

we receive insight and Clarity into your word we thank you for the preciousness of your word and as your word is taught doubts are resolved confusions disappear Clarity precision and accuracy flood our heart again this morning we declare again that the things that ought to be said in this service will be said the things that ought to be done will be done to the praise and glory of your name and we get to understand your plans and your purpose better understand the grand scheme of things why you do the things you do why you love save died rose again for Humanity we thank you we receive of your spirit this morning and we say in faith our desires our needs are met our expectations are exceeded because your power is present to do beyond our expectations in the name of Jesus amen God bless you have your seats again our anchor text Psalm 74 everyone can quote it by now Psalm 74 and verse 12 for God is my king of old walking salvation in the for God is my king of old walking salvation in the mid of the God is my king of old walking salvation in the midst of the earth firstan chapter 15 help me turn there quickly first ginans 15 turn turn turn your Bibles and we read verse three and four for I delivered unto you first of all that which I also received how that Christ died for our sins according to the scriptures and we're still examining that phrase Christ died for our according to the scriptures catas graph according to the scripture is not a Bible verse we can by proof texting bring out two three four five Bible verses and say that is Christ dying for our sins from Genesis to Malachi but that's not what he's saying when he says in all the scriptures in all the scriptures means in line with the biblical narrative that we have in line with the biblical narrative from Genesis to Malachi when you put the scriptures together you see that the death B resurrection of Jesus can explain all of those stories and events that's what they said we can explain from the resurrection of Jesus we can explain use those events from Genesis to Mali to explain how Christ died for our sins the same thing in verse four he was buried and he rose again the third day according to the scriptures so it's according to the scriptures amen and we're still examining that and we have seen quite a lot of things seen quite a a lot of things concerning the subject of Salvation what salvation is not and we started emphatically on what salvation is not I think for the very first seven parts of our teaching there was such an emphasis of what salvation is not at the same time looking at what salvation is and as we got a bit further we looked at the what when where why who of Salvation and then the teaching kind of like opened up more into oh why we talk about the death be of Jesus as the greatest event that has ever happened the ultimate event has finally happened God has launched his kingdom now on Earth what he always intended to what did God want on the earth a family and his kingdom now that has started with the dead res of Jesus why that is the greatest event and we can use that to get people Sav we can use that to get people to believe in Jesus then we began to emphasize what it means when we say Jesus died for our sin in the preaching of the Gospel a man gets saved and we said the quality of the preaching is not what saves people but the power of the Savior and the faithfulness of the Savior so we may not explain the details very well but people still get saved because God is a good god he's a merciful god he has already said let them come in and let them

come come in we may not explain very well but let them come in let them come in all the same the way is made for people to come into the kingdom however we can explain it where and the aim of this series is to have a Torah biblical understanding on the subject of Salvation I know many in the teaching you say oh let's Pastor just pin this thing here no no no no when you teach scholarly when you teach um I'll put it interior ways there is a way lecturer teaches and there is a way professor teaches and that's why the professor has more knowledge than the the normal lecturer because the professor has a volume of materials that he's working with and he cannot just be as simple because when people say I like the word simple Simplicity they are one of my best phrases right from time I've always used them but when you say let's make it simple I always like what do you mean by simple because some things are not as simple as it is in fact is that let's make it simple that has put us in some of the issues that we are in right now much of the conundrum Body of Christ concerning simple subjects of who a pastor is why we go to church uh the love of God the forgiveness of sin Heaven hell and all of those things why they have been confused is because of let's just say it simply let's just say it simply nobody ever is an authority in a subject from Key Point nobody can even pass an examination because he saw key point on chemistry that's how I know chemistry from Key point then the book they they try making it shorter every day not trying to throw Shades to those text book essential fundamental they try once phys B become too small you will not know physics now you see people like it when things are shorter not when you really want to be intelligent I used to have an issue with f m I used to have an issue with mathematics generally and before I uh When I Was preparing for jam and all of that all the fur Masters book I could find and they were like 15 in all and I read it all and after then I read all of them very big like this I even bought read engineering MTH when I have not entered school and I read all of those many big big books and I realized M became the easiest subject from 96 upward became the least I could get because it's really not hard is that I the foundations I realized that my foundations were wrong because the teachers always used to say mass is a hard subject and everybody say mass is a hard subject because once you miss the fundamentals once you miss the foundation of anything it's going to be always going to be difficult I always say my issue I love English language so well but my issue with English language is pronunciation why because English teacher once said that if you cannot pronounce all these things where you people will not know English then say all this tribe tribe tribe and I don't like when people say foolish things so as long as she was speaking against tribes in a in a bit to raise the English language up that's the only part of English I never took serious pronunciations those V consonants every time I just log off because I am not an English man I'm a be man and I'm very proud of my root just like you should be proud that you're an EO man EO woman EUR man and all of that you're not an English person we just speak English we just colonized don't make it a measure of intelligence don't I like applications I like where how does this apply theology that is not practical is useless uh any understanding that cannot be used is the same reason why we say there are so many

mechanical engineers but they can't they can't repair generator we have to see go and get a a mechanic along the road an engineer along the road the one that did not go to school that is a more first class person than those the first class students from mechanical engineering that know nothing have been better they were not first class because say oh it's just they don't just have the application no that's why you are tested you don't just give somebody a job you are tested so that you are proving and what has happened in the body of Christ and I say this apologetically and I say this honestly and sincerely and not trying to throw shades on anybody there has been a lot of dullness in the pulpit and it's increasing by the day even among those who love truth and they are learning from bloggers podcasts who just come and do a short 30 minutes a man wants to a very exhaustive subject just like people who throw shades on social media and don't learn from them I like them as human beings but don't learn from those kind of things it will put you in trouble and Noah did not do this and you're going to answer it in 10 minutes are you a joker you can't answer theological subjects like that in 5 10 minutes and you think people have understand you have just made the issues harder in some of my studies and some of my work I do for some universities outside the country one of the challenges is always in stupid statements like that all those onesided statements is what produces aism and that's what makes people who are Os have some questions that they ask that people can't answer they get it from all these our one liners can we just ruce it to this and they now use it to say oh if so not like child abuse God did to Jesus then the people that have saying Jesus God ped his anger on his own now they are said no you won't understand spiritual things you started telling me just now now you have dodged with I can't understand spirituality you know this things are foolishness onto explain because I said it outside sound Doctrine you really can't answer biblical questions properly so again this is not your normal teaching on salvation I've been giving this disclaimer again and again so that you're not oh why are we going so far why are we turning around turning around turning around this is a teaching on salvation to give you a wider understanding of the subject of Salvation are you getting it all right and we will not rush it it is okay Casey Price uh Tau for three years on a subject it is okay at least it's not hindering the move of God's spirit amen is okay allow the local church to be what it is a place of learning a place of growth say if we can just finish it up that we can move to something else is something else that we moving to what is something else that we moving to are you the one with the outline you are not the one with the c outline Jesus says to that man who can give the People Meet In Due season do you know the meat are you the pastor do you know the meet in due season that I should be serving you are not the lecturer knows what he should be teaching not you you simply that's why you don't select topics say I love thermodynamics in I was studying to be a chemical engineer not me I'm giv an example of somebody I love thermodynamics but you see all these other parts I don't just like it ah you can't be selecting what you will like oh you have to like everything though you won't graduate well you have to like everything is that okay so all of that needs to be said so he said is it not just Jesus died for our sin sin sin what sin Jesus died for the

sin of people not believe in him does not see how the meaning of being stupid he died for the sin of not believing in him you didn't get that sorry I'll leave it that's the problem of reducing things he died for the sin of not believing in him full stop because you want to just type it what sin Tak people to head the sin of not believing in Jesus so what sin Jesus died for nothing mean that there's no truth there but you have modled up many things and now he's going to give us more work because you have modled up everything died for the of not going to died for the of not believing in him so what he seen say all these people are attacking Grace churches what is see sin is this sin is this sin is this all those reductionism the SC is this you know brother and sin is actions every wrong thing you do is sin let's not be crafty unnecessarily with Bible in the name of you know some Greek words know terminology of words it's craftiness the Bible doesn't separate sin as not an action if not it will produce those set of persons three years ago who began on social media saying sin is dead it come from those kind of teachings and they and that's why the apostles very toor in how they communicate details because once you start explaining that a Christian cannot commit sin because Jesus has already died for our sin that whatsoever we do is not sin anymore ah obviously Paul Peter John they didn't get that memo because they said if he s you have an AF with the father Jesus Christ the righteous are so the new believer didn't say if you do what we don't know name of and that's why those guys are so bored who teach those kind of things in fact they wrote letters three years ago and in there many posts on social media they said uh John didn't really know much that's always the issue once we begin to attack biblical writers that they don't really know much they were dull they were D but we are just supposed to take you because you are the more intelligent person that's not how to study so the onesided um now um I know that when we teach things properly we run the risk of always sounding like we we are sounding like elit like only we or I think the proper word is iono class or something we sound like we are the only ones we are always finding f with what everybody else have to say until people hear what we are saying it can appear like that of course if those are what other persons are doing but that's not what we are doing the issue is that if error has lasted for long once you begin to correct opinions and teach things properly always look like you are fighting everybody that's if the tone looks like you are fighting now it always look like you are correcting people once you are teaching what is correct but the idea is not really about correcting people it's about saying what the scriptures actually are saying I don't know if you are getting me so I beg you again this morning to listen like that to actually hear what the Bible is saying is that okay when I was growing up salvation was definitely going to heaven when I die and that's how we we came to understand salvation and in this series so far we have seen that is it that we don't now believe in a heaven God forbid are we are we Mar people we believe in a heaven we know that there is a heaven we know that there is a hell but when you teach those things asally h absolute destination you are not even in the Bible because in the Bible you see hell and Catholic of fire so hell is not the ending for those that are going to hell so on that is already an ending you're already going to force everything so it's now about there is a

heaven to gain and a hell to lose though that is fine like I said it's okay it's better somebody believes that and they really are saved than for somebody to not believe in Jesus Christ to be an artist to uh to submit to one of the philosophies in the word Buddhism Hinduism submit to one of those philosophies is okay that people believe that one that is not explained properly because thank God that God Saves people because all authority Heaven and Earth is given onto him and if we tell people you can be a citizen just I use for example the American president says everybody can come to America now and we tell people anybody who do not come is because they don't want to come but it doesn't matter how I said if I can even lie on top of his head and anybody that come will get free job does not mean that they will get free job but the idea if they come they come they will actually enter because he has given that free pass if that's the presentation we are using uh wonderful examples we are using so do we believe in the reservation of the body yes do we believe in life Everlasting yes so are we saved by his death or by his reservation of course the reservation is the core of what Jesus is but we are saved because of his death burial and Resurrection or his kingdom have started on the earth as we now use the people after the resurrection of Jesus because what Abraham did not wait for Jesus to die be buried and be raised from the dead for him to believe in God and those who believe in God are with God Amen but now that the event of the death of Jesus have happened we can use that to explain everything that we say today but if we do so we must not do so by destroying all the text in Genesis to Malachi and saying that's what everybody had to make no sense that I 4,000 years from now what Jesus is going to do was what Noah and the rest is there to know what that's not how to communicate that in fact makes the audience not even know what they are hearing from who is speaking to them because it makes no sense I don't get who is 4,000 years from now something's going to do how does that now benefit me so when you realize that they thought in a manner that Their audience will understand and when you see what they thought which is why we use again a simple statement of the fact definition but the essence the substance of the AG gospel was the same it was about believing loyalty it was about believing in God it was about the reign of God's kingdom God is now King over all the Earth He Reigns and rules and that was a major fact of the Gospel in fact the word gospel is a clash of Kingdom terminology when you say gospel is a term used in the Roman the Greco Roman was was used that oh the new emperor is born oh an emperor have died and the new emperor is taken over that means the world will not be the same again we don't know what next is going to just like uh the PTO was coming into office and people did not know if what's going to happen to America what's going to happen to the Free World what's going to happen now because could he come with policies like this he could come with this and this and for you know so the gospel is news of something has happened what has happened now because of the death of Jesus have happened something has happened of which the world will never be the same again that's why it's news new news is not something that is going to happen the news is when you say breaking news when you say news something has happened so it always will deal with something

that has happened and in every generation something has happened for Adam it was something has happened I have created man and why did I create man for it's for every of it was always something has happened there's always something that has happened of which the word will not be the same it is a news a and the bibl now use the word promise God's commitment what God said he was going to do right from Adam eating the tree of life now turns into a promise of life so eat the Tree of Life they didn't eat the tree of life because it's not physical eating believe in the Lord and have life they did not believe that now led to many other things chapter three chapter 6 chapter 11 and we say oh Adam is the blamed and we have uh I think almost put that to bed uh we have I think we can safely say we have ended that whole discourse of Adam made me this Adam made me this so there are two destinations that are taught to people Heaven and Hell and once you teach destinations like that it hinders proper Bible interpretation because people can't just get away from the equal and opposite destination going to this destination you are going to this destination so you get to choose one and like we said Death Becomes our savior because we can't just wait to die because until you die there's nothing about your life but God wants us to live and God is Not death God is life and why didn't we die the moment we got saved because death is not our savior death does not explain what we have and what we are life does I now have eternal life so we said salvation is not I get to go to heaven when I die and doesn't mean I get to go to hell when I die is salvation is that I am raised to life in God's new Heaven and Earth now and forever the forever is because the gospel now and the gospel tomorrow are the same fact if the spirit that raised Christ from the dead dwell in you that same Spirit shall give life to your mortal body Romans 8:1 the Spirit by put on immortality is already in us now so something has happened and something is still going to happen but it has already happened with within the dead B of Jesus Amen so I give you the theory timelines before the word began now the present word now the world to come so it's about and in the world to come we now see all everything that has come into the world God is going to get rid of it and remove it and he has already in the dead of Jesus but we do not yet see it universally for all of creation hence the Bible characters Now teach what is called the day of the Lord the coming of the Lord because that will now be the final consummation of all things and there will now be everybody will now those that are Weeping will be weeping and said had I know had I known they really told me oh but we will now see the end of Satan sin death evil everything God did not planned everything God never wanted to be in the world will fin be away from the world but right now it's already is already away from those who believe that's the church so for you and I and for all of us corporately as the body of Christ all over the nations of the world we already are a people of the Resurrection we already are a heaven and earth people right now it's not that day we are going to go to so people say oh it's all about going to heaven I told you it's the westernization it has come from the Greek philosophers plao and all of them what they T and great thinkers I think far more Superior far more intelligent men than many of us can ever be I I don't drag intelligence with people like that their their results show how intelligent

they are however plao is not a a a a a Bible teacher he can't help us explain heaven and understanding of Heaven and Hell have shaped a lot of understanding to the dant Inferno to the m Angelo 16 Chapel of and where the Catholics get the patry and of those things from people have had many understanding that we can't find in this book and that is the challenge that we are talking about how we always want to leave the Bible and be exploring brilliant philosophies Paul said let no man spoil you with vain philosophies these things will make you not know Christ Colossians let no man spoil you with all these brilliant ideas stick with Bible interpretation don't be scared of the consequence of proper Bible interpretation anywhere you take me car me go I know car me go there the important thing is that I can't go wrong with properly seeing and understanding the Bible how is not by taking one verse here mixing up with one verse here but seeing a consistency a Harmony within all the biblical writers that is the end of biblical interpretation that we can now Harmony that oh Peter Paul John James Jude they could have used different words but this is what they were saying Moses Joshua Samuel David Isaiah Ezra Jeremiah all of these people may have used different words but this is what they were saying I love my Bible I cherish my Bible and that is chrisan living not just forget that Bible no are you with me me I love my Bible I love my Jesus I love my brothers and my sisters in Christ Jesus I love Humanity I love the world that God created so because if not the religious way of teaching will get you to hate the word because God hates the word he's just managing the word sir no it's not God so hat the word so I used a phrase again which have come from many explanations I use the phrase on Wednesday it is not salvation from the word it is salvation of the word just that simple statement alone correct many years of backward interpretation because God so loved the word that he gave his only begot son that whoever believeth in him should not perish but have everlasting God did not send his into the word to condemn the word but that through him the word might be saved it is not salvation from the word that he gets to rescue us from the word oh no he gets to Res his world is not rescuing us from this world no he's rescuing this world from sin Satan death evil all that he did not plant so that his creation can finally be his good creation Romans 8 says that's what creation is groaning for to be found with the same glorious Liberty of the sons of God so all creation seen and unseen Longs for that day where the Heaven and the Earth are renewed that's new Heaven and new earth new heaven so the heaven of sin unseen forces that are now in darkness what we call Devils uh demons all of that is removed the a of sin death evil wicked men and all of those who refuse who in their pride reject the gospel reject worshipping God choose to worship the creation above the Creator choose to worship their intellect worship anything other than the Creator I remove from the earth then we now have a physical new Heaven and and the physical new heaven is not that they have dog hole they have now planted say now new let the grass be growing let it this no that's not the idea the idea is the church have a role to play in bringing that new Heaven and because right now we are the people of that new Heaven and Earth and John did not make that teaching in Revelation John was quoting Isaiah he qued isah over 40 times just in

Revelation alone John like you and I have no original thoughts John is simply teaching what Genesis to Mali thought he's using new heaven new that's asah phrasing he's using I do a new thing shall you not know it all those new thing new quoting Isaiah he uses King of Kings Alpha and Omega he's using Isaiah you can tell John is a student of Isaiah is the same way people have built doctrines on Antichrist that was only mentioned by John and they tried to connect it to that's the Matthew 24 that Jesus was speaking there that's the this and it does not follow and when it does not follow they will not have the theory First Flight second flight third flight I say you may miss it oh because the Rapture teaching that is supposed to be because we are always trying to run away we're always trying to fly away because God hates this world so I just do my time and I get out of this space no no it is not salvation from this world is salvation of this world that's why notice the psalm 74 God is working salvation in the earth he's not working salvation away from the earth that like I told you the biblical story Revelation 2122 doesn't end with this people going to disembodied heaven but it ends with Heaven on the earth because that's what Jesus taught us to pray thy kingdom come thy will be done on Earth as it is in heaven heaven on Earth does that mean we don't believe in a heaven no we believe we so believe in a heaven that we don't wait to die to experience Heaven because right now we are a people of Heaven living on the earth as God intended it to be I can without a mirror without water without a calabash without grasses I can operate in the Unseen realm legally without the cost of my soul without damming myself into devilish diabolical practices I am the man that God intended man to be that man that can image him image and likeness is what the church has now become are you with me and once you begin to understand this you You Love The Gospel you love Jesus you love the things of God more because you're realizing that TI there's so much I will need to understand even better are we good so again tying up all the Loose Ends bringing everything like I said is a deliberate say Pastor is always Meandering go yeah we go yeah we go yeah the idea is so that you can see it in multiple ways and it all come together so you don't have a one approach because that one approach is where you say this is the way I understand it for me in my own opinion no my own opinion is the root word for heresy my own opinion you don't have an opinion for what you did not write you are a liar you can't have an opinion when we say tell us what John said you say my own opinion is he are you John tell us what Paul said you say my own opin it's not it's like I told you tell sister Divine that she's beautifully dressed in my own opinion she's not beautiful dress I just want to tell you my mind that's a lie that's not what I said Pastor said I should tell you but in my own opinion no no no no no he's a he's a he's bearing false witness that's what we celebrate today say in my own opinion I don't have an opinion for what I did not write like saying in my own opinion artina have not won Messi have not won the World Cup because you love Ronald you don't have to lie everybody know World Cup in which country U be Kat sorry in Kat one they lifted up the World Cup as his paining people we don't have to lie at 2022 World Cup you don't have to lie because you don't like him praise your goat without pring other people's goat I mean and beside what's the competition for they are

both excellent footballers by the way so but that's in my own opinion don't do what is your own opinion your own opinion should not distort the fact and that's where sects are born from which is the word it's not just wrong it's not wrong teaching is divide the body of Christ with a belief system so and that belief system is my own opinion my own opinion so everybody follow this my opinion and we now have a new court a new group a new sect Hallelujah that's not Bible interpretation so again let's run back to where we stopped Adam is not thought as being responsible for anyone's sin man can sin because he has a will how did Adam sin who did Adam inherit his own Sin from I told you since we are going to ask foolish questions Adam made me a sinner who made Adam a sinner well looking for who to blame of taking responsibility for our actions this is not a new teaching I've taught this over the last seven years where I've always emphasized the original scene theology that St Augustine had a wrong Latin translation that messed him up if he was alive today he would tell you that sorry oh my my Latin translation I was using was wrong that messed up my teaching don't have to force it is the most popular teaching on because they have to be an Adam for Jesus to come no leave Adam alone is that's why Adam is scarcely mentioned and I read the references for you for Adam you see how it's barely mentioned in the Epistles in the in fact New Testament book they barely mention Adam you always don't want to leave Adam alone Adam is my problem Adam is made me Adam made me Adam made me this Adam you made yourself what you are you are not going suffering D nobody suffers damnation because of Adam people suffer damnation because of their own choices it's not the soul that Adam made a sinner no the soul that sinner shall die you can't take poison and be wondering why you are dying no you'll die the outcome of sin is death they will not say what sin because that's where you not explain why sin must never be taught from a moral examination standpoint because that is not a biggie with God as much as and when we say it's not a biggy with God it's a big thing with God but is not as core as not worshiping God is not as core as not being a family member because if you worship God and you are a family member we can deal with those roots those moral examination part easily I've said this before so Adam is not as being responsible for anyone's sin man can sin because he has a will he's made of dust and that dust I explain on Wednesday is not the Bible writers are not teaching biology they are not fast their biology is even dull if you learn Bible biology you may fail exam because they didn't even know where the kidney was located they didn't even know where the brain was I mean allow aient men to be aient don't bully them that is not what makes the Bible accurate No they were in their timeline they were accurate because that's what everybody in that timeline believed that that human organ but that's not what they were writing where they are not wrong is always in their theologies about God where you cannot say oh it has updated because of Science and they were never science the Bible is a pre science and a premodern book Don't Force It to be what it is not are we yeah all right so Adam the first man Humanity which is and that first man is now called Adam Adam is a general name for all Humanity the first man is also now Moses refers to him as Adam these are Hebrew names you already tell that that's not his

real name because Moses is a Hebrew person so he's giving them Hebrew names is teaching all right so that's a teaching let that not trouble your head you would let that not trouble you is the same reason that troubling people today that say it's not Jesus is yosua you're just making a fool of yourself don't we translate names to our own languages calm down don't fight unnecessary battle you say no I will not allow anybody say Jesus I know they should say yosua they should say Joshua they should say what never reach to fight you can't you translate any name Ah that's not so Adam is made of dust and that dust was not to communicate biology of God is molding dust that's not what he was communicating but that man was made in a manner that he can change States so he uses dust because of the Frailty and the fact that man was made to go onto something higher I've taught this in the last three years it's not sin that made man does man was made of dust before sin sin did was made man return onto dust that's the difference so the reason why Adam could sin because he dust and because he has a will then on Wednesday I now taught you James though there were a bit of distraction because of the heavy wind U I taught you James chapter 1 where it says every man is tempted so even Adam will tell you me I was me and my wife were tempted the same way every one of us we are tempted drawn away by our own lust so where God is responsible for is the fact that he created man with a will but he did not tell man to use his will like that that's where we could have hold held him responsible and say now you make me they do this but he already told us how to exercise our will how to use our choice how to walk and he as a love being couldn't make Man a robot because if he makes Man a robot then there is no expression then man cannot image him because he is not a robot that means man is not the image and likeness of God because God isn't a robot you have to make something like you you can't make it a robot when you are not a robot that shows how Superior he is as a Creator man today creates things but again man does not have uh such his in his Innovative Powers have always come from examining the original Creator there the reason why all the scriptures he's always called The Creator God much of scientific breakthroughs have come from observing created thing that man did not create and say okay the wisdom for the play the wisdom for the submarine the W I've always come from observing physical created thing that man came to meet and said okay if fishes can be in water then this can be this if BS can fly then I think and the right Brothers got their Innovation right and the planes began some issues here and then the invasion industry but it's a bit better now now there are well carved roads without having to hit each other on on the air so things have now been structured so well amen So Adam Eve leave them alone that's where we ended on Wednesday is that okay so every man is presented with the promise of God's life and each man has a choice to make tell your neighbor each man has a choice to make now the word there's each person so for those who hate male and I don't know why you should hate male I don't know why you should hate female don't pick on genders male and female are two sides of God's house God bless them and male and female created he them the man that God made is male and female each person has a choice to make let's observe Acts

chapter 17 and verse 23 acts 17 and vers 23 and uh acts 17 and verse 23 acts 17 and verse 23 for I passed by and behead let's 22 then Paul stood in the midst of M's heel and said ye men of aens I perceive that in all things ye are too superstitious for I passed by and behead your devotions and I found an altar with the inscription to the unknown God to the unknown God whom therefore ignorantly worship Him declare unto you him he ignorantly worship so these people were ignorant in their worship is different from idol worship so they were into ignorant worship of God which is different from idol worship God that made they look similar but they don't mean the same thing God that made the world and all things there so they were looking for a God but they couldn't find him and they were ignorantly now worshipping that God they knew that there has to be more Gods than all these the Greek pantheon of gods we have seen uh posidon we have seen Zeus we have seen Hermes we have seen all of the uh Greek gods aphrodites the female goddess all of those different know the Greek mythology which the Marvel and all the rest used for their superhero movies DC Comics and Mar they them to hero movies today they have seen all of those things but they were not satisfied so that means it was not idol worship they were that's why Paul I always take many whom you ignorantly worship so he showing that they were so they were they knew that there was more to God than the gods that they were worshipping but now said there's an unknown God we don't know him but and that's what they were so ignorant ly worshipping God knowing that there's more to the gods there's a God beyond the gods that's the idea Paul now used to communicate the gospel to them different way of entering people with the fact of the Gospel AB all right God that made the word and all things therein seeing that he Lord of Heaven and Earth dwelleth not in temples made with hands neither is worship with men's hands as though he needed anything seeing he giveth to all life and breath and all things and has made of one blood all nations of men for to dwell on the face of the Earth and I determine the times before appointed and the bounds of their habitation that they should seek the Lord if happily they might feel after him and find him though he be not far from everyone of for in him we live move and have our being as certain also of your own poet have said we are also his offsprings did you see it he says your own poet so that means they are writers they we're also saying the same kind of thing we are offsprings of that God it cannot be all these other ones for as much then as we are The Offspring of God we ought not to think that the godhead is like unto is like unto gold silver or Stones graving by heart and man's dvice so again Paul ask his voice to rubbishing the other statues and Idols that worshipping and the times of this ignorance God wined but now commanded all men everywhere to repent 31 because he has appointed a day in which he will judge the world in righteousness by that man whom he had ordained whereof he had given Assurance unto all men in that he had raised him from the dead let's stop there because of time so they were into ignorant worship of God which is different from ID worship like we said Paul is explaining from the book of Moses Moses wrote about God's plan to dwell in men AB God's plan to dwell in men and not in temples the building of the temple or Tabernacle was to explain God's plan to dwell with

man he said build this Sanctuary 25 that I may dwell with you but God has been dwelling with man so the Tabernacle was to reflect that the Tabernacle was to explain God's dwelling with man because that's how revelation end finally God dwelling is with man God the idea has not always been man going to meet God is God being with man remember what did God want a family and his kingdom here he wants to dwell with man not about Man flying away that's why Adam Noah Enoch all of these men never were trying to go up to go no it was about God that's what they understood that God wants to dwell with man and again quickly that last statement makes your mind to go where we not send it to go we have already establish that heaven and Earth are not planet away from each other in the same space just like the physical Heaven and Earth you see is in the same place that's how you should see Heaven and Earth always in the Bible not a different planet that I need to go out of the earth I don't go out of the earth when I'm seeing the heavens even when I go outside the when you are uh in an aeroplane you are still on the earth so just as the physical Heavens are all over the Earth that's the same way it's so every time you see heaven in the Bible as an activity happening in heaven it was always on the earth a sound from Heaven a voice from Heaven I think we read that in our very first two part of this series we read many references on the word heaven and we saw this and we have been doing that for the last three to four years now lot of teachings around and I've given you eight applications of the word heaven right so when you read Heaven don't always think of a planet we fly away no that is a platinized way of thinking so the building of the temple and the Tabernacle was to explain God's plan to dwell in man which is Heaven and Earth God and man in Union Heaven and Earth cannot be separ remember I said that again can be distinguished just for explanation but they were made together the union of God wants his kingdom here so the Tabernacle the temple so we reading that acts 17 now he said God that made the word and all things seeing his Lord of Heaven and Earth dwelleth not in temples made with hands so that's why Moses was warned see that that build according to the pattern showed to you because people are building temples everywhere that's not that's not the way I do my things so people are building temples so that God can come and dwell was not the issue at Babel a they were bu not a skyscraper God has no issue with skyscrapers don't learn from Jehovah uh wickedness that's as dled people because the word there is a mdal a zigurat in their timeline is not his skyer I can go have an issue with SK say see now we are able to build sky but in those days God want God stopped them from building skyscraper into heaven don't make your god look dull stop it like your God is against Innovation and he hasn't wiped out the people trying to innovate things he should be killing them once anybody tries to he's not jealous if you because you are jealous because you are envious don't think God is like that see is he trying to rival me in inovation in creation that man cannot rival me snap the neck it dies on his bed no God is not doing that maybe some secret or are wiping out people who are brilliant and innovating things but not yah he's for the good of mankind somebody wants to bring the cure to eight God will sponsor him even if he's an a God will Empower him God will even want him to live God is

that kind of a God is's not going to say no I only give brilliant ideas to my children kind what are you doing you again doing this religion stuff of this versus this hope you know God is not happy that anybody get to miss out of his new Heaven and Earth don't making it look like God is just one say wow I warn you aha make it make it look like cuz that's that vengeful God not our God so in Exodus 29:45 I will dwell among children of Israel and I will be their God a phrase used a lot Hebrews 8:5-6 have an example sh of heavenly things we have read this text already so he has made of one blood all nations of men the word he has made implies to do a work something he has done something he has achieved so he has now made of one blood all nations of men to go on the face of the Earth so in his creation and he has determined the times before appointed and the bounds of the habitation so Paul in explaining one blood is explaining the common Humanity that there's a common identity of all Humanity did you get it there's a common identity as made of one blood or nations of because whether you like it or not we can all Trace somebody back to their parents so they to be an original Parent that started everything so of also is showing one blood that's how all the procreation more multiple Humanity on the earth why is he doing that he's trying to show similarity between how what Jesus has also done can spread into a new common identity which is found in the church too say and has determined that mean set boundaries or limits so implies God set a barrier for every man God the times before appointed opportunities and Seasons God gives opportunity for everyone on the earth times before appointed and the bounds of their habitation the word bounds there habitation residence so everyone is settled the same way every Paul I mean the intelligence of 4:25 he finds a way to bring every human that different opportunities different times appointed to everyone however everybody comes to the same place where you say if happy we may fill up time so there's no person that can say God is not close to me God is that's why it's easy to be saved so he brings it back to verse 27 that they should seek the Lord if happily they may feel have time and find him though he be not far from everyone so the reason for how God made man is so that man will be him so it's so easy for man to serve God God made it so easy like that so easy so uses the word to seek after to which is the word to worship so man was made to seek or desire God God made every human being to seek him this is where some philosophers over the years have said there is this thing inside every human being a god shaped part of me there's a vacuum in everybody's heart nothing can feel it nothing can feel it except God then people that have God as looking for things to fill vacuum today but we we get the sense behind what is being said the sense behind that is what Paul is saying here that God made every human being to seek after him so and that's why man finds a way if he will not worship the Creator he will replace the Creator with the creation whether it's his intellect whether is the word we worship the cosmos we worship M we worship the universe or any of such Madness or philosophy but man must worship something and because of how God made man so man was made to seek or desire God then he uses the word feel after which means to handle or to touch so man was made for encounters and experiences there you can't remove an

experience and experiential part in how man was made to feel after God did you get it so to every man on Earth God is Not distant near to every human so Paul is reaching what Moses thought God made everyone the same way in essence man has a common identity man was made to seek God and is not far from them so now I present to you that God that you have been seeking after because that's why they built an altar to an unknown God so I present to you that God and I present him to you in the man Christ Jesus that's the presentation of the Gospel that Paul had there so we already made it clear that Adam sin did not pass sin to all men the only thing Adam sin did was mortality because he was the use him to explain the first man mortality dust unto dust because man body and that's why the resurrection deals with our bodies putting on immortality will get to that as well death passed upon then Romans chapter 5 and we saw the word pass there like it's traveling it was moving from person to person and sin onto death sin death sin led to death sin leads to death the wages of sin is death death is the outcome of sin are you following all right so no man is doomed to sin because of Adam no but people can sin the way Adam that's why I call it the similitude of Adam's transgression so there's not a similitude Romans 5 so there's a pattern sin the Adam kind of sin of refusing to be who God made him to be refusing to worship God which is the Greek word hamartia to miss the mark to fall short of the mark what is that Mark what is the view what is the context what is God after man worshipping him man man as his own man having God as his God are you following so that is the C sin not because we are trying to say every other thing is okay which can happen if not taught properly because look like every that thing you are doing is okay that is bad no because that also will hurt one another and say God my sins have forgiven but now police have arrested you it does not match now but you are hurting people with your actions so God cares about that I don't think the mother that the baby is pooping on the body is so happy that's why the mother can't wait for the baby to grow up out of that stage that we accommodate does not mean we are prove it so God knows our frame that we are dust so he pities us because of how he made man he knows man is frail man can shock and surprise himself man can give in to wrong impulses however what man should not give into is rejecting the Creator is refusing to be who the Creator made him to be now that is the call are you following and that and once people say we read that Romans 5 that people sinned but he said the difference was that that sinned after of Adam's transgression so those that sin after this imago so there's now a pattern because as a first man he has now created a pattern not that he's making other people sin so what people are doing is because of a choice that somebody I have created a new road and show that there are possibilities like this so we can also go against God so they are going again so there's now an option there's now a route a road that was never supposed to be explored can now be explored so it's a pattern that's the only place you can bring him in and that's the place now Paul's explanation of Adam was more in his vocation which is where we see that sin is failure to be genuine human being failure of genuine humanness of reflecting God of being image bearers of shining for like a double angled mirror to reflect God into the word and in

turn reflect the praise of creation back to God failure to do that is sin that so it's not oh I have seen I get to go to hell no I have seen I get to not be God's man and I get to not be able to reflect God to the word once you get that you are not trying to always fly away because at the end of the end of all things that is still going to be the focus not we we're rob raising our hand and no one Talent two Talent five Talent say enter rain and Rule don't remove rain and Rule from your understanding of the Kingdom from your understanding of the end of all things not we just lifting up our hands worshipping God no the worship God there is that man was made to worship God not sing singing is just one expression of worship as much as giving is an expression of worship as much as Christian Living is also an expression of worship are you following so there are many expressions of worship man was made to worship God worship the Creator so the Creator didn't force the man that he made because he's a loving and a gracious God I will not force you I will not manipulate you no I give you this choice I want it to come from your heart I give that example some Wednesdays ago I say if we lock the door the doors in this Auditorium right now lock the doors lock all the windows and I said let no one go out through the door let no one go out through the door and I come back the next day and I meet everybody here you know I can't say you obeyed you know I can't say you obeyed because there was no freedom to disobey for choice to be Choice there must be a freedom to go contrary God knows that that for God's sake he wisdom is not just that is wise he himself is wisdom so there has to be freedom to disobey so God created man in such a manner that man can actually decide to not do what he's saying because that's the meaning of will but he expect man to be that free because that free comes at a price and that is the origin of what we call Free Will which part of the Fall that I am so if you don't explain proper people are not going to be say why is God now why am I not found in a new Heaven and Earth I want to use proper phrase normally we say why am I going to hell so I I don't want you to always have Heaven hell destinations let me use proper phrase why am I not found in God's family because David said I dwell in the house of God forever and ever why am I not dwelling in God's house why am I not dwelling in God's family why am I not living in God's new Heaven and Earth I told I have freedom to to go against to do what I like why is he now judging me for it no sir you don't have freedom you have will that freedom that we call it why we call it free will is again why I've never used that phrase because it will put you in trouble because there are philosophical ideas all philosophers have always argued on freedom man wants to be free look at how free they are they brought LGB that's how free man wants to be because when you start exploring free there's no end to it okay I want to behave like a cat I'm free doesn't mean that you are not mad I I identify as a cat now you can't be identifying as a cat now you're not a cat that's not that free reveals other things that maybe you are not okay upstairs so but you do have will now if you were free there would not be an accountability but are you free to choose anything you want to choose yes but is there a consequence yes that consequence is what is introduced is the reason why we must be careful how we emphasize Free Will and all through all the years of H 10 have never taught

free will because it's dangerous when you teach it as man has free will we understand what you are trying to and I agree that man has free will because I know what they mean the mean man has Choice the issue is when you jump Superior argument and more intelligent persons you can't explain what you are called because they are going to ask you all of these questions I just asked you now so if we are so free why am I now being punished again know the life pun judged because people don't know the meaning of what why am I being punished why am I being judged for exercising the the freedom God gave me well I can choose whatever I like no you can't choosing whatever you like is how people used to be stupid and suffer it's like a child say why can't I play on the highway we say no vles are on the highway say I can be free he don't die don't die be careful I express you go you just it doesn't matter I'm free I'm free I'm free triler don't crush your head because that's not free so where you have choice but not mean to go and be playing on the highway that's what God Said to man so God has love and as judge his judge judge is not a negative word it's only when people let's introduce a judge see there are Concepts that destroys understanding people he God is a god of judgment Justice we enter into the holies of holies we are about to die there is all the reason for that because in Sacred Space there's a reason why there is all trepidation because you are in the intersection between Heaven and Earth you are God's presence is dwelling with you there's a sense in all of that but is handling the holy way is knowing that God is Everlasting is big big big allow all those wonderful songs that we shouldn't sing you are big big all those kind of motivational songs that looks like gospel song hype God true understand that so it will be a privilege for that God to dwell in you and with you that's all the bers are communicating with those kind of language not that is's not your father that's what they want you to see so that you understand fellowship and relationship better are we good right back to what I was saying what was I saying before that example what the point I know I was talking about freedom I was giving an example judgment thank you thank you thank you people don't know you will live long you are really a leader all right pay attention to details I was talking about judgment I know I'm talking about freedom but I was on Jud I was to give you an example of Judge now people have a wrong idea of Judge so when they hear judgement Justice they feel like we're about to die he's killing people so let's introduce the judge in the Bible our judge the judge is called he does not impute sin now look at the judge you are coming to meet so that you see if these pictures make you scared the judge the way God is explaining scripture as a God who does not impu so you are in a law Court the judge Lord you know where our lawyers here lawyers raise your hand so that you understand you know say my Lord my Lord that my Lord that judge that is going to Knack his and say guilty not guilty that will make look evil forgetting that the you see the picture it's supposed to be Equity we have forgotten it that one now because it's Bible is God it has to be scary and spooky oh the violent God oh the killer God no mural like our God sorry all right no killer like our God the great assassinator so entering the judge he is called he does not impute sin he is called longsuffering he is called merciful and gracious he is called kind he is called

ad vate this is the judge that wants to judge your matter would you be happy that he wants to judge your matter we have not done no then he is called there is forgiveness of sin with him that's how people fear Him they can't that judge ah always forgive people that's the judge you are going to me is that how they used to fear in the natur when you hear that there was a case so one one government organization was troubling my company and my the lawyer said that as she was happy that that judge favored us it was really on our matter that's an amazing news that's good because if it was another kind of Judge now there's some kind of Judge that likes all his favor government because you cannot win government however that one see that's how be that one that we got that day was the one that how a judge should be she about do the right thing say even when they were trying to be Sil they need to pay us you say I thought are they the ones that get are you don't you have your own lawyers why should they now pay you for the whole issue you pay your own self now don't you know where government get their money I mean the issue was handled very well everybody was happy nice judge nice judge but that's how every judge should be they should not be behind say give me the vibe let the let people not see it put it here is in the hand okay you come and be faking election results so announcing what does not follow so the point we are making is this when we talk about Judge judgment Justice it should not be scary pictures because when we say a judge what is the judge judging so God in his Justice he fors things so he told man in the day you eat of it you shall surely die so he because this our this God the normal omnis everybody know omnipotent omniscient sence I mean you know all of those he forns things he can and everything God for knows does not mean he predestinated I've explained that first Samuel chapter 23 David said with the men of ker deliver me into s's hand the Lord said yes we saw come to killer k e i l a h forgive the pronuncation I'm not Hebrew we saw come here said yes with the men of K delivered me into s's hand God said yes David packed his load and left is that not common sense so it did not happened so that means god failed no that's how wonderful people sound that is that God for that God tell you something does not mean that he's making it happen it does not mean he's performing simply giving you outcomes that's why I like using the word possibilities outcomes because if you ve away from the road you won't see to say I was giv a prophetic word I always tell you follow the leading of the spirit those are possibilities those are outcomes but I know what God said to me but don't you also know what God told you to do didn't you know how you f like do why not follow that all the way so he in his wisdom in his Justice he has told man please don't go this route in the day of it you shall not I am going to kill you notice the difference the day you eat of it you shall surely die so death will come in you are going to bring something else into creation that I not put into creation because you are turning creation into something else so what is death the absence of Life what is Darkness the absence of light are you following so you are going to bring something because you are going to be absent from what I told you to have so if man rejects life he now has death so what was the sin rejecting life rejecting to live as God's man and function as God's man which we have called identity and vocation Hallelujah that

is the mark that sin is falling short of did you get it that is the mark so so to suggest that Adam was the only man who ever became a sinner by sinning and that all men sin today because they are sinners because of Adam is on scriptural you don't even have a Bible reference for Romans 5:12 is the only reference you can find and it doesn't explain that except we are doing proof texting or forcing the text to say what is in our imagination verse 12 verse 14 I'm trying to force Psalm 51 saying David said in my mother's womb to me only two text of scripture and used to build a doctrine that absolute that Torah that Universal that binding it's laziness are you with me it's laziness it's laziness it's laziness so just this is just for to be more Torah there are the very first time the word sin was mentioned in Genesis Genesis 4:7 remember not heing to God's word not obeying God's command God commanded man God told man to do something not moral examination not moral examination God told man to be something so not obeying God's word not wanting to follow God not wanting to live the way God wants man to live not wanting to be God's man not obeying God's voice disobeying going against what God said man should be and do are you following all right so Genesis 4:7 that word sin is used there and notice when it was first applied in the Bible it's used to describe the action of a man it's not Adam that they are mentioned Genesis 4:7 if thou doest well shall thou not be accepted thou doest not well seeing light at the door and unto thee shall be his desire and shall rule over him so the word seen in the Hebrew word there is the word chat c h a t a h the verb form of the word chatter is still the same like the Greek H is to miss to fall short to forfeit to lack to be absent now some refer of that word uh used in Genesis 4 and verse 7 now this is just an aside to add to we can conclude without saying all the things that I'm saying but why am I saying so that you see how sin was even used after Adam nobody's nobody was blaming Adam they were seeing their individual actions people's actions people were held responsible for their actions even God holding King didn't hold King accountable because of Adam he was saying King what have you done what have not not what did your father do that's Bible study not what Genesis 20 and verse 6 Genesis 20 and verse 6 and God said unto him in a dream y I know that thou did this in the integrity of thy heart for I also with tell the from sinning against me I also withheld thee from sinning against me therefore suffered I did not to touch her so that was an action of abim so he put sin as an action so a lack or something is missing or something is absent so that's how the Hebrew explains him that there is a lack something is missing so the word chat c h a t a h is from another word called chat c h a t a and that's where you read Genesis 20:6 from the verb that the noun is gotten from I've told you before nouns get their meanings from the verb form so any in life anything cannot Define just find the verb form you will get the definition and the now form is always the state or the state of it AB all right so that word chatter itself was in Genesis 4:7 I introduced in Genesis 18:20 for Sodom and Gomorrah the Lord said because the Cry of Sodom is great and because their sin is very Grievous and because Adam have sin for them AB check check is there Adam is there Adam in Genesis 18 because of what Adam did to Sodom okay because they okay they are sin Genesis 31:36 and Jacob was rough and and

a child with laan and Jacob answered and said Laban what is my trespass trespass P to sidestep a principle have I gone against our agreement because there was an agreement that's why he had left laan's house what is my trespass then he changes the word what is my sin they are synonymous stms iniquity trespass transgression Disobedience iniquity trespass transgression Disobedience sin they all synonymous words five words used to explain sin Genesis to Malachi and other forms of it are you have done wickedly you have done wickedness all those other phrases there are lesser versions of it but these five are the core used and every time they were used again I'm just trying to be tooro so that no time was used for Adam from Genesis to Malachi all of a sudden Adam made me leave him alone understand things will be Beyond Adam is that okay I'm trying to break it in the mind so when it breaks you even you will have Liberty leave Adam alone be responsible for your actions it's notam that you that beened drawn away of your own loss it's you it's you it's you it's not Adam so what is Genesis 31 and say what is my sin what what action have I that cannot be what did Adam do what what is my sin what is Adam do what is my action what what have I done wrong Genesis 50 and verse 17 so shall you say unto Joseph now remember Brothers of Joseph were lying their father had died so they quickly Forge the letter they know Jacob's signature they Forge the letter and they use Jacob signature to put it at the end then they ran and said Joseph I know you say you have forgiven us but before daddy died he wrote this letter take there are still C he wrote this letter that you should forgive them the trespass forgive the trespass of your Breeden and their sin for they did unto you evil and now we pray the forgive the trespass of the Servants of the god of thy father and Joseph WEP when they spake unto him and his beden also went and Fe and said fear not for am I in the place of God but as for you you not evil against me but God meant it for good now I told you these are statements from hindsight when Joseph was going through the issue is not you thought it for good go me you thought it for evil but God meant it for good you can only say that now by looking back and I T you that God is a god of Providence where is God in the silence and delay right some good stuff yeah so say forgive us so they knew the didn't say forgive us of what Adam made us do Joseph it was Adam that made us do these things to you are you seeing it leave Adam alone Adam is not the reason why you are doing anything that you are doing only Adam is responsible for as the first man is the reason why you have a body that can die simple and because but Adam only also had a function as the first man because of pattern so the others can take his kind of action but everybody's everybody's presented the same offer that Adam was presented so you can't be blaming Even Adam will tell you not be me oh talk for yourself because what was offered to me has been offered to you did you accept it and all those who accepted it were with the Lord before the de of Jesus because what sin brought into the world because that man was like a king a priest a prophet an or of a s ruler produce death what is that death and we have had to explain to different in different ways since the fall God has been trying to revive what the original goal of Eden which is what to live with his Divine and Human family to live with his unseen and seen family together where is he

going to live with them on the earth thank you I told you the Earth so when we say the way you will understand I've given you Earth can be used for sand can be used for the body can be used for the physical atmosphere Earth can be used for the world w r o l d and that world when Earth is used as the world is what the bi writers use when they say heaven is on the Earth because that there is the world so they don't mean planet Earth uranium Uranus so Jupiter whether is or not anymore they tell us we agree where did we go up to see any Planet so just be we sent somebody up they verifi they saw it scientist but in the Bible all of those planetary systems that they are telling you are all what the Bible calls it just know that's why no way is assess by digging into the ground I've always told they don't used to have you ever seen planes wanting to go up you go through sand say be digging digging digging so that inside there now hole you not fall off you're in America doesn't work that way you always go out through up that's why the asent thought the Earth was flat leave their signs alone AB understand what they were communicating all right so God had told Adam and Eve remember the Mandate the vocation fruitful multiply oh my God work with me Genesis 1:26 is that the Mark we have emphasiz we are still there we saying Jesus died for my sin so you have seen what sin is we have also talked around what dying could be we use three phrases Redemption I will leave it did not stick okay thank God I'm going to mention that God bless you God had told Adam to be fruitful and multiply that means they should spread his good rule over all the planet so the GU of Eden was not all the Earth I've corrected that notion for the last six years now was a tiny portion God wanted to start from somewhere so he started from a spot and said spread the Garden of Eden everywhere that's the fruitful and multipli it's more than just biology of borning children because if you have a child that is not in your image and likeness is not serving it's not the same as you you have failed because man is the image and represent God so what is the fruitfulness there when an a mango tree produces Apple so if you are light you should produce light so the fruitfulness is not just we lack everything to be biology no the idea is fruitful we need more images of God we need more of more of God's men on the earth that's why you shouldn't give bir to a children any child you will not train properly just say p go s go s no you're an irresponsible parent that's why you should have born only one so that you can focus now you are born 12 go be responsible J of course we know that again for let nobody laugh at any parent we understand that it can be a bit difficult tricky and based on nobody really have great manuals they are working with maybe their own parents were also not wonderful so they didn't know any better so must always give of the D if not you will become a father too you will soon make your own mistakes Cycles always come around especially when you speak evil of people without knowing what they were open to because they didn't do it from their wickedness those that do their wickedness no they will stand before God however people don't have such great examples like that so maybe that's why they didn't do any better now you that have God's word culturing you allow God's word culture you and be a better parent and know how to train up a child in the way that they should go AB all right so the history of mankind has been a history of failure that's

simply what I'm trying to tell you so God told Adam and Eve fruitful multiply spread my good rule over the Earth God wanted the whole earth to be a place where Heaven and Earth met AB where Humanity could enjoy the Divine and where the Divine could enjoy human the sin and the Unseen are mingling together walking together reconcilable heaven and together in Christ Ephesians 1 10 and 11 things that are in heaven on the earth that's the kingdom of God the reign of God the Reign and Rule of God on the earth and that's how God made man that's why I said let them have dominion so man is going to be my agency in which I spread my good Reign and rule in this my good creation that I have created my re and my so the sin and the Garden of Eden was the very first concept of the of a uh of a temple a tabernacle a garden a mountain a dwelling a gathering so God put man there and said okay let's spread this everywhere because God does not do uh let's force it no because there's a Harmony a relationship here so keep producing children and keep spreading all over this Earth and keep pushing this Garden so that the whole earth will be the G this is simple enough so we started just like this building now this where this building is located so we now say let's spread and cover for example we actually the first people to everybody this Zone have been taking clue from us in their building because that's what open this area you did not know I told you so open the whole area so man will be spreading so we be spreading the presence of God so take this everywhere and that was the idea fruitful multiply the word multiply is increase replenish is the word where we say the the glory of God covers like the water covers the sea we also explained that already in this series water covering the sea AB be dominion over dark is covering total is a picture of dominion picture of Kingdom so cover everywhere that's what I want the sin so in the garden like we said what is in a garden supernatural beings were there man was there God was there dwelling together just like the Kings which is the concept of walking from home the king's Palace is in his house the king's office is in his house he reigns and leaves from his house he walks from home come on now at least think even if you don't know anything at least you know about Palace is here you see that's where everything is done that's where it lives that's how the setup is done so that was God's headquarter God was also there living with his creation but yet the creation had a test not let it just be automatically I told you God test people show that you really want me allow me use it as a test now by virtue of insight we can now call it a test so if that troubles you remove the word test because of your where your understanding is coming from what God told man people hate the word test when they he test they he tempt when they he test they lead me into evil AB God lead people to do wrong it's like um telling a sister undress in his front every time you see him just be undressing his front want to test him that's not test the person seeing plus the person that they are using are all mad that is leading people to that's not test you're not that's not how to test anybody that's leading into sin that's what God does not do test is to reveal what is there somebody say I can drive you put your children inside the car and say Drive I first drive here let see if you don't like your family just put them put your children in front say drive now they TR CR all of them you didn't even test if you can drive so the test

is to reveal what is there that's say sir I'm starting to be a medical doctor we don't need any exam now that's why you say I think to try to assess the kidney we should tear from the head is that Ching your hand down say I'm not seeing the shine light shine light you have fall touch inside human have because they don't need to test you I I you can see my heart I want to be a doctor no you still have to write exams you still have to be tested so that they are sure you really say sir you know we know what you taught us you don't have to ask us question no let me be sure you know what I said yeah that's so test are not evil they are not negative don't demonize test but don't tempt people they say I set trap of my before you are a witch is witch's wizard that set trap stop setting trap for people I think they have they have done what you wanted them to do congratulations you are a prophet what you said has come to pass Etc don't do like that God does not do like that either so that was a time of probation what man believes and come into in the garden is what will spread everywhere but instead death is what now came out which is where I'm trying to show you now the meaning of the word death used by the biblical writers and why Jesus had to die not had to leave he had to die he must die why he had to die because death has come into and his death is not funny Humanity sin so Humanity was expelled so instead of being what I made you to be king priest prophet of this sacred ground that is the vocation dress and keep it for those of you around W I told you dress and keep keep it that spread this thing that's the same that Genesis 2 dress and keep it is the same thing as Genesis 26-28 fruitful multiply repl subdue is the same they mean the same thing that's what the dress and keep it there is serve my purposes that is a vocation be my man that will be in obeying in guesting that's why they use the word Tri that's why you know that man is to have something inside of him have me inside of you have life inside of you then you can leave because it's inside out not outside in the principle of anything working inside out AB if it's inside then it can be found outside a bottle water for example that around you if you open it water can come out because there's water inside if there's no water inside nothing will come out God had to put it inside so let me be inside of you let me be your God let me be your father let me be your life and the way you live let me be the center of your living and man said I am okay I don't do bad things morality I know the good I can avoid evil on my own and with such a knowledge that's why morality is not the gospel I know the good I can avoid evil on my own I don't need God why is God saying it is not in man to direct himself I can direct myself and Man's first action was to choose the devil as his God by serving the devil's agenda which is serving his own self selfish agenda did God really say because he's going against what God Said So humanity is cast out of the garden cast out of God's presence Eden is shut down as it where it look like then project is shut down but God is a god of mercy and Grace he will always Kickstart his plan so and what when that happened gen of the we saw the consequences of man's action not God performing an action said the ground is costed something has happened to the earth now something has happened to the world the world is not the way I made it to be you have brought in a strange element into the work you have affected my artwork you have stained the painting we have to

restore the painting we have to restore the Masterpiece we have to fix the issue but I still want the the painting are you following I still want that my vision I still want that my agenda but now there is now an enemy the Divine enemy The Serpent he too has been cast down into the Earth and based on he has been cing to the Earth there a place where death rains where life is not Everlasting he becomes the lord of the dead he has claim to every human being who lives be based on their choosing that kind of action where we now say oh Satan held onto the power of death Hebrews chapter 2 verse 14 for as par of Flesh and Blood he also himself took part of the same that through death he might destroy him that had the power of death so Satan did not bring sin or brought into the world but he held on to what Adam's Choice brought into the world remember I told remove person bring W because that is the first so something can now be found I will explain if the first person to build in a street the first person to build in a street planted trees on the main road would everybody see it everybody else coming to that street will they see the trees he planted on the main road they will see it because his actions can now be seen by all does not mean that we can't do something about it does not mean that we also have to uh leave in his front I Love My Fake example somebody does something and is the first others will surely see it so the see what we are now seeing what has happened because of what somebody did but like we said it's not that he made me have a choice I still have my own choice everybody has their own choice so that death and is is now in the world like I give you the Fallout of chapter 3 chapter 6 chapter 11 The Fallout and in the Fallout of chapter three we see death and inst strangle I've said that again and again by now you used to death and alienation is what happens in the Genesis Theory Rebellion because it's not Adam sin it's Humanity sin because that's why Jesus did not come after Adam sined the problem kept increasing and God said no no no we can't take this any further let's do something because day by day the issue is getting worse day by day man is failing to Kickstart My Kingdom on the earth nobody is able to restore the penting I will restore my penting myself so Romans 623 say the wages of sin is death so the wages the outcome penalty of sin is now death so sin then death came in so what Adam was seeing was se but what was coming was death is that not what God for warned him about the day you eat of it you shall surely die walk with me now so death has come in you have turned the creation to another creation I Told You So that action brought another option that creation can be anti his creator so Humanity s Humanity was expelled from God's presence Eden is shut down the Divine enemy The Serpent has been cast down to the ground he will feed on Dust Genesis CH is where I am if you are not familiar with it just bury your head inside Genesis 3 from God's presence to the now death is raining life where death is raining life is not Everlasting so there is now a contradiction to the Earth there's now a place called hell that God did not make there has to be a place of the Dead a place so the serpent was cast into the ground and I've told you that into the Earth there is why some of the man Prophet called sh the Earth he called uh the word is also used to explain hell because when they say the Earth they mean into the earth into the Earth is not to dig sand like you're looking for water it's just explanation

above the earth the earth under the Earth is simply to explain away away from God's reality so there is now a plane outside God's heaven and earth and Satan is now Lord of it because he will because he was the one who Adam Yi there to so he now lays claim to a particular loc location and using it to keep people in bondage now I'm trying my best to remove the Adam from my phrasing so let's go on and I will come back because the longer I stay on point one Adam cannot leave people's brain after the flood God repeated the goal of Eden to Noah we have Genesis chapter 6 chapter 7 chapter 8 God told Noah fruitful multiply always observe that fruitful multipli don't take my word for it let me show you Genesis 8 16 17 go forth of the Ark and thy wife and thy sons and thy son's wife with the bring forth with the every living thing that with the of All Flesh both of C every creeping that upon the Earth that it may breathe abundantly in the earth and be fruitful and multiply upon the fruitful and multiply upon the Earth you have the 2122 the Lord smelled a sweet ser and the Lord said in his heart I will not again I will not against Cur the ground anymore for man's sake for the man of man's heart is evil from his youth neither will I SM any more every living thing as I have done while the Earth remain SE time Harvest cold heat summer winter the N shall not see so you have that Genesis chapter 8 I don't get it chapter vers one and God bless Noah does that ring a be like genesis 128 and God blessed them and God said be fruitful and multiply the subd it and have dominion that's Genesis 128 Genesis 9 vers1 and God blessed Noah and his sons and said unto them be fruitful multiply replenish the earth does that look similar is that the same thing that was said to Adam thank you look at verse seven and you be fruitful multiply bring forth abundantly in the and there so this same language After the flood God repeated his goal of Eden the goal of Eden to no and his family fruitful multiply so it was like a doover Humanity has so let's start all over but instead we have Humanity again rebelling rather than obey God spread the knowledge of the rule of God everywhere man is now building a tower so again the project cannot leave the ground because we have man building a tower to reach onto God trying to cover the Earth in darkness again so that project again is made with failure AB so what will God do whine cry no instead he calls Abraham chapter 12 he calls Abraham he said these people are trying to build a city no I will build a city for you go Abraham s a city make is God the other people were trying to build a city in chapter 11 they wanted to make a name for I will make your name great the opposite of the rebellion in chapter 11 so the dis inheritance of the Nations so it was met with failure again so God wouldn't have it so he mixed up their languages turn the Nations over to the Divine Council to rule as we have said disinherited the Nations but God started over with a new family Abraham and Sarah and he told them the same thing fruitful multiply I will make thee exceedingly fruitful and I will make nations of thee Kings shall come out of thee so the same thing he said to Abraham of this all the families of the earth be blessed blessed welcomed in original vocation multiply blessed remember how blessed has been used to speak of mandate vocation so Abraham descendant all of you help start this so there all the nations have gone astray now I'm going to to form a new nation from Abraham's Lo which is the origin of

Israel in the Bible now this new nation will now be a light to the Gentiles other nations will now be jealous and say we need to have your God as our God but instead so the sacred ground language now shifts to we now have Israel to now become an example of Eden a sacred ground that's why Moses uh David is crying and say sa has made me left leave the presence of God because of s left the presence of God he was calling Israel the presence of God I will now serve other gods not that I was going to worship Idol was like if I go to the other nations I'm going to worship I'm going to be in a place where it is not Holy Ground the same reason why NE after I got healed begged for sand because it's sacred ground concept these are things I taught some in unseen forces and the rest so Israel and when we taught that teaching on mountains of God Gathering understanding the temple of God thought sacred place from Eden to the new Heaven and Earth so there the concept of God's Temple God's Tabernacle on the earth that's what I'm repeating again so that was God's plan I will start with two men Abraham and S who on their own can't have a child and when they have a child it will be obvious that give them power to burn that piing I will now what was the praise about Abraham for I know that Abraham will command his children after my way that's what God is bragging about Abraham for Abraham is my friend so Abraham is a man after my purposes and Abraham did excellently well and it looked like oh the plan is on the way Isaac Jacob now we have Israel itself Jacob name has turned to Israel we have the nation but again it is met again with failure that has been the story of humanity has been met with failure failure upon failure so God has to bring Israel out of Egypt then he brings them to SI they get the law finally to the promised land but Israel fails keep worshipping Idols becoming like the other nations all around them instead of being an example to the Nations they want to be like the Nations they reject God as king they said give us a king they want to be like the Nations instead of making the Nations be like them so again it is met with failure upon failure God raises up David Solomon and the rest Israel follows turn their back on God finally they expelled from the land it becomes again another pattern like the G of Eden Exile Exile so all the Minor Prophets as we call them now began to prophesy of Israel will return back and daring they begin to teach the forgiveness of sin they begin to teach the mercy and the reconciliation which is the same thing that yet of Jesus will now explain remember see it as a world project those who Miss Wednesdays you will always be confused in what I'm saying because you are hearing one-sided teaching every Sunday you are not hearing everything these things are things I've said nothing is confusing what I'm saying it's only confusing because you don't have all the full picture so I beg you listen to the whole teaching again is that okay so that I wish he was too fast no I'm not fast I'm not fast I'm even slow I've said that's why I have to say it again and again again and again again and again there's no point I'm have not said before I'm simply bringing everything together because it is not me me me me me and I see the whole world every time you see salvation what Jesus did as just me me me you won't see the whole world when you see that he died for the whole world say if it was only me will come now lie that is motivational gospel if it was only you will not die anything he didn't die for

only you stop I know you're trying to make yourself special and important but it's not only you he died for it those things put us in another trouble where you want it to sound like that is all Humanity the people you don't like the other religions or philosophies that exist it died for everybody humanity is not a Christian Jesus it's a Jesus of the whole world is that those who have believed in him because of the phrasing of Christian call themselves Christians and it's okay there's nothing wrong with whether you say disciple Christian is okay so the human story has been met with from failure God's plan to dwell on the earth remember what did God want on the earth a family and a kingdom so see it as that's what has always been met with failure that's always what has been met with failure and that failure could not be left like that so what will God do deal with that failure die to handle that failure that is dying for our sin so so that finally his kingdom can come on the earth and there will be never an obstruction that it has been met with failure again God's kingdom has failed on the earth no it has come it has come this one cannot be met with failure because if Adam had believed in the garden every other person that is to come would have continued like this spreading God's Reign and Rule everywhere so what Adam or Humanity was supposed to be in the garden is what we now are because of what Jesus has done by removing that separation that alienation that thing that always makes us feel to be what God wants us to be that is why he dies that power that keeps man from being what man is made to be that power because it is a power no longer just an idea not just a behavioral modification because why is this always being met with failure so that is what he deals with so God did a man who was more than a man someone who could resist temptation who could always obey who was fit for kingship an Israelite so that just like Israel through Abraham called the nations of the earth through him shall the families of the earth be blessed so Israel's representative will now be the whole world representative this will be a substitute for Israel and a substitute for all mankind so Jew and can come in because of him so he will be a true Jew and he will be a true human for as much part of flesh and blood so he a true human but he's also from the stock of Abraham and David so that he will be a true Israelite why Israel that's why I said if you sleep he died for me why is there a lot of Israel in the Bible you won't understand why Israel is mentioned which is what I'm showing you so God cannot throw away Israel because Israel is part of how God tried to start his kingdom and God does not abandon projects so what did he do in Jesus he brought what he was trying to do with Israel what he was trying to do with the first men he brought all of them together in Christ Jesus that is the reconciliation Hallelujah so finally that plan that has been met with failure upon failure upon failure upon failure has now come to pass finally though it's not finally for the whole world it's finally for all those who believe it now but at the end of all things it will be finally for the whole world that God's kingdom God's family God's home God's dwelling is with mankind are you with me all right again another thing the Reformation did was make us see Rebellion make us see sin only from Genes 3 so Genesis 6 Genesis 11 and all the subsequent failures that are just like 3 6 11 failure was not taught Paul's earliest interpreters the different alexandrian school all those different

theological schools some 400 years after Paul began to buy into the different philosophies and coining different teachings from there different Church crat that didn't mirror what the apostles thought came and which is what has put us in all this trouble that we are in today I know some of you care about it some of you don't care however I need to say it so that you understand where I'm coming from so the challenge has in this once you have one devil you are not reading Bible once you have one reason why humanity is messed up that's the normal everyday man view of Bible there's only one devil we corrected that in unseen forces the same people who teach that say one third okay one third de Devils what are they all now doing nothing they just I mean how are you happy with that kind of OBO what are they doing what is one doing since you say one of the fell so what are they now doing at least the wrong do interation half one third of the Angels fell so how what are they now doing why has this so spread the light Darkness has spread how did Darkness spread Adam is long dead how is this spreading over the if other human beings are not involved that's why I'm say that kind of interpretation affects understanding because you have Adam why only the apostles could not spread the gospel all over the Earth but you have Adam spreading Darkness all over the so the man powerful and you see that there are no scriptures for it but we want it to be true but what you have scriptures for has always been God trying to Kickstart his his plan what he wanted on the earth his family and his kingdom you it repeated again and again that one we don't want to study because it's harder theas one is to say he died for me he love me I'm going to heaven It's a lazy way of interpreting because we have to throw away many Bible verses so I now ask the person that is teaching me what does this mean when we get to heaven we ask Paul what does this mean when we get to we ask Peter no because we are jumping so we have to remove Abraham to John the Baptist for that theology to be correct Adam sinned man fell Jesus came we have just removed Abraham to John the Baptist for ology to be correct and this look at the big portion they have in the Bible that you have removed theology is correct look at what you have removed is not big enough how can you remove this from your understanding and you expect your understanding to be correct 12 this is Matthew you just remove it then you have Jesus he say I understand the Bible after Genesis 11 I have Matthew 1 ah F I knew you will get it at least let's get some that does not make you will miss a lot of pictures now because why is Israel why is God say why does the details of the Covenant a New Covenant I will make with the house of Jacob are you are you Israel but yet that new is used to explain you and I where does that all come in you will be lying you'll be dodging Bible verses because anything that is true for isra is true for me how how how is it true that's in the unification the reconciliation that Israel will have a substitute mankind will have a substitute and we see that in Jesus the perfect man and imp peret Jew why Jew say because God just like the Israelite they are why did the nation even start in the first place it was to call the other nations to jealousy so that they say we want what Israel have for there is no other Nation like Israel look at what RAB the pro said that God has saved now for your God is not like our for we saw what he did and your nation she was talking

from what she have seen that was what Israel was to be a lie to the Gentiles and that's what they failed in which is Genesis 19 vocation Genesis 196 Kingdom I Genesis Exodus 196 Kingdom of priest and King Israel was to be just like Adam just like Humanity King priest and Prophet now to the Nations clear so that was what was met with failure upon failure so what did God do God needed a man who was more than a man someone who could resist temptation but yet still a man who would always obey who was fit for kingship who could was an Israelite and also be truly man so that he can die to reverse the cost of death by dying and then Rising Again by his own power now all of that could only happen in one way all of that can only happen in one way if God does it himself only the artist can restore his artwork perfectly other since other artists have failed to restore the artwork the artist that painted it let's now leave it for him so God himself now say I know what I would do just like Tano said I would do it myself even though he don't fail I would do it myself so God comes T all of you know how Mar movies they that because that's how literature is when you are writing so will make sense there have to be a story line the Bible is like that there a story line so we have SE failure failure say his own arm will bring Salvation okay everything that they prophesied that God will do it by himself that is now the mesiah God has now started to do it by himself Hallelujah God himself will become a man he will fulfill his own plan as a man for all of humanity for all Israel for all humanity and restore Eden only when humans are forgiving sin has been removed through resurrection power can even them be a reality but the issue is there was a problem if the plan is discovered there's no way he will die there's no way he will rise so God have to hide his wisdom in plain sight that's why at the end of day Satan felt duped like how I know iif the L of Glory because if Jesus was just that everywhere he went I'm going to Satan will never allowed him to die now so Satan was duped thinking he was wise thinking he was wise God first Corinthians 2:7 and 8 we speak the hidden wisdom of God in a mystery which God predestined before the ages for our Glory which none of the rulers of this age knew for had they known they will not have crfi of Glory why is he mentioning rulers why is he mentioning Powers so God has enemies now human and divine the human part we see it represented in pontious Pilot the Jewish leaders the human authorities that oppose God's kingdom the powers that's why Jesus before the cross now is the hour of darkness and in the hour of Darkness we saw human and divine beings involved just as creation is human and div just as the first fall just as every sin chapter three chapter 6 chapter 3 chapter 4 chap all the sin have always been there's a supernatural influence of sin that's why I cannot just say I forgive humanity and that is it there has to be something else because there is an unseen force behind this now there's a cooperation a collabo they say that collabo there's now of sin and unseen forces in sin iniquity and death Hallelujah so the mesiah has to be cryptic has to hide it in plain sight Allelujah has to hide it in plain sight can't make it obvious God wouldn't reveal his hand to anyone whether human Divine so so that the mesiah accomplish his purpose so it had to be hidden but finally in what Jesus has done we can now see clearly what he did and this is a what we say he's outwitting evil before he will I mean almost the last days

of his ministry began to talk about oh I'm going to die and Peter and the you cannot die and because he wanted to die now just keep this we said this before in some of our teaching S Forces the place where Jesus made the official announcement was so that Satan would be interested in him it was in a place that was called the headquarter all demonic activities in Israel he had come to Capon Philip area and he said who do men say the of man is some say some say some say Matthew chapter 16 then he say who do you say that I am Peter said thou are the Christ of the Living God Flesh and Blood have not you but my Father which is in heaven now that place he's saying it is headquarter of all demonic activities the place he chose is very significant that is the hisory Genesis chapter 6 Mount Hermon where the sons of God Daughters of men issue happened historically as it were he picks his spot right that was the same place that was a p to train of Israel entering the promised land that the way ofon Edon all those things that think are not connected that's why I'm trying to tell you that b is intelligent and the Bible have sense so the man has to be a true Israelite and a true human don't rush it out everything that it looks like I'm ring I'm going to say it again because we are weaving a biblical story so is within that connection so and what was Jesus number one walk on the earth unlike all the prophets before him none casted out devils and every time they say have you come to destroy us before the time but he was confusing them so they thought he sometimes they think he one think is he the one are you sure this is it are you sure when I saw that he have died we said he's not the one that's why we could kill him they didn't know that they had been duped that outting evil the wisdom of discretion it's not everything that you put on social media are you there so he told them there it's like saying come and get me and that's where in that Bashan the all of them said okay you are the Christ okay the rock you build your church all of that Satan was more interested and that's why you know from that moment that there was an intensity to die because if you are really this we have to Snuff the life out of you but that was the way the plan will come to pass because he will have to go to the place that has now uh let's put it this way so that I don't enter into bigger trouble in explanation there's the idea of the scape goat all of you know that in the day of atonement the there were two goats one they will lay hands on the head now people have lied over the years and said that one was the one that was killed you have Leviticus 16 you don't need to lie leus 16 is there that one was not killed the one that sin was confessed on the head is called escap go that was the one that was sent away if they kill it what is God using sin to do no it was driven away away from Israel away from sacred ground out of the garden because sin does not belong to God take it away so if Jesus would die he have to die outside the camp Hebrews now said Jesus died outside Jerusalem of course he know he died in Jerusalem but what he was simply saying it was that his death is going to be away from Israel it's going to be away from Sac ground is speaking supernaturally giving the mean not historically because Jesus died in Israel so behold the lamp of God that take away the sins of the whole world so this is the reason why he goes to hell because sin does not belong to God sin belongs to The Under World sin belongs under the Earth sin belongs a away sin is with Satan so he will

have to go confront so just like the capap go is led a way to the Wilderness the Lord will be led into the dry ground where no water is the region of death he descended into lower parts of that's where like I said you don't need to understand it is okay if you don't understand it just have an idea because I need that idea to be there in your head one way or the other we call back and re resolve the whole issue the issue what we are emphasizing as we close is this all the things you think are not connected in the Bible are connected all those sto this what I'm saying all those events you said it doesn't make any sense this place 33 years why is it name mentioned here is not connected no they are telling a story oh they are all interconnected because they communicate God's plan and purpose for us hallelujah so in Jesus we now see what God always intended to happen because once you have it [Music] as people see uh if people don't believe in Jesus they get to go to hell no change it as much as you have the hell destination change it to if people don't believe in Jesus they get to not be God's man they get to not be inside the house they get to stay outside the house they get to stay outside the family they get to not live in God's new Heaven and Earth you have more biblical references for that and the Bible tells that story more how are people alive right now and they are not dead and yet the Bible say they are dead in their sins but they are physically alive life they not in hell now they but they are dead in their sin that means they are not God's man once the gospel is not communicated properly it gives a wrong hope a wrong expectation you feel like I'm just wasting my time let's me I just can't wait to die no I can't wait to live I can't wait to live as God's man I can't wait to there are the things me and God can do are boundless the things me and God can do on this Earth are boundless and that's where that's the focus of this teaching amen what is God doing not salvation from this word but Salvation of this world God needs to rescue his creation rescue his world from the Contra addiction and how messed up creation has been so since the creation has become so fallen and rotten he will restore his creation which is the meaning of a new creation and how will he do it by removing all the rotten part of the creation so that he will now have a new creation that is the dying for sin so he would have to confront sin head on he will have to take sin away and go and meet sin personally and deal with the whole person of sin that is found with man's Disobedience and Rebellion confront that confront the PW of Darkness Comfort all of the resistance that has made his kingdom not to start on the earth that is the dying for our sins Hallelujah not a pacifying and Angry God because two one is killed one is sin is confessed upon the one that sin is confessed upon is escape goat and that's the one John the Baptist to explain what Jesus is going to do to sin he will take sin away because sin does not belong in God's Garden sin does not belong in God's family Hallelujah I am now God's man I can now live as God's man I told you this teaching we destroy that heaven and hell because it's Heaven and Earth not Heaven and Hell there are more refence for heaven and earth leave heaven and hell because heaven and earth together is the plan of Heaven hell is the contradiction hell is the thing that he did not want he did not need that should not be it can be the focus so it's not I get to go to heaven or I don't go to hell no I get to be God's man I get to be the

image and likeness of God I get to have God live in me dwell in me dwell with me I get to walk with God on a personal level I get to have God ask my father ask my God Ask My All In All and together we have boundless possibilities on this Earth and I couldn't have been this any other way not I can't wait to die if not death is our great savior I can't just wait to die to be with God no to be with God no salvation is where he's with me he gets to be with me now because he has removed the demarcation he has removed the separation he has removed the Elation he gets to be with me if I have to wait again for death and I'm not telling a gospel I'm telling a bad news because I still have to no he gets be with me now the separation the alienation has been taken away I have his life I have his spirit I have been restored as a true imager I can I have his life I can image him into the world that is the new creation story that is the explanation of God's plan and purpose on the earth so why did you tell Humanity fa Humanity fa because a biblical story don't away Abraham and on Israel because they make the largest por of the Bible is made up of Abraham to John the Bap you want to remove and if you remove that you won't see what God was always doing because what Noah what all of these people were hearing was not we get to fly away we get to leave the Earth it was always about God's dwelling is with man always about doing something on the earth God so hatte the word no God so Lov the word that's why he dies so dying for our sins know say Pastor say it I've been saying it now and I'm still saying it the dying for our sins is to make creation what creation ought to be to remove the rotten part so you took poison or you took poison so what the death is is that he draws out the poisoning from you from you from you from you from you from I from all all of humanity so that you can now say there's something that's making me not leave that that's making you not leave you have socked it out of everybody he has taken away the sins of the whole world that is he died for my sins that's why it's not the end not just that he was raised so now I get to be what he intended man to be it doesn't look big anymore as we say now people don't even get wilded but they get wilded by a more foolish picture of going to heaven that has no work that has no effort because people are lazy and people just like oh we just sleeping oh we are just wearing quiet Rob raising hand because what is it going to heaven now what does that answer what does that solve give me explanation say we don't know and that's what is the greatest story told that's the goel story what you don't know we don't know what's going to happen or we just know we get to go go and do what go and be with the Lord but are we not with him here is he not with us here better still because the whole even the reason why the sacrifices and all are messed up because Israel don't know what they were doing they were just offering sacrifices Paul say those sacrific not take away sin he doesn't get that teaching by twisting by saying Moos the are do he gets that teaching from Jeremiah Isaiah because they all said why are you offering all the sacrifice that can take away sin so what was the sacrificial system for so that we get to go to God it's not in the levitical code what was the whole health and safety regulations for that it is not easy for God to dwell with you you have to prepare to meet your God and how everywhere has to be clean so that blood not the one that sin is confessed upon the one

that is killed the life is what God is after life is what God is after the life so I am meeting you because of Mercy that's all that was being communicated why was that practice use because there are a people coming from idolatrous background and these are the ways they understand [Music] things so what is the sacrifice going to teach why is Jesus dead now explained as a sacrifice why is he explained at this I've given you the Redemption Part where we talk about the slave market and I told you Redemption think of the slave market that's their world view when you he sacrifice think of Temple these are the imageries they used to explain the death of Jesus so with the whole cleansing so that he can be with us so that his dwelling can be with man and that's what he has done he has made us clean enough Hebrews say he has washed us with pure water we are now cleansed and pure for him to live in us that's why how dare you say to a Christian you are you are you are you are nothing you are not anything to God no that's someone who God has washed God is inside of him if God is comfortable to being a Believer we can't speak down on God's dwelling God's Temple Hallelujah so he died for our sin creation is rotting stinky I need to destroy creation no I need to remove what is making creation stinking rotting falling that is die for our sin what is resoration creation is now New Creation s couldn't you have used simple word no this one you can't twist this one that's why I use this phrasing because he does not lead to any confusion that is he died for our sin know that he he died so that now I get to go to everything go to go to go to leave the go to I get will be and I will dwell in the house of the Lord forever and ever I am now the man going I have his life I have his Spirit now and forever Hallelujah and now he does not yet appear what I am but I know when I see him I shall be like him which is what is remaining I put on immortality but it has happened will be a touch of having immortality now that's why God not all you have it it will be a torture because you are still sharing the word with Sinners sharing the word with Devils those defeated God they are still in the same place until the complete removal wheat and Tas should grow together until the end where he takes and that's why hell that people want to go to or don't want to go to is Cast Lake of Fire and everything is removed and that is the end of all things because what God intends is for man to dwell with him and that's the gospel good news grace mercy everybody's invited it is not your behavior that brings you in it is not your failure that keeps you out if you want to come in come in the way has been made open make Jesus your lord make him your savior he gets to transfer that's why I don't need to teach behavioral modification because if a man meets the Lord the Lord talks to him that's why say is it God that is talking to you the flesh cannot inherit the spirit no man under the re and Rule of the spirit of God goes that way so I now get to live with God I can easily follow the details of God's spirit that is a win-win Hallelujah and that's how we should live our lives that's how we should go into this week that's how we should go into every day that's how we should do all that we do realizing that nothing is hindering me the powers of Darkness the sin and unseen forces that have kept man back from being what God wanted to be have all been removed boundless possibilities are bound Hallelujah nothing could stop his resurrection nothing can stop me now from being what God intended

me to be amen so he died for my sins will reveal his love because why does he now have to take the poison that he did not why does he now have to suffer for the sins not the sin of Adam the of humanity that have messed up the world why will he because of his love so one of the things his death will reveal is his love one of the things his death will do is secure Redemption I have mentioned four things that his death has done for us hallelujah and that's where we draw the C this morning trust you learn something we said his death revealed his love his death paved the way for Redemption his death defeated Satan and his death created a covenant family that has a restored vocation of being true imagers said this four things and I've been consistent saying these four things Hallelujah the scene in chapter three The Fallout I repeat it again was death and Elation The Fallout of 6 was fullblown wickedness the the whole earth is corrupt Wicked Gen 6 corruption the whole earth the whole earth fullblown depravity and the origin of demonic attacks chapter 11 The Fallout is the abandonment of God in the Nations the origin of where God looks like God is not in the cultures of the day anymore is now look like the gods are the culture of the day because the rulers over Nations that were supposed to be placeholders just like those in the garden to point man to God have now chosen to usur that image and say worship us supernatural beings over Nations say over Nations Angels walk with man the supernatural being that God say should walk with man should oversee man's Affair help man overse man's affair is helping man not ruling man now chose to take the worship and we now see across the Nations a disinheritance God now has to start with his own Nation a nation that does not have a supernatural being over it other than Yahweh himself as his God T that so what happened the followers of chapter 11 this inheritance of the Nations the distress and wars in the Nations that Nations now exist without God that looks like God is a foreign element being brought in but no he created the whole world and that is the sin that he died for Hallelujah that is the sin that he died for that is the that he died for that is the sin that he died died for our sin sin that brought another kingdom of God's Kingdom on the earth now Satan's kingdom is also here he will need to undo Satan's kingdom destroy that power of Darkness that kingdom of darkness that hold of darkness which is called death so that creation can be turned away the world can be turned away from the Hostile forces to be what God wants them to be a new creation Hallelujah that is he died for our sins Hallelujah stand on your feet he died for our sins thank you Lord that's what we say AB thank you Lord remember the John 8 stand on your feet please go and S no more what is it the man is the woman is following him now now he say I'm the light of the world go and see no more what did he say say follow me that's the go and see no more but that's so creation man kind can follow him because sin is a failure to worship and follow God go and see no more that woman caught in the Heart Is Now worshiping and following God she gets to be all God to be that is what he has taken away that separation that hindrance that thing that is stopping you from being a child of God from loving God from being in the family of God that's why you can't that which is not gained by performance can't be lost by poor performance I get to be his family is not every time I disinherit you I inherit you you are my

son I you I accept you no I'm his son forever I'm his daughter forever because that thing that could stop me from being his family has been taken away Hallelujah that hindrance has been taken away so I can go and see no more I follow him John chapter 8 I have no longer failed in worshiping in following God in being God's man in living for God no I am now that man that worships God that serves God's purposes that lives for the glory of God I am now that man Hallelujah lift your hands and just pray in the Holy Ghost thank him
