

into our hearts in this service again we know that we shall be blessed mightily we declare that the things that ought to be said in this service will be said the things that ought not to be said will not be said even again as we study around the theme of Salvation we live here knowing much more about what it means to be saved what it means to be born again what it means to have eternal life we get to understand what is your plan in all the Earth again our understanding would increase we bind ignorance we bind confusion we bind every form of distraction and we lose understanding in this house this morning we are made of quick understanding by the power of your spirit for it is the spirit that gives one understanding for wisdom comes from the mouth of the spirit and now in this morning in this house I ask that as your word is taught let wisdom flood our hearts Will Made of quick understanding Open the Eyes of our heart Open the Eyes of our understanding and will see and understand your Plan of Salvation better in the name of Jesus amen amen God bless you have your seats walking salvation in the earth walking salvation in all the Earth Psalm 74 and we will uh read our anchor text and then we just go right to where we stopped on Wednesday Psalm 74 and verse 2 it says for God is my king of old for God is my king of old walking salvation in the midst of the earth who is working salvation God God is the one working salvation God is the one working salvation in the midst of the earth thou didst divide the Sea by thy strength thou break the heads of the Dragon in the waters thou break the heads of leviathan in pieces and give him to be meat to the people inhabiting the Wilderness thou didst cleave the Fountain and the flood thou dry up mighty Rivers the day is dying the night also is dying thou has prepared the light and the sun thou has settled the borders of the earth thou has made summer and winter you jump to verse 20 have respect unto the Covenant for the dark places of the Earth are full of the habitations of Cruelty and that's what God is undoing the dark places of the Earth are full of the habitations of cruelty and that's what God is undoing by planting his kingdom here hallelujah we did an uh a quick intro with reg chapter 1 1 to 4 and emphasize what is his plan in the beginning God created the Heaven and the Earth the Earth was without form and void Darkness was upon the face of the deep the spirit of God moved upon the face of the waters and God said let there be light and there was light God divided the light from the darkness light it called day you know all of that explanation is there there's a reason why such explanations exist and we said oh we can separate the two waters we see there because it says the face of the deep and the face of the waters and we saw that the face of the deep is used to explain Darkness was upon so darkness is upon one and the spirit of God is upon the other speaking about where the biblical writers get the theme that the mass of water covers the sea it is from that original text and um like I said within every culture there is always uh the euroba the EOS the be culture all the all the cultures you know have a teaching or mythology they call it a creation mythology is in every culture have the tax of ala to go down B osoba then the four four of his children came down then he go the middle they tell you all of those long stories different cultures uh chi and AK the later is now chi chi the male because of the mtic the dualistic uh way of seeing things monolithic before creation after creation there's a dualistic way people see things male and

female things are impair they give all of those explanations they bring oshimiri they mention water they mention they give all of those explanations and people say oh it makes no sense of course because it leads to idol worship that's why it makes no sense however the world view of the Bible now these are quite modern because there are more ancient cultures than the ones we mentioned our cultures are not as old as the Mesopotamia the Canaanite and all of those other cultures they are the far older cultures and the biblical writers lived in that older culture so just like I mentioned some many things now that's how they also knew things about about in their in their Mesopotamia mythology what is called the ENA El they talk about oh what the high god maduk what gigamesh what does this one do oh Canan mention what bar can do asot all of those Idols that you saw later were worshiped oh then they go to Egypt what does r the son God or or put what does all of this what are they explaining they say this say this say this so it is within that culture because we say when interpreting the Bible we must take L of theory things contextually when we looking at the context the context of every study would have a historical background a cultural background and a grammatical background people have said all manner of things about the Bible some people say let's get rid of the Bible it has been used to say many things and I we said no the Bible is a simple book The issue is that too many ignorant men have handled the Bible it is a book and as every book it is a work of in intelligence no one writes a book out of foolishness a book is written it's and once you see the literal connection that over 40 of us writing at different times or saying similar things that connection and weave can only be done by intelligent design so there must be a measure of intelligence within the book and so when we read the book we must read the book outside intelligence even God says come let's read it together Isaiah chapter one your things be God wants us the Reason God created man with brain God is not scared of our brains he gave us one he's not scared of our rationalism he's not scared of our thinking uh there a a debate that have gone on in many of the old universities that were instituted under Christian foundations Oxford Cambridge those universities that were born out of uh Revival in anient time many of them have slipped into aism and recently there have been many debate again raging on oh why why science why God is science and God and I love the way many persons answer those questions and is also the reason why we must present the gospel intelligently so that we don't give room to mockers and gainsayers because we are not intelligent in our communication of the Gospel we give room where we just say things anyhow and where people say things like just chapter 1 you see people use that over the years to file use it to fight I remember answering uh some University students questions on the same thing oh how do we answer this or taking a course on religion in this how do we answer our question around this the professor is doing this and I always tell it's good to observe what is the argument because once we already are using the Bible for what the Bible is not designed for we're going to be in trouble the biblical right there have been different periods of time and the longest of them have been the mediev period from the 5th Century to the 15th century and it's within that that the Italian Renaissance called

the Dark Ages that is their own Co they call it the Dark Ages now because of what now led to the Enlightenment and science so science is 167th Century the rise of science starting from s Isaac Newton he wrote the mathematical book philosophical he wrote that wonderful book that shaped science he is before Dar he was born before Dar so before Charles D all of them started spewing out their own theories of science pay attention to why I'm not trying to show you I have knowledge I do have knowledge but that's not the aim before they started spewing out all of their theories why do we now want the bi writer that live far before there was ever a thought of that that wi for before there was ever a thought of s Newton before there was a thought of all of the men or if we go back to the Greek Scholars uh the theory Greek Scholars starting from Socrates Plateau Aristo in that order of who came before who when you look at all of them and who they learn from Pythagoras where we get our mathematics Pythagoras all of those people who they learn from Homer uh all of the persons that they learn from who have shaped much of what is called Western thinking and much of what is called the theories of knowledge epistemology the theories of knowledge how people think how people derive knowledge what is this why do we ask this how do we Define this how do we explain this all of such persons we will be bullying acient men when we want them to know all of these things that came in time will be bullying them to think like that and to write like that no they didn't think and right like that so it is now on us to understand what we understand today in how we think and understand all of these things that we understand how the teach you space is know yeah space matter and time I being in science is space matter and time both all the the are a continuum you tell you space time time they tell you time past present future I all of them my Trinity past present future space length weight height AB be um matter solid liquid and gas Ian they teach all of those things oh where did all of those things come from you know man has been studying because science is the study of the physical science is the study of the earth and one's interactions with the Earth so it's and is the the height of five senses now the Bible writes about the Unseen word in the seen word so you already have an issue it is writing the Unseen and the scen together because it talks about faith and when we talk about faith people say oh listen there's reason why I'm coming from this intellectual angle when we talk about faith there's a a pastor called Dan Baker he used to be a preacher 19 years he was a pastor and all of a sudden he became an 80s uh uh a scholar of Assa in Oxford and he began to spew out many theories and many before them Richard Dawkins and all of those wonderful people who were once supposed claim Christianity and salvation how does a man claim salvation how does a man like Dan Beaker who preached for 19 years radical radical in his preaching on the street become an 80s they we always say they never met Jesus they just raised in a Christian home but they never met Jesus they never had a Salvation experience and that's why we must know what salvation is because when you listen to the arguments they say things like this Faith he said that is faith not things hopeful evidence of things not sin but you see when we talk about faith is it like can I say I believe that 8+ 8 is this I believe that this and because we can prove it we can solve it because

there's a difference between faith and evidence between faith and evidence there's a difference between faith and evidence that is the problem and that is why he is no longer a Christian in his de conversion because he had just defined Faith as evidence of Things Not Seen then say there's a difference between faith and evidence you said faith is evidence you said there's a differ between faith and evidence that no that evidence there because are we all going to hold our hands here and say oh streets are being tied oh hospitals are being buil amen and they all being built that's not how we reason to think that that's how we reason as Christians is an insult to our faith that's not how we reason that's not how we think but the challenge why those things where those view points come is when the same thing that is going to happen to some people in their name of sound Doctrine once you have a push for knowledge and you remove the Unseen word and the supernatural you are not going to think properly because you think you are making sense but you are not making sense because what all those people lack is a vital Supernatural experience which is the core because the things we we say in the Christian faith are experiential so we taught a Series this year on experiences if you remove experiences then there is no Christianity once you make it all oh I have this knowledge I read this book it is the great knowledge what I know is beyond just what you know there is an experience to this thing so if you never had an experience of what is in the book we may doubt your salvation because everything in the book you didn't have the experience So You observe doesn't speak in talks okay doesn't believe in Miracle how you obviously going to obviously deconvert because you know nothing about the Christian faith because once we remove the miraculous remove the supernatural from the Christian fa we are left with nothing it's not just I know this I say this I can explain this it's more than knowledge alone it is my faith that informs my logic you see why I use that phrase not my logic informing my faith because if logic bets my faith then I can deconvert and you will now say oh the person long a Christian it was never a Christian because it's not logic that bet faith it is that's why Faith becomes our Doctrine our understanding we teach the Christian faith because Faith becomes our understanding teaching good this morning Faith becomes our understand that's why faith is used to explain is what we believe that we teach not I'm teaching so that I will come and believe it no I started by believing in God so I'm not studying now so that I will not come and believe I already believe I'm simply knowing what I have believed so there's no study there's no research that can take me away from the faith so when we have all of these brilliant men I'm going to go back to all their positions because we're talking about what salvation is the question mark we stopped on Wednesday what salvation is and we said before we look at what salvation is we need to know what salvation is not so because some of these names I mentioned and the ages I mentioned is where the theories of Salvation we get today come from because much of the church has been influenced by westernization that's why you hear stories like it was the white man that b we were having our own culture what are you saying the white men there was no United States when Jesus died there was no Nation like that had not even be formed neither has Columbus even

been dreamed of there was no England neither there was no Britain there was nothing like britania there was nothing whether you bring the Anglo Saxon there was no England Paul never had a nation called England so imagine you say England all these people they br to Africa when you already had Philip in your own Bible preaching to somebody called ethopia unor how is that just the same ratia and the way they bully Us in Africa like we are backward they are forward no when you realize that Egypt was a was the first greatest world power that's serious and Egypt is not in America it's not in the America North or South nether is in Europe though today they try to act confused because of how close they are to Europe wanting to claim Europe just being silly but you know Egypt in the Bible is not just the country Egypt Egypt filters down to the edge of where you have ethopia so all of that was Egypt after ethopia downward was all ethopia so there are not many countries have broken broken broken broken to what it is today some retain the original name just like Russia is not Russia Russia used to be far bigger than it is now but there are many nations have come out from Russia as at 70 years ago you what you are calling Russia Today and what you calling Russia some 780 years ago will not be the same all right so you you all get that that's the same way so when we try to make the Bible look like can the Bible can the Christian faith come from a logical point of view yes can the faith be reasoned from a logical point of view yes the Christian faith can be reasoned from a loic loc point of view however logical point of view is not why we are Christians hear me well hear me well so that you don't have this idea because that idea is also what we know not everybody would be intelligent enough to confront intellectuals and their different viewpoint but don't fall into that idea that Christianity cannot be rationally explained don't fall into that idea that we cannot rationally explain what we believe and why we believe what we believe and why this is the real thing to be Bel don't fall into that it comes from poor presentation of the Bible and the poor way we read the Bible and understand the Bible That's why when the Bible is Tau properly even your eyes open like a then like I said last week which ew is the proponent of said that the IQ of a man who understands salvation and Redemption increases and that's true because really when you begin to understand how the scriptures were put together that's a long of thinking there you will get smarter it will do something small to your brain amen though that's not his work but because you are leing something will do something to your brain Amen Hallelujah prise Lord the supernatural explains many things H Supernatural explains many things God is before time he made time he's before any of the things that was made and many of the arguments I know this not our Focus but like I said there's a reason why I'm presenting this views because say oh why does all of these things if they has to be a creator for complex design okay so somebody must have created God that argument begins to look more stupid since God since we say God is the creator since God had intell somebody must have also created God we miss the point that's why it's called God can't have been created because the signature of God when we T again this who is like unto God is that he's the uncreated Creator there's none before him that's how the scripture begins so when we say in the beginning I've told you the B writer

was not writing that God has now begun but actually writing Moses the first writer because is in Egypt that the technology of writing allow us use the word technology because that time it was a breakthrough technology that people are not writing because it was only or tradition so from the hieroglyphics and other forms of writing Moses now that learned in Egypt where you say God does not care about who you are what you know what you have God cares because God is using that man's intelligence and God will now use and Inspire and Empower Moses to write Moses who have such a great understanding of the Christian faith he will not write what we believe right and using the stories of what has happened to the men before starting from the first man Adam whether you don't want to call him Adam whether you want to give him but there has to be a first person if not how the other human beings come there must be a first person and in the Bible Adam and Eve and it's not a fable it's not a madeup story oh they are talking snakes no it is again people using all of those things to debunk the Bible because they don't know the spiritual inut so when we study properly so I will say this this why I said all long story The Bible and which is why you must love Bible study the Bible when properly explained will beat any atheistic argument hands down anytime any day the Bible when properly explained will beat any philosophical argument the Bible when carefully explained when explain the way the biblical writers intended it we always win every argument and yet the Bible is not for wining argument it's for our understanding amen so when we properly explain the scriptures we are not at a disadvantage there is nothing we can't explain and and to think that the Bible limit this the Bible hinders this no that's why we must love truth we must love to see the scriptures properly explained is that okay all right so bring us back to what we were saying so we ended at a good paragraph We have looked at Psalm 74 we looked at Genesis chapter 1 then we said okay let's go into the teaching properly what is salvation we said we can't look at Salvation without looking at what salvation is not now I said what I said just now because um in looking at what salvation is not false views of Salvation the number one false view of Salvation did not exist up until the end of the Middle Ages it is amazing and this was me I had to go again and uh and check it before we started this series two weeks ago I had to go back and check again so that I far check myself there was no I even ask all the AIS and they were so dull you can see that it was programmed by men they said where the con of making Heaven Come From AI said from the Bible so I critique it critique it say oh we still searching for more dat you better be searching don't be seeing what happen that's not in the Bible there's no data like that in the Bible prove it by giving me a reference gave me a reference that reference is not it and you know because it's computed by intelligent people so he understands context so we need to get gather more that are beautiful gather more data don't be answering what you don't know say it didn't come from the Bible no doesn't didn't come from the Bible the concept of making Heaven originates from the teachings of plateau because he taught a disembodied man as a disembodied Spirit going Souls transit to somewhere else because heaven was thought as like an an Eldor City a place where all the Earth is something else but Let's Escape away that whole concept is came from Greek

philosophers and they were also the ones that argue is there God is there not God so all of that came from and that westernization that led because after that period led to more rational thinking and all of those things that brought science and all of those things it came from all of those studies so the Legacy religiously that we a legacy that religions have from the Middle Ages was these two pictures of a making heaven or a going to heaven concept that you need to escape the Earth and an Angry God and sadly much of the reformers in those timelines taught and weave their understanding around those things without investigating was this what the original Apostles and Prophet thought and as always so that you don't think what I'm teaching is exclusive God always have 7,000 I have not bowed so there were men within that same time but as always it is the most famous ones that are the loudest but that somebody is famous does not mean that they are the correct ones so the people who had enough who were more popular were the ones people ran with what they were saying but they were not the correct ones are you following so when time we say people say quote somebody ah I mean I can quote for everything that is correct we can quote somebody who have said something something even within the Anglican Faith within the Anglican all the different denominations they have been people who have Tau even within the Catholic denomination there have been people who have reason and argued differently and thought what is correct those stay true to those denominations for any reason God knows why but they did explain what they said correctly not everybody explains things correctly and come out break out or form another denomination not all Hallelujah so so when we mention salvation almost all Western Christians all because it's not common why do we use the word Western why not Eastern yeah because Eastern Christians did not have that concept because first and foremost is even against their culture and all the Earth began from the eastern part that's why we always say the East near East so all of the development so when you read all of those where we not have today Middle East and all the towards that Arab region The Edge there where the Egypt and all those places are when you look at all of that their Viewpoint ancient time was more on Heaven as an unseen word because they saw the world made by God as two parts the world has Heaven and Earth are you following the word has Heaven and Earth they didn't see it as oh what came in that idea of Heaven is upstairs Earth is downstairs Heaven is Supernatural Earth is natural in the sense that there's a distance or and there is a difference no because and that is the same Viewpoint you have within the Bible within the Bible within the pages of the scriptures because no biblical writer taught Heaven and Earth with a distance because every time you saw and which we will do so that you because many times people who argue don't have patience I always tell them let's read all the reference for heaven they say I no now you want you are the one arguing against so let's be patient and run through all the reference and see that no reference of an activity of Heaven ever happened outside the earth I say but not Wier than the people who live before don't say stupid things how can I not be W than that live before if I'm not W than them something is wrong with us every generation coming from the next should be W than the

previous generation if you don't want to be wise don't put me in your box and say things with authority like that we have them we're not going to insult them but we have their shoulders to lean on we have drunk from their Wells so we can't insult them they worked with the light that they had they work with the limited informations that they had but we have more sufficient information we can draw more conclusions better than them and we do not in any way claim to be superior to them we simply just say what we are saying that no there are other ways to explain this working with the information that we have Hallelujah so when you mention salvation like I said so in case you are wondering all Western Christians assume that you mean going to heaven when you die and that problem like we said came as a result of what we inherited from the Middle Ages a theory of going to heaven as the ultimate goal and also an idea of an Angry God and that influence came from Greek philosophy now plateau in his vision of souls entering into a disembodied BL than into a Biblical picture of a new Heaven and new earth So within the Bible you have a new Heaven and new Earth theory but to had a going Souls entering into a disembodied B and that is the common one where you say we fly away we disappear we have entered into a heaven so it came more from their different theories and because they shaped knowledge they were the founders of Education they the founders of academ Academia they the founder of all of those rational reasoning we have much of what they say with without even knowing inside our thinking we're already born with that kind of that's why you don't need to be a Christian to have this idea of a going to you think it's only Christians that there's this going to there's this escaping the in every form of understanding because much of reasoning that has been added to it and that's why people say even your Bible even your this say no no no don't stop mentioning our Bible your Bible your Bible as if you know what it says because we can explain it in the light of what he's saying and you can far check it by being patient and let's really look at the Bible within his context not all change that's why we must understand the Bible very well so does not look like we are dodging when some that is Old Testament no no explain it well even to those laws explain it way and look at the context you'll be able to explain without having to dodge and say this one no Jesus died to remove it don't do that which is why we must love Bible study are we good so when we actually get to Revelation 21 and 22 we read this on Wednesday we see Heaven coming down and that heaven New Jerusalem I be the last scene in the Bible in the book ofation chap 21 turn your Bibles quickly I will not assume you know look at it it's not about saved Souls you will don't see saved Souls going up to heaven actually we see New Jerusalem coming down we see and not coming down from a planet we see that God's plan is to create new heavens and new earth the actual end in that Revelation chapter 21 I'm not reading it but I beg you to read it in case you are not familiar with what I'm saying so that you see it ration chap 21 R CH 22 just look at the first five verses go to chapter 22 look at the first three verses you also see what we are saying we do not find Ransom Souls making their way to a disembodied heaven so that idea we don't so if we have it as the ultimate end of the world when we go to the book that is the book the last book we don't

have that picture but why is it now so popular say no no no nobody's going to convince me otherwise we are not saying that there is no Heaven nobody is saying there is no Heaven nobody saying there is no hell nobody saying none of that the way you explain it and what you say it means is the challenge and that's what affects living so it's now what you you got born again but just wait wait until you die till you enter into that is not the Christian promise that is not the Christian faith that is the reason why a lot of Christians are not living as Kings and Priests because it is just oh I'm born again oh it's just one of those things just like I community so I'm also a Christian too i' also association called Christians okay so you can number it among ones of the religion just like this other one I pray five times a day oh we pray how many times a day in our own you have your holy book we have our holy book you go to a temple we also go to a temple that's not what Christianity is that's not what Christianity is because though the people who believe in what Jesus did are now referred to as Christians but Jesus is not died for Christians he died for the whole world he wants all men to be safe whosoever call the name of the Lord is a whosoever he wants everybody are you with me yes sir not that oh we let's protect our sect our own sect is Christianity and in our own we are trying to escape Ransom Souls delivered Souls saved souls are making their way to a disembodied heaven so all of these pictures and other thing that led to it are major theologians like Wesley in his great hymn talks about the picture of the last day with all the redeemed in heaven at last and all of them all of the different major theologians in those days reformers in those days they were Revelation chapter 4 and chapter 5 quickly look at it I have an assumption you read your Bible and I'm talking from the Bible so chapter 4 we won't read everything and I looked and behold the door was open in heaven look at it John is on the earth he say door was open in heaven this one did not have to die and it's you understand all right so it's not that he died and they were praying for him to come back to life that he saw this picture so you don't you can't manipulate any of these things because the man is having a vision all right and after this I looked and behold the word looked there is one of the words used how you you deliberately fall into a vision you can just the same way Elijah said Elisha said Lord open his eyes that he may see so El Elisha obviously open his eyes to see that there were angels all around so he wasn't scared but in second Kings chapter 6 his servant was scared so he said Lord open his eyes that he may see that why you say open just like you open your physical eyes to see that's how you open your unseen eyes to see how do you open your unseen eyes you lift your eye Beyond the natural reality could there be something else Happening Here in the other dimension could there be something happening here beyond the physical and all sight is regulated by what you can look at you can see this handkerchief right now but when I put it behind me it's not because it does not exist it's because you cannot gaze you cannot look because you have to look to be able to see are you following so when when you look when you shift your reality you will see Hallelujah when you shift your reality you will see when you shift your reality you will see so the man which are why you should attend all that Mee where we teach on doing things in the realm of the spirit AB all right

now I gave you all the applications of Heaven again last week wday I've done that several times this year so I'm coming from that point of view I give you eight application of the word heaven so every time you see heaven in the Bible is one of those eight things you talking about supernatural beings the unen real the miraculous a short form for supernatural beings Where Angels or demons are some they say I am surprised that the devil is in heaven see the only reason why he there is because there has to be somebody to accuse Us in the court because there cannot be a lawyer for there not a lawyer against all those intelligent crafting unnecessary heaven is you are just going you are stressing yourself and making work too hard how who the people protecting the brothers of Heaven how they let Satan enter calm down that complicating things when you continue teaching like this now you'll be raising more D people thinking you are helping no because other P are going to go home thinking more on this thing and they not going to get wiser they going to get dollar allow that English nothing like dollar after this I looked and behold a door was opened in heaven and the first voice which I heard was as it were the trumpet talking with me which said come up here and I will show thee these things which must be here after and immediately I was in the spirit and behold a throne was set in heaven so he was in the spirit so in the spirit you see heaven in the spirit you interact with heaven so that's why we must learn how to be in the spirit but how do I now be in the spirit these our previous teachings that we have done over the years every Christian is in the spirit the issue is why how will you how salvation explain to you because being born again I'm in the SP Romans 8:8 so then that in the flesh cannot please God but you are not in the flesh but in the spirit if so be the spirit of God dwell in you if any man have not the spirit of Christ is none of his so I'm in the spirit because the spirit of God dwell in me so the spirit of God in Me So I'm in Christ Christ is in me that's why I'm in Spirit but you can be in the spirit and not do something from there like many believers who have not been taught about the supernatural they have never done something Supernatural That's when you see a Christian say things like I did not know I can hear the I thought it's for all those emojis I thought it's not for people like me which is people like you right from the beer paror we have gotten people born again there was a stick in the hand they stopped smoking got born again from that point they could prophesy See Vision because once a man have life of this Christian faith is Supernatural they don't grow to become a son you are a son you are a son you simply grow to know your right and privileges not I'm a child of go I'm a Child of God my sons are not growing to become my sons they are my sons now they may be young they may be very young in their ages but they are my sons they're not growing one day they will become my son what kind of stupid father am I they are growing to become my son no every privilege that they should have as my son they have it they are not able to use all the privilege yet because they have not grown the more they grow the more they will be able to use all the Privileges that come with being a a son of mine are you following that's the Christian faith that without an external Source without tying something on our hand and our leg without chewing something just faith in God positions us to become another man that is

the power of Salvation we are transformed not now after being transformed now start waiting until the day our disembodied spirit will make his way to disembodied heav so now we are just waiting is the same theories that same theology is what bettered many many scientists now say since Christians already believe the Earth is going to be destroyed so many persons also say things like which you can f check and see they say things like since the Earth is going to be destroyed why should we bother about greenhouse effect why should we bother about global warming why should we bother about we can we can poison the air we can destroy the ground because the Earth is finally going to be destroyed are you see the product of B theology so people are not using Bible to support they they damaging the environment because everybody is just trying to escape Escape Escape it is easy to believe that year because within the Africa culture there has been a lot of abroad abroad so abroad and above sound similar so it's easy to buy into the going abroad going above going to heaven it makes sense well packaged for well packaged so that's why it was not hard to to to agree to it amen after this I looked and behold the door was open in heaven so Heaven is mentioned there and you notice and round about The Throne were 4 and 20 seats upon the seat I saw 24 Elders you see all of these pictures now you are used to it it's in chapter 4 the same in chapter 5 24 Elders one of the ERS said unto me chapter 5 verse 5 weep not behold Lion of the tribe of Judah has previl has opened the book the one of the elders said to me you see all these 24 Elders all of these pictures beautiful picture beautiful picture beautiful picture and that's why many have said see it this description Revelation CH 4 and chapter 5 has been used by many as a picture of the last days mention the name of one famous one because of his songs he has many songs which is where we get many of our flying away songs concept all of those songs that have will you be ready all of those those songs everything that has this tendency of escaping or fly away fly away to Z any of those Concepts Revelation 45 is not a picture of the last day it's not a picture of the end of the world of the actual actual last day in this context of the redeemed in heaven at last no John is not dead John said I was in the spirit are you following I was in the spirit now that thing John saw did Isaiah also have visions and he saw supernatural beings and he saw human beings did the prophet have this kinds of vision that John is having here yes and they didn't say this is the last day this is we have made our way to to the disembodied heaven because it cannot be related with so we have made our way no no no no no no what John is simply seeing is in the Unseen word what John is simply seeing is the Unseen word another word for the Unseen word in the Bible is the word Heaven remember the application of the word heaven so what John is saying is heaven the Unseen word another dimension of reality that people who live the physical are still with us just that they are no longer physically interacting with us if you are using it if you are bringing it from the death angle but right now even the living those living those dead have interaction how not in reincarnation Theory not in talking to the dead not in all of those things is that the realm of the spirit is the realm of the spirit the believer the unbeliever has access the believer and unbeliever has access to the realm of the spirit why

because human beings were made spiritual now the UN believer doesn't have access legally because he doesn't have faith in God so his use of the Unseen realm can affect him Satan can destroy his life his health that's why they offer Human Sacrifice there's a lot of this the gods are threatened that they need to appease the gods all of those it will come at a cost to the individual soul but God will not bring such a cur upon the person because God wants us to be okay so the illegalities the because of the illegal way the person is assessing the Unseen real it will come at a cost whether the person's life is shorten because the person wanted to make money from the supposed Realm of the spirit something something happens it always comes at a cause because Satan is the thief he comes to steal kill and destroy he has not forgotten his work AB so you have not forgotten he Ste kill and destroy work so this Revelation 4:5 and many of the pictur we see in Revelation are not the last day of mankind John was simply seen to the Unseen realm not some future last day home he was not looking at the last day home scener this is how the last day home scenery will be we will sit down that's not it is describing a present reality that the believer can have now where we have encounters with the god kind it was not speaking of something futuristic but that is a present reality the believer can actually have such experiences the Heavenly dimension of our present life is what he is dealing with the Heavenly dimension of our present life so we talk about Heaven There is a Heavenly dimension of our present life there is a Earthly dimension of our present life is that okay because the world that God created is Heaven and Earth and those two worlds this is the interaction there is a Earthly dimension of our living and there is a Heavenly dimension of our living and sadly many churches Pastors make it look like it's only Christians no the saved and the unsaved has access to it because man by Design is Supernatural the how do you explain in doctor doing how do you explain some people looking at water and they able to tell your name that's the Unseen but it comes at a cost you and if we are going to now test Powers which is why Christians should know their Authority you can stop somebody from doing that remember many many years ago I was a worri we had a a meeting and there was a lady that they said she used to see and I really I saw her I just felt something was wrong with the lady and the brother and we all hyping the person I said okay see something for me then I tried I could almost see the Elijah concept tear if not that the person is not making it obvious that is the familiar Spirit he and she was using she would have and cut herself making incision which is a higher way of connecting which is diabolical cuz you tried could not see I did not pray I just said yeah give me a word and I just put my feet on the ground waiting there's a reason why streams don't flow upward the the less is included in the greater it is not a prayer point to at rank all Devils it is a reality that the church have we don't pray so that we not have authority over all devil we started from there that is where we started life from far above so very comical when that Pastor that Apostle said I the devil I not have rank for don't listen to people that steal your soul that destroy your very inheritance that is a mockery to the work of Jesus you C the devil you don't have rank for have you ever read far above far above is in place and ranking and the

good news is every believer plus the one that they have been oppressing having all her life until the day she just managed to be born again that instant she's in charge if somebody just tell her that now you are in charge it's what you say that counts if at that same instance and these are things that we have done there a brother they have taken him to many of those places around J where they used to cast out devil where is the founder of Deliverance in bits and they could not for many years the guy was human possessed and they brought the guy to us telling you many years ago and we sat him down taught him the word of God he got born again filled with the spirit and right there in our front we saw the CH I love and I H his hand I squeezed his hand he calmed down I said now use your own words and say devil I command you he got he got calm instantly then he said devil I command you you are under me I no longer yield to you I have authority over you till today he has even traveled abroad today sound we didn't he didn't vomit anything not saying that people can't vomit things before you quote me out of context but nothing weird and that was a strong devil and if mothers have wasted money in feeling form feeling form in different places to see man of God that's why you must appreciate the things you have G to many nothing happened but he knew his authority he dealt with it itself no I say you are now born again let's test the reality that's for me is one of the greatest examples yes sir I mean the mom the that the explanation they gave the way he's possessing is a serious case the fact that we could even talk to him all true he Len head that is it that is the power of eternal life that's what he does to a man's soul sir say I devil I don't have rank for rank you H look at where you started from even in the language of of power the language of power and the scenery of power is the words used for the believer ah you came from the resurrection and you are still leaving and you you are a normal person you are not normal the believer is supernaturally ah no say what kind of I'm just say no whether the Christian is serious with God not serious with God that's not what is giving him Authority is that he's not serious will make him not use his authority but he has Authority he has power if you will mistakenly try and do the things that the word of God says he will shock himself yes sir will shock himself and Ah that's why we have activations that's why we try to say who are not only before your hand some people will be fetting use so that one day they will not use touch and follow to carry your money was one of us that shared a story with me that around they were touching touching her hand and the person was wondering say you not follow me you not follow me she didn't even know what they were trying to do the person you not follow me not follow me okay this is what they call touch and follow they may she turn person r that is it cuz you have been no of know not work reality once you you internalize that reality of of your Authority amen amen there's something to that so it is a picture those Revelation 45 scenery is a present reality it is simply the Heavenly dimension of for our present life there's the Heavenly dimension of our present life and the Earthly dimension of our present life that's why we say we should be the best of two worlds in the Heavenly Dimension when they say this has no K say wait there there are other ways to get KS in the Earthly Dimension there was no cure all right let's take it higher let's take it to the other dimension

where they are all cures and we see in the Diabolical side there is no native doctor that Ever Raised the dead it is within all cultures because there is manifestation or demonstration that cannot be done in the ult that's why the magician and said this is they said it they were not ashamed they said it with style they said this is beyond us so by that statement they acknowledge that they are not the God and they were the ones worshipping Egypt that's why Moses ransack the gods of Egypt so Jetro went telling Moses how great his work was he say ah in the thing that the gods behave proudly God had dealt with them you finish all the gods of Egypt Egypt that worked so much the phara the the wise men I mean that's the number one city of magical Moses dropped they dropped but it got to a point where they could not they said this is nothing but the hand of God and to show the proof Moses made the priests that thing is the greatest insult that those priests had the boils themselves and they were the ones that could conjure it historically because there's a dity that worshiped with that frog picture in Egypt all the plagues dealt with all the T gods of Egypt all the plagues he now put the boil on them that is the height of them the priest everybody see the priest say that means your God protect you Moses naked all the priests naked pharaoh and match true Red Sea imagine tell those kind of people that this thing is intellectual that there's no evidence they can tell you that we carry the stone and put it in our paror so that we can tell our children that this was the stone of River Jordan this was the that's why we can't remove Supernatural from Christianity you can say look at my body I've gotten healed before the doctor gave me and in this ministry we have all those somebody had this scan the other scan we have contrary scans even to us too we have all of us have Contra SCS this can't show this this can show something else because there are other way if the Earthly Dimension some sh Tes away and I told my wife said and person voted I said his smart brother he wrot this is aient that's the only way is possible re D true how do Seven Persons get that kind of thing that one is only god there are things you know that cuz even the natural there are things that can only happen that you know that no there's nothing beyond the hand of God and if there's anything God cannot bab you die you die with the thing and thank God that there is nothing God cannot do that's our consolation that's our consolation that's our consolation that's our consolation that's our consolation recently just a week ago there was some fears and I said to the place but I said no no no it will move safely I don't want to give you the context so that you're not say ah of us have come down are you sure we should still use this this playing are you sure I just say I know don't preach on Sunday yeah other ways say and I said I said you will see when we go up like this is the best plan we could have used this one that everybody's complaining everybody not work different are not working so are you sure hey no no there are other there's another dimension to life there are other outlooks we look at it from here we can also look at it from here that's the believer and that's why we must understand Heaven the right way so that we are not waiting because that you are waiting for is what we are using so you are waiting the only difference between now and then is that right now we are still living with contradiction there's still unbelievers sin and death and wicked people devils in

the world yes sir but as we continue doing what we are doing will come a time God in his sovereignty in his Providence will ensure that there is no more are you following but does not mean that it's that time we now start living our Christian reality no but it's that time it will it do not yet appear what we shall be but we know it's not that H we don't know we don't have anything we no no we have something now because there's something to come true but not the disappearing to a disembodied Heaven Hallelujah so it's a picture of the present reality the Heavenly dimension of our present life is what is communicated in those Visions which every believer shouldn't wait till they die to have they shouldn't wait till they die to have that's why we must not be scared of the Unseen realm it is our real the Heavenly dimension of life is the core of our Christian experience don't remove it so salvation then is not going to heaven but actually being raised to life in God's new Heaven and Earth and we explore what does this new Heaven and Earth mean many Christians grow up assuming that whenever the New Testament speaks of Heaven it refers to the place to which the saved will go after death that is a challenge that every time we use the word heaven we have been saying this for three years now all right so now I'm teaching it inside salvation saying this for 3 years now it's unfortunate that many times when we just talk about Heaven refers to the place where the saved will go after death so it's always after death that many people have heaven in their mind and when we start off with Matthew which I want you to go turn your Bibles to Matthew when we start off with Matthew do some studies the word Heaven is the word uranos in the Greek it is used 284 times that means we can actually read all the references we won't do that today but it's good you know that you can actually read all the references that the word Heaven is used now there are other synonymous STS for it but that Greek word oranus Heaven is used 284 times from Matthew to to Revelation and in Matthew's gospel Jesus saying in the other gospels about the kingdom of God is red as Kingdom of Heaven so what you will see as Kingdom of God in the Book of John you will see it in Matthew as Kingdom of Heaven and some other wonderful people that also cast devil they don't have rank for the same people in the same WhatsApp group also Now teach that Kingdom of Heaven is different from Kingdom of God that kingdom of God is one Kingdom of Heaven is another dimension H and we always show them that the same verse in Matthew when you put it in Luke you will see kingdom of God the same verse in Matthew the have Kingdom of Heaven if you read it in Luke you'll see kingdom of God they didn't know that we be stupid having difference between kingdom of heaven and Kingdom of God that by it's the same thing it's just Matthew doesn't like mentioning God God God God God because he writes more with a Jewish background and to a Jewish audience and you don't talk you don't have to mention God so many times to the Jew because the Jew is is is is is um he has his brain is Faith Centric there's already a god Centric brain everything about them is God God God so you just use Heaven instead of saying God you don't have to always be mentioning God God God that's why they now instead of using Yahweh so much the Hebrew now use Adonai cuz they can also use it for a lord the owner of a house where we get landlord Adon Adonai so that they say yeh all of

us here worship yeh because we don't worship ID here because within their culture is a theocracy you all it's not not democracy that they are practicing so so Kingdom of Heaven see that text Matthew chapter uh 3 and verse two in those days John this is the first reference of the word Heaven Matthew 3:2 the first reference of the word heaven in New Testament books is this the Greek text of the Bible what we call New Testament books of the Bible and saying repent ye for the he Kingdom of Heaven is at hand so start from verse one in those days Came John the Baptist preaching in the wilderness of Judea and saying repent ye for the kingom of Heaven is at hand repent ye for the Kingdom of Heaven is at hand repent for the Kingdom of Heaven is at hand Kingdom of Heaven did you see that see the way he uses the word Kingdom of Heaven you jump to verse 16 so we need to underline that so this is not heaven standing alone but Kingdom of Heaven remember Kingdom of Heaven is kingdom of God is the same thing is just Matthew uses Kingdom of Heaven more does he really uses kingdom of God if he even did at all I have to far check that later so I don't want to say something that I have not I'm not deliberately checked but I know he rarely uses more of Kingdom of Heaven that is in Matthew letter I don't think there's a kingdom of God in Matthew so in the same Matthew CH 3: 16 and Jesus when he was baptized went up straight away out of the waters and lo the Heavens were opened unto him and he saw notice what happened the heavens were opened unto him and he saw the spirit of God descending like a dove and lighting upon him was Jesus dead was John the Baptist dead but did they did Heaven open unto Jesus sir did Heaven open onto John the Baptist they both saw the same reality and a voice voice from Heaven saying this is my beloved Son in whom I'm well pleased did they have to disappear from planet Earth was he on planet Earth was he on the earth that he heard this voice so the voice the voice from Heaven Was Heard where thank you the voice from Heaven Was Heard on the earth Matthew chapter uh 4 verse1 17 so even Jesus began to preach the same thing John the Baptist preach for that time Jesus began to preach and to say repent for the Kingdom of Heaven is at hand Matthew 4:17 began to preach that the Kingdom of Heaven is at hand the Kingdom of Heaven is at hand so Jesus began to preach what that the Kingdom of Heaven is now look at that same reference in Mark chapter 1 just put your hand there flip to Matthew Mark chapter 1 after Matthew is Mark Mark chapter 1 14:15 now after that John was put in prison Jesus came unto Galilee preaching the gospel of the kingdom of God and saying the time is fulfilled and the kingdom of God is at hand repent and believe you the Gospel Kingdom of God notice no longer saying Kingdom of Heaven we not in Matthew again Kingdom of Heaven heaven so Kingdom of Heaven is kingdom of God then you have Matthew Chapter 5 be patient a bit and you are the one needing the understanding so don't rush say oh we understand no because some persons are so lazy they will not check it at home they will think that we are escaping that's why we are that's why we just read five verses if you will go Downer there are more and people like us we are patient so successfully before we finish this series would have read all the reference without you knowing we just be doing it small small you would not know before you know we have read

all when we now tell you that there's no reference and you try to think otherwise we say but we already read all oh it's too late are you here too late to have that kind of view Matthew 5 blessed are the poor in spirit for D is the kingdom of heaven so in the beatitude as is popularly called the SE on the mount there's a lot of heaven heaven mentioned blessed are the poor in spirit for th is the Kingdom of Heaven kingdom of Heaven Kingdom of Heaven blessed are they which are persecuted for righteousness sake for th is the Kingdom of Heaven Matthew 5:10 Matthew 5:12 rejoice and bely glad for great is your reward in heaven great is your reward when you enter when you your soul depart with this embodied Heaven that's not what they are saying it's amazing that every time you see this heaven now we always be reading with that mindset great is your reward when we all go you know I will have to dance in let's leave Wednesday what happened in Wednesday should stay that Wednesday stay what happened on Wednesday should stay with Wednesday all right you won't have me dance the he dance more than once all right Matthew 5:18 for verily I say unto you till Heaven and Earth pass so he uses heaven heaven a lot now this beatitude you have in Matthew Chapter 5 is also in Luke chapter 6 now Luke 6: 20 you're going to know something you must commit yourself to it AB be P don't I know some of you already get excited it's got easier and okay I get it I get it don't rush Mastery needs dedication okay I get it don't be getting it when we have not finished say oh I can Factor the rest don't since we are still factoring let us still be helping you factor it you have all the time in the world when you get home to factor is that okay M Luke 6: 20 and lifted up his eyes lifted up his eyes on his disciples and said blessed be ye poor for yours is the kingdom of God so I it getting clear that kingdom of Heaven is kingdom of God yes sir so what Matthew is calling Kingdom of Heaven is what Mark and Luke and John are calling kingdom of God okay kingdom of God kingdom of God so go to to John chapter 3 and I believe you have a Bible verse one there was a man of the Pharisees named Nicodemus a ruler of the Jew the same came to Jesus by night and said unto him Rabbi we know that thou a teacher come from God and no man can do these Miracles that thou doest except God be with him verse three Jesus answered and said unto him verily very I say unto thee except a man be born again he can cannot see the kingdom of God so again people have it that he cannot see the kingdom of God when he die he cannot enter into a disembed heaven now look at where it gets more stupid to have that kind of idea when you read 456 and you still retain that idea we should bring you out lay you down as they used to do in bring K flip the bom bom you should be trashed because we can understand in verse three but not after you have now entered it and you are you you that is entering you are the one you yeah you are born again you have entered and you are waiting for the day when we when the whole world come to an end and we we just be going up we have entered we are now in the kingdom of heaven then you were never saved it was death that born you again you're never saved death is your savior not the Lord Jesus if death saves you Jesus has not saved you death is not our savior we need death to access life H that's not the gospel that's a strange gospel amen John chapter three Nicodemus said unto him how can a man be born when

he's old can he enter his second time into his mother's home so it's not about going to your mother's home the second time and Jesus answered very very so what I tell you now the truth be this verily verily I say unto thee except a man be born of water and of he cannot enter into the kingdom of God how B is he enter there that day business some people can read for Africa born of water they have put their pet Doctrine inside there except you are wet you soak somebody inside water it's just a wet whatever I was before a remain it is a wet version of it wet SC now that's it's faith that saves if you want to be baptized be baptized but don't push it out of his position John the Baptist used it to point people to Jesus so we can actually discard it just like all the apostles did they did it to some point they all discarded it and John made an emphatic claim and said God not send me to baptize but to preach the gospel as if they are contrary why because he saying I don't have to always be using the emblem when we can and touch the substance so today if your denomination which not us here if your denomination wants you to be baptized of what use no problem don't argue agree because you're already born again you a wet CHR now you are just a wet Christian we dry before you have enter your cloth is wet you have come out and to remind you of what that we died with him we're buried with him we're raised again now You observe some churches are so wonderful that if you change Church four times all the different churches will tell you to do their own baptism too so you have seen that it's a church thing it's not a church identification way you have joined our church follow our baptism routine too he cannot enter into the kingdom of God except a man be born again we now say born again is when we die ah there's no die here now born again cuz said are you following so are you born again have you enter the kingdom of God yes sir is the kingdom of God the Kingdom of Heaven yes sir you are not sure have you entered the kingdom of God yes sir use your mouth sir say it say it be bold have you enter the kingdom of God yes sir are you in the Kingdom of Heaven yes sir say I'm in the kingdom of God I'm in the kingdom of God I'm in the Kingdom of Heaven I'm in the Kingdom of Heaven you there are some things that our mind will not Fantom because we hardly say it with our mouth so say it with your mouth I'm in the Kingdom of Heaven I'm in the kingdom of Heaven not I am going no I'm already born again I am there I'm in that reality I have the I have the life of God I'm born again are we good so you observe in Matthew's gospel Jesus and the apostles always Tau around the kingdom of God or Kingdom of Heaven Matthew uses Kingdom of Heaven more than kingdom of God so when we find Jesus talking about entering the kingdom of heaven we have an assumption that they were talking about going to heaven when you die and that is not true that's not what Jesus or Matthew had in mind so the language of Heaven in New Testament doesn't work that way God Kingdom in the preaching of Jesus never ever refer to a post mem Destiny there was no post motem Destiny of when we die we will now enter into heaven that is never what any of them thought nor were they teaching that we should escape from this world into another one but inste said kingdom of God is The Sovereign rule of God and when would that rule be found within man and Angel interaction which is on this Earth so on Earth as it is in heaven that

kingdom is yeah because the world that God created has and Earth together so the Kingdom of Heaven Is God Reign and God rule not Planet Heaven God Reign and God's ruled on the earth is that okay the kingdom of God is what the Resurrection the Ascension of Jesus the gifts of the Spirit are all about they are designed not to take us from the Earth but rather to make us agents of transformation of this Earth while we anticipate the day that he promised that all the Earth shall be fill of the glory of the Lord and we will play our part in that also so what is to come for the believer what is to come for the believer is not heaven but resurrection that is what the biblical writers Tau what is to come for us is our bodies putting on immortality and just like Jesus glorified body right now our bodies are animated by our human soul but then shortly to come our bodies will be animated by our bodies will be animated by what God's spirit that's how we have put on immortality not that cuz for people when they also imortal immortality all they want to think about is body go they shine my body go shine that the shine body go shine everywhere could you shine you shine when we saw Jesus upon the resurrection his body was not shining it's not about the shine is that our bodies will be animated with God's spirit and our bodies that's why our bodies are important say no about the body whether you cremate it you now realize that God is really all powerful whether you cremate the body it will still reappear whether you bury inside the water he is the God of All Flesh the God of all the souls of men get power that's why they say ah only you are that's why all of the only you because you start thinking about the Majesty of God only you you are great ah there's none like you Hallelujah so when Jesus in John chapter 18:36 said my kingdom is not of this world we in John so let's stay bit in John John 18 and verse 36 and that's where we end this morning John 18:36 Jesus answered my kingdom is not of this world but if my Kingdom were of this world then would my servant fight what people immediately Think Jesus is saying it sounds like Jesus is saying my kingdom is in a different planet if you were all dead now and have accessed that my kingdom you would have sinen death death will always enter once you are having that Kingdom no it's not if you were so Jesus power is if you were all dead now have seen my power H that's not what he's [Music] saying was not saying if you were all dead now if we go when we die away from this world no the original point in a different direction when you read my kingdom is not of this world what Jesus was saying is my kingdom isn't the salt that grows in this world with the way you people do your things my kingdom is against this worldly system this caral fleshly system my kingdom is not disposed arranged the way the same way you are a people of violence your you Rome has been increasing and spreading with violence but my kingdom is a kingdom of love there's a there's a different it's violence That Conquers but for me is Love That Conquers there's a difference my kingdom is not the way of this world it's not the worldly the fleshly the can the sinful way my kingdom is not of this word it grows in a different way it isn't worldly in origin and character it doesn't originate in the flesh so Jesus that's what he was saying my kingdom is a different kind of Kingdom based on a different kind of power and what I'm launching on this Earth is different from what you have seen new man a new sort of Love A New Kind of Love A New

Kind of knowledge a new kind of oh God bless Kon two kinds of A New Kind of Love A New Kind of knowledge a new kind of a new kind of everything is what Jesus launched my kingdom is not of this world and that kingdom is the kingdom we are [Music] in the Reign and the rule of God in our heart God is reigning in our heart is ruling our hearts Hallelujah praise we'll continue from here when next we continue from here hallelujah the kingdom of God is Not meat and drink but righteousness peace and joy in the Holy Ghost the kingdom of God is Not of this world it's not of the flesh it's not H Ambitions striving is no different my kingdom does not grow that way does not come that way because Jus was launching his kingdom on the earth and that's what his death be reservation did he laun his kingdom on the earth a new way and that's why it's good news we run to people if you if you BGE into a place where people were eating and you say good news my child's school fees have been paid it's not going to matter to anybody say how does that concern me that's why that's not the good news if you Rush In And you tell people people where let's say people are buying something you rush into the shoing more and you announce good news everybody listen and you say my child I was is no longer dying again the child has recovered everybody's going to be happy for you but they're going to say what not concern me does not concern me what kind of thing is this does it concern me oh leave me alone everybody's going to be they will be happy for they sound don't sound evil they not going but they're going to continue buy what they buying but in that their world view when they say gospel nobody would think gospel is either a new emperor has been born a new emperor has taken over and so we know that the Outlook of Rome and Rome was so important because for the whole Med mediev period was about the fall of Rome it it spaned that long Generations that all the rise and fall so it's very important so that their world view with the same similar world view the Hebrew hard when they use the word good news basa the message of a kingdom that's the origin of the word gospel so when we say good news it's good news for everybody not for some so we can badge into anywhere and Shout good news and why will people give us their ear because the good news is listen the world is no longer going to be the same way again someone have done something and the world as we know it have changed give me your ear and everybody say okay what did he do that change the world what did he do that Chang everything it starts from inside without telling them you are not this you are not this see but I don't look it when you believe it you see it and from that moment onward how you approach and see the word will be you say oh I don't want to jump ahead myself I'm going to expose it say more because something that's the good news that's the gospel something has happened and the word will never be the same again the world cannot go back to the way it was the word something has [Music] happened that everybody listens what exactly is he saying that is the gospel that will bring it's not fly away not those Our Gospel is the power of God unto salvation for us Believers we are not way we're living in heaven now we're occupying now we're fruitful we're multiplying we're replenishing we know that because our gospel doesn't just have us renewed it also have all the earth and the ear of the creature are wait that even the creation is groaning because

God will renew this Earth Hallelujah he will remove the Heaven and the Earth of of devils sin evil wickedness he will remove that heaven of all believers that whole Heaven of Heaven and Earth Heaven the Unseen word of Satan all the evils that they brought an earth of unbelievers wicked all of that will pass away and there will be no more so there will soon come a where there will be no more unbeliever there will be no more sin no more all of those things and we have a walk towards that but we are not now saved and we are just waiting no that's no good news there Hallelujah and that's what we'll keep exploring trust you learn something this morning jump on your feet and that's why the biblical writers they could use the word saved for people's healing too somebody God healed they said the person has been saved because salvation affects you now they could you want people to sit us now God Wants You whole God Wants You whole Hallelujah lift your hands and just pray in the
