

and verse 12 God is my king of old walking salvation in the midst of the earth God is my king of old walking salvation in the midst of the earth God is my king of old walking salvation in the midst of the head and we said said so many things so far in this series so we can just jump in First Corinthians 15 again and verse 3 and 4 first Corinthians 15:3 and 4 he says for I delivered unto you first of all that which I also received how that Christ died for our sins according to the scriptures tell your neighbor Christ died for our sins all right according to the scriptures according to the verse four he says and that he was buried and that he rose again the third day according to the scriptures that word according to the scriptures catas graph it means it doesn't mean a verse it doesn't mean there is a verse in Genesis to Mal when he says according to the scripture that's not what he saying he says we can summarize the events we can use the events from Genesis to Malachi to explain Christ dying for our sins so we can see just like people died people suffered the power of God is present different stories of Salvation Redemption Genesis to Mali that is the same way Christ died for our sins according to the scriptures and we have explained that that the gospel fact May differ the gospel fact May differ but the substance the essence is the same the same way when you preach to people today you you start your salvation message differently for different persons but the call is to bring them back to the lordship of Jesus amen amen so the gospel fact May differ but not the substance for some it was the flood for some it was the land there are different narratives different facts used to communicate the gospel from Genesis to Malachi is that so all right even looking at the story of Israel the story of Israel and the land being in the Bible it set in a deliberate it's like a parallel story to Adam and Eve in the garden the way the Bible introduces the story of Abraham and his family makes it clear what they were supposed to be so God wants to we have said this before what went wrong from 1 to 11 of Genesis Abraham is called to correct it that God makes a covenant with Abraham and Abraham story from there we get the nation Israel Hallelujah so the original purpose will get back on track once you read the Bible like that that God was always about getting back on track what went wrong in the the beginning it will not be too far and too hard to understand what you are reading the Bible of saying that it does not follow no it follows they were trying to get back what God is trying to kickart his ging of Eden project so it failed with Adam failed with the N the N the N God God's plan has always being the issue so the promised land was to be for them like a new Eden of A Sort did you get get it now that's something you must See Clearly with the way they teach so the that's when I taught you understand our gathering together yeah where we talked about sacred ground Temple you saw that the same synonyms that are used for sacred grounds Temple Tabernacle was used for the promised land was the promised land itself was also an example of a sacred ground Holy Mountain remember that teaching it's always good to go back and listen to teachings that are very it's not every teaching that must be uh how to deal with anxiety how to those are great messages but you need theological topics messages that deal with help you in how to study your Bible because every time you read your Bible you see words and phrases not just an applicative message but a message that

helps you see and connect the line between the pages in scripture is that okay all right and we have so many of such on our website you can listen to are we good so Jesus died for our sins and we said that that death be and resurrection of Jesus is now how the gospel story is told because the gospel is news not good advice but news something has happened of which the word will never be the same again what is the greatest event that has happened in all the scriptures the death burial and resurrection of Jesus is now the ultimate story so we know before Jesus they could have used different stories to explain the gospel and they did use different stories to explain the gospel as good news as Glad Tidings but now that the greatest event God's kingdom has finally come God has finally been able to Kickstart his guing of Eden Project again that ought to be the gospel of gospel so we are permitted today if all we preach about the gospel always emanate from the dead of Jesus that's okay that's fine is that did you get it it's very very okay however we said now don't understand the death B of Jesus like you are dusting it that's the father I use that example a lot on Sunday like you are shaking it off and it's in isolation to all the events Genesis to Malachi because how did they explain Jesus dying for our sin how did they explain all the terms of Salvation they use the phrases the stories the events the actions the activities you find from Genesis to Mali is that not so all right and that's how we should like we said again it shouldn't affect your evangelism you don't need to understand what I'm teaching right now to be able to preach no you don't need to understand this to be able to preach however understanding this will now help your preaching better you'll be more accurate but don't pause your evangelist don't pause your witnessing you're communicating the gospel to people because you can't preach it very well no I've told you it is the faithfulness of the Savior that saves men however is good we communicate the facts better but I would rather people are saved than people are not saved God will rather people are saved than we have atheist we have unbelievers we have different belief systems no God rather have all men to be saved and that's how God cares important thing at least men are Sav like Paul said whether by cont whether outside cont at least the gospel is preached many times we must realize that God cares about the result but doesn't mean that the end justify the means every time no but in the area of Salvation God really wants us to spread spread the news get the fact out is that okay when the early Christians wrote about Jesus's death they would use models m o d l models or metaphors that can fit the narrative very well because again like we said what is context context is not the before and the verse after that's if you are putting it in verses because the original writers not write in verses did you get it all right so we said context must always be in the mind of the author which will now be the cultural historical grammatical or linguistic context then you now look at the theology what was the author what is the author's theology what was the author explain about God which is all those Theory will help you get there for example the Genesis 11 why do people think he's a skyscraper because they saw Tower t o w r and they type dictionary they skycraper that's not they build it into heaven no the building into heaven was to show you the supernatural world view it was to bring the supernatural

context that because when you just read what that word tower means is not a skyscraper it is a temple complex a sacred place a dwelling place for Gods on the earth a ziggurat that's how it is in near Ancient Near East and Mesopotamian culture the word for it in the Hebrew there's the word *menz* because it's gotten from the Egyptian word how the same pyramidal structure the same way they build pyramids is the same because Moses was landed in the house of Egypt nobody was thinking of skyscraper they were thinking of a temple a sacred place where a temple complex where a temple is built on a mountain where the gods can land on the earth and fellowship with men that's in idolatry and so that was and they were wanted to make a name for themselves build it into heaven that's the but if you didn't see the cultural historical context even the grammatical context you just reading it like they were writing to you you miss the point we said no author of scripture wrote to you they didn't even know you existed and before it get starts you doesn't mean that what is written does not benefit you they didn't write directly to you because you not the direct audience so what they direct audience just like you give this message to a friend of yours I am not preaching to him or her I'm preaching to you so but the message will bless them because it is God's word so there's a direct audience so whenever you are reading the Bible remember there was a direct audience you are not Abraham you are not Isaac so what did Abraham here so always put yourself in their context that's the meaning of context put yourself in their shoe what did the audience hear and what exactly did the writer say then you are finally found out to study your Bible thank you are we good take for example when they said Jesus died for our sins and they use phrase like justification they use phrases like Redemption sacrifice these words are filled there's a lot of examples for it in their timeline and there's a lot of examples they can use to explain it from Genesis to Mal for example every time you see the word Redemption the model they have in mind a slave slave market so imagine you don't even have that model of a slave market you won't appreciate when you're not really redeemed what you have in mind is different from what they have in mind because Redemption for them when they are using Redemption as a as a model to explain Jesus's death what they have in mind is slave market when they use justification the model they have in mind is a law cut when they use the word sacrifice the model they have in mind is Temple or or Tabernacle are you getting it and we have Genesis to give us enough stories so if I want to understand Redemption more I just need to go to those Exodus Leviticus or just read the one that is very direct that King's man Redeemer story of Ruth and Boaz in the Bible it will best explain how Jesus is my King's man Redeemer clear that's how Paul and the rest Tau they Tau from Genesis to Malachi teaching now that greatest event that has happened the death burial and resurrection of Jesus did you get it I'm trying to show how this event further explains and it's good to note that their letters though have a form of interpretation is not outright an interpretation I've told you this in how to study your Bible
