

amen father we thank you this evening again we open our hearts your spirit and we trust that in this service the eyes of our understanding will be flooded with light we live here with a deep seeded understanding again of the work of Salvation the work of your spirit what you're doing in all the Earth again in this service we declare that the things that ought to be said will be said the things that ought to be spoken will be spoken things that ought to be further explained light shining greatly on it is what will happen this evening in the name of Jesus there is no confusion in this house we bind ignorance we lose understanding in this house in the name of Jesus amen God bless you have your seats Hallelujah Psalms chapter 74 and we will do some studies this evening Psalm 74 so beg you for the next some minutes give me your attention Psalm 74 and we'll read from verse 12 for God is my king of old for God is the king of kings for God is the king from the beginning of time for God is the king before the word began for God is King for God is my king of old walking salvation in the midst of the earth why does he say God is my king walking salvation why does he bring Kingdom into salvation talk are things we see the connection and see how intelligent the biblical writers where he talks about King then he talks about salvation because the work of a king in a kingdom is similar to what you would see God do in in the Earth God is my king of old walking salvation in the earth thou didst divide the sea so this were stories he would tell like a motive or reoccurring them or pattern of God saving people just like what he did here where he divided the Sea by his strength thou breakast the heads of the Dragon in the waters and that's what Jetro said for in the thing that the gods behave proudly God has dealt with them when they crossed the Red Sea Miriam and all began to sing in Exodus chapter 15 who is like unto thee Oh Lord among the gods who is like unto thee glorious in Holiness fearful in Praises doing wonders who is like unto thee because that's work something happened in the sea that is making them sing who like unto thee yeah the biblical writers Assa David's disciples stood them says Thou breakast the heads of the dragons in the Waters thou break the heads of levian in pieces and give him to be me to the people inhabiting the Wilderness thou did cleave The Fountain and the flood thou dryest up mighty Rivers the day is thine the night also is thine thou Hast prepared the light and the sun thou has set all the borders of the earth thou has made summer and winter just read verse 20 have respect unto the Covenant for the dark places of the Earth are full of the habitations of Cruelty so two biblical things are emphasized the God God is a god of creation and God is a god of Covenant and he to have respect to his Covenant so something very very very deep about that Psalm Hallelujah and we said you cannot read this Psalm without seeing a Genesis to Malachi narrative again and we said that when we read the Bible we must see that every biblical writer wrote from a beginning of the word perspective so I took you on a journey on Sunday and we saw different writers going back from the beginning they always will write from a Genesis from a Genesis account from a Genesis story so that we get the concept of the beginning is that okay all right Genesis chapter 1 and we will quickly turn to verse one Genesis chapter 1 and verse one in the beginning are you there in the beginning what beginning in the beginning God created the

Heaven and the Earth in the beginning God created the Heaven and the Earth and the Earth verse two and the Earth see the sounding in the beginning God created the Heaven and the Earth and the Earth was without form and voice so if you follow the line it is not a linear chronology of event but telling you something happened to the Earth so he uses a phrasing that tells you that something happened to the Earth in the beginning in the beginning God created the Heaven and the Earth so this was what he created from the beginning of time what did God create Heaven and Earth together what did God create Heaven and Earth what did God create Heaven and Earth I know we use this word um we see Two Worlds lack of a better ter because it's one world that has Heaven and Earth as a part all right and also it's um well after the Middle Ages well after the Middle Ages did people get the concept of the supernatural like a different thing where the origin in human history where the supernatural was used for upstairs the same timing um where they be say the man upstairs kind of narrative Upstairs Downstairs so the supernatural oh that that's that's a real above now no biblical writer wrote about the supernatural in such a way that gives it oh it's far away removed from the earth no they wrote it alongside human activ so you will see Heavenly activities on the earth amen Heavenly activities on the earth so Moses says in the beginning God created the Heaven and the Earth God created the Heaven and the Earth so the world that God created has Heaven and Earth together I think that's a bit easy to graas the world that God created has Heaven and Earth everybody agrees oh obviously now okay what now happened and the Earth was without form and vo so something happened to the Earth that God created together with the heaven and we said looking at Jeremiah chapter 4 we see Jeremiah using this same Genesis 1 verse ver three story to explain what has happened because Jeremiah uses the same narrative in verse 23 for I behead the Earth and low it was without form and void and the heaven so if you read Jeremiah's phrase in which wasn't talking about the context was what something is going to come something is going to happen to Israel if Israel remains in they're going to be taken into captivity go into Exile and all of that that's what Jeremiah the prophet is telling them and he saying just like the Earth became without form and void that's how Israel will be without form and void if we continue in our sins and in our iniquity and they didn't listen to him and Jeremiah happened to be the last prophet before the Captivity is that okay all right so Jeremiah is using Moses's phrasing to explain something to them and if You observe he says the Earth was without form and vo and the heavens they had no light so he brings in the heavens so remember in the beginning God created the Heaven and the Earth remember together separated as one part the same world okay not different world Heaven and Earth together and the Earth was without form and voice so what happened to the heavens so something is wrong the heavens have no light Jeremiah 4 are you seeing it so that's why verse ser what is God's cure what is God's answer to the darkness let there be light so that is the theological context and all the biblical writers know the theological context but we said in properly interpreting the Bible we must let the Bible interpret itself no Pastor has the right of giving any Bible text his own interpretation I can't interpret the Bible

with how I feel this morning how I felt this afternoon how I'm feeling right now I can't I can ask question criticize push Shake dust search the text properly to ensure that oh have seen everything to see about this text in the then and there what did the writer say in the then and there did we get it and when I understand what the writer said in the day in the time it was written to the audience It Was Written if I understand it in the then and there then I am to cross over which is now hermin is I'm to translate it to our world today our new our world that has genz that has AI re AB that has all the scientific advancement I'm to cross over understanding how we think and reason and do things today crossover to our world and find a word and a phrase that says the same thing that does not remove the context from us hearing the same thing that they heard in the then and there in the year and now p is a job of a Bible interpreter that's the job of a pastor when teaching a job of a pastor when teaching emphasis only say that's the job of a pastor a pastor who doesn't pray for his memb is much a failure than as much as he opens Bible what a quack no now the job of a pastor when teaching say I'm my work is to be teach teach open a teaching center now you ready to Pastor to Pastor people is on your knees you pray for them you speak well of them you bless them you you watch over their soul not just in teaching but also in other pastoral aspects of your duties is that okay say I don't care about any area of their life I just care about them knowing B what a what a man what a woman what a pastor that is not in the Bible is overdoing all right so that's the job of a pastor in teaching the word must be to unify two words u n i FY to unify two walls the walls of the bial writer with our today's world so that we have the same meaning we get the same context we get the same understanding is that okay is that okay and we now said when you reading the Bible that is the meaning of the word context that context is more than just the pre the post text as we offer say which is okay to look at the verses before pretext before the text in consideration pretext the post text the text after the verse you are looking at now the biblical writers did not write in chapters and verses so they won't think of context as pretext and post text you must know that so uh the concept of pretext and protex is to explain because we have verses and I said how do you handle verses I thought you a TR experience meeting use the chapter and verses as reference not to understand what the writer is saying but as reference to reference what you are trying to say so you can say oh he said this year in chapter this verse this is that okay for references for it's like somebody said Satan Psalm 91 Psalm 91 he G him slap what a good drama1 is is this did they WR 91 how do you know I'm 91 you didn't get that say tear the person slap you know the is one chapter away so you will now be wondering which one is 91 and I don't have it as I'm in my own give the SAT chapter what does that ver say I might the want to help you read Bible it's amazing what people but that's just I'm just playing with you and I'm serious at the same time I'm playing but so we ought to explain the Bible cont text and I've taught you over the years that um we look at the hist so that means we're not talking about planting so in the first fruit oh so what did you plant if you plant mangoes you don't reap oranges thank you if you plant guava you don't re pop say I planted guav but I'm see God is good ah wrong Farm you have entered

your neighbor's Farm that's not where you planted so in the first food so where God is harvesting in the first so what God wants to harvest is heav and together are you see how it will ultimately end so God will ultimately have Heaven and Earth again together in the beginning in the first of the first fruit in the first fruit God created God intended God made God proposed God ordered that heaven and earth together are you following so Moses say but something happened to what God intended because he made man and other creation God has visible and invisible creation something happened his visible and his invisible Creation in Partnership brought Rebellion sin and death into the word that story he will tell in Chapter 2 into Chapter 3 of Genesis and he will begin to tell the story of Heaven and Earth Rebellion Heaven and Earth supernatural being and man sinning and all the transgression iniquity as we call it down Through the Ages is that okay is recorded in the pages of the Bible so what he does in verse two he now says and the Earth was without form and void the word without without form and word must be read together they are it's like saying uh what is the meaning of Pocus what is the meaning of Pocus no you know they together Hocus Pocus when you say helter scet when you don't separate it what is the meaning of Helter so that's the same way without form and word add together to it means the word is like a Wilderness shapeless without form disorder chaos a baring Wasteland something has happened this is disorder this is chaos that's what the phrasing is to Telegraph is that okay the Earth was without form and void and he say Darkness was upon the face of the deep so without form and void implies Darkness so another word for without form and void is darkness is that okay that is Darkness upon the face of the deep so with form and mean that is with light with darkness is without form and void with form and meaning that will be light AB all right if we are dealing with the contrast because Moses writes a lot with contrast light Darkness day night he uses contrast a lot because a simple way of teaching everybody can graas what you are saying when you use abstract to teach I say when you use contrast to teach is that okay and the Earth was without form and voice darkness is upon the face of the deep and the spirit of God moved upon the face of the waters now you're going to get into trouble if you want this to be an actual and or a literal I i t e r a a a literal creation story where you do word for word phrase for phrase you're going to be in trouble because somebody who is intent going to ask you how come water was made before the first day and it's not added as what God made there was water another person who does mommy water stuff is going to tell you that no word is a mommy water word you're going to be wondering say okay ah how come there was light before there was Sun oh yeah God was the light so God created God no not really like that what is that say the word of the Big Bang man so is got photons since God was light so no no no that's not really what we are trying to say then we start getting to the argument with scientist we get to the argument but the book predat science so they couldn't have been writing knowing Darwinism Theory they couldn't have been writing to answer the questions that Dar will bring that Dar was not yet in his mother's womb not yet is not even a thought in his in his ancestors mind when Adam walked the Earth neither Moses ever thought that there would

be somebody who would be bringing spewing out theories they never knew of the the love of sci-fi movies of Elemental crystals a different energy s they didn't know all of those rubbish so when you want them to be thinking like that they are not going to think like that they're going to think in their own world view the gods are real thank you they going to think in their world view that's why we said don't bully aient men allow aient men to be aient so the way they would think they would think in their world view in their timeline the way they understand it's an agrarian world they would think in that form of development that they have pre-scientific premodern world view so when it says the Earth without form Darkness upon the face of the spirit of God moved upon the face of the waters by bringing in waters Their audience understand that oh this is not the literal creation story that Moses is writing Moses is actually writing what is called AIC p o l e m i c or poic is when one argues argues against other religious views so that means there are other views of creation that were in the time of Moses there were different creation the Mesopotamians had their own the um Egyptians had their own I mean the different world powers the different people that mattered cultures that mattered had their various various views Canaanite had theirs the Egyptians had their which is what is being used today to tell movies of superheroes all right they even use their names in some of those superheroes if you're a fan of Marvel you see they use their names A Lot in what they call the Tas this one they change the name right left center it's all the same stuff so when you look at and all those things predated Moses there num El the the Babylonian story of maduk the high gods and all of these things that is in those Marvel movies they try to depict in different forms gig mesh and all of those things they try to portray they have those stories Moses knows that Moses was raised in Egypt and he also knew in all the educations he learned everything that it was possible to learn because he was not raised by a pop he was raised to be a prince so he will know everything that they need to know so Moses is now that man that God choses to write and so in writing he knows the god of Abraham Isaac and Jacob and he knows the story of creation is different from how the unbelievers are selling it different from the way the unbelievers are telling the story because the way they are telling the story it's just like I'm a beanie guy know you people don't believe in your culture I believe in mine all right I said believe in culture I didn't say believe in the God there's a difference don't hear what was not said you know it's always good for a pastor to be smart to know people hear voices say I'm not a Nigerian I'm a zo zionite what the hell is that it make no sense it make no sense you you if you're without a tribe you're without origin you're without place in fact you can't be born again if you are not from somewhere you have to be a man to be saved have to be human and humans can be traced to somewhere we can't CH it to anywhere you just just is that okay right you know some people are very strong on me I'm man me I'm an EV man I'm an evil Christian what does that mean the EO senior the Christianity so where Christianity is trying to push the EO man in you n never never cannot happen trying to say no no no no in ah woman talk on your knees woman crawl to me with the wash hand Bowl you pan arm for this thing that you have done and he washes his hands and sprinkles it on

her face and say woman be gone for thou cannot stand to we you know those lovely stuff that your grandparents did that made you think that they had great marriages know that women were scared go Le for where woman talk she going to leave the house you dare you Mar on top of her head that's not example then you get born again instead of learning God's word you are using that one to say my grandfather your grandfather you should be arrested today's world view he should be handcuffed your grandfather how dare you bring that name yeah you know you know people do those things I'm saying ah no times have changed though get away with those things because do that thing again oh how did I get there I think we ought to stick with Genesis 1 all right in the beginning God created the Heaven and the Earth and the Earth was without form and void Darkness upon the face of the deep and the of God moved upon oh I remember how I got there okay I get it all right so we said he was answering the different beliefs so when you realize what is happening Genesis chapter 1 it will not be hard if you go back to the historical cultural narrative you notice that any person who was around who knows a bit of one or two things about ancient Egypt Babylon Canaan will understand what Moses is doing there like I told you is that's what you call a polemic where you're making a a religious argument against trying to refute a controversial view so you're writing to re uh refute a controversial view why presenting your is that okay so if You observe the way he writes like we said so he's obviously answering to is writing to support his own opinion or doctrine which is the biblical Doctrine about about how God created the Earth so he wants to support that that's the idea of the poic so but it hard to grabs it because he's using water narrative and we are not used to that in our own culture today in our scientific that what I Me by culture because we are not as deep with normal uh things in our different cultures anymore so we are more scientific more mod there's a lot of modernization everybody with tra with shirt with everything you are not so it's not you have to have learned peoples and culture to have an idea you have to have ask your father your grandfather know a thing or two about your culture to know a bit about this kind of background so it's easy to not know anything about this kind of so you read the Rob myology about the gods the number one God different name from Olu this one this one this one now fala you see all those long story that it's not me that will teach you all of them have something similar the Rob the EO you see a similarity in many of them for those who love cultures all of those kind of stuff you see similarities and that's the same context that the man is deal are we good so Moses obviously like I said contextually knows about the Babylonian tale what is and you see it on Wikipedia The enuma Elish he knows the story how they tell it about how the God made from the could not tame the great all mythologist have the waters great that nobody can tame different retellings of Zeus and posidon all their stories but there are many things within the within the Earth that they could not they could not beat they could not master they could not you see those kind of stories is quite common in all of those God's Legends what we call mythologist today is that okay so Mo Moses is writing and says it is not madok m a r du u k the Babylonian story it's not maduk the high God that other's creation but Yahweh the god of Israel so everybody's

going to be what exactly are you you trying to say so he retails creation from the biblical standpoint that's what he's doing so Genesis is Moses retelling creation to teach salvation so his focus is not the creation story but using the creation story like a parable to explain God's work of Salvation what God is doing on the earth so he's using creation as an example he's using creation story to pass a message so he's not one to teach you literal creation because that is pointless his audience knows that there is a heaven and an earth they don't need Moses to tell them that there is a heaven and an earth everybody there's no body in that timeline that was an a there was no eight there has there's no aist nothing like I am an aist not it's not up to you can still count with hundreds of years to see where we began to have people say I'm a0s I'm agnostic all those things don't nobody in that timeline there was no human being that would say did not believe that there is a God or that the gods are that concept was strange that somebody would say there's no God it didn't exist in their world view so they were not they didn't have arguments of that guy an a they were not trying to pers any aist everybody knew there was a god nobody is thinking the word just came to be from nothing they knew a God made it the issue is which one which of the god which one which one is the real one are you following aha in the the Battle of Supremacy which one is the real one that's what so Moses says no your God is not our God is and he does that by using the reference of the deep the Deep because in their world view the Primal Waters so he says and that's where you see Psalm 74:12-17 linking creation to God slaying a Great Sea Beast now the ancient readers would have known that this is a backhand slap God is giv to all of the different gods to bar if is the different culture that's another culture again AB be that's Canan ba Babylonia maduk different God so this the B slap that is doing here because God is slay the great Beast that these people cannot slay God is doing something that these people cannot do what exactly is he trying to say so the notion that God created the world by speaking is now a direct attack on the Egyptian creation story that is seen in the memphite theology for those who read a bit of history that the god PT who was thought to speak things into existence you see what I did to him when I was with you people bringing people out of Egypt that obviously could not be the god that created because what he said could not understand but what I said stood so that audience Moses writes and teaches that not the PT ah God that the Egyptians know that looks to be very powerful and can order and speak things but when we were here couldn't speak and nothing he said came to pass so Yahweh is the Creator God so he rises with that background but he used the Primal Waters p r i m e v Waters which explain that God is is to explain all that over chaos that's what it means in their world view so he uses that concept of waters not that anybody's really fetching water because the water is people woke up to see a vast body of water all over the earth I mean Seas like what is this there's land H hope this water will not one day overshadow the land so people began to tell stories about the waters so that's the remember I know it looks foolish today but ient men they not understand that this is just normal sea but they use it like hey for this sea will come and take over the whole land so this SE there must be a

great power there must be a great power so they began to say oh the way the world was created was God separating things the waters were separated so that whole concept is why it's in all cultures I repeated this again and again and again and again by now you have overheard it are we good sir so it is in that context that is being explained it is that what it is that context that is being explained it is that context that is being explained so the word created is the word to shape to form to make or to produce and we said it implies a reordering or a repair the word bar is not use the way most person say it exil to create out of nothing no it's not that the writing is not about how God created the natural world but why God created the natural world what is the purpose for creation that's what he's retelling I said this in C for those who were around I'm just repeating that phrase so in verse two we now see that there is a disruption of the whole earth he uses the phrase without form and void to imply a state of Darkness upon the face of the deep so there are two waters the deep and the face of the water so two face face of the deep please not innocent you didn't will get it all right so face of the deep and face of the water all right so a state of Darkness of confusion is that okay so the Earth was not functioning according to purpose it was without form and void so he uses the word too boho implies formlessness a state of confusion disorder chaotic something is not according to purpose so the word the Earth has become an uninhabited space like a Wilderness A Wasteland remember the word God created the Heaven and the Earth why is he teaching like that we said don't explain it one two three um I did a bit of that grammatical interpretation I can go by it again if you you did not get it on Sunday we said one two three should not it doesn't one 2 three arranged like that in verses but verse two does not follow in a chronology of event if you are putting the event in order after verse one event notice my use of word not in the right the writing after verse one is verse two but in event it's not immediately after God created bam the Earth was scattered some the beings they jamed they came from abroad landed on the earth the es scatter not that that's not what he's doing so he's simply saying that the way God created the Earth and what God wants to harvest on the earth is Heaven and Earth together but something happened in time that's what he brings verse two but God dealt with what happened by saying let there be light and that's what he's still doing today shining the light until there is no more Darkness makes sense no more Darkness until there comes a day where there's no more darkness no more night that's what so he still shining the light so that would involve active participation of his creation not an escape Theory but we get there so um I can give you a bit of Hebrew grammar if you are okay with that verse two has an unseen Hebrew grammatical signal that is designed to interrupt the linear sequence that's what is called a disjunctive so verse two makes it clear the way it is structured the way is order that the two verses are not a sequence there are two Preparatory thoughts to verse three so verse three will be the first creative act of the passage so if you read the passage that way it means matter already existed before God began to work and that's not what he's trying to say because if matter if Ma you know how you guys know a bit of physics everybody knows what matter is if something physical

already existed then who created something physical that God is not using to create it destroys the whole idea to think that there was already matter before God created that cannot be what he's trying to say all right so you get it so God could not have taken the matter that already existed to make a habitable Earth out of it no we have Colossians 1:16 telling us that all things that were created were created by Him without him was anything made that was made so it's an absolute that nothing was made before God God is one that made everything he's the soul Creator is that okay so God made this word of space time and matter he loves it and though sin and death came in but he's going to renew it he not going to destroy it in the sense of that it's not going to exist again no he's going to renew it and that's what is called God's New Creation God wants to put things right on the Earth but before he would do that he will put his man right first and that is the good news that has been accomplished by Jesus what he fast way to tell the gospel story okay so the Earth was without form and void that upon the face of the deep so we'll go back to our water narrative what are you doing using different ways to say the same thing are we good so verse three God said let there be light so the light be that is creation but we said that creation is a verse two so to create is to bring in order to set things right so the background is from the supernatural world view of the audience so Genesis 1 is about God's plan and purpose to bring order light to the chaos darkness in the Heaven and Earth so the narrative is not a chronological analysis of how the Heaven and Earth were materially created but about a recreation a reordering of things in Heaven and Earth so Moses using light and darkness day and night passes that point so two words we said take note of the two faces he mentioned there and we said it's not idia two faces he mentioned the face of the deep face of the water the word deep is from the Hebrew word Tome where we get the word Darkness are bees a b Ys which is used to you now see the concept of C again because they could in their worldview nobody had swimming swimming vest they you could see somebody going down there was no yet an Archimedes to explain up trust FL flotation surface area tension I beg you people there was no law of flotation anybody that is explaining what is happening here so they could just see people sinking so at this beginning part of the sea nobody singing But as you go down say ah that is the great deep the great deep the abys is swallowing up people that is ancient men acient way of thinking so the pH of the deep they are bees that's where the word a y s is gotten from is a water word a a water narrative all right so the face of the deep that word deep is the word home used 36 times the word deep surging mass of water dealing with the Abes of the sea the Prima ocean the depth within the waters so it is used to describe under the waters that's quite easy say yeah yeah it's true now common sense for something to in the Deep of the deep is that not so the Earth was without form where Darkness upon the face of the deep then the other word Waters there in the same verse two is the Hebrew word Mayim which implies a mass or a body of water it is used in a literal and a figurative manner so there are two type of waters the Deep Waters and the water that the spirit of God is moving upon and we said from camp meeting that the deep water will be the water that darkness is upon

that will be the dark Waters the face of the deep you can just look at your Bibles you see where I'm getting what I'm getting face is it not your own face of the deep is that one water is the Deep there water then face of the water is is that two waters okay so the deep is that the Deep Waters is that the one that has Darkness Darkness is upon it then when the spirit of God moves upon the face of the water is that one light so we have dark Waters and light Waters is that easy dark Waters will be chaos Darkness the world outside of creation outside of purpose like a wasteland not fruitful not producing according to order okay now in Genesis 1 look at verse four God saw the light that it was good and God divided the light from the darkness so you see when he say let there be light and there was light it was God that divided the light from the darkness so we can see two the contrast opposite there's darkness and there's light that's the same way light is used synonymously to explain the spirit of God so darkness is the opposite the absence of light the spirit of God so darkness and spirit of God are opposite so the Earth being without form and void is chaos emptiness that's Darkness upon the waters why the spirit of God upon the face of the waters that produces light so the Earth without form and vo is Darkness or chaos the spirit of God Is Us with light so we have destructive Waters or chaotic Waters and we have the lifegiving water the spirit of God moving upon the Water to bring light so light Waters Darkness water chaotic Waters water of order chaos disorder this Waters of disorder Waters of order is that okay okay so why using that whole water narrative I will not repeat it again told you is because the acient men that's how they think so he's using to explain the the emphasis is an ordering o d e r i n g to show that God is the one who ordered who separated things and God will not leave the world the way it is now that's what Psalm 74 quotes and we say God is by King of old working salvation in the midst of the earth thou divided the sea so he brings that same context again of waters is that okay we're talking about salvation so if I am used to the Genesis 1 story I understand what the spirit of God did there what is God did there is salvation bringing light into the darkness bringing order out of the chaos and that's the work of the spirit that is salvation that's how how God gets his new creation so that is the first context of Salvation that's why over the years you have seen Grace preachers New Creation preacher any name you call any labor you call them which I'm not a part of them I just s Bible any of those labors the emphasis has been oh you will hear statements like this that Genesis chapter 1 teaches the new creation say that's too strong they say there's salvation before creation that's big but you get it now that's what they all trying to say without properly explaining and it looks like how can there be creation before salvation before creation new creation is inside and I think this the first creation How can there be a new creation inside the first creation but is it clear so Moses is writing to teach is not writing to I want to tell a story the Bible is not written for a story story book people know the story so they take the story and they use it to tell God's story which is theology they are teaching so see it as a teaching not that oh story story story day number one God created light day number two God created day that's not what is doing so if you notice the creation day one to day seven look at the parallel day one and day four you see the same light light

intelligent writer day two day five parallels day three day six parallel then seventh day a new day so he re so if you look at the order just to fit with the biblical story of after three days he will revive us the fourth day we live together with him so the biblical writers know about their numerology so they link day one to day four day two so that three days when comes out from the grave the fourth day is the day of reservation Sabbath man is in his rest man have ceased from his labor so all the bical writers know how to weave the different teams together to pass the point that they trying to communicate so what is in day one is in day four light and light where so it made light but you see some moon and star that is not obviously a literal creation and that's already somebody writing intelligently because he's mirroring things par making things parallel they don't used to just I want to events do not happen with such artistic design the artistic Brilliance is too much now the event is just happen everything is just shaping everything just fitting in an explanation ah now I life be like this everything I do is just artistic AB stop now is when somebody wants to explain what has been happening to you that it can make sense like that that's obviously what the bial writers are doing so stop seeing them as oh they are just one farmer one one goat head that they not know anything don't do that don't do that that's a lie I've told you before many of the writers the many of the prophet and apostles had people edit what they wrote if it's you you want to pass a book and you know you are not so FL won't you give somebody that you know have sense very well who can speak good English so check what you wrote you that's what viously what happened so you notice I told you that the scriptures were deted that's why you see even Ezekiel is is mentioned as if is not the one that wrote it you not see and he's mentioned in third person when he's supposed to be the writer just in the first three verses you see it you see how did Moses die in his book that he writing and Moses still writing and I died and I was buried how can it still be the one writing that so we are not being honest when we want the biblical writers the Moses and all the of the main characters that once we said went to school one we said not go to school and we now shocked that they are intelligent no the dors were intelligent and that's why we use the word biblical writer these days to pass since we know that other person were also involved even though in a form of editing which they cannot now say it is their book I edited the book doesn't mean it's my book now come on if I take the credit and I'm a thief it's not my book all right clear clear clear so light out of Darkness yes so look at the Psalms 46 Psalms chapter 46 are you there let's go God is our refuge and strength a very present help in trouble therefore we will not will not we fear though the Earth be removed and though the mountains be carried into the midst of the sea though the waters thereof row and be troubled though the mountains shake with the swellings thereof there is a river the streams whereof make glad the city of our God the holy place of the Tabernacle of the most high God in God is in the midst of her she shall not be moved God shall help her and that right early did you see it there is a river W streams makes glad the city of God so verse two and three explain the chaotic Seas the dark Waters that R and are troubled but in verse four it say is there is a river W streams makes glad the city of God so this whole water idea is

why you not have text like Isaiah 11 go to Isaiah 11:9 they shall not hurt nor destroy in all my holy mountain mountain is motive to explain Heaven high above what is above the Earth so it's used to explain Heaven Holy Mountain for the Earth shall be full of the knowledge of the Lord as the waters cover the sea again two waters Waters cover the sea so which water would be this the face there's the face of the deep then there's the face of the water that spirit of God is moving upon so we say one is dark Waters darkness is upon one light is upon one so the waters covering the sea the spirit of God light over Darkness so is that narrative consistent in the Bible yeah this that's water cover the sea narrative is used a lot in the scriptures are we good water covers the sea narrative is used a lot in the script habac chapter 2 and verse 4 for the Earth shall be filled with knowledge of the glory of the Lord for the Earth shall be filled with knowledge of the glory of the Lord as the water covers the sea the Earth shall be filled with the knowledge of the glory of the Lord as the water covers the sea now this idea is in numbers 14:21 but as truly as I leave all the Earth shall be filled with the glory of the Lord so again they use the water so now we can throw away the water phrasing and see what exactly they are saying just as the spirit of God light over Darkness that's how the Earth shall be filled be covered with the glory of God no more darkness no more chaos so we have separated two great sources light Darkness but light triumphing over darkness is that okay so observe that the way the biblical writers write they write in a manner that shows that something is happening to the Earth the Earth shall be filled notice the Earth shall be filled they are not saying escape the Earth leave the earth now let's try some more and see Psalm 72 and verse 19 and blessed be his glorious name forever let the whole earth be filled with his glory amen and amen let the whole earth be filled with his glory let the whole earth be filled with his glory let the whole earth be filled with his glory did you see it Isaiah chapter 6 and one Cried unto another and said holy holy is the Lord of hosts the whole earth is full of his glories that's 6 verse 3 the whole earth is full of his glory the whole earth is full of his glory the whole earth is full of his glory so God wants the Earth to be full of his glory Glory God wants the Earth to be filled with his glory are we here Psalm 24 the Earth is the Lords and the fullness thereof the Earth is the Lords the Earth is the Lords and the fullness thereof the world and they that dwell therein now observe verse two so for he had founded it upon the Seas and established it upon the floods aha he has brought water language again so if you are not used to water language what is all of this again he has founded it upon the Seas so where the god build his kingdom he built it right on top of the chaos not the fear chaos he's not afraid of the darkness he has founded it he has put it on top so where the sea was is where the light is where Darkness was is where light is now he had founded it upon the Seas and established it upon the floods who shall Ascend into the hill of the Lord and who shall stand in his holy place he that had Clean Hands and a pure heart who has not lifted up his soul into vanity nor sworn he shall receive the blessing from the Lord and righteousness from the god of his salvation this is generation of them that seeking that seek th face of Jacob lift up th king of glory shall come in who is the king of glory the Lord strong and mighty the

Lord Mighty in battle lift up your head so you get even lift them up he Everlasting do in the king of glory shall come in who is the king of glory the lord of hosts is the king of glory but observe the language in verse two he says for he has founded it upon the sea and establish it upon the floods he has founded it upon the sea so upon the sea is that Dominion confrontation to the power of Darkness has establish it upon the floods floods there is the word River the word floods in verse two that's why it's called King of the flood is not flood erosion don't think in mod heart when you he King of the FL is not King of Ero it's not an insult God is king of Ero what type of erion different types of erosion different types of erosion Godly erosion king of different that kind of thinking does not make sense are we good all right so King of the Great Rivers the rivers that flood the Seas and there are no more Seas no more Darkness we say what the water water but you get the idea now there's the water that comes you know there are some places in this country where you see the then there's water that comes some it looks like the water goes away then the water comes back again the evening you have seen those phenomenal say ah this is Juju it's not Juju that is how the ancient men also saw it and say ah so there's water that comes and sweep this one away water covers the sea they are thinking like that they are learning from their because they are ancient men they not learning from how many books are there now for us to read there's no book to read There is what they are seeing so it covers it okay water covers the sea is okay light over Darkness light over Darkness so even when you observe the flood story you see the same se's narrative being communicated where the waters rested so the biblical writers write a lot with the c narrative so let's look at um how the whole chapter ends now this is me trying to make it as easy as I can be I would go a bit deeper next week Sunday possibly this is refreshing your memory from Camp Meeting way of explanation Revelation um 21 let's do Revelation 21 Revelation 21 and I saw a new Heaven and a new Earth don't read as a new planet a new planet Heaven a new planet Earth for the first Heaven and the first Earth were passed away and there were no more Seas sir why use this language like we are supposed to understand what no more seas mean because because the Genesis to Malachi men have been using the word Seas Waters there were no more Seas no more seas and I John saw the holy city so notice that in the complete restoration of all things when light has Shone everywhere there will be no more Darkness so there will be no more Seas so that's what he's saying there will be no more es and I John saw the holy city New Jerusalem coming down from God out of Heaven prepared as a bride had done for her husband and I heard a great voice out of Heaven saying behold the Tabernacle of God is with men and he will dwell with them and they shall be his people and God himself shall be with them and be their God and God shall wipe away all tears from their eyes and there shall be no more death neither sorrow nor cry neither shall there be any more pain for the former things have passed away you can just tell this man is literally copying Isaiah and I will read it for you in case you don't know all these portions in Isiah so there's no more Seas but sir but there's River in the reation 21 he mentioned River read it when you get home if you are not sure jump to

chapter 22 and he showed me a pure River of Water of Life I said there's no more sea that means there's no more water at all nobody of water on the earth that's not what he's saying ab and he showed me a pure River of Water of Life clear as Crystal proceed out of the Throne of God and of the lamp in the midst of the street of it and on either side of the river was there the Tree of Life which bear 12 manner of fruits and yielded her bear fruit every month and the leaves of the tree were for the healing of the Nations and there shall be no more cause again so we have seen no more like no more sees no more CA but the Throne of God and of the Lamb shall be in it and his servant Shall Serve him for there shall be for there shall be no n there verse five and they need no candle neither light of the Sun for the Lord God giveth them light and they shall rain forever and ever okay and he said unto me these things are faithful and true and the Lord God of the Holy prophets sent the angels to show unto his servant the things which must shortly be done okay so observe the water water narrative are we good so there's a bit of laziness that say ah it's stressful is boring but John chapter 4 Jesus is also using water to teach woman salvation so if you did not sleep off in class you will get the context because where New Testament writers where are they now using Waters too if we miss Genesis to won't know why they also using water spirit where is the spirit of God so when you go back and read spirit of God the move of the spirit you will see associated with Waters too why because that move of the spirit is the same word he used to explain the way torrents of water moves that moving that great gushing rushing like a rushing Mighty Wind rushing ah sound of many water us that kind of idea so we take our time if I were you you take note properly so that means there's still a lot to see about spirit and Waters yeah AB so there's a lot to see can I touch this a bit or just run away from your you don't know which one all all right maybe we'll come over it again just but do take notes that um okay I think I should I'll just do a little B up so we read Revelation 21 revelation 22 so no more Seas AB so that's the work of salvation but there will be Waters so just like as in Eden Genesis CH 2:10 to 4 there is a stream there is a river who streams make like the city of God there was a river in Eden and we saw four streams follow so the bi now say God planted a tree Genesis CH 2 God planted a tree God planted a garden God put tree two trees and said don't eat of this eat of this now again tree is lost but if you if you read if you watch fantasy movies for people only movies we can use to talk to them so fantasies different fantasy movies different types depending on the kind of writers uh all of them get their style of writing from an from two major sources and you see that all their writings do talk about the Primal word you'll see faces carved into trees the same reason why you see is a wine there red cloth on top of tree all right so because tree in their world views you see all the Encounters of Abraham were by the side of a tree because it is a motive when they say by the tree the tree the moving of the spirit of the mberry tree you keep see what is why they mentioning tree tree all these things don't make sense no tree means something in their world view and we Tau some of those things when I was teaching on mountain mountain of God so trees have meaning and God appeared to him when he was by the tree why not was somewhere else is a reason why they are using

that tree Nar because trees were markers of intercession of Heaven on Earth because the world all would be the world tree Heaven and Earth in the same place so where you see a tree a planting you they can so they use trees as markers as to Mark where the Unseen the Unseen touching the Earth you know why because when the ancient men raised their head up they saw the tree went up into the sky so they say heaven and earth allow ancient men are you getting heaven on Earth and because the gods were real and the world view accommodated that it was also supernaturally backed up that really heaven on Earth the Unseen in the scene know there are some trees not all this our small small banana tree you know there are trees that you raise your head up is towering and the aient man could not climb ah it took time before people could climb now don't make it look so easy that people knew the technology of tying rope like one tyer don't I know know you can laugh at them but don't bully them just the same way aient acient are you getting it so they are using words and phrases like that so trees mean something in their world view did you get it all right so Moses now say okay there's a Garden Eden and Eden is explained as a mountain he now says okay all the Earth was the GU of Eden all the Earth no and this is where the lies begin where we say all the Earth was the GU of Eden no the GU of Eden it tells you that Pon gon t headach just it's a small portion of the earth you see that there are more places on the but it's a small portion of the that was called guard of Eden all the Earth was not Eden then God now give the fourfold Mandate when he bless man have dominion he say fruitful multiplier replenish the Earth subd it so Eden is already fruitful you're not going to make Eden fruitful no you're are going to make other places fruitful like Eden Eden has what it takes to multiply is you are multiplying Eden elsewhere X expanding it elsewhere you are not subduing Eden you are subduing the other place so that they look like Eden are you getting it so it was in out not out in it's always from inside out so from Eden spread my good rule everywhere have dominion spread my influence everywhere so I put you in this small place now dominate this whole earth remember God put man now than oh thank you Lord that I had to teach this if not I would have been in trouble small saying some other things sir you are not reading 2 I will come back this is just anide you read some of our book you see back to so we'll do that back to we'll come back to Genesis CH 2 again where we read but now I'm not reading because you know the story 2 before is your let me talk something that there something I'm saying so that you don't know but when I want you to observe certain words and phrases we will go back but for now this is what everybody even though you don't anybody does not know Bible even if it's Yellow Pages they used to learn they know that there's a tree know that the is not is not so spread this everywhere fful multiplier replenish the same mate he said to no After the flood the same thing said to Abraham multiply multiply is given to all the pats and it's not multiplied by having children I've told you before light give birth to Darkness that's not there's no multiplication there's no fruitfulness there when a tree is fruitful it produces after his kind so if you are going to be fruitful it's not I have more Darkness so if you see it from a biological perspective you missed on the main point it is spiritual before it is physical is that okay so

it's not just be fruitful from the natural point that I'm giving birth to Children I'm fruitful physically I can give birth to many children but I'm not fruit ful in the sense that I'm not producing more persons like me so more person should be like me in the image of God is that okay so the waters the light the spirit control Waters covers the sea Darkness chaotic Waters so in Eden we see the work of the spirit so being born of water is delivered from Darkness Waters that cleanses water that saves so there's a water of regeneration so John chap 3 John chapter 4 John chapter 7 John uses water a lot to teach salvation and the work of the spirit and is getting that same pattern from Genesis to Malachi so if we are not used to the story it won't make any sense what exactly they are trying to teach so outside Eden will be the Seas outside Eden will be chaos outside Eden will be Cur outside Eden will be n outside Eden will be Darkness that's why you are to subdue it say sir but sin has not happened will you come down is Moses writing before or after sin so put your mind in the biblical writer he's writing after sin is in there so he's retelling the story is retelling is not I want to give you how the events played out in the garden now follow me step by step he can't do that he can't can't even tell that story like that it has been passed p p p ped his account cannot be the most accurate so the best he can do is to use the story just like I'm using what you know now to say something without having to observe the exact words and phrase like I told you when we want to observe the exact word and phrase we'll go back and read it so Moses takes the story that everybody knows and he uses it to retell God's story so because he's using the words is not writing preall is's writing the postf fall after the fall of Man it's not writing before sin enter into the word writing after enter into the word so he will now call outside Eden that's why he will use the award in the award view Exile which is the word for death so again before you laugh and say what does that mean you watch Nollywood thank God for Nollywood this is the time that Nollywood has come to our rescue at least so I don't have to use people all right notice in W movies those days the ones that they you egg of Life evil forest all right you notice when they banish somebody say my king is cursed she is cured and say let her leave this land you are hereby banish four we and if isob so you're de so he say oh if is the Great ioko yes take it just out of the evil so they taking out of the land say because the person is cured everybody understand that until we come to Bible and want to say the same thing say no say Adam is cured that's why they are out of Eden say oh that's the same thing is writing he died but he not that physically yeah because death means Exile you see he didn't die physically because the death is exile so when I oh that's the spiritual death everything drain inside but for their world view when they say somebody has died so from the unbeliever that has passed from there to life they did die physically but it's not a Christian Exile as God has moved the person from Darkness into light there's a separation yes that separation is the work of the spirit of God it is God who divided the light from the darkness it is God so that separation so he moves man transed all from the of into the kingdom of his de son has moved Man Out Of Darkness into light are we good yes sir so outside the Garden of Eden remember within the garden God is the light the voice of God was moving God what was in the garden we have

said this before God was there Ezekiel 28 Isaiah 14 call it the Throne of God the seat of God the Holy Mountain of God and I told you before that was the first concept of the literal kingdom of God on the earth God was physically present there how do we know words used to explain visible Expressions I used the voice of God was walking the garden I heard and I he myself you don't hide from what you cannot see all right just like The Exodus 24 up the mountain Moses and the men of Moses and the elders they saw the god of Israel 24 so there is God God is visible and invisible God that is visible is where we now explain the word of God the second person of the godhead as we call him and I taught you this in who is like unto God so there's the visibility of God and the invisibility of God God who has always been visible from Genesis to Malachi is the one that became flesh that walk the earth that we call Jesus Christ as some silly person say I don't really believe in Jesus whatever construct you call it I believe in yahushua shut up you you fraud no nothing yosua what is yosua yah yahushua josua what are you doing say you an unbeliever and shut your your rubbish mouth every other name fade away when a pastor cannot B say believes in Jesus okay believe the yosua okay I believe in Jesus resur whatever you call it whatever I call you mad a pastor you say whatever we whatever I call Resurrection so you don't know how to explain what you believe and somebody will see Len and say it's just a pastor just like he RO with celebrity God deliver you when you have some native doctors are also on the pit say pastors we have drug King pings and the rest also no it's so easy to tellar but people cannot tellar because they know they know people know what they are looking for people like deception Pastor is ask do you believe Jus I I don't I I don't use that word you don't use that word which Bible where did you hear yua where you heu what are you trying to say where did you read that one from at Le even if you are claiming a certain light maybe you don't like using the that word Jesus because of the construct but why not say what the Bible teaches you cannot say that one to be to be example of canal arrest my case if you don't understand you don't need to understand just so there's water water water narrative being used is that okay so we said why are they using this because like we said outside Eden will be chaos that's why man fell that's the fall of Man man was banished man was exiled out of man left the G of Eden because that g of Eden was a Sacred Space how God intended man to function like I said we'll come back to this it's okay if you don't perfectly understand what I'm saying I will be surprised if you perfectly understand it oh you get it yeah I've told you before don't worry yourself see when a teacher is teacher a teacher that is a teacher don't be bothered he understands his work is to impart understanding if I don't shake you up a bit you will not have space to take the the the further light so I'm shaking you so that I can see what your space can take because audience determine what you can see all right so I'm allowing you think in a certain light first so now at least you can think in waters now you can aha so when that is done we can now go back and read is that okay yes sir say I really wish Pastor would go over this again that's why to repeat the same thing is not Grievous I will yet go over it again and again oh ah so Moses is writing after the fall so he knows that oh sin and death is in the world so outside Eden now if you want to

create a story of how it was before the world when the word began when there was no sin and death you know there's no Bible verse we can quote we can only yeah there no ah there no Bible you can quote so that's why you must be a bit careful when you now want to say that uh why is he now saying outside Eden is Darkness chaos why is it that kind of phrasing we don't have any other text other than post the fall is after the fall is where we have all Bible verses all right now but if you want to tell that story we will now use the end of the world view to look at the Garden again which is quite tricky except you are are very good with theology if not you see rubbish so when God created the Earth everything was good fine okay until something happened to his creation man sinned and in the Sin of man which is a cooperation with the serpent the Nash supernatural beings also we see humans and Supernatural rebellion in the same place then all the other rebellions are Genesis to will show us now this is what I want you to get um okay I found the phrase I can use so the G of Eden was a small portion of the earth okay why did God now say let them have dominion there was no Darkness there's no anything since we because some people say Okay Miracles and after thought but God was has God always been powerful or it was after sin and dead that God became powerful did God have power before the word began so power is not because of the Fall say the reason why we using power today because sin and calm down you are pushing things too far so the word dominion if you are not seen from a reactionary or battle perspective why do they want to see from a battle perspective because of the Kingdom takeover colonization mentality of Kingdom so they use battle language really the Hebrew word there can and the synonyms for Dominion have all the kabash not pray the real meaning of the real Hebrew word kabash which is to dominate rather to bring under all of those different words of dominion that is in the Hebrew language it does have the Divine Warrior template God as a man of war winning battle true the whole chant of of arise oh God the whole communication I didn't say the that's not what chant mean all right the whole Proclamation repeated recitation of arise arise arise oh God it's just a proper word don't allow apost fool about chant just the repeated uh recitation of some so arise oh God Arise oh God because that was the war rhetoric of our God is with us our God is with us AB so that same kind of context it's just arise arise arise let his enemies be scattered you see that arise oh God is used a lot in the Bible so let give you the context so if I don't know battle war okay there's no chaos there's nothing like that Kingdom kingdom King Dominion so the domain of a king what is the domain of the king of kings Heaven and Earth is that his world that he created beautiful do they interact with each other sir or they are apart from each other some people are scared do they interact with each other or you are still having distance once you have distance slap your face like oh I'm not thinking well you wake up no distance stop creating Heaven and Earth don't do hand don't don't do hand like this don't do hand like this so you say heaven on do like this you know there are hand movement that also affect the brain say heaven M that that you learn this in communication are communication hack so so inste of saying you to quickly help your brain instead of doing sorry I beg let me Heaven and Earth together Heaven and Earth Heaven and Earth

no heaven and earth does that work Heaven and Earth so so that the brain gets it just like on this earth right now a plane is above the ground that mean on the earth when you entered you left planet Earth no no now so Heaven and Earth together Heaven and Earth together Heaven and Earth together get that so his kingdom so he made man for his kingdom and he the Earth is big and he wants his kingdom everywhere is it with sand or true people true people so man is obviously going to to reproduce and make more and in making more human beings they should be like you that brings us back to the word image so let us make man in Genesis 126 in case you wondering where we are so you can look at your Bible if you're not familiar with that text and God said let us make man in our image after our likeness and let them have dominion let us make man in our image let us make man in our image so image image image is a representation of a de so just like they will have statues moldings and say this is how this de looks like this how so God now made man and said man is my representation in a world in a habitable World in this habitable world of seen and unseen being man is my image that's a lot now in their world view image can be used in two historical context it can be used in a fighting where a king is expanding his territory and when a king is expanding his territory he will mold a statue and put there if it's not physically there the kingdom that the land that he has taken we put his statue there and everybody sees that statue it means that we have taken this land that's what happened nebuchad story why why it says everybody should bow to show that he's King over all the Earth yeah taking all the territories and Hebrew boys will not all right so you put a statue in the place to show that you are King over all you put your statue there to show that your Dominion has reached here so I may not be there but I'm here are you getting it so then the second is the supernatural being to represent the image of a supernatural being so the iconography and all of that they draw all of those stuff so that's the point so when you say man is our man is my image man is my representation so man is going to represent God in this habitable world so I've given you different applications of the word Earth before but I can walk run you through again for those who are new the word it when you see it used in the Bible doesn't always mean ground the word it can be used for the terma the solid ground that we put our feet that's the word terraa f i r m a t e r a space f i r m a it means ground apart from water so Solid Ground then the body of water is also called Earth the seeds are on the earth now they're not in the in the sky in above they on the earth is on the earth the atmosphere is also called the Earth then the Earth is also used for the people of the earth also called the earth I wish you getting this the people of the Earth are also called the people of the Earth are also called the people of the Earth are also called yes the people of the earth I also called the Earth then the word earth like I said serpent was cast into the earth into the into the Earth the Hebrew word is also used for the pit which is where word for sh is used more in the Minor Prophets like that so when you are then Earth is used also in the Bible as world so how many do you have six okay World w l d so when when you read the Earth there as the world the whole world the world of interaction visible and invisible world the world that Earth is many times how the Bible says

the Earth is the Lord and the say what about heaven that's not what he's talking about that Earth in that context there is the world so when he says in the beginning God created the Heaven and the Earth you can remove Heaven and Earth and say in the beginning God created the Earth that Earth has Heaven and Earth inside are you getting that is another word for Earth an application so when you say heaven and earth you know he's dealing with the world sometime when he says Earth he believes you know that is heaven and earth together just like Ephesians 1 1011 God wants to sum things in heaven things on there together in one so it's to sum it up to gather it together in one Christ so because they can be gathered together gathered together gather together remember are we good so the word Earth the word Heaven also have multiplicity of meaning the word Heaven also have multiplicity of application so when you read the word heaven in the Bible it is used for Skies that's the obvious one physical Heaven the word Heaven is also used in the Bible to explain the Unseen realm Heaven is used to explain the Unseen realm the spirit world you know in the Bible when you type the realm of the spirit you will see Zero reference cuz KJV does not read like that Tye r e a l m space of spirit say oh there's no real of the spirit in the Bible no it's there but it don't that's the word Heaven the Unseen real thirdly the word Heaven is used to explain where God is God is in heaven say where was he before he made the Earth as comedian preaching Style no he was in heaven where was he before he created heaven in heaven heaven is just the word uh see don't worship words words are used to communicate meaning the word heaven in the Hebrew is the word shamim from the word sham that means that which is high and above God is in a height above all things that's the word Heaven is that okay God is in a highight above God is in a height above that is the word heaven are we good so God is in heaven heaven is also used to explain as a short form for supernatural being instead of saying Heavenly Host Heavenly being you can just call them Heavens the heavens praise thy name the heavens the heavens Heavens is using in that context to speak of what supernatural being the heavens Praise Your Name the heavens declare your this the heavens cleare Heavens Heaven is also used to explain remember Heaven as a short form for supernatural being just like human beings are called earth the earth the earth was corrupt it's not the sand was corrupt it's the people of the earth so Heaven the beings of Heaven are called Heaven is that okay all right so Heaven is also used to explain the miraculous bread from Heaven fire something happened today from Heaven you Heaven touch the Earth today just to explain the miraculous so heaven heaven is also used Mountain before I get to the motif part different words used to explain Heaven motives in the Bible heaven is also use as um the height from which man function to explain our authority to explain our Dominion to explain how we function we function in heaven so we are sit together with Christ in Heavenly places far above all principality man is on the size of the North in the far height above the far north so to explain man's Authority man's functioning man was made super Supernatural man is Supernatural by Nature spiritual by Nature man is Supernatural though covered with an Earthly cloth called humus spirit inside hum human being AB be all right dust of the earth

man is made of the Dust of the ground but the what made man man came from God God breathed into man the breath of life and Man became a living Soul the physical casing is from the dust of the ground but the call of man is from Yahweh from God himself is that okay clear clear clear yes sir all right so notice the use of words notice the what notice the use of words all right so then the motives mountain is used to explain Heaven uh Mountaintop experience when you see all those different mountains mountains mountains men in the Bible is to teach Heavenly experiences above the Earth that which is above the head so mountains is that okay Hallelujah all right let's speak simple English that the lay man can understand we mustn't always be lay men it is the essence of Education to take us away from being lay men in our thinking all right so all all education stretch you allow a teaching always make you think beyond what you know all right what is salvation when you hear the word salvation how we Define salvation we affect what we believe and how we live now we've said this before I said this on Sunday that the different views of Salvation is what has how people view salvation is the origin of different denominations all right so there are before we Define what salvation is it's good to know what salvation is not is that okay before we Define what salvation is good to look at what salvation is not so when you mention salvation When you mention salvation and almost all Western Christian all from the Western View it's assumed that we mean going to heaven when you die now it was after the Middle Ages that the whole concept of going to heaven as the ultimate goal I mean what the middle age is let me quickly say this before I say what I want to say so that you know what you are writing PA a bit um one of the legacies the the consequence what we reaped from after the at the time in human history called the Middle Ages is these two concepts that has affected theology to today is the concept of going to heaven because it was not there before the Middle Ages was after the Middle Ages one of the things we reaped from the after the Middle Ages is these two concept going to heaven and the concept of an Angry God that Grace movement tried to explain in the very nice way and make the matter harder say God is angry with man but he will not just vend anger on man so he will vent the anger on his son and when he has finished vent all the anger on his son now say your sins are forgiven gospel what a gospel you know that's very nice so you not have John 3 for God so hated the world you understand that's so it's we always now it may be good at first you can get away with it it's better than I don't want to have to do with Jesus it's better than to be with Jesus and the Bible if that's what you believe okay at least we can forgive we can tolerate it better than to be with Jesus and the Bible ah that one is not too good the only problem with that one is when we now want to get serious with explaining Bible we will run into trouble because how do we now just aose how do we um reconcile this your angry god with text that shows that he not what you are calling him because the concept of the Angry God you have is just like an artist he designed something and he's seeing things go wrong with his design he not obviously going to be happy so what is he going to do he's going to set it right in his design that that is his anger so the rot of God is not an emotion that I'm just angry person so I'm angry no the rot of God abided on unbelief

John 3:36 so the anger of God is seen in unbelief man's refusal to heed what God is saying so you told somebody do this and the person saying no you're obviously not going to be happy that's why it's called anger not an emotional state of you dare me I am a killer you will not not believe in me repent or burn now the fun of the Jewish context of except you repent You Shall Perish was saying Israel better reconcile let's leave that shake you up a bit in your theology the twofold application of that context depending on which of the text you are reading for repent unless you will perish was more of AD70 perishing depend on the depend on which of them you are reading when you say repent or you perish because there was one he mentioned when he was talking about the physical calamities that was coming on Israel so which one are you reading if not you the same way you read your rapture two are in the field one is taking you read it outside the what was going to happen to Israel because remember Jesus did prophesy things that will happen to the nation people don't like to see that one because say Jesus was not a prophet is our savior he can be both oh God why can he not be savior also be Prophet because other relig say is not a prophet but he a prophet say is a prophet he not a savior no he a prophet it's a savior it's a messiah is all things it's all in all all right so two truths can coexist not be everything is always too fighting I put it to you that I cannot take that I tell you I tell you calm down because he did prophesy and they did call him prophet many times some people have even tried to remove all the place where they call Jesus prophet in the Bible even Jesus say a prophet after they just refuse him a prophet it's not without no no he spoke the mind and purpose of God he obviously is the prophet is a function terminology an Apostle Prophet Shepherd of our soul I mean it's all of those things amen amen so one of the legacies we we got from the Middle Ages not Dark Ages I know I know proper word I know Dark Ages I said Middle Ages that time period was that going to heaven and an Angry God and so many of the reformers from after the Middle Ages always try to teach around that Angry God perspective and that has shaped our theology a lot today so there's a difference between the bi good news or gospel and today's Gospel that is being Tau because many of our gospel today is good advice it involves many of the things we look at morality changes you use different narrative to explain it but what is salvation like we said so once we mention salvation like we said what people think of is we are saying be saved so that you will make heaven so it's an Escape the escape the Earth to make Heaven is one of the first things that come to somebody's mind if you say let's go out for evangelism right now we're going to tell the people so that they don't go to hell so that they will make Heaven you see that that is a problem that make Heaven you may technically say oh no we're not making heav but you will sit in your preaching say how we go to now preach that's a problem don't believe they will perish now yeah they will perish but that's really not how to explain salvation if it's inside that's why we are doing this series all right and that's why we're going to reexamine some phrases and concept so that we we can get away with saying some things but we won't get away with it for long if we don't teach things in their proper context one day somebody will superior arent will just kick you away and you will have nothing to

say so it's good to know things Foundation is very important in any building so your foundations need to be gotten strong ah can I do this okay I think I can do this let's just deal with Point number one there are too many false views of salvations now number one one of the greatest of the false views of Salvation is that salvation is going to heaven as the ultimate goal of mankind we are saved so that we ultimately go to heaven we are saved so that we will ultimately go to heaven so the gospel backstory is we are all going to hell this what how is popularly taught this is the wrong one but it's popular we are all going to hell unless a new way opens up for us and this new new way is not in terms of an announcement of something that has happened no it's not a new way in it terms of an announcement which is Go News gospel it's not an announcement of something that has happened no it's actually a good advice like I'm talking about the false view yeah so what we actually have is we are all going to hell unless a new way open for us and we what we are now told so that we will not go to hell is not a news but an advice but an advice is guidance on what we must do so we are giving the good advice and the good advice sounds like this there is Heaven There is hell so if you will grab this right choice you will not burn so which one are you choosing say I choose he okay now you're not going to Bor but after they get born again you don't have them fly away so we say okay what are we now doing now we have not gone to the heaven so he say just petch just chill just pet first when you die so oh what is the good news is it when I physically die say everything join we all just trying to figure it along aha you see thank God that even if you are not able to properly explain the gospel people see get saved that's how you know that he the spirit of God with all that that you are explaining it's not the spirit of God is just because the core of Salvation I'm jumping ahead of myself God help me today is believing loyalty is are you loyal to Yahweh is God your God because who who do you serve that's the core I don't serve myself I serve God I know that that there is God and he is my God that's the core of what is happening to the people so any of the ab you explain because the core of what you said had to do with somebody believing in God and trusting God as their God and that God that you painted for them looks like Jesus you may not have explained him properly but it looked like the real God and that's what they believed in then they really are saved but really not a great explanation really not a great way of communicating and that's why when we Rediscover the message we Rediscover the power of God onto salvation so that's why I will beg you a bit to be patient with me shaking up your understanding so that it's tooro so that it's proper as we reinvestigate our foundations is that okay and when we're done with this we'll move right into what is the gospel we teach on the gospel so we'll deal with the gospel itself again but we're not going to P winning so so even if you preach about a wine it's okay can I say no no more let go ande the wrong one they sh born again I mean SS Mar but you ate you didn't die of H now so try the water did not Bo finish but you turn the now all right so that's what so the way you cook the food it was just because you were very hungry so it was only hungry people that could eat it that's that's what the people the people that were not hungry but needed to eat food what you serve them they could not eat

it they could not believe that's why they could not be born again not that what you were saying you were saying don't you understand say I don't understand said don't you get that's what Jesus is for you say but I not do anything he say no it's not you it's Adam he said they leave Adam oh God said they tell me leave I'm not Adam now I say it's Adam it's Adam that made me like this but Adam is not my father I say what I'm trying to say is that Adam is your father father then the worst his way now try to use prosperity to get people born again say look at my shoe once you see my shoe you be ah look at my car look at my houses look at my poverty is your god that's obviously rubbish you're not leading people to Leading people away from God that one is rubbish but the same thing of preaching but so the first false view is going to heaven the going to heaven please calm down this is my Ministry because before you throw stones say did he just say we should not go to heaven I never said that sir please oh be attentive watch all right something somebody I explained the gospel to properly I mean for series a pastor for hours we would just talk call talk for like an hour two hours so he said let me just write it on Facebook I not join don't tag me I will come to your rescue he said there some things that you cannot drop with just one line the gospel is not going to heaven full stop say look at them the people that don't believe in Jesus look at them there is a heaven to gain and a hell to lose I came to tell you there is a heaven to gain and a hell to lose say what is he doing he has forgotten the gospel so you imagine that kind of thing everybody will call you because and really when you are able to explain that oh yes now so in order to be safe I will start from the ending of my note of this first view all right is that okay yes sir then we'll start from the beginning on Sunday so let's start from the ending part is that okay yes sir okay so there is a heaven and there is a hell so grab we are guiding you now to what you must do is grab the right choice believe what we are saying now the problem with explaining the the gospel this way is that Jesus himself didn't actually say much about heaven in that sense like going to heaven the kind of Heaven Jesus thought was not a kind of Heaven that people are going when they die instead Jesus thought Heaven as a reality now even in his prayer in Matthew 6:10 it says as in heaven so on Earth so instead of suggesting that we could Escape Earth to go to heaven instead of suggesting that we could Escape Earth to go to Heaven Jesus good news was about heaven coming to Earth now heaven in the Bible is not a future Destiny because heaven has multiple application but Heaven is the other dimension of our ordinary life the other dimension of this world there is the sinen and the Unseen part of our existence the Unseen part of our existence so God made the seen and the Unseen word God made the Unseen word and the sin word God made Heaven and Earth and at the last he will remake both and join them together so when we come to the actual picture of the ending in Revelation 21 and 22 I posted this a bit yesterday when we come to the actual end in 21 and 22 what we actually see is this we don't find Ransom Souls we don't find people that are saved Souls that are saved making their way look at my hand making their way into a disembodied heaven we don't have [Music] spirit I I get there now do this thing quick play so we don't have when we get to Revelation 21 and 22 we don't actually have

I'm waiting for you don't don't kill don't kill my Bible find the kashika find that kashik find that type of so the end now the end of all things is upon us that's Indian fale [Laughter] so when we get to the actual revelation 21:22 we don't have Ransom Souls making their way to a disembodied heaven but rather we have New Jerusalem we read that already 21 come coming down from heaven to the Earth AB so the last SC keep keep our spooky music the last scene in the Bible is not about saved Souls going to heaven which is quite strange because the whole going to heav go but we actually see that it's not a going up to heaven is about the New Jerusalem coming down from Heaven to Earth creating the new Heaven and new earth and we are the one which are one and the same place of course so when Jesus said your kingdom come your will be done on Earth as is in heaven the good news is actually about what Jesus has done if we using Jesus let's put it this way um see see salvation is not going to heaven but being raised to life in God's new heaven I've still used heaven let me try and use heaven nowar so you get it I just don't please don't tweet it don't post it don't put it on WhatsApp cuz I'm taking risk posing here but I'll repeat it again and again and find a safe landing in the next few minutes salvation then is not a going to heaven like an escaping the Earth but a being raised to life in God's new Heaven and new earth a man is raised to life in God's new Heaven and Earth while awaiting all the Earth being EX exactly what has happened to him internally I'll rework that so is not a going to heaven like an escape but it being raised to life in God's new heavens and new earth so that what has happened to us internally is what is going to happen to all the Earth that we live in because we are already in God's new Heaven and Earth because we are God's New Creation and we live in the spirit and walk in the spirit we're already living in the new Heaven and Earth but it does not yet appear so so the good news of what has happened is connected to the good news of what is still going to happen and there we have why it looks like oh when the gospel is start there's still something yet to come so we have the present age and the age to come what you have in the Bible as the world to come so there's this present world and the world to come so since Jesus came died on the cross Rose from the grave the kingdom has come but the kingdom has been like a leav it has been growing and spreading and covering and it's still progressing until get to the point where all the Earth is now the kingdom of God not a going to and that's why when you actually read the Bible you see Zero and I'm going to do a Toral work trust me we read all the reference that any teacher any preacher have ever used to explain going to heaven you'll find zero there are none none exist about a going to in the sense of a disembodied going to a a planet where dismod Spirits are but an actual every time you saw heaven in the Bible John was in heaven and he had not died Believers had Heavenly experiences and they were on the earth so when we teach Heaven as at the end of the world what really is saving us is it life or death death really is the savior and what we are saved from is death that's why we will die no more are you getting this so there's a lot that needs to be what explained so when we have when we realize that we are being raised to life in God's new Heaven and Earth now this is actually the one that you have many Bible verses for you see hints assertions

all talk around this so we are not waiting what we are waiting for is not in the longdistance future we can enjoy it here and now any gospel that have you know enjoying something the year and now postponing it that is the great great looking forward to what do we now have now nothing but we're just looking forward to no something has happened the gospel is the good news that something has happened that has changed the world and changed how things are and things can never be the same again and this is it in their world view Emperors die and Emperors take over different Emperors and so there are good news just like the Hebrew context is the word basa A Reign of a new King has begun so when Paul uses the same word that is found in the Roman Greco word for gospel people could give him ear because he want to speak about what a king has done and that that has made the world not to be the same again so everybody will listen because the gospel is a good news of what the King has done and the Earth is no longer going to be the same things are not going to be the same way they used to be that's why it's good news because there are different good news if you told somebody um good news everybody listen your child that was sick is no longer sick that's not good news to everybody over the world that's good news to that family that you are telling so they told them that they were they were they were going to surely die is 2 years to live but now that's sickness has disappeared that's really good news but that's not good news for the whole Earth but the gospel that we preach is good news for the whole earth a widow has not been able to survive and all of a sudden somebody paid \$1 billion into our account that's really some good news but that's not good news for everybody because it not pay to everybody's account so we are saying oh we don't like the way this country is we don't like the way this country is what will happen that will change this country now then we now he that the whole country has changed that is a good news for Nigeria but it's not good news for the whole world but the gospel that we which is good news for the whole world so it's an announcement that something has happened that that have made the Earth to not be the same again and can never be the same again that has altered the course of event someone has come and has changed the whole course of things and hear this message and this message makes you a participant in the great restoration of all things because the kingdom is forcefully advancing the vi it by force kingom of God is advancing and it keeps spreading and men are pressing into it there's an advancement something has happened that has changed the world and that's what we are going to explain in detail what is that news we touch on it a bit the next year we explain what is the gospel but we're dealing with salvation so once I see salvation only as a going to heaven now calm down a for those of you at least you guys have the ones have been Tre for many years now we have realized that that look at all the phrase of the word heaven where is now that heaven now we are the ones that have used that teaching over the years of going to heaven and if the only time that going to heaven can ever be correct is if you have Heaven as all the Earth what I say all the Earth people don't like when we mention earth when we're talking about heaven they say you have turn to Jehovah Witness you say you are car briefcase because they the ones that say no what

they teach not correct use proper phrases wrong explanation use the right verses what I mean by proper phes the mix inherit the and give it wrong meanings and say man dies is just like anim all of that makes man not to have a spirit explain Jesus in a wonderful manner so all of that is is why we can't take them seriously but write verses cuz you see a lot of textt so we're going to walk it through again because once you hate the Earth which is what the popular gospel message does to people it makes people hate the Earth then those that try to make us love the earth now make us become can in the name of loving the Earth say occupy go over win Miss word is you can wear your bikini I not know what they wear say shake it everywhere move around you have won you are now the most beautiful girl you have taken over the gospel is moving we are moving we're moving like that that's that know how to move oh that's not the gospel used to take over everywhere Darkness has no so we occupied that is not explained wrongly too so there's a place for all of that I'm making you think evening you are eager what next and a good way to pause is this so salvation there are many false views many many false views say oh but ah we don't use so like I said the only time we agree with your going to heaven is if you have God man supernatural beings all living together and we said so which Heaven and Earth is being destroyed for those of you who are new I've said this in passing before but the heaven of supernatural beings that are demons devils and what we mean by Heaven and Earth Heaven supernatural beings Earth human beings Devils demons unbelievers and all the other things that God did not create sin death evil wickedness all Darkness everything that God did not create will all be removed from the Earth right now it have been removed from you and me but has not been removed from all the Earth and that is the problem when we don't have a gospel or a Salvation that has to do with all the Earth it makes us selfish that's why we don't want to tell somebody else that's why we are self-centered is just about me that's why we wonder what's going to happen to other religions because we don't understand what the gospel really is and how longsuffering and tolerant God is and exactly what how he accommodates others and where is the place of all of that what exactly is being communicated how is Jesus the way how will everybody get to know about Jesus what exactly are they knowing about Jesus so that's quite a lot to explain so why does God lay claim on the and say the Earth is the Lord and the fullness thereof why is the earth the Lord why how did he make the Earth that have laid claim and said the Earth is mine I'm not going to let it go the word is mine Hallelujah so we know that It ultimately ends with us God supernatural beings the good ones good angels all together living together forever and ever but that thing does not happen in a planet of disembodied Spirit it happens here so we're scammed because that is not a going to heaven that is yeah yeah yeah yeah yeah then what is the whole point of a resurrection why are we putting on another body if we are are we already ghost enough when we sleep the sleep is used to explain our bodies our bodies are resting but our bodies are going to rise and be glorified so there are many Concept that we need to reinvestigate so why he using sleep not to explain our spirit because he said to be asking for the body to be present with the Lord so Paul did not say is in a place of

inactivity say I'm present with the Lord so it's already present with the Lord now so why do we have to now come back from being present with the Lord and now put on body if the Earth is not important so calm down the Earth is very important you say earth as sand come down the world of interaction where Heaven and Earth is together and that's how it ends so if that's how it ends that means it should be easy when we understand the Genesis to Malachi story and before you clap for me and praise me so well that's not the of this teaching because there are many other persons who know this things that I'm saying and I'm not the only one God have at least 7,000 God always have at least 7,000 that know anything you are trying to teach so don't give yourself UND du credit more than you should but we do honor and appreciate those who know it but it's the truth and it needs to spread more is the reason why God has raised men in different ages who will say oh the new the thing is the gospel of grace then some will go for that say it's the gospel of the Kingdom that Gospel of the kingom is the real gospel there's sense in all of those things but the core what is this great announcement and what is the message of Salvation that's what we seek to explore in this series hope you are ready so on Sunday we meet us better of God further a bit and we explore what salvation is not and we look at this and we'll thoroughly be able to explain this why it's not a going to heaven and we look at all the text around the going to heaven what does it mean we citizens of Heaven what talking about Pilgrim what exactly is he saying because it's looking like we are going somewhere what exactly will see what those phrases mean is that okay and if you know you know we don't used to dodge we look for all the words and phrases that people use and explain them properly are we good what I want you to leave this service with this evening is that just like we left on Sunday God is a good god I want you to leave this service this evening knowing that go God does not need you to know everything for him to do what he's doing without being able to properly explain people have still been able to get saved and you find that many of you what you have been explaining isly correct you may just the part where you see had what you learned from other preachers here and there to make your evangelism sweet in the name of Grace in the name of your sins are forgiving is the challenge can talk about the good news the love of God but there's a lot to see that God doesn't need us to have everything figured out he can walk in spite God is the god of Providence yeah he's a very is he he is good to know things properly but God will move in spite or despite our insecurities our uh fallibility of how we speak how we communicate how we explain things because he really wants men to be saved let them just eat the food may not have been prepared so where but let them eat the food but he does want us to prepare the food very well so that everybody will be running from all over the world and say that is the best place to eat for we have heard that there's bread in Zion Hallelujah this Gospel of the Kingdom shall be preached Matthew and says then the end shall come and that's the gospel that we preach Hallelujah something has happened that has changed the world and the world is not going to be the same way again what what has happened to the world as a new president being appointed in America I said no that one is not what we are talking about something has

happened that has changed the world is there a World War another world war that is the kind of nature of the good news that we preach something has happened that's what makes everybody listen what something has happened that has changed the world something has happened that have changed you something has happened that have changed how things should be seen how the Outlook of life is it is not good advice it is good news it's not good advice it's not wrong news it's good news and that's what we will explore a bit more amen am trust with all these my few words I've kept you in a place where we have landed small small turbulence but we soon Mo further there will be no turbulence anymore we are still building we have not seen how the building will properly look but we know it will come out very fine so allow the bumpy here and there but you will get there you understand what we are teaching amen salvation God wants us saved Hallelujah God wants the Earth saved so remember the topic is walking salvation in the notice we didn't say you are saved we are dealing with the Earth so that we look at what is it about this Earth so there are still a lot to study thank you jump on your feet this evening and let's just pray in the Holy Ghost and as we pray good we think on the fact that God can work in spite and thisp of us AB must appreciate the grace of God so appreciate the grace of God that God is's really a gracious God AB In Spite and despite how you have been able to explain he gets men saved he fills men with his Spirit God is a gracious God he a merciful god thank him thank him oh thank you Jesus this
