

Evening Lord again we open our hearts to your spirit and we trust that in this service the eyes of our understanding will be enlightened. Thank you for the preciousness of your word and we declare that again revelation knowledge will flood our hearts this evening. We declare that the things that ought to be said in this service will be said. The things that ought to be done will be done to the praise and glory of your name. Amen. God bless you. have your seats. And um Genesis chapter 1 and vers 1, the Bible says, "In the beginning, God created the heaven and the earth." In the beginning, God created the heaven and the earth. And we said that the story of the Bible, it's a heaven and earth story. It's a seen and unseen world narrative. Hebrewsap 11:3 it says through faith we understand that the worlds were framed the periods of time were framed were framed by the word of God the word of God the periods of time were framed by the word of God so that the things which are seen were made of the things which do not appear and said the faith of the Lord Jesus the faith of our God was explained and communicated in the scriptures using the sin and the unseen world. Amen. And our teaching on unseen forces, we deal with all that is unseen about the powers that we have. And that will deal with the power of the Holy Ghost that is resident within us. that will deal with the ministry of angels that God has given to us. Amen. and our exercise or practice of the faith within those two operations, our exercise of faith or our practice of the Christian living within us having the Holy Ghost and within the study of the ministry of angels. It's the focus when we talk about unseen forces. Amen. That we have the ministry of angels, that we have the Lord Jesus or the Holy Ghost inside of us with us, and we have the power of God that we can engage and use and see a difference in our lives, our ministries, our circumstances. Amen. Hallelujah. And in the converse of that we have uh uh the dark powers which will deal with principalities, powers, might, dominion, every name that is named that is not in line with God. Amen. That will deal with the powers of darkness. And also all those who practice or engage in the worship of the devil who are opposed to us which the in the biblical uh palance would be sorceress, wise men, wizard, witches and today we have many names for such persons. Amen. And that is also what this series seeks to unravel. But we are particular about being wise and strong with his power. I am wise with the power of God. I am strong with the power of God. Amen. I'm wise with the power of God. I'm strong with the power of God. Amen. Amen. Amen. Colossians chapter 1 and um so the force is the power. We have unseen powers, unseen forces, good ones and negative one. Good ones that are with us and for us. Negative ones that are opposed to us. And we must resist those negative forces. In fact, many times when people hear unseen forces, the way they think it, it's in the negative which is very wrong because they are not very conscious of the ministry of angels or the power of God's spirit. Amen. Colossians chapter 1 and verse 16, it says, "For by him were all things." Colossians 1 and verse 16. For by him were all things created that are in heaven, that are in the earth, visible and invisible, whether they be thrones or dominion or principalities or powers. All things were created by him and for him. Observe verse 16. For by him were all things created that are in heaven. So there were things created in heaven

and things created on the earth. to the Genesis chapter one creation story that gives you that idea that there was no unseen creation. It's the wrong way of reading. It's a wrong way of reading. And I've told you over the years that Moses use of words communicated the seen and the unseen word in that creation. Amen. Because uh one creation is used to explain another creation. Just like in the natural we can describe somebody or human being with with plant characteristics. For example, you say that man is the great evil of our village. That man is is it's is it's the evil core of our family. The mahogany and you know how uh plants are used in if I look at how he says we will bear fruit in season. I bear fruit in season. You are not a fruit. You are not a tree. Amen. We bear fruit in season. But you are a human being. How are you bearing fruit in season? Amen. And the same way animals say he is strong like a lion. Obi is a lion. He's not a lion. He's a is a man. But he is a lion. So we're using another creation which will say the animal kingdom to describe man. The same way we can use words as we can even use the aquatic kingdom or we can use water to describe somebody. So we can use different creation to explain creation. But when it comes to the Bible, we want to all of a sudden be silly and not have that kind of depiction where one creation can explain another. We want it to be no just exactly the way I read it. But not true. Amen. Because if that is the case, Genesis 2 verse one, Genesis chapter 2 and verse one will not read. Thus the heavens and the earth were finished and all the host of them and all the host of them. Even if you didn't want to go to school, host of them, it didn't say. So the host of them cannot be only one host of them. So there are two hosts in Genesis 2:1. the host of heaven and the host of the earth were finished. So if you only have earth in Genesis chapter one, you didn't read Genesis chapter one because Genesis chapter one has heaven and earth that God created. Then he says the earth without form and void which we have seen in Jeremiah chapter 4 that that word the earth without form and void means the heavens have no light. So again then we have 15:16 where it talks about the sun, moon and star which is are for signs and for seasons which depicts the unseen world. A sign that every time you see the sun, moon and star you know that there is something else in the world. There is something else in the world which is supernatural and that becomes a word used as a synonym for supernatural beings for angels host of heaven heavenly host heavenly beings. Hallelujah. And so we've seen Ephesians chapter 1 17 it says God father will give unto us the spirit of wisdom and revelation knowledge of him. Wisdom and revelation of the spirit not another spirit. We already have the spirit of God. The wisdom and revelation of the spirit. The wisdom and revelation of the spirit. Then he says in verse that the eyes of our understanding verse 18 the pine prayer that we always talk about the we prayed every service day the eyes of our understanding be enlightened that we may know what is the hope of his calling what is the riches of the glory of the inheritance in the saint and what be the exceeding greatness of his power the exceeding greatness of his power verse 19 and emphasis exceeding greatness of his power that's what we have that is unseen forces amen but we don't only have uh execute of his power, we also have the ministry of angels. Hebrews chapter 1 verse 14. Hebrews

chapter 1:14 say, "Are they not all ministering spirits sent to minister for them who shall be heads of salvation?" We have the ministry of angels. Amen. Hallelujah. God gave us the ministry of angels. The angel of the Lord encamp round about them that fear him. Hallelujah. Amen. Amen. So we said that when describing supernatural beings, we would need to and we taught this last year that there are three things to take note that there are words in the Bible that describes the nature of supernatural being and the nature is what they are like. Then there are words or phrases in the Bible that describes their function. So when we're talking about the heavenly being as we've looked at the different words used to explain the word heaven and we saw that heaven could be a short form of supernatural beings as well. Heavenly being heaven. So when Paul when Moses say I call heaven and earth to bear record he was not speaking about sky and sand but supernatural beings and human beings to bear witness. Hallelujah. Because they are all witness. And when he when David in the Psalms talks about the assembly in the heavens, the heavens praise him is not the physical heavens in Psalm 89 as we've read those texts already in this series this year. Amen. That is supernatural beings. So when Luke tells us that the host of heaven were singing and rejoicing when Jesus was born, that is not some moon and star. that is supernatural beings that we already have words and phrases for. So there are words that describe their nature. There are words or phrase that describe their function. And the word function what they do. Are you with me? Then there are words that describe their status, what we will call hierarchy, their rank in respect to other members of the heavenly host. And we are so familiar with the word a n g e l which we said if all you know in the bible is a n g e l for angels you have a very uh uh tiny you minute tiny a fragment of the full knowledge of supernatural beings in the Bible because there is more use of supernatural beings in the Bible than the search engine a n g e l. In fact, the word go is used more for supernatural being than is used for than is used more for supernatural being than than a NGL is used for supernatural beings in the sense of if you have this number of references for NGL for supernatural. You have times two of it as go for supernatural beings. The average man outside proper biblical interpretation or sound doctrine do not even know that the use of the word Elohim is not only used for Yahweh is not only used for the God who created heaven and earth. That the use of the word Elohim is used in the Bible for half a dozen other entities. That itself is the beginning of Bible study. That when I read the word Elohim, I need to know which which Elohim are we talking about? Because Elohim in the Hebrew is not a blanket word for God. Elohim is used for a resident of the unseen world. A resident of the unseen world. And because God is the father of spirit and he is spirit, source of spirit. And he is spirit. He is also called an Elohim. And he is not in any way ashamed to call himself what he calls supernatural beings. The same way he's not ashamed to call himself or be reckoned as a man as we are men. Amen. God identifies with his seen and unseen creation. Amen. Hallelujah. I mean before the incarnation of Jesus, God was called the man of war and he is not ashamed to use the phrase man to describe himself. God identifies with the seen and unseen creation. Amen. So the use of

the word Elohim is not a blanket term. And so for those who were part of that series where we extensively taught last year, we made a case and I will just run through some of the things we said. The use of the word spirit. Supernatural beings are called what? Spirit. Hebrews chapter one. in no particular order just uh uh phrases words slash phrases that describes the nature of unseen beings. Number one in no particular order is the word ruak. The word ru Hebrews chapter one the word spirit Hebrews chapter one and verse 6 or verse 7 precisely so that we don't we don't need a context for this because we're just running through. Amen. We're not doing an exegesis on a particular text so we can read without the paragraphs to save time. Amen. All right. Hebrews 1. And I want to say a lot of things as we begin to wind down in this series. Amen. Hebrews 1 and verse 7. And of the angels, he said, who maketh his angels spirit and his ministers a flame of fire. He maketh his angels spirit. That's how they were made. They were made spirit. Remember the nature of a describes what a thing is like. The unturn ontology who they are and what they are like. So what they are what they are like they are like spirits new matter. So the the Greek word for spirit new he maketh his angels new matter. They are spirit being. They are ruak ru. R u a h o t just means you understand the Hebrew language. Fear not is the same thing as ruak. Just putting the OT means you have a better understanding of the Hebrew language. It's the same thing with the use of the word new matter. It just means you're not your knowledge of the Greek language is not just from concordance but it's okay. All right. So using the word new manak is okay. It doesn't exclude you to sound more theological because you know. Amen. All right. So never be scared of being intelligent because nothing wrong to be intelligent. Psalm 104:4 is where that text is gotten from. Psalm 104:4, who maketh his angels spirits, his ministers a flaming fire. That's how they were made. They were made spirits. They were made spirits. First Kings 22. First Kings 22. Remember we said we're going to be fast. So I beg you follow me. First Kings 22. That's the last chapter of first kings by the way. First Kings 22 and verse 19. Micaiah the son of Imla is having that vision. And he said and he said thou therefore the word of the Lord. The word of the Lord there remember I've told you is the word used in the Hebrew text to explain a visible encounter. What you will call a revelation. So the word word of the lord there it's a visible encounter like a vision or a revelation when you say the word of the lord is with that man are you following doesn't mean everybody does not have the word of the lord in that sense but they use it to explain the visible repres visible encounters tangible encounters where you interact you have such tangible experience in that soayiah is saying is like I was in that meeting and I was hearing divine conversations. I was in that council. I was hearing what was being said and obviously he's a prophet. A prophet is one who stands in the divine council and hears conversations. Amen. Hallelujah. And the newb made us not just to stand in that council but to be a member of that council now. Amen. Hallelujah. God has his two assemblies fully function at the assembly in heaven and the assembly on earth meeting convening every time and that's something we will need to do a separate series on to talk about what led to it just something around that I like to uh title things in a way that

draws attention so you need to know what led to it all right the meeting. The meeting before it happened. There's always a meeting. What meeting was he had before this happened? Amen. And when we get familiar with supernatural things to that degree where we realize that, oh, things don't just happen. We can confirm things and also things that have happened, we can legislate and say, no, we don't want this. Amen. I shared with you how the Lord woke me up. uh after the election a day or two no I think the day after the election the presidential election he said you can't be sleeping and uh you can't be sleeping and there is a great evil about to break loose upon the land now the Lord as I woke up that was the very first thing I turned my lovely wife was by my side so I knew it was not hard I was talking to me cuz it sounded weird. She was fast asleep. So I got up, left the room and as I sat in my study place the Lord said to me, you can't be sleeping and I'm waking up other persons like you who have voice and who have rank whose words can change and defy what has been spoken. I didn't know I didn't know I have any level that day. I knew I had level. And he said to me that open your eyes. So I opened my eyes in the spirit and I saw a great evil. And he said do not think you will be exempt from it or your family. For people you love will also die if this great evil is unleashed. For much speaking, much anger has erupted hell in such a manner that the devils are looking for blood. blood blood in the sense that lives will be lost because people are saying we will not take it this cannot happen and it's going to turn into a greater than answers by 10 and so I've already gotten orders praying so join praying till the morning so that means our prayers have effect join the praying so and I love the phrase men whose whose Words matter. Who can defy what has been spoken? Because words spoken set a course, a trajectory of how things will be in the realm of the spirit, how things will play out in the natural. And I remember uh 3 days after that people going to say how come everybody's just taking this thing calmly? By now everywhere should be on fire. That's how you know pre power prayer is prevailing. Everywhere should be on fire by now. Everywhere should be burning now. The restraining force has been placed against those things. People just re react emotionally and say let's burn, let's do this. There's many times an unseen force behind many of those kind of events or or issues and I knew that for example during the end and that's why I told you because I have already commanded and spoken to the devil you will touch and hold not one and we will have our meeting we will not postpone our meeting because there is a protest and I ask the lord the lord say yes go ahead the meeting will hold no nothing will happen in fact you could even have a longer time have a good time in a conference and we had a longer time in the meeting in in the time of ebook because there was an evil behind it. There was an evil behind it and yeah all powers of darkness. So you will know we we can address that evil directly and they know who is has given them that embargo you will go no further. So they know the people to be following and that's how we held that meeting. So this was going to be greater. So I mean thank God my theology had woken up a bit because I used to know this then some wonderful theology or sound doctrine as we call them began to affect my understanding of this heavenly council stuff. But thank God I didn't

let it. Thank God I'm a bit stubborn in some things and I didn't bulge and change if not would have been harder when to rediscover that supernatural worldview context in this regard especially as relates to the heavenly council because I had read the Bible cover to cover as I always would say but there were boring and weird parts of the Bible we used to omit but no longer uh four years ago, will I omit the boring parts of the Bible? So, I began to do more research on the boring and the weird parts. The part that everybody skips, the part that makes no sense. Why does he say the north? The Lord is from the north. Why does he use all what does all those kind of phrases? Why does he mention the wilderness of Kadesh? What does wilderness of Kadesh mean? All those things that have no meaning. Why does he say the Lord from Par shine from par? Why par? Why not shine from my village? Why shine from par? So before we ignore those things and just say it has no context. Why when he shone is it was from Salmon, what does all those words mean? What does all those boring weird things mean? And I again rediscover the core supernatural worldview context that we shouldn't lose. And I was going to lose it because of how we just jump in with some of our teachers in some of their strong emphasis. Amen. So no longer would I be found teaching or or communicating like that. If not I would have told the Lord, Lord, what does that mean? Count me out of it. Amen. We we determine the things that and that day because I uh uh was told of the seven great reforms that the leader will bring into the country and one has already begun and two will be begin before the year end the third by before June next year and there will be seven great reforms and people would not like him but at the end of the day they will be grateful he was their leader all the same as much as the other man would have done a good job as well. Amen. Life can be spiritual. Life can be life should be. There are some things that that have a mysterious supernatural context to it. Um you may not like a man, you may not endorse a man. doesn't remove the place of of in fact I even beg you stop hating people because if you overly hate people then God will be for them. Most people do not know God as a judge. They only know God as God which is a problem. They don't know God as judge. They only they don't also know God as father. They don't know God as early on as most high over everybody good and bad. So they are shocked sometimes where God answers an unbeliever prayer. I said but unbeliever is not serving you. Thank God God is not a pocket size fit all. No. Thank God is bigger than your imagination of him because some of the some of the persons today who we are grateful to God for it was those deliverances that got them born again say how could say why did God just let that man die? I remember the story of a man who used to who who smashed a baby against the wall and the blood splashed on his body and he didn't care hardened of I mean you I mean people are evil but not that evil and later that man got born again and I mean he couldn't even believe he could ever be born again because he was telling the preachers you know what I've done you have not heard evil let me tell you evil sir the preacher wasn't most convinced anymore to lead him to Christ again like this one ought to die. This one ought to and he mentioned some great evil he has done. But you see God is the God of all flesh and we must allow him be God of all

flesh. The same way sometimes we don't like God's judgment system that he's slow that he doesn't he's not fast. We called on him and we didn't see him show up in two days. We didn't see him show up in seven days. And that's why we must always rediscover that supernatural world view context to step back a bit and just look into the spirit and find out what is happening. Amen. Look into the spirit and find out what is happening. Find out what God is doing, what God is about. Hallelujah. Because there is a supernatural context to many things that may not look like it. The job scenario is one of the loudest in the Bible to show us that there is a world view. There is there is something can happen before and it will look like oh it's just coincidence but if we didn't have the job chapter one would have thought it was coincidence but that was in coincidence. If we didn't have the backdrop of the Ahab story would have said oh it's just coincidence but it wasn't. He had to die. If we didn't have the backdrop story for Nebuchadnezzar, we would not know why the man is now acting like a beast eating grass. We will not know if we did not have the background story for Noah. We won't know what brought the flood, why the flood. If we did not, there are many things uh issues in the Bible. If we did not have a background story, we would not know. If we did not have a background story, we wouldn't know the kind of bet that Samson was. If we did not have Yeah. If we didn't have that background story, if we didn't have the background story of Gideon would know how he was such a mighty man. So there are a lot of background stories and we must not miss those background stories. Amen. So first Kings 22 and verse um 19 and he said yeah thou therefore the word of the Lord I saw the Lord sitting on his throne and all the host of heaven standing by him on the right and on his left. So, a classic assembly meeting, supernatural assembly meeting or divine council meeting, any of the phrases count, heavenly counsel, divine counsel. And all the host of heaven standing by him on his right and on his left. And the Lord said, and the Lord said, who shall persuade Ahab that he may go up? Now of course this is not how it is happening. This is how he uh he phrases it or he puts it together. It's simply a meeting setup and the whole idea of the meeting don't take it as a word for word narration because he can't give a word for word narration. I can't give a word for word narration. And notice the word in 21. And there came forth a spirit. That's what I want you to see. There came forth a spirit and stood before the Lord. That's the word. That word spirit there is supernatural being. It's the same word. This then you look at 21 there came forth a spirit. 22 a lying spirit. 22 lying spirit. 23 a lying spirit 24 which way went the spirit of the lord to speak from me to speak unto thee. So the use of the word spirit is in that context and there is a differentiation. So though the word spirit can be used to describe a person's intellect emotional state it could also be used to describe a member of all the member of the host of heaven. So when we see that word vak in the bible it has multiple application but in this context is dealing with a personality. So this spirit either took control of the minds of aha prophet or influence them to speak in a unanimous uh manner deception to the wicked king. is the same thing in Judges chapter 9. Judges chapter 9 verse 22. And Aimec had reigned three years over Israel. Then God sent an evil spirit between Aimec and the men of Shechem. between

Abamech and the men of Sheckchim and the men is old English. God does not have evil spirit working for him. That's silly. That's stupid. Makes no sense. This is uh the the Hebrew tenses writes the causative and the permissive together. So when he says God sent an evil spirit, if the spirit is from the Lord and is called evil, then evil does not mean what evil means in English because the words are not as English as you suppose. The word evil has more than one meaning. For example, it was used for man being alone. Being without relationship is evil. There's not diabolical there. The use of the word evil has more than one context. It's not every time evil that is devilish. So when he says faithful are the wounds of a friend that is evil. The blows is the same thing. The gentle nudges is the same word used. If you being evil know how to give good gifts to your children. Ah evil there is not. If you being human that's the context. If you being human, know how to give good gifts to your children. But use the word if you being evil. So always be careful of biblical phrases and words is the reason why we do a we always look at word meaning. What do the words mean in the original why we don't say silly things like to hear with Hebrew language to with Greek language. Hallelujah. So if I tell you that the the person who embodies goodness sent an evil spirit, you already know he's a figure of speech or you know that the figurative expression has been used there because if I told you Ellen Mox is very poor, you're going to be asking which Ellen Mox. You I did not have to tell you it's a figure of speech but you're not going to take that literally. Why? because you know who Ellen Mock is. You can't agree that's the richest man in the world. You can't agree that he is poor and I did not have to tell you it is a figure of speech is the same thing when we say the foolishness of God you had enough sense to know God is not foolish. Now other persons don't have enough sense when they hear rot of God they say God is rot when they hear foolishness of God because of home training they can't say God is foolish. Beautiful. So many times we we want to change the rules of literature. So we don't have to tell you that this is a figure of speech because you have sense the Hebrew language is cognitive. The English language is volal. So you will easily see the cursor of the action. The Hebrew language does not have cursor of the action. So many time when you see I will do this, I will. There is no Hebrew word for that I and will because pronouns are subject to interpolation in the Hebrew language. There are rules of language. That's why they teach you vocabulary. Every language has vocabulary. That's why there is a way I will pronounce a yoba word. Now you will give it different meaning. There's a way I will pronounce it will say something else. Why? Because the words can mean different things. How it is used. Then somebody to I remember learning uh a language and I said something said no you don't say it like that. I said but you said that's the word say no you will not use that word in that context another word. Oh boy just start by teaching me the ABCD. Why do I not have to use this word in this context? I thought you already said he said no you can't do that. That was He language precisely say no that one you said that look why don't we just stick with the emailer that you have already said why don't we just stick with the other ones why do we have to he said no no because that thing that they are doing there now at that time is what is in every language but we

don't want it to be in Hebrew and Greek we want it to be in English in our mother's tongue but we don't want it to be but there's rules there's not rules of English language there are rules of every language. Every language has rules in the voc. That's why you teach they they teach you uh lexy structure semantics. They teach you semantics. They teach you linguistic. They teach you all of those things in English language. You will not just graduate like that without you being taught other aspects of the language that is more than subject verb agreement concord. They have to teach you things more than that. I have to teach you more than that so that you don't just have a secondary school idea. Abby so more things are communicated. So the use of the word spirit ruak Psalm 104 are you here? Psalm 104 verse 1 to 4. Bless the Lord, oh my soul, Lord my God. Thou art very great. Thou art clothed with honor and majesty. Who coverth thyself with light as with a garment. Who stretched out the heavens like a cotton? It's like a cotton who lay the beam. So it see is giving you the setup that it looks like a house. It looks like a temple. I've told you before the heavens is like a house. The earth is also explained like a house. You must always get that idea. Who lay the beams of his chamber in the waters? Who maketh the clouds his chariots? Who walketh upon the wings of the wind that's the word the wings of the wind roak spirit who maketh his angels spirit you see that the context there in verse three so if you were still reading English where he say upon the wings of the wind the physical wind the physical wind that is blowing baba not be that one we have long in fact psalm 104 has nothing to do with a natural worldview context it is set in the supernatural world every phrase in the context is dealing with how the God of heaven and earth functions and does his things. Amen. Who cover thyself with light as with a garment is not that's not so malakim in the plural Hebrew word there for angels because who maketh his angels because he put s which will be malik in malac is singular. I am in the Hebrew is plural but you have it in your uh concordance if you use interlinears the strong's for example you just see Malik. So for uh students of the world teachers and people who have more love for theology we go more deeper than just that because Malik is malakim because it's not malac because malak is singular. You said angels so it can't be malak it has to be malakim but you won't see it in that concordance except you have another type are you following again why am I teaching like this because uh we are having a bit more application because I want people who are also learning theology recently in the ministry also to see how it is done practically in teaching amen because you can't teach beyond what you study you can't communicate beyond what you Amen. So, so that the Bible school student also see the context of what we do when we we don't manipulate meaning we get the meaning. Amen. Who maketh his angel spirits? So that's where he now says who maketh his angels spirits. And because he puts spirits ru o u h o t spirits wind. So it's not element of nature or weather but divine being that he's dealing with. Did you get it? All right. The same thing in Psalm 103:20. Bless the Lord, oh you his angels, you mighty ones who do his word, obeying the voice of his word. So the use of the word minister is used several times to explain supernatural being which we'll come to. Another word for supernatural beings is the

word heavenly ones. Shain heavenly ones. heavenly ones. You see that in Deuteronomy chapter 4. Jonomy chapter 4 and verse 32. For ask now of the days that have passed, which were before thee, since the day that God created man upon the earth. asked from the one side of the heaven unto the other whether there had been any such thing as this great thing is or had been heard like it. Now that same Deuteronomy chapter 4, look at verse uh 19. And lest thou lift up thine eyes into heaven, and when thou seest the sun, the moon, and the stars, even all the host of heaven, shouldest be driven to worship them, and serve them which the Lord thy God had divided unto all nations under the whole heaven. So notice how we use the word host of heaven. Amen. Psalm 89:5-7. Let the heavens, let the shamayims praise your wonders, oh Lord, your faithfulness in the assembly of the holy ones. For who in the heavens can be compared to the Lord? Who among the heavenly beings is like the Lord? A God greatly to be feared in the council of the holy ones and awesome above all who are around him. Psalm 89:5-7. So again, observe the use of the word heavenly ones. The same thing in Job 15:15. Behold, God puts no trust in his holy ones. That's not human beings. Supernatural being another word for nature. And the shamims are not pure in his sight. Not pure in his sight. So the use of the word the heavens are not clean not physical heaven. No there's so the impurity of the heavens is being used to speak of the spiritual word. So rebellion has already been found in them. So they are all not so don't think that they are all good. They are all for you. That's what he's simply saying. God puts no trust in them. So um their ministry should always be interpretative. You should interpret it before you just say anything that is unseen is of God. No no no no no. There are also other beings that are deciding things against God's desire and will because they have trying their best to get to God but it doesn't work to taunt God to tell God that God will see for trusting man for saying man is the crowning of his creation for wanting and loving man so much so we'll make sure this man worships idol turns to something else will be opposed to this man forever So the heavens are not clean or it's not all supernatural beings that are carrying out God's word. Deuteronomy 32. Learning something. Deuteronomy 32. Verse 8, when the most high divided to the nations their inheritance, when he separated the sons of Adam, he said the bounds of the people are according to the number of the children of Israel. Now there was no historical Israel at this time. So when he said the number of the children of Israel, if you the Septuagint doesn't have Israel there because Israel historically was not even in existence because Abraham had not even been called out from his father's house. How much more to have Israel after Babel? Israel was not found after Babel. After Babel is where God calls Abraham. So when the the translation because they are always careful of sons of God. So and they know Israel is also called sons of God. This is what you call a mistranslation. Just put children of Israel. But what is in the original is sons of God. So they interpreted it contextually to be Israel because they knew it was talking about other nations. But that's over that's why I always tell you that translations themselves are interpretation of the Bible. Look at the page look at your ebo translations of the Bible you will know that they have modeled up things. In fact,

when I tell you to translate a word from one language and we move it from one language to another language, move it from that language to another language, you will notice that we lose the original meaning of the word because we have moved it to two three languages and that's also what we have in the English language is now a fourth language because Hebrew, Greek, Latin then we now have English as the fourth language of the translation that's already further removed. Are you following? And before you demonize versions, Jesus when he walked the earth had the Septuagen, which is a version of the Bible as well, the Greek translation of the Hebrew text. Amen. So, as long as we are humans, we'll stick as long as we are on this earth, we'll stick with translations. All right? Hallelujah. Verse 12. So the Lord alone did lead him and there was no strange God with him. That's the word Elohim. He made him ride on the high priest speaking about Israel when Jun Then look at verse 17. They sacrifice unto devils. They sacrifice unto devils. That's the word shedim. your sacrifice unto devils because of the s you know the Hebrew does not have s is I am English language is s e s i teach you that so they sacrifice unto devils not to god to gods whom they knew not so it's called those devils to gods to Elohim whom they knew not to knew two gods that came newly up whom your fathers feared not. So again back to that judges where he use the word evil spirit because their function is contrary because if if you being evil if you that can be contradictory so because they having a contrary work that's why I use evil angels in that context so the word heaven heavenly ones is used to explain supernatural beings. The same way still in that context use the word the stars. The sun, moon, and stars. The stars. It's also used to explain supernatural happenings. the stars. Uh more obvious text before we read Judges. Job 38 and verse 7 or read from verse um 54. Where was that when I laid the foundations of the air declared thunder understanding? Who had laid the measures thereof? that knoweth or who has stretched the line upon where upon are the foundations thereof fasting or who laid the cornerstone thereof when the morning stars sang together and all the sons of God shouted for joy notice the word the sons of God shouted for joy or who shut up the sea with doors when it break forth as if it had issued out of the womb this is God showing job that there's more to what he thinks he knows there's so many unseen things about life that he can't figure out. All right. So it says when the morning stars the word stars there cob k o k k e b b b b b b b b b b b b b b b b b b i m is used for supernatural beings as well. The same thing when God told him if not for uh wrong use of uh wrong interpretation when God told Moses uh Abraham count the stars and we took it to be uh physical stars. No, it says so shall your children be. Your children shall be just like the supernatural beings because you are going to the church is just like the supernatural beings. That was the reason why Paul uses the very phrases for supernatural beings to explain the church because we are a supernatural assembly though human door on the earth and just as supernatural beings are innumerable because it's a supernatural world and say look and he brought him and say look into the heavens is not look at the physical skyro those things have been taken out of his context to mean many things today but that now affects when we now teach properly like I'm doing right now. It

looks like oh so that stars but that is the stars though when you get to Isaiah 14 speaking about Lucifer say for thou has said in thy heart I will ascend into heaven I will exalt my throne above the stars of God. Which stars be that one? It's not it's again the word cob. It's not physical style the stars of God. So notice he didn't have to give interpretation because he believes we already know because stars was part of the Genesis one language used to depict supernatural beings as well instead of using sun and moon they just use the word stars. So either you use the compound word of heavenly host or use the singular word stars not singular sun singular moon. No. So when you are dealing with an identification of the mass the mass of heavenly being the uh collection you just use stars. Of course we know this because every time we want to close the services even the stars are fighting for us. So even by now you should be well accustomed with that phrase. Hallelujah. So the use of the word stars. So sun, moon, and even the stars. Clear clear. All right. So the use of the word stars Then you have it in uh judges as well. Um 5 verse 20. They fought from heaven. The stars in their courses fought against his error. So, so the morning stars, why are they called morning stars? Because the ancient men are ancient. They use the word morning star because the very first star you see when you wake up in the morning, the they woke up to see the the sun, moon and stars. So they use the word morning stars. Why? Because they were made before man. Man woke up. They were before the dawning of man. Man woke up to see supernatural happenings. God made heaven before he made earth. God made supernatural beings before he made man. They were the assembly. There's again let us make man in our image. And he's not sharing creation with them. I would have left it like that but uh just for the sake of new faces. Let us make man in our image. So that already looks plural. The next verse. So God created man in his own image not in their collective image. No, a man is in the image of God. So in the image of God created he him. You can't miss grammar. So the contest situates the plural to singular. The plural to singular because he wants you to see then all through scripture. Not once I'll pay you in dollars. If you find where there is another being called creator than Yahweh. So Yahweh is called creator. In fact that is the praise for God. He is called the creator. The creator. the creator. That is praise for him. That's how they praise God. And we've read some of it in Isaiah. Amen. He's called what? Creator. So another nature another being word for supernatural being is the word saints holy ones kadoshim or codes quotesim which of course I prefer just because we are used to transliteration is kadoshim but the direct in Hebrew is kesh Q O D E S H I M code and is used to just explain holy but in Jeremy 33:2 now it's the English Bible that has it as sense which why I'm not very particular with it many times is the English Bible that has it as sense there the BSB translation said, "The Lord came from Sinai and dawned upon us from Mount Sia. He shone forth from Mount Par and he came with my holy ones with flaming fire at his right hand." So the Lord came from Sina. He rose from Sia unto them. He shine forth from Mount Par. He came with 10,000 of saints. So it gives you that the wilderness journey was filled with supernatural encounters that at different points they could see how the Lord

himself was visibly present with them and not just visibly present with them alone but visibly present with them with his supernatural interage. Oh boy that's a lot. Hallelujah. All right. He shine forth from man and came with 10,000 of his saints. From his right hand went a fiery love for them. Yeah, he loved the people. All his saints are in thy hand. So use the word sense which is the word code is the same word in Job 15 verse 15 behold he put no trust in his holy ones is the word holy one so it's the KJV that has it as sense which is not bad which this is where the Catholics got it so right in their archives and encyclopedia they always use the word they have always known that correctly that the word sense is used for angels however Paul uses it for human beings who are also alive. So we shouldn't just have it as and not just for dead departed. No no no no no saints are poor saints are sick because you see it when you just do a a lazy search of the worst saints. They they fed the poor saints that were in Jerusalem. So they were alive. They were not obviously feeding people that don't need food. Dead people don't need food. All right. So the use of the word sent is used a lot in Matthew to Revelation and you can't be lazy to just say sent is for only people that are dead. No, it's not. In fact, that one is not used at all for them in that regard. Of course, but they are still called saints because they were sent on the earth. So how can they not be sent? But it's not being dead that made them set. If debt made them anything, made them unimportant or and unuseful to us because they have already the civil court has already been caught. They have already left being physical. They have no physical engagement with us again. They cannot be used to carry out God's work on the earth because they're not on the earth. Amen. So if that's when they now have status, it's of no use. They should have had it here. All right. So, all of that now becomes organized religion that creates order, fear, makes it uh pump and pageantry. God bless them. Behold, he put no trust in his sense. Yet, the heavens are not clean in his sight. So, the word sense there is the same word in Psalm 89 and verse 5. And the heavens shall praise thy wonders, oh Lord, thy faithfulness also in congression of the saints, holy ones. For who in the heavens, the context makes it clear that it's not earth talking about. For who in the heaven can be compared unto the Lord? Who among the sons of the mighty? He has just called those saints sons of the mighty. God's glory to be feared in the assembly of the saints to be had the reverence in of all them that are around about him. Verse eight. Oh Lord God of hosts who is a strong Lord. So it's still the same thing. Now these ones are a bit easier to see. Daniel chapter 4. Daniel chapter 4 now uses the word holy ones directly because of the Aramic translation. It makes it easy to see. So they couldn't just do sense. So they left it as holy ones. This matters by the decree of the watchers and the demand by the word of the holy ones. Are you seeing it? By the demand of the holy ones to the intent that the living may know that the most high ruleth in the kingdoms of men and giveth to whosoever he will and setth up over it the bases of men the holy ones. Did you get it? The same thing in Daniel 4:13. And I saw in the visions of my head upon my bed and behold a watcher and an holy one. So why does he use and is to explain that that watcher is not a human being. That's why he conjoins it by saying a watcher even a supernatural being.

Why? Because in the Chaldian world the Mesopotamian uh culture that place where uh that Chaldian region Babylon where Daniel is the use of the word watcher is common. Remember the teacher was teaching a man that the audience can understand. So we have to use a human word that they can understand. So they were human beings called watchers. So he's separated so you know that this is not a human being. A watcher even a holy one. So people the audience knows what he's speaking of. Hallelujah. Just that you have a watchman a watcher. Now the watchers were directly assigned to the king. more skillful in assassination and defense. Giving to the the monarchs to be ever watchful, attentive and not sleeping. All through the night they stay awake protecting the kings and the nobles and they are elite squad. Today we will say stronger than the marines, fiercer than the delta force. You see all those so more sophisticated training. Now in ancient language you will use fiery language to describe such things. You will use dragon you make it all terrifying because you want people to know say if I say praise somebody now that you have to use terrifying language is just to create that awe allow them that poetic license in their communication too. Always remember that they have to communicate for the audience to get what they are saying. Amen. So the if you just read Daniel alone, you see the use of the word holy one is used a lot 13 times is used in Daniel alone. So it's a quite a lot of read. Daniel 4:8, Daniel 4:9, oh beta, master of the magician. Daniel was called master of the magician. He senior them. You didn't hear that? Not that they worshipping the same god. They deferred to him because there are many things this man can do that we can't do and of which many got converted to the Lord of which we now have the historical wise men coming from those descendants who now worship Yahweh you can tell all right so again because we have stars physical stars so we say we have seen the star in the east it doesn't allow you to see that they had a supernatural visitation but because we want it to be physical that they were following like this. But it's okay because they were wise men astrologers because once you miss the supernatural worldview of the Bible, you act like an idiot in how you read the Bible. And it's okay. We have all acted like that. You just make a mess of supernatural worldview things because they are writing it as if you are supposed to understand because you are supposed to understand if you are used to Genesis to Malikica. How can you how can physical staff be following somebody and they now enter another person house? So sorry you got it that some people got that and you're not asking he uh for we have seen his star in the east. We have seen his angel the angel of that because the Lord Jesus had holy angels. We have seen his star. We have seen his angels appear to us. That's why they worshiped him because they know that we have seen God's angels in the east not following us step by step on the road. You are using the Jesus theme not Bible. That's the same reason why you had them as theory because the Bible never mentions theory just wise men from the east. All right. So that's a bit of study. Are we good? Sorry I'm shaking you up a bit. Daniel 5:11, there is a man in thy kingdom in whom is the spirit of the holy gods. Don't mind them. Holy god. They use goss. Holy god. No, he's holy ghost. The spirit of the holy god go. But you know the people because they can't lay

their hand on Daniel. They said in the spirit that means is like a reincarnation of the gods. That's the phrasing is how they use it there. The spirit. So when you say oh boy let me just pause a bit when you say I have the spirit of God we don't even know what it means say I have the spirit the man who plays the oracle does not have the spirit of those does not have the spirit of all those things if he have it he will not be doing all those things he will he will be have greater operation you now have say in whom the spirit of the spirit of god when say I have the spirit of god you know what you are saying that means I don't need a temple. I don't need an external place. I am temple. I am shrine. I am the house. I move with. So deity is always present with me at any time, every time. I'm always with all that the spirit has. Then he that is joined to Lord is now one spirit. Just makes it worse. We have the spirit of God should have been good. Now he that is joined to the Lord is one spirit. So now I'm in an inseparable union. So I can't tell where I start and where he starts. Where he stop and where I stop. We are blended so much that we are now one spirit in demonstration. Ah sir that is the height of possession. We cannot unmix you and God again. You are heavily possessed with God. We can't separate you. We cannot say let's remove the part that is human and the part that is God everything don't join we not know again which part is God which part is human which part is he being human which part is he of um everything go one spirit amen of course it will not be a reality because all the the truths of God's word are not wow wow they are internalized they are practiced that's Why we take time to teach God's word because the truths of God's word are pounded in by meditation are appropriated by faith are experienced because it's not a religion. We can touch and handle it then it is vital in our living. The Christian life is made vital by experiences. I've told you that. So if you have not touched and tasted it, it is never real to you. It just look like his book. But when you touch and handle our realities, then it is real to you. Then you have participated in the Holy Ghost. You have participated a because you are a partaker of the Holy Ghost. Then you can ah yeah this thing. Hey, is that real to you? There's a man in thy kingdom in whom in the spirit of the Holy Ghost and in the days of thy father light and understanding and wisdom. High see praise light understanding and with only one man like the wisdom of the gods and you you the child of God you believe you are not wise was found in him. This pre-reservation of Jesus see praise for a man. How much more you today in Christ Jesus was found in him whom the king Nebuchadnezzar my father Nebuchadnezzar thy father the king I say thy father made master of the magicians astrologers chaldans and soothsayer he was master over he made him head over all of them say so they telling bazar so don't take this matter Holy one. Hallelujah. So the word holy one, holy one, holy one like we said is used a lot in the book of Daniel. Then another word for supernatural being is the word Elohim. Elohim. Eel is the word God. I am is Hebrew. So Elo is the word God where you are dealing with all forms. The the the masculine, the feminine, the neuter form. So you're just dealing with all gods. E L is the word God. Eloh is the word God. Elohim is the word God in the Hebrew. So Elohim is actually G O D S but it can also be used as G O D. Why? Because of the communication.

But many times in order that not to always be translating E L or E L O A H. They just do Elohim which is where the Elohim is from. from that ela. So and all of them is used in the Bible to explain God or even supernatural beings. So none of them will vindicate you. So if you do e you see it used for Yahweh himself and also other supernatural beings are also called Eel. The word Elo is also used like that. Amen. So a divine being which is what the word mean Elohim means a divine being. divine being a member a resident of the supernatural world. So I've I think I've spoken a lot about divine plurality. Abby. All right. So So as Christians we have a monoly faith. We know that there are many gods but we only worship one. Abi is different from where you have uh the idea that there are no other gods. It's only the Lord that is God. That's a lie. The Bible does not does not affirm that insanity. The Bible affirms that there are many gods and God made them. Not that they exist on their own as mythologies would have where you have many gods existing and they all fighting. It doesn't that's not in the Bible. And even Satan knows very well that they are not doing all of those fights or dragon or who is the number one at this five years or at least 20 years at this 50 years 100 years century. No, the devils know there is a God and they tremble. Jesus said to Satan, "Thou shall not tempt the Lord your God." And Satan said, "Yes." Didn't say no, you are not my God. Satan knows he's God. It's just that yeah just that he does not follow God's details doesn't mean that he's not under God are you following so have proper understanding of it's not word and was and opposite God devil you must have no respect which is God and is God and devil when is God and devil become worse and opposite even the devil we say leave me leave me alone leave me alone don't put me in that conversationh Ah no text in scripture the Satan put himself in that conversation that is doing no it's always have you se and darkness fight go home and perform the experiment you will not see once you flip the light switch darkness goes that is how God and the devil is there's no god is light in him is no darkness at all so Elohim Psalm 82:6 I have said ye are gods sons of the most high ben Elohim, sons of the most high. Samuel 2:1, the word Elohim occurs twice. So the words 2:1, you see the use of the word gods, gods there. And like we've said, the word Elohim is used for uh the God of the Bible is used for the God and goddesses of the nation. Judges 11:24. You see that as well. Judges 11:24, you see the use of the word Elohim? Will thou will not thou possess that which came thy Elohim giveth thee to possess? So whomsoever the Lord our God. So he just use Elohim then uses Elohim again in verse 24. So it's not confusing because that one is a is a is a created. So Yahweh is differentiated from those other gods by attributes and qualities that they don't have. They are never called creator. Yahweh is called the uncreated creator. That is how it is. He is called omni potent. The others are not called omnipotent. They just have power but they are not only only God is the only potentate only that's how the the because of the the Latin it say use the word potentate so omni potent so that's where the word is from where Paul calls God the only that's Jesus precisely if you say god god god people always have the idea that jesus is not god so it was Jesus he was calling the only potent king of kings lord of lords the same word used for God in Genesis to Malachi he calls Jesus king of

kings lord of lords god of gods so that correct the Jehovah witness idea that Jesus is not god or any of such false views because 1:16 says for by him were all things created that that were made just like the John 1 vers2 the argument of oh the verb the part of speech here oh this word this word but he say for without him was there anything made that was made in verse two. How is that still a created word? Okay. What about Colossians 1? You cannot go so far with mischievousness to Yeah. Especially when trying to use the Bible. So especially when they wrote the Bible verses at the back then you not come and be arguing with people that actually read their Bible. No, this is not the case of religion that we are doing here. So the gods and goddess of nations are also called Elohim. Territorial spirits are also called Elohim. The shedims, the demons, that's uh Deuteronomy 21:17. We've read that already. The spirit of the diseased people. 1st Samuel 28:13 Samuel is called an Elohim. The same way God refers to Moses as an Elohim to Pharaoh. He say you will be a God to Pharaoh and Aaron will be thy prophet not that he is an Elohim. So it's used for humans in that two sense. Used for humans in the sense of God saying that they have a great operation over and beyond the work of people who are ultic or follow the devil. And is also used for the diseased people who have gone, who have dead, who have left this world, physical world, I mean, but they are still in this world, but have left the physical world only found in the unseen world. So they too have become a member of the unseen world and no longer a member of the physical world because they are not physical right now. Hallelujah. So it's also still that's why the use of the word Elohim for them because it's a place of residence terminology. Where you are is what we can use to describe you. All right. Uh the angel of the Lord is also called Elohim. Genesis 35:7. So all right. So we have those words used to explain. Then another word for used to explain the nature is sons of God. Sir, we know all of this. No, I need to refresh memory with it because of some of the things that I intend to say as we conclude shortly. And also uh because of the things I intend to say on Sunday so that I I will not have to say like we taught last year. So I can say like we taught in part 11. Amen. All right. And it doesn't hurt to get a refresher which you have also learned some new things too. Okay. So terms that the uh sons of God supernatural beings are also called sons of God. Sons of God. Did you get that? So Genesis 6:2, sons of God, we also saw Job 1. Job chapter 1 verse 6. Now there was a day when the sons of God came to present themselves before the Lord and Satan came also among them because he's also a supernatural being. If you say Satan is also a son of God, h So you know homalytics matters. So not that he is not it's just that he's a dark one a fallen one. All right. So in the words of those writers used I try to mimic some of those things I would have used it but you will now know the fantasy writers that I like. So I'll leave it like that. Job 38:7 when the morning star sang together and all the sons of God shouted for joy. When the morning star sang and all the sons of God use the word sons of God. Now in the Psalms is used as sons of the mighty sons of the mighty sons of God is the same thing and I've read many of such in the course of this series. Is that okay? Okay. So, sons of God, sons of God, language, uh, terms that describe function. Let's start with the

most obvious one. Angel N gel is a function terminology. A N G L is the word messenger. Malak Malakim is the word messenger. Now in the ancient world it was used for people who also were on business journey or trade mission who were sent like that because people were on trade missions um are like malakims. They are sent to open up new frontiers. So they are sent. So in that semitic language it would have that flow as well. So it is used for human beings. It's also used for human beings. Genesis 32 is used for human beings. Genesis 32:3. And Jacob sent messengers. Jacob sent messengers before him to Esau his brother. Now the translators got this right by using the word messenger because they don't want you to see it as angel. But it's the same in the Hebrew is Malac. And Jacob sent Malakims. Malakim sent messengers. And so Jacob sent Malakims. So messengers. So there are there are over 80 references of that word used to explain human beings. That was Malikim over 80 reference and this is me not counting properly. So, so over 80 references with the word messenger I mean the English word messenger over 80 times the use of the word messenger is the word malikim and the word angel itself is also still used in that regard. The word a NG I is also used for human beings in the Hebrew text as well. So angel just like the angel of the church of m the angel of the church of sad is the angel of the church the angel of the church angel so it's used for messenger Paul says you received me as an angel Paul is not an angel now it's a human being so the word angel is just of course today we know very well because women are called angel they are not All right. So I think that should not be confusing to know that angel can be used to describe human beings because all right I think you got that okay so I don't have to but the word angel itself is used in that regard malac it's a job description. It's a job description. It's a job description. Of course, that job description, can they be referred to with the job description? Why not? They can be referred to with the job description. Oh, they can be referred to with the job description. Oh, just like you can doctor is not the doctor's name, but you can call him a doctor. But doctor is a function, but you call him a doctor. Say engineer engineer is engineer name. Engineer is a function but you so there are many function words that we that we use to identify or name people. Is that okay? All right. So the word angel is a function terminology. Another word is the word minister not used for a a music person or somebody who sings. So I know that's today say minister this, minister Abigail, Minister Dela send to No, we don't do that here. All right, we don't do that. Yeah. No, all those ones for music. Ah, no. No, no. It's Let's calm down. It's the same word uh minister same word deacon. All right. So Psalm 103 verse 21. Bless ye the Lord all ye his host. Ye ministers of his that do his pleasure. So the word ministers in Psalm 104 we read it already. Who make his angel spirit his ministers a flaming fire. So they are called ministers. Are they not all ministering spirits? So that's a bit easy to see. That is a function ministering. Why? Because there are different things that that are being ministered. Sometimes it is healing, sometimes it is deliverance. So ministering spirit they minister. So the malakims that bring message is not just vocal as it were. I have come to tell you it can also be visual in an appearance and it can also not. The emphasis is that they have a communication. They

come with a communication. That's the malakiming that function. They come with a communication. So that message must not always be I. It can also be I see. If not, you will hinder your tangibility of supernatural things. If you always want it to be I can't. What do you have with IC? It's not only they used to hear now. You can also CC. All right. So that because if in your practice you always have I against and over I see you will never see because you are doing this versus this this away from this no do everything I hear I see is that okay so they are in service of God attending to the service of God and you see that idea in Daniel 7:10 where because Daniel is one of the loudest persons also like Job that knows a lot about the unseen world and write a lot about it. A fiery stream issued and came forth from before him. Thousands thousands ministered unto him. That's the same word used to explain function that they are ministers. Did you get it? All right. They are ministers. Set ministers. Ministers. Ministers. So you see the idea of ministering thousands thousands ministered unto him. Ministered. Now the idea of that word why it is used for supernatural beings easily is because of priesthood function because we understand that the priest serves. Supernatural beings also serve. They have uh the language is nuanced in that manner to show that they serve. So it's more tilted in that area to see that they serve and in the second temple Judaism that period between Malachi and Matthew the it was a common name used to explain supernatural beings ministers. So another function terminology are you here another function technology is the word host. Now this one is a bit easy everybody knows this one host. This is the one that has to do with power. For who is the king of glory? The Lord of hosts. He is the king of glory. Though and host should encamp against me. My heart shall not fear. Though war should rise against me, in this will I be confident. One thing of the Lord. So use the word host. So you know that is military. Abby. Though a host an encampment. So the Lord of hosts, host, host, host, host, h o s t host. But in Psalm 103, we read it already. Bless ye the Lord. All ye his host. Notice is different from just saying God of host using to talk about God. Now he calls the supernatural being host because that's function. Host the military. It's a military terminology for army. The the entology of the word is deals with that which goes forth. It deal with an organized mass. M A S. So it's used for that which goes forth. So an army is also proceeds like that because it's militarized. So there's a warfare, there's a matching to it, there's a service to it, there's a campaign to it, there's a going out to war. So he uses that word host. The same idea where that angel with a drawn out sword which is the Malak Yahweh says I am captain of the host. So there for military function captain of the host. H O S T host. So bless ye the Lord all ye his host. Did you get it? All right. So God is surrounded by a heavenly host. You already saw that in first kings 22:19 is used collectively for host of heaven. But however the word host is used for a military function. Another word there are two synonyms for that. Another word is the word mighty. Supernatural beings are called mighty which in the Hebrew will be the word gibbor. And in the plural will be gibbering. I am. They are called mighty ones. Mighty ones. They are called mighty ones. Much of the use of the word mighty in the psalms is used in that regard. The Lord strong and mighty.

The Lord mighty in battle because you are supposed to be mighty in battle. So give unto the Lord, oh ye mighty. Give unto the Lord glory and strength. Psalm 29:1 that's not human being. That's supernatural being. Oh ye mighty. Now in the original you have it as sons of the mighty, sons of God. So mighty. Oh ye mighty. So the word mighty there for lo they lie and wait for my soul. The mighty are gathered against me. The word the mighty. The mighty. The mighty. Psalms uses the word mighty. A lot. God stands in congregation of the mighty. Psalm 82:1 stands congression of the mighty. Did you get it? The mighty. And um sometimes they use the word mighty as gib of sometimes in psalms they use it as eel because they don't just want to say god for supernatural beings. So mighty who among the sons of the mighty you see it mighty. All right. So God has mighty acts. So Gibbor, bless the Lord, oh ye his angels, you mighty ones. Psalm 103:20. Remember? All right. So that's another word host. I think that one is more easy to see. Another function terminology is the word watcher. Watcher. W A T C H E R. the word watcher. And I saw in the visions of my head Daniel 4:13, upon my bed, and behold, a watcher, an unholy one came down from heaven. A watcher and a holy one came down from heaven. A watcher, he cried aloud. So you see the this matter is by the decree of the watchers. Verse 17. And the demand by the word of the holy ones to the intent that the living may know that the most high ruleth in the kingdoms of men and give it to whomsoever he will and setth up over it the basis of men. All right? So the use of the word watcher. Now the word is aric in origin. The word watcher is aramic in origin. Remember angels already have that function of to keep to keep thee to preserve thee in the way to keep thee in the way. Remember the word nat to guard now which you get the word guardian. However, yes guardian say guardian spirit is that same framework. However, the word watcher in that context in Daniel 4:13, 4:17, 4:23, you see how he uses that word watcher, which again is a second temple literature phrase uh that became more predominant for the supernatural beings that they just called them watchers. In Genesis chapter 6, those sons of God, they are called watchers. They use those phrases to describe them because um of the influence of they have gone to Babylon, they have gone into exile several times. So that phrases have flooded their vocabulary now. So it's more common to use the word watcher. But it's still a function technology used for one who is awake, attentive, a watchful one. A watchful one, that's the word. Uh the Arcadian arrow means use it to mean be wakeful. So it has Aadian roots and in the Yugaritic it is used for one who protects. Yugaritic is modern day Syria today and all of those region. uh so and that yugaritic culture is prevalent in that phrase where you have the Iraq Iran today those regions which is around that Babylon Babylon's new name and all of those places all around that region so they uses those that word watcher watcher watcher watcher so to protect is how it is in the four cultures all around the Hebrew people. So the Hebrew culture, the Ugaritic culture, the Arcadian and even to the Mesopotamian people have that context of watcher as a wakeful one, a watchful one who protects. So the Arcadian uh even the Babylonian mythology which is called the Aalo A K A L uses the word watchers for supernatural beings. So the word watchers. So I'm just giving you some bit of context so

that you are not wondering where did they get that from? Why is he used only in Daniel? Oh, they should have used it other places. I won't take it. I won't take it. You're just being ignorant. There's you not taking your own ignorance. The word has another word for it outside Daniel. But that Daniel word is quite prevalent in their world view. Nobody's going to be asking why is the only T that use the word watcher because that's the word everybody's familiar with in that timeline when they have gone into captivity after Jeremiah and that is a long time in Israel's history in the Bible. So nobody remember doc always do that exes to heronetics the direct audience it was not you they wrote to the people they wrote to could not have been saying we don't know what it means so when you are going to critique which we call textual criticism ask intelligent question don't fool yourself and be saying I won't take it they use only they use this word how else is the word used are you following how else is the word So that context where you see this word watcher here is the same context in that first kings 22 where I will go because they are watching over their affairs and instead of judging properly some don't judge properly some judge properly instead of judging properly now be the ones that are oppressing you instead of helping you. So that setup is used is that same setup that you have in the he story of the popular phrase today made popular by the NS people uh Elroy is that same context of watching is the same context in Zechariah of the seven eyes. It's the same context. It's just different language. So they have it in different context for more scholastic study. However, that word watcher is not being disputed, which is the reason why I gave it all historical cultural setup. Nobody, in fact, if even were to type it in, even Google knows it better than people that want to argue. Nobody's going to be arguing if it's used for super. Are you following? So, let's not be naive and be sounding foolish like we don't know history, we don't have sense and say it cannot be. Can you call super being watch? I will not take that. You don't take it does not mean that it is not it say I will not take it you can't tell me that never like that so like I told you in the is used for vigilant watchfulness from moving to and fro you notice that all angels have similar functions however you see that word from toe and fro. So he now says you be vigilant because the enemy like a ringing lion seeking who may devour. So notice in the Daniel chapter one from going to and fro has considered myself not go and consider myself from moving. So that instead of judging properly those are part of the fallen god. Those are the negative watchers. So that context is in the scriptures. So vigilant watchfulness being wakeful and having a guardian role is the word watcher. So it's also used for very strong supernatural beings a bit uh more stronger than those host because they are also found in the legislative court because where there is a need to legislate and say oh what have we found? We have reports and reasons why this person should be favored. Those watchful ones will now those watchers will now say in observing this brother for 5 years now I can tell you he deserve that promotion. So who will go and cause that promotion to come speedily then now nudge the person to come for a miracle meeting and now attends our own where the man of God now open his mouth and speak because nobody have spoken since the same way we have no this ought not this woman been this

son daughter of Abraham woman thou are loose from that because that is again a failure of the people around not knowing how to be watchful full. So there are things we ought to say no this has passed his boundary this has gone too far is again that's Psalm 82 divine council setup that has it because you say this is by decree of the watchers so you see that it's they have there are more watchers in divine council setup meeting because they have to give report and say oh that's why it says neither nor power can bring a report against us Romans chapter 8 nothing can separate from the love of God because uh I have this report to say I have this so it looks accusatory just like the lawyer there's the one that is defending there's the one that is prosecuting so the defense lawyer the prosecutor are not the same and in the supernatural context there's the prosecutor that saying which can look uh adversarial which can look like he's the um the opponent Which you remember the word Satan is a function terminology now looks like is this an evil engine or a good engine. Why is he talking like this? Because of no this has gone too far. Hallelujah. So that word watcher did you get it? Then there's the word mediator. Then there's the word cherubim and seraphim. So these are function terminologies because I want to just rush out of there quickly. I'll say the rest in passing on Sunday. Now we said unseen forces deals with um the power of God that is resident within us that we have the spirit of God and that we so that we have the spirit of God and that we have spirit beings with us is on sin forces and in the negative uh sat the powers of darkness and all the people who worship them. Abby. Now, one of the ways we can engage on sin forces actively is by faith. Is by faith. By faith. Now, we've said a lot of things in passing, but the use of the word faith. Faith is an action word. Tell your neighbor faith is an action word. So, when you say I have faith, we can see it is not is not washy. Say I have faith or I have faith. We can see it. Faith can be seen. What do you do? What do you do? We can faith can be seen. That man that they tore the roof and let down, Jesus saw their faith. Faith can be not just because your actions, the tensile nature of faith that we see in the four gospel. Little faith, great faith. You say, "No, it's not in the episodes. Weak faith, great faith, weak in faith." That's still tensile nature that you seen that oh it looks like it can increase it can reduce the use of those words shows you that it can be fine our action. So as much as we want to be pampered life will break you or kill you if you continue like that you have to be a bit strong and dogged when at the face of the doctor's report it's not a time to be I thought I was a child of God I don't understand does life know which one is child of God or not child of God. Life does not look at if you are good. If you are if you have been doing Google things because the heavens are not pure anymore. The order of things are not as it was made to be. That the entities that ought to watch purely over all your good actions are not all in the same boat and your own actions also cooperate. Why they are not even observant as why do good things happen to bad people? Why do bad things also happen to good people? Why do bad things also happen to bad people and why do good things also happen to good people? Complete it. Never say why do bad things happen to good people. Bad things also happen to bad people. Didn't you hear of the mobile they cut his head and cut his leg? Didn't you hear of the man

that tried to make a whole community still their transformer and and they saw him the next day roasted there? Bad things happen to bad people. So it's not only bad things happen to good or good things happen to bad people. Good things happen to bad people. Good things happen to good people. Bad things happen to bad people. Bad things to good people. I mean the put it in the four places. Don't have it only one way cuz it's not maybe you are 2 years old. If you live a bit longer, you see that good things happen to good people too. People just like does not make news because planes that land do not make news. Is the one that crash say there's a plane crash. What the all the successful pling? It was not news. Only on the evil thing happened to people does it make news. Say do you know do you know that this do you know that this? Do you know that? What about all the good ones? You did not know. So people are more negative than positive. Hallelujah. Amen. Amen. So faith helps us to be strong with the power of God. Faith helps us to be what? Yeah. Faith helps us to be strong with the power of God. Faith helps us to be strong with the power of God. Romans chapter 4. Romans chapter 4 and verse 19. And being not weak in faith, he considered not his own body now dead when he was about a 100 years old, neither yet the deadness of Sarah's womb. He staggered not at the promise of God through unbelief but was strong in faith. You see there are actions of Abraham that is interpreting and is calling weak faith and strong in faith giving glory to God and being fully persuaded because we have Abraham story we have Ishmael we have Abraham saying in between that let als be be my childh except we don't have in Genesis we have him stagger staggering we have him but who against whole believes we have him so where he was weak weak in faith. We have him where he was strong in faith. And that switch happened in chapter 17 where he had revelation knowledge where the angel of the Lord appeared where the Lord appeared to him and said, "Walk thou before me and be thou perfect." That revelation of El Shadai. Revelation knowledge is faithful. Revelation is how we have strong faith. did. And that's the benefit of being in meetings like this where it's not just I hear God's word. No, Jesus taught the disciples yet they were still little in faith, weak in faith. But it can be taught little faith, great faith. And in the in the four gospel because we have a teaching on dogged in faith and we did teach that recently in the in in the cell groups. So it should still be fresh in your memory. You notice that many of those little faiths, you see anxiety, you see fear, you see doubt, you see ignorance. Four major symptoms of little faith in the four gospel. People in ignorance, little faith. People in in doubt, in fear, in anxiety where I don't believe God can take care of me. They say, "Oh, you of little faith." Does God not clothe the the the the grasses? So you have no faithful provision. When you were in school, you knew God could meet your needs. Now you're out of school. You're you're working now. You no longer believe God because now your trust is in money. Your trust is in mammon. That your trust be not in riches. In one of our prayer meeting some time back, we talked about that Mark chap Matthew chapter uh six little faith. We should not have little faith. Amen. So faith can be little, it can be strong. Jesus say oh you of no faith no faith in the so no I can't say I don't have faith because I have the faith of the lord Jesus Christ you

not get faith little faith some Christians have no faith and that is not because you don't have the faith of our lord Jesus Christ is because faith is used in an action sense because faith is acting on go's word so we can always see if you have faith is we're not talking about if you have the faith of the lord Jesus Christ we talking about your current action your friends should be able to tell you that you have faith. It was those friends that brought that man that Jesus saw their faith. Your people around you can tell if you are in faith. There's a way you would talk and we can see it. Your coming when I was a child, I spoke as a child. I taught as a child. I understood as a child. It will always catch up with you. So as in being strong in the power of God must be strong in faith. If we are strong in faith, we'll be strong in the power of God. will be strong in the power of God. So when people say, "Ah, I didn't see this thing or this thing is not real to me." It can't be real to you now. You that read your Bible once in a year, you that never pray, that never study God's word, you that had never made up your mind that I will experience this thing that I'm learning. Some of us made up our mind, we will experience this thing that what is in the pages, what is in these pages must be true in our life. If God is good, good, powerful, we won't help him. We we'll put our life on this book. This is enough. God's word is enough. And we've seen the results. Amen. Amen. Hallelujah. Hallelujah. Faith is faith. Yes, sir. Faith is faith. Faith is dogged. All of a sudden, just now before I was going to leave the house, I was totally I was okay all through the day. just few minutes dressed. I had to take off my clothes again because I was just all of a sudden all under the weather. Where did that just come from? So I had to rest a bit. I told myself uh uh the all the thought began to come. This is just true story. My wife is here. She saw me. She came upstairs look at me and say I said I'm still going to go to church. I just all of a sudden we down. I say I just call pastor and say just turn a prayer meeting then pastor glor of them just do supernatural meeting. But I don't do that nonsense. I never chickening out. I never throw in the toy. I never quit. So I So I put music on that has supernatural restance where they are singing about healing. I spoke to my body. I rebuke this. I know where this is coming from. But I do not give it permission. Not even now that I'm going to preach. And I I uh I asked the Lord. I'm going to preach and I ought to go preach. I said, "I am your God for the Lord is your healer." And I got up, wore my clothes again, and I'm here. That's faith. Faith can be seen. I have been moving up and down. And I can jump. So don't think that it's pretends. know it's real s because I grew up acting in faith. I grew up acting in faith. I grew up acting in faith. I've experience faith. There's no there's nothing I can jump. I can jump. So don't don't don't feel for me. That's what I'm trying to tell you. But it looks how come all of a sudden they switch not I can understand the place of the anointing. No, I started feeling better even as I was driving down to church. because I was not going to wait until I feel better. No, I've spoken. I've rebuked it and I've because revelation knowledge is faithful. Immediately that word because it's more than which Bible verse you know me I know Bible verses I do Bible verses for a living which is Bible verse. So immediately that word came to me I am the Lord your healer. I am your God. I knew what that meant. I wore my clothes back. I say all right I am your god so this is

me just being vulnerable with you guys as I'm always that's I always preach in a practical manner it's you that do yourself if you are not real because I teach in a real way so that you have real result because I have real results amen I'm always like this teaching I share there's nothing I've kept back from you guys over the years because I want you to see that this thing pastor is not just a different human because sometime people feel like we are just different human beings we live in a different world is the same world things get thrown at us day in day out just some two weeks ago yeah I told you it looked like oh that one it was anointing that kept me amen faith is real I have faith I have faith I have faith I have faith. Then they tell you you have three weeks to leave. You say, "Hey, I'm dead. I'm dead." That's no fate. I use you say there's nothing like no fate. Look at the no fate. Now we are seen it. I'm not giving birth. Then give birth now. I'm not giving you never wish to cry. You don't know what I'm going through. Never know what you they go through. You think nobody else has been through it. My friend, how is knowing what you are going through going to give you a child? So if you find out that is something the natural that your body is in the by natural means every way even IVF may not even work for you. We have to cry onto Yahweh Sabato. By strength shall no man prevail. God who created the the eggs, the the sperm, the ovaries, the fallopian tube, the vagina. God who created every part of the body is well and able to sustain the body. [Music] No creator is without spare parts and spare parts are brand new. And if you want the bedroom, he also has it. Yeah, that's just for effect. I know that will get you guys. All right. Amen. Nothing terrified. And that's why every once allow me speak like some punks and junk come up and say things because sometime people feel like we have not seen anything. you how many how old are you? How many life have you live? Have you even been using the power of God? Are you does Satan know you? Who are you to Satan? Of what use are you to his kingdom? You even work for him. Sometimes you have not actively opposed him now and you you would think that we will not now have experience. You all of a sudden you now have a greater experience than we we have. Ah, calm down baba. Sometimes I'm even attacked because of you people. I know say that this this place I pray for so I come while come meet me. No, no, not like I'm telling you about counterattack. Not that I know that the reason why this thing who said me I for just leave why I go to pray for about matter but we can't chickening out. We can't chickening out. We can't chickening because sometimes we have to bind people to ourself and it's our strength that is carrying them. We have strength for two because that is the work of a pastor. Sometimes you have to I notice the word I didn't say pray for you have to bind the person to yourself because so that you not see that every time Satan the number you are calling we are seeing two number who are we going to attack you say that's no no that's that's not no that's no that's no that's no that's no that's can't see because there are times where we take up people's matter like that. Amen. Hallelujah. Very very important. Learning something. Hallelujah. So I started very early today to save a bit of time. So I have 15 more minutes according to my time. Amen. That's why I did not do any salutation. Just went straight to my message. I wanted to save time today. All right. So faith will help us to be

strong with the power of God. Are we good? Faith will help us to be strong with the power of God. I've let the cat out of the bag. So today I had no exaltation for you. Before I preached say my friends be strong. Amen. Yeah. Go down. Go down. Go down before they sing and make me. All right. Are you learning something? Yes sir. Faith can be seen. Yes sir. It is all over for us in this family. You speak like a foolish husband. If you talk that way, you don't come off as you guys. But that's how that's how people talk. That's how people talk. It's all over for us. I I don't talk like that. I don't deny facts but I deny his hold over me. Yeah. So even this even when my uh even when my wife asks me why you all holding your stomach and cringing the way you are cringing I say I don't feel good at all that's say because faith does not deny it. It simply overrides it but I'll be fine. I'll deal with it. I'll be fine. We don't deny we oh we we super import I don't have to deny that's how I feel but it's not has no hold over me no there's nothing there's there is something say do the scan again you only have 10 scan I show the same result they just finish one scan say one that one now the same thing you go they see s you have not changed it now oh boy you didn't get that they just finished doing his scan you say scan another one pastor say two scan huh what is the same thing as you just finish that scan. You'll see another one. Amen. Hallelujah. Praise God. Amen. Amen. It's very very important. I'm strong in faith. Look at the centurion Matthew chapter 8. I'm a man under authority. I say to one, go and he goes. Say to another, come and he comes. I say to one, go and that's author. And just I've seen no I've not seen such great faith. That's called great faith. So it can be seen there's something he did the something she did tenacity dogged she refused to quit called her dog gave her silent treatment theory things that if they try with anybody the person will not do again but the woman was still insisting and I go back and listen to that teaching on dogged in faith. Hallelujah. Because that is why many watchers are not watchful over your matter because in your everyday life you live like a jerk. It's papa that I read that is affecting me. It will feel a bit late by Sunday to not be there again. I just saw that again in the book. Why people act very very weird. You get it? Yes sir. Amen. Hallelujah. Praise God. So, it's all over for me. Huh? This one is all over. You just 8 a.m. 9:00 a.m. Today Today is a useless day at 9. By 9. Today's a useless day. By 9. Today's a useless day. By 9. Ah, sorry. Oh, your own is useless. My own is not 9:00 a.m. The day is useless. What do we now say by 4 p.m. They never even start. You don't. Some people are still sleeping. They walk in the night. They still sleeping by 9:00 a.m. You say the day is useless. Jesus had a bad day. He started his day bad. He already told him your your cousin is dead. He withdrew himself. We There's never a time that we even offense. We saw it in that place where they were offended with Jesus. They told Jesus increase our faith. So your emotional state can affect your life or faith. Say how I feel does not matter. Hey that's why you don't have faith. So you are in jealousy and envy. All those things are affecting your life or faith. You are jealous of people. Say ah why is this person why? Be genuinely happy for other persons. Be genuinely happy for other person's progress too. Amen. Have faith. So faith can be seen, faith can be used, and the angels, notice Abra uh uh what's his name? Elijah's faith. Notice

Elisha's faith. Notice how angels were released. It takes faith to believe that fire can come down if I be a man of God. Let's faith. That's faith. That's faith. That's faith. H takes faith to do like this and expect something. Ah, it takes faith. Faith. Faith. Faith. Faith. Show me a man who does not talk. I'll show you somebody who has little faith, weak in faith, or no faith at all. Show me your response in the face of adversity. And I will show you a man who has no faith, little faith, weak in faith. We can always share with you that story many years ago. Our first child the uh did a scan and they said fibers. So I asked my wife you will you deal with it or I will deal with it. She said no deal with it. Something supposed to make you scared. We are deciding who will deal with it in nothing terrified. Nothing should get you. Nothing wrong in also placing a call to your pastor. I'm not against those things. However, don't feel like he's all over. We don't do that nonsense here. Then I now come and lay hands. Look at who I'm laying hands on. Only God know. Only God know. What kind What are you doing here? Only God know. That's not how to receive now. That's that's not come and spread the spread the re release of power. No, you have faith receives from the power of God. That's why it's called divine healing. Scientific healing, we swallow something, we eat something. Faith healing, you have to believe. If this man really have power, let them clear the hospital. If those really have power, let them clear all the sick in the sick people in the world. Talk like you went to school and don't be disgracing your village people. Don't be talking foolishly. If you doctor, why is everybody your hospital not healed? Why you not sit down and say if why people come to church, they not get healed? Why people go to hospital and they not get it? Answer that one and two before we can start to see how in philosophy there's the rule of logic. Your quest your logic is faulty. You're arguing on wrong premise. The two are not competing. Number one, except you have a bad pastor that makes you look like medical science and the power of God is fighting. They are not competing or conflicting. is God that created the the doctor that has the brain to develop the the pharmacies. It's God that created all of those people and it's God that gave them the wisdom. And even if they say it's not God, it's God that allowed that invention to work. Amen. And even if we remove God from the issue, it is helping humanity. And anything that is helping humanity, God is for it. Hallelujah. Say, but that man of God sought the physician and he died in the Bible. No, he did not trust God. That's what the context is saying. Not that because he sought physician, God killed him. Aba, calm down. If I ever seek a doctor, God will kill me. The same reason the other people don't do blood transfusion is to be arguing Jesus is God. That's why people hate some people hate all this religion. I use religion. Hallelujah. Faith is action. The life of faith is not sense knowledge. The life of faith is revelation knowledge. The life of faith is not sense knowledge. It's not sense knowledge. It's not head knowledge. The life of faith is revelation. So you are going under. You see you have began to fall and you are falling really well in your business. No. You are you quiet. That silence is amen. Oh. No. Now how can you allow those wrong thoughts? No. No, I'm not falling and I'll never fall. Talk. We are everywhere. No, it's not by talking. It's by talking. It's by talking. Show me a man who had faith in the Bible that was silent. And I will show

you a man who did not have faith. Nowhere in the Bible did you see anybody who had faith, who was not talking, who was not acting. You say it. No. God has shown me favor. No, God has shown me kind. You counteract speak against that and not always are you reactionary. Some you are offensive. We call that speaking distance. So before the problem came, you started speaking. You didn't wait until you are about to be you. No, I'm not terminated. I'm not I'm I stay in the position. You have been saying it since. Amen. Amen. Faith can be seen. Immediately they told Jesus or Gyrus precisely, "Trouble not the master. Your daughter is dead." Jesus immediately turned and said, "Fear not." Jesus immediately turned and said, "Fear not. Fear not. Fear not. Only believe. Fear not." And he got there. Dam say I say arise. Dam say arise. We counteract fear. Every time fear comes, we say no to fear. We say no to fear. We say no to fear. We say no to fear. We say yes to faith. We say no to fear. We say yes to faith. Yes sir. Say no to fear. Say no to anxiety. Say no to worry. Yes sir. I believe God. Remember David said I would have fented unless I had believed to see the goodness of God in the land of the living. I would have fainted. I would fainted. Remember I gave you that text. If your strength fail in the day of our it was weak. That's why you build your faith. There's nothing like building your faith in the Bible because we are in new covenant. Eh the way you are talking is that not no faith little faith we can see your actions what was your response it's all over for me ah this sickness shall be the end of me let me prepare to die oh ah this thing really does not have cure have you not heard this does not have any cure no I don't talk like that no there's cure in go there's no medical cure there spiritual cure and I'll go the I'll go the cure of God's word. I'll go the way of God's word on this matter. I'll build up my faith. So they told Kflow, "You have cancer." I said, "All right." Afterward, he locked himself with Gloria Copelan's messages on healing until it dawned on him and he went back do his test and they couldn't find the cancer again. We should believe God's word. We should act on God's word. It may take one month, two months to build your faith if that's the first time you're building your faith in the face of the storm. But always build your faith before the storm before the issue comes. Have faith. That's why some of these things should be experiential. You have heard some stories here, some testimonies here. I've seen too many persons. That thing, that experience is making you know that no, no, no, not receive my healing. This thing will leave my body. You there's a tangibility Lord, open his eyes that he may see. That is faith. That revelation brings instant faith. Revelation knowledge is food for faith. Once you see it, once it's clear, say, "No, no, no, no, no. This is not the end." Hallelujah. Now, I have began to speak. Say, "No, June is a great month for me. I have several businesses. I have several businesses. tens of thousands of dollars, hundreds of thousands of dollars. I have businesses. I am doing big businesses. I'm doing big things in the name of Jesus. Say it. Say it. I said it. I placed a call to somebody and I told the person, I'll get this thing at the end of the month. At that point, I just reduced the account that I used for all those transfers. It wasn't even up to 250 and I was making a call. But that's faith. I tell the person I'll do that. We'll start that project. I start that that you see that's the life of it. That's the life of it. And I said to my wife because

I always use that teachable. I told her I said because I want the thing to work. So now that I've committed to him, I'm hard on the result. This thing must work. It's so hard on my body is why I'm breaking down. So, but the result must work. Yeah, I'm hard on the result. I give 110. I give this thing will work. It will work or it will work. It will work or it will work. That's the way of faith. That's the way of faith. That's the way of power. What do you believe? Stand on your feet. What do you believe? What do you say? So, when you say, "I have faith. I'm strong with the power of God." You cannot say you have that without faith. We end with this reference 1 Corinthians 16 and verse 13. Watch ye stand fast in faith. Quit you like men. Be strong. Stand fast in faith. Tell your neighbor stand fast in faith. Stand fast in faith. Stand fast in faith. Stand fast in faith. So when I act in faith, I'll see the power of God work in every area of my life. I'll act in faith. Every area of my life, I'll act in faith. Every area of my life, I'll act in faith. Every area of my life, I'll act in faith. I believe God. I believe God. Yeah. I Jesus opened to them the scriptures. Did not our heart born? That's revelation knowledge. Revelation knowledge is faithful. Did not our heart born when I saw it in God's word that ah I'm dead to sin. I'm dead to sickness. Sickness will never have the better. Will never have the victory over me in this life. I will live life as if there is nothing like falling sick. This is 25 years now. Strong in that confession. Amen. I live in faith. I act in faith. Just teenager since teenage days feeding on that truth. I believe God. My parents don't even know if I've ever fallen sick since they knew me. Only when I was a child because it's good to be strong in faith. Do the symptoms come? Yes. But nothing is going to break me over. Nothing is going to bend me over. No. I believe God. Hallelujah. Even the natural I say it. I have good relationships. I have great contacts. I have good connections. Say it. I'm always jamming bad people. No, I don't talk like that. I have great clients, great customers in the name of Jesus. I'm always having good report with my customers. I'm always delivering well. I'm wise. I'm full of wisdom. I'm full of direction. I get to saying it. I'm not confused. I know the way. You say it. Internalize it. Faith. Faith always gets the job done. Always gets the job done. Always gets the job done. Lift your hands and pray in the Holy Ghost. Faith always gets the job done.
