Not Just that we have a God who is above the we are also far above not just above far above in other words they compare C clear clear so God Alone is to be worshiped so when he created them he told them to worship God so worship God worship God all right so one supernatural beings take worship are they corrupt all right and there secondly they made to serve man to minister onto man so once they do a disservice to man that is now Dev a disservice to man is how they become Devils serving man and to serve man is to protect man to guide man to help man and once they do anything different that is the work of devils are you following so where we now have supernatural being deceiving hting harming man that is against their constitution so they have passed their boundary they are now Devils thirdly angels are to do the will of God they are to administer his Affairs they are to minister his Affairs in the cosmos so they have an Administration a supernatural admin ministration that they have they in his Council join him in the rule over the Nations so they do the will of God they obey

him and when they disobey when they say they will not do that where we now see disobeying God disobeying what God have said what God how God created them what God told them to do and they said they will not do that and last but not least supernatural beings do not marry not that they can't they do not and the mar there is not go to a customary Court is not customary marriage that's not it married there is the wor sexual Union that has been exp just a polite way of saying sexual Union so they say Mar so they do not you see the Genesis 19 they say bring out that's what the perversion of Sodom is an example of Genesis 6 Fallout bring out those people let us have them and Lord say this thing people are trying to do is not good at all you see that those guys refused they made them blind they told when they were trying to drag theel into the house they put their hands on lot shoulder and drag lot so you see that they can have such contact with there's no place in the Bible that say super can't have such physical contact with man holding because they literally the same way they literally drag lot out of Sodom so there's such physical contact is not outside scripture to see such physical contact they can because supernatural beings can relate with matter they can relate with matter they can appear as men so you see that perversion that was in the mind of those men in Sodom and those Supernaturals that were from God say no no so they do not so supernatural beings do not cross that boundary and that's where you have Jude and Peter and I will not assume you know it I'll read it for you then we'll continue we mention some function terminology so we have dealt with nature terminologies of supernatural beings then we look at some function terminologies Jude is just one chapter so verse six and the angels which kept not their first estate the word First Estate that kept not their principality the way they were assigned to function but left their own habitation he has reserved in Everlasting chains under Darkness unto the Judgment of the great day so you see that the Genesis account is a explanation verse seven even as so now use Sodom as an example of that even as Sodom and gomor so Sodom Andor is an example of that thing he just mentioned which is how you have it in the Genesis account to clar so chapter 4 we explain chapter three so I want to see how did man uh separate from God I see it in chapter 4 so in case you you are not seeing in chapter three very clearly chapter 4 no Cain has gone his own way are you getting it so you have this parallels I want to see chapter 6 very well you have the Sodom story and you have the consistent use of worshiping Idol and fornication why fornication now becomes a synonym a word used to explain worshiping Idol then you now because in the worshiping of devils that's all of those perversions take place then you now have the chapter 11 which is now Abraham and the Nimrod parallel so there's always an example because they are teaching so they want you to understand what you are reading so they can't just leave you blank so even as gomor and the cities about them in like manner giving theel over to fornication and going after strange flesh are set forth as an example suffering the Vengeance of Eternal fire likewise also this filthy dreamers filthy dreamers so they have all manner of sensual images defiled the flesh despise Dominion speak evil of dignitaries so see the concept then we have Peter second Peter chapter 2 now says verse four for if the

for if God spared not the angels that sin but cast them down to Hell and the word hell there is the word Tartarus and tarus in Greek mythology is where the Titans are kept in prison so he uses a place of a prison hold a dark place where the fiercest and strongest of all powers in Greek mythology is kept so Paul uses that word to explain hell because he writing to a Greek audience so he uses a word that the audience can understand that this is not just any prison this is a prison for the strongest of and in Greek myology is where the Titans are kept that all the gods banding together only in all the gods Binding Together were able to defeat in that myology not Bible so if God spad not the angels that se but delivered them to tataro so it uses the word tataro which explains to trust down to tatarus so to incarcerate in eternal torment that's what it means and deliver them into chains of Darkness to be reserved onto judgment so there's always a judgment now the Judgment of those Nations is that you Judgment of those Nations is that you don't longer have God judgment on those supernatural beings that they are worshiping is that they shall die like men are you following so there's a judgment just like the Judgment of chapter three guy is you are now the lord of the dead so there's a judgment on all of those supernal being the last great judgment is where there's now no more of all of this sin de Darkness wickedness no more evil no more weeping no more night are you following so broaden your understanding are you still here clear clear clear so we said there are terms that describe what nature nature is what they are like AB what the members of the Heavenly Host are like what do they look like so we mentioned um spirits come on come on come on come on shamayim that was the first we mentioned we mentioned shamim they are called Heavenly ones that's their nature that's a nature terminology that explains what they are like they are called spirits remember remember spirits that nobody's arguing about supernatural obviously Spirits they are called Stars C Stars where you get morning Stars the Stars fought for us they are called holy ones or sense s a i n TS and I told you the Catholics got that spot on now for many years the Catholics were the only ones who refer to angels as sense the Protestant said never never never never is human beings that are sense for this you know one of the things that can affect theology is already saying this cannot be correct no we don't have this cannot be correct then we go into Bible no we go into Bible to take not we already have a position that we are going into Bible to get so they got that spot on and they got many other things horribly wrong holy ones so kadim holy ones so Deuteronomy 33 Psalm 89 the said so we read all of those references then they are also called Gods Elohim that's their nature terminology Elohim is a resident of the supernatural word did you get it so a Divine being is a word god G is the word divine being so it means a Divine being go is not used to explain only Yahweh so there are six entities explained in the Bible with the word Elohim I we have also explained that again and again AB six beings explained like that Yahweh the god of Israel the sons of God as a company the god and goddesses of the Nations the Devils the angel of Yahweh or angels and the dead departed human like Samuel is called Elohim so see that idea but supernatural beings are referred to as Elohim Divine beings that's the word God again I repeat the word go just mean a Divine being a nonhuman being

nonhuman entity is the word *g o* now the biblical writers now have a unique attribute that they used to explain God that's why there's a lot of denial statement who is like unto the none like unto the that's that denial statement is to explain God's uniqueness his matchless Abby and God is so unique that he made them Abby and we did a series on that AB he is their creator he is their King they are to worship him he has no equal he is the god of gods King of Kings he is called the highest all powerful he's Eternal AB so omnipotent omniscient omnipresent so we go on with those S to 10 attributes that uniquely explain the difference and is used only to explain God God is the only one that is called amen is consistent he's faithful supernatural beings have not been Faithful over the years AB hence we saw a rebellion so those are words so the the prophets of old biblical writers or prophets had phrases they used to explain God now the apostles continue the same the apostles are commentaries on Genesis to Malachi they were not writing they did not even know that their books are going to become Canon of scripture they wrote as interventions in their word they were questions that people were asking them because their books you have does not have all their teaching so you see that's why Paul say say as I wrote in few words but when he got to a place as the book of Acts told us he read from Genesis and taught extensively with the in fact it was Paul that it was that he taught the whole council of God so he taught the whole direction of God what God is doing all the Earth he taught that from the scriptures I said none other thing than those in which Moses in the law and the prophet did say AB so that's what they did that's what they taught they taught all the scriptures the ACT um 26 verse 22 saying none other things and those things which Moses did say so that's all he said those things that Moses did say and the prophets so uh Elohim that was um what number was that number five then we said um sons of God AB that's a nature terminology sons of God s o n that's nature terminology songs of God are all quiet like it so what was the number seven clouds all right you use of the word clouds that's why you always see him with a cloud cloud is to explain a supernatural world view the same way for example the song we're singing just now there's Lightnings and tund what is that why are we always mentioning lightning and tund because the ancient men ancient thinking lightning and tund has to be a work of the Gods because it's coming from the heavens lightning and tunder so it's used to explain acts of the Divine Acts or power of the Divine when you say lightning and tund are talking about the act of God are you following so it's not one mystical something then there are terms that describe their function remember terms that describe nature what they are like what who are like those members of the Heavenly Host are like you get it then there are also terms that describe their function and we start with the most popular one Angel a n g e l is a function terminology now of course in the whole uh uh isn't she beautiful isn't she lovely idea with people call women Angels today so there's all already a Romantica there's already a view people have Avengers uh but the Bible meaning of the word Angel is a function technology it's just the word messenger the Hebrew word malim Malak one that is sent a dispatch one that is sent on an errand so a messenger one that is sent on an errand a messenger a messenger now

that messenger is a deputy it's a supernatural being so it's not uh a non-important entity important but angel so function terminology Angel it's the word messenger and it's also used for human beings human beings were also referred to as Malak human beings were also referred to as Malak so that word Angel say give us references that angel is a function terminology that's all the references of NJ so the word Malak is used 213 times now the 213 times is not all supernatural beings now the very first time we see the use of the word angel with the word a NG g l the first mention of the word a NL not the first mention of a supernatural being in the Bible the first mention of that word a n g l Malak was Genesis 16 the hagga story and the angel of the Lord found her by a fountain of water in the wilderness by the fountain in the way to sha and he said hega sah made when cameth down with Will thou go and she said I flee from the face of my mistress I and the angel of the Lord said unto her return to thy mistress and submit thyself unto her hand and the angel of the Lord said unto her I will so you see the use of the word angel that was the very first reference Genesis 16 story then you have the Genesis 19 after Genesis 16 you now have Genesis 19 and it came and there came two angels to Sodom Genesis 19:1 so the use of the word Angel so the word Malak a messenger a messenger now that word Mala is the word used in Genesis 32:3 and Jacob sent malaks before him to Esau his brother he wasn't sending angels he was sending men but it's the same word but you read it it put Messengers The KJV was Messengers that word messenger is the same word Malak Moses also sent Messengers from Kadesh unto the king of Edom numbers 20:14 so it's used for human beings too when you send messenger so you can't miss the idea when you send a messenger so the word Angel malakim is the word messenger now there is a related noun in the Hebrew which is the word Melaka used for a business Journey or a trade Mission so it's quite easy to get the concept of messenger malakim so malaka sorry the word mea is used for trade missions so where people are expanding their business and all of that business Journey trade missions so that word Malak to send the sem verb LK l a k so to send so it's obviously involves someone that is being sent someone that is sent sent out with a message now the primary idea behind the word messenger is not just about the message but they are sent out to serve God so they are sent out to serve God so it's not about a message like I have a letter to to read for you beyond that is that they are being sent out so supernatural being sent from God so CU remember is a function terminology Now function function function what they do so one of the activities supernatural beings do is that they are sent out are you following so they sent out with a message so it's a job description a spirit being from God's heavenly host a holy one and Elohim or remember those are natur we're using the nature word now we don't want to use the word so a spirit which is where we are seeing supernatural being a spirit is sent from God's Heavenly Host to deliver or receive re a message now there are different taxa in the broad service but you see there's sent out with a message sent out for something on an errand let's use the word errand because the more we keep using message your mind is on letter so when you that's why the word similar verb meela used for a trade Mission so we you are sent out is the

same word used in asan time for ambassadors like Moses sent this one sent your sending Messengers to go and tell so an ambassador so it's not about the letter sent for a function are you following so there's a function sent to do something so sent to do something once they are sent to do something that's Angel so Angel is a function terminology sent to do something go and do this I hope you are getting it go and do this so that's Angel go go and do this so the word Angel the Greek call it Angelos it's still the same word an Eno a messenger so like I said the emphasis is not letter the emphasis is to send out because the emphasis of the word is the sending out not all supernatural beings are sent out that's what we so that's why I want to explore function some not all super are sent out is not what supernatural beings that run errand and that a supernatural being run errand does not mean that that is his primary job description for example you can tell somebody that is not a male man say help me give this person this does mean that person has become a male man are you so God also does that too but there are designated job description now a designated job description is Angel that's a designated job description Angelos or messenger clear clear all right that's uh then the another word used to uh explain of function terminology is the word Minister supernatural beings are called ministers are called ministers Psalm 103 and verse 21 are you there Psalm 103 and verse 21 bless ye the Lord all ye his host ye Ministers of his now ye Ministers of his that do his pleasure bless ye the Lord all ye his host come on are you seeing it bless ye the Lord all ye his host ye Ministers of his that do his pleasure ye Ministers of his ye Ministers of his that do his pleasure bless the Lord all his Works in all places of his Dominion bless the Lord oh my soul now next chapter Psalm 104 start from verse one bless the Lord oh my soul oh Lord my God thou art a very thou thou are very great thou art clothed with honor and Majesty who coverest thyself with light as with a garment who stretched out the heavens like a cotton who layth the beams of his Chambers in the water who maketh the clouds his charot that's the word cloud in nature terminology make it is cloud no physical Cloud they are not Dull they are only using that word because there's a mass Gathering of Supernatural being so that mass gather just like there's a mass of water gather that is called Cloud so when a mass of Supernatural being gather they use the word cloud to explain nature to who make the clouds his Chariot remember when elishah said Lord open his eyes that he may see saw that the whole Mountain was filled with chariots Chariot is not a nature technology but a function technology so trave because they not come there to play they came there to fight they not come there say I have a not be message are you following so there are assignment their job descriptions Psalm 104 who maketh his Angel Spirit who maketh his Angel Spirit now the reason why you have it like this the use of the word angel now I've told you the Bible has gone through translations so for example Genesis to Malachi is the Hebrew Matthew to Revelation is a Greek text however both jome wrote the Latin V the first translation the Latin translation the first translation out of those language now before that was the sepag the seent is the Greek translation of Genesis to Mali so there's Genesis to that written originally in the Hebrew language M to re in the Greek language but the

seent is now the Greek translation of Genesis to Malachi now the seent was around in Jesus time that's the book Jesus was opening because there was a book that's the seent it was done by King pomi the many there are many so uh antoio there's all those many there's a long story behind that so that is not was a BC thing not an ad thing the seag so that was around in Jesus time that seent is the Greek translation because that was the dominant word power so they had to translate their Hebrew Book to that language so that was already a translation so it was from the seent so we now have the seent and Matthew to Revelation all in Greek then now move to the Latin vgate the fourth Century Latin vgate so jerob F then after the Latin Ved having many other translations so from Imagine how many language has cross over so those crossing over so now it's in the Greek that they started using more of Angel and Demon so sometimes because there's a different word in the original they can't play around it they can't play around it in transl okay this thing is not what we are already using this word con to refer to it as so that's why you have a lot of angel angel does mean that all the text there originally have Angel so because they already using Ang in the Greek text to explain Angel and Demon are you following so when you see those Angel word they are not using it to explain function only they using to explain nature too but you now in the context see what they are saying believe you are getting it Psalm 104 so he says who maketh his Angel so we can do better we can throw away the word Angel and put who maketh his supernatural being who maketh his so you see why they use Angels so that it will not read two times Well if you use a nature term and use a nature term to say nature it's like over repetition is some people are not with me at all what is a nature terminology spirit so who maketh his spirit Spirit it look like you're not seeing anything so this is the work Scholars go through in translating okay how best do we use it so okay who maketh his holy ones Spirit now the same thing we they talk now okay who make his Angel at least you know they do something those people they do something those people do something who make his Angel Spirit they will get like this are you following so the lot goes into translation so be careful how you rubbish it no translation was produced by dolls it takes professors four doctorate 10 doctorate Scholars that together to have translations so just be rushing to say nonsense nonsense nonsense Baba calm down are you following so who maketh his Angel Spirit his Ministers of flaming fire his ministers did you see it his ministers a flaming fire now that's the same word you have in Hebrews 1:7 and of the angels He said who maketh his angels spirit and his ministers a flame of fire who maketh his Angel Spirits new matter and his ministers a flame of fire the word ministers is the word let two go in the Greek a public minister is used for like a priest a public servant Civil Service somebody you know just like where you you are employed by the government for for a tax is that what they call civil servants so it's that idea so a public servant this is public property so they have a public function so the but the word minister in the Hebrew is why we always use the Hebrew because that's the foundation of biblical doctr the language that we have as the foundation of biblical doctr because it was in Hebrew language so the angels have a function they called ministers ministers now that

ministering idea Daniel chapter 7 and verse 10 you get it Daniel chapter 7 Daniel 7 and verse 10 a fiery stream issued and came forth from before him thousands thousands ministered unto him 10,000 * 10,000 stood before him the Judgment was set and the books were opened so when they use the word ministry the verb that verb used in Psalm 104 the word Minister the verb shat SRT is generally used in attending to the service of God so Daniel 7 uses that idea to convey minist strings that's why I put the Aramaic verb the a thousand thousand served because Daniel is in Strange Land as the Aramaic Hebrew Aramaic that they often tell Hebrew Aramaic Greek so just have a few books that are in Aramaic language basically Daniel and Ezekiel just a little portion of Ezra so Psalms 104 uses the word Minister now that word is generally used for Priestly service in Israel to minister unto God Deuteronomy 10 and verse 8 at that time the Lord separated the tribe of Levy to Bear the Ark of the Covenant of the Lord to stand before the Lord remember Supernatural to stand before the Lord then he say to minister unto him exact same word to minister unto him and to bless in his name unto this day so you see that that same word is used for service there's a service that they offering so why not we just use that word Minister as a fun as a nature it's not a nature technology say they are a minister so what are they ministering it gives you the idea because it's the same word used for a temple ministration so are there different Services you are offering in the temple yes this is where we get in the name of Jesus receive your healing over there and one supernatural being wipe you they are ministering no I had to jump fast some of you are just too slow when you are building something you just start sleeping off that's ministering so I'm ministering they are ministering that is the concept so not all supernatural beings have that is not when may be using the word angels are Ministry but it's not angel that is ministering is is Minister that is ministering in this context using the proper words it is that those shamim those Hol many Heavenly ones that are ministering so they are ministering to people doing the pled of the Lord remember the entrance is through our action so as we are saying in the name of Jesus be healed those who superatural beings that have that function of ministry the ministers at work so every time we gather we have thousands of thousands ministering they always I mean they are ready for deployment depending on how the Gat man depending on how the the the humankind that humankind imager that human being is representing what he's doing so in our ministering they are Ministry did you get it so the use of the word ministers is exactly that I mean I can open this grammatically more and more I mean the verb is used conly to minister is used for Priestly service in Israel and it's often used that they are carrying out specific functions within the temple So within the Gathering Within that Gathering these guys have different service that they are carrying out so the specific verb is for activity so they have an activity that they are carrying a temple service a temple activity so they have an activity within the temple So within what God is doing on the earth which is we can use that to explain the temple because God wants all the Earth to be his Temple within what God is doing on the Earth there are beings that Minister we can call all supernatural beings ministers however minister is a function

terminology it's a function it's not a nature terminology it's not what you describe something as what they are like is what they do why you say I am ministering right now I'm serving right now so you say what exactly are you serving there are different Services you can carry out did you get it mhm so different service you you can carry out so Malak Angels sent out sent out on a mission that's the emphasis not just with a letter sent out on a mission sent out on a mission the Mission involves delivering or receiving message no doubt but the emphasis is on descending out that come on second phrase second word used to explain their function is ministers ministers they are called ministers now try the Old Testament books most of the usage is for Priestly service and why do they now use that same word for supernatural beings because supernatural beings have a function of mediation mediation is between two words because they have a function of two words to bring two as one to mediate mediate does always mean that we are fighting no is to reconcile both to bring together so since supernatural being have a function of bringing two things together Two Worlds together Heaven and Earth together they have that function they are called because that's a Priestly function to bring two words together so Supernatural also have that function so they are ministers so ministers is a function terminology third word or Watcher w t c h e r not all supernatural beings are referred to as that I know of course some Northern apostles today use the word for men which is quite dumb it's ought to be Watchman whatsoever they're trying to explain for men should not be used with the supernatural narrative no man is a watcher men can be watch men I think it says the same thing all right that's the equivalent not calling men just like ministers we have Apostles Prophet evangelist Pastor teachers as ministers that the same way supernatural being have ministers so there is a there an organization to the kingdom to the realm of angels so the word Watchers is used in Daniel 4 verse 13 I saw in the visions of my head upon my bed and behold a watcher even an Holy One so he explains the nature so a watch in case you don't know who the Watcher is is this is a kadim is kadim a nature terminology mhm Behold a watcher even an Holy One came down from heaven he cried aloud and said to us heal down the tree and cut off his branches so why is the word watch are used here because the origin is Aramaic and Daniel is the language that they are speaking there is Aramaic so is that arama language so that's why you get the word Watcher doesn't mean that it's only in Daniel that is mentioned but again if you are using Concord Dan it's only Daniel you will see because this idea of Watchers is what is happening in the First Kings 22 where Maya is having and M the son of IM because they are watch over the that's why I say who we go because they are watching over the Affairs who we go so it's the same development take a bit of time but let me just list all of these things then we can move on in our series the um Daniel 4:13 again you jump to verse 17 they now say this matter is by the decree of the Watchers this matter is by the decree of the Watchers and the demand by the word of the Holy ones to the intent that the living may know that the most high ruleth in the kingdoms of men and giveth it to whomsoever he will and seted up over it the bases of men so the word watch is used for uh is from the uh

different words is used for strong beings that protect they are different if you break the word by breaking the word we mean the etymology of origin of the word it's from the word i y that's just the word the word i y i that the Aramaic word or the Hebrew word for it e now it is from an Acadian root word a root To Be watchful us got from a word to Be watchful which is the Hebrew word or Ur To Be watchful to be awake to Be watchful to not sleep to be attentive to be vigilant so these supernatural beings are called watchful ones so what the Acadian root word is to explain is Vigilance watchfulness they are wakeful to their Guardian role they are watchful because they are assigned to men to watch over men's activity and report back to determine what should be done what's the best course of action we can take so there are those spirits that report that look at look at what is happening here look at what is happening look at happening here which the converse in the falling world you will now get familiar spirits in the Demonic side because they are familiar because they are watching over activities are you getting it so the word Watcher is used for a wakeful one so what the Acadian root word telegraphs is Vigilant watchfulness they always awake doesn't mean that they never sleep nor Slumber like Yahweh no but is that vigilance only God has that uh I never shut his eyes once are you following That's Unique for yeh however using that what to explain them is from the aradian root word used for in a kingdom there are people that do shift you you um when you set up a garison for example you put a watch tower there are people that climb it called Watchmen now what those people are to do are to ensure that nobody enters without them seeing so there's no way the enemy will enter that they will not see the enemy from a far distance so they have to report that from the East they are coming so they will blow the horn so they are to alert of what is happening because they are ever watchful not that they are not sleeping that's not what is telegraphing what is telegraphing is that they are ever watchful what they happen there I see a smoke sir should we report my Lord say no no no no no no no we sent some Camp to go burn fire there okay okay they all everything that they are seen like I see smoke Rising say no no no no so they are always reporting what they are seeing is that vigilance so those supernatural being are called Watchers they are ever Vigilant remember nature so you see this reference in Genesis to which we are going to keep reading but when we continue referencing in this series you will now know which one which function is this which function is this all right so if you are using concordance it's only Daniel you will see the word Watcher but that idea is lit or true scripture I give you the closest one you will see in a Divine counsel set in first king 22 it say I will go and I will be so there's that watchful watchfulness look at what we observe look at what we are reporting back is the same idea you have in the Genesis 19 those angels are Watchers that's why they say we go and see so now let's pray properly as attained because their verity is going to be used to assign judgment their verity is always what is used to assign judgment so take your time and really watch and see if this person really deserve that judgment so they would so they like in the natural people that are saying I employ the private investigator you will never know the private investigator is watching you so the supernatural beings like pis they checking

checking checking is it really true gather data gather data they say we have found without Beyond any of that that this person deserve to be killed his time has reached I'm not joking I mean I'm using that yeah so you feel like you can do what you like they say we say this guy has a track record of oppressing people no we should no longer continue so there's now a day because yah is one that he has our times in his hand so there a day now say enough is enough this man is to rise up on his own not nothing is changing let's now intervene but the time that Yahweh gives is because time is the language of Mercy a new day is because he's faithful a new day means you can change so that time passes means you can change not that God is slow as some men count slackness he not slow he's simply giving time to repent because his time is his long suffering it explains his mercy and his faithfulness you know he gives time but if not for time if God was just like it's so a time up time time up time up everybody will be dead so it gives time so that men will repent and that time for men to repent is what people call slackness it's not slow it's not slow Hallelujah so the Watcher is used for Guardian in fact that is the is the etymology of that word that we get the word Angels being called Guardians that's the origin of the word Guardian when you say a supernatural being is called a guard say we have guardian angels that is the origin in Jewish uh ideology of the word Guardians the Matthew 18 where said the angels are always watching over them let me read it for you the Genesis I see Genesis the Matthew 18 do not the Angels always behold his face Matthew take heed verse 10 that ye despise you see that what take heed so there's caution take heed that you despise not one of these little ones for I say unto you that in heaven in the Unseen not in the planet remember Heaven is not planet in the Unseen World there are angels do always behold the face of My Father which is in heaven yeah they are angels they are angels you see the early church r that runs answers the door and sees Peter and runs in and say Peter is outside and the people that were praying say it can't be Peter is Peter's Ang so they that's the origin of the Guardian that Peter has his personal Angel so how did they get to know those things because they have seen a consistency across the scriptures that supernatural beings are walking with men Hallelujah so those supernatural beings that have that Guardian role just like how did the father not know how did the mother not know the mother is supposed to be vigilant watching over the baby come on that's the same way there are supernatural beings that are watchful watching say it go where it not go where ah so Psalm 82 read the wicked they observing their Affairs so they are now that is a council meeting in that Council meeting all of these different guys make up that meeting and the Watchers are also there so the when that Council the highest ranking of all of them meet in just like a normal Organization for example every member in church are the pastorate part of the members in church yes now they are part of the members in church they part of my members if they not call the may I call them members if they don't want to call the members however when we now have a pastorate meeting is broken into two part it's the CC and the middle level as we call it now we can both meet as we often do does not mean that we don't know that we don't all have the same Authority so just like we are all meeting

right now does not remove the fact that there is a structure all right so that's why there are different words used to explain assembly learning something yeah so broadening your understanding so the word Watcher Watchers use the Lord number four is the word host h o s t and the word host Mighty ones why they are called Mighty gims g i b b o r i m Gib is the word mighty so you add I am Goring so the word host yeah way about so the word host is the word sabba but you must put by putting OT they explain that that's another Hebrew of explaining spirit so you put I am plurality OT means is spirit so see that host is noral Army but put sabba it means they are spirits but they are soldiers army and host is also used to explain a mass Gathering but the word host is also a function technology used to explain military army army army army army functional service so the word sa is used for a multitude of people that have a compulsory labor again if we want to explore the whole root of that world word host h o s t for you use so I give you an idea this are um compulsory labor look at the compulsory labor idea Isaiah 40 now see that where the word is gotten from why they now use it for supernatural being Isaiah 40 and verse two speak ye comfortably to Jerusalem cry on to her that her Warfare from verse one Comfort he comforty my people see the Lord speaky Comfort to Jerusalem and cry unto her that her Warfare is accomplished that her Warfare the word Warfare is the same word for is the Hebrew word Sabah used for host that her Warfare is accomplished and her iniquity is pardon for she had received of the Lord's hand double of all her sin job 7 verse1 job 7 verse1 is there not an appointed time is there not an appointed time to man upon Earth and not his days also like the days of anhing sad translation AB say is there not an appointed time the word appoint time is the word Sabah what it simply means is this is there not Warfare to man on Earth is there not Warfare to man on Earth but is not an appointed the ne translation reads this way job 7: one does not Humanity have hard service on Earth you see the word hard service used for compulsory labor did you get it conscripted military service so is not Humanity does not Humanity have hard service on Earth in other words isn't man forced to labor on earth have it his days like a hir a hired servant so you see that there's a lot of hard labor so that is the origin of that word so when you now say host so you see that we have conscripted the people to a service they have a labor to function they have a labor they have a work to do so from there they now use it to explain servants soldiers clear clear clear quiet so the Lord of hosts so that language is there 2 Kings chapter 6 nean is the captain of the host of the king of Syria this the same word host h o s 2 Kings chapter 6 from verse 15 and when the servant of the man of God was risen early and had gone forth behold and host encamped the city both with horses and Chariot and his servant said unto him I my master how shall we do and he answered fear not for they that be with us are more than they that be with them verse 17 and elishah prayed and he said Lord I pray the open his eyes that he may see and the Lord open his eyes of of the young man and he saw and behold the mountain was full of horses and Chariots of Fire these are not Watchers now not you can't miss the difference of function AB this these are not there to play so we see what happens and when they came down to him elishah

prayed onto the Lord and said Smite this people I pray you with blindness so the supernatural beings carried out that function cuz smile the people with blindness according to the word of elishah so he was working with partnership the same way El Elijah say if I be a man of go let Fire come down don't roast people barbecue night then the 50 the captain and his 50 th man of God come down from that mountain Elijah as he shaking and shaking say if I'm really a man of God die there say he die so he first one you know you know because Elijah ran say that man of God come down from that mountain as is looking and so all of they drag their sword or will take you by force so Elijah if I'm really a man of God die then bab ready how we know because the third time the say fear not so you sure he was afraid it was out of fear he was shouting die so when you always shout die die now they fear the one key because Hur you but when you know all right so it's it's it's what you learn that's why Jesus say you are not of the same spirit so it's always AB not the fear so the third captain and his 50 cups and say my Lord that you see that one yeah has attended service thata taught know was so so I wonder which in King in that h King story at this so said he reserve priest of God when Jezebel was killing so that about that so this one said he has been to church once or twice so he understands something said my Lord Now message they send us the king said we should bring you down sir it's not me I don't have the power to bring you down as I have seen because there body full ground as I can see here sir if you will be willing please my life is at stake here I have to I cannot go back to the king without you coming and I cannot force you sir please if you'll be willing and the supernatural being as Elijah wanted to talk say Dr fear not go down with him it's not your own Bible that's the story now you know we we be read like read it like real life not it's not a fictional story say so it goes down one Angel went down in time he they watch AB they slay them then they wake up 185,000 men are dead so that one is not watchful he not come to watch are you see it so that's power gi gi Rings Mighty ones that's did you get it so supernatural beings are called hosts gorings so and that narrative is used a lot in the Bible host host host host host host host then we have cherub beams number six five cherub Beams I will put cherubim and seraphim together for a reason because they both describe the same function cherubims and seraphim have the same function what is the function they are Guardians of the presence of God they not protecting God they are Guardians of the presence of God the origin of both terms explain Throne Guardians that God Sacred Space so cherubim is Mesopotamia sarim is Egypt so the Egyptian Throne Guardian was explained with a saraf a snake it's breath a snake that breath out fire like the king had his own personal Dragon so they used to explain because if you were going to explain the last defense of a king you have to explain them with with h you will not use weak words you have to use strong strong language so you want to explain you want to because they are writing when you want to explain is human beings so but they are is human beings that that were called uh used they use that word saraf to explain human beings but if you are writing follow remember if you are writing and you want somebody to respect and fear that your king is not a king that they can just treat anyhow you have to use strong words that around

our King are fire brain monsters hey so I can just go there like that yes you can just go there like that they will roast you say he so that's how they write so that is within the uh historical and cultural context of their world view so when they use that word cherub so cherub cherubim kiru the aradian root used to explain all of it is used to explain trone Guardians there's no other terminology used for it other than the last defense just like being you see somebody hold stuff stuff you see there's two is there's always that is you have never seen it they hold something by the side is in all there's always somebody by the side of the king there's always even to uh only of e you see in all of the ALF you see in all there's always somebody by the side the there only somebody all those by the side that concept had different wordings in ancient world view are you following and that's where that word remember it's a word every time we say the word can be from a culture people are surprised words do not fall from Heaven oh you have to use words that people can understand did you get it so cherubims seraphim they are creature like these are the creature like beings we call them hybrid figures they have animal and human um Dimension to them they are used in asent near East in a context to represent Powers they are used to explain powers of powers they can prevent evil the strongest Elite Squad fierce say so uh the AR cadians so you see cherubins were assigned four faces both human and they have that Bine body part Ezekiel chapter one the same thing so you see the four faces sarap fims now um in this is the a historian a historian says this about um Mesopotamia that within as a boundary between the sacred and the profane The High Kings of those days will place cherubims along the boundaries to between the sacred and the profane to protect the holy from contamination so this is not even this is not a Christian historian so it's within a historical context when they use the word cherub sarap is a word that has language in their of course you can call it human being a watcher but like I said when Daniel is using there not talking about a human being so let's retain it retain the word that they are using when the Bible is mentioning CH and Sim not talking about human beings it's not used at any time to explain a human being in the Bible are you following so we have to get the exact concept that they are explaining and these are the only beings that you can ever see that have wings so where you see all angels have wings just These Guys these cherro sarapin are the only supernatural beings explained with the whole concept of wings and supernatural being don't need Wings to move from Heaven to Earth no it's not a joke it's not longitude and latitude that they are using wings for so supernatural being explained with wings they're not flying it's not a planet from one plan to another they need wings for that's stupid Theology and not flying from one planet to another planet with wings no the use of because of that creature like structure they have a because if you are going to explain the last defense to the king now remember that's not the same way it is with God God does not need them to protect him but what they are protecting is Sacred Space the presence of God you have to explain the beings as the fiercest so you have to use monstrous idea to paint it that's how the asent so the asent will have the King has a dragon protecting him H so that's what you now say a saraf a snake that breed fire so that is what

Egypt Pharaoh had protecting him that's how they were explain it that's where that word so the saraphin word has Egyptian root the other word has Mesopotamian root they didn't get cherub has Mesopotamian root so both words Telegraph the same thing so they are you it looks like oh they are different no they explain the same thing they are always in the presence of the Lord guarding that sacredness saying holy holy whether it's Isaiah whether it's uh Ezekiel Exodus is the same they are always the closest to the Lord you're looking at me like I'm making up is not your own Bible all right let's read some references of Cherubs um quite a lot of them it's not used just once the word is used 91 times from Genesis to Malachi and is because they were also um used it now t for of T calls it the Guardians Of Eden as T's cometh defines them as the Guardians Of Eden you see that Guardian where are they all getting that idea of Guardians because that is because they are looking at the origin of the word because cherubin saraphin are the Guardians the fiercest the most Elite Squad so they like the wind just the guy is dead but he was trying to reach the king it's used I use a Chinese telegraphing if you can if you get to six Paces of the king I will cease to be the defender of the king so if you can get to six Paces for if you can get so close to the king that you are six Paces I relinquish my RO I'm no longer the defender so is that kind of el quad come on come on come on at least you must have seen it in Chinese movies if you have not at least if you are not reading history books so that idea of you know six Paces now so he say I can before you touch the king you are on the ground so is that El quad that they use those guys to explain but you now use again to explain protecting Sac space so that there's no pollution so we don't want this place is too important so normally you will train such El Squad and now P them around those zigurat areas because this is not a place for anybody to if not anybody will just be entering there because it's not a place to just desecrate it's a place for the gods to descend so nobody can just enter there so you put this where you yeah in anient time where one man could keep 500 one man could keep 400 are you getting those kind of fierceness that he say he's not a normal man oh the man can break iron the man can break arrow with his hand are you getting it he will not fear an army surround him he will not fear that's the reason why Saul quickly took David and put him as bodyguard a man can Goliath is best protecting me sir oh that's where David immediately becomes Saul's bodyguard because of his fierceness I tell him he he peeled four skin and brought as briad fries are I sent him on the suicide mission he came back on hot Baba you are the protector I you getting it all right so he became s's bodyguard so it's that idea that is being communicated now the original guy in Eden the serpent the Nash was a KOB is a here 28 tells us that Isaiah 14 saw that he was a kup it's not your own so when they were also making a tabernacle you saw that they also use the Cherub language so Ezekiel 1 Ezekiel 9 just for references always in the house of God the parents of God so in ezekeiel's letter if you want to know more about just read Ezekiel 1 to the end quite boring cuz he using language that can be very scary but the 48 chapters will show you what cherubs actually represent you see it not just in the presence but they in the temple Gathering that sacredness cherub cherub beams you know

when you put I am plurality AB be all right there are many so cherub cherubim guard that glory of God Ezekiel 10:1 then I looked and behold in the firmament that was above the head of the cherubim they appeared over them as it were a sapphire stone and an appearance as the likeness of a throne and he spake unto the man clothed with linen and said go in Between the Wheels even under cherub and fill thy hand with coals of fire from between the Cher beams and Scattered them over the city and they went in in my sight now the cheram stood on the right side of the house when the man went in and the cloud filled the inner court and the glory of the Lord went up from the Cherub and stood over the threshold of the house and the house was filled with a cloud and the court was full of the brightness of the Lord's glory and the sound of the cherubim's Wings Was Heard even to the outer Court as the voice of the almighty God when he speaketh and it came to pass that when he had commanded the man cled will in there saying take fire from between the Wheel from between the Cherub beams that he went in and Stood Beside the wheel and one cherub stretched forth his hand from between the Cherub beams onto the fire that was between the Cher beams and stood and took thereof and put it into the hands of him that was clo with linen who took it and went out and there appeared in the Cher beams the form of a man's hand under the wings and I looked before the Four Wheels by the cherubins one wheel by one cherub another Wheel by another cherub and the appearance of the wheels was as the color of a burial Stone as for their appearances therefore had one likeness as if a wheel had been in the midst of the wheel verse 14 and everyone had four faces the first face was the face of a cherub the second face couldn't describe it so he said the face of a cherub so it just looks terrible that's why they use the word terrible fear yes and the second face was the face of a man the third face was the face of a lion the fourth face was the face of an ego so how can four faces merge together not four heads English not four heads not fourheads four faces I repeat faces so one you are see ego one see so creatur like being so they are hybrid figures so and the only being explain that are cherim and Sim so that's why we of explain them to be the same it's just language transliteration issue not translation the between translation and transliteration I told you on Wednesday translation is meaning of what transation is saying it in another language using another word to say the same thing the transliteration that you write is the one that you now get transcribing so there are two types of transliteration the one that you say in another Lang in another with another word and the one that you transcribe and you say okay this is how it is so cherub cherubim language Ezekiel 28 thou are the anointed cherub that cover it verse 14 I have said this so thou has walked upon the holy mountain of God thou has walked up and down in the midst of the stones of fire so the Ash in the garden was called a kup so that's why we see Powers all right um so the descriptions I mean we call it iconography i o n iconography the people who draw supernatural beings those they are special breed just like those men that designed t had they needed a spirit to be upon them to design so there were there special people in AE who could draw supernatural beings or who could build Supernatural things that's how God had to fill benzali all with Spirit to be able to draw

something so you show how much inspiration can come from The Unseen to be able to do some things all right so those descriptions the people who draw those things who have the inspiration to draw those kind of things but they have seen it and they are able to retain it as you know there are some artists police officers special units have those kind of people working for them that when they see someone once you describe they can draw the face they say describe the guy as you are describing say is this how it looks like say hey that's exactly some that they are not seeing upon just your description so there's a special skill for that so that's the same way they are able to mold statues of idols so there are people that pass on generationally they are able to continue molding those kind of things all right see everybody's attentive Supernatural talk can be very sweet say we go know we are so Cher Sim so again we'll continue from here because of time there are many function terminologies we just have two more to go function terminology so cherubim I will continue from this cherubim seraphim language Hallelujah so we have supernatural beings working with us now imagine you have this idea of supernatural beings that we said now you have to have a problem where we say the people around you and you are in the midst of looking at language use function NJ Watchers ministers that's the host uh host cherubim s ah Baba this they look tough so the phrasing who come back with the Lord so you see the nobility that's the again the Divine response nobility that's why the demons believe there is a God and tremble and tremble Hallelujah so final words as I conclude I told you on Wednesday the real guys you should be concerned with are the princes over the nations are the territorial Spirits because they do far more terrible things than those lesser unclean Spirit bastard Spirits evil spirits as it said in the original unclean bastard Spirits they have no father outside of source so unclean Spirit evil spirit dirty Spirit mixture what all those you know Genesis chapter 4 we have a man that is cursed he went out and became very rich the reason why have not made it in this life Pastor is because one man in my Village sat down and laid C on me remember what paragraph We are in this unseen where what are unseen forces that's what we're looking at on Wednesday that led us to the nature of Supernatural what are and we said one of the supernatural unseen forces one unseen f is members of God's Heavenly Host ab and is both light and darkness we are still looking at the light we can't rush it oh because say I have beings with me so uh unseen forces is not just supernatural being it's also orchestrated circumstances and events are also unseen forces so they use Orest so we get there but right now weing about just the principality and pass [Music] structuring amen Revelation says God is going to give us the morning star and I've explained that to you one time what it means and that's where I want to end where he say he will give us the Morning Star Morning Star language used to explain Jesus used to explain supernatural beings when he say he will give you the morning stars and he say will grant you to sit with him he that overcome is used to explain that the Nations that were once occupied by supernatural beings because the church Paul says we will judge the church at this where we kick off on Wednesday we judge them we take their place will take their place in the rule over the nations in the when all the Earth is eaten so the church has

a role if you are Satan what will you fear would you fear um I'll explain it this way would you fear because what is spiritual warfare spiritual warfare is not shouting at devils because you shout at a devil he leave brother A and go and follow brother B he shout for the de de the demons they leave that's the proper word demons it's used for them you shout for those demons they leave brother see and they go trouble anti spiritual warfare is not shouting for devil spiritual warfare is we explained it is Waring against the spirit that control places and that's done by the preaching of the Gospel not by shouting Princess Di fall and die Paul simply let loose the gospel and the whole inhabitants were saying if we don't take care nobody will worship this de anymore so we we are God sent us on a mission every believer has that mission all authority is given unto me go ye therefore so they have been disinherited they have been dispossessed you go and announce to them you have no hold here no being belong to you and no Nation belong to you give up your hold give up your hold give up your hold and that's what we do when we preach the gospel we are saying The Souls of all men belong to the Lord the Earth is the Lord and the fullness thereof he doesn't need to to die for it but he died to possess them he is the creator but now he is also the legal owner because he had paid for all the souls of all men if you are Satan what will you fear will you fear living one person or another person or you will fear your own demise you fear your own demise you fear the news that announces that so you fear your own end so what Satan is really after and is fighting is the propagation of the Gospel so is it true that demons don't harass some persons here and there is it true that some families brought satanic things into their family yes but as we go further you will see that there needs to be attitudinal Corporation for those lesser beings to be able to touch you and those lesser beings are what we will call demons in the scope of this our study flesh [Music] poopet harass they just harass people and those Spirits are the easiest to deal with easiest to deal with cast out Devils cast out Devils which will explain all the whole world that have authority with our words to deal with all Devils but learning from Jesus learning from the apostles we see that those are the easiest there's there's no nobody turned turned his ministry to a Ministry assigned for oh Lord every Power for my oh Lord nobody had such joblessness there's no such place given to them but the only beings giving a bit of ranking in the episodes are the beings with jam on the Nations Paul says I fought with beast at Ephesus those beasts is supernatural beings is referring to and that's where he taught the Warfare concept say fought beast and yet in acts when he was preaching Ephesus we just saw him preaching and Ephesus they were BN they were bringing their Juju book but the man tells you that he was fighting B how in the preaching of the Gospel he knew what he was contending with you have no hold here you have no hold yet amen we are legally in charge and what most Believers fear and not the shims of the Nations that's not by fear of we shouldn't fear any what most Believers have this dread this ah there's something there are lesser things even some people fear one woman in one Bush One Wish One wizard different types of spirit and all those and the lowest form of all of that art is now magic they give you one charm charm sorcery Believers fear those things why that's why we need to

know the authority we have in Christ Jesus but again before somebody tells you the reason why you are not making progress in life it could be true that the reason why you're not making progress in life is an unseen Force but you see there's no unseen force that I ever for anybody for making progress in life without the cooperation of the individual there's things that you are doing that allows those things to work allows those things to work amen Isaiah I will end with this text far from oppression shall be far from oppression [Music] [Music] Hallelujah Isaiah 54 verse 13 and all thy children shall be taught of the Lord and great shall be the Peace of thy children in righteousness shall thou be established Hallelujah in righteousness shall thou be established L thou shall be far from oppression are you seeing it thou shall be far from oppression thou shall be far from oppression for thou shall not fear and from Terror and it shall not come n de New Testament explanation of that is where you get demons behold they shall surely gather together but not by me whosoever Shall Gather together against thee shall fall for thy sake so this is a verit of the king they gather to fall but I need to know it that's my my only part in this is that I need to know and he uses the word established in righteousness do you know who you are New Creation fact will say the man does not know who he is like a cringing cowardly being a no man A caricature because he does doesn't know his rights and privileges he doesn't know who he is what he has what he can do he calls himself a woman meanwhile God calls him righteousness God calls him Sanctified Justified purified but he calls himself something else in righteousness shall thou be established thou shall be far from oppression for thou shall not fear and from Terror it shall not come mighty behold they shall surely gather together but not by me whosoever Shall Gather together against thee shall fall for thy sake verse 16 behold I have created the Smith that bloweth the coal in the fire and that bringeth forth an instrument for his work I have created the waster to destroy no weapon that is formed against the shall prosper are you seeing it this is the verit of the king no weapon that is formed against thee shall prosper and every tongue so it tells you how they are formed and every tongue and every tongue that rises against thee in judgment thou shall condemn that's why you must have a Warfare position in life every tongue that rises against thee in judgment thou shall condemn so I have a role to [Music] condemn so you say you violate you you pass ground you cross line you can't pass here this is the heritage of the Servants of the Lord and they are righteous is of me say the Lord hallelujah no weapon that is formed against you shall prosper the use of the word weapon here would explain that unseen forces that we're talking about so there could be orchestrated circumstances and events for example how job lost his whole uh children those orchestrated events still in the explanation of unseen forces could be done by a man it could be done by a supernatural being just acting wickedly again because of a coroporation of other wicked men without your knowing but should we be afraid no said this signs shall FL that believe in my name they shall cast out Devils so we know no matter how dark the night is light and darkness he does not fight is once we don't see light pushing the darkness sh they go small small no no no we are light we are children of light we are far

above just like God is far above all the gods we're far above all principalities and parts might and dominion and over every name that is named we are far above we're far above we're far above we're far above instead of worrying about what the Devils can do to you why don't worry what you can do to the devil how you are rescuing people from sin from Death how you are rescuing people worry about that when was the last time I won a soul for Jesus because the more you know your Authority it does something to you in the heavenlies it creates an ark over you an ark of light a sphere of light you are a walking beam of light a touch not a danger a terror no weapon formed shall prosper except the one you formed against Yourself by your own orchestrations because you have the right to say this is how your life will go your cooperation can bring in things what about patterns in families like I said we're going to explain this theologically but we are taking it step by step but as we go on in this series you see that I don't know how people be started fearing those harassments because we know Jesus said ought not this woman who Satan has bound this 18 years be loose so we know that evil spirits have harmed and hurt and harassed people but those are the easiest things to deal with the biggest issues we have to deal with are not those guys the biggest issues are getting people saved that's our biggest issue that's our biggest contending that's not that not even make it to what we are contending against but those ones are nothing Hallelujah they are not recognized not give status neither should we give them place they make the loudest noise but they are weaker as is the way they make the loudest noise but they are weaker Hallelujah but we have a walk I'm repeating it again and again they make the loudest noise but they are the weakest fear no devil and fear no devil at all weak one strong one fear none of them we have a role to deal with Devils say oh I'll show you from the scripture people who were called Cur who became great the cost could not even stop them from being great from the first cost man came I said the reason why I think the reason why you always looking for a reason why you're not making it and that is now your Supernatural reason why you are not making it because you have established that this is the reason why you're are not making it something out there so now something out there has finally become responsible because by your belief system you have attracted unseen forces your way hallelujah amen how do unseen forces how do unseen beings get involved in our activities when you have a common thinking common thinking we get there the things we say our belief system our belief system unseen beings are involv when we carry out function when any human being seek to live as a priest king or Prophet whether good or bad with our interactions with the unsaved our actions and attitudes how when our attitudes and our actions weigh on our so I mean we go on and on about how unseen beings get involved in our everyday Affairs but they do get involved one of the things I want to end with with this is what is your belief system what do you believe what do you know because so far we are seeing that we have a lot of Defense we are looking at the good guys that work with us and we are seeing oh boy they are not weak saying how come we give and again I want to say this underline it capitalize [Music] it there's no theology in the Bible that has the serpent as the strongest

Angel before he fa there's no place in the that's why he say I will exalt above the Stars so he was looking for if he had the highest position he would be looking for a higher position he will be content with his position there's no theology like that to imagine Satan is Lord of hell why to imagine that other guys are in prison you can tell that he's not the strongest it's just the smartest it's not the strongest but we look at that so that you don't take my word for it so we have quite a lot of things to look at but like I said I want you to leave here with this ending what do you believe what do you know is the major reason why you are seeing the things that you are seeing in your life what do you believe what do you know do you know who you are do you know what you have do you know your Authority have you seen the kind of man God has made you to be have you seen your place that you are far above all principality and power that there's nothing that can hurt you nothing that can touch you behold I give unto you power to trample upon serpents and scorpions and over all the powers of the enemy and nothing shall by enem means hurt you that's be that's me nothing shall by any means hurt me nothing shall by any means hurt me so I know that that's how I function I don't function with the fear of devils no I only fear God I'm conscious that the Lord is with me he will never leave me nor forsake me so I go about my everyday Affairs knowing nothing can stop me nothing is hindering My Success if a man cost could make it I will make it Nothing is Stopping You is it possible that things can stop people yeah but it's not you except you are the one and if anything will ever stop you you must have been the one to stop yourself by your cooperation what you said what you believed and what you enforced hallelujah amen you are Supernatural you are Supernatural you are Supernatural you are Supernatural you have authority auth to say to one go and it goes so you can say go and that's the end I mean if you they will run that's the demons that people are fearing but when we see but the person is not saved we have to explain that's the one that's where you know who is stronger it take time you are explaining the so is refusing to get safe Satan's Lucky out you will go nowhere expl his friend will just come after you thought you have so go drink leave you if you have ever won Souls you it that's why before we go L intercession we detonate bombs we arrange before we go but we don't need to arrange before we cast we just see out in name of J don't R I know my place I know my authority auth I have authority in the Unseen word to cast out Devils devil to preach the gospel preach the gopel yeah preach the gospel is authority too that's the greatest Authority you have you have keys to open doors and to close doors you are not ordinary child of God life and death is in the power of the tongue you bring men to life you bring men to death by your involvement what you do with the gospel whose s are remitted whose s are retained so you can remit people SS when you preach the gospel you retain people when you refuse to preach I'm not going to be among the people that is retaining people SS I'm not I'm not I'm not I'm not we are not ignorant of Satan devices so we're not going to just F and say there's nothing like people being hied by the devil there is and I'll tell you how and why it happens and it's so easy to deal with that I mean something that affected your family for 400 years is the easiest to deal with is the easiest to deal with it's the EAS whether it's 500

whether it's PN that these are the easiest issues the hardest issues on the earth is to roll a man from Darkness to light and some of you have become expert in it and yes you think you can't cast out Devils They Know You by name and they fear You by name Paul we know who are you Jesus we know Paul we know about who are you Hallelujah if you have ever gotten somebody out of Darkness to light Satan knows you you are a TR to his kingdom threat to his kingdom so if he has any sense he will not attack you because he knows that he's looking for trouble that's why there's no Y Yak on your head it's other people that are in ignorance but you not in ignorance you're not in ignorance it won't work speak it word it will come to not because God is with us the only one that work is when you now say today is just a useless day aha right go deeper 12 noon say this is going to be a very bad day ha they dancing the a yak Dance 4 p.m. this week has just been the worst week of my life wow he's doing it he's almost there he's almost there about to finally kill himself then next week this is becoming a pattern finally he has concluded now let's roll out the event for him now because the orchestration has happened you said but I did not mean Baba you meant it you had mood swing by 9:00 a.m. this day is over 900 a.m. you already your face have spare you have concluded this is a horrible day and you say you not me you meant it oh you meant it now you eat your words because your words are Supernatural That's why we are careful how we talk we're careful what we believe and we're careful what we do all these are entrances are careful what we say are careful how we think what we believe and what we do and if you think say believe and do wicked things you would attract Wicked Spirits because they look for your action and they look for some people life and I say this as a prophet of God I see it as I'm looking at you some of you are in self-destruction mode and that's why I'm repeating this save yourself because God has already saved you you are the one trying to destroy yourself and as a brother I was telling somebody during the week with my wife and I said and words have gone out about this brother is always Adam man to destroy himself a partnership with de with Devils without knowing finally the wrong negative word will finally come to pass because this one now cannot be reversed first chance second chance now it is after the fall and because like Jesus said we have prayed for you so he will be reconciled but now with scars and bruises which is unnecessary it's unnecessary because some people are good enough in destroying themselves they they can do a good job in destroying thems and I'm repeating to you no devil has has affected you as much as you have affected yourself know that now except you are not born again but they could not stop you from being saved is it flesh PO is not attacking you that you afraid n even if just small exercise I mean just 10 monosyllabic 10 minutes of mono and polyic tongues is enough for them to already be scared but not where that's why belever don't pray just 10 minutes said this is not a comfortable Zone but the things you say the things you think so mind what you say hallelujah there's a brother that shared with me a story now two times he has he hardly loses things but now he lost his wallet one time the other time lost his pH he kept saying I never I don't used to lose anything I don't normally lose by so he kept saying it left his fold in the front seat of a c the

C man refused to put anybody in front until it say something something I don't know how to explain the story the people that know the story explain it better but the Long Point for what the person said that thank you sir this you teach is working is hearing brother is hearing me right now because I said no one CU I always used to believe it and think it that I can never lose anything of mine lost his wallet in where he stayed in a different state the way be to be for him lost I never you see say is he bad like that you will eat your own words cuz your own is not by like that everywhere I go I see trouble now you believe now you go see because you really believe it I'm not loved nobody will look at me two times without turning their eye away no people look at me and they keep looking at me I'm loved you know where I am I am in the name name of the Lord the desire of all Nations people are always looking at me how can you not look at me I carry the desire of all Nations people behold me as ointment poured forth now they Rush us hallelujah so when I wake up in the morning I don't do nonsense orchestration what kind of day is this I don't start by day on Twitter wake up in the morning I don't start by day on YouTube on Instagram no start by I deal with this is a blessed day this is a great day things are working for me I have a wonderful day I program my day Hallelujah lift your hands and pray in the Holy Ghost
