

not bragging but allow somebody teaching you well teach you well and enjoy the benefit of being taught well know we have been raised in a educational system where people don't value good teachers because you have see good teachers they just teach you they don't care if you understand for the the reason for a teacher is to impact understanding not to complicate and bring complexities and and confuse people and say wow it's not for people to be wow that way teacher knows it's for the students to have on understanding is that okay all of this is for the new people all right let's move on for God is my king of old working salvation in the midst of there so did you observe in Psalms are you seeing anything from Genesis are you seeing anything from Genesis there's flood there's Rivers there's 16 the day is dying the night also is dying that PR the light and the sun thou has set all the borders of the earth thou has made summer and winter most the relax like I told you we will look at them you are not sure we see see it in Genesis I'm just talking for those who have an idea of this words from Genesis now if you don't we read them you see the idea of it in Genesis you also see the idea of it in Exodus so just follow me amen so these are words that David and his students did not originate now that is very important and quickly will pause there to say this that that's the same way the New Testament writers were not ignorant of Genesis to Malachi the New Testament writers had a context Paul and the rest of the Apostles had a book Genesis to Malachi so always know that you will see the same thing is that okay Genesis to Malachi Matthew to Revelation teaches the same thing there may be different wordings and also similar wordings however is the same thought being communicated because of the distance in world view one was uh ancient near East beginning of time I mean origin time of the origins down then the other is the Roman Greco word many thousands of years have passed so they again do that thing I've taught you from EES to hermetics that's the same thing the new test writers will do so you notice Matthew chapter 1 verse one go to Matthew 1 and verse one quickly see this you see that all of the the book of the generation of Jesus Christ the son of David the son of Abraham this would make no sense to anybody that does not know Abraham and David so again he wants to write Matthew he's already showing you that what I'm going to talk about Jesus will take so do you know Jesus as the son of Abraham and David is's going to write of course his four gospel we call it eyewitness account but that witness account going to write it with a background of Abraham and David which if you do you properly understand the words and the phrases he uses in Matthew because he says this Jesus is the son of Abraham and is the son of David are you see that those things are not David and Abraham are not interest characters now takes you back to Genesis to Malachi so it tells you that this Genesis of what I'm going to be writing here the generation the what I'm going to be writing here the beginning of my writing is going to reflect the Genesis to Malachi context again we think oh that's just Matthew what does he know let's try Mark the beginning of the Gospel of Jesus Christ the Son of God you see he uses the word the beginning they are all sticking with the use of the word beginning a Genesis narrative the beginning are you there the beginning now as it is written in the prophet you want to tell us about Jesus Christ now

which as is written in the prophet already takes you again immed takes you back to Malachi and once you get to Malachi Matthew Malachi shoots you back to once you get to Malachi where he's quoting from Malachi takes you back to so they all taking you back which is proper teaching so you say it's just confusing I don't know what they writing the Bible you writing any they're not writing any there intelligence in the in the put in the framing takes you back again to the Genesis so that you realize that understand this thing from Genesis because it's the same thing that we are saying we may be using different words or let's use the proper phrase t h e m e we using different theme different thematic Concepts from Genesis to M both it all comes back we may be using different words we may teach it from a faith angle Genesis to Mali from a love angle Genesis to Mali for which is where we now get our seron topics for we are now getting sermon topics but we always should teach it from Genesis to Malachi perspective which is now going to be the same thing you will hear from Matthew to Revelation thank you now so this is Mark go to Luke Luke 1 Luke one are you there Luke 1 and verse one for as much as many now Luke is not in the original 12 you know so it says for as much as many have taken a hand to set forth in order a declaration of those things which are most surely believed among us even as he delivered them unto us which from the beginning were eyewitnesses and Ministers of the word so is telling you that what I wrote is from what Peter John the eyewitnesses said because you know Luke is a disciple of Paul this Luke is a disciple of Paul and Luke is also a disciple of Peter are you for from the beginning where eye witnesses so he said I got it from the eye witnesses who works with Jesus verse three it seemed good to me also having the perfect understanding now he was more intelligent than all the other biblical writers New Testament writers he was more so he wrote in a chronological order so when somebody saying God does use your intelligence God uses it so God maximized Luke because he was more intelligent so Luke wrote in a chronological manner Matthew skips Matthew's genealogy skips Mary and put Joseph when you count the genealogist because patriarchal word male using so that okay we know Mary and Joseph okay but I know ultimately from the house of D but but Luke you see that different genealogy the geny of Jesus in Luke Andy in Matthew is different no Luke takes you from the Mary angle so one takes you from the Joseph angle and they are not actually trying to be very accurate in writing this one give bir to this because it would be too long so they know you know that's why they already told you Genesis of they taking you back to Genesis see those Matthew 14 generation 14 generation when you count more than 14 why is he using 14 because he wants to arrive at 42 $14 * 3 = 42$ why because Israel encampment where for the two encampment before they their Promised Land he to say that this is the Messiah he trying to bridge an understanding so he will have literal license because he knows that the audience know the original material so they can't be confused what is saying so we will call this 14 everybody say we understand what he's saying now yeah we can agree we will call this 14 also 14 Generations from here we call this 14 Generations from here so you put it then the mesiah has come you say ah we get it just like there were 42 encampments Israel

encamped in different place until they entered their promised land so we we now have the mesiah he has come that ushers in the kingdom of God was say we understand what you are teaching sir and nobody's confused again like we said because the Writ has already tell you where they are from so you can't say you are manipulating things are you getting this all right so when you now want to overly critici critique their writing they tell you that you are the one that confused we are not confused we know what you are trying to say look at another place where we said this say I said this because some um um of our friends from the other religion try to one was doing that I saw it on the Facebook post tried to say you see the Matthew you see that is not not the actual person that gave birth and I said Matthew already told you that W from Genesis to Mal you think he doesn't know you think he doesn't know said oh I never saw that I said that's why it's not your book you allow us teach you our book all right cuz your book tells you to learn from us to hear what the people of the book have to say don't said oh I really that's true that's what our book says yeah a book tells you to listen to us listen right just a quick way of winning argument all right all right that thou mightest know the sity of those things wherein thou has been instructed so notice in say it seemed good to me also having had perfect understanding of all things from the very first so he again writes from the very first from the beginning they always have a beginning framework in all of their writings now we all know John 1 vers1 everybody can qu down say you were a child from a child that has no John 1 vers1 which is able to everybody can quot John 1 vers1 I'm just reading it because we can't quote it in the beginning now this one you what he doing again in the beginning is again the Genesis narrative in the beginning was the word and the Word was with God and the Word was the same was in the beginning with God and all things were made by him without was not anything made that was don't rush if you're going to master anything don't rush have an A a scientist brain have a Creator's brain have a it helps you be more authoritative anything you know in depth can never no matter anybody try to to to shake you you understand what they are saying say we have heard this before calm down hear it again let it strengthen your convictions is that okay let put that hear for the first time he It For the First Time Luke 24 notice Jesus when speaking to the men on the road of a and they were confused because they thought he was a political mesiah they said and they they killed him we thought he would be the one we thought he would be the one how did Jesus start answering those two on the road of a mes verse 25 then he said unto them oh fools and slow of how to believe all that the prophets have spoken so when he not have understanding what did he do he took them back to Genesis thank you slow to believe all that the prophets have spoken so when people have lack a certain understanding it's good to start from a Genesis Genesis background AB thank you you ought not Christ to have suffered these things and to enter into his glory vers 27 and beginning at and all are you seeing it that it's not only Jesus all the biblical writers give you a Genesis they want you to always start from a Genesis angle then you not be wondering how did we not now know that how did we ever learn the gospel without really understanding the Genesis background

story how do we learn so many things without mastering Genesis and you see many Christian writers good ones for that matter I emphasize some late now but emphasize that when it's right to write on the kingdom write about purpose M Mor and all the rest always say GRE Genesis you see many of the people say I want you to always go back to I want you to go back to Genesis now don't some of the way some of these men did explain some things they explain was not exact but thank God they they they emphasized a Genesis background if not because some of us those were the only people we heard that made us even read from Genesis angle to think and say what exactly is this story is that okay now I must admit that is good is true that when you learn the truth you get excited you jump you have the rascality and all of those things uh but we don't teach like that here in the words of tala we don't do that here AB don't do that yeah so there's all those truth the enter body when you really have understanding you'll be calmer that's why professors don't jump you really have understanding you be calmer because the more you learn the more you are seeing there still more to know then the person that is just starting is just jumping you say for that one explain where right so we don't do that yeah is that okay all right not because I can't jump because I'm young I can jump what is there in jumping nothing nothing there slow methodological pattern systemic process so that you can think if you are too excited your brain will not work cuz you you off it right don't tell them what are we telling what say you explain you can't explain you say tell them who is the D all right so come let's re together be let's think so put on your thinking cap so beginning at Moses and all the prophets explain to them in all the scripture so is that a Genesis account all right so that's John so in the beginning was the word the word of the god Tak to a Genesis account okay sir book of act just want you to quickly see this I know you believe me you trust me but I want you to see it from the Bible so that you know say Pastor said you know some pastors like it when they say our Pastor said our M God said it's okay I understand the whole church politics you have to say what Pastor said it's okay you're trying to play Church politics it's okay but do you really know what Pastor said not just the Pastor said which can be political is there anything wrong in quoting your pastor absolutely nothing wrong but quot him not that you're not say rubbish Pastor say you not qu then say rubbish because if you really know it then you will teach it the correct way is that okay all right act one the former treaties have I made OS of all that Jesus began both to do and want to teach until the day in which he was taken so Luke shows you that the one that wrote book of Acts also he's the one that wrote Luke and act until the day which he was taken up after he through the Holy Ghost had given commandment unto the apostles whom he had chosen so you think he's going to write an eyewitness account that his historical he tells you that of all that Jesus began are you seen a beginning to do to teach so it takes you back to Luke and if it takes you back to luk he has ultimately taken you back again to the scriptures now when you now see how they are teaching the book of Acts they keep quoting the prophet yes sir then we say all those Genesis to Malachi old testament old testament and I told you the The Originators of the phrase Old Testament and New Testament did not know that we're

going to use it in a weird manner the way we do today because the uh milit of sadis and all of these other great men when they use the phrase Old Testament what they meant was not up not useless throw it away the word old there was to say forever the same so they call it Old Testament Genesis to Malachi was not old get rid of it they were not using it to explain what happened in sin that's not their meaning when they use the word Old Testament for Genesis to Malachi so the origin that's why it's not a Bible phrase It's not the biblical writers that Genesis to Malachi Old Testament it's not the biblical writers that called Matthew to Revelation New Testament books is men in time who have been have been different interpreters of the scriptures down through history and so when the books Tindale wle all of these people put scriptures together before they did coming from the Latin vgate the first translation of the Bible outside the Hebrew Hebrew and Greek text where every other personal copy from the Latin V by Jerome just historical characters good to know them the framework that they are all using they were not so when you read older older translations all I'm speaking is there are translations older than KJV there are older translations than KJV and all the other translations older than KJV 2 that don't have Old Testament Genesis to Mal New Testament so The Originators of that phrase that we have now used that is so common to the Old Testament New Testament books do not think that somebody and so they will be turning in their graves today shock when somebody's excited and say the new does not Old Testament does not what is it confused thing again how they say new does not begin help me Lord help me let me remember this rubbish God I always forget wrong doctr but it's good you train your memory to forget what is not right that's a good memory a good memory forget you forgive people easily I remember what you to me sir it was you started first you lifted your hand first then you said you the forgive her you just do pinpoint train your memory to forget details that are anything that is not good that is not okay that is not correct that does not edify does not build that does not help you walk in love always forget it as a good memory not I can recall everywhere yeah I have a bad memory sir there all the good things you can't remember you despise people that you should not despise because you train your memory the wrong way this is the utterances you prayed for these are utterances to people all right let me go on this all this side that you are taking me is the utterances you prayed for Trans Revelation let me go back to what I was teaching so were we Old Testament so The Originators of that phrase Old Testament when they call it old was to teach that it is when you say something is old enduring it was to speak of the enduring nature I said this in one experience meeting the enduring nature that is old it remained the same that God has not changed his mind what he said Genesis to Malachi is what he still saying that's what they had in mind so imagine we now having the New Testament is from the death of a Tor the death of a Tator when when Tor die then you not say he died so the begin from the book of Acts book of Acts is the first book the first book that WR Testament column what are you doing say no from Romans what is that say then Old Testament is not Genesis Old Testament is from Exodus I was listening I said this is very intelligent for not just in the Bible sound ni not Genesis not from esod what are

you doing the originator of the phrase called Genesis to Mali Old Testament and when they are saying old they are not thinking of books Old Testament New Testament the word even the word in the Bible Old Testament in the Bible those phrase Old Testament New Testament or old Covenant New Covenant in the Bible never refer to any book but God's dealings with people so they are going to be shock when they hear our intervention today that Genesis that's not where it started from so start from no read everything together if not what we hand over to our children will be let's throw away some portions of the Bible because we cannot interpret it no because we are lazy we want the grace the dreams and canvas movement of Grace Euphoria plate your hair weave your hair do what you like Yi you say dress like the heppie movement it's all about Grace it's all about Grace it's all about Grace after you have finished I say I it's all about Grace there's nothing to do have done everything we say let's pray say now we are legalist how can we hour we already won we no that one is in context you say no no no we already already won need to do anything you see the because you are from one angle so have a broad perspective is that okay amen walking salvation in the earth so are we good so notice that all the biblical writers have a Genesis St look at Romans now I won't read acts again uh I'll just tell you because I know you are sincere people so you read the book of Acts you see there were different portions where they would say the voices of the Prophet the scriptures the law and the prophets is referenced a lot in the book of Acts all right but Romans chapter one you see the beginning again I just want to stick with the beginning part so that you see that the writers when they are starting their book is not only the book of Romans you see these 16 chapters please don't think that this is the only thing that the people of Rome knew about gospel you you you are insulting their intelligence since I've been teaching you it's already longer than Book of Romans just this just camp meeting C is bigger than the whole book of Romans so how can you think all the years Paul spent in Rome look at all he taught them no no these ones are letters intervention letters to support what he had already been teaching them so why not going to not get the full G full G is the one that they told you to be throwing away that is Old Testament so Genesis tells you the complete story so they keep quoting referring to it because they know that everybody know that's why that part is the bigger portion of your Bible get all the stories all the details that you need so Romans 1 Paul a of Jesus Christ called to be an apostle separate onto the gospel of God now that meant a lot in the Roman GRE when he call an apostle everybody knew what he meant so they would take him seriously L say I am a Herald of the emperor I have Royal news that's the meaning of the word Apostle I am apostolos I am sent with the verit of a kingdom you will listen to me the rise and fall I mean he's coming as a royal Ambassador the heral of an emperor of a king and everybody knows is it that there's a new emperor now what has happened to Augustus what has happened to tyberius what has happened to all these Emperors what is never alive what is happening what is he going to say as when when he comes to their award and he says and he starts talking to them he he finds Jewish audience Because he believes that Jewish audience should understand what we say from

Genesis because they know Bible but he when he goes they not chase him away he have to go back to the Gentiles and start again and to start with the Gentiles he won't start from Genesis he will first start from God is in our heart God is in the heart of all men will first come from their conscience come from God who created all things come from a position that everybody agrees then intelligently now walk them to the origin of Fai then when he starts doing that then he can now quote Genesis to character so it's different way he taught Jewish audience and Gentile because Gentile audience not have Genesis that where you have the acts 17 Act 11 you see the way he's teaching that is how he always thought when he was in Gentile audience he will come with what they can know God is a good god he created everything just like we have new Festival he gives rain he gives Harvest every say yeah yeah it's the god you came with is that the god you came to talk to say yes yes yes he starts from there then as he starts going now says turn away from these vanities turn away from our ID Say Yeah because it is God that created all these things he did not create them to be worshiped he has the attention he works a miracle and they say are you not you are the gods now say no no no we are human beings like you they say I thought you were evil gods they I Chas them away you know that's what happened now they says the The Reincarnation of the Gods so different issues the man was going through but there was understanding to what they were doing so Romans he says I'm an apostle I'm sent with a message and a mandate and I have news now the gospel does not mean what it meant what it meant to them and what it means to us today it's so sad that when we say gospel what people are thinking of is not what they should be thinking of rest two which he had promised our for so is shows that what I am seeing is the same thing that was promised by the prophets in the Holy Scripture so takes them back to Genesis to Malachi Holy Scripture Genesis to Malachi all right the four gospel ey witness account the book of Acts eyewitness account the Acts of the Apostles Romans to uh Jude a explanation of the scriptures Revelation is also an explanation of the scripture only filled with symbolism so uh the reason why most people can't interpret Revelation like I said over the years is because they not read Genesis to Jude and I have been teaching truth about revelations in 2012 since Ministry began writing on articles on the key to interpret Book of Revelation because Revelation can only be understood because all the words and phrases in Revelation are words borrowed John has no original word So when you say what is Paul is John is saying candles not being originate the word when you see he saying go go when he's saying amagon he not create any word or phrase is using all the words and phrases that you find from Genesis to Jude so you are seeing beast beast from the sea ah Beast Paul say he fought Beast your mind not go to see creatures your man went to men it called people Beast Jude called people Beast Jude called you say oh brute Beast they are oh think to that side not in Revelation now you are seeing beast from the sea you want to be fighting from the sea chaos Satan's agent he's using narrative that you are used to but oh no it's Mommy water power okay but he sticks with his narrative sticks with his narrative and again there a lot of misunderstanding of the minor Prophet because there's a phrase called

the day of the Lord that every of the prophets thought about and so the WR believes we know that day of the Lord's story so he uses it a lot so that's why that book looks complicated but all of them takes you to a Genesis account all of them take to Genesis account and weave your understanding back so that you can understand God's plan from the beginning of time amen so he says which he had promised a By His prophets in the Holy concerning his son Jesus Christ does that take you back all right First Corinthians sir we get it we get it no sit I know you get it I know Paul called to be an apostle of Jesus Christ through the will of God and sustenance our brother onto the church notice that there's a direct audience that's another thing I I forgot to show you that there's always a direct audience so she is not writing to Nigeria wrting to the church in Corinth but is written for us because what written told them they are believers we also are believers we can take meaning from it thank you so there direct audience so after he salutes them Grace and peace you sit in all the letter you come behind in no gifts verse S waiting for the coming of our Lord Jesus Christ who shall [Music] confort shall confirm until the end no division Christ I preach in fact this one is so emphatic because it begins in chapter one emphasizing the gospel what we preach we preach Christ emphasize that chapter one into chapter two in chapter two he now takes you back to we speak wisdom in a mystery mentions the law the natural man things of the spirit the mind of Christ the things that are freely given to us first 2 which already dealing with scriptures into chapter three so again the same framework the same framework the same thing second Corinthians the same thing um in all the letters he will mention an apostle by the will of God commandment he will say great he will greet them then he will introduce what he wants to write the focus of what he wants to write now it's also good you know that that's the same way the Old Testament books have a context quickly jump away go to those boring books that they say you should not read the Minor Prophets are the boring books and say oh what is that they don't know anything they are minor and major one or major two whatever what the hell that means major prophet AB be right major minor is just is not none of the prophets calls with such titles major minor it's just and the phrase is used to explain the volume of the books that one is bigger than the other not it has to do with who is more accurate as a prophet prophets don't think in that manner that's Canal that's the flesh that's what Jesus said we should not think like which of you is the greatest is how unbelievers think so when he comes into church you know you have a Kinder person as your pastor he's doing who is the greatest out of us you are b sir Hosea 1 the word of the Lord that came unto Hosea the son of Bei in the days of Uzziah Jam so it tells you that the word of the Lord is that the gospel is that the message of God so he says the word of the Lord came to me in the timeline so in the audience I thought in the time of Many Kings I thought in the days of Uzziah that was the king of Israel Jam ahaz Hezekiah so there were four kings that hosia Four Kings you say ah that mean he lived very long no these Kings didn't rain for long they died quick too are you seeing it so it started from towards the end of the days of Uzziah Jo you now that's why you have book of kings that tells you that's why they tell you how long they lived so that you can do your own

mathematics and see that the ministry this man's Ministry was long so like we say papa almost 80 years of ministry 70 years of ministry that's the same thing you see some of them 40 years 50 years they were Prophet preaching so it gives you his background verse two I say h not that book that somebody married prostitute no your blood is too hot in verse two the beginning of the word of the Lord so it's telling you that you will find the message of God and the Lord said to Hosea go take unto the wife of wam so he has already given you a context that in this book of Hosea I will bring you the message of God with my background story of me going to marry a woman of w done because the whole land has also committed worldom not that they all prostitute that they were all Idol worshippers that's the worldom there W in departing from God so I will marry somebody that is different from me because God knows that this nation is different for me but I want this nation to be like me so the word of the Lord so you not see that the whole book of Hosea is going to use his family story to explain the message of Salvation that's what he tells you in the first chapter you see the next one all of them you say there they don't know what they writing they know what they are writing that's why we teach in Bible School Jo see Jo chapter one the word of the Lord don't rush anywhere we finish we finish for today we have notation we have entered should have not enter me have entered it I need you to see that salvation is what everybody taught and there's a consistency all right Joy chapter one the word of the Lord that came to Joel the son of petel did the word of also come to Adam as the word of Lord come to you yes sir okay he this ye old men and give ear all inhabitants of the land had this been in your days or even in the days of your fathers tell ye your children of it and let your children so that which the Pama so he going to use something that happened in the reign of joash a locust invation that destroyed people's Harvest is going to use it to explain the day of the Lord so you are going to find the gospel inside those story so the background story is that Locust Invasion are using the intelligence so he is going this is where you now see he's using different phrases no he's using the background story just as notice how we taught ebena we use this that stone we now used to teach God's help that's how he's using a story to teach that's how the biblical writers thought why because we are are human beings we La stories stories help understanding that's why all Jesus did was teach with stories because stories help understand this when you when you put it in a story pattern it helps people oh are you getting it all right so Joel we use the Locust Invasion and he says that's how you should see the word of the Lord Amos the same thing the word of Amos who was among the headsman of teoa which he saw concerning Israel in the days of Uzziah king of Judah and in the days of jeroboam the son of joash king of Israel two years before the earthquake and he said the Lord will R from Zion so he gives you again a background so you read it to verse three something is happening Amos is not the book that they say it's a social reform book no he's writing to say that Israel something has happened all of everybody's interpreting God differently see now people look at the way you people buy and sell look at the way you conduct yourself is different from how it used to be it's just an earthquake it's not the word that has end but the word is going to end sh don't know that

the day of the Lord is coming so he uses that background story to now teach that I don't know why people are behaving the way people are behaving Amos not know that social reformers will be quoting him and thinking his focus was social injustice no it's simply used that as a background to teach the gospel so it gives you that framework again in the first chapter that's why it's not by first chapter by the way by first chapter I can't write a book you jump first chapter you say you understand what is in the book we have a series like people will not like this series the beginning part I say uh it didn't really say much in the first part just start from the next part then say I don't understand so also we don't understand you somebody say after 2 hours he said jump all of that just start from here jump the first five chapters you understand what he's saying eh with what nah not like that not be so they do they do him look at Obadiah the same thing the vision of Obadiah is more visionary to him the Lord some of them say the word of the Lord C they were auditory and visual prophets so some will see the what God is saying some will hear what God is saying so the vision of the Lord God concerning Edom so again that will be a background of that's why Edom is mentioned in Obadiah he will use Israel's neighbor Esau Jacob's twin is Esau Esau is Edom he's going to use Edom the nation as a background to teach salvation when you now see the famous OB uh is it 17 upon man shall be deliverance and the house of Jacob shall say see oh that's the only good thing that part about salvation no he uses a background story again to teach salvation sir what are you doing I'm giving you a context that no biblical writer was confused hence you the student shouldn't be confused thinking they don't know what they were saying Jonah the same thing Jonah will use his life story he tells you again now the word of the Lord came unto Jonah the son of Amai saying arise go to Nineveh where will you see the might of God in my going to Nineveh or my not going to Nineveh so he will use that story in the Book of Jonah I did not go I was supposed to go to Nineveh and now took shipboard to another place I now had to pay my fair back where I used my own money CU I went where God not send me end of the whole journal story he used his whole life he was angry that God forgave the people so easily then when the fig tree that grew to cover his head died was angry and God said you did not plant the tree but it helped you but you wanted me to destroy a creation that I created so you know I say ah there's gospel In Jonah is there there he told you that he would tell you this story using Jonah as a background using his life my going to Nineveh to preach is what I'm going to use to explain the gospel to you so he say oh Jonah has a lot of Grace there we see a lot of understanding of God is good and merciful you are looking for team t h m e he is TE holistically which is why I'm giving you this background that there are all of them which is the meaning of being a master which is the meaning of being a pro in a topic they know the whole Council you know one part think in a holistic manner so this is the reason why when a child enters school from kindergarten PR notice they start with the fundamentals we cannot be teaching the child 8 + 8 is 16 we have to find out does he even know what one looks like does he even know a say a for whatever that means a for apple b how can a for how can a be for Apple so what about the other things that a is so again you see the L is already

dysfunctional because you already have A4 apple b for b c for cat what about the other things that A is for why not teach your child that A is for a as in attentive the first letter be attentive to me a US it to teach good traits say for apple apple apple apple apple apple apple that you barely give the child to eat deliberate with parenting be deliberate with parenting be as in bold be bold my child you be a bold child don't be te it be bold be bold the first letter is B not B before four what is four C4 they tell us see the I mean you can use that to teach the same way you can use it to teach Bible characters which we do in our children Church amazing F work our guys are doing a mention Bible characters mention things in the Bible mention L loyer be a loyal person be a committed teach say L for lion inide children Church lion what lion how when will a child see a lion it's only story now teach the one that they can understand you are molding a new generation don't mold it wrongly and also don't be scared come on and no no nobody had any manual we all learning as we on the job AB be but we do have the scriptures the word of all words to guide us AB so when we make things hard is when we leave the Bible the Bible we should live our lives what a great book Micah the same story Zephaniah all of them gives you the same story are we good so all the biblical writers have a Genesis to Malachi background and they want you to think from the beginning amen so let's conclude with Genesis chapter 1 so Psalm 74 we see that they are in the Psalm 74 that we read I said that he uh before we go to Genesis chapter 1 which I'll just read Genesis 1 when we are ending this morning uh Psalm 74 for God is my king of old walking salvation in the midst of the earth God is my king of old now like every writer look at Psalm 78 let me not go too far I was trying to to take you too far Psalm 78 so at least it's just after 74 let no at least you have heard this one before Psalm 78 look at verse one give ear oh my people to my law incline your ears to my the words of my mouth I open my mouth in a parable I will utter dark SS of old are you seeing the use of the word old dark Saints of old now we have heard this verse read sever time we interpret Parables which we have heard and known our fathers have told us so you see the O takes you back to the beginning of time what did they pass with oral tradition because before the techology of writing was invented the way we used to preserve history was using mouth using mouth the head of the family gathers the children tells them what has happened to him so that they would tell their children that children will tell their own children they tell their own children so they preserve history by Aura your Voca you use mouth tradition is to pass something down is not to wear be and be dancing masquerade Dance all right tradition is p down what is p down anything that is passed down is tradition so oral tradition then you now have writing which started with the hieroglyphics and all those other forms of writing which Egypt is the pioner and Moses leared in the house of Egypt so notice the intelligence how God does his things Moses now that has come from a nation that pioneered writing tell you Africa is not develop see devel before there was any Western Nation say white and black just some things are wonderful have you seen a white skin before there's no white skin anywhere now do are you black don't have don't seen color black look at black shirt is that that your face say say you are white why are we white

why are you white and we are black for God's sake you are not you are not you are not white nether are we black we're just using color coding that makes you why is he always the black sheep that is the bad one why is the white one racism in every phrasing and thinking he has made us of one blood just you travel the country you see your skin will change small you stay longer my friend your skin will keep changing you keep because you realize that you are far from Sun that Smit You by day and night so that you are closer to the Sun and you are far from the sun does not make you better than me so you say white and black that's that make you intelligent because you are far from Sun first snow is always falling on your head how does that make you smarter how does that make you any better thank God you have had good leaders good government officials that help your nation to be better we pray for such too that will help our nation to be better but don't make yourself better than us because of anything as we have seen black people have invented many things as much as white people have invented many things racism at the core is an abuse to Creation because so it's not even human to be racist xenophobic anyone you want to use tribalistic is is is Unum inhuman to be tribalistic against the core because at the core every human being originate from one person the same thing with every culture originates from one or two of families so at the core ultimately everybody goes back that's why when Paul was teaching he say we are of one blood it starts from Adam and somebody say no Adam is not the first man there are other human beings will there obviously be a first human being say then that's the person we from you must don't need to be silly say it's not Adam okay whoever that first person is is where everybody comes from and that takes everybody back to one blood of one family realize there's no need for racism love people equally amen hallelujah so how Psalm 74 you see he using words and phrases that we are used to so he has been using the word old thouest divide the Sea by thy strength where the god divide the sea when they cross the red SE Exodus 12 13 14 you have the background from the p okay the day is dying so just go to Genesis chapter 1 let's go to Genesis chapter 1 Genesis 1 verse1 to verse3 in the beginning God created the Heaven and the earth now notice he says God created the Heaven and the Earth is he talking about the world yeah the world w o r l d is Heaven and Earth Che now the word is heaven and Earth the world w r l d The World Is Heaven and Earth Heaven and Earth now we say two parts of the world yeah but the world is Heaven and Earth you must realize that that it's not Planet Heaven that we are trying to disappear into the world that God created is Heaven and Earth so what about hell we get to that guy and that place CU you see that it will be removed because it was not God that created that one it came as a result of the Fall because because it's from a question where shall I go because it say the word Shield is a question so where will the spirit now go he has to go somewhere because Spirits are not supposed to die so where is going going to go somewhere hell so where is he going to go so where shall I go Jacob I taught you that in the teachings on the grave sh shall the word from the Hebrew that says I will now go to my child where is my child because he was looking Jacob was looking for his son Joseph say ah so I shall now go to my child where is

he really that's the origin of the word shield the place of the dead because he has to be somewhere because man was made by God a man can't just cease to exist like that so that it's not existing here must be existing somewhere where that's where that word was Guard from so biblical writers think intelligently we should also in the beginning God created the Heaven and the Earth so they were together the original creation has Heaven and Earth the original creation has Heaven and Earth is that okay all right now verse two the Earth was without form and upon the face of the deep the spirit of God mov upon the face of the waters verse three and God said let there be light and there was light now I've taught you how to interpret the Bible contextually the things if you are interpreting the Bible contextually you can look at it from a cultural angle or historical angle and a grammatical Angle now the cultural angle allows you takes you back to the audience what is the audience hearing so the culture and the history we can merge them together it gives you that background okay so I understand it then the grammar the kind of words and phrases what do they mean now all theory always agree in every understanding that is proper interpretation where we get the word is e s e g e s i s so we are properly interpreting the scripture properly interpreting the scripture so when say God cre the Heaven and the earth once you have one two the in a linear chronology of events you're already lying and you say not the truth so once you have after verse one what is there rep be what is there verse two and after verse two what is there verse three as event it is true that after verse one is verse two and verse three in the writing but the events are not chronological you will see it in the history in the culture and in the grammar even the use of Hebrew words shows a disjunction he uses just that you have conjunctions and disjunctive you so he separates the world so that you don't say it's together they the same thing they are not the same thing so doing our English Bible English translation we like to read it 1 2 three all together that's where people started Gap oh God created something happen to the beautiful water God created serent and everything let's start again so so that means God have recreated the more than once say yes Satan the when they F the scattered Boom the exploded because heaven for you is the same way of going abroad it's always hor there's a hor so so they came from out from abroad they just jump land on the earth bam just scatter everywhere oh okay so what God now do now said I will start again not a proper way of thinking so already reading wrongly what was not said is that okay all right so give me five minutes let's say this and be done in the beginning God created the Heaven and the Earth the Earth was without form and void and dark was upon the face of the deep and the spirit of God moved upon the face of the waters it doesn't follow God created the Heaven and the Earth how can the Earth that God has just created be without form and word and he's just creating it means he's confused that already a disjunction he can't have just created the Earth and without form how do you create something that is not without form and void no but actually something has happened to what I created does that make sense the Earth that I created so what does he do this normal like sentence beginning what I ended the sentence what I be the next sentence with so it shows you that you should not reason

grammatically different in the beginning go the Heaven and the earth I ended with Earth and I'm starting with Earth so Focus follow what I'm teaching so it brings wakes up your understanding the beginning created the Heaven and the and the so I started the way I ended the last sentence that tells you that I need you to see something so we say three things observation interaction application if your observation is wrong you can't interpret correctly so when we teach we always say observe did you notice did you see this because that's how to study three points of Bible study observation interpretation application observation is based on your intelligence is as smart as you are that's how you can observe can you see can you see can you see now get they see so when you say observe what did you notice some people will look look only see one somewhere El we see 5 10 things because it's observing keenly so nemiah when he was read teaching the Bible he said he gave them the sense so that means you should observe everything you can observe in in the beginning God created the Heaven and the earth now we already have the word beginning as the start of time I so but the Hebrew word for beginning there is not the English it doesn't mean the same thing as English as I want to start now though the idea of I want to start is referenced but the core of what he's doing by choosing that Hebrew word for beginning there which is the Hebrew word beish the reason why we say Hebrew and Greek is not to show that we are Scholars language except you are tribalist you should hate any culture so that is the exact word that they used and when they use that word rashit is the word for first fruit first fruit is gotten after you already planted seed that you have harvested so if it says in the Harvest God created ah that means what did he plant so he's already showing you Moses the first writer is not not the first human being to leave people have been living before him so he's going to write knowing that people already know that people have been alive so he's going to tell the story from the beginning using words and phrases that shows that there's already an audience Moses is not writing before man fa he writing after man fa so he going to reflect that in his writing so that's what he does in one 2 three in one he tells you that from the beginning what God planted and what God wants to harvest his Heaven and Earth together but something happened so that verse two is what he now tells the story in chapter three of Genesis where it say man fail but because we are looking at Earth as sand in the beginning God created sky and sand or Planet heaven where disembled Spirit are and planet Earth where human beings are so two planets far away what is that no the same place because the just as in the natural when you you see the physical that's how also in the Unseen Heaven and Earth together the same place so every time in the Bible you see Heaven and Earth and I've said this before this why I can successfully end here to continue again on Wednesday he uses everywhere on the earth you see Heaven there's no way on the earth that if you raise your head up you can't see the physical Heaven that is same there's nowhere in this world that there's no Heaven because the heaven is unseen word and seen word so there are two words for lack of a better word we use the word two world but God created one word and that one word is made of two parts so two part word Heaven and Earth in the same place that's

what all biblical writers had in mind and that use of the word heaven in the Bible has eight applications which I've mentioned over the over the years and I still mention it again in the course of this teaching on Wednesday amen so in the beginning God created the Heaven and the Earth the Earth was without form and void Darkness was upon the face of the deep is he using water language spirit of God moved upon the face of the waters now don't bully ancient men if he's using water he wants you to think the face of the waters the spirit of God moved the Earth was without form and void that upon the face of the deep the spirit of God moved upon the face of the waters and God said let there be light and there was light so see the disconnection like I said already Rashid or depending on the Hebrew dictionary you are using now the in the grammar there's no definite article because by saying in the beginning it looks like oh definite no so you there's no definite article but it's okay in the beginning because there was actually an original point where the Earth began but why is he removed from the Hebrew lexicon because this is not the original beginning because this man is telling a story so they removed the definite article so in the beginning so when God began to create he created heaven and Earth because he's telling a story because we already harvesting in the Harvest in the first of the first fruit it says God that's the what beginning there in the first of the first fruit God created heaven and the Earth so if we are Harvest that means this is what he planted so when God began he created heaven and Earth but the Earth was without form so that's not when he created that's what happened to the Earth that created but what will God now do he said let there be light so we know how it ends which is where we get salvation we know that is still light out of Darkness the story will not end with Darkness so there's hope there's restoration that no matter what is happening that is not how it will end but is it just oh the Blessed Hope just in the future says something about the now the message affects the now and going forward Hallelujah are you thinking with me this morning so the grammar is different so when God began to create the heavens and the Earth so you know that okay what exactly is he saying why is he telling the story like this so it needs finishing so it brings in verse two starts with the same phrase he ended the verse one with and the Earth God created the Heaven and the Earth so he said and the Earth was without form and words so okay what now happened verse so verse two we prepare us for verse three without verse so two and three actually the ones that are linear because three is a reaction to two but two is not a reaction to one two is not a reaction verse two is not a reaction to verse one it's not that God created just no is that something happened to the Earth but verse three is the reaction what did God do when something happen happen to the that he made that is not without form and word he said light be so the phrasing is a a reordering a reordering phrase which is where we get salvation because right from when the biblical story was being taught they taught the story as God working salvation in the midst of the Earth right from Genesis chapter 1 the biblical story start with God saying it will not end with Darkness let there be light and there was light I would have what I made just like the Jesus told the story of a man who planted and so and white men SL enemy so T and he said what are we going to do he say let them

grow together at the end when is Harvest time is easy to see the TS from the wheat is in the initial point is hard to distinguish if you understand a bit of thing about the TAs will be obvious because it will be one is straight one so you easy to tell okay this one I this one I scattered like this okay so I'll pluck this one away and throw so when is harvest time it's easy to tell what God did not make from what God made so we get rid of all of that that's what God is doing but it's not waiting because he's doing something towards that end this Gospel of the Kingdom shall be preached in all the world they said then the end shall come Matthew what are all these things that all these different writers are saying Matthew 24 and all of them what exactly do they have in mind what we're going to explore in this series working salvation in the earth so since they have this Genesis background we can't rush it we can't rush it we can't use Genesis to be arguing science because the original audience were not scientific it's like bull is we'll be bullying Paul today when we say uh somebody came to the conference with a private jet Paul Paul can't think private jet it does not exist in his world view so allow ancient men to be ancient so Genesis toala is pre-scientific it's not against science it's just pre-scientific so they don't use scientific world view and phrases it's pre-scientific and premodern so with our modern slangs and all of our new 21st century dragons they won't use it don't bully them with that so think like an ancient man when you understand what they understood in their time bring it to our time you will now have the understanding that we have today which is Bible teaching which is a systemic process you have to follow a systemic process in bringing people to understanding so working salvation in the head what have we emphasized this morning that salvation is a theme that runs through Genesis to Revelation that all the biblical writers taught from a beginning of the world concept they taught from a Genesis angle so when I say oh this just a new teaching oh this is just this salvation concept is a new no it is what every biblical writer taught is how they reason how they taught it's how they reason and how they Tau it's how they reason and how they is how they reason and how they thought they thought from a Genesis what God began to do from the beginning and what is he doing even till now and that's how we should think Hallelujah much like imagine we all think like that will'll be systemic we'll be consistent we'll be focused imagine how focused God has been and this is me prophesying to PRS here I'm reminding you because God have told you several times to be focused but you see God is the most focused being nothing has changed nothing has made change his mind he does not do distraction I'm focused what I've said I'm going to do is what I'm going to do what I've said I'm going to achieve is what I'm going to achieve God is very focused we should be like our God consistent and focused no distractions Hallelujah consistent focused no distraction hallelujah amen God is a good god he won't allow things remain the way they are that's consolation we may not I not explain much this morning but just giving a background in our intro God will not allow things Remain the way they are that gives me hope that means god do not leave things in a chaotic mess my God changes situation he turns things around my God changes circumstances changes situation if he can rescue the Earth if he can rescue the Earth those he left it for man he can rescue the Earth he can

save the Earth he can shape the Earth to be what he made it to be there's nothing God have said or told me or said to me that he can't help bring light out of darkness no situation is too dark that God can shine light AB no individual is too far gone that God can restore that's a good God that's a good story that's the biblical story of the consistency of God the Longs suffering of our God is salvation he has been consistent working salvation in the earth restoring all things to the way he made it he will rather make man than not make man and he made man many things are woven into that story and that's the story we want to tell this week next week throughout December we conclude telling the story of what God is walking in the earth and it's salvation why do we want our neighbor save why do we need people to be born again will get to understand it better you see that ah I'm doing myself oh I'm not helping my friends that they don't know Jesus Hallelujah stand on your feet lift your hands and thank him for the things you've learned this morning the lessons you've learned the things we picked out from the things that were said I have wisdom I have understanding there's no confusion
