

on our hearts, your spirit. And we trust again that in this service, the eyes of our understanding will be enlightened, flooded with light to leave you with a greater understanding of your plan, your purpose, your will for us. And even as we again investigate the unseen realm and study about how we can be wise and strong with your power, we declare that there is no confusion in this house. I declare that we shall be transformed, edified, and built up by your word in the name of Jesus. So that the things that ought to be said in this service will be said. The things that ought not to be said will not be said. The things that ought to be done will be done to the praise and glory of your name. Amen. God bless you. Have your seats. Amen. Hebrews chapter 11. Hebrews chapter 11 and verse one. It says, "Now faith is the substance of things hoped for, the evidence of things not seen." So you can say you are a believer and you are not keen with the subject of the unseen. Faith is the evidence of things not seen. You cannot have faith in God and be ignorant concerning the unseen. That is the meaning of being foolish in your living because faith is the evidence of the unseen. Hallelujah. And it says for by faith the elders obtained a good report which means they bore witness. Verse three it says through faith we understand that the world that's the periods of time the aons the cycles of time the periods of time were framed put together put into use by the word of God the word of God shaped it framed it so in every period of time God's word have come to the different men hence how they had faith because faith comes by hearing so God's word have shaped the different periods of time where men had faith in God. Then he says that word of God that framed those words came in a pattern so that the things which are seen were not made of the things which do appear. So that the things which are seen the things which are seen were not made of the things which do appear. So the seen and the unseen word. So the seen explains the unseen and that's how God's word comes to us. Hallelujah. God's word comes to us in that pattern that the things that are seen are used to explain the things that are not seen. Again, 2 Timothy chapter 3 and verse 15, Paul writing to Timothy says, "From a child you he has known the holy scriptures, which was able to make him wise unto salvation." Underline that word again, true faith, which is in Christ Jesus. The scriptures is to make us knowledgeable about the faith. Then he says all scripture is given by inspiration of God. The scriptures are written by man. But it says is given by inspiration of God. Which is why we say the scripture is 100% God, 100% man. 100% man's in writing, man's expressions, but 100% God because God information. Amen. Hallelujah. Just like we explained the incarnation 100% God 100% man. That's how the scriptures also it is God's word as much as is man's word. That is man's word doesn't change it from being God's word. Such beauty. Just like when we prophesy and say to hear the Lord that is God that is speaking to you does not mean that it's not me that said it. It's me that said it but it's God that saying what God is saying is what I said. So it's God that is saying it but it's me that is saying it. That's how the prophecy of scripture also is. No prophecy of the scripture is of any private interpretation. Holy men prophesied as they were moved by the Holy Ghost. That's how Peter puts it. So he says all scripture is given by inspiration of God and it is profitable for

doctrine. So we get our doctrine, our teaching, our explanation of our understanding from the scriptures for doctrine, for reproof, the evidence concerning what we believe, reprove, correction, instruction in righteousness, that the man of God may be thoroughly furnished and that's the believer may be thoroughly furnished. Now observe that it says that scripture makes me wise unto faith. So that means we can study from Genesis to Malachi and see the same things that are in Matthew to Revelation. And I've corrected that understanding that comes from overzealous teachings that have this idea that the Old Testament is Genesis to Malachi. It is not in the Bible. The use of the word Old Testament for Genesis to Malachi was not used by any prophet in the scripture. Instead it was used by the translators Melito of Sardis and all the uh uh translators original first translators are the ones what are we going to call Genesis to Malachi we'll call it old testament and not old in the sense I mean there's a history on this which you can be can fact check there's none of Genesis to Malachi prophet ever called the books they wrote Old Testament never neither did any of the apostles called Genesis to Malachi Old Testament. So when they use the word Old Testament in the Bible is not the books but an arrangement that is now expired because that's why we no longer offer sacrifices. We no longer use blood or bulls and ram that has expired. That is the Old Testament that has expired. Not the books. The books does not have an issue. Amen. Because those books are the books that the apostles taught what we now call the episodes. Amen. So the scripture is not fighting itself. It's only giving meaning now from the ending part because now we have seen some of the uh the mystery Genesis to Micah. Some of the things that were not so clear are now clear because we see the death, burial, resurrection of Jesus even to his ascension. We see clearly in the giving of his spirit. the ascension part and we see all this has come together to help us understand oh this is what the prophets were saying oh this is how they were saying what they were saying and that now informs and helps our biblical interpretation amen but we can never ever remove the place that what we teach what we preach should be consistent with the revelation that is in all the scriptures amen Paul said I said none other things. So we say the poline episode that Pauline episode is none other things than those in which Moses and the prophet said and that ought to be how we study. If not we run the risk of editing the Bible and not in an interpretative sense but trying to change what the prophets all the apostles wrote which is now going to we uh make shipwreck the faith of many which is wrong. It turn the gospel to like you are you an entertainer, you're a content creator, you're a skit maker using the Bible handling the word of God deceitfully. So must be careful of such approach. Amen. Romans 16 or precisely let's read 15. Romans chapter 15 and vers 4. It says, "For whatsoever things were written at full time were written for our learning, that we through the patience and the comfort of the scriptures might have hope." That we through the patience and the comfort of scriptures might have what? Might have hope. Patience and comfort of scriptures might have hope. So what about we're written our full time. We're written for our learning. So even to the stories even to the stories the stories that you have from Genesis to Malachi had to communicate doctrine and we put it

this way never read the stories in the Bible like you are reading a story book. Why? Because the stories were not written as the stories were happening. Remember it is if I tell you something that happened last year in L10. I'm not informing you of a story as if you don't know. I'm obviously going to use it to communicate something. That's how the prophet use stories because they know that same story. But now that it is written, we said those stories are used to tell his story which some people say history is his story. And that's okay. So that's what the prophets did. They use the stories that the people were acquainted with to now communicate God's story which is the gospel. Communicate God's plan and purpose. That is God's story. So they use those stories. So you can't say oh this is just a story doesn't make any meaning. No it's put there deliberately for learning for doctrine. Amen. And again we said in the inherency of scripture there are no errors in the scripture. Are there errors in the scripture? That's use the word inherency. There is no error in how it was written by the originals writers. The error is only in our understanding or in our bias or in your secrecies as we will call it properly. Amen. That's where the confusion can come from. But there's no error in what was written. Scriptures interpret scripture. That is the rule of Genesis. The scriptures can interpret itself. sufficient enough is every scripture to interpret every scripture because the movie unfolds itself that at the end of the movie you understand oh so this why this was said oh this why the protagonist the antagonist oh so the whole plot was all around this when we read the whole scriptures we see everything come together not one portion against the other portion is that okay so just like any literature. The Bible is now a holy literature. The one that tells God's plan and purpose, but it's still a book, a literature. And remember, there would be intelligence in the communication. So over the years, I've now began to use a phrase which we say the biblical writers deliberate because if we say the prophet, you only just see them as unintelligent people. But always remember that the writings were edited by more intelligent persons. They say, "Oh, he's just a fisherman mind. You don't know what he was saying." Have you read this? Are you smarter than that? I think it's fisherman. Come on. Be intelligent in how you some you can't even write rhymes. You can't write for words to flow. You see a flow. You see the use of figures of speech. Calm down though. Calm down. That's not how the word of God came to us. Amen. Hallelujah. All right. So, because it is their material, their name remains on it. Just like today you write a book and if you are not good with spellings and all of those things, you have an editor. You pay that editor. Now, that editor doesn't change your name. Accept is cost. It's your name that will still be there, but it's your book, but it has been given the standardization by that editor. So, just doesn't work. so much in this country but outside the countries that's why the editors can even tell you let's change the name let's put it like this not to their name just because it will sell better like this so the publishing houses and all those editors go through the whole stress of ensuring that is a good work of art amen so right from Genesis to Malachi we have stories events uh parables prophecies teachings things, wars, crisis, I mean all manner of normal life occurrences all written together and that's what it says to make you wise unto salvation

through faith. So don't throw it away. So a teaching like unseen spirit world they say is that in the Bible? So the very first thing people do, which is that lazy approach of reading the Bible, they just type it. S P I R O I T space W R O L D space spirit world. Zero reference. Say I said it. There's no spirit word in the but biblical words have for example the word angel has at least 15 phrases used to explain in Genesis to Malachi and you only have angel in your mind and you say you I now know authoritatively on the ministry of angel by typing a ng I of which some of that ag was used for god was used for man now you are in trouble where we now say this is say h no you can't tell me But you can call an angel. But you don't want the biblical writers to call a human being an angel. See how we determine no the right allow the writers to be intelligent just like you have brain. They have brain and they are permitted to use the word to refer to something else because the and it should not be confusing because they did not know that we're going to be cramming which is again a form that brings down your IQ where you say it must be this. So every time I see this wall, it must be this. It mustn't be. So hear the conversation. You are an adult. You can process conversations. Hear the conversation. Then you can give meaning. Not that every time we use this word, this is what it must mean. Come on. We are human beings. We are man. It is given to man to be spontaneous, to be inspirational, to bubble forth. That's why man by design is naturally prophetic. is normally priestly and kingly. He needs to dominate to have dominion. Man by nature is wired. That is the office of humanity. Not the man in Christ but humanity. But in Christ Jesus is now used to steal what God's purposes. Satan gives nothing. He only perverts or twists or misuses what God has given to mankind. Amen. And so a teaching like unseen forces being wise and strong with his power. We've been looking at quite a lot of things. We've looked at the Ephesians chapter uh six. We will still go back there again where we'll finally uh see what is we've given a context already about oh that wrestling and we know that oh there are dark powers uh principality powers might we see all of those spiritual weakness in heavenly places. or look around some of these different other things about how God made man, how man ought to function. But this morning we want to go a bit further to open up the unseen realm a bit more. Uh we did in our very first part of our teaching but we ended on Wednesday with the powers of the word to come and we said Hebrews chapter 6 that is the power God has and that word to come is the power of God's kingdom that we are in. So we are not waiting until God's kingdom take over the whole earth physically for us to now finally walk in power. No, we already have that exceeding greatness of his power. That power of the word to come is the power of his resurrection. We're already the people of resurrection. We're already the people of resurrection. That death has no hold over. And now we function and live without power. Amen. Now we function and live without power. We don't wait. And we said it makes our days bearable when we live and function. Because the sufferings of this present time, there are sufferings for standing for the Lord Jesus. Because the whole constitution of the power of darkness is against life, light, love. Anything that involves light, life or love that is of God, there is forces designed to oppose that. And so in living for the Lord, you will always notice

that enmity. You always notice that opposition in your living as God's man in your standing in your assignment. You always notice that opposition. Hence why Paul and all the other writers says the weapons of our warfare are not cannon but mighty true God. It's called spiritual warfare. And that is the warfare not a warfare in the sense that we are throwing blood with the devil that we have an opposition against our living for the Lord. Amen. And it's more than just casting out devil. That's a part of our how we live on the earth that we have to exercise authority over the devil. But the broader use which you say we'll get back to that shortly in some days to come in our series on that Ephesians 6 because there some things we just say straightforward. We have to be helping the understanding progressively. But the warfare there has to do with our living that there is an opposition against our living. So say the weapons of our warfare we war we wrestle the Greek word pale we have conflict who we are in conflict with is not Mr. and Mrs. This it's not brother this and sister this but it says principality and powers those rulers of darkness of this world spiritual wickedness that is the confrontation the spirit that is influencing those people's action and that's why we teach on unseen forces because most people do not know that there are spirits that can influence their actions because they feel like no everything I do I do it on my own I lie you they lie on Man, the way man was created, man is a product of influence. That's why I can influence you, you can influence me. If you stay a lot, if you spend long a lot of time with bad people, you begin to live bad, act bad. If you stay around people who are intelligent, you begin to look intelligent and sound intelligent. If you stay around dull people, you'll become because you are a product of influence. You can't say it will not affect me surely going to affect you. You stay around dirty people, you'll become dirty in a short time. You stay around people who pray, soon you will begin to pray. If you want people who love to win souls, you will join them to win souls. Man is a product of influence. And that's why God made living is one of the ways that make living so easy that our environment can shape us. So anything I want to be, I stay around that environment. And little things can reveal people when people fear certain environments that help them stay straight upright and all of that you know something is fundamentally wrong with their minds. So they're going to do something else that is awkward. Genesis 1 verse one. Let's start from that text. In the beginning God created the heaven and the earth. In the beginning God created the heaven and the earth. Now Moses is writing. He's not the first man who ever lived. So he says in the beginning do not read it like he is doing once upon a time time. No, he's teaching his audience about God's plan and purpose. And he says in the beginning the word beginning there like we've said over the years the word he uses for beginning is the word orit which means first fruit and first fruit is not the first thing that happen where you are farming instead is almost the last stage you are harvesting. So you must already see how he uses the word. So he's showing you a pattern that this is what God is looking for in so when he says in the beginning again which is intelligent writing because he writes with a pmic in view which is he's confronting the idolatrous background of his day. So he's defending the proper understanding of the of of worship of God. So he's making an

argument for how things ought to be. So he's writing a pmic and in that he says in the beginning not what you have in the enum elish the popular Babylonian story of creation that was everybody had a copy of such writings not what you have in all of these different things that the word came from this the world came from this the world was created by the many gods just like you have many mythological many uh creation myths in different cultures today. So he says in the beginning God so and he uses the word in the beginning the word rashit which is the same word used for first fruit which is the same word used for firstborn you have to exist before the firstborn and so he says in the beginning so he's not saying uh God in dateless past began don't do all of that that is going to make it look like this is the very beginning of time. No, Moses is the one writing to try to give us an understand of how things were from the beginning. Not that Moses is in the beginning of time. So now say how come he's writing about the fall? How did he know? He's not the first man and he's already Moses is after the fall. How can you not know about the fall? It's like you writing about what happened 2020 and 2021 and people are saying how did you know how was life now? So it's not new information. Did you get that? So it says, so he picks his phrases. He picks his words. So he says in the beginning. So notice of all the many words to use for the word beginning, he picks a word that shows that we have plant. We have we will first clear the ground. Plant they will now harvest. That thing we have harvested. The very first one is called the first fruit. That's the word he uses there in Genesis 1:1. In the first fruit, God created the heaven and the earth. That shows you exactly what God planted. So within his writing, you can already see two things. This is where we now say you have heard some preachers say Moses was writing about the new creation say no about the beginning of time. No, because he uses the word first. So something was planted, something went wrong which he will show you in the same chapter before you now have chapter that we call the fall of man. as if Moses is not already writing after the fall. Is it before or after? He's already everything is writing is in fact God's word came to us after the fall. So there is no writing or there's no teaching of God's word that known even if you want to say the one Adam there's no teaching of God whether by oral tradition or now the form of the technology of writing when it came after the rise of the Egyptian uh empire and all of that hieroglyphics and all those form of writings and later oh Moses and the rest in that culture now can write and process thoughts. So what was passed on by oral tradition is now documented in a book not this but in the book that the the kind of paparous scrolls that he had in those days that understanding that he's writing about must be clear. So when he says in the beginning in the first fruit so that means are there activities before that beginning before the the first fruit are there activities thank you so that's how intelligent the man is in his writing Moses when he say in the beginning god does is that what he had in mind he wants you to know that there is a plan and purpose of god and it hadn't changed even though something happened. That's why after verse one, you now have two and three that seems to show you why that something happened. So you see the earth without form and void. So in the beginning, God created the heaven and the earth. In the first fruit,

God created. So what he planted, what he's harvesting is heaven and earth together. Yes, sir. And that's why as I taught you on Wednesday the that phrase end of the world is not destruction of the world but the completion of his project what is it going to still harvest heaven and earth together because that is the plan heaven and earth were made to be together we're made to function together and again as we use the word heaven if you are new please don't run your mind to a planet that is not from the Bible you got that from but maybe idolatry or or foolish use of science The biblical heaven and earth are together just like the physical heaven and earth are together. Heaven and earth is always together just as it is in the physical. That's how it is in the spiritual. Heaven and earth are together. Amen. So it says in the beginning God created the heaven and earth together. which will now in Hebrewism how the Hebrew people use words and in their culture in their language they will now use heaven and earth figuratively to speak of the union of God and man later on so in the beginning God and man in a house God and man together it's the same thing heaven and earth together God and man dwelling and living together that is the intentions of God that is the plan and purpose of God and When we understand the plan and purpose of God, that's where we find purpose. That's why purpose for every human being is it's it's unique and and general at the same time. Why? Because it is the same plan and purpose of God that we all have. It's the same plan or will of God that we all have. But I find purpose in his plan. So purpose all that I do all that I pour my life into will be in that regard. So those things we now call career part those are just as exactly as it is called something I'm doing for money that's not why I live I live my living is for is so I find purpose in his plan I'm living towards that plan and purpose of god because he made man for himself so god man or god and humanity when you don't have a single Just me and God. God and humanity together was the plan from the beginning. So man was made for God. So I find purpose in that intention. Let us make man our image and let them have dominion. I find purpose in that intention. I find purpose in that. And it doesn't matter what I now call it which can which is where it becomes unique from person to person but he's still in that plan of God. So this person comes from this angle in how he fulfills purpose in how he lives for the Lord. I've told you before all those other things are not purpose as basically how we express ourself. uh whatever you aren't trying to do do it well because in your living on the earth you have to be involved with physical activities and those physical activities is in your interaction one with another and that physical interaction one with another shouldn't stop you from living from the Lord but instead with that same physical interaction you still live for the Lord amongst men because you dwell amongst men hallelujah amen Amen. So right from that Genesis 1:1 it says in the beginning God created the heaven and the earth the earth was without form and void upon the face of the deep. You notice the two face of the deep face of the water. The spirit of God moves. So the spirit of God will counteract the opposite of so face of the deep spirit of God upon the face of the water and God said let there be light. So spirit of God moving on the face of the water is where light come. We have explained this in many of our other meetings. So we we'll skip two and three for today and come back to it

as we make progress where we teach on the powers of darkness shortly uh in this series. But what I want you to observe is how he uses the word in the beginning God created the heaven and earth. The heaven there is from the Hebrew word shamaim which means lofty high above. It's the same thing in the Greek Oranion which is high above lofty high above. So when they use the word heaven, it's the unseen domain within the earth. Look at Exodus 20. Exodus 20 and verse 4. Exodus 20 and verse 4 is from verse three. He said, "Thou shalt have no other gods before me. Thou shalt not make unto thee any graven image or any likeness of any thing that is in heaven above, that is in the earth beneath, or that is in the water under the earth." Does this look like heaven is in a different planet? Because you're talking to people on the earth. It doesn't look like heaven is in a different planet now because it's talking to people on the earth and he says don't make any of heaven above. Does that look like heaven that cannot be accessed? No, that looks like a heaven that can be accessed. He's not making it the way he's using the word heaven there. He's talking to people and says of heaven that means is it that they can contact heaven above? Yes, obviously. Because like we said in our very first part when we taught on this series last year, funny enough, I was looking at my notes. Uh it was even in the month of May, I was still teaching on once last year, right? We said man contacts the word. Man can contact heaven, earth and now the one that has come as a result of sin, death and chaos which is hell. Man has authority in all the words. The name of Jesus. Every knee bows of things, things on the earth, things under the earth. So you have authority in theory words. Say with me, I have authority in theory what I have authority. Now see it also mentioned exodus 20:4 in heaven above in the earth beneath other is in the water under the earth now that's how the ancient men explain hell water under the earth so you understand the reason why people teach marine powers you can see the illiteracy of scriptures that be the literacy they have in scriptures why they always have to say there is because they use water why does the ancient man use water because water is away from the earth and the body of water takes you under. Where do we bury people? Under the earth inside the ground. So allow ancient men to think like ancient men. So now this body of water the seas the oceans as we call them which they will just call it seas. Water is not where human beings can live because it is chaotic. It shows that it is not designed for human beings to live inside of it. And it is an unruly evil that no man can tame as you begin to go down because the current it has waves. It has currents. It it it it can destroy ships. It can scatter things. So it is now used by those ancient men to explain chaos. Are you getting it? is now used by those ancient men to explain chaos. This is chaos. This is chaotic. Why? Because the seas were feared. One moment it is calm, the other moment every it is unpredictable. Abby. Yes sir. The things that live in it are far from our world. So that is what they are communicating. So they use the word oh the waters the sea to show that difference. Did you get it? So because it can be chaotic. Have you seen what water does where what do they call those uh disasters? Tsunami and the rest of it is nice. Ab you like it. Have you seen the power of water? So is there a force to it? Now imagine living

inside where is vary they look for. So and imagine an ancient man. Imagine an ancient man thinking. So how do you think he will process the information? How you think we process information as chaos? This is this is because remember they didn't even have swimming suits. They even have special apparatus in their time that they could use to enter into water. So this is a foreign world though. So what would they call it? The waters is another world. Are you seen how ancient men think? Remember we said don't bully them. sit where they sat then cross over and have the same meaning your own world today. So today we won't use waters under the air to explain hell but allow them use that phrasing which you also see in Genesis chapter one in the creation story you see how waters was also used. Amen. and also mention alongside heaven the waters above the firmament the water above and the water underneath all of it is deliberate teaching by Moses which you said is packed full but if all you want to have is Moses is teaching us creation story you'll be in trouble because Moses is not teaching us creation story alone is teaching us God's plan and purpose using creation as the parable He's teaching us God's plan and purpose. The same reason why somebody asked me over the years I said where is the unseen world chapter one I said is there in many places is there in when Genesis 1 verse one when he said heaven is there when he said face of the water I said no now is there when he said sun and said no now I said Genesis 2 verse1 I said to the host of the heavens and the earth when they were finished so it's you that didn't have heaven there because you were reading a give me a science explanation say where are all those other animals like the uh dinosaurs. You you are turning the Bible to what it is not. It is it is not a science book. It is not it is pre-science. Not is not against science. But don't turn the Bible to what is not. It will put you in trouble in your interpretation. When you want the biblical writers to interpret science, was there science in their day but what was in their day is powers. Nobody is doing science. Everybody is there's raw contact. I mean unlike today now where science have shielded the unseen world. People could be walking down the road and just run into a company of angels and they and if you say you saw angels, nobody was nobody was going to be thinking it's strange. Just like our forefathers would say, "Oh, I was going to the village and and and somebody appeared before me." Everybody nobody's going to be looking at them surprised. in the village there are things that shields the unseen world that's why when I was teaching on vision I told you the word apocalypse is the unveiling the so there are things that veils the seen world and I give you some examples uh the original design is for the holy spirit to be the one who takes us into the unseen world who leads us who is the access and where there is safety even if there was no corruption. God was always going to be the one to be the be the vessel we or be the one we live in that allows us access fully into all the operations or the fullness of the heavenly realm as it were. It was always going to be in Christ in God in our faith in God. if you want to use the word in Christ in my faith in God was always going to be how would I have access to it but you see like I've told you before the mind is the distance between the seen and the unseen world the mind the mind because God created man in a manner that he has a physical body is

what where he puts his mind that determines what he's doing if I mind physical things I'm doing physical things if I mind spiritual things. I'm doing spiritual things. So the unseen is now veiled. How? How? What veils the unseen? The sin, the physical. So once I lift, that's why the phrase for sin to the spirit is called lift up my eyes. Once I shift my eye beyond his natural use, I will be contacting the other world because he's not far. is here. But there are now natural things that can also make a man's mind which is your one of the greatest instrument you have on the earth guard your heart with all diligence for out of it are the issues of life. Now that heart that mind if not guarded look at certain things that can put you between words. Yeah. Because man, I'll give a physical different physical examples where high on drugs and weed can put you between words. Huh? It look like the person is beside themself in that you can tell that that's not how man is supposed to function in the unseen. So it's not fake. It is corrupted. Is never you can't trust information. Sometimes you say I got that wisdom from a mad man. It's because he's between words because now his mind is not functioning as he as he should. Now that is not what you should love and say that's supernatural. There's nothing supernatural there. That is the perversion. That is the corruption because his mind has been eroded by the drugs. You see we've had stories of people who like that. I remember then I was called, "Oh, brother took Arizona." I didn't know what that mean. I said thought he was traveling abroad or something until he said he took it like whatever that is. It puts that that blood all of a sudden because he didn't have the the mental fortitude for it or the physical uh infrastructure to handle it. It knocked him out. He was between walls started talking and seeing Ah, that's not in the realm of the spirit. Are you seeing? Because that the way God made man. So that put him somewhere. And people were wanting to hear because he said some things that look accurate. How foolish can you pro be? Nothing should be trusted here. Now there's a reason why God is the source of information. Why he said we shouldn't get information from other things? Because they will lie. They would it is not exact. It can destroy lives. Amen. Oh, the brother got free and he regretted and when he was told all the things he was saying, hey, I don't remember. Of course, because he I not remember be not remember not because he has been doing it for a long time is because he was not himself. We are supposed to be with full consciousness when we walk in the seen and unseen world. But he the the the level of intake put in between words is the same thing where somebody hasn't slept for long and they are stressed or going through divorce crisis all these many uh pains anguish failure my whole world has ended I'm dead I'm stress broken the whole emotion is in a wreck and a mess if the person again do not have any mental fortitude does not know how to handle the emotions as a skill which people learn in the natural. It will again go between words and at the moment you look like ah is she possessed. Is she mad? Why is she sounding like she's not she's not herself? Oh she's between words. He's between words and you again you can see that this is not the normal order because see how he's contacting it. exhaustion, fear. Hey, I'm all of these emotions getting the better of the person. All of a sudden, the person is between words. But I'm between words intact. That is the order. I'm

between words intact. So again, you see it third. All of them are over third way. You have seen people over the years and this as you pastor for me I've seen all of these things in different persons over spirituality which is not true biblical spirituality where uh all these things all these pastors are teaching they don't know what which is the reason why I oppose all those not apostles and even now with the nonsense dramas they try to act that speaks against the prophetic ministry which god will judge them because people write so much against teach us about the true operations and stop teaching us always about the force, the force, the force. Let people not throw away the baby and the bath water. You say, "No, we also say it. Okay, act a movie that teaches true prophetic." Now, we not go see. Why are we always fighting the real move? Every time there's this man of God, there's this generation. This is our generation. Teach the real one. Why don't we hear the real one from people's mouth? We want to hear the real one is I committed a crime. I c the devil I don't have rank for making a mockery of of and it's okay social media makes people popular to these days not again not based on their biblical study or their impact in life of people is how much they have mad people on YouTube cutting videos for strife and using to broadcast their insanity to the whole world this pastor said look at pastor uh look at bishop's response to uh Dr. If you are not caused, why are they responding to each other? Well, how did you know they responding to each other? You now go and bring a video of 5 years ago. You caught it here. Look at pastor Chris responding to and the people who watch those things are the same cloud without water wicked because they foster that devilishness because that's not how anybody learns. That's not how anybody grows. It's all these things not put in check that also brings us to the place where somebody is also now that over spirituality that I will show brother Jeremiah that I can overdo him that testimony I shared he has not seen any testimony I will go deeper hey there are realms there are realms is the same thing there are potters there are dimensions okay and no longer going in the way of our Lord Jesus Christ. So you begin to actually I've even seen some of them do there's a a video of the of a lady I play PS4 and PS5 there are some of the games they try to look use good music some of them are chant there's one I was showing my wife they doing ah I say this is one pastor's popular chant that they using to play because it's not peculiar to present you to do oh let's go to Cool. It's not peculiar to naturally in music is one of the way you move in when you are trying to oh from here move here oh use it just because you are trying to connect the lyrics the tempo the beats you just do some of those oh not that it now turns to the music that again is no longer music because we should hear what is being said there should be words nothing is being said other than for one hour. It is the very same thing ek people do the vision of light and sound which is the reason why they they meet grandmaster which is the same reason why all these people now get demonized and we have seen too many persons who follow those not apostles get demonized because they just sit down on their own for 2 hours you couldn't pray in tong for 1 hour but you can do a for two hours are you not possessed no wonder they came for you what is a for two hours what the hell are you doing just sit down ah ah Ah ah is this not how people get mad 2

hours doing you don't so you didn't even hear what you were saying he say ah this words that cannot be altered but you be it looks funny but you don't know the pains we have gone through because we have had to lay hands and say devil get out from that child of God where you now say was Was he possessed? Was he obsessed? Was it because you you have not confronted the powers of darkness? Because now we can't tell again because he's acting like he's possessed. That's why sometimes when we see something I say let just give sleeping messy, let them sleep when they wake up because because for the honor sake say they cast out devil from the way and they cast out devil the real way like you casting out from unbeliever. How it happen from all of this. I I will show them.

Reverend have not touched anything. He's holding back there hold back. Which pastor now not hold back? Me of all the pastors in the world I hold back. Hey, he's holding back me that many pastors in Nigeria hate for teaching people how the time write many letters were written to me that you think supernatural you want members to not love us. You're doing supernatural doing super adventure meeting across Nigeria. You think you are the only one. You think you are the Why did I say I'm the only one? The meeting is for other people. That is you don't answer criticism like that. Nei say I'm doing a great work. I cannot come down. I don't come down to your level cowards. They give them response. After I've seen some two years later, sir, can I get your messages? No response. 5 years later how you respond have any response if you were following me then you have all the time we have shared post you not see ww media now who you want to talk to I have no words for people that I don't know where they are from back to what I was saying so that kind of spirituality there's one that has happened I think was it last year I'll be or this PSF of somebody amongst us that again my message were not enough. He mixed my message with other people's message and yeah there's that thing you are looking for say there's more there's I also say there's more but we put it in the proper place if it was there's more you are looking for I also say there's more and I put it in the proper place where there is more but the there's more that you are looking for is I will show them I will you can do nothing against truth but for the truth so once you lie against the truth you contact sensual devilish that wisdom Because that wisdom by which he's using to press deeper is not of God and because he has no again mental strength. James says that wisdom is devilish. See the empowerment came from the devil. I need to be spending time alone. I don't want to be coming to church. I want to be doing 12 hours. I want to be doing 15 hours. You don't have a job. How can somebody be praying 15 hours every day? It's a sign of of of of ignorance. Now they say because I really love Jesus. Go get a job. Please go get a job. I don't pray 15 hours every day. I won't try and not not because of my great love for you. I won't try. I will make money. I will try it. I won't try it. 15 hours 15 hours every day. All of you give me 1 million and I will start it. You can until you can fund my lifestyle and fund my generosity and fund everything that I use money to do in this life. I cannot try to kind of just sit down. Even Jesus did 40 days every day of his life. I lie. No, there's times you there are times you do that. But to make it a pattern in the apostolic kada it is 12 hours. Shut your prayer. You

can't heal fly. Shout, shout, shout, sing. Get away. Get away. Don't complicate spiritual things. Don't complicate it. A lot of people have been demonized with all those complications. The things of the spirit are simple. You say, "No, you have to." So I'm about to ascend into the realm of immortals in the in the as I move into the ecclesia of the great Zion of Monarch of the great monarch of Zion. I see the embellishments of his glory and the vistas of Yahweh shine before me and I with all a bullance speak forth and say Yahweh is enough for me. So it's just no grammar, no physics join them together. It's not enough. Bishop is did a lot for God. It is not enough. You should press in. If he did not sleep for 35 days I imagine you hear me those stories I say we should die my father many they lie on all those pastor's [Music] head just like when I finished my days and my time and my angel have come for me they now say story about that I wonder how my children will be listening like say reosa was not a man he never slept say My daddy and I used to climb his bed and on top of his because he was no man. He was an immortal and people are listening then they go deeper. That's why we press on. We press on. We press on. We press on. We stay without food. We It's also how hard they used to go between words. So man should not live by bread alone. He didn't say don't eat bread. In fact so the the there's what is called emphatic mention the empas is there that man lives by bread. That's actually what he's saying. Man lives by bread. Man lives by food. Food is one of the reason why you don't die. But he's saying yes. Oh, food like food [Applause] though live by bread alone alone. So that means there is something else man lives by the word of God. So everything about our living is not physical. That's simply what he was saying. Not that you should not eat bread. No, no. William Abraham was no man. Well, it was not only once he did three days. Oh, you lie on their head. So, Lebran was no man. You see that hallow did not show up in his head. That's why you don't believe in grace. You say now God especially anointed me say what is that? There are dimensions. So you dishonor everybody because you don't believe that God can uniquely place a man like this because of his heart preparation or prayers before him or something. God has a reason for because there are two types of grace. There is the common grace and the uncommon grace in theology. Common grace is common to every man but the uncommon grace is not for is not common to everyone. There are reasons for God's own choosing an election like that. And that's what differentiates people. That's why we all not gifted the same way and we all stay in our office not go beyond the line of the boundaries God have set for us. Amen. And intruding to things we do not know. Amen. And that brother say oh there is this thing Dr. Malpa is no man. He's no man. We have children, but it's no man. The man will be wondering, "I'm no man. How could I not have children? Am I a woman? It's no man. No, no sleep. No sleep. No more eating. No more sleeping. For the next one year, there are realms of God to bowing to the lordship of the written word, without good wisdom, what happens to the person? they switch between words to the the devil takes a hold of them because first and foremost any man whose heart is not bowed to the lordship of God's word any man who does not have mental strength can easily be blown by any wind and that's why it doesn't

catch everybody and it doesn't catch people who preach it because they know the devil is defeated but the people that don't have the same knowledge that they have they catch them because that's how you know it's a wrong doctrine. It easily leads to people being perverted and people have gone between words like that in the name of there's more I tell the story of many many years ago how a brother left us we didn't see him for months then he came back doing bush we what was his issue we show that I'm greater than that wisdom is not from God that pride that made him use that as his reason to engage the unseen because that wisdom was not from God it opened him come up to wrong inspirations and they couldn't tell. I've seen people who pray and they are saying uh I want angels to be appearing to me and different angels appear to me and they tell me their name. I am angel makabes. I am angel logos. I am angelma. I'm angma. Calm down. Calm down. I am I am angel. Yes. Joker. And who left people astray? All those people who started saying things like I was praying in beside the Legos barish. What you pray now? Bab pray now pray you know go there with your go relax I was praying in the lo barish and the angel I can't remember this story I think brother knows this they were his mentors growing up we delivered him from those people uh and the angel of prosperity in the go appeared to me I not give you money and you are still broke say no I saw The re and it's not a demon. You say the angel. Okay. And he showed me how people rise. How people you need an angel to appear to you from beach. Why the angel have to appear from the beach? Everything is just wrong about the old vision. It doesn't look like Bible. But is dimensions. Now when you are every dimensions those things never have ever worked on me. Bow to the lordship of the written word. That can't be God. It was a demon. If anything appeared, which of course we know nothing appear, it's just a lie. Nobody lies more than all these exaggerators. Yeah. And I'm so shocked by when I see them talking, all I can just see is lie, lie, lie, lie, lie. And you're talking about sin. This month he talk about sin. Every week talk about sin. Every service talk about sin. With all this lie in your life, do you stand before God at all? Level of lie. Is it the level of levels? No. God's word comes to us to make us have proper discernment and interpretation. Amen. And people have gone between words like that. Oh, oh, I'm about to ascend. And people have gotten. So between words is the same stage. Then the last of course which is uh when you sleep physically not die sleep you are between words between conscious and unconscious. So subconscious became the phrase the uh scientists began to call that state subconscious. You are between words and it's the same thing that leads to death. In the same thing when a man is dying, he's between words. Which is why the one of the ways of raising the dead is calling the spirit back into the body. Because the person's spirit is now leaving the body. Not that the mind is between words is now the spirit that is now about to leave this word. So come back into your body and depending on what the person believed when they were alive on the earth it makes it very easy. I can be 1 second 5 seconds. People who have will to leave are easier people to raise. People who don't have will to live you have to go against just the same way the natural way when we pray for you to be healed. We have to

continue again and again and again because the person that they don't understand is the same thing or the people holding on to the person they are will is too strong and because they are the reason why the person came into this world in the first place they have every right to lay hold on the person which is why when we pray for people who are dead we always say where's the father or the mother who is saying this child will not die who is saying this person will stay alive we see the biblical pattern the mothers the fathers wanted their dead to be raised because they brought them into this world. There's something spiritual about giving life. There's something that's why true parents that pray, a good father, a good mother who prays know things about their children because life at its core is spiritual. There's something about that thing know that something is happening to my child somewhere. I may not know but something is happening to that child somewhere. Something is happening to my daughter somewhere. But those who deaden their senses away from the spirit will never pick any of such prompts when it comes. It's the same reason why we can hold these are some even older people knew when their father died. They just say seems like something is happening to my father somewhere. I can't but man has lost man by too much science. Science science we have forgotten that every human being has intuition. every human because man at his core is spiritual. Intuition is natural to every man. Intuition intuitively that's why you felt like calling somebody you call the person the person say are you on my mind though because it was not it's intuition and intuition is one of the ways God now uses to also speak to us because intuition is a normal way spirit communicate to spirit. Amen. Amen. So back to what I was saying about people have contacted the spirit realm like that and the one I did not mention is where you now go and visit a diver a charmer all the different names the Bible calls them sorcerer and all of those people and they now by familiar spirit and all the other forms of necromancy divination any other form of such lead people into the unseen that But how we process our mind. I mean there was that sister who was so in love with our brother and in when a wrong influence came upon her. We heard stories and he supposed to love me because she was not herself. Now all the secrets of our heart were revealed. It's not with us anymore. Right. So was a serious issue because she again was very ill because that illness uh uh let me use the word you say high fever. You said there's a lion in my room. Have you seen it papa? There's in your room better treat it. You are going your mind and so doctors have seen all of these things. So they know they prescribe something for the you see that is not that's why some of them don't believe that there's an unseen realm because it looks like it's just it's just the mind that is happening your mind does that mean it's not the realm of the spirit that is happening your mind does not mean that it's not the realm of the spirit it's supposed your mind is how you live in two words your mind because you need to be conscious you need to think you need to do things so your mind is very very important Amen. All right. Quick summary I did there. So which is why we gather our mind. Gather our mind. Which is why we always judge. We always judge and test all spirituals. We always judge it. So when somebody say the Lord said I'm seeing something. We always judge it with God's word.

Can say now lie and say no you can't tell me I know what I saw. Nah lie. Not the Bible. Not be so wrong spirit talk to you. Same spirit that told that one that God hates poor people. That's not the spirit of our God. That's not even our God or our Jesus. The same one that told the other one, all those spirit that is telling them all those things, we know it's in the book of Job. A spirit told me, you see, I like it like he say a spirit, one of Job's friends said a spirit. That's how a spirit used to talk to people. But and it will mimic the voice of Jesus for you because he wants to deceive you now. Once your belly is your God, you will hear God's voice sounding through your belly, speaking your belly infrastructure for you. Mmon mmon will speak to you, masquerading like it is Jesus Christ. Same thing, anger, pride, all those things have voices. That's why we say never confirm in the flesh what you heard in the spirit. So for me when I'm not in a good mood or whatever that means which I rarely am ever in because I hate those positions in the mind I don't make conclusions say ah this ah that hey this because don't confirm in the flesh especially when you are dealing with people you have inside information on don't now be using circumstances to what God told you in the spirit what God told you is more important than because circumstances can blow things and you cannot interpret things clearly. Amen. So God is a spiritual being. God is spirit. Is that not what scriptures teaches? So we're saying uh Exodus 20 verse 4 is what took us to all of these other places that I was. It says that is in heaven above that is in the earth beginning 20:4 that is in the water under the earth. So the fact that the air or the sky is what typifies the heavenly domain in itself shows us that the heavenly domain is on the earth because the air and the sky is what is used to typify heaven and that is on the earth. That's the same way that limitless space called heaven is within the earth just like the limit. Have you gone in a plane before? Do you see that that you keep going up? Keep going up that limitless space is still within the earth. So though it's called a world because it looks away from the ground but don't mean that it's not a part of the earth. That's how the biblical cosmology is. Is heaven and earth and the sin and death of man is what produced hell. The place of death and the unseen being which is that serpent is now the lord of that death. The place of the dead which is why that Satan is doesn't mean that he's the only one. I've told you before in case you are new that word Satan is not a name of a person but a function. The word uh uh I can't call you the oad that is wrong. The precious D fisiah the Nelson D alis I know now you're not the only Alice in the world is the but the Hebrew word Satan ha Satan h a ha Satan the Satan is an office shock you even used for the lord when he was resisting balam and the lord stood as Satan on the way So imagine you have always worshiped words. Never worship words in the Bible because it's an office an adversary. The Lord stood as an adversary against him. Let's study on that a bit and see how people uh because say that's where people had this idea there's only one Satan. How can there be one Satan? There are Satans, adversaries, devil and his angels. Devil again is not one. Devil is a function. Satan is a function. Those two words are functions just like angel is a function terminology. So in the realm of darkness, Satan, Satan, devil are all function terminologies. I don't agree. Wow. First and foremost, agreeing is a stupid

statement to make when you hear doctrine. Just you agreeing or not agreeing doesn't change anything. I said, I don't agree. No, no. It's not what we like that we say. We teach from scriptures and we are to accept what is in scripture because the other one could be pride say I don't agree but there's no other reference as I always say to our brothers that argue a lot you see after we have read all the references for the word say I don't agree I said then go for check up I'm very blunt I said then go for checkup because there is no other reference you are saying you don't agree so how does your not agreeing change the fact so because you don't agree I'm supposed to now accept I can't accept what you are saying man you are still wrong you're not agreeing because there's no other reference for this and you're saying you don't agree then that's your pride go do checkup you know the checkup now go to green white green building that's why we have psychiatrist let them investigate you if you are still fit to live among us I don't say all this part I don't agree I don't agree because you overestimate your agreement. Friends, I don't agree. I don't agree. I don't agree. There's no other. We have read all the reference. We said that word I remember doing this for a pastor. This word that word Satan is used 27 times. I said let's read everything. He agreed. I read everything. He say no I can't agree that that word is used for is used to describe God's action. How is you're not agreeing baba? You blind. We saw I don't agree. You are overestimating your agreement. of what uses your agreement say I don't agree so that word Satan Satan as we pronounce it Satan that word Satan is used 27 times the first time it was used is number 22:22 funny enough it was first used to describe God's anger God's anger as God's anger was an adversary blocking the way because God's anger was kindled because he went and the angel of the Lord stood in the way for an adversary. Are you seeing it? The angel of the Lord stood in the way as an adversary against him. Now he was riding upon his ass, and the two servants were with him. And the ass saw the angel of the Lord standing in the way, and his sword drawn in his hand, and the ass turned aside out of the way, and went into the field, and Balam smoked the ass to turn her into the way. But the angel of the Lord stood in the path of the V, the wall between on this side and the wall on that side. And when the ass saw the angel of the Lord, she thrust herself onto the wall and crushed Balam's foot against the wall. And he smoked again. And the angel of the Lord went further and stood in a narrow place where there was no way to turn either to the right or to the left. If you can do this to stop a man from going to cause can do this to to stop people from knowing from assessing my house can keep me safe. And when the ass saw the angel of the Lord, she fell down under Balam. And Balam's anger was kindled and sm and the Lord opened the mouth of the ass. And she said unto Balam, "What have I done unto thee that thou has written me these three times?" And Balan said unto the ass, "Because thou has mocked me, I would I would there were a sword in my hand for now would I have killed the imagine how strange Balam was." He didn't even think he didn't think it strange that he answered back when people would have run. That's how he was a man of the unseen. No fear. You know he has strided two realms before. Once you have gone between two worlds several times. You lose the

normal sight of things. The things that start a man that shakes a man. Say just talk what you want. Talk first cuz you are not somebody who interprets things the way normal people interpret things again. And the angel of the Lord said unto him, "Wherefore has thou spitting in thy eyes these three times? Behold, I went out to withstand thee. That's the same word. So you see how many times it's used. Verse 22 and verse 32. As an adversary and to withstand. I went out to withstand thee because thy ways perverse before me. So it was used there as adversary. Did you get it? adversary. So if you are it's only 15 times you see the word Satan as Satan of the 27 you have it only 15 times as Satan. So all the other times what was it now called they use the word adversary directly adversary or withstand and it's amazing that for the very first eight times that that Hebrew word Satan was used it was never used for the devil up until the very first reference where it was used for the devil which is 1 Chronicles 21 verse 1 one before you now have Job and Satan stood up against Israel and provoke David to number Israel then Job 1:6 7:8 so that word Satan must be seen as a function the function of an adversary one who withstands so and Satan now has occupied that office as his primary role in this world is to be opposing and withstanding people. Are you following? So that's the word Satan. Did you get it? An adversary. What about the word devil? The word devil is also a function terminology. It is an accuser. So the Satan is an adversary. Devil is the word accuser. Slander. Slander. It is the word used in first Timothy 3:1. Even so must their wives be grave, not devils, sober, faithful in all things. That's the word slanderer there. 1 Timothy 3:11. That's the word slanderer. There is the word exact same Greek word diabolus. Devil. Devil. Don't be a devil. A slanderer. So that's the word slanderer. Is the same word in second Timothy 3:3. Without natural affection, truth breakers, false accusers. That's the word false accuser. It is the exact same Greek word. Diabolous devil. So you see it's used to describe human because it's just a word. Oh boy. It's just a word. So it can fall for how you use it. So so don't cram say angel is always human being. What if the angel is using that context to describe man? What is used to describe an action of God? So the context will reveal what it means. Amen. The same thing again in Titus 2 and verse 3. So 2 Timothy 3:3 Titus 2:3 use the word false accuser. The aged women likewise that they be in behavior as becoming holiness, not false accusers, not given to much wine, teachers of good things or slander. to accuse, to take side against. So that's the word devil. So when you uh and again the word is plural. So when you see that word d v i l that there's no s is over time why people believe that there's only one devil. How can there be only one devil? That makes him too powerful just there everywhere and he's moving to and fro. calm down because we don't want to see a multitude of evil spirits because we want one. And I think we did that in our very first part of our unseen forces when we taught it last year on unseen for we explored. I mean that is the most thorough teaching you will ever find on unseen the unseen realm everything they all right so it's something to think about again and again. Now for the sake of what we're teaching the same uh being wise and strong with God's power. So we said that heaven is the unseen domain within the earth space. You know that was the unseen world is within the earth

space but it's not a definite specific location that you can physically go to called unseen realm. No but it's in the earth. It's in the earth. The same reason why the earth or the sky typifies the heavenly domain. So but they are not far one from the other. They are in the same place. But can they be distinguished? Yes, they can be distinguished. That's why heaven the unseen word here the seen word here can be distinguished. Just like male and female can be distinguished but they are the same purpose. Male and female created he them. They are both man. Male is man, female is man. So the male man, the female man, both of them are man. One man that is male and female. One humanity, man. Man man, both are man. Man man just that it can be distinguished. But you can't separate a female from being a man. You can't separate a male from being a man. Both are man. Are you getting it? Right. So just as the male and the female were made for each other in a union that's how the heaven and the earth were made for each other as so they are not ps apart they may appear so by uh distinguishing by constitution unseen sin male female but they were made for each other. Hallelujah. Clear, clear, clear. So in that unseen realm, in that unseen realm which will now be it is a realm of God and divine being. So the unseen realm is a word of God and of divine being. A word of God. Oh, so that means the earth is not of God. Hey my lord, who hears like that? Stop hearing what was not said. So that divine realm is the realm that houses divine being, spirit being. So spirit being are different from they are disembodied. So they don't have physical body. So angels don't have our physical body. God is not man. and God is spirit. So they live in the unseen realm. Now before God allow us use that phrase created the unseen realm where was he? He was where he was in and that's why that word also used to explain God heaven. But that is dominion language now says the heavens higher than the heavens. God is higher than the heavens. higher than it. So, but we have to put him somewhere because he's spirit and he made beings like him that are purely spirit, no physical body. Those are what we call supernatural beings. Spirits. So, we now have theory words we used to break it down. Terms that describe the nature of a thing that describe the function of a thing and the status of a thing. So, supernatural beings the same thing. Man, the same thing. So the nature of this being there are terms that describe their nature. The nature of the residence of the unseen realm of the spirit world of the supernatural world of heaven. Do you get it? There are nature technologies for them. There are function technologies for them. So it is the realm of God and of divine beings. The realm of God and of divine beings. Look at that. First Kings 22 19-23. Therefore, hear the word of the Lord. I saw the Lord sitting on his throne and all the because it's a vision. So, it say sitting on his throne doesn't mean that you have to put his bum bum on a chair. I hope you get it is because it's a vision. It has to make sense. If not, it will make no the man can't interpret it. If it doesn't come in human language, won't make any sense. Oh boy. Mhm. So he say sit on his throne. So that's the way it can make sense because of the way normal kings sit and their subjects are all around them. But the meaning of the word throne does not always have to have a chair because the word origin of the word throne means surrounded by his subject. That is the throne. The throne is not

the chair. Aba if you break the chair that means does not have throne again. No the throne. Oh beautiful people are laughing. makes the so if they break the chair what about kings that have changed their chair the chair is not the throne his chair was made by a furniture man chair but his throne is that he have subject that is his dominion that's why it can be used for thrones dominion principality power it is the dominion did you get it so surrounded by so the throne of God is that he's surrounded by angels surround surrounded by beings that worship him. So he's higher than his authority. So it is the realm of God and divine beings. We said the unseen realm houses all spirits while the sin realm houses all physical beings. So the unseen realm houses all unseen being. The spirit world houses all spirit being. The physical world houses all physical beings or physical things. I prefer using that word things because you know there are some things that are not beings that are physical. So the same thing because so people have asked oh this one this one are they all they are not all the same by nature. So we prefer the word spirit spiritual uh heavenly things heavenly creatures just like earthly creatures there's animals and there is human being there there's plants are they not all creatures that's how the unseen realm is there is creatures we like calling everything one word but that's not actually Bible study because when you study the Bible you see different words you see that there are supernatural beings that look like creatures Then the brain is awakened to proper actual study. So the unseen realm it's the realm of God and divine beings. It houses all spiritual things and entities. It houses all spiritual. So it is structured like a house and a temple. It is structured like a house and a temple. So let's read that. First kings 22:19 and 22 is structured like a house or a temple or a palace which is the order how ancient men think because every king the original meaning of I work from home started with the monarchy system that's why till date the monarchs work from home their palace is in their house they rule from their they live there they reign there they rule there they rule from there are you getting it all right so they are all put together and you You see those three words, house, temple, palace, all used to explain God's domain. Clear? Yes sir. So first kings 22:19 to 23. He said, "Therefore hear you the word of the Lord, I saw the Lord sitting on his throne and all the host of heaven." Is that supernatural being or physical son? No, it's not physical sun, moon, and star. host of heaven standing beside him on his right hand and on his and the Lord said who will entice Ahab that he may go up and fall at Ramad Gilled and one said one another showing you conversations that happened behind the scene okay now these kinds of spirits are what is referred to as watchers by function. I explained this the last time but we'll get back to it again but not this Sunday. Who will entice Ahab that he may go up and fall at Ram G? And one said one to another. Another another said then a spirit came forward and noticed the nature the a spirit because they all spirit being ruak ruak spirit. Then a spirit came forward and stood before the Lord saying, "I will entice him." And the Lord said unto him, "By what means?" And he said, "I will go out and be a lying spirit in the mouth of all his prophets." And he said, "You are to entice him, and you shall succeed. Go out and do so." Now, therefore, behold, the Lord has put a lying spirit. See the

interpretation so that you don't get it twisted. Say, uh, what exactly is happening here? So, the man knew what the vision was. Of course, it's not exactly word for word, but he has to communicate in a way that can be understood. Are you following? Ahab must die. Ahab must die. That is the divine conversation. So that is mentioning God is that that is the divine conversation that even God is fully aware because Elijah had first said it after the Nabot Vad issue. Elijah has said different prophets have said it. God is aware and even God the side of the man because he refused to repent. He refused to change. So that's why you can ask it in a vision. Not like God is saying I'm hungry. I need to kill a man. I need to kill a man. Help me. Help me. I can't do it on my own. I don't want to stain my hand with blood. No, that's not how to think. Because if you think it like that, you are projecting your own ignorance into the text and thinking that's what they are saying. That's not what he's saying. Visions are interpreted doctrinally. That's why you can never have a vision beyond your doctrinal persuasion. If you believe if you have a doctrinal position where you believe you will miss heaven, you will have a vision where you saw yourself missing heaven. as if heaven is where they used to go like that. See if you have this vision, if you have a doctrinal position where you have Jesus building physical houses for you in heaven, you will have vision of where Jesus is at the site with his helmet. Say today's work not easy. We are just trying to build uh mansions for all these people because they are really winning souls. Oh. M the way Jeremiah the way pastor S winning souls let's so say I roll me that fufu there Jesus K catch it like this roll me that pound there today sidewalk no easy you know you not press it like this one side come the way that shows they eating like a hoodlump come out from two side Is it bread or is anyone and say car today noisy say but we we go again tomorrow to complete our mansion people have they are actually people who have had those kind of visions where they some of them cast theel and I said and while I was s there it was about to rain somebody didn't get that in heaven about to rain you Now use umbrell mad is the people that have been believing you there how many women have bought car from it one Margaret and co all of them that's that woman's name now and there are many of like four of them all evil people have cash out on people's ignorance when he say he says the lord showed me I saw that he had in still on the head. If you are if you are not an idiot, how can somebody that is alive be in hell? You say but you see the audience gulping it say can I get part two of the city go to school. No people who are alive are in here is then so look like nobody touch deeper people they will see now mention I saw daddy WF in hell too he say yes so then say we should all repent that one [Laughter] hell ah Ah ah the Lord should mark iniquity who can stand. If he I have missed it just forget it. I have already missed just forget it. Ah no no no no remove my name. Remove my [Applause] name and that's you can tell is the devil to put fear in people to say I can live any I no some of them have confessed that it was that they were sick. They had that the same way they were between words. All those I told you that people between walls. They actually saw something. Some of them have come out just that we could not get their car back. They could not retribute it. I mean all those wonderful visions. You see

pastors will invite them. You see the pastor's wife will not tie hair as if she's about to escape. So that they invite the person say this sister are gone to heaven. What is o mean is that the ones always go to hell that means they were not saved. If they always are going to hell in their vision it could be they not born again or their doctrine is messed up or one of the two. So we need to investigate the two their doctrinal persuasion or if they are saved that's only when I hear somebody say I went to hell. Two things on my mind he was not born again before or his doctrine is messed up. one of the two and it's night is always one of the two I was I was always going to hell then they will give you the idea say ah it's not easy only five persons only two persons which heaven is that the one we are functioning from now that's the problem because you are waiting until you die that if you how can I now who I'm already living in heaven not know I'm going to be in heaven when I leave my body is it that I don't I've I've been nowhere before That's so it's some people when they die they are first I realize that oh wow I'm I mean I'm in the unseen yeah only that now you you are without use because you don't have a physical body to transact so you just wait till we all put on immortality because you are not transacting anything you're no longer in having a physical activity on the earth so you can only be watching physical activities on the earth if there's anything like that are you following Okay. But did you catch what we saw in 22? It gives this idea that God meet with a group of spirit beings to decide what happens on the earth. And that's for real. And you could spend a lifetime in some traditional churches or setup or reading the Bible and never know that there is there is such a thing as that and it's not in one Bible verse. I wish it was in five. We can say it's not much. I wish it was in 10. I wish we can say it was in 20. But alas, it's littered all over the scriptures. That idea that God has a host he works with. But before you say, "Ah, that's not fair." He also has a host he works with on the earth that is called human beings. God has supernatural beings he works with to decide things as much as he also have physical beings he work with to decide things. And we are part of the physical beings he work with. Amen. And both are called ecclesia assembly. Assembly. So there's a assembly of spirits that he works with and there's an assembly of human beings that he works with to decide things on the earth. Hallelujah. Because God always likes our involvement. That's how you know real authority. When you say I'm in charge, I'm in I'm in charge. You always fear what the other person will say. This I always beg husbands. I don't know how they get this their funny authority from. I am the man here. I'm the man here. Go get I'm the man here. I'm the man here. So because you are the man here, you can't allow your wife talk. Say I don't want to hear your voice in this house because I make the law. I make decision. I you can already see that your eye will be I you are doing things too much now. Which one is that one? Look at God more powerful, more wise rather than anything and any being allows engagement. You are not human. I must say you are not acting human and that's where violence come. You act like a beast when you always have to use authority like that for you know you don't hurt the woman that you see because you authority. That's not how authority works. Now you know that the those in authority likes to lord the man that is on top is the one that can serve he

can minister he can to to be the head is not I will suffer them that's why everybody is always trying to be the one in charge so they can suffer that that is already that system because to be in charge does not mean I suffer people to be in charge means I care I steward I manage I ensure this thing works well it is responsible is not the head of the home is here. Everybody going to hide. No, that's the wrong use of authority that we have mastered as the right use of authority. Are you following? Then we now have young ladies also who say things like, I never want any man to tell me what to do. Don't marry stay single your life. which is better to dwell on the rooftop than with you. My friend, you're dangerous. That song is for you. I is better than with a clamorous woman. It's better to go on the rooftop. So, it's better to stay single. You It's okay. Just keep slaying and stay single. It's amazing. We love you. We celebrate you. Stay single. Thank you. I don't want no man can tell me what to do. We love you. So I don't want to hear wedding cuz the day we catch one man around you say do you know she can never take any man says say oh I never knew now run and run which somebody's son does she want to to to to keep somebody's son does she wants to kill say I think we over now it's always when it comes to the man part that I think we overdo this submission thing when the man is is later in life he's not doing too much. People who are not ready for marriage always want to get married instead of working on themself. Work on yourself. Work on yourself. There are certain traits that are unmarable from the man and from the woman. So you see all those it is better. It is better. He did when you because if you get married you now see that it's also better in the marriage you are now also living on the rooftop and that rooftop is also what translates to the one that society now uh is making look so normal divorce these days because you have been dwelling on the rooftop since you can just stay on the rooftop male female inclusive. Amen. Amen. Psalm 82. Psalm 82. Psalm 82. Are you here? Yes, sir. Psalm 82. Psalm 82:1. A psalm of Assaf. God stands in the congregation of the mighty. He judgeth among the gods. G O Ds. Let's see how many times use the word Elohim. God, that's the word Elohim. So if you read it in the Hebrew, Elohim stands in the congregation of Elohim or L E L. He judgeth among the Elohim. So God is mentioned three times in verse one. But the the middle one, they don't they did not now use Elohim. We now use L which is the real word for God. Funny enough, L cuz Elohim. The I am is plurality in Hebrew. I've told you before instead of S I E S E S the Hebrew use I am to show plural. So when you see I am shows plurality. God standed in the congregation of the mighty. So Elohim stands congression of the of the of the L of the gods. He judgeth among the gods. So that L is what he has called Elohim. So you can't mix it. How long will you judge unjustly and accept the presence of the wicked? So that means these spirit beings are judges. They judge. So what were they supposed to do? Defend the poor. Father defend the poor and the fatherless. Do justice to the afflicted and needy. Where you think my actions don't matter. Your actions matter. Notice God heard the cry of that baby. Not he that must be pray. So they drag somebody husband. Is it not hear? How can can he pray? You know after they drove out from the house we have an arrangement. You go cross the arrangement turn to

something else. You cannot be a witch when you are so driver come out. God told Abraham in that kind of sensitive matter. Remember she had a child for him. He said listen to your wife in that kind of serious matter. You not we're not ready for for spirituality. said, "I'm so spiritual. I can't listen to my wife." Something as sensitive as that. He said, "Listen to your wife." He did not know that he had a child. You know the child that he had for say, "Listen to your wife." Ah, that's frightening. But that story and God said, "I've heard the cry of the lad, not her." And she went to one side to be crying too, but it's not her own crying that was heard. Why defend that is the justice system because there are spirit beings responsible for that and they ought to judge properly to observe that's why they have function and that function is that watching function to know how to report and so we now know okay this is what is going to be done this is what shall be done this is what shall be done like you're having a meeting to discuss so what are we going to now do for this matter Which is why it says the prophet hears divine conversation. Where do you think those conversations were happening? You know what I'm saying? Like some of you now there are conversations. Should we we should help him? We should help him. We should help him. We should help him. Those are conversations. Even the spirit beings are looking for. I've seen people and I could hear that ah and I just had to tell them do this or do this because it's obvious that they have blocked their ear from hearing that help because the way they live their life as if there is no contact with the unseen. Defend the poor and the fatherless. Do justice the afflicted and needy. Deliver the poor and needy. Read them out of the hand of the wicked. It says they know not will they understand the work in all of the earth. So God is judging these judges, these gods for judging unjustly. And people have said oh this is man. We see the implication of this as how can this be human judges when this word go ds. You say no human judges are also called gods. Oh, in this kind of context, oh boy. I have said ye are gods. All of you are train of the most high. Released you, but you shall die like men. So they are not men, oh hey, fall like one of the princes. Arise, oh God, judge there again. The same word, Elohim, for thou shall inherit all nations. speaking of dislodging those princes from their princes over nations, dislodging them and now God reign and ruling through the church as he always intended it to be. So a psalm of Asaf, God stands in the congregation of the mighty. God precides over the divine council. That's exactly what you are seeing there. So there is a a council Did you get it? So council. Um, look at phrases like Exodus 12:12. We'll run through it because of time. You see the word go ds. For I will pass through the land of Egypt this night and will smite all the firstborn in the land of Egypt, both man and beast. And against all the gods. Again, the word gods there Elohim of Egypt. And that's not you obviously know that they are devils, Elohim of Egypt. Will I execute judgment? So I am the Lord. So God is going to execute judgment against the gods of Egypt. Did you see it? Okay. Exodus 15:1 where they have come out from Egypt now and they were singing that song Miriam. Who is like unto thee, oh Lord among the gods? The song that we sing 15:11, who is like unto thee, oh Lord among the gods. So you always see that phrase of God among the gods. People now say e they don't

exist. How is that a praise? Where I say uh you are the finest lady out of all the ladies and they say ladies do not exist. How is that now a praise? You can as well just say h you are the finest among dogs because it doesn't ex what the for the comparison to be comparison it has to exist. You can't say what kind of way of reasoning is that one out of what does not exist is what you to praise God. You can as well just insult God if you wanted to. Which one is that's not a praise anymore. If you are praising with what does not exist then there is no praise there. Say out of all the gods you are no. So there is God's G O D S and it was God that made them and it was God that called them gods. always get that clear that it was God that so the resident of the unseen realm are called God's divine beings and is God who called them so but he is a divine being different from them and that's what is now telegraphed by a set of attributes or qualities where they now say none like unto him those that uh denial statements who is like unto him none I continue to those denial statements are totally the uniqueness of God above all the gods. So which we know the popular theory that are in the omni category omnipotent omniscience omnipresent no other being is all theory no other being so that they are gods but they are not omni but there are many other terms and I taught you this in that series who is like unto God. Amen. So Exodus 15:11, it says, "Who is like unto thee, oh Lord, among the gods? Who is like unto thee? Glorious in holiness, fearful in praises, doing wonders." Are you seeing it? Who is like unto thee in doing wonders? Oh boy, did you get that? Exodus 18 and verse 11. Now I know that the Lord is greater than all gods. For in the thing wherein they dealt proudly, he was above them. Exodus 20:3, that shall have no other gods before me. So that have what does not exist before me. What kind of illiteracy would the prophets and the Lord be going through that they are communicating like that? That's not communication. Now God stands congression of the gods. He judges among the gods. Psalm 86:8, "Among the gods there is none like unto thee, oh Lord, neither are there any works like unto thy works." Psalm 95:E3, for the Lord is a great God and a great king above all gods. So they exist, but God is above them. That's why it's called God of gods. Psalm 96:4 and 5, for the Lord is great and greatly to be praised. He is to be feared above all the gods. For all the gods of the nations are idols, but the Lord made the heavens. No time are those gods giving creation. That's why you know those mythologies in your cultures are all lies that have batala that have all of the this one creating this one. All of those things now scam because it's how those lying spirits lie. How the devils so that they feel like but nowhere in scriptures and if you even tell the spirits face on they will tell you they will agree because they will not deny they will not like they will tell you I'm not the creator. Ah when you call the name of the creator they will deny immediately and say not me or not me. And so when people now try to make all of this idea, there's nothing like that. There's something like that. God of gods, all ye gods, above all gods, before the gods, that means gods exist. Look at first Corinthians 8 for you say, "Oh, that's Old Testament." 1 Corinthians 8:4 to 6. And remember there's something like Old Testament as it were books. I've corrected that notion several times. As there as concerning therefore the eating of those things which are offered in

sacrifice unto idols. We know that an idol is nothing in this world. The idol is the statue that you mold. But there's something that represent those statue. That's the spirit behind it. For we know an idol is nothing in this world. And that there is none other god but one. For though there be that are called gods whether in heaven or in the earth. as there be God's many and Lord's but you see that Paul did not deny it that they are God's many okay but to us there is but to us but to us there is but one one that we worship we don't worship so we don't have we are not polytheistic so did you get it so there's polytheism there's monolatry there's henotism and there's monolatry Now monolatry is what people feel that oh that's what we are saying. Monolatry is that there is one God. No we are monolatry. Monolatry is that there is only one that we worship. The rest are made by God. It looks like it's the same but it's not the same. So there are uh concepts say polytheism different gods of which anyone can be the number one god but henotism now they just different belief system many that are called gods many lords is the same idea. So like we said polytheism is the worship of several gods which is what we don't believe in which is not what the Bible teaches. The Bible records that there are many gods but it doesn't say we should worship them. All right. In fact that's how they become demons or devils. Any gods that take worship any supernatural being that worship is a devil. In fact that's how you know a devil polytheism. While monolatry on the other hand is the belief in the existence of only one god who is to be worshiped and many times in that theory of monolatry isms are all studies. So that study now says that the other gods are non-existent. We can't agree with that one because that will be denying the Bible. That will be denying the Bible. But the Bible does mention other gods and they are not. So monolatry funny enough was a very strange idea in the ancient world. Nobody in the ancient world believe in monotheism because they all knew that the gods exist. You see how many times gods is mentioned in the bible. So they didn't have that strange idea. But what they had was monolatry which is the belief in the existence of many gods but the consistent worship of only one mono only one is to be worshiped out of the pool of gods and that is the one that made all the gods that's why no place in the Bible where any of the gods are called creator mistakenly God is called the soul sole the soul creator. Amen. Why? Henotism. HENOTHEISM. Henotism is recognition of many gods and one is referred to as supreme. But that one that is supreme can change over time and that is how it is in that their idolatrous view that today is bad. Tomorrow it will be day gone tomorrow. So one god reigns over then the other one come and defeat the the god and this one is now the number one god. Number one just like cism number one man number two. So they this one is number one this one is so that's the same idea. So that henoteism this is the number one this is the stronger one. This is the and that is not in Christianity. That's not what the bible teaches. Psalm 86:8, among the gods there is none like unto thee. You see it? So it doesn't deny the existence, but it says that there is none like unto God. Did you see it? Hallelujah. So there are sets of attributes that will now differentiate them. a set of attributes that we now Psalm 29 verse one and two ascribe to Yahweh oh sons of God

ascribe to Yahweh glory and strength ascribe to Yahweh the glory due his name ascribe to the Lord oh sons of God sons of God that's a synonym for supernatural beings the word angel host of heaven assembly train of the most high gods oh ye mighty sons of the might sons of God are all phrases used to describe Five supernatural beings, host of heaven, angels, assembly, children of the most high, gods, mighty, sons of the might, spirits, I mean and so on and we'll explore all of them as we go further. So the unseen realm refers to a world of spiritual realities that are not immediately apparent or present or physical. So when we say the unseen realm, it's populated by beings both good and evil. And that unseen world has a hierarchy. Something reflected in terms like archangel versus angel. You can already see that there's hierarchy. So is the realm of spirits. It is structured like a house or a temple. So the unseen realm and so when we say unseen forces is now how those beings interfaces with the earth in an influence and the good and the bad because the unseen realm is populated by good and evil spirits. Spiritual wickedness in heavenly places. Ephesians 6. We saw that already. So, six words are used to explain Elohim. When they use the word Elohim, a half a dozen other entities that refer to the word Elohim, God of Israel, Yahweh is called Elohim as well. Deuteronomy 4:35, the members of Yahweh's council, the members of the divine council, the members of the heavenly host are also called uh Elohim. members of the divine council or the council itself, the assembly itself is called Elohim. You see that in Psalm 82 verse1 verse 6 and there are so many other references which we will explore. We did explore almost all of them in our last year when we taught on these things. Thirdly, the uses of the word Elohim explains the God and goddesses of the nations. First Kings 11:33 mentions many gods and goddess of the nations that people were worshiping. Deuteronomy 32:17 that word Elohim was used for demons, shed deems Jeremy 32:17. In 1st Samuel 28:13 is used for the diseased Samuel. Samuel is longer alive and is used for him just like God said Moses is going to be an Elohim to Pharaoh. So 1st Samuel 28:13 and the sixth reference is used generally for angels or the angel of the Lord or angel I also use the word Elohim. So when you are reading the Bible you need to know which one out of these six entities is he referring to in the context because Elohim is not a blanket statement. Once you just see Elohim it means he's God is the creator God not true. Hallelujah. Are you here? Yes sir. So let's be conscious. So I use this word life is like a force of wind. The wind reminds us even though we can't see everything, it still has the power to move us forward. And that's the same thing just like in life, unseen forces can guide us to where we need to go or guide us or or or take us where we don't want to go. And we must understand how the seen and unseen was designed to function. Are we good? Amen. Hallelujah. So the heavens. So, is heaven going to be a word for supernatural for the unseen world? Isaiah chapter 40 and we end here. Isaiah 40:21. Have you not known? Have you not heard? Has it not been told you from the beginning? Have you not understood from the foundings of the earth, foundations of the earth? Verse 22. It is he that sits upon the cycles of the earth and inhabitants thereof as grasshoppers. Isaiah 40:22. Now, that stretcheth out the heavens as a cotton and spreadth

them out as a tent to dwell in. Remember what I told you? The unseen realm is structured like a house, a temple, and a palace. Okay? To dwell in that judge the princes to nothing. He maketh the judges of the earth vanity. To whom then will you like him? Or shall I be equals? He the holy one. So none compares to him. So it shows the difference. Has I not? Verse 28. Has I not known? Has I not heard that the everlasting God, the Lord, the creator. Are you seeing attributes that differentiate him? He's called the creator. The everlasting God is the only one that is everlasting. Told you before, supernatural beings don't have immortality. No, God alone. In fact, Paul was so loud that God alone dwelleth in immortality. So they are all right everlasting. Neither is weary. There's no searching of his understanding. So words used to praise God. Hallelujah. And he said he giveth power. Verse 29. He giveth power to the faint and to them that have no might. He increaseth strength. Hallelujah. Even the youth shall faint and the w and be weary and the young men shall utterly fall. But they that wait on the Lord shall renew their strength. They shall mount up with wings as eagles. They shall run and not be weary. They shall walk and not faint. Hallelujah. So there's a lot happening around me that I should be aware of. There is a active vital spirit word that is in this sin word. And I must take note that of how it affects or shapes or relate with this word. And many of such is what we want to talk about where why I read that first kings 22 for you because most people have not heard those conversations. I've not seen that there are supernatural conversations that happen about people. many not in that context of who shall go and cause to fall. But you see the Nebuchadnezzar, you see all of those stories and we read all of them. We cannot remove it. We cannot remove it. The same way we can decide on a matter, whatever we bound on earth is bound in heaven. Whatever we lose on earth is loose in heaven. So we have such power to determine how things will go. Whatsoever we bind on earth is bound he. Whatever we lose on earth is lose in heaven. Amen. And upon the resurrection today, upon the work of Jesus on the cross is not just a group of spirit beings that God interacts with to determine what happened on the earth or selectively through some of the prophets in time past. But now through the whole church as a people, God has a group of people on the earth who he works with to determine how things will be. And we need to know we have such power, such authority, to determine things, to cause things to happen, to partner with God to see his plans or his purpose go further on the earth. And we play our role. Amen. will play our role. We'll play our role. We we'll do what we need to do. Hallelujah. So just as man inhabits the physical world that we call earth, now as our spirit beings inhabit the unseen realm. And we're teaching unseen forces. So we are dealing with that world, how it affects this world. Are we good? I want you to find a good place to put full stop. All right. How that word of gods, of spirits, of might, of thrones, dominion, principality, powers. And many times we think it only influences this world when it is a sickness or a disease. You have been deceived. It influences it in thinking too. Many lines of thought that people have are all from the devil are all from evil spirits. Wrong patterns, wrong way of thinking and and thinking. It's just my it's just my head though. It's just me. I'm just thinking so far removed

from God's word, from God's order. Hallelujah. We won't. No, no, no, no, no. We won't. We won't. Imagine that senator story. You didn't have the story in the Bible. We because you'll be wondering how did the man return back the same way he came. But he say we hear a blast and a rumor. But was there forces there? And the king because he didn't want the king to die there. When to he died in the place of his stronghold. He went to his temple where he was worshiping his god. There his two sons daggered him. But he said he will go the same way he came. Something behind the scene. Something behind the scene. Something behind the scene. The angels of the Lord held the door and told Lord go inside and struck the men with blindness because there was a spirit at work in those people that was wanting them to see that was not just normal. Why they wanted to have relation? They wanted to have relations with those angels because the angels appeared as a man and Lot was trying to say oh no no take my daughters instead say no no no no it's forces. It's the same reason why mechedc meet Abraham and bless him in the name of the Lord. Bless be Abraham of the most high God because Abraham took two one 318 servants and defeated four kings that defeated five kings. You have to be connected to the most high. You must have connections upstairs. I am a priest of the most high God like you. That's what is telling him. And we serve the same God. So and as a priest and king priest that was a different king priest that Mkc was where kings go to battle for land. He serves the concept of Abraham took note that is a man of ranking and he the greater is blessed of the lesser is blessed of the greater Ni. So it was me said there's no Abraham that blessed him. So but you see that unseen it looks what about the footstep what about the one we read last week Sunday of Deborah Deborah uh uh Barack begging Deborah to follow her to the battle. What about the conquest of David? How do you explain Goliath? Don't use I've seen people do all manner of strategy that it was where the stone hit. It was the way he sw the stone. H he's a giant. He has been fighting from his youth. Not that nonsense that Prime tried to depict in their don't watch those things. I just saw the trailer. I knew I was not going to watch it. Don't change Bible stories. As much as they do a disclaimer, most people still are foolish enough to learn from those things. Disclaimer loud like that that it is not exactly with what is in the Bible. Some be watching it and say, "Wow." So that's how that story went. [Music] Read Bible and learn. You are learning from what you should not learn from. Cuz one of the what I saw in that trailer that I threw that spear now hit David. Where is that in first Samuel? I can't find it first 17. Oh. No, no, no, no. Because that looks easy for the but it's nonsense. And Goliath to see that Goliath was not just fighting naturally. Goliath ced baba will fight. Why you call they use words? Golth cursed David. Bible say in the name of his Elohim, in the name of his gods. And there said you come to me but I come to you in the name of the Lord of hosts. Other part you think you are mentioning gods but I come in the name of he who created all of them whom you have defied I will take off your head it was no longer a m it didn't matter if David had done leg like this for dust to raise up because I would have still died it was no longer about what he was throwing it was no longer about what he was throwing the battle have shifted learn to shift your battles up

where you can strangle the circumstance and because they fight for ground you say you get leg let's go up and that's where when they want to pray they say unto him that dwell between the cherub beams they trying to raise the conflict up oh so that they can invoke the jealousy of god over their matter and say god ah you are you care for me oh which some Christian don't even know how to pray and we are taught how to pray knowing that the fatherhood of god the tenderness of god and so when they came out from Egypt. Say he rebuked kings for their sake. Suffered no one to do them. Touch not my anointed, not one man. All Israel was what is called anointed because they were brought out by forces. Their clothes did not even wear those angels were working over time. Oh chariot of fire and chariot. Those pillar of fire and pillar of smoke. You see it there are a lot of psalms that depict what happened in the esodus and they say oh praise the lord all his host who did this and did this who defeated this. So there were supernatural beings involved in all those great acts that we thought David listed all of those acts and put then he got to ce and the rest still listed oh praise be the lord. So there are forces there are many of those things we have read and thought it was just it was just normal. It was not. Look at the other day he said put singers in front and as they began to sing the Bible say the enemy discomod themselves. How do enemies just begin to fight themselves? The army that is going to fight this began to kill themselves. Ah that one that one are forces and I believe in it. I expect it. Yes. Just the same way people in the natural give themselves over tootic and say I know what I believe you don't have anything or this one is nothing that's see people have faith in charms given to them by another man I have faith in God I have faith in his power I have faith in his help and I'm using it I'm using it I'm walking with it I'm walking with You see testimonies people are of of major help and lifting that is false. So that's false. See he didn't want to testimony in millions. So don't mind him. He's just being humble. But I saw it. The woman will give you. The woman will give. And the woman did it's conversations. So that's why the woman again said I will add to it because it's still the it's still the conversations. That's how supernatural beings work. You'll be hearing conversations. The same reason why people have said ah no no need to help him. I need to help him. It just look there are sometimes when for some persons when they when the stars over their head is going to change like it just look like everybody from every corner wants to help them is because they are there are voices so turn drinks lightnings they have all come together powers are involved and that's how God wants us to live our life amen and that's why he gave us supernatural beings 1:14 are they not ministering spirits sent forth to minister for them who shall be heads of salvation. So I have angels ministering for me this week. I have angels ministering for me this week. Walking with me this week guaranteeing results for me this week. So I always have a great week in living for my assignment. in achieving my earthly goals. in achieving my earthly goals in all things in all things I always have help. I always have help. And one of the places that showed me how vital this thing is in Abraham's renewed mind. Abraham was going servant was going to get a wife for his son. He sent an angel with him. So this how you think that's how he think. Everything needs to be followed

up. So when Eleazar the steward of of Abraham was sharing the story to Laban's household to that household to uh that household he said and an angel of the Lord. So you may not have seen that in the beginning part where Abraham was saying go and made but when the servant was saying what if I don't now find he said no you will find and let the angel of the lord go with you to ensure to guarantee that result we are not sure again of outcomes the ang of the lord guarantees those results for us things are working in the name of Jesus and I want you to think like that live like that function like that I'll not go the same way. No, no, no, no. I I I we use that word on Wednesday after that singing. I think by the spirit is supernatural. I heard your voice. I'm walking on water. Think by the spirit. Think by the spirit. I will not fear. I will not fear. I will fear no evil. I'll fear nothing. The Lord is with me. The Lord is with me. The Lord and his host. They are with me. They are with me. That's your mantra this year. That's how that's how you are. That's your matching orders into this year. The Lord is there with me. That's how I am doing everything I'm doing this year. The Lord and his there with me. So how can I fail now? I cannot fail. I'm fail proof. [Laughter] I win or I win. I win or I win. I win or I win. I win or I win. I win or I win. The angels of the Lord are with me guaranteeing results. Walking with me, walking with me. Just like they guaranteed that result and there was no smell of smoke, they will do a fine work. They will do a fine work on my matter. A fine work on my matter. In my life, I would allow the ordinance of heaven to rule on the earth. In my life, I know how the heavens rule over the earth. I will allow the power of God to be seen in the natural tangibly. I would engage the power of God in speaking and in every other way. I would engage the power of God actively so that I can live the life God intends me to live and so that I can also have the result naturally that I want to achieve. And hence why we are teaching on being wise and strong with his powers. Hallelujah. Amen. Amen. So we have good gods with us. Think it like that. That's how I want your thinking to be this week. Good gods, God, there are evil gods that are now devils. So the Lord and his host, good gods are with us. Good divine beings, spirit beings are with us. That's why I'm careful what I say. That's why I'm careful how I think because all these things set forces at work. I'll mind how I think. I'll mind what I say. I'm careful what I say. And this is just a useless home. Soon it will be a useless home. You will eat the fruit of your words. This is just a useless marriage. Wait for it. It's coming. Except somebody actively breaks that. And every weapon fashioned against me shall not prosper me. And every tongue that rises against me in sometime that tongue that against you is your own tongue. Many of you have reason against you so much in this life. Say I'm not really expecting much. I'm not really expecting much. Is now a force over your life. You never expect much. So when you want to do much for you say no no no she doesn't expect much. It's like a it's like a a a a force. Have you seen people who always get little do little little things is the same way they think is now a force over them that want to go over and say no now that's too much now it does little things they may not say with their mouth but their whole heart has captured that littleness no I mind how I think I mind what I say I mind what I think I mind what I say lift your hands and pray in the Holy Ghost thank you Jesus

It's the same way we can give leave to sicknesses and disease and command one go and it goes come and uh help comes, breakthrough come, favor come, I will command sickness and it is to go and it goes. That's the same way this morning I speak healing into your body. Everybody under the sound of my voice believing God for a healing. Take your healing now in the name of Jesus. Believing God for help and intervention. We speak that intervention now many divine intervention on your matter in the name of Jesus. Amen. [Music] You dwell in safety. Amen. By the power of the Holy Ghost, a thousand on your right hand, 10,000 on your left hand, and none shall by any means come n you. Only with your eyes shall you see the recompense of the wicked in the name of Jesus. Declare again, no eye can see you for evil in the name of Jesus. Amen. It is God who made the seeing eye to see. It is God who made the ear to hear. It is God who created the instrument that blows. So no weapon fashioned against you shall prosper. For God has made the divers mad. He has frustrated the talking of liars on your matter. So any word spoken against you comes to not because God is with you. Amen. Even as day onto day utter speech and words grow in dark places, secrets, words said in pain hearts that are negative, we dislodge those words. Amen. And only what we actively want to see and and have is what we see in our lives. Amen. In the name of Jesus. Amen. And we declare words of blessings over us. Amen. We are never stranded. Always in help. Amen. The favor of God compasses us round about like a shield. Amen. Lord, by your favor, you have caused our mountain to stand strong. We are unmovable by your favor. In the name of Jesus, another week where the angels of God encamp round about us to protect us. Amen. We dwell in safety. Amen. In the name of Jesus. Amen. Whethersoever we turn we prosper and nothing afraid of the adversary in the name of Jesus. Amen. Great times are upon us full of joy and rejoicing. I don't do sudden fear. I don't do depression, sadness. No, I do joy. Joy in the Holy Ghost. In the name of Jesus, amen. I'm in peace. I'm in peace. No chaos in my life. No chaos in my life. No, I'm in peace and strength. In the name of Jesus. In the name of Jesus. So go forth and prosper this week. Amen. Go forth and do valiantly this week. Go forth and exceed targets. Amen. In the name of Jesus. Amen.
