

Lord again in this service this morning we ask and we receive insight and illumination into your word we know that again as your word is taught doubts our resolve understanding is imparted into our hearts again in this service we ask that the things that ought to be said will be said the things that ought to be done will be done to the praise and glory of your name we declare that we are built up transformed by the power of your word this morning and our lives are open for healings, miracles, deliverances in the name of Jesus. Amen. Amen. God bless you. Have your seats. Unseen forces we delve right into the matter. Uh we've been studying around the context that we being wise and strong with his power. Being wise and strong with his power. Being wise and strong with his power. I'm to be wise. I'm to be strong with the power of God. Amen. I'm to be wise. I'm to be strong with the power of God. And it's our major slant in this new part of unseen forces. And the very first time we taught on unseen forces, we talked around understanding your spiritual authority. Now we are mentioning that authority, but we want to be more focused on being wise and strong with his power. I will see that results in our life. Really basically how we can engage those forces to work for our good. Amen. And if there are negative forces, how we can bring them under and ensure that nothing is impeding or stopping our progress. Amen. [Music] Hallelujah. Amen. Colossians chapter 1 and we will begin Colossians chapter 1 and we'll read from vers 12. Giving thanks unto the father which has made us meat to be partakers of the inheritance of the saints in light who had delivered us from the power of darkness. Underline the word. We saw this on Wednesday. He has delivered us from the powers of darkness and has translated us into the kingdom of his dear son. We have been delivered from the powers of darkness. I have nothing to do with darkness. I'm in the light. Hallelujah. And has translated us into the kingdom of his dear son. I'm in the kingdom of God now. So Satan has no claim to me. no claim to my soul, my life, my person. He has no claim to me. In whom we have redemption through his blood. Verse 14, even the forgiveness of sin. I wish you got that. In whom we have redemption. In whom we have not going to have, we have redemption through his blood. The forgiveness of sin. The forgiveness of sin. The deliverance from sin. Hallelujah. Who is the image? That's Jesus Christ who is the image of the invisible God. So this is the exact representation of God. So when you say how does God physically look like? He look like all humanity but he looks exactly like the man Christ Jesus. Did you get it? Man, mankind is his image. So this Colossians 1:15 you will see how Hebrews 1:3 now says the express image of his person he changes the word instead of using the word u icon he now uses the word character in Hebrews 1:3 because in other words there is no difference this is exactly God this is not uh one of the pictures of God one of the No, no. This is God in representation. So where you represent yourself, where you are. So it's not like I sent somebody to represent me. No, this is me in representation. That's Jesus Christ. So there's a difference between that. Why is God the only begotten son of God? The unique monogenist, the unique son of God. They say no Jesus is not the only begotten son of God anymore. We are now the son of God. The two truths are not fighting. Jesus is still the only begotten son of God because he

is the incarnate God that became a man and that does not affect him from being first begotten. Get your theology right. They are not fighting. It is the only begotten work that makes us today to be sons of God. And we are not sons of God the way Jesus is a son of God. Jesus is a son of God not as a created being but son of God as God. Amen. We are not sons of God as God. We are sons of God as created by God. Are you following? There's a big difference between that. So don't mix it up. So when he says only begotten is the word monogeneticis which means unique is unique. It's God that is a man. Are you following? And that's not that cannot be said for any other human being. Hallelujah. So Colossians 1:15 it says who is the image of the visible God the first born the first begotten the firstborn of every creature. So the pattern, the protocol, the the pattern, the specimen, what God was looking for in all creation is that all creation will reflect him, will look like like God and that God in that essence will now be look like Christ in the truest form because he says that's what God is looking for in all creation. Then he says in verse 16, for by him by Christ Jesus. So Colossians explanation of Christ here. If this does not look like God or God, then you don't have God because he calls Jesus God. So if Jesus is not God by all this explanation, I don't know which other verse can show Jesus is God. He says for by him were all things created. So he calls him the creator God that are in that are in heaven that are in the earth, visible and invisible. So he says they were all created by him whether they be thrones or dominion or principality or power. All things were created by him and all things were created by him and for him. He is before all things and by him all things what? He is the head of the body, the church, who is the beginning, the firstborn from the dead, that in all things he might have the preeminence. So notice he says, for by him were all things created that are in heaven, that are in the earth. So there are things in the heavens, things in the earth. And he says, visible and invisible, whether they be thrones or dominity or power, all things were created by him. And for him, hallelujah, is the head of the body, the church, who is the beginning, the firstborn from the dead, that in all things he might have the preeminence. So as much as he is the creator he in all things he would have preeminence an actual preeminence like we said or another phrase will be a manifest preeminence not preeminence as the creator but preeminence as being woripped and that is a fact because every knee shall bow and every tongue shall confess Jesus is lord ultimately not just now even to the end of the world every knee will bow. Even those that are going to be destroyed and removed from the earth will still acknowledge his lordship. Amen. So that's the focus in that Ephesians one there. And just add verse 20 to the mix because of the Ephesians 1 789 parallel as well. And having made peace through the blood of his cross to reconcile all things unto himself, all things in heaven, all things on there. when he says all things in that context always add in heaven and on the earth. Did you get it? That's why he says by him I say whether they be things in earth or things in heaven just in case the people are not following. Paul likes to be very clear. So I say whether things in heaven or in the earth. So he reconciles it. So they all come together in Christ. So we now have Jesus as the heaven and earth man. as the heaven and earth

place. The place where heaven and earth intersect. I'm in Christ Jesus today. I function in heaven and earth at the same time. It is such a beauty to be able to function in the seen and unseen world at the same time. I don't have to leave the earth to function in heaven. I don't have to be no I can be on the earth and function in heaven. And remember not have heaven as a planet. We have had to debunk that again and again. It is not a Bible study. There's nowhere in the Bible you see heaven taught as a place outside the earth in the sense of outside this world. What we mean by the word earth there no this world. Biblical cosmology Genesis 1 verse 1 in the beginning God created the heaven and the earth. So biblical cosmology is heaven and earth together. The world that God created, the world that God created is the visible world here and the invisible world here. That's why you see the two interplay. You see the two always engaging each other that one cannot be without the other. It shows you again why the marriage supper of the lamb again we see the marriage of heaven and earth because they are they look like they are ped apart. The male and the female look like they are posed apart. But the male and the female were made for each other. That's how the heaven and the earth may look different just like the male is male. The female is female different by that structure. However, they were made for each other. That's how heaven and earth were made for each other. And ultimately, that's how it will be forever. Not just for us, but for all humanity. Not just for us, the church. I mean, but soon is going to be that reality for all the earth. And we will now see the very physical transformation that we have always prayed for that we have always wanted. Amen.

Hallelujah. So Jesus created everything and he calls him the creator God. Look at Isaiah uh 40. Let's do Isaiah 40 1. Uh no 40. Let's do 40. We'll read all of them. Isaiah 40. Flip. Flip, flip, flip, flip. Isaiah chapter 40. Isaiah Jeremiah. Isaiah 40 from verse 21. Have you not known? Have you not heard? Has it not been told you from the beginning? Have you not understood? from the foundations of the earth. From the founding of the earth. Did you get it? It is he. This is how to uh praises for the great I am. It is he that seated upon the cycle of the earth. Why use the word cycle of the earth? I know say that upon the spherical. Don't worry yourself about that. The ancient men had the idea of a globe. Whether you today you say is fica is is round leave down one that's not the issue because their depiction had it like a world tree. So ancient men they are not today's world view is scientific. That world view was supernatural. So everything was interpreted supernaturally. So this phrase makes so much sense when you look understand that whole depiction of the world tree uh did you get it? So around cycle and I think I've shown you that picture when we're doing so we'll do it again on Wednesday. We just arrange all of those pictures and project them so that you see it. It is he that sits upon the cycle of the earth. So you understand that the audience were not confused. They understand that cycle of the earth is literally in their world view. So it's us that are wondering sit on the cycle of the earth. What does that mean? Because it is he that sits upon the cycle of the earth and the inhabitants thereof are as grasshoppers that stretcheth out the heavens as a cotton. Does that look like it's a temple? Like a cotton. There's a house and spreadth them out as a tent to dwell in. So it's

like a house. So that's why we say the heaven and the earth is like a house. It is structured and layered like a house. Understand that? Structured and layered like a house or a temple. That bringeth the princes to nothing. He maketh the judges of the earth as vanity. Look at it. So it says before God people who are to be feared, who are full of power and nothing. You understand? These are the things that renews our mind. Yay, they shall not be planted. Yeah, they shall not be sown. Yeah, their stock shall not even take root in the earth. and he shall also blow upon them, and they shall wither, and the white wind shall take them away as stubble. To whom then will ye liken me? Or shall I be equal? Seeth the Holy One. Lift up your eyes on high, and behold, who had created these things that bringeth out their host by number? The word host there is supernatural being. So, he created them. He's the one that created them in their numbers. He called them all by names. So he has called them out by names. So he gave every supernatural being function the word name by the greatness of his might. He did that by the greatness of his might. For that he is strong in power for that he is strong in power not one faileth. Why sayest thou, oh Jacob, and speakest, oh Israel? My way is hid from the Lord, and my judgment is passed over from my God. Verse 28, he goes back again and he says, Hast thou not known? Hast thou not heard? Has that the everlasting God, the Lord, he calls him Yahweh, the creator of the ends of the earth, fainted none, neither is he weary. There is no searching of his understanding. He giveth power to the faint and to them that have no might he even increases strength. Even the youth shall fend. So even the very young people they still get tired. Children they look like they have boundless energy. They still get tired and be weary. And the young men which is now the youth. So old English. So the youth there is where you say the younger than the youth. The young men is today's understanding of what we call youth. Did you get it? All right. So the youth in that when use the word youth don't read it in today's English this youth here and the youth here is more younger. So you say you can say adolescence that's why it's calling youth here and the lads shall faint and be weary and the youth the young men shall utterly fall. That's why we study original language not to be ex not for the fun of it but to see what the words actually mean in how they are translated because they were not speaking English when they wrote these things. But they that wait upon the Lord shall renew their strength. They shall mount up with wings as eagle. They shall run and not be weary. They shall walk and not fend. So is this forces? So with God there is a difference. They shall run and not be weary. So normally they should be but God is helping them because it is the Lord who giveth power to defend and to them that have no mighty increases strength. Verse 29 then he says the youth faint and be weary. The young man utterly forth but they that wait on the Lord shall renew their strength. They shall mount up with wings as eagles. They shall run and not be weary. They shall walk and not f. So God is called the creator God. Amen. And every time you see this kind of praises, he always brings in unseen beings. He call them by name. Come on. Verse 26. He bringeth out their host by number. He bringeth out their host by numbers. That's the very same thing we have again in Psalm 147, but we won't get there

now because I'll just quote it for you. He tell the numbers of the stars. He called them all by their names. Great is the Lord and of great power. His understanding is infinite. All right. So the same as I had go to chapter 41 42:5 sorry uh thus seeth God the Lord he that created the heavens that stretched them out notice why because that's majorly the building structure you build tent. You stretch out a tent. So that's why you say stretch them out. So you see that the heavens is built like a house, not physical sky for God's sake. Physical sky is the is the heaven physical heaven over the physical earth. Uh-huh. So that the heaven in the Bible, I've told you heaven has more than one application and I've given you the 8 n application of the word heaven. So when you read the word heaven in the Bible, heaven is used to explain where God is. You say, "Oh, where was he before he created heaven?" Come off it now. It's just language. heaven. The Hebrew word shamin is now being used to explain where God was before he even created the heaven. Why? Because of what the word means. So don't get overly no where was God before he created heaven? He was uh calm down. As much as the whole excitedness in preaching can make you sound sometimes sound unintelligent when you are not reasoning what you are saying. Where was he? It is called heaven in the Bible. Of course, where he was, you can call it he was in himself. He was in a realm of whatever that is. The scripture now calls that heaven. Are you following? Because heaven, the original meaning of the word heaven shines from the word shame. That just mean high. That which is high and lofty, that which is above and beyond. So that's how you explain where God is. Now God is in a high high and beyond. Is that not is that not simple enough? I say no no no you can't tell me it's the same thing. So it was where he was before he created the heaven and the earth. But now the use of the so so many scriptures says God in heaven. Why not leave it like that? Say no. So every time we are going to say God was in me before he made me. How does that sound? If if we are going to be intelligent since you don't want to be in heaven, you want to be inside of me. So how does that also work? before he made me. So all of them will always have because we will use created things to explain the creator. We will use the seen word to explain the unseen world. It's just normal communication. It helps for understanding. So God is in heaven. Our father who art in heaven, God who sees from heaven, who hears from heaven and all that that is mentioned. Second thing we see is that heaven is used to explain where supernatural beings are. Supernatural beings are in heaven. Whether you say good or bad, they are in heaven. Heaven. Spiritual wickedness in heavenly places. Angels from heaven. An angel from heaven. An angel Gabriel from heaven. Angel Michael from heaven. You see those phrases? An angel was sent from heaven to the Virgin Mary and heaven. And the angels from heaven, the host from heaven. You see that phrase is used a lot in scriptures. Supernatural beings are in heaven. Are in the unseen realm. And that heaven now is now layered. The heavens are layered. Not all the heavens are in Christ Jesus. We are in the heavenlies in Christ Jesus. Because the heavens are layered. Because the heavens have been polluted. Because it's not a planet away, but the unseen realm has been polluted with evil. Because man's cooperation with supernatural means polluted the unseen realm. So

there is now darkness in the unseen realm as well as much as there is light. And God is over and beyond that. However, he interfaces with the angels in that place that we now call the light of heaven or the the negative supernatural are in the darkness of the heaven. Remember not sky unseen realm. Always have that in your mind. Unseen realm is that okay? So that's heaven. Unseen realm the what you say the spirit word. That's how the Bible explains the word heaven. So heaven is explained the Bible as unseen realm, the supernatural realm, the invisible world, the spirit world, the spiritual world, any phrase that you you get. So because when you type it like that, you won't see it in the Bible. When you type unseen realm, you won't see it like that. R E A L M. You won't see it in KJV now 1611 for God's sake. You won't see RAM. So some modern translations today may put that but you won't see it in old KJV or the revised one in 190 that are the common Bibles we have today that still have the sh but not 1611 again you see it in the first page of your Bible if you ever read those things. So all of those Bibles will not have unseen realm. So there's an unseen world, an unseen realm. Anyone that you are comfortable with, there's a spirit world or a spiritual world. There's a spiritual world or a supernatural world or a supernatural realm. And that is where supernatural beings are. And God is higher than that. That's why Paul uses a phrase, I knew a man caught up to the third heaven. He uses the word because the heavens are layered that one is higher than the other. So in fact in the praises for God in the revelation of Elon where he says he's higher than where that great preacher today says higher than the highest God is stronger daddy my daddy said you know it is the contemplation of that almightiness that has possessed that dear minister of God so much and when you see that revelation of where God speaks of himself as Lelon the most high God they will see higher than the heavens higher than is higher. There's all those higher than higher than is to explain that he's the most high. For him to be most high, he has to be higher. All right? So the Hebraism not just Paul creating that phrase. Hebraism understands that and calls it oh the third heaven. The first heaven being the normal heaven of interplay. The second heaven which is where supernatural beings are. and the third heaven which is uh where God is. So that's how it is structured in Hebraism which Paul believes his audience understood why he didn't have to say this is what third heaven means because again like I told you you must sit where they sat. So the he's not teaching them what they have not heard before the phrase third heaven is common in their world view. So the first heaven is the heaven of interplay where we say I'm functioning in the unseen realm. the which some persons like to call the skies but abba and it's not that but the Hebrew people understand as the skies but when they are saying the skies there they're talking about on because they are seen it but they use it like far above beyond so the proper word for it will be the heaven that we interplay with a lot as it were engagement so when you say I'm doing something in the same realm then the second is where supernatural beings are then your third. So just to explain it now I've seen all manner of write ups that say oh seven heaven 10 heavens anyone if you have 10 then God must be in the 10th one because that's the meaning of is higher than all of that. So for lack of a

phrase they now say he's in the third heaven. Now that is not what the biblical writers are teaching. But that's how the understanding of God in that language Hebrew language. Hebraism is how the language indigenous to the Hebrew people and how they understand things in their language is what we call heism is m. So that means we are studying how the Hebrew people understand their language and use it to relate with different other words or concepts. So and there how they use their consonants their voice or even the use of paragraphs or uh the English language for example is very volal I will do this but the Hebrew language is cognitive you have to be intelligent you have to think it's not so you have to discern volition vition is not seen at the surface vition is discerned so once I've lost spoken twice have we heard it's that same double you have to think again you have to salah you have to pause think you have to ruminate these things again and again because it will open up so they will now write the God allow something to happen it will be written in causative why because of how their language is because their language is cognitive notional so the English language is if you say you will do just say you will do it is what so they will teach you tenses of willingness I still remember I was taught that in SS1 tenses of willingness so the the English language is very loud on vition I'm going to do this but the Hebrew does not structure like that so you can write and funny enough it is still within the English language when you say um why do you allow that baby to fall because the person was wanting care of the baby. So the baby fell in their hand. You are going to hold them responsible. You and it will look like as if they are the ones that push the baby. But you say why you allow that baby to fall. So what you have done now is exactly how the Hebrew people write. They write that h they write causative for permissive. So since God knows all things that happen and he is sovereign. So they write him that he must be aware of everything. He must be in charge of everything. So they're not saying he's actively the one doing it. No. But we can't remove him from the issue because he's there. He's aware. So you now see within the same context like I've shown you before, you now see contradiction where I will I will pass and I will destroy. Oh, Exodus chapter 12, the Passover story. Then in the same chapter, he say I will not allow the destroying angel. Which one are you doing, Lord? Are you the one destroying or you are the one not allowing the destroying angel? Now nobody's confused in their timeline because they understand that it is that God power is going to be seen in their deliverance. They are going to be casualties. So they will write in the causative as if God is doing everything because it is his power that is going to be made known through those whole events. So but we want to be particular in our investigative work who is holding the knife. So and a good detective a good forensic detective knows that if the detective himself is holding the mother weapon does not mean that he committed the crime. So many times God holds the mother weapons to investigate what is happen. Even God himself is not looking like ah because they snap the picture like that look like God is the one with the mother weapons. So he committed the crime. No, it is in the context. Upon proper examination, you realize that no, he's not. God actively who did this, but God is always in his protection. But when people reject his protection, he's aware

of what is happening to them and is letting it happen because they have already said no to his helping them and he's not going to violate or force himself on anybody. So they will now write everything as causative. Now this is an aside different from what I'm teaching but you see a lot of those phrases in Genesis to Malachi which is why many persons can't interpret Genesis to Malachi because they don't understand how the Hebrew people use words. I have done these studies before even in some Bible school meetings but since I have mentioned this this is just a pure deviation. Uh there's this Jeremiah. Let's let's look that text. There's this text in Jeremiah that comes to mind every time we talk around this. This is not on my note at all. just to Jeremiah 13. Jeremiah 13 and verse 13. Then shalt thou say unto them, thus sayeth the Lord, behold, I will fill all the inhabitants of this land, even the kings that sit upon David's throne, and the priests and the prophets and all the inhabitants of Jerusalem with drunkenness. You see it, I will. Now, always remember, there will never be a Hebrew word for that will. Like I told you, you will not find it. If you check the original, you will never see a Hebrew word because it is English. They are translated to the English language. So they are the one writing the will. So you already are angry. How can they be? Why is God doing this? There's no Hebrew word for will there. But as you read the context, you now see what happened that is making it say and all the inhabitants of Jerusalem with drunkenness. So wow. at the surface look like God is filling people with drunkenness. I will dash them one against another, even the fathers and the sons together, say the Lord. I will not pity nor spare nor have mercy, but destroy them. Year ye and give be not proud, for the Lord have spoken. So you go on. So but let's read before that for verse one. Just this is different but just put this as an aside on your notes for your intelligent writing. Uh a quick study on cognitive and causative uh tenses in the Bible. So it helps you. It's like I'm giving you a theological master class for free. All right. Thus here the Lord unto me. Go and get thee a linen ghetto and put it upon thy loins and put it not in the water. So I got a ghetto according to the word of the Lord and put it on my loins. And the word of Lord came unto me the second time saying take the ghetto that thou has got which is upon thy loins and arise. Go to Euphrates and hide it there in a hole of the rock. So I went and hid it by Euphrates as the Lord commanded me. And it came to pass after many days that the Lord spake unto me, arise, go to Euphrates, and take the ghetto from things which I commanded to hide there. Then I went to Euphrates and digged and took the ghetto from the place where it was where I had hid it. And behold, the ghetto was mad. It was profitable for nothing. Then the word of the Lord came unto me, saying, Thor say the Lord, after this manner will I m the pride of Judah and the great pride of Jerusalem, this evil people which refuse. Now see what caused that issue. This evil people which refuse to hear my words, which walk in the imagination of their heart and walk after their own and walk after other gods to serve them and to worship them shall even be as this ghetto which is good for. So is that again based on their action or the action God is performing? Their action is why they are good for nothing. Okay, beautiful. For as the ghetto cleaveth to the loins of a man, so have I caused to cleave unto me the whole house of Israel and the whole house of Judah,

say the Lord, that they might be unto me for a people and for a name and for a praise. So is this what God wants and for a glory, but they will not hear. Verse 12, therefore thou shall speak unto this word. Thus seeth the Lord God of every bottle shall be filled with wine and they shall say unto thee. Do we not certainly know that every bottle shall be filled with wine? Then thou shall say unto them. So you can tell that it is their response. So it's not like oh God is God is out performing an action. If you take poison, who will die? The person that took the poison. So it is their action that is bringing upon them the consequence. So why is it now been mentioned as if God is doing something without them? Because they believe we have brain. They believe we have brain. You can think you're an adult. You can think nothing should be confusing you here because their language is not is cognitive. You have to read everything. You can't just I read two lines is enough. No, it is a you know the meaning of cognition. You have to think you have to be thinking not I don't want to think I don't want to think. No, it's a deep language where they don't have too many words for many. The Greek language is more expressive than the Hebrew language. The Hebrew language is more conservative. It doesn't have too many words to express a subject. Very few words have more than one Hebrew word of which wisdom is the king of all of those phrases. Why? Because of what wisdom represents to the Hebrew people. Because their language is a wisdom language is a thinking language. So they have many words for that. So you would always have to read the the the context to understand what is happening because if you don't look like God is just performing actions, God is just doing this, God is just doing that. No, it is the context. Why we always emphasize contextual reading? Are we good? All right. What led us here were in Isaiah. I want to believe when Isaiah Isaiah Isaiah Yeah. When Isaiah talking about God is the creator. So how did he create? We said the heavens are layered and we're talking about the different applications of the word heaven. Just to backtrack back to where we stopped. All right. In your note, you should note that. So we're talking about heaven as where God is. Heaven as where supernatural beings are good or bad on because heaven is the unseen realm. Heaven is used as a short form of supernatural beings where instead of saying heavenly beings, host of heaven, you just say heavens, you put s heavens where he says the heaven where po Moses says I call heaven and earth to bear witness. Witness. Witness. Witness. Heaven and earth to bear witness. Witness. Deuteronomy 4:26. I call heaven and earth to bear witness. Heaven and bearing witness. It's not cloud that is bearing witness. I call supernatural beings and every human being present because Moses was conscious that we are always before the great assembly. So heaven and earth together. So he said, I call heaven and earth to bear witness. That's exactly what he's talking about there. The same thing in Psalm 89. In Psalm 89 where he said Psalm 89:5, "And the heavens shall praise thy wonders, not the physical heaven, oh Lord, thy faithfulness in the congregation of the saints." That sense there is the word kadoshim used for supernatural beings, a term for the nature. We call it nature technology. Nature is what a thing is like. Function technology is what a thing does. Status technology is the ranking of that entity. Are you following? So nature when you say spirit

that's the nature of those supernatural beings. When you say angel angel is not a nature technology is a function because it's a messenger. However, just like you say, I am a doctor or I use that popular example. You say I'm a nurse. You say a nurse that cannot detect vein. That has already failed. Now, that one is backyard nursery school because nurses can this is based on uh pair review. Doctors praise nurses a lot for their brilliance in being able to detect things that because the doctors mentally don't have time for all those things anymore. The nurses are more focused on doing all of those things because of the word round and all of those things. And you now have a nurse that is a nurse trained and certified but don't know where vein is is you and it's a nurse. He say I am then he said I'm nurse Vivian. What is what is that nurse doing in front there? I've just put palo in front pock. So he say doctor this and the person don't know where the heart is located. He's checking your leg. You are really a doctor. A doctor. You are not a doctor sir. Quack. Quack. Rainbow not Dr. Rainbow you get it? So the function over time is what we now use to describe the person as it were like an identity. So don't get it twisted. It doesn't stop the fact that angel is still a function technology because it's an assignment rule. So it's not a nature. So that's the reason why again like I've told you words have synonyms. So when you just type a N ges to revelation and say I have seen all the Bible vers on that's a very lazy way to study when you know that there are many words that I used to explain a concept you haven't yet studied on the supernatural and which is the reason why there's a lot of uh illiteracy about the things of the spirit because of how people just type spirit there are more use there are more expression of spiritual things that does not have the phrase s p i r o i t or even the u a l or any other thing you want to add to it and yet it is spirit that they talking about so don't study like that I've always told you beware of how you use concordance so it says and the heavens shall praise thy wonders oh lord the translators knowing fully where is the same thing brings in the colon and says thy faithfulness also in congression of the saints For who in the heaven can be compared? Are you seeing it? Who in the heaven can be compared unto L the Lord? Who among the sons of the mighty can be likened unto the Lord? God is greatly to be feared in the assembly of the saints saints there. The same word again, Kadosims. And to be had in reverence of all them that are about him. Oh Lord God of hosts, that's what he's talking about. Who is a strong Lord like unto the altar? Thy faithfulness round about. Thank you. So thy faithfulness congression of the saint. Thy faithfulness round about thee. Did you get it? So it's the context when he uses heaven. Heaven many of those text when you see heaven is a short form instead of just saying host of heaven, heavenly being they just use heavens. So in the Hebrew it is called shamim. I am once you add I am to anything in the just like in the English language we put s we put e s i that's how in the Hebrew the plural is I am you don't put s for plural you put I am. So once you see I am. So that word shim I am already shows you that they use it more and that's why there are more references for the word heaven use for super and use for you thinking physical heaven because I am the same way koshim the same way or depend on your transliteration are you following because the Hebrew is Q so pron kadosh because of

kesh kados the same things just transliteration from one language to another. Uh many of those words always have that I am shim for demons, devils. So is the plural Elohim. That's how you even know Elohim. That's why the Hebrew word has E as God, Elo as God, Elohim. So once they put I am is already showing plurality. That's why they are the thousands of references of the word Elohim in Genesis to Malachi many greater portion of them all refers to supernatural beings because he's used more for supernatural beings. Funny enough, because Elohim, but God himself is called an Elohim, but it's a different kind of Elohim from those other Elohim. God. G O D S and G O D is the same Hebrew word. G O D Elohim. G O D S Elohim too. They don't put Elohim. They don't put S. No, it's already plural. Are you getting this? So, it's the same word. G O D in our English. G O D. Elohim. G O D S Elohim as well. God also Elohim. Are you following? Because Elohim is the word for a resident of the spirit world. A residence of the spirit world. And Elohim is also a place of residence terminology. So a I am an earthling because I dwell on the earth. I am an Elohim because I dwell in the realm of God. That is heaven. So are you following? That's how the Hebrew language functions. So heaven is used like that like we said uh just quickly run through it. So heaven is used for where God is where supernatural beings are heaven is used as a short form for supernatural beings. So instead of saying host of heaven heavenly beings you just say heavens just like earth is used for man which does not bother you. Now when you say the earth was corrupt was it sound that was corrupt or human beings? Thank you. So it's easy to understand that part for when you say the earth when we now say heaven people start pissing on their pants like they are not thinking earth for man you agree say no you can't tell me that this is just a case of being stubborn and ignorant there's nothing like you can't tell me people feel like when they do you can't tell me that is not even how intellectual arguments are done is you can't tell me you are obviously saying something that is not correct you say you can't tell me that's resisting knowledge Earth is used to explain man because man is the people of the earth is called earth. The people of heaven is also called heaven. That's not so difficult to see. All right. So heaven is used in that context as well. So heaven is also used. Let's quickly put that number four. In no particular order I always say this scattered because I I don't say it from a note. Heaven is also used for uh the physical heaven. Let's quickly add that so that of course you are looking for the physical heaven and the word for it where they use the word heaven. Many times they use they use uh a different Hebrew word. Sometimes they use the word sham. Sometimes use a different Hebrew word which is the word raia which speaks of the firmament. They use it to just explain that you're talking about the physical firmament. However, sometimes they exchange it. So the sky, the physical sky, the heaven is also used like that. Then heaven is also used to explain the place of our authority. The place of man functionality where man is to function from on the earth. In fact, that is the starting point. Genesis chapter 1:26 where he said, "And let us make man our image and let them and let them have dominion." That is that side on the north. Now I'm sir, go deep. I know I will not. This is not the first time I'm teaching on this subject. Amen.

So do the hard work. Go listen to the messages. This is part four. For God's sake, that is how to listen. Say let's just do a quick study on it. No, this is the quick study I'm doing. So by mentioning it, are we good? All right. Because that's my focus is not maybe when I teach on heaven. as a topic. We can do that again. But I mean, go listen to the teachings that have those things properly explained because I'm just doing a quick summary so that we can continue where I stopped. Heaven is used for skies, physical heaven. Heaven is used for the place where man function from. That's where Satan was eyeing that he couldn't get the sides of the north. That's where today we say we are seated on high, seated in heavenly places far above. Man today is where God intended man to be the place of functioning. That's the Psalms chapter 8. When I consider the heavens, the works of thy hand, that he funny enough is not physical heaven. When I consider supernatural beings, what the what your hands made? I say what is man? When you look at supernatural and you look at man, they say what is man? It is David contemplating how supernatural have been respond to man. What is manful of him or the son of man? Psalm chapter 8 that thou visitest him for thou has made him a little lower than the angel. What angel there is Elohim? Made him a little lower than supernatural beings and has crowned him lower in appearance not authority lower than in appearance and has crowned him with glory and honor. How do we know his appearance? We saw it for Jesus Christ. So it's also Jesus lower than angels. No, no, he's the creator. But when he became a man, Hebrews chapter 2 uses that same word for him took on him the nature of man. It did not take on him the nature of angels. For as much Hebrews 21:14, then 216 and or 18 he mentioned that he took on him the nature of angels. 216 I was correct. Took on him the nature of angels. All right. So heaven is using that order. So the place of man's functioning from the on high. Uh who shall ascend to the hill of the Lord? You always see man being taught like man is supposed to ascend. Who shall ascend to the hill of the Lord? Who he that has cleaned and has not committed all of that because that was always where God made man for. And that leads to the next use of the word heaven which is now as a motive. M O T I F used to explain a reoccurring theme of mountains because in their world view the mountain top is called heaven because that's where the gods are that's where supernatural beings are in their world view remember so they use mountain to explain heaven so when you say is it in heaven that I should uh the Romans chapter 10 that Romans chapter 10 explanation that it says the word is mighty in thy heart and in thy mouth. If you look at Romans chapter 10 just put the screen put up the references there. The righteousness which is of faith speaketh on this wise say not in thy heart who shall ascend into heaven that is to bring Christ down from above or who shall descend into the deep that is to bring up Christ again from the dead. Now all this text where is he getting it from? It is Deuteronomy that is reading from Deuteronomy that is reading from and saying these things and the way he puts it uh in that Romans 10 vers say not in thy heart who shall ascend into heaven. So let's go and see it in Deuteronomy chapter 30. chapter 30 verse 11. So you understand literally the story for this commandment which I command thee where did Moses go to give

them the commandment he went up Mount Si that is heaven that's what he's calling which I go up to heaven to bring it for because what did Moses go up to bring commandment so for this commandment which I command thee this day is not hidden from thee neither is it far off it is not in heaven that thou should they say who shall go up for us and bring it unto us that we may hear it and do it. Neither is it beyond the sea that thou should say, who shall go over the sea for us and bring it unto us that we may hear it. But the word is very now unto thee in thy mouth and that thou mayest do it. See, I've set before you this day, good and life and good and death and evil. So it's in what Moses was the one who went up the mountain, who took them through the sea. But God's word has always been with them. Moses did not have to go up to bring God's word because God's word has always been with them. Even before they came out from Egypt, God's word has always been spoken. Even before Moses was born, God's word have been spoken to the people. So God's word have always been. So that's why I said the word is n even in thy heart. So it was just for you to obey. So just for you to respond. That's why it's now used to explain the gospel. So when we preach to people, it's not that they did not always know that there's a God in the heart of heart, but now it's just to respond. So you can't say we have not brought it to your face now. So make a response. I will follow Jesus or you will not follow him. So the word is n. So heaven is used in that regard mountain and we talked this where we in our series on the mountain of God. uh then heaven is also used as a short form of saying the temple. In fact in the ancient world they have heaven and earth and in every temple there was the temple is called the heaven and earth structure. The heaven and earth structure. So the every temple was built with heaven and earth in mind. The sin and the unseen world together. And in every temple there was an image at the center. The image is what is being woripped. Now it is that same understanding that Moses uses in explaining how God made man. He now said God created the heavens and the earth but he created man as his image not to be worshiped but man now as the image to represent God to all who come into the temple. So all who come into the world now have man as the image bearer shining forth which is why God never allowed them to make images which is the reason why it is called idolatry and all of those things which is why it's a big issue because he's distorting the order of creation is distorting the order of creation is the same way when a man say I'm not comfortable to be a man I want to be a female or female say I'm not comfortable to be a female I want to be a male if everybody was as dumb as you then there will be no human being again that shows you that that is against created order that is the meaning of chaos. So if everybody chose to be that wise which is really work thinking which is really uh all the nonsense of uh identity crisis. If everybody chose to be like that then there will be no more human beings. Now that show that is against the created order. It's against the created order. Is it within your choice? Yes. But that doesn't make it right. That doesn't make it right. So somebody say identify as a dog. Identify as a pig and you don't want to sleep with physical pig. Sleep there. Don't live in a house again. Let's let the imageries be true. You now note that people know what they are doing. It's just the right word is demonic

obsessions and perversions that wrong with those people. So Deuteronomy chapter 38 is not in heaven that I should say who shall go up for us to bring it. So heaven is used in that context. Heaven is also used in that uh temple context. This is where Jesus said heaven and earth shall pass away. Notice Jesus uses that phrase a lot. Heaven and earth shall pass away. Very I say unto heaven and earth pass one j when say heaven and earth pass. In the average Hebrew man hearing Jesus speak, you know what they are thinking about? The temple. The temple. Because the temple is heaven and earth. So how can heaven cuz actually and that's what God had in mind because which heaven and earth is passing away. Heaven and earth is not passing away. The heaven and earth that is passing away is the heaven and earth of sin, devils and all of that. But he that's why I said I will destroy this temple and I will rebuild it in three days. You see the parallels are all brought together. So the average Hebrew man because first kings chapter 8 when that temple called that temple heaven he says you will hear from here you will hear from heaven. He you see how many times heaven is mentioned in that first kings chapter 8 when he was the temple he say you will hear from here you will hear from heaven you will hear from this place he interfaces it a lot very long chapter by the way long there are so many verses in that first kings 8 and he uses it to explain what he's saying which is not different from what everybody in that timeline understood that heaven and earth could be called the temple Are you with me? So that's also how heaven is used in that application. So when you are reading heaven is in that application as well. Then lastly, heaven is also used to explain that which is uh that way of saying the miraculous that which is unexplainable. They will just use the word heaven. Bread from heaven. Fire from heaven. I mean we can't explain it but we just saw fire. So he say it is from heaven. Fire from heaven, bread from heaven. So he's used to explain the miraculous, the impossible made possible. So he said out of heaven, out of heaven, out of heaven. So you see that fire from heaven, bread from heaven, out of heaven. The Lord gave you that manner out of. So is used to explain the miraculous that which it's extraordinary. So we have heaven as the immaterial word or the unseen word. So you must get all of that view together. So when you are reading heaven, you have to look at the context to know which one. So it's not just like in your dictionary, one word has more than one meaning. My favorite example is always the word stand. If I say where is the stand that you sell, you don't have to get up. But if I point to Mr. the Lord and I say stand. How come he's standing up? Because I pointed to him and I said stand. It couldn't be go and sell something. Where's your stand? Okay. Now I say take a stand in life. Why does it not do attention? Because that's not what it means. Take a stand in life is not are you following? So I say where is the stand where you sell things? Notice is has nothing to do with all of that but it's still the same word stand. Everybody that is thinking know that that word we are using it in different context when it comes to Bible we off that thinking every word mean the same thing though no that's not reading the Bible has thank you my words have meaning in how they are used that's why dictionaries today a word have meaning based on how it is used in the sentence not just that what does this word mean depend on

how you are using it so we have to that's why when you wrote y when you wrote jam They showed you meaning of words with sentence. They were teaching you how to know meaning of words. That's why they did not just write the word and say write the opposite or write the meaning. They using a sentence so that that way you will be better able to tell the synonym. You better able to tell lexes and structure how it combines is the structure. The lexes are the lexical items. I want to know the noun, the verb. So that's just how language is. The same thing is when we are reading the Bible. So we said when we read the Bible we must look at it in the historical context, the cultural context, the grammatical context and also when you see all of that you see their theirollogical context as well. What people understood about God and that is actually biblical context more than just the pre and post text. That one is easy to see from the grammar. That's only pre and post is in the grammatical context. And that's just one aspect of grammatical context which I told you another already cognitive. So when you read a subject like unseen forces that we are teaching on you are not going to just type u n s e n and reference it. So say the bible is not loud on it. No. So hebrews chapter 11 we saw that through faith we understand verse three. truth will understand that the walls w that's the periods of time again normal word that you know is worlds is now used as periods of time because words have more than one meaning the walls Hebrews 11:3 true faith we understand that the walls were framed ws the walls that's the periods of time cycles of time different ages different aon you now realize why we Look at original language. The aon periods of time is different from cosmos. All right. The periods of time through that the periods of time were framed, arranged, put together, given it shape and order by the word of God. So God's word shaped every era in time. And how? So that the things which are seen. So how he shaped every error was so that the things which are seen were not made of the things which do appear. So they use the seen word to explain the unseen word. He now starts off with a by faith we see that a so you are seeing a physical sacrifice but the physical sacrifice meant more because the sin was used to explain the unseen. So he will use sin to explain unseen. That's how God's word was communicated down through the ages. And we've said that the biblical writers when they write so that we will have faith in God. Scriptures are able to make you wise unto salvation through faith which is in Christ. So the scriptures is to make you wise unto faith. That faith so the scriptures explains both the seen and the unseen world. So the Bible has a supernatural worldview context. Once you remove it, you already outside the Bible. So it is not anti-science. No, it is pre pscience before the renaissance before the industrial revolution before all of that the Hebrew and the Greek test were already written. So it's before the rise of science. Are we good? So it is primod not that it's against modernity. No it's not against modernity. So allow so we now say don't bully them. Don't allow ancient man to be ancient. It helps your interpretation. When you realize that, oh, they are not going to think it from our 21st century. They are going to think it from their own century. Then you will know how to read the Bible and interpret the Bible properly. So don't from your 21st century when you are reading their century. Year from their century, which is

where I now taught you exists to heretic. Always learn to move from exes to exeses is the critical explanation of the text. Did you get it? So critically explain the the explain the text. But how you would do that is in the then there. So I want to hear what did they hear? What did they say in the then and there? Then heetics translation I cross over to our word and translate it so that I can hear the same thing in the here and now. which is why Jesus uses that phrase in Luke 24 when he was teaching them beginning at Moses and all the prophets he expounded unto them that's the word demeno which is the where you get the word hermenetics principle where we say biblical hermenetics so he interpreted the scriptures unto them so what Jesus was simply doing was crossing over from that those text Luke 24 uh 26 ought not Christ have suffered this at the begin at Mo. So verse 27 it says and begin at Moses and all the prophet 24 27 and begin and all the prophets he expounded unto them. So scriptures are to be what? Scriptures are to be what? Scriptures are to be scriptures are to be expounded. He expounded onto them in all the scriptures the things concerning him. All right. So the things concerning himself himself. So when we study about unseen forces, we're looking at how it interfaces with the scene because you they are not it's not made in isolation. Come on. All right. Heaven is not made in isolation. They were made together. So and that's why you always see sound like I've told you every reference of heaven on the earth where you see sound from heaven something from heaven where did people hear it was it not people on the earth that hearing that voice from heaven was the voice of from heaven for the sake of the people in heaven to hear it no it's for the sake of people on the earth to hear it and again it takes a bit of time but which has happened to many of you when we say heaven let your brain not always run to jump up planet, it will keep shrinking your IQ. Biblical IQ, I mean your IQ the Bible because every time you hear heaven, you think to planet. Nobody in the Bible was thinking like that. You are the one that just doing yourself. So when they are thinking heaven, they are thinking unseen here. Are you following? So always have that imagery in mind. The seen and the unseen are here. It even helps you to switch It helps you find is majorly Christians who don't understand how they unseen water here. Look at that man has gone to secure alternative power from nonsense of course and they have given him a charm. It is here that is using it but it is unseen but it is here and oh they shoot him and the gun does not enter. You know how normal it is for people don't argue that when you hear now they shot me I like you say ah all this person they lie you have a problem of course and I'm not saying anybody have shot me before and nobody will shoot me don't worry the point I'm making is it is always easy for people to believe in the negative that's how much people worship the devil it's always say no you can't tell me that you can't tell me that so people have natural faith for darkness natural faith for darkness like ah you normal then they encounter people like us who don't have normal faith for darkness when you say something happened I say no it cannot be I always argue they always argue the one the light why should argue I don't believe all those things so say somebody I say let me try it always say let it try so let me try my own give me the gun let me try it with you that have the will now know say the last with

no end. I remember one of uh community boys that I that I do things with and he was saying I said he said ah so I said should I test it say ah baba n no no say you are power you that told me it will not do this and it not happen like that sir no don't test it with me I don't want to die can be we are testing power now now let's see test to see if it will so it depend on who testing said they fortified you against what? And against who? They not fortify you against me. They fortify against lesser. The fortification does for lesser. Fortification don't go higher. For fortify, so when the higher you not know that you so higher, you now forgration is to protect you from everything under. But when it is now something higher than the fortification that fortify you, it is over. Amen. And that's where we come to town. We are in that height. You say when we see h the higher power, we clear road from the highway. No, when you see the only power, we don't recognize you as power because over all the powers of the enemy are not shall by enemies hurt you. We no longer recognize your power as anything. And that's how the believer renews his mind to understand that in this world that is nothing. The devil's power and all of those things and we see all the effect of it and thanks to Nollywood, thanks to uh supernatural Hollywood and yeah not the supernatural Hollywood and scientific Hollywood. So they depend on the writer. I I like script writing. I like uh looking at the names of those directors. Some of them have a supernatural worldview context in their writing. So you notice all the movies they direct or they write the script writers are always in line with that. Some of them are just uh scientific AI and all of those other things. Some of them write with fantasy uh setup and all of that. Now the core of one of the things that have happened is that there has been an education towards the unseen world in the negative that is easy to believe that oh with sci-fi I can do this that is sci-fi movies science fiction movies so it's Superman Batman uh Black Panther what's the names of all of these characters the Marvel character the DC characters uh all of them Uh, Black Widow, Scarlet Witch. I mean, there are so many of them. Everybody choose their favorite, right? One, is it Ultron? He changed his name to Vision now. All the different names of all the different Marvel characters, DC characters, Green Lantern, though they mess up his character in the in different from the comics. All of those fictions, comics are now being depicted in movies and it's so normal and funny enough they are the highest gross selling movies. Why? Because natural man, every human being has an appetite that ys to be greater, that ys to be more, that ys to be over and beyond. So when the Avatar was released, not the cartoon, not the last MBN that the movie, the gross selling, you notice all of those because there was something about the unseen. There's something about the world beyond. Man has always crave for it. The same reason why people are waiting forward for their alien evasion. Can we shock them? It will never happen. It's just a foolish again is the world that knew not God. The word by wisdom knew not God. You keep looking for what the only creature you will ever find is human being and all the other things that God created on the earth. It's good you know. He said no they have been finding they have you are you are as confused as the person that wrote the science text book that now does not want us to use the very parameters they gave us to

fact check what they are saying which kind of nonsense because you you you snap one picture that we don't know if it is in it's in Broadway you snap the picture you now want us to believe that you were up in planet in the planetary system you saw this you saw that say no there are people that have gone to Mars and all and they saw human M stop come off that stupidity they will not find human beings there say no they saw some creatures sir are you watching movie or they did not see any creature stop lying nobody have ever seen any creature any human being say no but they they will look like all those things is in the imagination the only thing that look like that are demons so you sooner you understand that sooner you understand how man craves for something. So the only aliens from another world that will help anybody in this world is the church. The people from another world, which word from God's word to invade and colonize this world with his kingdom. That's the and until we rise to that occasion to be what the world wants us to be, what the world craves for as the answer to their issue, unperturbed, not troubled, not disturbed by any happening within and around us, then we can fully say we have taken our place because nothing puts the believer under tension. He's always at ease. Amen. And when we say I am supernatural, that is the core at the core what we are dealing with. I am not troubled over anything that is happening. Nothing h nothing that is happening gets me to that point where I'm worried. Um I've given up. I feel like there's no hope. There's no future. Never. I don't do that. Amen. And the more we understand the supernatural, the more we see that advantage. Then some persons now take it to his extreme and now hear oh when we say supernal supernatural they now become of no use naturally. So learn a skill they will not learn. Be diligent in your work they will not just oh I believe in miracles. Oh I believe in miracles. But that's not how miracles believe in you because you are you are doing something wrong. It's a it's again the heavens and the earth are not functioning properly. That is again chaos because you don't want to be useful on the earth. You just want Abba came through. Ah, God came through for me. Nothing, no doubting that God will always come through for us. But why do you want to be lazy? There are laws in operation on the earth and God that creator God wired this world with those laws. So there are economic laws. If you want to be rich, you do what rich people do. If you want to be poor, you do what poor people do. It's not a game of luck. It's not a game of wishing. That's why you can tell yourself that's why we train children to have goals. We train children to have foresight. So you determine where you want to go. So how do I get there? Then I ask questions. Then I would stop doing what everybody is doing because I want to have results beyond what everybody is doing. Then we say that's why he say teach me the ropes. Let teach you the ropes. So do it like this. Do it like this. realize that ah oh no anybody you see now they have money they must be doing fraud you you are too poor in your thinking are too poor in your thinking how much can be made through fraud how come they annoying for list say because they feel to declare the asset you are still thinking poor there's no asset in fact you can't do that kind of work successfully and even have an asset brain that's why the only asset they can have is to buy hand sorry is it pain you are you a member but that's please

I'm not I'm not of course I'm not against any human being as it were but having that idea that oh you know how hardworking those guys are and we sleep in the night they say all I just want is soft work papa is your work hard pass our own hard pass our own because we are sleeping You are still working sir say never pay never pay never pay. So the point we are making is this there are laws on the earth is if those laws we do we follow those laws by laws I mean principles or normal order you did not bait for three days you expect your body not to smell and you live under this tropical weather you think you are abroad where you just pray perfume to cover for you forget you sweat You failed biology class obviously. H you don't know you will bait. So you say I did not have to huh because I heard somebody abroad did not bait for one day two days wet which is not good but you know many times when our people travel like that they they fear the water. So it's hot because as water touches your body is is cold. Express with each other say I can't believe that I can't not get passport. You arguing travel first everything everything is fight everything aggression travel first you will know that is is cold so always understand where people are coming from give people grace no don't tell me that don't tell me that you don't have to always experience things before you are gracious how can they not be dirty pig we are waiting for you say understand now then you not delay your b evening you that in Nigeria you already 5 a.m. you are baited 9. In fact, if it's too hot by 12, you are baited again. Enter bedroom now say can't we just uh wait till evenly will not be better sir. It will still be cold. So there are normal laws the same thing if I do not that's why when Jesus healed that man say give him the child he say give him food to eat you know kill gyro's daughter will kill him again so he gives the food because he has certain nothing that was hunger but for a human being to be alive he needs to eat food is very important say no I don't eat food I'm longer in the realm of mortars you are watching too much Chinese films So every time you want to talk you always using emot that one the elix Chinese film you they do so to be healthy. So if I'm doing everything I should normally do doesn't mean God will not even when we make mistake in following those normal laws. See God is committed to us to help us in spite or despite. So you are not doing all the things you are supposed to do in the natural as it relates to those laws. God will God will never say I'm not helping you. No, it's only when you say you don't want his help that you will be without his help. So God has committed himself to humanity like that much more the man in Christ. Amen. Because that is his speaking that is his child that is his son his daughter there. So he's going to be committed to your matter. And once you give him that uh ownership he doesn't always have to ask your counsel because he's your father. The only difference is that your physical father you didn't you don't give them permission to be your uh your father that the one that born you but for God's own with your active will you say he's my lord are you following so from that day he takes the reign over your life except where you are dragging with him and he allows you your choice just so that you can see that this thing not ever go smoothly like that it is not in man to direct himself. So over time you now learn that is God loves me that's why he's even helping me and shielding me. So this thing is God helping me. So and that's how

it works. So back to what I was saying. So we can follow those laws. So oh I was taking care of my health and the sickness came the power of God will still remove it. Oh I was careless with my health. The power of God will still remove it. But now don't become careless with your because if you become careless with your health sickness will come again. because you are living in this world like I said in that our teaching on truth experience meeting that as much as we charismatic when we pray for people say that sickness has gone forever it's just one of our charismatic phrase where say it has gone forever you this you have a mortal body you have not yet put mortality if you are not careful with your body it will come something else if you got heat of this one another thing will come and if you do the very thing that bring that sickness from that same organ man again will come back that should not put anybody in fear but that's the reason why we should be particular with how we live so where I now follow these healthy living experts and they start selling fear to me I always uh log out from those people why because fear is not how I think how I function impact knowledge but don't impact fear but you know if you want to sell uh dark marketing strategy ies you sell based on what people like. You sell people uh people's fanaticism, their addictions, they are just dark marketing. Those things has a lot of play and people use those things. So, you know, if I market with fear, I'll get more following. So, people do all of those things. But there are other ways to market and achieve the same result without dark. There is not voodoo. that is just uh there are other appealing ways but you have to use the tactics that drags people. So for every of those bad way of other way of marketing the converse of it in the light is better and more uh of selling fear. Sell joy and you see that joy produces more. It's just that people fear more. So it draws people. But ultimately what people want is joy is peace. And once you can reflect that in your tone, you market better because it's foundational principle of all men. That's a bonus. By the way, back to what I was saying. So life generally there are principles, there are laws and we not to follow those things. Not say oh since you are supernatural just be disappearing from place to place. How were people moving from place to place before? How did all how come all the men in scripture did not have from place to place? And yet that was even a supernatural world view where there was now no technology of cars and all of the rest. You move from place to place. That's it. You move. It defeats the whole place of having legs. You can tell by design that man was not made to be disarrayed from place to place. Man was made to move. That's why Mr. Niger characteristics of living thing movement show say you are alive not they move one die so move move and that's why those of you who rarely ever move because you have cars not just one cars you will notice the day you walk a long distance you feel like you want to die so you are not healthy Google be careful I express you the so do exercises I beg you as As much as you just from AC to AC, from AC to AC, please set up your house in such a manner that you are able to climb, step up and down or just make sure you find something to do that allows you move your body. If not, you will know later why you should have been doing those things. Are we are we good? So there are all of these natural laws and we are to follow them. So the extreme now says to hell

with all of this to hell with all of this know some people are looking for their favorite pastor say I like this pastor he has told us that pastors are the problem they don't do this I like other ones why do we always have to have one extreme over the other and the same people that are now coming out to criticize other persons in their teaching where the same people that taught the same nonsense before but no problem sound doctrine is always exact that's why we stick with sound doctrine. Sound doctrine tells you you can be all you should be in the natural and you can also be on fire for the Lord. If you want to be a politician, you can be a politician, very good one for that matter. But you must understand how politics work and stop thinking is because I'm a Christian. That's why it's not favoring me. You are just being unintelligent. It's called political science. There's a science to it. You cannot do politics without lobbying. You you should not even not intelligent to be called a politician. not to know that they lobby say ah what is this nonsense called godfatherism? It is not nonsense. It is illiteracy that calls it nonsense because every unfortunate that is now called godfather but is because maybe from that movie you you are having wrong ideas but it's a mentor. Somebody must lead you in. Somebody must bring you in. If you want to sit with the nobles, you have to be brought in. Space have to be made for you. Of course, it shouldn't come at you selling. And that's proper proper understanding of God's word. I know I'm going to sell my soul. I'm not going to sell the country, which these other people will not now do. However, if I'm going to remove the fundamentals of playing politics, it's the same thing with um uh somebody wants to be uh what do they call that in secondary school? prefect uh he say vote for me if it's by voting that he say vote for me and he's saying I will I will um let's use the normal one that does not understand how politics work is he say um I will ensure that this whole school is clean juniors will not be beaten The whole reason why we want to be senior is to be junior sir. It's kind of which kind of politics is that one. You now wonder why you not win. The other guy he just said h cafeteria food on me. He say it's not fair. It's not fair. He has rigged it. But all of a sudden your values and which is why again which these are conversations people are not ready for because people are more emotional than they think. So once you just burn them burn them cancel culture cancel culture because it's again perpetuates illiteracy. Think. Be rational. Think before you jump and destroy businesses that took years to build. Think. Think. You have not been able to build anything. You want to pull down things. Say, "Oh, we are this. We are we are that we will tell." And all of the things you want to be good and fine. Nobody stops you from having natural people you love. And God's word is not against you having human beings whether sail that you like. You you want to follow their principles. But not where it begins to negate God's word. I will not destroy somebody else business because they are not doing no no. I will not pull down somebody else hard work. As horrible as those individuals are can be behave or evil will never overcome evil. It is good that overcomes evil. Two evils out of two evils choose neither. So this is the very way to perpetrate this. So there are other ways around it but often time mob action I've have to save many persons from mob action because people don't care hey we don't go we don't go already so we don't want to think

and I remember somebody asking me and saying that the whole system is a dirty game we need a a a a a clean party and I said don't you understand how this thing works if that clean party enters wins election every other person that were dirty before we enter that party because the parties are made for human being it's not it's not Christianity that we are using to accept people neither is it morality that we to accept into parties that is not how you buy the party from it's not how is your behavior is excellent behavior coming to our party no so once this has entered even if it was the party that everybody clamored for in the last election if they had become the prime primary people in key positions. All the evil, evil, wicked people that have destroyed the nation would have also followed to those parties too. It's just how it is. That's why your Daniel that you like. I want to be a position like Daniel. You know his party was party of witchcraft people. Sorcerers, he was not in a good party. He was in a demonic party. If you were in his time, you would have told him say our brother Daniel has fallen. He has been swallowed up by demons. But that's true. He was in a party of demons. What about Joseph? You say, "I may God raise me like a Joseph." Who was Joseph surrounded by? Which party was he in? Christian party. CP, CPP, Christian party. Christian Progressive Party. Nothing like that. Because who do you rule? You rule saved and unsaved, good and bad. So you cannot form policies that reflect only your religious standing. So you can't I can't as a Christian get into office now and start hating Muslims. That is stupid. That is not the reason why I'm president. I'm president over everybody, the saved, the unsaved, the good, the bad, the evil. because I'm also president over all the witches over all the that's why you see association of people decide that this who they want to vote for you said there's nothing like that no how can we agree how come that kind of thing it's on the earth only thing you not seeation of kidnappers and police will arrest them probably have not broken any law because the government are there to maintain law and order except when they now break the law and all that which many times is the case of anarchy. So we know very well as human beings how things work which many times most Christians don't they they just remove just like I gave this example now politics it looks strange you must know how basic politics work say it's not by sharing food I hear you don't vote of course it's not by sharing food you are very correct but that is not a statement to put food stop you will add other things because even in the campaigns if you have ever gone to any of the campaigns. You hear people say they share food for they talk. You not realize that what do people really want. So you have to interface all of it because you can't keep people for 8 hours in the stadium. All you just tell them is you bring a big book. Look at what I'm going to do when you vote. Look at what I'm going to do. You're going to vote me. It is against politics itself. You would have to bring your favorite musicians to sing, dance because people will need to be entertained. People, you will need all of those things. Then if you are going to say policies, you say small because people really don't want to hear. All they just want to know is that oh now our man be that our man be that. So when you now sit among intellectuals other forums you can now pitch your this is what I will do when I enter. Say who goes to campaign to this or that where people are

hungry looking for cloth they share as well be they will share food say oh that system need to change then we now say yeah come now you house they tweet come and gather in the stadium you will not come and gather in the stadium so is the very thing because you now have to work with organizations this is the normal order and it's not something oh is corrupt we we call normal order because it's easy if I get the students to vote For me it's easy. So I will have to work with association of oh I will have to work with the motor park because these organizations are so structured that they are union president can say if you not vote we not going to do this for again but you in your heart you can just say rain for not going out because you not drain one. So they always have to target this core association people that is politics. That's why you play it to win not that's why you don't lose friends over it. common sense things you say no some people who hate their family members say how could you vote for that party even God allows my choice to go to her you are you are you are now acting very devilish I have a choice as much as you can tell me oh it's a wrong choice but you can't tell me not to make a choice look at the creator of the whole world a decision as important has been with him forever. He doesn't put a gun to our head. Mark anybody that does not like our favorite candidate is a fool. He say this then tomorrow now you are you are saying favor me what are we what are we doing then you what because people don't understand how government work how because they think everything is just in the name of Jesus. So you say, "Oh, come let's pray. Let's pray about it." Hey, as you grow in influence, it's the same thing. As you grow in influence, as you become more wealthy, you must make friends with police officer, make friends with the military, make friends because you can easily call these people because now you're somebody who people may like to rob. It is the growth of life. As you grow in life, you must have network. You can't say it does not matter. This does not matter. Does not matter. Now you have called us. We have now come to come and remove you from the tight corner. How come you did not think those things were important? Because I don't mind my business. I just have now your favorite singers wig because protocols are important. Say it's not by protocol. It's not by protocol. It's by protocol. It's by protocol. That's why we tell people you see when we have a guest say everybody sit down wait until the pastor leave. That's the reason for order. Now you you you close the same time everybody we all forced to go through one door drag come on because that's how people are that's how people are that's why the leader must be stronger everything people see emotionally that should be getting to him must be thicker so if everything crumbles you then you can't you can't carry weight for 10 persons want to carry the weight of a thousand persons you want to now carry the weight of a nation you grow in listening. Of course, those other people may not or could not have and young people, young people should, but it's not because they are young that should give them the edge. It's because they have wisdom and what they can actually do to pilot the affairs. So, you learn, you don't say no Jesus Christ remember our focus on sin forces so that you are not surprised that I'm coming from this angle in this second edition being wise and strong with his power. Are you following? So, so people don't know, oh, when this can apply. Oh,

when this can apply, well, when this can apply. Hallelujah. So, understand how things work in the natural. Understand how normal things work in the natural. It's like mob action. People are saying, "Hey, you you do this." People don't listen. What do you do at that time? It's not to stand there and say the Lord will vindicate me. Oh, you'll be roasted. Run into a shop where a woman is and quickly start explaining because that woman will be able to say hey now my shop be there. Then from there people can now reason you just start there say no not be me not be me. Don't put for your head not for divine mercies that police were passing by. They for you say you not do. There was a member of house like that some years back that almost lie on her head publicly in the marketplace like that and that's how they almost just lynched her to death. You must understand how normal things work. So you saw that testimony from our brother because if he's not coming with the power of God, you have to do your hand like so that you are not fighting. You have to go and say if it is God that's why you not go live long because you you don't want to be normal. You don't understand the place of no the normal is this. So I should do this at the same time as I'm doing this. Always try on the same way I shared that story of the supermission meeting but some many years ago and the lady I did not even know she had not been able to have a child. I laid hands on her and she said God will do it. I said yeah. So so I said go meet your husband. You know they meet your husband there. Sleep with your husband for God's sake. So she said no God will do it. It took me time before I realized I was dealing with a mad person. Cuz how did she not know that she's supposed to sleep with her husband? I don't understand. She had auntie she explained it to me that no now pastor are you saying god cannot do it. I saidh don't you sleep with your husband. He said no not that one now but do I have to self can God ah they walk among us. Hey God they walk among us. They are with us. They dress like us but they are not of ah no once there are some things I say I say they walk among us thought are you following so the same even me as a pastor that sometimes oh some persons get married and when they want to have a child it begin to look difficult I tell them no it's either because you were not sexually active before it's your first time oh and your body's adjusting to the whole process that's like good chologist explain these things to you so that you realize that don't fear don't panic as long as there's nothing wrong with you you will have a child not go yeah come no your body will play tricks with you then it will lead to other things kill that fear because the woman that get not as he Now just do all of that and say then you have all those expert that put you under pressure. Know your cycle. Don't know your cycle for your husband. Your body belongs to your husband. Your body belong to your wife. Stop all those nonsense. Stop living as if you are a prostitute. You don't have you don't have seasons for your husband. You don't have seasons for your wife. So whether your body is doing this is my safe. You don't have safe and unsafe. You are married for God's sake. Stop living like you are gay. Remove those old lifestyle of of this is my safe. You don't have safe period. You are married man. What is the worst that can happen? That's what we want to happen. The worst that can happen as a married woman is you get b. That's what we want. I'm too blunt. What is the worst that can

happen to a pregnant woman? It's not to have a child. So have the child. So remove your mind from there. These are the things. All this you see how you laugh over it now. People don't take it seriously because again they don't understand normal order. I wish we can just do a series on normal order. You now see how many Christian not even know normal order. Normal order. Normal order. Normal order. The normal order of things is this. Not the normal order of in different things and say I want a job. I want a job. We only submitted uh CV in one organization. Are you playful or what is really what is what shall we what shall we call you? Say you say aba is my maker. Aba is my mover. Is it aba that to submit it there? Then we see the how lies begin. So you just submitted it somewhere and you say one is enough. After all God is my God. Even God is like God is my God. What does that mean? Then he's not inside the house pressing phone, playing games, relaxing. You made a way. When my back was against the wall, not all of us have that testimony as a song. It's your back that was against the wall. Some of us have never had our back against the wall. So when her back was against the wall, when his back was against just like that singer said, friends and family turn their back on me. No sir, it's you ma. My family never turn back on me. I have great family. Everybody I've never been able to sing that song. Say friends and family. No, no, no. Is that song is only unique to you ma having crisis with your producer now. So friends and family turn their back on me. I think they turned their back on you now. Let's be careful our confession. All right, let's drop it there. You guys know a lot of things. If you know, you know. Understand the normal order of many things. I said normal order of many things. I said normal order of many things. See I just read my book once in the whole semester. Labado. Shabado. That's why I should check the board. F a fa fa fa f a day f a day f a day you know f you got you you understand that's why you're laughing f everywhere friends and family read your book read your book and how do You read, don't put yourself under pressure. The normal order, there's nobody that is not intelligent. It's just they don't give themself attention. There's nobody that created dull. Even if they had two wrong jeans combining to burn them, they can fight. Yeah. Cuz you first inherit, your first smart comes from parents. before strong head, before your determination to be wise comes in. Before your determination comes in, that's why they do nature, nurture, they do all of those things in g when they are teaching all of those things. I can make up my mind that said every day Gary Gary Gary so even the diet is a diet that fosters dullness. Take milk. No, you say there's no milk in Nigeria. It's only creamy uh it's only cream we have no walla uh take this you say no you know nothing you are taking that help brain function then okay sleep in the night no is at the dead of night 12 after working hard all day forcing table dynamics to enter how can he enter how can he enter say h forcing everything to say this mechn I don't know why it's not entering we sleep in the left eye ah no now sleep that's why you see this scholar in your class you not see that that scholar in your class used to sleep you not say ah it's this thing is just grace it's not grace anything made lecturer left class they read it's in normal order because while it's still fresh you just go through the note then you read though that's why they gave you that prospectus before school resume so

that you will read everything before the school resume so that you are now ready. So when I teaching it was not your first time of hearing it. So then afterward you now have short time just review. So you have two set of calendar the one time table the one you use for all or you were taught that day you read that then you continue with your normal order because you want to finish a test book on time. Then you realize that oh I didn't even have to spend more than six hours. Anybody that read six hours in a day or to get straight A is don't know how to read. How can you read six hours in a day every day? The issue is consistency. You do two. So the normal order is two to six. 2 hours to 6 hours you always get abba. You will now have abba not a day. Just maintain it consistently. That is normal order. As long as you know how to read the same thing carriage to wealth. Understand how wealth is built. You say we say multiple stream of income. You say multiple. Someone say my passive income I have three passive income. When I say what is the passive income? Uh uh in the evening I also punch my laptop for a convention assistant. In the morning I work eight store. Why is that passive income? So you have one act one job and two side jobs. All of them are all active income. Which one is what is passive there? Passive means I work once and the money keeps coming. The process is automated. Is passive. You are still involved. You say it's passive. Dictionary has not lost it meaning passive. They wake up every So you have TV jobs, man. You have the one you do uh 8 to 4. You have the one you do 6 to 10 p.m. Then you have the one you do early hours of the morning, 3 to 6. And you wonder why you won't live long. Evil government say 35 years maximum because you shouldn't trade in time so much to be wealthy. You want to trade time forever and ever. Time is the only way I can be rich. Time is the only way. Time is the only way. So government say 35 years go rich. You're not rich because you are doing the system that does not help before they retire. You not 35 years. I be 30 years they have reduced it. Yeah. So we got time. Everybody starts off using time to make money and you outgrow it to use time to save more money. Time to use money to buy back your time. That's why you shouldn't do everything. The more wealthy you get, the more other persons now have money. You lie. You will still wash your clothes. You go still do everything by yourself. No give other people job. That's why you not having time to make more money. So because you not allow the normal order of how the economy functions work have investment like investment all you can think of is Pony scheme uh network pyramid uh I know this person that put in this one that put in this one I know this you bring two person that will not bring two person or you have the one that they give you outrageous ROI 70% how many in central bank how many is the one that SEC say is normal percentage you have exceeded it times three and the good thing is I will give the money 1 of April I will get it back from 1st of May you said I did not know it it will not work you did not know which business did they put something in 60% why is that not doing that same business should be intelligent nothing produc uses that fast in under a month now because that is not an investment. I say oh this is because you have used the word invest invest for that you buy books I have invested to my life book investment because we have lost the meaning of what investment means what assets the same thing

all these other areas so when we now teach unseen forces it always look like oh these pastors are taking our time me that is teaching you now does that not show that I know many things about many things so how have you stopped me from being supernatural and you know supernatural have reached There's nothing wrong with those things. So that's why in this series we are having a slant more. Don't miss out Wednesdays, Sundays being wise and strong because we really need to be wise with these forces. So as much as I'm doing what I should do, I know how to be wise with the power of God spirit. Know how to be wise. Know how to be all of those. I have people who uh work in multinationals. They will not create multinational corporations. They will never create relationship with their bosses. Whoever gets promoted that does not create boss say is HR fault. HRO why don't you understand normal human order. You don't want know my boss is evil. My boss is a witch. Have you seen that woman? Have you met her? Is you we have met. We can tell that you are a wicked person every time. Have you met him? Have you met her? Have you met him? Have you met? And once anybody just get a bit tough. Once things don't go your normal way. Evil, evil, evil. You know they quit. Oh, you see dead and you don't think the boss will get to know that you are part of the people who speak evil of him or her. Do you think informations don't travel far? You wonder why you are stuck there. I interact with owners of companies a lot. See that? Ah, you not think I know I caught ah you not think using playing in the office doing this give 110 understand the place of relationship understand the place of skill come from all the places and see if you will not be promoted. If you are not now promoted then we can then when we just add small force small power everything will become as it was made to be and that's what we are saying always know how to do things first normally it's same thing when in in the covid year the same way people were how can they tell us to wash and wash hand is is normal health you are supposed to be washing hand regularly okay wash and Say you can't tell me that I know whose I am. How does knows whose I am having to do with washing hand? Is it that who you are is afraid of washing hand? I know who I am in Christ. Just say you are afraid. You say wash hand, you refuse to wash hand. So the same priest that could heal the leprosy people were the same people that had precautions for leprosy don't have a wisdom that does not understand that the power of God can be preventive and it can deliver and can it's offensive and defensive understand to not say no it's always offense offensive or everywhere what about now where the power teaching you defense you will not now find you alive because you only know offense Offense, offense, offense. No. Understand how every of these things work. Hallelujah. I'll be wise with the power of God. I'll be wise with the power of God. Hallelujah. Amen. Amen. Learning something. Hallelujah. So there's how God created us and we choose to function that way. Say I choose to function that way. I choose to function that way. I choose to function that way. Now I use Deborah story, the Deborah story with Barak because it's one of those uh stories for me that does it because Barak knows how to fight. He's a skillful warrior. But he says Deborah if you will go with us it will help this matter very well and we have Judges chapter 5 verse 20 and it says they

fought from heavens that is the stars in their courses fought against Ceera. So it tells you that oh there was a battle this Judges chapter 5. So you have the story but before chapter 5 is chapter 4 where look at verse uh Judges chapter 4 let's read verse one and the children of Israel again did evil in the sight of the Lord when Hehoo was there that was the former judge and the Lord sold them you see again that causative the Lord sold them into the hand of Jabin king of Kaa how that's how you read the question is how did the Lord sell them out saying no God allowed them to be sold is what say God sold them into the hand of Jabin is it God that are you getting it. But he writes the causative as if so God is h permissive. God is in the permissive tense aware of what is happening but is writing it as causative. The Lord sold them into the hand of Jabin, king of Canaan that reigned in Hazael, the captain of whose host was Cesaria, which dwelt in Haroset of the Gentiles. and children of Israel cried unto the Lord for he had 900 chariots of iron 20 years he mightily oppressed the children of Israel and Deborah a prophetess the wife of Lapid dot which we heard a lot of criticism recently what is who is Lapidot where is Lapid dot well some teachings are not just from God which one is what what did Lapid now do you now who is Lapidot where is Lapid why is he not Tomorrow you hear people say things like you are against women say no I'm not against women. How can that teaching not show that you are against women? How does that not show that you have an issue against women? Must the man be present? Can't the the man is so secure that he can stay in the shadows while the wife is visible. Now you today modern man reading it now you are asking where is Lapidot? What a woo man. Ah ah where you now get your own findings from? And yet his name is mentioned. His name is mentioned because he must have been a wonderful person. That's as simple and they didn't say much about him. So why do you not get all the other details from Bible interpretation? And she dwelt under the palm tree. So she it means she was a woman of the unseen world. That's what it means in that world view. I've told told you before under the tree. under the trees as trees are contact point to the unseen world is same thing in that's why you notice the bin wants to be connected we go and climb tree you see tree at a d you see tree all is ancient world ancient that's why I call city of bin so you see allows you see all those ancient practices where there are sacred grounds so those trees in ancient times some other cultures in those ancient time we car faces of the deities into the trees. It's just to show you that because they had the concept of a world tree. The world is like a tree. So when you now see a tree that means this represent contact into the unseen. Of course not all trees I I hope you get what I'm not saying it is so physically. Aha. But those worippers have that idea because there's actually some sense to it but it should not be taken beyond proportion. Yeah. because it shields you against the sun. It's obviously a force. So something that can stop the power of the sun is how the ancient men since this tree can shield us from the power of the sun. There's something about it and so it became an access point and even people like to hide under shade because you know how important shades are though we remove all of them today in the name of industrialization. It allows us again be prone to many sicknesses. how you should

build where the building should face we don't care about those things we just build anyhow put trees in a compound you say no everybody want to do interlocking ties to lock your health too sometimes p sand there's a reason why our forefathers live longer but they are barefoot we touch the natural ground it does something to your age where your leg touch sand lie always pal pom pom sock shoe boot Okay, let's look at this. Uh 15 more minutes, 10 more minutes. And she dwelt under the palm tree of Deborah between Rama and Beth in Mount Ephraim. And the children of Israel came up to her for judgment. And she sent and called Barack the son of Abinoam, and said unto him, Hath not the Lord God of Israel commanded, saying, Go draw towards Mount Tab. So all the long story I will draw unto thee to the river Kishon Cer the captain of Jabin's army with his servants and I will deliver him into thine hang and Barack said unto her if thou will go with me then I will go. If thou will not go with me then I will not go. And she said I will surely go with thee. This was the game changer cuz you will follow. Of course she's not a warrior. So Barack called all the tribes together. As the story went, jump to verse 22. And behold, as Barack pursued Ceera, Jai came to meet him and said unto him, "Come, and I will show thee the man whom thou seekest. And when he came into her tent, behold, Ceera laid dead, and the nail was in his temples in the in the head. So God subdued on that day Jabin the king of Canaan before the children of Israel and the hand of children of Israel prospered and prevailed against Jabin. So if you read this whole story it looks so normal until you now have Deborah Judges chapter 5. Then sang Deborah and Barak the son of Abino on that day saying praise ye the Lord for the avenging of Israel. Yeah, all you kings give oh ye princes. So she began to sing about what God has done. They chose new gods. Then was war in the gates. Was there a she or spear seen among 40,000 in Israel? So there was no sheed or spear in the hand of 40,000 persons. My heart is towards the governors of Israel that speak ye they that delivered from the noise. So awake awake. So verse 12 of awake awake awake awake. alter a song arise barak and lead thy captivity captive thou son of Abino. Now underline that phrase captivity captive a phrase I will use for Jesus upon his rising up from hell he ascended up on high let captivity and gives to men. Again you see the supernatural worldview context then he says out of Ephraim was a root. It goes on blessed be this. Then jump to verse 20 or let's read 19. The kings came and fought then fought the kings of Canaan in Tanakh by the waters of Megiddo. They took no gain of money. They fought from heaven. The stars in their causes fought against Isera. So if you don't understand this use of the word star it will look like what is this saying? Seem to make no sense. So no, it made a lot of sense because the stars is used to explain the host of heaven. Supernatural beings are called stars. Job 38:7 when the morning stars sang together and all the sons of God shouted for joy. Why are they called morning star? Ancient men ancient thinking because the morning star is the first star you see when you wake up in the morning. So the supernatural beings were made before man. So they were there before the dawning of man. Man came to meet them at the dawn of time. So they are called morning stars. Allow that. Don't say is it physical star? It's not physical star that they

were referring to. Is the same thing with um psalm 147 verse 4. He told the numbers of the stars. He called them all by name. It is now when the very first time we saw the word star was in Genesis chapter 1 and verse 16. God made two great lights. The greater light to rule the day and the lesser light to rule the night. He made the stars also. So he called the host of heaven stars. That's why moon sun can also be called stars. Sorry that one is not Bible. That one is normal common sense teachings that we have from uh the astronomy classes and all of those things they teach that you can call the sun a star you can call the moon a star. All right. So but there are also stars that is normal. So the ancient men seem to know that and this is how Moses writes the scene and the unseen word together in the creation story. We'll come back to it. Now see that same host of heaven. See that same host of heaven phrase. Genesis 2:1. Thus the heavens and earth were finished and all the host of them. Then we now have Deuteronomy 4:19. Just write the references down. Host of heaven because of time. Let's this where we begin on Wednesday so that I can now enter the theology properly of un onces. And lest thou lift up thine eyes into heaven. And when thou seeest the sun, the moon, the stars, and all the host of heaven, shouldest be driven to worship them, and serve them, which Lord thy God had divided unto the nations among the whole heavens. So people were worshiping it, not physical someone and stuff, but what it represented because the host of heavens represent supernatural beings. Look at it. First Kings 22. Now we saw the Lord. So you may say, okay, that was idol. Look at Micaiah. He's having a vision. And he said verse 17, I saw all Israel scattered upon the hill as sheep that have no shepherd. And the Lord said, these have no master. Let them return every man to his house in peace. And the king of Israel said unto Jehoshaphat, did I not tell thee that thou he will prophesy no good concerning me but evil? And he said, Yeah, thou therefore the word of the Lord. I saw the Lord sitting on his throne and all the host of heaven standing by him on the right and on his so you believe physical sun and star standing to the right and the left of God's throne wow no so he's using that phrase host of heaven because of what it represent so there's physical host of heaven and there's spiritual host physical host of heaven is a physical s and star but the scene is used to explain the unseen. Thank you. So the word host of heaven. Nehemiah chapter 9 and verse 6. Thou even thou art Lord alone. Thou has made heaven the heaven of heavens with all their hosts, the earth and all things that are therein, the seas and all that is therein. And thou preservest them all. And the host of heaven worshipeth thee not physical s. So supernatural being are called host of heaven. Did you get it? All right. Psalm 33:6. By the word of the Lord were the heavens made and all the host of them by the breath of his mouth. So he made the host. the host. Just like we saw in Isaiah 45:12, I have made the earth. I created man upon. I even I even my hand have stretched out the heavens and all their hosts have I commanded. So he made the host. The host, the host, the host. Hallelujah. Luke 2:3 and suddenly there was with the angel a multitude of the heavenly host praising God and saying so nobody thinks to stars here glory to God in the highest so heavenly host supernatural beings heavenly host it is so in

the old and new testament books heavenly host heavenly host and they are with us hallelujah Yeah, we have innumerable company. Say innumerable. So there are many there are many oh supernatural beings that God created. Hebrews Hebrews 12 and verse 22. But you have come unto Mount Zion, the city of the living God, the heavenly Jerusalem, and to an innumerable company of angels. And the angels of the Lord encamp round about them that fear him. Abi. So just like we started our text this morning that Colossians chapter one I want you to be conscious this week of what is protecting you who God has assigned as a defense with you. So just like we have that Colossians 1:16 it helps my thinking when I put it like this when he says for by what is created in heaven are in the earth visible. Now notice what he calls thrones, dominions, principality and powers. That's what I have with me this week. So I have thrones with me. So if there's anything like altar, those not apostle that they are alter. I have thrones with me. I have dominions with me. I have principalities. I have powers with me. And that's how it is every day. That's how it is every day. innumerable company with me every day. Forever in protection. Forever. Forever in safety. Hallelujah. Stand on your feet. Lift your hands. Thank you, Jesus. I'm conscious of the sin and the unseen world. And I know how to live in the two worlds in heaven and on earth. I know how to function in heaven. I know how to function on the earth. I know the normal order of the earth. And imagine if you don't know the normal order of the earth. How you know the normal order of the heavens? How does one rule over the other? If you don't know how the normal order of the earth is in natural normal things, you don't know how normal things is, then how will you now know for the other one? But thanks be to God that we are learning this series will know it how both worlds function. Amen. and will be wise and strong with the powers God has given to us. And when we see things go trying to go contrary against the normal order that we want, we say, "No, you ought to go no further. It ought to be like this." We can superimpose God's power. Amen. Superimpose God's power, God's wisdom upon every situation and things will get better for us. Lift your hands and thank him. Thank him this morning. I live with the wisdom of God. I walk in the power of God's spirit. I walk in the power of God's spirit. Thank you, Jesus. Free though.
