

service again you'll touch us in a mighty way we receive Clarity again on the subject of Salvation we declare that the things that ought to be said in this service will be said the things that ought not to be said will not be said again we declare that the things that ought to be done in this service will be done your power meeting our needs helping Transforming Our Lives as always we declare that this is a house of edification we live here edified in the name of Jesus and you're glorified as always take all the glory amen am God bless you have your seats Psalm 74 working salvation part how many 13 Psalm 74 by now everybody can quote it even my Bible automatically open there are Psalm 74 and verse 2 for God is my king of old walking what in the midst of the earth God is my king of old walking salvation in the midst of the earth now we think in terms of topics uh love Grace kindness favor we think in terms of topic we teach in terms of topics and many times when we teach in terms of topics which we do that Sy which is called Systematic Theology it can affect your understanding of the Bible holistically that you not say oh the whole Bible is about this the whole Bible is about this no the whole Bible is not about that what the whole Bible is about is what the whole Bible is about are you yeah what the whole Bible is about is what the whole Bible is about and the whole Bible is about God's plan what God is doing what God intends to do his glory and his kingdom here a family with his visible and his invisible creation and his kingdom on the earth now when we know the biblical story like we have taught that biblical story uh I put it this way so that it's easy to understand every topic must be taught within the framework of the whole Bible story w h o l e every topic must be taught with within the parameters of what the whole scripture talks about that's why you should not be bothered when a teaching that should just go directly first goes around Genesis to Revelation giving you a general idea because once you think topically you feel like oh the whole Bible now is about this that's where people he he One Way say I thought it was only about this I thought it was only about this and that's where instead of E jesses you not have yeah yeah jesses thank you and that's what produces that error again that what the sound Doctrine lovers are trying to do or correct is what they are now doing bringing in another extreme or SS and don't fall into that ditch and God have helped and saved us if not we would have fall into that ditch now I can't fall into any ditch against Supernatural That's the vital call of my life but I mean there are some slippery slopes and it comes from pushing one one topic one focus and trying to make it the whole focus is the same reason why say everybody have their own message my own is Grace my own is Holiness my own is wisdom my own is no no no no no it's whole Bible we understand that God can give you a mandate but that's not a topic God doesn't give people a topic the whole Bible is our topic the whole Bible is what we pre you can have a specific mandate you are helping achieve on the within the general framework that we also all are his glory cover the Earth so I have a part in that his glory cover the Earth everybody have a part in that his glory cover the Paul calls it a measure of the faith every believer has a part to play in the faith beautiful but that's not singular topics you see I don't like this pastor is correcting people's uh it should mind his own everybody should focus on on their own topic

of course we shouldn't fight fellow Believers we should even fight pastors it's amazing how people still do those things online and everything even on their poopit mentioning names and attacking personalities we can correct doctrines without affecting people's attacking people's personality and that's the truth of course when you learn a truth originally and initially your blood is hot you are fighting everybody because you are angry is the first response because you realize that people thought wrongly have put you in bondage so it's okay to uh Flex those emotions and all of those things because you you shouldn't be happy with the fact that why shouldn't a pastor have studied better and just deceive and destroy our life like this with this error however heal from those wounds and calm down I realize that as we say it in as they say it in all uh seminary in essential unite in nonessential show Liberty that's so true in the essential I've thought that over the years who is my brother who is my sister but he that does the will of so who is my brother who is my sister Believers so the first thing is this person born again does this person believe in the dead of Jesus if the person does and that's my brother and sister without that essential we can unite but that is the greatest call every other thing is important not like it's non essential but the Great the most important thing is the Salvation of a man's Soul if the man is saved if the man is born again if the man believes in the Lord that is the most important thing because if I focus on oh did not understand water baptism and I could not get him saved I've missed the point because and it's good you also know this because we have been in that slippery slope the whole world will not believe one Doctrine don't even bother that's not the unity of the faith it will never happen don't just bother yourself never there will never be a time because one of the core things about humans being humans is that people have different views doesn't make the views right the only place you can find a uniformity of Doctrine is a local church and that's the reason why ecclesiology is the found is the is the offshoot of every other thing the application of every other thing is found within the local church so we say salvation so theology should give bir to ecclesiology big language no ecclesi just means church so because it's within the local church that you see the application of all these systematic theologies within the local church you now see everything comes together because it's within a local church that you see uniformity of Doctrine and if people now follow that same Pastor in different other Ministries there will be a uniformity of Doctrine among them what people call tribe Clan whatever name they are calling it but people because that's where you find but to expect everybody will teach it the way you are teaching it you exaggerate yourself everybody cannot and will not teach it the way you are teaching it is that okay all right so then we talked a lot around salvation First Corinthians 15 has been where we ended on Wednesday again looking at Jesus died for our sins and we stretch the point of what does it mean when people commit sin what does sin mean we said sin hand over to Divine and non Divine forces sin hand uh sin hands us over to sinen and unseen forces that God does not intend to have control or power over us and we give them control and power over us and those things in themselves may be good but they are not supposed to be a God and in turn the bondage and the slavery now becomes people

start worshipping those things people start worshipping those things and they ought not so
amen now the eternal security of God's people does not have anything to do with
disembodied bodies going to OPP poost mot B have corrected that AB be fly away to Zion
no but it has to do with the resurrection from the dead that is the hope now and the plan of
God why we emphasize this the story the Bible tells us is about God creating a world in
which he intends to come and live with his human creatures is that not so God created a
world in which he wants to live with his creation I explained that the creation and the
Creator together AB that's what God why did God create the Earth we have been saying it
from the Manet of our Liv's topic a family seen and unseen creation God living with the
Creator and the creation together and the Bible tells us that story it's not safe Stones going
up to heaven but New Jerusalem coming down to the Earth and we see this phrase the
dwelling of God is with man Revelation 21 you see the dwelling of God not man's dwelling
is with God God's dwelling is with man because God is one that made man and he wants
to dwell and live with man and finally that's how the the Revelation story ends so there are
certain words and phrases that have lost their manyan temps like glorified when people say
we have been glorified say no that means we are going to heaven no glorified does not
mean we are going to heaven glorified means that we are now the man God intended us to
be let things have their proper meaning you say inheritance no that's going to heaven
because like I said if all you have going to heaven which is the call of the Holiness
message that's why even among the Holiness teaching they have more sins than even
other Ministries nobody commit sin more than in Holiness Ministries because they talk
about Sin a lot so you you see it's quite common to have uh members do all kinds of
atrocious and yet it ought not to be I'm not trying to throw shades on anybody or any camp or
any denomination but the point I'm making is it should not happen there because you
preach against all of these things so why is it not happening I thought your message I
thought you said our message is what leading people to S why is your own message not
leading people to S because people sin as a result of their choice is not a Doctrine per
that gives people permission to sin people sin because they are tempted not because they
had a Doctrine however a Doctrine can also affect their minds and how they resist or over
or accept Temptations and I dare say that any teaching outside sound Doctrine which Paul
emphasized is always going to give room to ungodliness the fruit of all wrong Doctrine will
always give birth to ungodliness so when things are thought properly you not realize
because people say if I die now where am I going that's not the reason why you should not
lie the reason why you should not steal it's not because if I die now am I going to go to
heaven you see the focus so when you now learn that you are already in heaven so you
say I can lie I can steal the focus has so because it's about going to heaven so now that
you know that you are already in heaven so I can lie I can steal no the issue about Sin is
that you at that moment you are not God's man when you you teach it like that so I can lie
no you cannot lie because lying makes you live against and away from God's Kingdom at
that moment you're not a man in God's kingdom you are a man who Satan can rign and roll

through you when you start things like that that every time I do something that is wrong I make myself a man that Satan can leave true oh boy so it's not I just fly away it's it deals with you amen then then conduct now becomes a Ministry what am I telling people what am I saying to somebody with my conduct not I get to go to heaven don't because that fly away concept affects how you live because once we now correct it with the grace message you are okay after all I'm eternally secured I'm eternally secured but Moses does not enter promised land and yet God is still Ying with him so you realize that there are bigger issues there are bigger issues David cannot build Temple so there are bigger issues there are bigger issues that we must interact with and when we begin to understand that like we said because it's a new creation Heaven and Earth recreated in Christ Jesus we have a part to play because when we read Paul's letter Romans and all the other books and we see the way he repeats the use of the word heaven or inheritance when especially the word inheritance inheritance in Paul's letter should not be used to mean Heaven inheritance is simply the whole redeemed Creation with forgiving Sinners raised from the dead to share in ruling that new world so when they use the word inheritance it's not is that we are leaving we get to inherit we get to inherit God's word we get to live in God's new word that new heaven new Earth concept is not um a fly away but just like they inherited the land consistent with Bible phrasing they entered into the promised land they have inherited the land it's about the land so when you understand inheritance of Genesis to Malachi was about land why don't you want inheritance to still be about the land you say because Jesus have died our sins are forgiven no it still has to be the same why am I saying all of these things we are inting of our teaching is again to repeat for those who are new when we choose to teach singularly I use that word dust it that you are dusting your teaching and not seeing where it connects from Genesis to Malachi it will always be a issue with the new testament or what you call finished work of Christ message once it separate and remove move Genesis to Mali because how did they explain the death bear and resurrection of Jesus they explained with those events they explain it with the words and phrases from Genesis to Mali so it is always proper that every teaching must have where it brings the general picture though we are learning singularly on this topic but we should not learn singularly on this topic against the general picture did you get that but we should now learn that singular Topic in line with the general topic with the general focus of the scriptures and that thing is work that thing is work that is the work of Bible study and that's why every Christian should be patient reading their Bible listening to messages the way we teach in this ministry and not be feeling bored like oh let's just do the points it makes members D I preach in assemblies like that I don't enjoy it I I I detest assemblies like that because you you can't explain things because they don't have the patience or the the tolerance to listen to explanation all they have a tolerance for is just hitting on the air let us go those people will not grow they will always be one-sided you you always today you have corrected this one-sided part and that day you correct no simply put what I'm saying don't read the Bible in a with a reductionism or oversimplification View and when people read the Bible like that

four things they see number one I am a sinner deserving of God's wrath I'm a sinner deserving of God's wrath number two Jesus died for my sins number three I believe in Jesus number four I go to heaven close I Now understand the Bible's story of salvation no you what you have just heard is not the Bible story of Salvation that oversimplification and reducing it like that has now distorted the message that common understanding that oh everybody is a sinner deserving of God's Wrath Jesus died for our sin I believe in Jesus I will go to heaven we corrected that in many of the parts where we said the gospel message affect your view of Salvation remember we said what salvation is not all right so then we looked at what salvation is and since then we have been going further on what salvation is so don't because it's easy to change the whole scriptural focus and narrative when you read it with the way modern day reformers or revivalists have thought I am a sinner deserving of God's Wrath now I didn't say people are not sin deserving of God's Wrath but reading it like that I didn't say Jesus not die for sins how can I even say that Jesus died for sins I believe in Jesus of course people should believe it but when you read it like step by step like that then I get to go to heaven because the end point is a heaven or hell so the whole idea of being born again is not about I am God's man it's not that I am somebody God can use then you always be divorced from proper Bible interpretation because within the framework of the Bible we get to be the men and the women God has rescued and he's using to renew all the earth once you remove that part you will now have a an end of word message that we are now in that heaven we are now dressed like Chas singing forever and ever and ever which looks stupid which is not in the Bible because we don't want to ever be used so you not have the idea that oh we are going to now share in God's good rule forever and ever that means when all the Earth is renewed we can now officially now there's no sin there's no Satan there's no death there's no hell there's no any of these things again right now there's still Believers and unbelievers those Jesus have done the work but then when all the Earth is reconciled now and there's now no more sin no more Satan no more devil we can start all fresh in God's new Heaven and Earth which we right now have started already spiritually though living in the contradiction living in a world that has Darkness but now all the Earth will now be just like what the church is now in that state you will not realize that oh it's exactly what I'm doing now that I will still be doing only difference that there's no Darkness I'm simply now reflecting the Praises of God in reflecting God into the word and reflecting the Praises of creation back to God that's why they use the word worship and we not turn it to music music we worship God forever and ever that worship God is the Mandate is the reason why God created man man that's the concept of Imaging God worship is twofold I get to represent God into the word for those Genesis 126 just leave Genesis 126 on the screen leave it permanently as I'm saying everything I'm saying because so that you you get it why did God make man image likeness let them have that's what oh that's what we are talking about God made man to represent him so when I get that that oh now that has happened for me I'm born again and this is how I will be forever and ever even when darkness sin Satan Evil Dead hell have been removed I will still be

representing God not wearing choir robe and [Music] singing and going around asking so you Isaiah that wrote book of Isaiah oh you are no no no no no no don't be painting pictures that not in the Bible the Bible is sufficient enough for our Doctrine amen hallelujah now let me be clear I would rather people believe that narrative than people are not born again have said I've had to interject several times in the course of this series saying that I would rather people believe that narrative though it is not properly constructed the going to heaven own I would rather people believe that and God will rather people believe that that's why God is okay but does not mean that that is the go there are many things God is okay that God accommodate does not mean he likes it at at least last last people are saved just that they are Wayward on the earth they are not they are not living well and that living well is not sinful they are not properly representing God but at least the one that believe the one that does not understand the one that understand the one that does understand the message all of them are God's children so as much as that narrative is not good I rather that narrative than we have aths and nonbelievers or Believers in backing states are you getting it so please always interject so you say Pastor told us no I always have interjected with that point so that you realize that is the faithfulness of the Savior that saves people not the quality of our presentation if not you get angry again and say why every person preaching like this God will punish them turn to fire all of them people are lazy people don't want to press you just want to repeat what they heard somebody El say and they can't find Bible verses for it are you with me so they have to do proof texting and proof texting is one of the greatest error in teaching where I have something in my mind and the the message that bet proof texting is application message where you want you love the people so much you want to just apply the message direct into their life but the application is not coming from an interpretation so you just I have something in my head um three ways to do this I think three ways to this number one can be studying God's word how many Bible vers say we should study God's word Joshua 1 ver8 put it there uh Psalm 1 vers1 to3 put it there uh Psalm 119 okay so I have at least I have three reference now for God's word h another point is prayer put there but is not holistic thank you because we cannot now see that from Genesis to Revelation being the way people appropriated it but you are just telling us your theory Point people like those kind of teachings but it's lazy very very lazy it does not allow you to diversify to live as a human being original it does not allow you to be genuine you now beling like you are fake say which point again I forgotten how many Point again there were 44 point oh I can only remember no now if I understand interpretation I can also get all those points because those points are from an interpretation hallelujah amen so I would rather people believe I'm a sinner deserving God's R Jesus died for my sin I believe in Jesus I will go to heaven the the first the are correct I will go to Heaven as a end point our life is over then why don't we die M we get born again so that we will just go instead we live we get born again and we are now to live but we want to die we are living but our whole mind is on I die because that's the go to heaven not me and you here because that's the whole Focus so I'm born again but I I just can't wait to die so I can go death is your savior

not life no so I rather people believe that narrative don't is not exact and correct than because people believing that narrative at least can still get people saved is better than their AES unbelievers or backing in their walk with God instead we can read the Bible like this though this is also still a reduced way but it's better if you read the Bible this way God made the word humans sin God sent Jesus so that a new creation is achieved okay now it's still reduced but at least it's still more in line because once the challenge let me say this for all of you who were around on Wednesday the challenge you were having that I picked by the spirit of goding that now you are waiting what does that sin lead to what does that s Lead to is that heaven IE have not left your brain because you are now how does this now connect to Heaven you you cannot leave Heaven alone because it's a going to when you realize Heaven on Earth how I live that I am now God's man because Adam failed to be God's Man Cain failed to be God's man all the people you can mention is failure to be God's man failure to be a man after the plan and purpose of God you better appreciate salvation so so that when ah I'm living like I'm away from the Lord no never that's those are key things that that will be corrected now why I said that is still reduced is because Genesis to Malachi we have more than just God made the word human sin God sent Jesus because we have from Abraham to John the Baptist what will you not do because that has already been omitted beautiful now don't wake up that's why it's reduced because God made the word human sin God sent Jesus you already omitted Abraham to John the Baptist so how do we explain all of that timeline that is within the Bible which is what we have been doing don't rush so the the last narrative God created the word human God sent Jesus I as good as it is that one will not lead to error the only issue is is simplified oversimplified so instead of doing this like this like this it takes a bit of time that's why we have been taking a lot of time bringing the unity God made the word human sin Abraham is called a nation is born Abraham is called a covenant have started a nation is born that Nation enters lives bondage enter their promised land they Exile they they sin and they are exiled then Jesus come is following because that's how Genesis to Mal then you have Matthew because don't jump all of that if not Paul is not explaining salvation explaining Jesus died for our sin and he's mentioning Jew I'm not a Jew now you see again now the pictures will be I will not be able to understand what why is he mentioning Jew why is he always mentioning Jew why is he always mentioning things why is he mention common wealth of Israel inside Jesus died for our sin it won't make sense because we are wondering why is he just mentioning this isra Israel inside the story but you see that isra is inside the story from after Genesis CH 12 God call Abraham to make right what went wrong in 1 to 11 now you are reading the Bible what is the essence of the law all then you not see Paul explaining Redemption salvation and talking about law of Moses is you say what is that one God says no where did that come in why is he using law it will make no sense so if sin is hamat the Greek word for sin missing the mark what was the mark genuine Imaging genuine human being God made man to image him so it will be twofold it will be twofold being identity and vocation AB the being what kind of man did he make us to be image and

likeness and the way to be image and likeness of God to live as image and likeness of God is to have his life so the being and vocation another thing that hinders the idea of Jesus died for our sin is we are too personal we personalize it because say it's for me of course it's for you but he also died for the sins of the whole world is in dying for the sins of the whole world that he died for you it's not only you is the whole word when you see the whole word then you understand oh how did everything go wrong from the beginning was not just about Adam personalizing these things affect understanding now I'm teaching like you around on Wednesday which is proper because you ought to not any service and if you do miss any service you ought to listen to the message AB that's proper it's understandable you were busy and all of the many things you were doing but it's not understandable that you don't listen to the message afterward is that clear so and that's how we should understand it because the gospel is that there is only one God and him alone should be worshiped and served nothing should be worshiped in his place but instead Adam worshiped his will and worshiped Satan in return by taking serving Satan's desire because Satan what Satan told him to do is what he did what got him to do he did not do and location priority who is this Adam and this is why people cannot leave Adam alone in their mind because Adam is the first man so St Augustine and all of the proponent of original sin by Adam made us inherit sin which I believed for a greater part of my life just that you won't find Bible verse for it you will be forcing text you will force David said in my mother conceive me you turn it to be all mothers in the world is it not is it not Wicked that Adam made every no listen see the implication because this was what the grace Movement by JP in Singapore was going to lead to and it bettered many universalism people because when we have overemphasized and well-meaning honest good man but the people who were pushing it and I know many of them for I mean white people then that those days on Facebook I mean everybody was looking for anybody who can explain the grace of God so a lot of white persons became our friends all of us who were emphasizing the same thing and I saw all of them tilting to errors of univers many of them tilt into error of universalism some tilt into another error because it can lead the ad middle of us a sinner how come Jesus automatically does not make all of us righteous one punch line the theology does scatter and because you not say no no no no no it's for those that accept but we didn't accept Adam own you said that in the womb I'm already a sinner is so popular that most people think it's the Bible they don't even know that's why it's good to read a bit of History nobody was teaching all of those things until St Augustine and all the people around him began to push and propagate that Theology and he became became very common and today now is one of the most popular of course it has died a lot in the last seven years it has died a lot in the body of Christ it's not so popular again as it used to be and we are thanking God let it die away forever because it it affects a lot of understanding there people say but Romans 5:2 say for by one man so let's put Romans 5 turn your Bibles now let's do some study Romans chapter 5 remember Bible teaching is from Bible explanation Romans 5:12 turn your Bibles let me walk around so that you are sure that is Bible me I'm reading because

sometimes some people will not read their own so Romans 5 so you we are sure it's the same Bible we have wherefore as by one man now he have said a lot of things we will read this Romans chapter 5 when I bring where Romans is important to the concept of salvation so I will give you a a total breakdown of the whole Book of Romans but before then let's just start from verse 12 is that okay you know why I'm saying this because you're not supposed to start from vers which is where for what were you saying before all right so Romans 1:4 should be read together Romans 5 to 8 should be read together read it together you will understand it's one paragraph if you read chapter three you won't understand read one 2 three and four together it will all make sense as one paragraph all right so chapter five notice chapter five started with de4 so if you didn't get one to four what is not the de4 so this D4 is not based on what is said in chapter 4 this de4 is based on what it said from 1 to 4 chapter 1 to 4 therefore being justified by faith we have peace with God so verse 12 wherefore as by one man sin entered into the world and death by sin no notice what it did not say it didn't say where as by one maner into the world and guilt by sin because when we say all of us are sinners because of Adam he say death we say guilt that's why all of us so it's now in the bloodline we inheriting go on you will see it and so death passed upon what pass upon all men he didn't say guilt he said death okay notice what he's saying because Paul has been lied upon a lot for that all have sinned it didn't say Adam made them sin for all have sin all have choice and they then he will explain why all can sin For unto the Lord now that bracket he opens in verse 13 ends in verse 17 that is intelligent teaching so you can remove verse 13 to verse 17 you can remove it but don't remove it but you see that he put it in a bracket so we can actually read 12 into 17 because he not by one man so he continue with the one man but let's read everything for until the law sin was in the world but sin is not imputed when there is no law nevertheless death reigned nevertheless death reigned from who death passed upon all men Adam to Moses are not me so death should r with okay so it says nevertheless death rain from Adam to Moses is that consistent with verse 12 when we study you must be observing observation interpretation application you notice cuz you are not giving the text your own meaning he had said before death passed death passed upon all men death passed upon all men so now in verse 14 death rign from Adam to Moses is that consistent thank you even over them that had not ah thank you so now he's teaching you that have not seen after the so Adam's transgression is a simil is a pattern people can s like Adam simil so Adam sin has become a pattern Papa poor children don't go they Lear to they follow Papa step they P to because if it has not if this Choice was not taken we will not know that we can take this Choice that's the reason why children that are raised in abundance when you give them an example paint a picture of a poor person say somebody that only have two cars say he only have two cars he only has four servants lives in only one house are you okay sir we said poor person but he can't paint those pictures because the choices are not available where do they buy things shopping mall there now shopping mall they buy things do you know that there's Market there in there's AA there's market for big men there's ring

Market there are markets like seven that most people then look how you see the challenge so you just drive in drive where you are getting it now it can't p those pictures not because the pictures don't exist because the choices that were made before he was born has guided him now all he can think about is this same road so if Adam did not give us this road we would not have known we can take it because what we have with Adam is he is the first man the road he carved is now an option so now we have two roads is now for us which road are we going to take but is not just in singing is now the road that he car now has a similitude now says it's not a pattern others can copy after it others can copy so if others are copying after it who is their Mentor Adam so people are sing the way Adam there's a way Adam s Adam s remember by that context is not dealing with individual actions but against the sin that brings death the sin that brings damnation the sin that brings separation death that's what he's focusing on so not individual choices sometimes the choice does not look so right will get there because you as a mother you okay let me use that picture you as a mother there are certain things you tolerate with your baby not doesn't make what your baby doing correct but you tolerate it why are you tolerating it the baby poo PO on your body we on your body you say small piing not when the baby is 2 years not when the baby is one year 6 months don't tolerate it anymore the baby should know better but you were tolerating it before does that mean that it was okay so there are many things a baby does that is not okay but you tolerate said it because you know he's a baby it's a simple example doesn't make it right so you see that context when David said God knows our frame so he pities us is giving you those M tenderly care so that you realize that don't be having this picture of God that is not God pick not good P not good propy follow and go police station go bail them out we with all our imperfections so then you not imagine the Creator go sometime we don't we don't pent God too well we'll get there so I just said all of that aside go on notice what he says even over them that had not sinned after the similitude verse 14 similitude similitude is the likeness of Adam's transgression who is the figure now this is a challenge because the translators should not do interpretation I can say this safely because this is I 10 you see that who when you now check the Greek word for who has which what that why did they choose who the translator is giving you his own idea because he thinks he's saying Adam is a type of Christ so he uses who but we are not talking about person see how it does not make sense the Sim of Adam's transgression who Adam's transgression is not a who now Adam's is a what except you don't know English so when you now see how history culture and grammar is the real context of every Bible verse you see that they always agree so we now go and check what does this Greek word even mean there say I don't so it's KJV that made mistake not the original because KJV put who so we say which the same way the Galatians 5 The Works of the flesh they which that which but it makes it puts everything personal Adam's transgression is not a person Adam's transgression is an action thank you so when you read it the way it should be read remove that who and put which had not seen after the of Adam's transgression which is the figure no Greek word for him transposed because they

trying to force Adam because later on Adam is Christ is mentioned So Adam must be a type of Christ no no that's Adam is a type of Christ in the sense of his action get that transition of one human to another human because every other human being will come from Adam so is in that sense is a type because many other human beings will come from Jesus but not in the actions that they are doing which is a again verse 14 nevertheless death rign from Adam death is separation death re from Adam to Moses even over them that had not sinned after the simil not that they did not sin not the English he didn't say they did not sin he say they not s the way Adam sin did Abraham commit sir did Abraham s like Adam did God use Abraham sir did Jacob sing yes sir was Jacob God's man on the earth yes sir thank no Bible that's what you know sometimes he he's specific did not sin after the he didn't say they did not sin he said they did not sin after the similitude now if you are not patient following this and you are more you are you you know you you are more holy than and God you will read Because when we say a Christian can see Comm never how can a chrans Comm no Christian this can ever commit sin Jesus have died so that will never commit sin but you know you are a liar and the truth is not in you because since you got born you have still sined so the question is Jesus die so that we will never be able to S does not mean we are when we sound like this does mean we are say Jesus di so you can go and see except some people I think they have hearing problem come now let he you you will not come because look at John one of the 12 he said if you sin you have an it didn't say it didn't say when you sin like his compulsory if he you have why did he say if he sin because it's possible it's possible for the believer to sin no Apostle nowh in the Bible did they make it impossible for a Christian to sin does not mean they were saying Christians should go and sin notice the difference because they have to be realistic people have choices every day the same way we don't even make the same choices there are some sins you have committed that this brother can never ever yes now funny enough does not mean we are licensing it should the pastor have that kind of to license people no does not have a that kind of power Antichrist Pastor shouldn't teach you how to commit you get those those are basic points amen so back to what we're saying nevertheless dead Reign from Adam to Moses even over them that had not after the similitude so they did not sin like Adam they didn't see the Adam sin they didn't sin against the promise of Life they didn't sin against worshipping God they didn't sin against the promise of Life they didn't reject life they didn't reject to be God's man they didn't reject to stand in the plans and purpose of God they didn't reject to be God's man they didn't reject the promise of Life they didn't reject the worship of God being the C uh being the centrality of their life they didn't Adam is the one that have that kind of sin that I can sin and God is no longer my God I can sin I can sin against the promise of life this life I not one time that's what he said because God offered him life he chose death remember choose life said before you life and death calm down you get it I start this on Wednesday so I said anything you are choosing you are choosing another thing even if you think you did not choose another thing somebody chose poison even if we don't want to be SM if somebody chose poison have they chosen death

yes sir but did they have to say I choose that by choosing something they have chosen another it's the same pattern so I explained that a lot on Wednesday what you choose means you have chosen another thing directly or indirectly now God did not say in the day you eat of it I will surely kill you that will mean God is the one that kills man then Redemption is a lie because why is he not redeeming man from when he killed man when the one that no the day of you shall surely die your action will bring upon you a consequence and what Adam refused what did God said to him promise of e life so that you will be the man I live in and through to serve my purposes on the earth you are created thing I'm the Creator let me be your God and your father by choice not just as I'm the Creator you can say oh we know the owner we know who made us is God not that one a personal acknowledgement that I am your God invite me in to help you live life and say no no no I can do it my way now not everybody who SE from Adam to Moses why does he mention Adam to because Moses is where you now mention the law that law he mentioned in verse for the law he's been intelligent in writing so he could have said from Adam to everybody which is still going to say but he told you that from Adam to Moses it's still the same issue from when the law came in it was still the same thing nevertheless de from Adam to Moses even over them that had not sinned after not that they did not sin not seen just look at Noah now let's no go too far sometimes we are too holy than the Bible look at Noah now great man Sodom and the wickedness 6 wickedness has filled the whole earth walk with me sir after Baba finish he drink is that is that is that a Christian Behavior you you already know you can explain better that means again you can see Noah did not SE that kind of sin but you see that sin Messy B that his action he now came against what God was doing God have started something fresh but he has brought in C again this is just one family you have not brought H blessing and CA again there's always contradiction that's the issue Hallelujah go back to our Romans 5 making sense letting something yes I want to stay down here I will stay so that you are know sometime when we up there feel like maybe there is far away all right nevertheless de Reign from Adam to Moses even over them that had not seen the simul of Adam's transgression which is the figure which is now an example for others that are to come after them for example King copied exactly what his father did and went against God all right but not as the offense so is the free gift for if through the offense of one many be dead much more the grace of one and the gift of Grace which is by one man Jesus Christ has abounded unto many and not as it was by one that sin so is the gift for the Judgment was by one to condemnation but the free gift is of many offenses justification now I will explain Romans chapter 5 every verse but not now I'm rushing somewhere I want to show you where it mentions Adam again verse 19 okay let's read remove the 13 to 17 now let's do 12 to 18 watch it wherefore as by one man sin enter into the world and death by sin and so death passed upon for all have therefore as by the offense of one judgment Came Upon to condemnation even so by the right of one the free gift came upon all men unto look at verse 19 for as by one man's many why didn't say all because it's not universalism many were made now the word made there the same word

forcing me people into Ministry for many were made sinners so Adam was ordaining people say I bless you you are now like me We s together so what of course that's not true you know Adam was not anybody why does he use the same word made app point because he has cared the road just like and they sinned and walked in the way of R obam and they walk in the way of RAM and they walk in the way of David David is long dead David is long dead how can they be walking in the way of David when they did not even see David because it's a path David have carved people can follow David path people can follow rean path as Kings why not Solomon the writers are just being merciful because Solomon recovered himself because the preacher was still wise you other words because his foundation was solid he recovered from his backing State and that's when he wrote books so say all right so the call is how you live as God's man not a follow not a i over said that so I will leave it we'll be taking it small until before this teaching ends before this series end everybody so clear for as by one man's Disobedience many were made Sinners so by one man's Disobedience who is that one man Disobedience the word disobedience is the word refuser to he what was told him what did God tell him eat life so refuser to eat life many were made s sinners that means in their activity what they do so by The Obedience of one many shall be made right not all so again he showing you a road if we follow the road we be made righteous if we follow everybody sings in the world but everybody is not a child of Satan okay let's remove everybody many persons let be sounding like PA n that many you that many many persons do what is is wrong but they don't go the way of okay it's too hard bring it down more no I'm not I will not fall into the oversimplification but I will simplify it many persons do what is wrong but every out of the many persons is everybody an unbeliever thank you at least I looked at your face to say it you are sure many person do what is wrong but it's everybody unbeliever say that is born again why are you separating people is it is it not amazing that what separate a Believer from an unbeliever is belief did you notice that he didn't say Behavior sorry un Behavior sorry you will get it don't you didn't you will get it I was too fast no that thing that you are afraid to think is that that makes you more holy than God what separat Believer from unbeliever you're afraid say what separates a Believer from an nonbeliever say no is their conduct no conduct comes in after believing because believing affects our conduct but since I believe my believing has not affected my because you are mad now because you were taught wrongly that's simply what we are saying because the way you were taught it's about going to heaven I can believe in because if you care about how you live before people am I sh love to this person do I care that's why you can't even give your neighbor food that hungry say my food you look for your I my food but I just love my Jesus where did you see me hungry no are because the the the point everybody's a suspect you don't care about living with people you just care about fly away without Holiness no man shall see God in your conduct so the essence of Holiness is for people to see not so that God I can BBE but God has se my heart that I know that I did that thing in my heart I do it with my mind I not do it with my with my hand with my body with my mouth but I did it in my heart so there are many things you

have overcome that you did you did it oh that you not do it with your body with your mouth with your in case you don't know what body means I'm helping you with the body part you not do it with your mouth you not do it with your phone you not do it with not F they used to do W fraud sorry okay okay pH okay the the one car bedroom too okay yes that one plus that one whatever they use that one to do the point I'm making is and I like to be very simple as much as I can we don't have a problem of interpretation as much as we have a problem of honesty most person the reason why they can't interpret and which is why proper Bible interpretation upholds honesty because you have to be honest where did you see that that you are not trying to say it's not there it's not there for as by one man's Disobedience many were made sinner so by The Obedience of one many be made righteous wherefore the Lord enter that the offense May abound and W in abounded gra is much more abound that has as Sin has ra unto death even so my grace Reign through righteousness unto eternal life by Jesus Christ what shall we say then shall we continue seeing that gra May abound God forbid how shall we not say how can we ever sin Paul will be an idiot if he said that because Paul obviously sinned after I got born again if you don't know it's in the book of Acts that somebody even run and give Paul slap and say sorry I don't know it was the high priest because he was a human being he his emotions got the better of him so he spoke rashly to the high priest now somebody gave him said I didn't know he was the high priest know look at the how do you explain his dissension with Babas is a human being don't turn the apostles and the prophets to be what they are not just like genesis to Malachi give you honest report of the Prophet that wrote in the scriptures why do you think the apostles that wrote in the scriptures were not like the prophets who wrote in the scriptures James says elas was a man like us subject to like that not enough generalization subject to lack passions James chapter 5 subject to lack passions clear clear clear so what shall we say then shall we continue in s that Grace May say go God forb is Not TOA God forbid means it is impossible so what is impossible sir how shall we so it's not asking you how tell me how it's going to happen how shall we that are dead to sin live any longer in daring so there is a sin that the believer is dead to that is the context of what he's saying there that lazy reading they always used to antagonize a message that later they will go back there's a pastor like that who he son messed up greatly and he reached out to me and I said but you always say shall we continue to sing for Grace to abound it's Grace you are looking for now now you want us so how we going to go about is he not it's not we sir it's only you and your son I first brought him to the point to realize it's you and your son not we what are we going to do it's not we that did this it's your son what are we going to do no I say sir you want Grace to abound you cannot continue to sing for Grace to [Music] abound so who did you preach the message for other innocent people's children that's the hypocrisy of of of where it favors you you twist it that's not handling the that the Bible say don't handle the word of God deceitfully dishonestly if you are wrong you are wrong be bold to correct yourself even in your message if you are wrong you are wrong don't twist the message of because you want to favor yourself and

make it look handle the word of God honestly don't handle the word of God deceitfully it's not fair a pastor should know better because you are dealing with human lives people's lives and you are twisting the word of God because you are trying to dodge one area of your life Dodge no just communicate if the arrow meet you you also change amen clear clear all right so he said know ye not so it gives the reason why we cannot continue how shall we that are dead to it live any longer in it know ye not that so many of us as were baptized into Jesus Christ baptized into his death so there's an emphasis when he say shall we continue in sin that Grace May abound it gives you the answer God forbid how shall we it is impossible now this is what has been Twisted to the people now say uh sin is dead no he say you are dead to sin dummy didn't say sin is dead sin is not dead that's going too far those are again extremes say you cannot commiss as a Christian even this you said is no a sin it's like no sin is dead no Christian can uh there's no sin so anything I do is that is wrong is not wrong those are Lous gospel are you getting it yes so some major people teach it oh sin is dead though they may not publicly use the phrasing sin is dead but that's what it represent that there's no sin it's not that God will forgive me after word no no that is that one means he get heart now mean say God is in his conscience sin is there means there's nothing that is the same spirit that bettered that titles the grace of God teaches us to deny on God when you do something that wrong say I deny it it is not me it is I grace of God me to deny ungodliness no be responsible for your actions that's not the same Spirit the same error the same Antichrist spirit that brought sin is there that brought that when you s deny it then Same Spirit that brought a third Bible verse misinterpreted as don't condemn yourself anything that you allow if you do something that is wrong don't condemn yourself because you allowed yourself H what exactly is all of those teaching is what people now try to say that's what Grace preachers are preaching which one they will now have shown you a false preacher or one that may not even be born again amen am thank you many of those people are not saved sooner you realize and D say but they have a church man at the entrance of different cities don't have Church living like that two daughters are on suit today you know all right shall we continue in sin because he's consistent with the language of what he's calling sin here The Believer cannot be found in the Sin of rejecting the promise of life because the believer already haveed the promise of life that's what he simply saying God forbid how shall we that are dead to sin live in it we are already free from that we are already far from that that is the context of his discourse Hallelujah but we will explain every verse from Romans 5 to chapter 6 before this series is over so be patient so you'll see how it all comes together Hallelujah so the gospel is that there is only one God and him alone should be worshiped and sered nothing should be worship Worship in his place now don't worship sex don't worship desire don't worship money don't worship power don't worship Spirits are you seeing it that's why idolatry is also used to explain sin so that's why when people get born again what happens you are getting them to worship God thank you so realize the C thing so sin brought another kingdom instead of God's Kingdom on the Earth because it was only God's Reign and rule that God

told Adam to bring so that means god did not force it on the earth he made man but he said Adam you bring my kingdom bring Heaven down and it will start with your action and that's what Adam went against so brought another kingdom instead of God's Kingdom on the earth brought death turned the world to host forces Devils produce another creation that is the call so you must understand consequence that is what sin did to the world in the very beginning are you with me yes sir all right see let me quickly said Paul focus on Adam in Genesis when Paul teaches about Adam he teaches about Adam more from more it teaches about Adam more about Adam's vocation than about Adam's position now even when you see Paul talks about Adam position as first man is he talking about Adam's vocation his failure to be responsible his failure to represent if you miss that point you'll be reading into Paul's letter about Adam what he did not say because is Paul focus on Adam is about Adam's vocation Adam failed in his work or office failed in his work or office is that okay okay now for the different thoughts that are popping up in your head we answer that on Wednesday but I will say it quickly because I've seen the thoughts started popping up again I've said this before Adam is not lie that brought death into the world as bad as it is ABI is not there's an example I used to use but I realiz that this gen Z generation though I don't like the the the characterization but I mean a much this much younger generation have that more of a drug problem so I will not use that example so somebody don't go and take it literarily and say no normally I would say Adam did not fold some things I cannot be using it now for somebody say if see the note the examples Pastor chose to use that means he's saying that is they are okay help me you don't need a pastor to tell you s is okay you are you are you are you are possessed how can you need a pastor to tell you that is sin is not okay sir why do you want to ever hear it from a pastor that sin is okay no because of what sin does but does not mean that we should have a brain of today I wake up in the morning I'm not going to do anything that is bad I'm going to do something that is right I'm man was not made to live with knowledge of Good and Evil sin I see I don't see I see I don't see don't live with a consciousness of sin just go about your everyday life what are you not trying to say focus on pleasing God and living for God if it's in that action if it's in going that route oh something happened you yielded to Temptation because you live in a a word of contradiction maybe little by little desires thoughts every man is when he's Run Away by his own loss your desires in different things have been awoken small step by steps little years a little there a little there and in that moment of weakness in that moment where you were not on guard you were not on you were not careful you you slided you fell you made mistake you sinned you did all the things that were wrong as bad as it is it's still better than having the every day you wake up today I will not do what is bad today I do what is good today don't leave man God did not design us to live like that amen that that is not how the Christian Lives who get there cuz this year I'm going to teach you on righteousness Consciousness there's a way to think daily so when you now notice in that righteousness going how you live oh you stumbled pick yourself up and continue because you couldn't have brought death into the world because you can't your actions cannot

anymore because the action that brought which is a bit dicey I tried to not say with one sentence because we have typed it the one sentence answer because it's very ly see how we have been trying to say something that we can put in one sentence with many words talking about just died for sin we have gone here gone here gone here because when you simplify to just one sentence you will end up giving people a license or you will end up saying misrepresenting a point Hallelujah come on clear clear clear so Jesus died for our sins that's still where we are First Corinthians 15 and verse three Jesus died for our sins we haven't gotten to buried and resurrected and we said that is the cor of the gospel because now the greatest event of all time have happened the dead by son of Jesus so he says Jesus died for our sins so we are looking at how does he die for our sins what does that free us from we read a lot of text on Wednesday about he save us from sin forgiveness of sin we saw those and I told you the word forgiveness is aesis because forgiveness days that we are released from the bondage from the prison that mean sin kept us in prison so what people want to know is it every sin that and when people think of this is everything that put us in prison because they are looking for an excuse to like sin don't like sin that you do what is wrong does not give you any right to like once you love sin something is wrong with you because you love not pleasing God so that means we need to give you more Bible verses you need to read more you need to be more baptized into the things of God it can happen because you just got born again you are and you or you have been born for years but you have never baptized your mind with the written word it can happen but that's you malfunctioning because you got saved you need to know more about what you have come into so Jesus died for our sins Jesus died for our sins that means a lot and he says according to the scriptures it's according to the scriptures behold the lamp of God that take away the SS of the whole world we read all these references uh on Wednesday I think so Matthew 1:21 I'll be fast I'll just read like five today and we'll go back to what I was saying Matthew 1:21 and she shall bring forth a son and thou shall call his name Jesus for he shall save his people from their sins is he saving the people from the act of sinning if that is it then he failed because many Believers are still sinning so he say shall save his people from their that's why we say what is salvation what exactly are we been saved from how exactly are we been saved from it that's the reason for explanation again you can't pick me on a phrase because I'm not allowing you say okay this is it so I am free from this because I'm not free like will not work Hallelujah I said this on Wednesday for those of you who were not around and chose not to listen to the message before and you are hindering us right now from going further because you are thinking many thoughts that have already been answered when humans sin the hand to sinen and unseen forces a power and authority that those forces were never supposed to have sir is that before Jesus died or is forever and ever stop looking for an excuse is not so Jesus have not died so that has stopped that is not what whenever we sin we hand over we hand to sinen and unseen forces a power and authority that those forces were never supposed to have and I explained it that's why if God's plan was to rescue and restore the whole creation he would

not have to just say Lord I'm soring on behalf of humanity he had to do something death was needed so he had to deal with what sin has now done I said that because that's the only way that those uh that's the only way those seen and unseen forces that man hand over Authority when he sings can be dealt with because man only knows what he does I just I just satisfied my desire I just did what was wrong I just satisfied my flesh the way I wanted to satisfy my flesh but those unseen forces sinen or unseen and I will explain why we use the word SE and unseen for you around on Wednesday you know what I'm saying those seen and unseen forces now went over and Beyond and began to usur the human role in the world so they had to lose their power because man's sin had given them power so God had to starve them of the oxygen that keep them alive that have turned them from the ordinary part of God's creation to become distorted and dangerous mustards simply put sex is a good thing it is such a good thing that's why you are here right now ah sorry I was too fast is such a good thing it produced a human being but it should not be woried you know you say um people have this idea that prostitutes are the most loved people I think sex is how you show love I mean prostitut should be the most loved people then why is the suicide rate among prostitutes more shouldn't they feel so loved now that they are giving themselves to a,1 men in a week how to show love sorry oh you are quiet okay there no longer sex is no longer a way to show love don't cancel it it's a way to show love but how come it's not working for prostitute how come it's not working for okay it's not PR call them anymore is small G big God how come is not working for hook up business AC is not working for call boy business and call girl business Acom is not working how come they are not feeling the most loved money is a good thing but now money is your god you have cut your mother's head inside Ghana must go aha you see now that I'm saying like this the same preacher they said is want to give people license now I've turned to a real Holiness preacher in a moment a twink of and I know because you that the problem of selective hearing now the same thing I they preach think I talk before before when I move around now they talk so what did Jesus deal deal with we have said it oh but because of sleepy we'll repeat it again that's why I'm coming again from this route because once you have and I explain look at that guilt now now you have hang rope on your neck what is life worth living anymore I don't think God can ever forgive me have you handed over to something a power is not supposed to have every time we s we hand over to sin and those sin forces are like I mentioned the good the sin forces now money sex power Fame the the desire desires let's just to feel honored valued you cannot treat me anyhow I know my words I I know who I am I'm I'm I'm I'm don't turn to Pride a genuine thing to not be discarded I've turned to Pride that have not destroyed the person that's why there's now consequences that those things if we continue handing over to those things power it will in turn destroy our lives and yet God loves you and yet God has forgiven you but you will see and still suffer all of those con consequences yet Jesus died sorry oh go rob now see if you not say in jail now even the jail they will still come and tell his brother Jesus love you but you are in jail doesn't stop you from being in jail thank you don't hear what I'm not saying so why are you

in jail because that's where you should that's where you belong in the society doesn't mean God is saying it's not my son it's my son but it's in jail is like the father is not going to say it's not his his father no so when we want to make it about God dising us and accepting us which is what the rubbish Holiness wrong explanation of Holiness does because it's always goding you or accepting you going to heaven not going to heaven God say oh remove his name from heaven now put his name back I disown him I accept him all of those things come from a failed parental system is what bettered those kind of doctrines because if those people had good Fathers let preach them even if he don't know not Bible it should stop I realiz that even my father should have raised me better this God is looking like God is my father is better than him just again good parents have already corrected that to realize that maybe I'm not studying this Bible where let me check the verses before and after because it seemed like it's my failed parental system that's already affecting my interpretation so Hallelujah and shouldn't get you scared he should simply show show you why we mustn't sin and before we make it look so drastic because not all Road leads to those drastic conclusions and drastic end what is the core thing about Sin in case that thing I just said now hand over to sin and unseen for is a power that not supposed to have let me put it in another sentence when you sin you don't want to do with God for that moment down this one is easy to graas that is the power that is because nothing supposed to separate you from God but at that moment you don't just want to talk to God because you are not feeling like whether you know Grace or you don't know Grace you will know you you will feel like let me not because sin that is the that is what Satan is really after that idea where you now say I am not serving God again because what is really after is that end that you will not live as God's man so okay now that at least death has been taken away God's kingdom has come but I can still deal with the new creation man I can still deal with the people that God created in such a way that they will not live on the earth as God's man and that's what he has been successfully doing to many Christians why helping them with after all last last you still make it so I will make it but why I because the making it they are making Heaven I will still make it but on the earth I was not a man that God used God never lived through me then what are you what are you now bragging with the going to what of what use are you now in the so supposed going to which is not a going to of course it's a coming down when all the Earth is now the same way of what use now we are giving rewards for our actions we are push you one side this one I don't know him in in is living because how we live matter does that make all of us automatically perfect no it makes us redeemed makes us Sanctified and the perfector that we are is that he has made us perfect in God's sight and he has made us stand without any condemnation guilt and all of those things which we are going to explore in more dets but we still have not totally wrapped up that idea of sin because every time and I'm going to wrap it up of course this morning the reason why it's hard to wrap it up is that once a preacher start talking about Sin you always want to know okay since you now know that Christian commiss after Jesus have died so which one let's don't be S stop separating sin because where it all comes

together is where you see the whole world what is sin do to the world because that's what God has undone it's not that let me die for him singularly I die for uh Kingsley I die for Damian I die for so let me for one by one no he died for the old world because he was doing something for the world once you want to remove the world you won't be able to explain Jesus dying because he died for me is he died for the world I am because he died for the world that's how in turn he died for me that's why we can now go and tell the whole world what Jesus have done for them it's not only you he did it for so when you bring that holistic picture God so loved the world that he gave so what happened to the world will be the first thing you would think not what happens to me so what happens to for me is what I'm telling you so when you s you hand over what happened to the world we have talked about that death God is separated from me I've said that I said that last week not this Wednesday previous week I haven't said it again and I've been saying it in every of our last teachings from part 10 I am conscious I listen to my message so I know what I said and what I did not say before it begins to look too hard are these not representation of gods today on the earth in the different nations of the earth that's a god of a goddess of love a goddess of power a God of Sex a god of oh so it has turned into now unseen because the Unseen has lashed onto the sinen it was Adam's sin that brought there but Satan now had the power of dead held on to it because he saw what that sin could do saw the potential of it and crack because sin brings a separation now say oh is it separating me for God or God from me everything is always me me I I I me for every of the poine episode that you see a me or an i the next verse have an us or a them because he's not talking to only you once you individualize the whole work of Jesus you will not know the gospel properly once you make it just because you everything is just about me selfishness I I I but when you bring it generally you not say oh this word Fs in because what happened to the world sin separated God from his creation Mak him of a s an outsid in his word we said that AB sin as a failure to be a genuine imager sin as making the devil or powers of Darkness princes and rulers of this world so these powers that when we sin we hand over power to is what Jesus overcame not so that we can fly away but so that we can properly live as genuine human beings that's one way you must start seeing the gospel that will first open your I mean with this proper interpretation of scripture that we are given of course that is so that not so that I can fly away so that I can now live that means every time let's say I sin in the area of which is not okay but let's use the bad example because people we are too many here for people not to do everything I'm saying so teach realistically so money and you are uh let's say you have even started down the road one or two three times you have done things that are wrong in the area of money then you realize all of a sudden see where they carry you they go now now you are looking for women pant Association you the association you are moving with is telling you if you get women pound some are telling if your that your sister is very fine it all started as over time look at where it has reached follow me I'm trying to don't over think think on what I am saying not want your Village People set yourself free T you you are not a that also means you are a slave to the Satan so control your anything

that me not to be in control you are yielding power don't be making look like you are a Mindless robot so I can't just help my mind just be wondering are you are you are you saved control what you think think on what I'm saying not what this one Pastor is talking you are important but not that important it's not you I'm talking don't make the whole message about you because of that Satan Mak not hear what I'm saying because he's talking about me who told Pastor what I'm doing calm down and why should you be looking for p by the way are you saved that is obvious because I'm this example I'm giving is found among unbeliever that thing that make a Believer to not be looking for mother to use ah ah have you met Jesus hey all right cuz that's even where I'm going so notice that those it's a legitimate desire it's a legitimate desire to make money but it's not a legitimate desire to kill people no because you your legitimate desire any other person's life you so love sex it's no longer it should be consensual even if it's right or wrong it should be consensual but now it's not consensual you now rape it has gone further you didn't plan it oh by saying you please must not be you yeah talking generally get my flow did individual plan to be a mad man but has turned into something else it now goes around raping people shame on him by the way that's why they are locked up because why should you not lock them up now you are violating people's will but it started off I just wanted to express myself now you have turn to a rapist so I can determine how I started but I can't determine how it will what it will lead to if I don't put a stop to it okay so these are General things we ought to know and think about Sin now the other part we mention which all of this must come together as different points is that sin now becomes the refuser of humans to play their part in God's purpose for creation as a whole so because of that action I now say I can't play any part in God's kingdom I don't want to be the man God uses God just leave me alone that's the where we not get the con of backsliding just leave me alone I don't want to go to church I don't want to pray I don't I just I need to be left alone I feel like I'm wasting my time doing all these things you guys are having got too much on your head I just feel like I should be left that is where he seeks to get to and that's why no Pastor no Christian should speak lightly and for sin is that okay so the P need to be overcome and that's why what how does those Powers now turn into something sin produced death made we said those separated God from the word make God of his Outsider turned angels to become princes of this world remember all of those again bringing it back and forth as we tie together so that we can round off trust you are learning something try to be as simple as I can be uh so it's working it's working it's working so using that same example of sinen and unseen forces Romans chapter 1 we read this on Wednesday too it said they worship the creation instead of the Creator AB so we said Romans chapter 1 develop this idea that I'm I'm teaching you about Sin as missing falling short of the glory of God he will say it in fact he will use the exact phrase in Romans 3:23 because Paul's way of teaching about Sin is what I've been teaching using that is not a popular one because of the bias of we fly away does not allow you to interpret things properly because see how we started from Romans 1 they worship the creation inste of the Creator they use their desires wrongly you see the way he

explaining sin mhm I you know to make it easy in teaching we now say sin nature sin action no one is good it's simplification is just to help the explanation and by that we said no one is good does not mean people will not do it the issue is how are they doing it core of the issue how does a Believer sin if a Believer sins how does he sin that's where you now see discipline coming by the Apostle and I said if unbeliever not used to do this this guy do will get there too because you realize that if he's really born again should he not know better even an unbeliever that's why he say put away that Wicked Man from you because even an unbeliever should know better then this one is born again I understand your garments because you see Joseph why why is the woman with the Garment it's so easy to remove garment but at least be like like Joseph leave your garment sorry you didn't get the example no problem Joseph is your best example so I'm trying to show you your best example has started in the Motions of sin that's honest Bible interpretation now Okay g us to fall off as you walking the G be falling off say she drag it I don't understand can I drag your clo from your body and to leave like that he say no kind of Cl the St st stop it stop it stop it stop it but you see because that's why the Bible now told you what he did how can I because he answered those thoughts in that hour how can I do this great wickedness against God and against my master he answered the thought that shows you he's a genuine human being so I know some of you can never be tempted because maybe because you have never seen h I'll say it I'll give you four examples all your life you have been locked inside a room that's why M you it was even in your you you were doing clearance you you were led into sin because now you are away from father mother control from clearance they have carried you they go carry me they go where I don't know have you not seen people like that because parents thought they were stoping the but just shielding the person from living the life that the person wants to live secondly um um let see um I once cored a lady like this this is a true story she said U I don't know why we I don't know how men will just be men will just be pursuing a woman men will just be pursuing a woman I said because you are not like them give her low blow see I and I said the low blow now in a soft way nobody will pursue you you are not attractive so you are not overcoming Temptation because nobody is even being tempted that is you see it now you see when I said it with low blow you didn't know so let's get it so that you first realize that the final ladies have more Temptation than you so that you are not temped the same way man Pride not go kill you thinking you are not being tempted nobody's looking at your face everybody see you they want to puke is he you that they will be tempted they will not be tempted by you it's good we say it oh so that that sister that is thinking she's a greater holy person using pride is not it though because some one person there's another one I said you not the speck of women say as a brother you are not a speck you are not a if you are then you'll be tempted you have not you have nothing that is sought after James chapter know beautiful you are waking up I like it I like that your feedback James chapter 1 said every man is when he drawn away of his own so there must be a mutual desire I'm not like you I not like you now I not you not those kind of there are ladies that nobody has ever

asked that nobody has ever asked out stop it Jo don't be doing that thing you don't know you don't know okay now be deceiving yourself I I didn't say marry now of course there are those that are also what people call beauty beauty is relative and Beauty can be enhanced by simple things not even have to be complicated makeup and all of those things they are main things because a sense of love and value when a woman is in love her appearance begins to change because love does well on a man's on anybody's skin the food you eat you're always soaking Gary but they not be show glass there are different there are different there there's a dietary place there is an emotional and I'm serious oh you think I'm joking I always say this so that you don't think that I'm trying to put anybody down I don't even know how people because beauty is relative is always going to be relative to every individual that's why many of you here that are extremely beautiful don't even know there are many beautiful persons that have low self-esteem and you not be wondering why because beauty is relative because somehow they feel like I'm not enough the other person better than me it's all that's just life that's just life so back to what I was saying are we together so the core issue we sin so I think that point is gotten because some person that are too proud thinking say uh I don't know why people because of money will not come to church have you seen 10 million dollars before just be talking arrogantly say I am what I am by the grace of God just small 1,000 you already start say Pastor come here so just one million one million enter your hand say I don't know why people bend down to greet pastors oh sorry oh because what is there it's just a man you are not raised well what about when you not see me Bing for the other persons in this church am I not their Pastor don't I know that I'm over them why do I B when it just shows that I was raised properly I was not raised in the bush they raised me for house because you good upbringing teaches you to respect does not take anything from you now you are because for you if I can get money I go preper them see it again always see that you were you have been suppressing the idols in your heart that's why all those things can now are now called Idols you have made it an idol you have made it an idol that makes you not to do the work of God that makes you not to Ser which is the end point that sin takes us to is always for you not to live as God's man that's that end because you in living is no longer about me it's now about the world again we have gone back to the whole world picture Hallelujah so those seen and unseen forces that we hand over to willingly or unwillingly knowingly or Unk knowingly explain because we don't actively with our will hand over some people actively because they are unbelievers they have mastered the ACT they actually need inspiration that's another explanation so knowingly unknowingly hand over to sin and UN forces a power and authority they not supposed to have the end point of that is that they seek to become gods and and control and have us and that control is what the power of Jesus's death has broken that's why we say a Christian does not seem like I could not help it I just could not help it I no no no when you retain your power back in Christ Jesus that every wrong thing you have ever done because you wanted to do it you will now know that you are born again it's an unbeliever that sins because he does not want to but we can't even say this kind of

statement when Christians are in the name of their Holiness teaching give you an that a Christian cannot so everybody has to lie and say I don't do anything wrong go who can't they commit sin in the world if nobody's committing anything is the hypocrisy again AB be because even that point you say it's a mistake no as much as it's a mistake you chose to when you retain and because if a Christian say he did not choose to how did you not do it say is a as much as we call it mistake you must realize that it is within your power that is what salvation gives you that before you got saved before you got born again you didn't have when I me this what salvation gives us I don't mean I'm just talking point by point then I because I've been teaching holistically and we are not getting it on that's why I brought it out in points I will bring it back again holistically people just like scattering things bad habit is bad habit we I've gotten used to scattering point so that's why I'm scattering it and I'll bring it again together are you with me what was I saying now this cing what what was I saying I know was what did I saying before that a Believer has a choice sorry that's what you said okay believer has a choice believer taking drug I said that is old one so a Believer has a actually that's what I heard I he drugs from there you know something when you are he when people are talking you'll be hearing different things to be sounding differently so every believer has power to say no when we do wrong as bad as it is I always like to interject so that you don't take one line and leave and say Pastor give me license every believer has power so that the next time you something that is wrong you can man up and say now me I it may look like ah s it's not fair now we should no if you always hide and say it's not me that's what empowers it more and more because you need to realize that it's your choice so the same way you say me do same way you say I go do realize that sin is an action not that you say Sir I've tried to break that addiction try ah no call on your savior now don't you have a savior which one is I try to there's no addiction that cannot be broken in a second in a twinkle of an eye by the power of of Jesus is because you are not retaining your power retain your power that why have you not seen the sin in public but all believers sin in public because they are unbelievers unbelievers hide to sin why are you hiding because genuinely you know you are born again that means you have control you see there are many things you do that show you have control that's why you don't put it on WhatsApp now believe not put it on WhatsApp somebody not come up and said how many women have been sleeping with how you have people put out unbelievers put out please I don't know that people are not living in society again is when you start seeing Christian put out sin that's how we know the person may not be saved so there's obviously when we retain that oh sin does not have power over me sin Power Over Me Is Broken then you understand what we are teaching that where you say I'm helpless I'm a lawful captive of sin no that's death of Jesus breaks that power that you say I'm a loveful I cannot help it I have to serve this I have to serve these sinen and unseen forces no I don't have to and the power it has to want to keep me on that body has also been broken that when I say I don't they say you dare not you are mine mine I'm not yours so because that's what his death was for are you getting this that's what his death was for I'm putting it in points so hallelujah

amen so the three rebellions the Genesis 3 Rebellion the Genesis 6 Rebellion the Genesis 11 Rebellion what was the consequence of the Genesis 3 Rebellion death and alienation what was the consequence of the Genesis 6 Rebellion It produced deadly and Mortal dangers threats to our living the origin of demons Genesis CH 6 Rebellion full-blown wickedness I thought you this in unseen forces but I'm I'm just repeating it again here now Genesis 11 Rebellion the consequence was full-blown idolatry and that's how God is now removed from all the cultures of the day that that why people say our culture is this Jesus is no longer God is longer the culture where say their culture they will mention we worship this that's theonomy 32 the disinheritation of the nation Genesis 11 that Moses explain 32 that the nations from Babel which was what they were doing in Babel and it worked they say ah is the skyscraper oh my God you are you are reading J White book it's not skyscraper they were building what the tower they were building is a ziggurat in the ancient world is called a temple complex where Gods can land on the earth to be worshiped so what Nimrod was doing was to cover all the earth in darkness that everybody everywhere we worship God we worship the worship the created invisible beings the worship supernatural beings that desire to cover all the Earth in the darkness is what did not stand however God doesn't stop people from exercising their will so they still went on their way and serve those and God in as all the Genesis 3 Genesis you see a consequence now said okay since all of you have gone your own way that's the disinheritation of the nation 32 just AB say I'm talking it just look like it's falling to the ground which you if you don't know a text that is quoted is not better to read it in your mind since I2 you just go and read it now so that you are not looking clueless where where was that said you'll be flipping your that's why you have a Bible it's not for decoration don't be looking to the projector people 32:8 when the most high divided to the Nations their inheritance when he separated the sons of Adam he set the BS of the people according to the number train of Israel this text is Genesis 11 we have explained this in unseen forces so you go back and listen to that teaching so div the Nations their inheritance so allow the Nations you see this in Romans 1 if you think it's not connected Romans 1 mentions Genesis 3 Genesis 6 Genesis 11 Rebellion by using to explain sin because we see Genesis 6 is where all those kind of perversion where is the origin of man and man woman and woman sleeping with each other is the origin of deep levels of depravity Genesis 11 is now where you can now say our gods are God is God so because it's now looking like God is a different God the this is the one we have in our land how did that happen that's why you know people think things are not in the Bible it's in the scriptures and we thought that in unseen forces and the Fallout the consequence of that Rebellion is full-blown idolatry among all the nations where God God is now a different say we don't worship God so what did God do because he's a loving God he has already visited the nation and said me too have divorced you people you say you are not serving me no you go your way I go my way but in his love and his mercy and his grace he will not leave man like that so he said okay since all the nations have gone astray what do I do let me call somebody after out of the same Nations

and start a new nation that is the origin of Israel if not Bible you wonder where did Israel now come from Genesis chapter 12 as a Fallout let us build us a city Abraham is Seeking a city which build and maker is God the opposite is what we see in Abraham the Genesis 11 men what they did and what Abraham is doing his opposite Genesis 11 men are sinning after of Adam's transgression Abraham is not wanting to make a name instead God is said I will make your name great Genesis 11 they want their name to be great so you see the opposite in Abraham so God took a man and a woman who on their own cannot have a child and supernaturally enable them to have a child so that it's obvious to them that this child came from God this child is my own so that from that child he will now have his Nation Isaac will bet Jacob and he will have his Nation and the nation should be founded under God's laws and that's the origin of laws we'll get there like I said I'm weaving you know you see laws in when explaining Redemption you see don't rush step by step it will come together because that's how you have Genesis to Mal these are the stories used to explain Jesus died for our sin so that if we don't tell the story within these stories we just be using natural examples which does not pass the point amen so we are in a safe place where we can draw the cotton this morning Hallelujah so Genesis the Rebellion BR death and alienation people are in strange from God we saw that uh wages of sin is death Romans 6:23 Ephesians 4 eled from the life of God we read those text the day the other day ab Genesis 6 uh demonic attacks depravity full-blown wickedness are the two consequence of that Fallout genes 6 there is now the origin before Devil's Satan was not touching anybody's body was just after him being priority in different places until Genesis chapter 6 we now see that full-blown attack on human I've explained this in onen forces and I'm still going to teach onen forces again this year so be PA patient allow Church to be a school you must not know everything once is that okay all right so it will still be repeated again Genesis 11 the consequence of that like we said six was the um lital threat to our existence AB now people can die as a result of of angels which are now Devils people can suffer things sicknesses Spirit of infirmity origin of of what we call demonic attack Devils can now touch people the gods of the land or principalities and Powers don't have time for bodies when they can be more territorial in their thinking they care more about rain and Rule than they care about your body what they are really after is that wider influence so Genesis 6 we saw that because those ones are more after mingling sons of God Daughters of men remember now that produce its own issue so demonic attack and full-blown depravity fullblown wickedness since depravity is being English but it's correct word I always select proper phrases the real word is depravity fullblown Wicked so it look like how come sin just multiplied in a widespread manner from chapter 6 it was giving Wings Genesis 6 Rebellion that is not chapter 6 was started before chapter 6 but is explained in chapter 6 of Genesis genes CH 11 idolatry and the w Wes distress and Wes in the nation and every other sin after that I used to explain the theory 6 or 11 so Sodom and gomorra another example of gen CH 6 i t you this Andor is exactly like genesis CH 6 that's why they are now using an example of Eternal damnation just like that Earth was destroyed just like Sodom was

destroyed that's the same way the the unbeliever will be destroyed consistent teaching Hallelujah so what God when God deals with sin on the cross he takes back from the powers takes back from The Unseen forces their usurped Authority takes back destroys slave market the slave masters the slav in his work of redemption Hallelujah and that's what we are EXP explaining so what his death accomplished it defeated Satan it paved the way for Redemption it revealed God's love and it created a family of royal priesthood we said that severally the cross symbolizes faithfulness forgiveness and love I said this before I'm repeating it again I'm reading for my part 10 note it was in part 10 part 11 I said these things in cing now we have not explained them extensively but what we have started explaining extensively is Jesus died for our sins Hallelujah and we said the word forgiveness is released from the prison of bondage so sin put people in bondage sin put people in bondage that bondage is what Jesus has freed us from Hallelujah that bondage and these consequences that we explain now is what he had to deal with he had to deal with demons so that it would be illegal now for them to touch you he had to deal with oh beautiful some people have woken up finally chapter three of Genesis he produced death and Elation so Jesus in his death has removed the death and the separation remember not me and you the whole world not me alone the whole world think of it I told you think if you think of the whole world you will see how easy to see what Jesus have done how do we now bring it to ourself is where it looks harder but first see it generally start with the whole world and it will make sense for singular clear so death and chapter 6 devils and the Demonic attack and depravity he dealt with that in his death chapter 11 he has dealt with the gods of the Nations and said they all legal so go announce that's why the gospel is spiritual warfare today that they are illegal all those things that they are worshiping in different lands are illegal that's why it has come at a prize we have to sacrifice our wives our daughters to the gods of the land it has increased the woes in the land in the name of culture in the name of idolatry it has come at a PR as a consequence Jesus death has dealt with all Theory rebellions he has un undone the what the rebellions produced in the world emphasis produced in the produced in the but how come we not seeing generally because all the word has not accepted it but we only see that we believe that's why a Believer can cast out devil an unbeliever cannot because the unbeliever is a legal Vel for Satan to possess an unbeliever does not have God as his father because legally by his action he says God should not be his father the believer is different so you see it's easy to see like I said I needed to end at a safe place where there's no confusion when you see what Jesus did for the world he has undone the Genesis 3 Rebellion he has undone the Genesis 6 Rebellion has undone the Genesis Genesis theories death and alienation and strangle people being so and that them the the theological phrase used for it all those reconcile redeem that you see littered all over your poine episodes that's what they explain I've made this teaching so simple so when we go back and now start reading reconcile you see what it means chapter six for as much as are par of Flesh and Blood he also took that true death he might destroy so Satan knows he has been destroyed render the paws of

Darkness useless when Jesus was going to the Cross he said now is the hour of Darkness now but when he rose from the death Colossians I read those t for you he have spiled principality and power so Satan has no right you we can draw a line for him and say you can't pass here and he can say yes sir oh tears Bor the popular story of when he was casting out devil some people have tried to cast out devil from and they could not some they trying to because of the wrong way they understand C devil what is your name what is your rank then B got there and he said remember how I dealt with you in hell how I I I beat you up silly and the demon possessed person shouted tell don't tell everybody stop telling them what you did to me you know the man was conscious that he was in Jesus the demon that they could not cast out so he simply said go and the demon said I will go and left because they hate gospel more it's easier to touch body it is harder to remove Satan from somebody as his God which is easier to say when we not realize that's why we must not Rob oursel of the power of the Gospel which is easier to say your sins are forgiven or rise up and walk rise up and walk is the easier one that one did not take Jesus to the Cross but your sins are forgiven now make die Satan has God over people that is the one Satan does not blind people's ey from being rich that's why people are still rich and even have many agents that are rich but he blinds their heart against believing the gospel because that is where his dominance his final dominance over a man's life is broken and shattered so he does not want us to tell people that their sins are forgiven doesn't want to tell people what Jesus did for them because that's where he loses his power we let loose the gospel we let loose the power of God I'm not ashamed of the gospel of Christ it is the power of God unto salvation to everyone that sound your feet the gospel is the power of God the gospel is the power of God come on the gospel is the power of God unto salvation this message that we preach what is Satan really against if if you were Satan what will you fear leaving somebody's body but you are seeing the compound or leaving the whole the I say leaving somebody uh touching somebody's put it simply what Satan fears most is his demise the devils are trying so much not to go to hell and yet hell is for them Satan spends his whole lifetime trying not to go to hell which he will still be put in and hell and death destroyed instead of him to stay in here he wants to be running up and down looking for who may destroy he refuses to stay there but he will still go there after come to the CH before that time cuz he knows so he say I been not having now make I see they move why do you think he wants to be moving because he wants to be touching people's money no as much as it's evil that he touches people money but the callans 4 did not miss it the God of this world have blinded the minds of them lest they believe so you thought believing is weak is not believer he say to believe that common to believe that common to Satan is after Satan have never stopped people from he's not universally stopping people from from seeing how to make money it's not there nobody would have made money in this world now it's not stopping people but what is he really after the salvation of our souls that a man can say God is my father he say no never please please please please please I'll do anything you want if you want money I will give you if you want F I will give you don't make

Jesus your lord don't make Jesus your lord so you can unbelievers can even St aame with Satan and say I don't want to serve God help me and and say okay how many years could he have lived okay could have lived 80 years let's do 40 for him because Satan is a thief he doesn't give people anything without using back hand to stab so it look like they made the person rich but now they could only drive the bench for three years and die and they say I don't mind I don't mind as long as I reach I must show them I must prepare because Satan is is manipulating the mindan person that is thinking should know that what is driving Ben for three years and die what kind of money is that one you have wealth you can you don't have life to enjoy it what is not the essence of the we when there's no life to enjoy it ah you would have known that if not that he's working on the mind working on the mind but Jesus in his death he cut him and how did he cat him he went down to where Satan was I said I don't catch you I don't catch you we are getting there because he went he had to go down say okay this is where all the Departed have been going this is what you Adam all of you collabo produce I'm here now and Sport principality and power because it was not possible that he should be held because hey that's why Satan was shouting hey had I known I will not have crucified the Lord Of Glory I have sent my Creator yeah ha work have SP the Creator as a man is now inside here oh Judas oh you tricked me even Satan was looking for Judas Paul saw it there's what men saw when Jesus died there's what the Unseen fces saw e always used to write say what happens from the cross to the throne there's what men saw there's what happened in the Unseen World and that's the beauty of the poine epis that we now have in him in Christ because writing what ey could not have seen what ears could not have heard is writing what is by Revelation that's why we pray the eyes of my understanding be enlightened because the gospel is more than just intellectual explanation more than intellect you heard uh Rabbi testimony in camp meeting that how the person that could could he could not even preach the gospel so well the facts were blurry that if he not receive the Holy Ghost D that they would not he would have argued it afterward because the gospel is Supernatural it's more than just logical you may not have explained it well but when you you start saying that you are all welcome you are welcome you can come in the king is inviting people you let loose the power of God and God is in that message whether you say it well you not say it well God is in that message lives are turned around when we begin to preach the gospel societies as it should be our homes our friendship our relationships as as they should be when we preach the gospel we are unleashing the power of God and we can live genuinely happily joyfully as God intended us to live don't you just love Jesus lift your hands and thank him come on thank him
