

father we thank you this morning again we open our hearts to your spirit and we trust that in this service the eyes of our understanding will again be fled with light leave here understanding much more your Plan of Salvation what is the gospel what you did in your death bu and Resurrection we declare that the things that to be said in this service will be said the things that ought to be done will be done to the praise and glory of your name and the people said amen God bless you have your seats salvation in the earth Psalm 74 and verse 12 Psalm 74 and verse 2 for God is my king of old for God is my king of old working salvation in the midst of the earth God is my king of old working salvation in the midst of the earth God is my king of old working salvation in the midst of the working salvation in the earth Hallelujah God is working salvation in the earth so because God wants the save says go into all the world and preach the gospel go into all the world preach the gopel to the uttermost part of the God wants us to preach the gospel God wants us to spread the good news God wants us to spread the news spread the information tell the saving message all across the Earth Matthew 28 Mark 16 Luke for all of those books you see the ending part is always preach everywhere there's an everywhere emphasis Hallelujah so we are to go everywhere and preach the gospel amen hallelujah and we said that we need to see that the gospel First Corinthians 15 just read the text moreover beden I declare unto you the gospel which I preached unto you which also you receive and where by which also you are saved if you keep in memory what I preached unto you unless you have believed in vain verse three for I delivered unto you first of all that which I have received how that Christ died for our sins according to the scriptures and I said there is no direct verse in Genesis to Malachi that have Jesus died for our sins Christ died for our sin there's no direct quote like that but it says according to the scriptures according to the scriptures and what that means when he says according to the scriptures what he's dealing with when he says according to the scripture is not a particular verse but that we can use we can explain Christ died for our sins from Genesis to Malachi because there are events of Salvation events of rescue events of Deliverance and it says according to the scriptures so we can teach this from the scriptures amen and I lay that found on Sunday and on Wednesday some of you are looking at me like you are forgot soon so we said the facts of the Gospel have differed from Adam down today the facts of the Gospel have differed but the substance the essence is the same the substance the essence is the same for some the detail of the Gospel the detail of the Gospel was about the land some it was about God renewing his Covenant and that was the longest message of the gospel God renewing his so from the timeline of Abraham to the coming of Jesus it was more of a detail of God renewing his Covenant with mankind after Abraham I mean from after Abraham Isaac and Jacob was more about God renewing his Covenant but there have been different facts and details used to explain that gospel just like today I give a simple example just as a way of understanding it like when you meet people you come from different angle to preach some you come from the the way you start your evangelism is about uh you just talk so much about love the love the love the love the love the love of God there are some other come from an an an angle of you were

put on this head for a reason don't waste your time don't waste your life has that happened to any of you before in preaching you know you don't preach to everybody the same way you have different entrance that's the same way now none of those the essence is the same you didn't distort the core which is that they will place faith in the lordship of Jesus the call is that God will now be their lord and savior is that not it that's the call and you do not dislodge that call you emphasize that call you preach that call Hallelujah all right you preach you emphasize that call however the facts differ in how you explain how you shed light on it that's how Genesis to Mal which is why we said beware of chrism it is the error of trying to force every Bible verse to be Jesus Christ no Christ centered teing is in application is in summary or conclusion because trying to force every Bible verse to be Jesus is not only stupid it is a lie every Bible verse can't be about Jesus because it's like Abraham was told about this and this and this about how does that benefit his life now how people are fighting war and they say because Jesus is going to come 2,000 years from now we will win the battle they already lost the battle because if they have to wait for 2,000 years they will not win the battle I'm talking I'm not talking about Battle of sin and I mean physical battle that they are fighting the prophet now comes because every time Prophet open their mouth as we try to teach not us as many person try to teach in their christocentric teaching which is not a proper chentric teaching but chrism the error of trying to proof texting Force every Bible vers to be Jesus Christ everybody from Genesis toi they always hearing Jesus Christ how did they hear Jesus Christ that's why we must re get we must restore that understanding that the way they he Jesus Christ was by hearing about God that's why we don't teach a Jesus that is not God the way they heard about Jesus was that they heard about God because Jesus is God it was God they have dealings with that's where it is connected but not when you try to make it oh Abraham Jus is dying no the detail is there so on Wednesday I read the Galatians for you it says the scriptures for that God will justify preach before the gospel onto Abraham that saying give you the emphasis they not say Jesus die in all the nations of the shall be blessed saying you guys are looking at me from to jurge you will not he God's word you will be making look like it was not communicated look at Galatians just this not what I'm teaching and I will run away from it this is not the day I want to take my time on that at all Galatians 3 Abraham believe God it was count to him for right know ye therefore that they which are of Faith the same of Abraham verse 8 and the scripture foring that God will justify the Heen true Faith preach before the gospel Abraham says look at the detail that Abraham heard inde the shall nations of the earth be blessed abrah not Jesus died for your sins your sins are forgiven you're not a new creature that's not what he heard what he heard was all nations of the earth be blessed that saying is different you see it in genes from Genesis to Malachi they were hearing different what Jonah Jonah went to preach the gospel in N what was Jonah preaching yet 40 days n will be overr yet 40 days n will be overthrown what kind of gospel is that one but God wants to save you people God wants to save you from that impending Danger didn't mention about Jesus dying don't lie was he didn't mention about Jesus ding but he know God is gracious

so what I did on Wednesday so that we can get the flow but I show you from Genesis to Mali that God has always been called a gracious and merciful god because once you miss that point you distort the gospel where you have Jesus making God a good person Jesus died so that God will be a new creation too God have now said I'm not a better person I will not do bad again I not love mankind no it's not God so hated that he sent his son that he killed no sorry not sent God so hated mankind that he killed his son on behalf of man so that man can be no that is and will run into trouble explaining that gospel in more intellectual CLS because then we now have to come about child abuse domestic violence we have to come into all of those how do you present the gospel in a community in a place where people believe that these things are child abuse these things are molestation no it's just they don't they don't understand because why will a father be beating his son for another person because he's angry just stop being angry now you have to beat your son so that you will not be angry can't you just deal with your anger issue because if not explained properly it will be looking foolish in presentation because that gospel that's why we said how you understand the gospel can affect the fact of Salvation so if you have this angry God that Jesus made a better person you already miss the picture of the Gospel which is 70% mainstream teaching of the Gospel they have this God is not angry with you again God is not angry with you of course that's true God is not angry with us but how it is explained is not correct at all it has Jesus have drunk the whole rot of God Jesus godes God poured out his whole rot he took his innocent son and lashed on him so that you and I can be free all of that presentation distort the gospel will laid foundation on this again and again that's why we are in part 11 so you appreciate teaching teaching done intelligently is that okay all right so we've laid a lot of foundation on all of these things that once you have a wrong idea of the Gospel a wrong idea of Salvation it affects how you understand Salvation And The Gospel it affects it greatly amen affects it greatly so the gospel fact have differed even when you read Hebrews chapter 4 where it say the same goel us was preached to them and what was the first example he gave was about the seventh day saying he has blessed the seventh day how is that Jesus died for your the seventh day but you see the fact May def but the essence has been the same that man God wants to live with man DW with man together God wants to live and dwell with man make man his house and his AB that's the C that fact and that is that starts that Journey Begins when man accept that his creator is his Lord his creator should be his Lord not just that he's my Creator I affirm that there's a Creator no that's not save anybody that Creator must now be your Lord because he wants to help you because created man for relationship so when man accepts that relationship man can now live the way he intend man to live and he not punishing man accepting the decision no man is being punished on his own for drinking poison it's like you tell somebody there's poison there and the person drink you not the one that kill the person the day you eat of it you shall surely die so man choosing to go his own way which is how sin is explained all like sheep have gone astray man going his own way man choosing not to accept the message is the damnation and condemnation John three

says Jesus said I condemn no one but this is the condemnation that light has come into the that men have L Darkness because they where evil so it's the man's action God is sending people to hell no people are sendings to Hell by choosing to not accept the message and not because it is a heaven or hell narration of the Gospel which we have explained no don't do Heaven and Hell there's a destination I get to fly away to Heaven I don't get to get to go to hell no is there Heaven and Hell in the Pres of the Gospel yes is there a heaven yes is the believer in heaven now yes not when we die we can have experiences in heaven now yes is there a hell yes is the hell forever ever no it's a place where the dead are kept and that place where the dead are kept will be no more too and not just the dead now the Dead the unrighteous dead and now kept in Hell after the resurrection of Jesus the UN righteous dead are now kept in hell so that hell dead shall be Cast Lake of Fire and that is the second it will be destroyed there will be no more hell no more Satan no more S no more devil the glorified Earth will look there will be no more of any of those things so we cannot make the gospel call of fly away or don't go down here now like we said even if someone does not know all of this fact it is okay it is very okay to have Chris have people born again it's very okay to I rather people don't know all this proper explanation of the Gospel proper explanation of Salvation and they are Christians than they are ath they don't Jesus but like I like we said the reason for proper explanation is to deepen your understanding so that you will have an intelligent understanding of the Gospel the nature of God the word of God from Genesis to like genesis to Revelation so that you can now properly tell the biblical story so we said why because it is not the quality of our message that gets people saved it is the faithfulness of the Savior that gets people saved because he said go tell people that they can be if you tell anybody and they AC American because the president said be bringing people goth is me go therefore go invite people so how we invite people may be bad but if they accept invitation they accepted invitation that's why people are getting saved even when a wrong gospel is communicated is not God saying the wrong gospel communication is okay is that he's merciful and gracious enough to save did you get it all right so get it clear some like we said on Sunday and on Wednesday different facts in different Generations some it was about the land some was about the flood different facts were used to communicate the gospel no why it was the flood the rainbow that was used to communicate the gospel different facts has been used but the the core and the essence has been the same and where we ended on wedes day I gave you so many references from Moses that people don't like that God even revealed himself to Mo and said the Lord the Lord God gracious and merciful long suffering and I expl to you that [Music] slow to anger which is not it's a good trait it's not but quick ver no no that's not what slow to anger means the word means that slow involves even to Eternity word AR which explains the word L they are all uh conjoin synonyms in the Hebrew language that's why some text we put and together some we separate it and just put slow slow to anger or some we put together ma in the Psalms when you study and open up on the phrase slow to anger especially from the Psalms it BEC so clear that oh this what they are saying yeah because

God is slow that's how you should read because of how it is communicated in the Hebrew language it has the phonetics of slow not just slow to anger because James now said Slow to R slow to anger see positive trait it's not a negative trait so it's a good thing it's not so it's not IEX but I don't in five minutes that's not what way of long suffering Hallelujah Hallelujah so the gospel has been communicated so in First Corinthians 15 that we are reading where go back to where I am it says how Christ died for our sins according to the scripture he was seen of he was seen above of the 500 notice the detail sry verse four and that he was buried and that he rose again the third day according to the scripture so two things he died for our sins emphasis for our sins according to the scriptures he was buried and that he again the third day according to the scriptures so we now said do I now today do I today do I after the death of Jesus do I have to in preaching the gospel have to mention the dead of Jesus we say yes why because that is now the greatest event in all the scripture because God has always planned to Kickstart his kingdom God always planned to start Eden again on the earth now that plan has Jesus has finally inaugurated God's Kingdom on the earth that for all them who are saved will now have God as our savior that's why there's a relationship in Salvation where we get people born again there relationship with God because imagine if God is your president how would the nation be that is true for you and I now as believer we have God as that's why healing is not a big issue for God any issue we have he can fix it that's why we must now learn his ways now what is going to be for all kind is now all the Earth is going to now have that but much of the church is still grasing does not even know what it means to live in God's New Creation doesn't even know what it means to be God's new creation and we already God's new creation Now now and forever so that's why we must emphasize and teach more around what it means to be God's New Creation Hallelujah and we'll do that a lot this year we understand what really means to live in God's New Creation what it means when we are the new creation that not are we as a people the produce from the resurrection of Jesus the church we are a people of life people of resur a new creation Heaven and Earth man a new Heaven new Earth man what does that mean now and forever that is what we will keep exploring and learning more about because most Believers don't even know anything about that because much of what they have been taught about salvation is I fly away I get to see myi one when we all get to heaven there's always a distance like you are not Sav now so you don't enjoy the benefit of Salvation now is always pushed into a distant future and that's what people call the Christian hope we corrected that yesterday for those of you around truth experience meeting that is not the Christian hope the Christian hope is not we are waiting that's a useless message it even produces Lous and waywardness you make you irresponsible so you don't care about how you live you don't care what's happening on the earth whether pollution is everywhere this after God will bomp it so what concerns me there's a level of irresponsibility that is communicated when we see that this is a useless God God is tired of it no the Earth is the Lord and the fullness thereof what God is tired of what God doesn't want is the old creation that is on this Earth the old creation the what sin produced the dark

creation that there's now a contradiction that there is not just only light there's now light and darkness going together so that dark what God not plan Darkness death there's life there's now death it's all to be only life but we not have life we have death we have light we have Darkness all those Darkness death night Evil all of those things which is why we sing that our song No More Night no more Revelation 2122 there will be no more of any of those because God did not plant it from the beginning so the theory timelines before the world began in the present time and in the world to come we see that the reality before the world began and in the world to come will merge and become the same but in this present time God does not throw away he simply renews because a good artist will not just waste his work no so God it is his work the Earth is the Lord so he will fix his Earth he will renew his and that is a heaven plus Earth space the Earth is Heaven and Earth together stop seeing the heaven and of course we may for lack of a better word we will now remove the word and world the biblical cosmology Heaven and Earth together so Jesus in his death resur must do a work that unit heaven and together that Mar heaven and together which you see in Revelation which you see as all the biblical Prophet about isah used the new creation new heaven new God is doing a new thing we see that that inauguration is why Jesus comes to the Earth to bring God's kingdom not to make us fly away after got if the goal is to fly away we get born again we ought to die as getn now sleep so that you fly away because like we said the wrong and I'm telling you it takes a lot of years of stud now I've been studying the gospel for many years I to go back just last year the volume of books I bought on the subject of redemption over 1.5 million just the subject of all of this reading some of the best professors in the world what they have to say some say this some say this what exactly are they saying about what's thee of the gospels like thiss like this get to read again and again just to understand some of these core concept because it's it's when we don't communicate things properly we miss the fact and also thank God for the ministry of how intelligent he teaches the gospel that has been because God gives you people who are a Nar that's just AAR for and I don't joke with what he teaches and says as relates to the scriptures we need to Rediscover proper interpretation of the Gospel like we said not that go will answer our prayer that our needs will be met so that we will not be distorting the fact of the Gospel when we preach it so that we are so that people can now see aity that what is in Genesis here the same thing oh there's a similarity oh the biblical story is wov together we that happy are we amen so I'm not going to deceive You by saying oh it's such an easy thing you can in 5 seconds know it now lie no no no no those are all making can just make it simple in five sentences cannot be see how this this series we are not even I am still in paragraph three and we are in part 11 and right now much understanding has been got everybody like okay the thing about proper teaching is afterward you not you will no longer remember where you were ignorant how come people don't know this simple thing this simple thing in the Bible everybody should know is not simple when we explaining it so it takes a bit of time that's why you are patient you don't graduate from K one is not the end of the child's life kg2 is not the end K3 is not you keep learning so patience is required in

learning clearly something new you have to be patient the same thing in building the same thing in Des anything we have the material so we have the dress the Tor takes his time they don't like to be called tored against these days the fashion designer takes his or her time we say Tor takes his time making what takes his or her time doing what they are doing so that's the same Focus the Builder many time when you look at say oh this building does not make sense on the ground most people don't even know where is this one what is this what but as we keep raising the building up it makes sense so it's okay in a teaching just like we started teaching now for the first 30 minutes 20 minutes you have not seen where it fits seen how things fit take time that's why that is not what you call I understand the message follow because it's in following you will see where it fit fitting is the ending you can't hear a message and your your brain already in the ending how does this how does this live how does this and keep hearing it will fit as you keep hearing that's how to listen especially when it's a good teacher teaching you because Bad Teachers don't they just want to show you knowledge that's not the goal of teaching the goal of teaching is to impact understanding so if you are patient just open your ears listen you will as long as you can hear you will understand that is proper teaching stop listening to us as if we thead teach that confuse you listen properly in Africa in Nigeria most especially we are not used to good teachers from primary school because they just that's why you hate lecturers and teachers don't carry that into church it's true of that readiz when present the gospel properly and you and you be enlightened are we good all right let's back to what I say so First Corinthians 15 he says Jesus died for our sins according to the scriptures and we said that according to the scripture is summarizing the Bible did you get it saying that the entire scriptural narrative leads to this point we can now take the greatest event of the dead of Jesus and us it to explain all the Lesser events because this is the greatest the the greatest of events because now finally God's intention from before the world began to have his kingdom on the Earth has finally happened God has finally had the man that he wanted Adam to be in his garden so his Gard started he has finally gotten the man that he wanted glory be to God so the greatest event in all the scripture is the de of Jesus so it will be foolish when somebody say do I have to not Preach Today say Jesus died I have to because I'm not living before the cross and you preach are not living before the cross if it was before the cross we can use those other presentation so why we now having to now show where why we having to now unify the de of Jesus today now with those Genesis to Mali event because that's how the apostles started in Matthew to Revelation they didn't have any other stories to use so if we can't see that they are they can be linked we will not understand those basic those basic concepts or terms associated with the gospel I give you an example terms like substitution what does it mean to take another person's place if you don't know how animals took the place of in to Mal if you don't know why mes even in anim sacrifice you won understand Jesus died for us because for you it's all about God is angry because again that end point you are coming from an Angry God you are coming from plate Fly Away Soul transition to disembodied Heaven because of westernization

there was no England when the gospel was first preach in Africa your history is messed up that you mention CMS shows you are backward in history that is not it don't England responsible for bringing the gospel to Nigeria is a lie that's what they tell you when you are being colonized that is that's why education many times they like to hide history books slave masters and uh people who take advantage of people like to hide history so that you can believe because it's sad that they had to those wrong agend them with missionaries coming to Africa Niger to preach so it's sad that they now collab people who should know better are combining with people that coming with wrong agendas so we now feel like oh so you talk is not a white man something there was no England when Jesus died for our sin let's Cal down in how we take this UK matter too seriously Jesus never heard anybody speak English beautiful you see I like that response so nobody was nobody was speaking say how you now how you now nobody was talking like that in the timeline of the Apostles the language was still being developed from those Anglo Saxon and all of those history which they tell you which they don't deny their history amen so it will be uh six 400 years to 700 years after the death of Jesus you will now see the rise of that whole origin of that language and what will now have the nation took a bit of because of all the fightings they were fighting before they now unified and now called it great thing took a lot of time but to now say the ethopian Uno we already have Philip preach ethopian Uno that's ethopia ethopia is not a European country I mean even in your Bible you have Egypt mentioned many times what so RAB heard the gospel why don't you think and what was the Gospel that we heard how God delivered people from this nation deliver I remember I told you the facts how don't you think that those African countries Ethiopia Egypt which Mak up like 10 20 countries in which have split a sopop like countries in one very like five countries made up a all inside many split just like USS most don't know how many countries came USS they just know is Russia so again the point we are making is this the Bible the right way that's what we are saying we are not saying oh if you don't know this you are not saved AB that's again the consequence of excited teaching say anybody ever preach any other thing is mad is crazy no now but it's so that we have an accurate understanding so because how Paul and the rest explain Jesus died for our sins was using those events that they to Mal so if you can't tell how the events which is the problem of specialization what we have now got over the years is a specialization where we isolate dead resur of Jesus fact and we enjoy it with Innocent men that was not their intention we have taking Kon taking Ken taking all of these great reformers who taught on the Redemption fact in Christ realities and we now make it single singular we don't connect it to the events just about oh he loved me oh he died for me oh I'm forgiving oh I'm not righteous oh I was not righteous before just notice my we are dusting it every time we dust we remove say just singularly this but a connection because they rightousness with event from Genesis to Mali so we will never get the accurate understanding where we are always dusting it keep it full keep it whole keep it holistic that's how they explained they explained it together so be very careful when you use the word simple I like the what simple Simplicity but you see how simple Simplicity is

look at how big the book is prophetic say Simplicity and that's just volume one know it's simple make it in five sent you can't use five sentence so I give you the example of our simplification say when you get to the Junction now just keeps driving straight down over 30 three hours going to four hours you just take a right turn you inos if traffic hold you not down after that you keep [Music] going traffic take one and you you take but he say be going no that's we are oversimplifying it and many times teachers sincere wanting to help people that's why don't help your teacher confuse you by saying let's it no allow your teachers take time to build your understanding because you are not dying that's why a local church you can hear it again and again so that your roots are deeping it's like it's cool is okay if we hear it again be okay hearing it again see a that's why people who speak against local church are no where because it's like a school you come again I've heard again oh so that's why we look forward to it we look oh I learn again oh but not just that it's just academic alone are things that happen in the house of God the also present is not just a full package amen making sense all right the gospel we read Romans 1:1 to4 on Sunday last week and we also saw that the gospel Paul says it was in promise so if Moses Paul the new writers all of them said that they from Genesis to Malachi and they Mal te death is of Jesus why are we now removing Genesis to Malachi from how they of Jesus and we have and we are and specializing on oh he love you no God not uh you were not forgiven before but now he has forgiven you it's a lie we read Psalm 130 there's forgiveness of sin with God so that he is fear that's how David said we should worship God we worship God because he's a God who forgives he didn't need Jesus to die for God to be forgiven for God to be a god of forgiveness God has been a god of forgiveness he forgave people's sins I give you the judges example there were 14 cycles of rebellion in just the Book of Judges alone 14 times where you see and God turned back on them and they SED and God you know God was just in that rolling chair you when you buy a CEO's chair that's spinning chair you just put the tired go was rolling that chair that's how you almost judges I children that's I used to see say God so the picture sto and they and he turned his back just metaphorical of speaking that they are separated from God not like God is chair and he turned his back then they cried onto God and he raised another judge for them then they s again cried onto God and God judge for them you get to and Sam then now they now again and give them again again that's the story of so you see that sin is not new and there are different types of sin there are sin that some of the forefathers could not commit that we are committing today sorry things that they could not have Comm technology they not even know you could do that they did not even know you people Comm a result of technology so so imagine Jesus died for our sin every so you see that sin is being modified died for how you def because more and more sin will be invented as long as Man live man will be inventing newer and fresher ways to sin newer and fresher ways to fail amen so that's where we are so we establish that God is Jonah m Jeremiah we read so many text where we saw that they were all saying God is a merciful and gracious God he kind he forgives they did not have to wait for Jesus to come that's why you must now see the bridge that it

becomes foolish to now make Jesus making God gracious when everybody has been saying God is gracious so that means I'm again I have dusted it it's now a singular fact that way I can lie I can now say things are not correct because about excited you make your audience feel no not when we are serious when you want us to be professors when you want us to be intelligent you know you must teach us properly for us to be Masters for us to be skillful in something you cannot be dusting it we all be surface people so if you want us to be deep people teach us in a deep manner that is the challenge so every time you come here know that that's always my focus so that if you want me to do it rush it this is not the place this is the place you matter intelligence with the gospel with the power of God In Loving worshiping serving God Amen don't want me to be what I can never be so the gospel facts like we said first 15 say he died for our sins he was buried rose again for according to the scripture so that according to the scripture is not a singular Bible verse but that we can use all the events that explain salvation of the Gospel in Genesis to Mali to explain Jesus ding Jesus was buried and he rose again we can explain it which is the greatest event those three facts the fact so where you see that lazy man approach say what is the gospel the gospel is the message of the Dead per resurrection of Jesus what does that mean it means he died for all it means God is not angry with you it means your sins are forgiven how is God not angry with you then you blame us that's WR you blame us when you are shouting on the road that you my brother you my sister go is not angry with you I hope you you have the time to explain that detail because that person may say with me that's why continue in his life of beautiful God is angry with you that's going too God is angry he's always going to be angry with sin there's never a time no timeline God not going to be angry with because sin dist man from being a genuine human being so God is not happy that his creation is destroying himself he will be a wicked God anything that makes God happy that we are seeing him is a wicked God he is not his true nature is distorted when we make him happy that people are doing bad but he's not an angry person but you say oh God is not angry with you with the actions that you are doing he not angry with you what does that mean because there a you can't just it with a full stop with you full stop go again oh he loves that's the challenge the what rubb I me let meing what isry with the end of my time makes no sense you no what I meant to say what I was trying to say then you now start saying see this message empowers you to live right now lie that message EMP me to live right does not empow me to live right the way you are explaining does not empow me to live right and you and I have preached to severals who recently I was told Somebody went to follow up their soul and the person said but my sins are forgiven God loves me God is not going to ever put anything against my are you see what you have produced you see the creature you have produced because you didn't you you didn't close the facts properly person is thinking is you are giving them an open check because nobody preach like that don't invent new ways to preach because you think it's easy the book of do you see people shouting I came to tell you is okay whether you are a kider whether you are this your sins are forgiving don't stop there that your sins forgiving is that Jesus de for he

died for the sins of humanity it's a lengthy explanation so are you willing to start like that and just be shooting it's a punch line draws attention but if you don't close itly have more more doesn't matter how some people that say doesn't matter what you do what kind of htics is that doesn't matter what you do you are a child of God it's like you that all of you that have children say doesn't matter what your child do it's my child is that what you want it doesn't matter you say it's true really my child no you being irresponsible irresponsible father thinking like that that's why you not correting the child doesn't matter what the child does he your child we are not every issue is not about me dising you you are not you not rais a dysfunctional way that everything you're long my child you are my child don't always have God in Dysfunctional parental you are my child longer my child you are my child long my child that's not always the issue so why do you guide children the right way why you telling them the right choices to make is it about because you want to be them and acting like Mad father and mother no those are dysfunctional parents that are any will you come home now if come home now I you everything I hope you know you that child your MTH to say you that child is your child forever I you I accept I I accept you as if a statement that they used to dis somebody you only use mouth but that child is still your child Hallelujah so the facts I explain properly and there's a tiny tread where we can miss it when we don't communicate it better say oh sir are you now saying God will not forgive us he been forgiving people before Jesus came the sin is committed you have not half except you are not reading your Bible God has always forgiv people but don't mix the narratives together that's why the gospel must be communicated properly are we good so safely today I should be able to tell you when you Jesus died for our sins I think we can emphasize that he died for our sins so first thing first what does the word sin mean first 15 I'm still in verse three how that Christ died for our sins according to the scriptures the word sin is the word h is the noun the verb is hamano the word h in the Greek simply means missing the mark so I I use this look up please this is L10 logo so this is the Mark if I say throw something and it lands here it hit the mark AB anything that lands here is not hitting the mark anything that lands here is not hitting the Mark is that so so sin is missing the mark so the first thing first we need to know what is the mark because if sin is missing the mark what is the mark then the actions so of suff so action actions of missing the mark all right but of course you hurt yourself if you make that conclusive and that's just action action many action words that are that's why it's not aary definition try to make it easy for you to understand this is a this this is a this this is a this so definitions that's why they say Define this concept later change the word explain the same concept we can Define it we can explain it is not word can be a word that indicates an action or a state of being now now teach you different the present tense past tense different types of verbs all of those things which is not what we are doing so that this is not an English class what does that word s mean that's where we are dealing with Jesus died for our sin so what is sins now funny enough s i n s s i n is the same word where the translators put plural put singular why they say Jesus Christ died for our sins talking about the sin of humanity that grouping Humanity together now some people say oh

sin is the nature sin is the action that's also overation to put you in trouble as you go on you now see that is not always used like that in the Book of John that before so this like we said I teach extensively on the of not to scare anybody but just so that we know really is because you hear people say things like Jesus died for our so I can never commit but you and I know that that's a lie after lead more issue chrans don't sorry you don't I was too generic now have you committed got born again raise your hand let me for your I will do you have not me Ed two I have that does not mean not die for our so what does that because if we keep running into issues because we are not explaining things properly are you getting this so there are questions you can't answer so what is the mark what is the Mark it's not so hard Genesis 126 why did God make man can see the mark Genesis 126 and God said let us make man in our image after our likeness and let them have dominion there is the mark let us make man in our image after our likeness and let them have dominion so the Mark has been the glory of God man was made for the glory of God man was made to be a representation of God the visible attribute of God in the The Invisible attri of God filling up being indivisible that's what explained as Glory the weight the Splendor the magnificence the the resources what a man has who a man is can be explained as his glory so God made man for his glory to be a representation and likeness likeness is found in an image so the words go together God made man in the likeness of His Image so man is to image God to represent God that is the mark So failure to image and represent God be that is thein that Adam committ not slap his wife that was not the that I there's an example I used to I not use it again so that people that that is okay I something okay Adam did not steal Adam did not lie Adam did not commit fornication with there's no woman so we have to mention animam did not all the ad did not be false witness against man against the did God really say but we can bring all the Ten Commandments are running through we Adam and our moral police will not be able to walk our detective our investigative work we cannot pinpoint so what did Adam do so the call is called Romans 5:2 by one man sin enter into the world so sin entered into the so sin was not in God's word sin entered into the word okay and death by sin so that word keeping it simple like I said this is as simple as it can be and I'm really trying to make it simple then we go back to a more technical professional definition so sin is simply missing the mark which is the definition of to a was used forers and all of the target so you so it's now borrowed into religious or spiritual talk and say miss the mark So to fall short what was the mark genuine Imaging so sin is failure to be a genuine human being failure to be a genuine human being failure to genuinely reflect God in our lives and in our community and all of that is where you also see actions of sin so you see actions of quiet so the core of sin so sin is failure and that failure must be seen not just as breaking of rules because once you see that breaking of rules you have reduced the whole gospel to imorality message as if afterward people still don't break throughs thee of of course breaking rules is bad and breaking rules in turn is also explained as a sin but the we dealing with the core Foundation sin is a failure failure of the mark missing the mark and that failure is not just breaking of rules it's failure of genuine humanness reflecting God

in our Liv and in our community failure to properly image God so I'll put it in theory ways the sin problem was separating you get it I'll come back to the again the problem because I'm a challenge you are still doing that supernal noticing things because it's not to just say fact teaching is a gift spiritual so that's why I get feedback feedback is not from your SM feedback is spiritual people I'm saying don't do it but so I will take you up and I will come back again since we always like to go up always like to know what something leads to there's this haste that is in people's blood impulsiveness is not a trait of success impulsiveness the same problem led to three major things if we going to use it led to people being separated the same problem God is the owner of the world he created the world what sin did was now separate God from his word and made God an outsider in his creation because man that God put in charge and said he God no no no we can show on our own you just go and stay at the edge we don't need you we can know the good and avoid evil which is why morality is part of the of man because the get there which is why knowledge of Good and Evil is used to explain sin because I know the good and I can avoid the evil without God telling me has that not always be man's issue we know what is good on our own nobody can tell me that I know what is good for myself so Peter said it's good that we are here let us make three Tabernacle is not good the day Jesus is going to die Peter say you talk too much can you say you are going to die we are trying to mobilize teenagers and youth to follow you so that we can we can in this work know the disciples were teenagers and youth always remember they were not old us to marry those days it's not these ones that s s Mar I mean teenagers to get married 17 18 don't make it just like your great grandparents allow history to be history us Mar does not change the fact to Marly it's just taking longer time to for people to mat because of how people are raised foolishly I mean say it's taking longer time to mat because we are not raising people to be responsible so those they train people to be responsible at an early age they already responsible and that's all it takes to get married a responsible person can Mar so there are children there are people who are 35 years but are still children they are still babies infants in how they behave then there are 18 19 year olds who you see and you think that they are old don't know that they are 17 18 19 years but they responsible how you train a child how you raise somebody is that okay where was I again sing put God outside thank you sing put go say go and stand outside in his own world separated God that's why term used in the death of Jesus is reconciliation you will get it soon so s sep so God that created his word that put man in his word and say man be the crowning of my creation you will be the core I will live through you are a steward in this realm even supernatural beings will walk with you but you are the core your actions will determine what happens on this Earth you are like my V you are a ruler you are ruling in my stad not in my like I'm I'm a way like I'm ring you are the one ruling I'm now in living with and through you and that's the first thing Adam said no to that don't live in and with and through me that's the call of don't that's why we can explain the gospel today as God being in US Adam said no that's eternal life having the life of God inside I don't want God to I can do it on my own and we saw the very first action he did in doing it on his own was to bring

death into the world so I was giving an example of where we say I know what is good Peter says it's not good that you say you will not die it's not good that for our say it's not good it's not good you can go on and on that man met Jesus and says good Master what must I do Jesus asks what do you think is of good why do you call me good he's not saying he's not good as people read backward says Jesus said he's not a good man no he said why do you call me good how do you explain good no one is good save God is not saying he's not God he's living as a man so he's wanting to understand the man because you see the man has a wrong of good so he now tells him say all you have it was not good in the man's eye now B says he was a rich man he left sad you see what the good thing say you have and follow me was not good in the man's eye but he said I've kept all the laws I think it's about morality I have kept kept all the law and exactly what the Commandment meant love your heart he could even say all you have there's not even just love God with all your heart all your heart he exchanged money and walked away And that was the Rich Young ruler the Rich Young Ruler what must I do to inherit eternal life so Jesus was going to the heart of the matter why did you call me good because you see that you don't really know what is good because he left a good Master why not follow what a good Master tells you the definition of good that always put people in trouble I know what is good even Judah that's why he ended up killing himself because he like this man is good now I just make the money after all he can deliver he can disappear the just fly so he was I'm think I'm sure was looking at Jesus that he has disappeared Jesus was really like carried him he's really going to he really does that is the guilt so this man Miriam he worked I thought he so they always knowing what man believe know what is good man knows what is good Abah it was good to use his wife like that say let me get out of it man always is not in man to direct himself so the sin problem was separating God from creation and making God of A Sort like an outsider in his word saying go outside we don't want you we can do it on our own so that was like the first core issue of sin what he did to God's word was to make God in his word because the being that God put in charge let's use physical examples which are not exact but they will be a starting point which is why we give examples the examples are never exact please the explanations are what are exact is that okay examples just to waken the brain a bit I said um don't need to call anybody out I said uh brother a you are in charge of this place on my behalf brother a you are in charge of this place on my behalf what you say to people what you tell people is what they would take you are the one in charge on my behalf then brother that I put in charge telling people to forget me that put him in charge say forget him say it's not own too much he's putting me aside he's putting me aside is not representing me well so I now come and the people I say hello how are you all doing and nobody can see me because he has failed because if he did his work where they would have seen me because we are together we are the same what I would have done is what he's doing I simply put brother a to do what I would have done that is the failure to be of genuine humanness genuine Imaging so the being that God put in charge is misrepresenting God doesn't care about God's plan and purpose which is the case sin sin is against the purposes of God does

not care about God's plan does not care about what God is do does not care about the mark care about the glory of God falling Allen and fall of the glory of God that is come of the glory of God that is theat to come short to fall short of the mark the that intention of God that purposes of God say so going man to be the man say so turns it to be something so God of his sort becomes an outsider in his creation that now God is trying to get across to his man and man is making God look like he a distant entity man that was supposed to be close to God but the first man and in what he started which is why he not just him a man have Contin because PN man other men have with Adam's transgression the similitude Romans 5 it the similitude of Adam Adam is now a pattern that people can follow and more men from and the rest as we see in the history of the Bible continue to show that separation that's why he say your sins have separated you from God come on now that's your sins have separated you from God so sin is separating people from God how is sin separating people from God that's it so in the relationship in how God lives and dwell with man because sin is putting man let's even go to individual actions of sin so that will waken up a bit the of sin is that why you cannot pray done something against God that's the Cs that's what sin is after sin is always after God not talking to you God being far from you leave me alone say say talk to God I say no how will I approach God how will I talk to God is always now God is now leave the is always leave me alone I want to stay on my own sin always just let me just suffer for what let me just be on my own there's always a separation and that is the one of the problems of sin separated God's creation making God of a s an outsider secondly sin problem led to the failure of us being genuine imag produced two things brought another creation and distorted our vocation another creation say that there's now we now get unbeliever there's now unbeliever there's light there's now Darkness there's now so there's now from good angels we now have bad angels we now have devil demons all of those orins that's what sin produce another creation so 5 any man be in Christ he is a new creation so sin produce another creation that God is looking and say this is not the man I made this is not the being that I created so that failure to be a genuine imager sin produces another creation a dark falling one now that word we can use sin makes man the Flesh of man the spirit man is to be Spirit man is now flesh we explain what these things mean so and that failure to genuinely represent priesthood so but our vocation is restored in Christ Jesus just like man is reconciled in Christ Jesus is now in a proper relationship with God a proper relationship with Jew Gentile all Humanity with each other third thing that sin did was making the devil or the powers of Darkness princes or rulers of our of this world what that sin problem led to was to now make the devil or the powers of Darkness the rulers of this world that we should got that made them the rulers of this world the princes of this world made the devil all the powers of Darkness as we call it everything that has to do with satanic setup rulers princes of this world sin now made the princes of this this world with two words of Darkness now affect people's lives and Community making about CL I don't know why of this thinking of CI rainbow so Satan powers of Darkness are now rulers in this world rulers in the lives of people in our communities that's

why most agendas like all the different alphabet alphabet to four alphabet to five alphabet with rainbow color uniform L because when Satan is ruling he pushes his agendas to to make the world more evil because Satan does not just care about why is he want to totally pollute the world with more corruption if the is not important n it's important Hallelujah come on so the rulers of so sin made the devil sin created the devil and made there to be a of Darkness because of a s man handed over Adam's treason was handing his God giv authority to force gods and pass not that Satan now becomes the authority is saying instead of God reing and ruling through me Satan you and rule in my and you know Satan always over and he has gone so far so man Imaging God man is not Imaging Satan so Satan you can you can do this and Satan in turn that's now sin led to death I say death by sin that death is now where we now see the cause separation and Satan see what that has led to hell down to death that man brought to the world Satan the ech to hold on Satan not bring the when he saw that death is separating people from God separating man from Man separating people from genuine Imaging held on to that separation and began to masterly use it in his work on the and he has been using it very well I wish you got that so sin made God an outsider that's why make Jesus your Lord God is now your God so he's he's no longer outside he's now with you if this simple is not working is I'm just I'm trying to make it as simple as it can be that's why we say make Jesus your Lord because it's not outside of your life God not intend for for him to be outside of man I am the Creator but I'm now the science language the software the programming the everything that is making you function let me be the reason why you are functioning so accept me so that we are not doing all this continual update and software let me be the reason why you are all you are so I am your creator I know but let me help you to be the best you can ever because which is not supposed to be an issue because if the Creator chooses to be found as one with his created thing that should be a joy for a created thing remember man is a Rob but let's assume a car for example 1995 model of a car all those and all toas all old models now let's say the Creator made a car in every year of like you have your iPhone 10 11 12 they upgrading it instead of us bringing a new product and saying this is another one man is he in US is making us always what we must be so it's like um How Will I put it instead of a new iPhone 13 every day is renewing so if the standard what is accepted what people want is A3 you are not3 14 if it's a 15 you because he's with you so we don't have to bring another device and say come and get this one no because he the Creator is one with the created thing so that created thing is obviously going to be the most sof after if your device which they try to do in all of these phones that oh we can upgrade the what do they call it the OS the iOS we can UPG but you know the device is not that device when you see the difference between is it the 16 now or 17 those of you like 16 this iPhone 16 I there's no 17 yet so the CD 16 is a bit different of course Apple have a way of always making their like each other which why Samsung and the always laughing each other in their but the point is this you can see see a difference you can see see a almost door is almost you almost see the difference minim but it's obvious for those who have really observed their iPhone 16 so

they try to encourage people who have lesser that just be upgrading you and I so now there's the app intelligence that they using to laugh people and say if your does have app intelligence is not it's an Android the app logo at the back Apple logo at the back so all of those the point they are making is that this is a different device now imagine the Creator is one with created and saying it's the same so everybody will want let's imagine I have a device let's say my device now now this is a Samsung I'm holding let's say this device every time it's updating itself the new one so let's say the new one has a different shape it takes a different shape the new one is is every which kind of phone is this this one is theor phone is having without all those ex I have to get another no I don't have to so you can't compare I will find you get it when a man creates a thing they will write a manual or train technicians especally when nobody knows how to use the product now these days there are man because there are so many already made which is okay because they don't it's not the first time of but if it's something that is still in the formative stage something R unique concept they will have to put a manual compor has failed they must put a manual people can properly use it now imagine I now bought one of those kind of devices and what I got was the maker of that product now say I'm going to be living with you as long as you have this product ah now enjoy the product thank you so God that made the Earth said he will live with man he will live with his creation and what man what sin did was that no we can run this show just go stay outside we don't want you helping us all we like sheep have gone astray are you seen the gone astray now we have gone our own way that's the SC going Our Own Way saying we don't need you Lord that is and that has been ConEd from genes how they explain going Our Own Way separating our from God and say God we don't need you we can do it on our own we can turn our back on you they say it is not God that delivered us it is this Idols making Golden That's again putting God outside just stay outside we can run this thing on our own Hallelujah that is sin did you get it all right relationship God established with Adam and Eve can be seen like a family kind of relationship and the 126 is look there a commission to rule to subdue to fill the as God's Vice like a royal official so rather than us reducing the problem of sin to just be a moral failure or a legal infraction the tragedy goes much deeper sin is a symptom of idolatry we s we turn from worshiping the true God we surrender The Authority God has given us to the powers of darkness which is the concept of making ourselves slaves or putting our into Exile which are events with why they can now use Redemption a language in their time used for an economic term Redemption is an economic term that's the same way you reconcile currencies exchange it's an exchange language so that is done in the slave market so there's now a slave market man will need to be bought God is buying man B man is bought back you are not your own God has bought you with a priz have you seen those languages before so that is a language consistent with Genesis to Mali amen now remember what we are doing we are trying to use a language consistent with Genesis to to explain of Jesus is that okay right so there's the language of redeemed so let's SE so instead of separating God from his creation making God of a sort an outsider in his word

which is what sin did which is now what we call death sin failure to be genuine image of another creation failure in man's vocation sin makes the devil the powers of dark r of this world so Jesus in his death what will he have to do so his death will have to will his death now be necessary to defe and could he have defeated and without know because this is not the difference is different from forgiving sin the man has handed over to princes and powers of Darkness it's not just something we are going to say sor something I can say okay okay okay it's all it's all over no it's a serious issue it's more than oh we broke the rules we couldn't keep all the rules so Jesus have not kept the rules for us no those are a wrong a lazy explanation of the Gospel so because again that will help the hell narrative because we could not keep the rules he has now kept it so we get to go to heaven we don't get to go to hell the it will keep missing the core of what is being commun and what is the core of what is being communicated that there is super uh the supernatural evil on this Earth that there is a supernatural word that God made a visible and an invisible word hallelujah that God made a visible and invisible word and sin affected the visible and invisible and what sin did was to make the invisible Evil dark as much as made the visible evil and dark which is what we say another creation because heaven and was what God handed to man the heaven space remember they together sometimes they use to explain heaven and together which is word to we call world so above the Earth the and under that's why the writers could use to explain the three words Heaven Earth and Hell explain with the word above the heaven the Earth under the Earth hell did you get it so sin separated God from his creation making God of a s an outsider in his word is that clear all we like sheep have gone astray we have gone our own way uh all the many text and we read them but I want you to sin also is a failure to be a genuine imager visible and invisible failure to it produces another creation a dark or a fallen one failure to genuinely represent God thirdly we said sin created the devil and the of darkness and not just only created them because it's the partnership with supernatural being that not only in that partnership did An Angel become the devil When sin now put them in charge Adam Adam what individually we also do in our lives too we make Satan in charge and see how Hees the family now you are wondering what has happened to my whole family this what happen you give the devil small chance small chance so okay what is now that the dead of Jesus forg what is that unique wifei now say okay there's that unique SC a single that that taking and there the actions of sin which is why we are from the consequence you will get it is that man can no longer be separated from God the believer can no longer put God outside the believer can no longer put God out and say God no no no no no you cannot talk to me no because the believer is now in an Inseparable Union with God in Christ Jesus that was not possible before that was God simply committing himself to man that will be following man and helping but now is that the man who is born again because of the death of Jesus he has removed that problem of him ever being distant for man that's the word reconcile a term of Salvation called reconciliation we explain this on Wednesday so well we are in a safe place now I like the fact that everybody's getting it so reconciliation is a major them in explain the

de son of Jesus so man has been Reon did you get it another theme t h m is redeemed man has been bought back so reconciliation and Redemption this are B grammar say reconation redemption but is what the death of Jesus did in his death he has redeemed man he has redeemed man so there's no separation that separation seating God from his creation separating male from female separating Jew from Gentile has been removed so Jew and Gentile is one male and female are the same inside of God no are female that's why I say neither male nor female neither Jew or Gentile in what Jesus did on the cross all right making the devil or the princes of of rulers of this world Jesus in his death Hebrews 2:4 for as much as the children are partakers of Flesh and Blood he also himself likewise to part of the same that true so notice why he died I'm talking about resur talking about death while he died that true death he might destroy him that that H done to the power of death he destroyed him this is what could not be done in those other timelines where God was merciful and gracious there had to be an actual Incarnation God had to do it himself because this boy this guy this powers of Darkness could not be removed by saying all right it's okay all right I will not sit like that which is where we now explain God is not just a god of forgiveness it's a God of Justice and judgment Hallelujah which is where you get another phrase called a the of where is the r of God because will you not be angry when you see somebody else messing up your children's life principalities and Powers beating up man slapping Humanity up and down you'll be happy sorry I didn't know you that kind of father no now that's r see imagine the Mona for example the most expensive artwork you now see somebody on it somebody took a paint brush took color and if I just took his paint and just splash paint on it the kind of jail that person will go it's not the normal type of jail to distort that kind of artwork you will not and no artist no now people who protect those artwork allow it you see the security there is what man did to God's creation but God which is looks impossible said I can still get the art work you mean you can still get with all of this Splash on that's why I'm the Creator now so that's why he had to do it himself because other attempts for other artists to be able to revive and restore the the artwork failed so God had to do it himself so in his death he would do something that his workmanship Ephesians workmanship so Resto which is word for art we are now a masterpiece because he's going to do something so that the Masterpiece can no longer now be painted cannot be affected again so they will use different examples just to try to pass the point Hallelujah so that we are one house one house one house one house one house what do we let's read this text you see it from the Bible Luke 22 Luke 22 and verse remember where this is so you know the story verse 52 and Jesus said unto the chief priest and the captains of the temple and the elders which were come to him be ye come out as against a thief with sword and staves when I was daily with you in the temple you stretch forth no hand against me but this is your hour and the power of was about to go and die you see Jesus bring of Darkness inside it sh this is your hour and the power of Darkness then took they him and led him and brought him to the high priest so you see all of this language Colossians 1 verse 12 giving thanks I wait for you a bit Colossians 111234 you'll get the story giving

thanks unto the Father which has made us meet to be partakers of the inheritance of the Saints in the light inheritance means we have a part who has delivered us from the powers of Darkness ah powers of Darkness delivered us from the of darkness and has translated us into the kingdom of his de son notice what he said delivered us from the in whom we have Redemption through his blood even the Forgiveness of all right delivered us from the powers of Darkness are you seeing PW of Darkness okay CLE First Corinthians chap 2ans these are the things that I've been saying I wanted to read them before it the wayp to the end so I jump to the ending come back to the beginning again right First Corinthians chapter 2 and verse 6 how be are these text in your Bible now they are self-explanatory how be we speak wisdom among that are perect yet not the wisdom of this world no the princes of are they the people that handed to sin puts the of Darkness over the lives of people and Community the origin made thece of this and Satan has been trying to cover all the in darkness just as we are to cover the with light and he has been doing a great job in spreading which is why we shouldn't speak down on Believers having resources because some of these things I said in our meeting those days you could be arrested as a movie director for showing cleavage they could van but there was a particular the playy guy he was arrested several times he kept pushing the agenda which is the rise of the whole pornography industry he kept putting in more money they were arresting come out they putting in more in more men are responsible for that and they use wealth they use resources you see where all of that's where you say doesn't matter what I do with my life I just I'm just flying away no that's why we use our resources to also spread the light look at the influential persons that are behind the media that always push the false narrative that makes it look like everybody likes the their they are gay views don't they make it look like everybody's okay with it it's the media don't think everybody's okay with it in Africa in many places in the world is the way it is but media will make it look like it's okay they just act in a movie you just see people doing say it's noral no it's the power of controlling the narrative because so is that not part of how rulers of Darkness F the Earth with Darkness part of it you want to remove but it's part of it look at the the the the when he came and look at the first narrative that was carried with and I tried to say sever times that was after his fear because immediately we kep wrestling and thank God we got the victory because immedately fear broke there was still but nobody was afraid again and it was not because there was a vaccine immedately the fear broke the hold of Darkness what was that's the spirit of infirmity IM that fear broke it LO lost it power the president declared pardon for the people left off because there was a major Satan coveran don't see onen forces there was a major cover up by certain preses not because there was not a virus but first and foremost the wickedness of man was how the vir came to be secondly the way he spread was also the wickedness of man and every time you see Wicked there's always Supernatural evil behind it Believers must learn to see in two words not just see the natural and just take things the way they are no so Jesus was dying it looked like nothing was happening but Paul is saying now had they known they not this of they know they will not crfi of Glory

because by CRF of Glory they were crucifying them they were judging them they were saying we are no longer Char we are no longer uh the authorities in this world the prince of the power of this air the prince of this world Satan is no longer for believers but in the Dark World in the old creation he still is that's why we tell people the slave the the slave market has been destroyed the the the slave master has been destroyed by Jesus there's something and his death was how he destroyed the slave and destroy the slavery itself and destroy the slave master those three s the slave market the slavery itself and the slave master is what he dealt with in his debt which is why Redemption is now used that he bought us so he went to the slave market and said this this this I want to buy all of them you mean you want to buy them how much are you going to pay the price he used to pay is his life he worth more Creator is worth more than all the creation so he gave himself and we this is an example while we are going SC free as they lead him away say okay we now have the priz he deals with the slave master and in his dealing with them deals with the slavery concept so that they will no longer be a market so they can't come back and and sell slaves he has us you see all the different terms used to explain redeemed we were not redeemed with with silver and gold but with the precious blood so there's a lot of facts though he died for our sin but I'm happy that we have reached there now to touch on this point so say he died for our sin so what is the common that connects this with what Jesus has done with what Jesus died for our that with Genesis I'm showing you that sin put God outside and say you are not the you are the Creator but you you can stay outside you are not the Lord you are not the king of this world you don't here we here and the gospel is that yeh that your Gods God wants to and Rule and he's not going to because of sin and redeeming man now say not going to use man he's still going to use man John 12 just to give you more examples John 12 Jesus own lips John 12 are you there 30 3132 Jesus answered and said this voice not because of me but for your sake now is the Judgment of this now is the Judgment of this world now shall the prce of this world be cast out if I be lifted up from the I shall draw unto me are you seeing that he's dealing with the prce of this world because the death of Jesus did something to the prince of this world the death of Jesus was to deal with the devil was to deal with what Satan has brought him First John 3 ver8 he that committed sin of the devil for the devil from the beginning now this context is a Context of this that of the deviling to it of the devil not every action of sin is the devil no that's what he saying a cont for the devil from the beginning explain with original meaning for this purpose the Son of God was manifested that he destroy notice that word so reason why Jesus came is to destroy the works of the devil you cannot remove it to destroy the works of the devil Colossians chapter 2 and verse 12 buried with him in baptism where ye areis with him through faith of the operation of God who raised him from the dead and you being dead in your sins and circumcision of your flesh Haden together with him having forgiven you trespasses BL out the handwriting of ordinances that was against you which was contrary to us and took it out of the way to the Cross vers 15 one to go read it well now like somebody who who who is rejoicing and happy of for what Jesus have done verse 15 1 2

go thank you he have SP and we get we are bold now to say to people that no no don't let the devil be feeling like he's in charge he's not in charge he's pretending Jesus have defeated him Jesus have rendered him useless the authority of believer is gotten from there and we talk so much but it's in his death not in his resurrection it's in his death that he defeated the powers of Darkness it's in his death that he ended sin ended the separation ended that thing that separates that that divides so he has made peace reconciliation those are Concepts so his de did something paved the way for Redemption defeated Satan revealed God's love created a covenant family and restored our mission on the earth that's what his death did his death paved the way for Redemption his death defeated Satan his death revealed God's love and his death was how he created a covenant family and restored our mission as true Imes of God we take our commissioning as priesthood from them said out of the Tomb came the light of the ages the church was born out of hell I'll build my church and the Gates of Hell shall not Prevail against it the church is brought out that's why we can never to do with death again because of his death we can never be found in death because he has forever canell that and Destroy de so we can now say oh de where is your we can laugh at De now not say what about physical death we do not yet see all things those are another again but there something that he has done to death death is not the last it's not the end that's why we don't mour like unbeliever we don't even in this present state but something has happened and that what has happened is the gospel remember the gospel is news of something has happened of which the word will never be the same again so is it okay that we always talk about of we preach what else do we have that's the event in our own timeline so we must use it but we must not explain it wrongly separating from all the other events which is what we have been doing so his death reconciliation and Redemption his death reveals the love of God God so Lov me Galatians nevertheless I life I live in the flesh I live by the fa of Son of God who led me and gave himself for me Romans 5 while we were here siners he died for us the call of Romans 5 is to expl that he loved us his love God commanded his love towards us that we were Christ died for us he died for us that died died died died for look at verse for if when we were enemies we were reconciled to God enemies separated strangers to each other were reconciled to God by the death of his son so the death is to reconcile to rec is to bring together reconcile a \$100 to naira you will now do the exchange so that it will be equivalent so that it will now be the same so \$100 to na you now say what is the exchange rate so he has exchanged us and call The Exchange life that any language you want to call it is okay I am a new creation Hallelujah and it's a vital in his death that he has made us his own he died for our sins what is that sin that's what we just talked about that separation that's with the consequence because that is now what we are freed from which is what people call going to hell no we are now freed from that separation that the believer can never be separated from God that in our life we can never put God outside in our life we can never be a way we are in an Inseparable Union with God in Christ Jesus I said in the below all of those fact that we love so much but that's where they all shoot out from I can never be

separated from God me and God we are together forever now I'm the child of God forever I'm the child of God and he turned his back against them never he can never turn his back against me that idea where he say God never leave me he will never leave me to my own way because of redemption something he has done that is he can never be away from the creation Hallelujah Romans 8 says the sentence of condemnation was on Jesus that's why we are leing you see what that mean so there can never be a separation anymore I am a new I'm now renewed in the image of God I get to live represent God in How I Live so thee of what Jesus died for if it's just talking about the love what I want us to end with today because this exactly where we pick it up on Wednesday he died for our sin he has revealed his love and there's no separation between us and God heans 5 reconciled us unto himself I am God are now I am God are now to Forever say can something said nothing there's now no divorce nothing can ever separate us what he always intended that he said God hat divorce God ha separation it can never happen and nothing can ever bring us nothing can separate us nothing can pluck us out of his hand that's eternal security that certainty Assurance of Salvation now comes in nothing can nothing can PL say what if I PL myself don't make salvation such a flimsy and explain in a foolish manner like what if nothing can PL you say what if you PL how can you PL yourself out that's why we don't say how do I lose my righteousness it's not a topic nobody say how do I lose my working why do you who are you teaching how do you lose the righteousness for then who are you now if you don't teach that why who are you teaching how do you lose your salvation for do you want to your own so why are you wanting a I teach on how to lose it why don't we do a I on how do you lose your righteousness how do you lose your God loving you is the craftiness of Hypocrites and that's why they killed jesus because the Hat teaching about the love the mercy and the grace of God but he properly understood we will love God serve God Faithfully with all our hearts because he loves us and he di for our S stand on your feet lift your hands up and and emphasis this morning Christ died for my sins he died for my sins that's just a fact we were just starting it we finish it up he died for my sins we are not done we're just scratching the surface of just die for my sins what is that sin what is that die we will repeat it several times till on Sunday by Sunday we now have gotten the Fuller understanding he died for my S we talk about buried why did he have to stay days why did he have to be raised up what does that resur mean we learning then we connect again to all the events but he died for my S I'm in an Inseparable Union with God in Christ Jesus I've been reconciled unto God Jew and Gentile one new man male neither male neither female but a new creation God's plan has come to pass I am now the image of God I God has finally found the man has gotten the man he was always looking for from timey Memorial I am now that man because of the death of Jesus and nothing can put a because he already died there can never be an a there can never be a sep because death have settled the matter
