

and we know that there is no confusion in this house only understanding reading Supreme we are blessed because we came we receive all you have of us in this in the midst of the earth thou did divide the Sea by thy strength thou break the head of the dragons in the waters thou break the heads of leviathan in pieces and Gethsemane to be meat to the people inhabiting the Wilderness thou did cleave the Fountain and the FL thou drest up mighty Rivers the day is dying the night also is dying thou has prepared the and the sun thou has set all the borders of the earth thou has made summer and winter verse 20 have respect unto the Covenant for the dark places of the Earth are full of the habitations of Cruelty again verse 12 let's read it one to go for I wait for you one to go everybody for working salvation in the midst of the earth that's what our FOC is who is working salvation in the midst of the earth God and that's what God has been doing since time began after the fall since the word plunged into a Darkness God has been working salvation hallelujah amen so we've looked at quite a lot of things so far what happened in Genesis chapter 1 verse one to verse looked at it contextually historically grammatically we looked at uh we began to explain what salvation is and we said to know what a thing is is also good to know what it is not because many often times the definitions we have given of Salvation is reason why most people don't know what salvation is so we said there are too many false views of Salvation and I give you a bit of context about that even last week Sunday again remember I had to give you a bit of historical background of the Middle Ages and all of that the words of Plato that has shaped the modern era so much the greatest thinkers in Greek Greek philosophers who have shaped modern history his ideas his concept his philosophies are so natural that people don't even know they are platonic they are all from Plato Hallelujah and it is good to that we need to correct those view points because it may be popular it may be common but doesn't make it correct that something is popular doesn't mean it is correct is that okay what is correct is correct whether it's popular or not Hallelujah so we said one of the first views of Salvation is that once you mention salvation almost all Western Christians assume that you mean going to heaven when you die the touch moment in the light of all we have said so far we can see that that statement is simply not right so the idea of that comes from the legacy of the Middle Ages that proposed that going to heaven is the ultimate goal that there is an Angry God and everybody needs to be is being destroyed there's a need to escape the Earth for heaven that whole teaching was propagated by the Greek philosophers and it was so common when the reformers thinking that oh because these guys are very intelligent maybe they and some of them allude to a God maybe they had some great thinking maybe they really observe something and began to really look at the Bible again coming now from the Dark Ages where much light was not shining because of how people began to reason and see things because of the whole people and how backward they do Christianity and how much they were so political with Christianity that number one is the number one they are whatever they are I'm using this of I don't want to call anybody out because we are nobody this all the people you know who they are you know if you don't know no problem so Socrates is the oldest of the Ty asan Greek

philosophers Socrates thought Plato thought Aristotle and they are the most common people that have those ideas that have shaped westernization and westernization has also affected Christianity so much though it was not supposed to that's why we fight for a Christian world view instead of taking the world view of our time we should Christians must always have a Christian world view not a today's world view today there's a today's world view but that's not our Christian world view our Christian world view is not changing our Christian world view is not it's not changing the world view of the world may be changing because of the whole scientific breakthrough knowledge run into and through the Earth but that assumption has made the Western Christianity propagate that the purpose of being a Christian is simply or at least Mainly to go to heaven when you died that's not fair that's not good it makes death a savior so that the other dimension of living a Heavenly reality the other reality because God created two realities the physical reality and the spiritual reality and both are in the same place the physical and the spiritual reality the Heavenly dimension of our living the Earthly dimension of our living man has a physical body and physical body and that allows him to tilt more towards the Earthly part of living or the early dimension of living but or Heaven the Heavenly dimension of living is now where his authority is used where the work station that controls everything just like everybody has an A office where they work from that is the work station of the CEO that work from that is the work station of the CEO that controls and regulates things which is why our father who act in heaven because he has to be in his home office head office that concept is what we will explore a bit more this morning so that we get it so in the Book of Revelation John was in heaven yet he was not dead and he had so many experiences there while stay on the [Music] Earth all right and so we said that when you run through all the references of the word Heaven which we said we should do so pay attention to to when you run through all the references of the word heaven in New Testament books or Old Testament the word Heaven is the word uranos in the Greek it is used 284 times all the reference none have a will you be ready not none of them have those scary pictures that people try to paint as if the Rapture takes the Believer by surprise when it is us that make the Rapture happens of course I don't use the phrase Rapture but it's a popular term everybody uses so you we are the ones that so is is if Paul says that will not take you by surprise like a thief in the night no it is for the unbeliever that is a thief in the night said that in thessalonica that day will Nott take like a th in the nth because we are the ones that cause that coming it cannot take us by surprise because we are the active agent of renewing the Earth it can't take us by surprise when we are the ones making sure that the Earth is renewed Hallelujah so in the Book of Revelation and also all through the you see that every time Heaven is mentioned there's an activity a voice from heaven where did they hear that voice from Heaven a sound from heaven where did they hear it every time you heard a voice from Heaven a sound from Heaven something happened in heaven where did you hear it or where did you SE on the earth and the biblical writers are not apologizing or changing their mind or scared of us to not say because of our today's Viewpoint we are sorry let's change the

verses no it is still the same thing that every time you see heaven in the Bible not heaven in a pastor that does not know how to interpret Bible hand not a pastor who thinks that preaching is for lazy people so he spends all his days counseling people counseling them celing that does not make any sense and he climbs up to preach and he does not know what he's explaining and say that that is the dream of pastoring no a pastor should labor in the word and in Doctrine Paul says so is that us so a pastor should take Bible interpretation seriously and stop being proud in I don't know many Bible verses no you should know many Bible vers you should be devoted to the book sir is that okay and if we have more P devoted to the book we eradicate such erroneous views from our mind so M we read these references last week we saw a Heavens were opened the spirit of goded upon him we heard a voice from Heaven this is my beloved Son and when were they hearing that voice from Heaven on the earth in fact Peter made it so worse that when Peter was recounting in his in the first chapter of his book Peter said in his episo I mean Peter in his book that's obviously Peter's epis he said we were with him in the mount were with him let's read that reference first Peter see how Peter is recounting a story that we all know second Peter chapter 1 Mount of transfiguration that we all know the story in Matthew chapter 17 story that we know is in Matthew chapter 17 or Luke chapter 9 that story Peter now says we have not followed conly divis fables vers 16 when we made known to you the power and the coming of our Lord Jesus Christ but we eyewitnesses of his majesty for he received from God the Father honor and Glory when there came such a voice to him from the excellent Glory this is my beloved Son in whom I well pleased and this voice which came from heaven we heard voice which came from heaven we heard ah when we were with him in the Holy Mount we have also a more short word of Prophecy unto you do well that you take heed as unto a light that sh in a dark place until the day Dawn and the day star arise in your heart and this voice which came from heaven we heard now you know sometimes there's too much speed in Reading are you hearing me right now the people in your house are they hearing me preach right now from here no sir because they are not here so if you hear a voice from heaven where are you oh sorry Heaven Again You Know that heaven that thing that makes the brain to skip once you hear Heaven brain stop stop walking bring it back are you hearing me here yes sir if you can hear me it's not because you are within vicinity yes sir so the voice from Heaven which we heard when we were with him in that Holy Mountain so they are hearing from heaven but we have Heaven as a distant far away which we said that no near Eastern cultureal person not even Christian now in that the Eastern understanding of of faith and worship of God does not have the idea of a distant Heaven is the Western world that have that distance Heaven and Earth as a distance and you can read into history I have all those I can even send you all the links of massive articles upon articles where that whole theory of Heaven and Earth as a distance became common and it was also in that middlee period that that concept even the concept of the man upstairs that's where all of those Theory came from where Heaven and Earth look like there's a gap so when we are not reading the Bible we are reading the Bible without idea

thinking that's how they were writing they didn't have an idea of a heaven and earth so when we say heaven and Earth so I said Heaven and Earth refresh your memory bring your hand together go say heaven and earth say so distance far away like the not in the same place so I said to think the way ancient men think is there any part on this Earth that you don't see the physical Heaven allow me use the word physical the sky is there any part of this Earth you will not see the physical heaven so there's no part of this physical Earth that you will not see the physical Heaven all right no part that you raise your head up you will not see because the heavens are over the earth now is he in the same place okay it's not the same place when you enter plane you have left the planet every time you no let's your neighbor know who sitting around him or her so when you go up you have left the Earth you're no longer on the earth AB every time you are on the plane you have left the Earth okay we don't see e like that we see that's why when birds are flying we see our birds are flying in the air now they on the now on the now so we see everything as the Earth we see everything as the Earth there are even you know beautiful we're going that idea will get there also that you have a vertical jump you know if you really like science you see how foolish it sound that Jesus ascending was this he said you know how Spiderman Superman used to do he just just do his just was going that idea that idea gives you a theory of a flat Earth no longer spherical because if he did like that he should have learned another country not into heaven sorry that's another day I thought you like science that was for people that like science because if he did like this but except that means you are no longer now you have flat Earth again the whole earth is just flat thank you people that have that no signs are thinking so that means you have a flat no longer has fical again cuz he just jump up it was just going up that's another day reality so it's actually good to actually read the Bible and hear what the Bible have to say not what we think not what most people say is that okay so we said every time you see heaven on Earth Encounters in Heaven from Genesis to Malachi Matthew to Revelation Believers people who believed in God Ezekiel Isaiah Jeremiah Moses they have had encounters with God they have seen into the Unseen realm they have been in heaven as it were because heaven is the Unseen and just like every member of this ministry who who attends nearly all our meetings must have entered into the UN once twice Thrice so you can't see it as oh when I die no so it's a present reality the Heavenly dimension of our present life tell your neighbor Heaven should be seen should be seen as the Heavenly Dimension as the Heavenly dimension of our Pres life remove the word Heavenly tell your neighbor put spiritual so Heaven is the spiritual Dimension di of our physical of our present life our Earth is the physical dimensional di of our present life so our present life have two dimension physical and spiritual two reality physical and spiritual that's what you should have in mind and that's what all the biblical writers had in mind and that was the world view that they were living nobody had a distance Heaven and Earth so it would be easy to Now read the Bible and see how unforced the scriptures are so heaven in the Bible is not a future Destiny but the other OT t h e r the other hidden dimension of our ordinary life it's a hidden dimension of

our ordinary life that people can live all their days without living from that God Dimension is the other dimension of our ordinary life God made Heaven and Earth the Unseen and the seen the spiritual and the physical together he didn't separate them they can't be separated they can be distinguished that you can say heaven is the Unseen they can you can distinguish it but you can't separate it they were made together they function together they exist together they are not planes apart from each other they are not realities away from each other they are realities together whether one choose to leave or operate from that Dimension does not mean he cannot and I said something last week which I'm refreshing memory that even unbelievers have operated from that Heavenly Dimension without knowing Jesus because it is unseen but it is illegal because they have that's why it comes at a cost to their soul and it comes at a cost also upon them because Satan is wicked because he's illegal you don't know unbelievers have done Supernatural things they didn't need to be born again to they didn't need to be born again to do Supernatural things they didn't need to be born again or they needed to they didn't need to they didn't need to they didn't need to be born again to do so they didn't need to be born again that's why it's easy to see people praising God today and say get power how is he doing all of that because in this present life there are two realities spiritual and physical that's why a man without any native doctor can contact the Unseen on his own two scientists renowned I will mention their name now maybe towards the end of the series have said call it what you know I don't know where it comes from whether from here or from another place but there's this sudden surge all of a sudden I know what to do I have Direction I know if I do it like this it will work Renown they don't that you don't know what to call it does not mean that there is not something the way it has thrilled people over the years how did AUST K get that Benzene structure where did how did he in a dream what is that dream or vision is it do you need dream and vision to be having kind of thing now you are the one thinking that the other dimension of the ordinary life does not exist but people without Jesus have accessed it because man by Nature by Design the way man human beings were created were created for the natural and the supernatural World they are not separated you can distinguish it for explanation but you cannot separate the realities they intertwine and where they intertwine the place intertwine is what is called Temple and so in worship once you bring in the language of worship you see where they intersect which is where Temple is a place of worship so once you bring in worship once you go beyond in your worship you will intersect you will see where the two are the same where one moment I'm natural another moment I'm Supernatural one moment is talking that moment is moving the power of God like a life switch on and off because they are here together that's how they understood and saw heaven not as a future destination but the other hidden dimension of our ordinary life there's another dimension of our life that many can ignore and not touch and live by so when we come to the picture of the actual end revelation 21:22 we find not Ransom Souls I did that dance for you some weeks back where we don't have when we get revelation 21:22 we don't have Ransom Souls making their way to a disembodied heaven but rather New

Jerusalem coming down from Heaven to Earth uniting the two in the last Embrace so it's not saved Souls going up to heaven that's not the concept of salvation and that's not the concept of the world coming to an end but actually God recreating the Heaven and the Earth the physical and spiritual reality to be the way he intended it to be from the beginning which is why Jesus taught his followers to pray your kingdom come your will be done on Earth as in heaven do you think that prayer will be answered of course it has been answered and we will see it answered in all the Earth soon so the good news about the past has to do with something Jesus did back then the good news about the future has to do with something Jesus is going to do when he returns he will transform the whole world and fill it with his Justice Joy love so salvation then I'm reading my note for a reason so that you don't misquote me salvation then is not going to heaven but rather being raised to life in God's new Heaven and new earth so I am saved is not I going to heaven but that I have eternal life new life God's life I have been raised I've been raised with God's life I've been raised with God's life in God's new Heaven and new earth what is that new Heaven and new earth not a planet when you got born again you did not leave the physical Earth you were still there so new heaven new Earth I know it's a bit it looks a bit tough a bit hard on the brain but you are overthinking that's why it's hard calm down and be English because it's English I'm speaking are you on the earth when you got born again or you disappeared from the earth so when you got born again you are now a new creature you are in God's new heaven that new heaven that new Earth is where you and I started our journey from from being born again we are already in that new Heaven and Earth but all the Earth is not in that new Heaven and new earth so you see that we are dealing with present reality allow the phrase reality so we have a reality right now no it's not really true we can test it we can prove it that's why it's not something vague Christianity can be proven to show you and that's why we don't need we don't need to assess and every human being every believer can do what the good book says without an external source that even if you jam somebody in the brel that's where you got her born again she comes out filled with the spirit she can do what every Christian can do without having to mature a son is a son the only difference will be how she's able to do it that's where maturity will come in but can she do it yes you you met a man smoking you got him Born Again fill with the spirit from that moment he can do what every Christian can do so that whole distance of clergy lady is a lie because the distance the difference between clergy and Lady which I hate that phrase this difference between pastor and member is in the authority that the pastor is over the member not in we have the same Holy Spirit the same Bible the same Jesus the Same everything the only difference is in our assignment which God puts the pastor over for the sake of nurturing and training and that's where God gives him a Grace deferring from us not that we can't do the same thing we can all hear the sick we can all preach the gospel we can all every of the things we are told to do is what we all can do not some things that only pastors can do but members can't do no not in our Bible Hallelujah are you here so salvation is not going to heaven but actually being raised to life in God's new Heaven and Earth which God wants

all the Earth to be so so what is it going to destroy we have said this again what is going to destroy is not physical so look at the theory of that physical destruction and see how stupid it sound so this is the idea that whether it's three and a half years depending on your eschatological group you belong to whether you believe in is three and a half years three and a half years so you see how absurd it sound that we will disappear into disembodied heaven and we be waiting then God will now come down after Maybe is a 1,000 years he fight that battle however your eschatological view you see how stupid he sound fight then not say okay all of you that refused to believe after you fought me just now with sword because he has to use sword he does not advance to use gun no he has to be stupid your your Jesus just has to be undeveloped now when nobody is using sword to fight he still has to be using sword because you will not allow John to live in John's timeline no because 1,000 years is quite a long time for John but you will want 1,000 to be 1 2 3 4 5 6 7 8 to 1,000 because you think he's doing Mass forcing the Bible to to say what is not what the writer is saying so let's have that let's follow that crazy idea and see how barbaric it sound you this often world we tell people you go up then he destroys the Earth remember it's not the only Earth because he's new Heaven and new earth everybody agrees so which Heaven is he destroying when he's destroying the heaven where are we when I say no no no no no the heaven is destroying he will put us in another place where is that place called I want to say no no no it's not that one oh is destroying Heaven they will not go and check oh is Heaven and Earth okay so it's not destroying Earth destroying Heaven okay okay we are going to be with the Lord okay yes yes okay we are going to be with the Lord so when he's destroying the Earth we are with him when he have destroyed the Heaven and the Earth we will now all come down like this like this we just Le where are we new heaven new Earth hey we have made it you see that picture it's not in the Bible where where were we say we with the Lord that with the Lord where is that place called he say we don't really know but you know God is sovereign excuse have come we really don't know so where are we when this Heaven and Earth is being destroyed because we just blow it boom the scatter everywhere explode okay sir does that still bring us back to the Earth in a way sh so we evil have to come back I thought you hated the Earth God hates the Earth so much You Must Destroy it see you know we we all don't understand the is that's why there of all the bial Doctrine eschatology is the most confused one that it has more views than any other doctrinal subject there are over a th000 views on eschatology because everybody wants to escape we have to escape the Earth because something is wrong with the Earth so the same way some pastors who teach like that have not taught their members that don't worry the Earth is going to be destroyed so we don't we can pollute the air we can greenhouse effect all this all this global warming doesn't matter you see it because God really care does not really care about the Earth because he going to destroy it after all it is not North Korea that presses the button and all the Earth is destroyed it is Yahweh he has a big button in his CEO's office in heaven where he presses the body Bim and all the Earth is destroyed and he says haha serves you right this is what you get for not believing in me

shame on all of you who did not believe in me I've exploded you all then the other ones so a preacher said everybody has eternal life even those in hell because is eternal life when you want to be deep as an apostle this what you say everybody has eternal life it's not only for christense the issue is where you will SP eternity all these are from Plateau you think it's intelligence but you just quoting First Republic second Republic quoting different books you you think it's int is one new insight I always call it depth say wow I've gotten a reality is where you will spend eternity so they will be living forever and ever just as we are living forever and ever then you wonder why people don't get born again they are living forever let them live forever they don't want your God that's living forever that is not the picture we have we have you will see no more when you are going to see somebody no more they not existing forever and ever that's not the picture we have the picture we have is God is going to destroy the Heaven and the Earth of what the elses of sin and what he did not plant in the Earth is going to remove it not that is exploding the physical Earth that the ground is exploding no just as Sin entered into the world word he's going to remove what entered that he did not put in the Unseen dimension of living and in the seen dimension of living is going to remove what is in it's going to remove what is in the seen unseen Dimension it's going to remove what is in the seen and unseen Dimension that came as a result of sin and de so he going to remove the devil there's not going to be no more devil no more demons no more evil no more of any of those things and that's 2122 no more night everything that he did not plant is going to remove it in the Sin and the Unseen realm and we have a walk to play in all of that happening until the day he finally removes everything because it had reached a good portion to say oh all right we can not an explosion that there's no more Earth and that's why within Revelation you now see and I saw Hell cast into the Lake of Fire so even hell is cast to the Lake of Fire I say this is the second death this is me talking as if you read Bible because I've read this text over the years so if you are new here I beg you stop thinking we don't know the Bible verses it's you that don't know it Revelation 20:14 and then death and hell were cast into the Lake of Fire this is the second death so if you read Revelation 21:22 which I beg you to read last week you see the picture of the new Heaven and new earth is not a disappearance so salvation is not going to heaven but being raised to life in God's new Heaven and new earth and as soon as we put it like this we realize that the whole New Testament books is full of hint indication so salvation isn't something we wait for in the long distant future it is something we enjoy in the year and now that's why we must understand this word Kingdom so we looked at Kingdom of Heaven kingdom of God we saw that is the same thing so we now read John 18:36 where Jesus said my kingdom is not of this world did you remember so the kingdom of God is Not is what the resurrection Ascension of Jesus and the gifts of the Spirit are all about they are designed not to take us from the Earth but rather to make us agents of the trans transformation of this Earth where we anticipate the day when as we are promised the whole Earth shall be full of the knowledge of the glory of the Lord as the water covers the sea the whole earth so what is to comfor the believer is not heaven but Resurrection

our bodies put on immortality that's what is to come not that we are going to be in a planet called Heaven that's actually what we have in the Bible Romans 8 1 Corinthians 15 all the text the whole creation is not waiting for a planet where we put on immortality are you following that's so what is to come for the believer so what will God do in his work of Salvation two things he will first save man so that will save the world w l d he will put man right so that man will put the world right because he wants to put the word right so he will put man in the right so that he can put the word in the right so he will put man in the right he will put man right he will save man so that he will save the world or the Earth anyhow one you want to use Hallelujah sir I have gotten you Philippians you are have forgotten this text Philippians 3: 20 so let me quickly show you what you don't know sir for our conversation is in heaven from when we look when we look don't raise our head up we raise our head up we look we look for the Savior the Lord Jesus Christ who shall change our vile body that it may be fashioned like until you don't have a planet again you still have Resurrection but let's assume for one minute so you have um the new English Bible changes the world conversation to we are citizens of heaven so we say oh right now we are in heaven because this world is not my own there are two versions of this interpretation there's the version that says that we are already citizens we are already citizens in heaven right now which we all agree which we all believe which is correct but there's now the second version of this that say we are ciens in heaven now that why this world is not our own we are pilgrims that one looks okay nice we are just passing through don't they get worse so because this is not really our home this is really not our place God we have to destroy it get rid of it that's the issue where we now have we are citizens of heaven so we are aliens here right now because this is really not our home where is really our home if you really read the Bible to the the end you see that the Earth is not the problem what entered into the Earth is what God need to get rid of Hallelujah so Philippians 3:20 we are citizens of heaven so when we look at that translation which I agree which is correct the word conversation there the word citizen is okay now it's easy to Mis understand what is going on because the logic of citizenship in the Asian word is not understood by us today cannot leave Christianity K so that's not in the text but are you are you with me now even when we reading just some people already reading when we die cuz that when we die death must save them that's why you see people defending life after death there's life after death but chrisan is not just life after death is Life After Life After death not just make it say don't make death the the the Croc there's life after death there's life after it looks like is the same thing they don't mean the same thing s you don't believe in life after death you he words so I believe in that canot be life after there's life after death but there's also life after I the people that have died will not leave again thank you is that you call reservation money so is there life after life after death that's eternal life we are living forever we have been raised Hallelujah all right citizens in heaven let's go back Philippians 3:20 learning something take it slowly we are look at Paul says we are citizens of heaven heaven is where we really belong that's where we will go when we die because that's where we really

belong are you all with me in Philippi who are who we are with you sir so that's what Paul was saying for you all know Brethren that our citizenship is in heaven yes from when we look because that's where we really belong that's where we will go where we die for our savior the Lord Jesus Christ will come from that planet Heaven he will land on the earth he will destroy the Earth then he will change our V all those are you are adding you are giving it your own meaning because want to force the text to mean what it does not mean so what does it actually mean like we said every can I test Bible interpretation if it's correct we said yes every interpretation of scripture can be tested by agreement uniformity all Doctrine must be uniform the we must hear what the biblical writer actually wanted to say and to hear it we must look at the historical context the grammatical context and the cultural context and the grammatical context where we add the theological context to knows [Music] nothing you will not envy the man that he finally made it like he one Escape you realize that ah this guy don't know anything in heaven what he means is that the Savior the Lord Jesus the king all of those words savior Lord King are all Imperial titles used for the emperor will come to change our present situation here the present situation in Philippi and benefit all the priviledges in Philippi and that's what the emperor promised them and that's what the emperor was working actively to do to ensure that nobody in Philippi is missing Rome because they are exactly the same so nobody was like we need to we need to disappear to to Rome no did you get it so it's not heaven is where we really belong that's where we go when we die know what Paul is saying that's not how citizenship work we are are SS of Heaven he writes we are eagerly waiting for the Savior the Lord Jesus who is going to come from there it isn't that we are not going up to the capital city to join the king we are not going to Rome to go and join the king he's going to come from there to transform this place to be exactly like Rome so that there is no difference so he's going to do this by the power that makes him able to bring everything into line because he's the emperor he King he's able to do that to ensure that there's no difference between Rome and Philippi and that's what they were eagerly waiting for that there's no difference between the seen and the Unseen dimension of things Hallelujah so why is there any difference sin death Satan are the reason why there looks like there's a difference between the sin and the unseen reality because never did God intend that in the unseen reality of doing things there will be a Satan that will be opposing us there will be them deems that are hunting for Souls there will be wickedness there will be all of these things so that's what he will get rid of so he is going to so the key word is transform so Philippians 3:21 Jesus will come from Heaven to transform the whole of creation and to transform us at the same time emphasis our present body will be transformed into a glorious body that is the hope not that we leave the world but that Jesus returns and transforms it and us with it the key word is transform he will transform our present humble bodies to be like his glorious body Jesus will not declare that the present physical reality is redundant and needs to be scrapped no he will not improve it by maybe evolutionary cycle but instead by great Act of his power he will change our present body to correspond to the realities that we already have in us

because we have the spirit of God so our bodies will match all the realities that we say we are in Christ New Creation reality and the right of God in Christ but our physical bodies is not matching that reality so what is coming for the believer is not heaven as a planet but that our bodies will match our reality internally that's why John and the rest says look at First John 3 2 1 2 3 1 John chapter 3 1 2 3 don't overthink just hear what I say if it's what I'm saying you are hearing you will not be confused behold what manner of love the father has vesses upon us that we should be called sons of God therefore the word knoweth us not because it knew knew him not beloved now are we the sons of God and it do not yet appear you see this do not yet appear that is those two ages is what is called this present world and the world to come is there a world to come yes not a heaven to come the world to come is that world where Heaven and Earth are together where no more sin dead Satan evil that is the world right now there's still Satan evil we are born again we are new creation we are sons of God but there's still a Satan there's still devil Jesus have died Jesus have died he giv us power G us power but it still looks like there's a contradiction to that our story that is do not yet appear but the kingdom is not waiting till that last day has started now and it's spreading everywhere so he say Do not yet appear what we shall be but we know that when he shall appear we shall be like him we shall see him as is Hallelujah so what were they waiting for in Philippi that the emperor will come from Rome to Philippi and no longer will people say Rome Philippi as if there is a difference the difference will only be in name that there's a place called r o m e distinction again in explanation Rome r o m e Philippi P are you seeing that will be the only difference the only distinction but we cannot separate the realities there and here because we already are all the same citizens is that simple enough that's exactly what the B writers were talking about Hallelujah okay sir let's go further Luke look at the last book last chapter of Luke so that we get an idea let's start with Matthew let's read all the last because Jesus ascended up into heaven so you get this concept again this is a good way to end the year in teaching if we are able to finish this Heaven matter conclusively which we are able to do today I'm so happy Matthew 28 still have time enough to do that Matthew 28 look at Verse 18 19 20 uh and Jesus came and spake unto them saying all power is given unto me in heaven and Earth this is another thing we'll talk about another day why is he having to say all power the emperor has all power Heaven and Earth in Rome and Philippi has all power is in charge so he can he can say say you are a citizen you're not a citizen if for example now you are applying to the US if the president of PMA help me I may not know the exact phrases you would know it better than me can the US president authorize me to be a citizen I I want to be I I think I know but let's once you see the emphasis because he has all thank you so Jesus say all authority is given on all authority heaven and that means I'm the one that can say this one is my own I'm the one that can say this one is not my own and just like people are but is not a planet to go that heaven now the difference no like visa to now go is that we are citizens now only difference is our physical bodies and all the Earth is not matching the reality that we have inside that's the only difference right now and the end of the world that's the only difference

Hallelujah so he said all authority in Heaven and Earth is given unto me that's why now say go ye therefore go and bring citizens go and bring people and tell them that they are citizens go and bring people tell them that there's no reason why they are they are perishing this another concept we're going to explain shortly what salvation means why the whole concept of if you don't get born again now you will perish why do we use that word perish why do you say if you not get born again now you die in your sin you see how simple it is and why we should stop threatening people with hell not because there is not a hell but because of our meaning of it is why it's not easy to get convert because that there a way you present the gospel it looks like presen is among one of the religions if I'm not doing is uh uh if I'm not doing the one in the Middle East I'm doing the one in China if I'm the one in China I'm doing the one in that's not it so I get to choose which of the religions I want to follow no this is for the whole world and we must allow the gospel has it original Power is that okay all power is given unto me in heaven and earth go ye therefore and teach All Nations bring everybody B of the Father Son and the Holy Ghost teach them to observe all things whatever I commanded you L and with you always even to the end end of Mark chapter 16 we're looking at all the last chapters of the four gospels so that you see it now Mark tells us he has ended up into heaven so we'll get this better from verse 15 to 20 and he said unto them let me come down maybe as I'm seeing from there it look like I'm reading my own Bible let's go Mark 16 verse 15 and he said unto them go into and preach the gospel to he that believeth and is baptized he that believeth not shall be and this sign shall follow them that believe this sign shall follow them that be this sign shall follow them that believe this sign shall follow them that believe in my shall they cast out they shall speak with new are you see we are not waiting there's something about us now we are no longer the same this is not I click Christianity in a form I was feeling I'm not the same person no religion can boast of this that you all of a sudden without going to rob onion find something to put in your backyard you can't they don't have that bragging right cuz they don't there's no internal reality no God inside anybody there's a different because this is not one of the religions that we are clicking something has changed about us these signs shall so that means we can prove it you prove your let's prove our own he say no no no no no no no I've not gone to make our our I don't want to use the word I know the word let's use priest it's a polite way so that you don't know the people I'm talking about let's go and meet our own Priest No we don't need to meet our own priest they will not Rob something on us give us something to put in our pocket as all our brothers the not have so that they will not have power no no no no no no I I they born me like this is not something in my pocket that is making me powerful is God inside of me is Faith in my God I have made me and if we now are doing a power contest we can stop the other people in their Maneuvers we can say now in the name of Jesus you will not be able to do what you say you can do so we are testing realities so Christianity can be proven and tested it's not just we can't really know that's why if you move the superatural Christianity you have no Christianity so they say these signs are that believe so they are signs to prove those that believe then verse 19 and

so then after the Lord has spoken unto them he was received up into heaven now this is where we begin to give the phrases our own meaning received up into heaven and sat on the right hand of God and they went forth and preached everywhere the Lord walking with them so if Jesus went into heaven as it were a planet okay let's use the word Planet everybody knows it's not a planet far away a distant reality a distant world that we are all going when we die read verse 20 the Lord walking with them I thought the Lord has already gone up to heaven how is he now walking with them everywhere if he is far from them since he went to heaven far away from them I've told you once there is a 0.00000000 0.001% separation between you and God you are not saved once there a 0.1% separation between you and your and your heavenly reality you are not one of God you not that whole distance that you're trying to create if is there you are not saved though we are not really worshipping God it does not exist the Lord works with them so the issue will be how do you define this word Heaven unseen reality so Jesus was received up this one use the word up Mark you will see ascended is there between resurrection and ascends yes Jesus was raised from the dead then he he ascended so they are not us they are related but they don't mean the same thing luk 24:50 flip let me stay down here so that you don't wonder where Pastor getting his own from Luke 24 verse 49 and behold I sent the promise of my father upon you T in the city of Jerusalem until you be endued with power from on verse 50 and he led them out as far as to Bethany and lifted up his hands and blessed them and it came to pass while he blessed them he was parted from them and carried up into heaven so again because heaven is up so once you have read this this is the idea stand my brother so I we just flying is it every time you read the Bible like sorry I you know I hit you with Force that's you know he was parted from them then justed flying Superman Superman flying up so heaven for you is outer space God will help you and you see Heaven outer space where is Jesus in outer space said that's why we need to track him down you are the one confusing scientist so why they are looking for how to track God down they will keep going up up they will not find anything because he not up in the skies let your prayer Ascend to God in heaven how do to say that again say your prayer will not pass the roof pray outside there are no roof if roof is your problem go and be praying outside where it to just go up see roof is your problem he was parted from them and carried up into heaven and they worship Him and returned to Jerusalem with great joy somebody is parted from them and they return with great joy wow so and they will never see him again because he far away from them they in the distant reality no John then we read the book of Acts chapter one we see how he how he vanished since that's the idea does John have it John S man he own too much act chapter one he does not have time for all those things he just like to teach reality the way what is John is ending with is Peter you are the one Peter I'm not the one you are the one Peter you are the one you the one Peter you are the one book don't end chapter loves me more than these things that's what he's doing with John with Peter so act chapter one for John truly baptized with water verse 5 he shall be baptized with the Holy Ghost not many days hence when they therefore were come together they asked of him saying Lord will

thou at this time restore again a kingdom to Israel so they were thinking politics Will you change our country Israel and he said unto them it is not for you to know the times and the seasons which the father has put in your own in his own power but you shall receive power so what you should be focused on is not on that time and season but in the times and seasons of God's kingdom that's why I say but you shall receive power so so what you should be focused on is not that type of Kingdom but that you that you have power by the holy ghost look at verse 9 and when he had spoken these things while they beheld him he was taken up and a cloud notice he didn't jump up so once you have Ascension as jumping up calm down because the word Ascend is also used to change Glory the word means to to change Glory it could be used for that's why they call it ascendancy to transcend to ascend to go into something higher are you following is not to jump up the reason why we have jump up as Ascend is because of that heaven upstairs that no biblical writer had so we have Heaven as upstairs jump up and why they look steadfastly towards say they were looking what how do you not explain that I've caught you no not catch anything looking steadfastly there is not elishah said Lord open his eyes that he may see was it this one how do you open eye when you already saw people surrounding him Jeremiah said and I looked and I saw and I looked and I saw that's a popular phrase Genesis for the Unseen so looking steadfastly because they were in the spirit looking steadfastly towards heaven not into the sky as he went up behold two men stood by them in white appar so they were having Vision Two Men stood in white app we say ye men of Galilee why stand ye gazing up into the Unseen this same Jesus which is taking up from you into heaven shall so come in like manner as you have seen him go into heaven now this is where it gets interesting this Jesus whom you have seen shall come ah beautiful so that's it so he jumped up he will jump down so some people insist that Jesus must have done a kind of vertical takeoff so he did a vertical takeoff fil he found a spot this is the spot where we can fly Superman Superman so they have changed the Superman character D now this is though everybody knows that heaven is not outer space but we have a vertical takeoff in one part of the word so if he's having a vertical takeoff in one part of the world my science friends would that be a downward movement seen from Another Side of the globe so if he's having like this from one part of the globe how people sit from another part of the globe it will be downward so if it's a jumping up in another part of the world will see it as coming down just the same way foolish religion teaches that Devils walk more in the night hope you know night is not the same in every country say they don't used to sleep oh demons they don't used to sleep in the night oh they are attacking us in the night to 9th year there are 8 hours behind in the US depending on where you live in the US 7 8 8 9 10 hours 11 depending on where you live behind us there are countries two hours ahead of us Randa is 1 hour ahead of us K is 2 hours ahead of us so how do you now say such stupid things that they are not sleeping in the nth when you know nth everybody's not in the same nth your your Doctrine lacks intelligence but it makes sense because it makes sense to say it's in the N how would Satan be walking more in the N when people are sleeping when Satan Works more when

people are are awake he uses people more why would you people are sleeping it's only limited people he can work with so the those that have capacity to do all night it's when everybody wake up he has more agents everybody knows that until we now get to Our africanism Gospel where it has to be n because the C when you are sleeping night Satan is walking it's n everywhere in the world so it's n here we come from America trapping that's sounds that's how silly sounds why we can't preach the gospel in an intellectual way that convinces people that seem to know something so we can keeply get people who are de for nothing to be saved say your life not amount to much before just know Jesus now it's your Lord that be your Lord take him H you H what can we say to you alone we can't preach to you alone you our Lord Alon give us money we wait on you Jeff if you can be a member of our our group that's why we celebrate celebrities when they get saved now say wow yay he saved if you know you know he's saved how does that that does that concern us then later you say we don't think he's really born again why are we always wanting to attach celebrities to Christianity do we need them to validate us say wow somebody have joined us now how did you know he joined when there's no discipleship in his life is a Christian look at the way he sounding that's not how Christians do we should be saying who got him born again what is his salvation experience like tell us but Cloud Chasers and the rest have brought them to their mega churches and say yeah say something he say yeah with hand in his pocket with his big canvas yeah you know Adidas night leave Adidas alone I rest my case go and be rapping and leave Jesus alone you want to be saved be saved so the other one we say ah it's now singing slow music cuz God is in slow music it's like West life so like say wow Justin you're a singer you are saved oh I mentioned name that's second one okay that one was I mentioned him K so come follow us and sing say the Holy Ghost came there mels did more Holy Ghost than that guy just Sensational don't use sensationalism on people it can only work on some the gospel is news to all rich poor educated uneducated great small news to everybody the gospel is applicable to everybody that's why everybody can listen we can say best D all of you sit down listen the message is news today not saying wow how does Jesus make me Rich not that it's not that that's not the focus it's greater than that so anybody can hear it it's applicable to anybody body we are not intimidated by anybody is news to the intellectual is news to the do is news to everybody is news and good news to everybody that's the gospel we preach Hallelujah so Jesus did not do a vertical takeoff into heaven that does not make any sense is it cannot be proven is not true because if he did a vertical take off in one part in other parts it would be a downward movement that will be seen now that re the reason why that view exists is because how people see Heaven that he had a bodily nature Jesus had a glorified body so how could he have just entered into heaven like that n n n n n so the challenge is because most Christians don't have biblical cosmology the biblical cos they have is Heaven and Earth as different locations within the same space continuum so we have Heaven and Earth as different locations but that's not true in the Bible in the Bible Heaven and Earth are the same in the same place are not they are simply different dimensions of God Good's

creation so God created the Heaven and the Earth good the good creation what he created say is good God's good creation have two Dimension Heaven and Earth as the world so the world is two part Heaven and Earth the world I d the world what scientist call Planet Earth Jupiter all of those Planet are all what the Bible calls Earth every physical every part that we can physically interact with what the Bible calls it's not for you to be arguing the other planet go D there now say we will find a way why why are you from here taking things there from there make it know every part so every part of physical interaction that people are going for that science interact with what you can see yeah feel taste smell touch ABI thank you that's why science that's what he studies but there are realities greater than calculation not everything can be calculated I love you solve it $x + y + 2y$ plus equals to this shows that you are the love of my life by this a equation I'll be able to prove that you are the love of my life you are not going to take the person seriously now he says what is this it says the mathematical formula of my love read it and know how you are loved you didn't get that read and see how you are so loved of me say wow all right so that what do I have here $2x y$ plus uh $4x$ okay I'm getting this oh I also saw you did at the other part you did Matrix yeah okay all right all right all right so transpose transpose okay oh I get it wow there's also B theorem yeah wow oh you really love me it's not what is this mommy oh you know believe that man M send give me I've told everybody that you have following a mad man formula will be is equations he be drawing for you or another he say because he he can he draw diagram you say when you look at this prism shape and you look at this Cube let it reflect my love ah Baba you will talk I will talk because there are things it's not equation is you don't use sh to read the sky you don't there are devices for everything Faith does not faith is not what they are using a equation for leave all those ones in one side heart faith is belief conviction things of the heart is not what they calculate like that h it's not what calculate like that Hallelujah so biblical cosmology is not heaven and earth as two different locations but different dimensions in the same place so now this is the first time I will say this and I will say it here Heaven must be seen in two ways the since we already know Heaven is the Unseen real that's okay see it in two ways that unseen real sit in two place first Heaven relates to Earth in such a manner that if one is in heaven he can be present simultaneously anywhere and everywhere on the earth follow that's why the Ascension of Jesus means that Jesus is available accessible without people having to travel to a particular spot on the earth to find him they can find him anywhere and everywhere because he has ended up into heaven that's why no matter where you are you can use what is in heaven if you are in Togo you can walk in the Unseen real if you are inside Bush you can say in the name of Jesus because it's accessible anywhere and everywhere because it's heaven so when he say is ascended up into heaven that's why it can be everywhere and who is in heaven that is our Lord AB So when you say ascended up into heaven so when you say something Heaven relates to Earth second so that the one who is in heaven can be present simultaneously anywhere and everywhere on the Earth anywhere and so anywhere I am on the earth I can assess what is in heaven true or false

are people assessing heaven right now in different parts of the world they have to be where we are because it's in heaven because it's in heaven it can be accessed anywhere and thank you that's how you should see Heaven that when you say heaven a dimension that can be assessed anywhere and everywhere on this Earth so when Jesus ascended up into heaven because he's our Lord not our Lord is with us anywhere and everywhere we go that's why he had to give us his spirit so that we will not doubt if he's really with us anywhere and everywhere because he not distance he didn't he not I'm away from you the Lord walking with them we read Mark just now now confirming so he was with them not away from them lo I Am With You Always didn't say Lo I'm going to come in the end of the world and be with you always he said no low and with you always even to the end so he he ascending up into heaven was not disappearing to having nothing to do with them was not a departure Ascension into heaven was not a departure because the Lord walking with them everywhere Lo and with you always always even to the end of the world so he was with them everywhere did you get that so when you get heaven so unseen twofold first Heaven relates to the Earth in a manner that heaven can be present Heaven can be present simultaneously anywhere and everywhere on the earth the Ascension of Jesus proves that Jesus is available accessible anywhere and everywhere people don't have to travel to that a particular spot to find him they can find him anywhere and everywhere is that so second idea of Heaven in the Unseen real and this is where it gets easier more is that heaven must be seen as the control room for the Earth it is the CEO's office the place from which instructions are given that's why I say all authority in Heaven and Earth so when we say what you bound on Earth is bound in heaven because heaven is seen as the control room I need to superimpose Heaven on the earth so it's seen as control room the place of power the place of authority that's how you should sit and stop having this idea of fly away to heaven now another issue reason is because people feel like Jesus had a glorified body so he has stopped being human is purely Divine now no he did not just like when he was human he didn't stop being Divine no now that he's raised from the dead he's also still Divine and human he's always going to be divine and human forever and ever that's not going to change he has not put that aside he say no he came as a lamb he will return as a lion no those excited preaching is sweet is nice but the Divine human nature of him is going to be forever and ever that is the story of his love that Divine human part of him because God does not have a problem with man that's why he made man His Image stop having this idea that God hate man God hate Earth is not in the Bible God so hated the Earth that he sent his begotten son know that God so L the world Hallelujah so the Ascension of Jesus invites us to rethink how we see the non-material reality because if we see Heaven as where people cannot go with a body it makes no sense that Jesus hasent into heaven with a body then we are wondering no now because body though we have you can't have a body and be in heaven who told you that Jesus proves that because stop seeing Heaven that weird way Heaven and Earth together are we good last but not least Jesus tells the thief the brigand on the cross today you shall be with me of course Jesus

dying was going to hell then from Hell be raised up so he say you shall be with me in Paradise now Paradise could not have been the ultimate destination because the man was dying the man was dying however Paradise is a blissful Garden used to the same word Paradise the same word used to explain Garden of Eden a blissful Garden where God's people rest prior to the resurrection so everyone who has died is in Paradise a blissful Garden which is where he say to be absent from the body to be present with the Lord and this where I will start from in January where where what does that now mean where are the guys that have died where are they in heaven what does that mean this was the things our C Brothers tried to push to an extent theyed saying let's pray to them and so it was that doct they were understanding that they pushed to an extreme and they brought the whole patry and all of those things pushed to an extreme Hallelujah Paul says that his is to part and to be with Christ Which is far better so Paul knows he has a blissful life with the Lord immediately after he dies but that is not Resurrection so once you begin to have that idea that when a man dies that is the resurrection world that is the world to come that's not the world to come that every believer who has died physically is in Paradise is in the garden of God is in an is no longer with his physical but is in an unseen reality with all the other many sense all with the Lord and that is called Heaven because heaven has multiple application because it's unseen how it's not where as you are walking on the road say oh I've seen it it's not with physical eyes Hallelujah so how does that what does that mean so we explore that more but we end with this every believer should have an eschatological Duality we should think of the present age and the age to come instead of having an evil Earth and a good heaven in our view it is a wrong way of seeing a good heaven a good an evil Earth and a good heaven so we need heaven to come stop having that kind of dualism is wrong and evil Earth and a good heaven we need to escape Earth for a good heaven no instead have an understanding of this present world and the world to come in your theology what happens in this present world and what is happening in the world to come that world to come where there's no more sin death Satan evil that is what you actually have in the Bible then you will now see so many Bible verses you will now see so many and you will not force any text it will mean exactly what it means Hallelujah so I conclude salvation is not going to heaven when you die but instead being raised to life in God's new Heaven and Earth now and forever so now we are in God's new Heaven and Earth now now and also forever that even physical death does not separate that we are still going to be with the Lord even when people die physically or if all the Earth is renewed in our own timeline good and fine but if not physical death does not change that we are still with the Lord we are with the Lord now and forever in this present world if I'm saved I'm with the Lord and I can walk and enjoy the realities now and forever so stop having what are we going to be doing in heaven he say we all going to be Qui master and mistress we having white and singing Hallelujah Hallelujah that's your Heaven only you should go very weird boring stuff then some that have been pour their life on the Earth are looking for Mansion my street of God my Manion is f than yours even in heaven competition man your I have skyscraper I have

this because it is the idea that was created of escaping the Earth for heaven because it must have the elor dream the we need to escape this head for now you are poor but there you will be rich I need to go I need to go make Jesus your lord now and you'll be rich in heaven say ah thank you sir then what those who are rich here you say hey that's why the other the other side they say when you die he will give you many virgins religion hate women go women don't get many men in their Heaven they never think it that's how you know they are all concussions concussions of men silly stupid [Music] stuff what do the women have the men have seven virgins even in heaven they dashing you with women as a commodity say you tried take seven even yeah polygam there polygam hey what a Doctrine Hallelujah I don't stop just put a pause in your mind put a pause in your note we will continue from here next week which will be a new year we continue from here on Wednesday is that okay yes Hallelujah [Music] I say did I say Wednesday next week Sunday please hallelujah amen amen God bless you trust you learn something yes sir so Pastor said we are not going to heaven no Pastor said we are already in heaven we have been raised to life in God's new Heaven and Earth now and forever ever that's salvation Salvation is not going to heaven when we die it's not heaven at last is that now that I'm born again I have the life of God and I live in God's new Heaven and Earth Hallelujah praise God and it's not just for now is now and forever Hallelujah I'm a Child of God so the very things the very Expressions that God have the Man in Christ have them too these signs sh their belief this is just one of the concept and we Explore More Hallelujah I live in heaven now I operate in heaven now it's not far away it's not a distance away that's why our songs we are in Zion this is heaven you must realize that is not we are going we are this is it we can we can the other dimension of our ordinary life the spiritual dimension of our present life so right now we can just say who is sick you see that the other dimension is here so in the physical Dimension there's no cure if the doctors are amazing people without them half of humanity will be dead by now so if you among people that hate doctors talk for yourself I'm not with you how however where there is limmit we find out that since there's no cure in this physical Dimension is there cure another dimension that ah all is called Gifts of healing all manner of all man of diseases is just if the people are ready to receive and there is just like a doctor prepares the person knows where to walk on that's how B the gifts of the Spirit we know where to lay hands on what to say to get the person to that point where his Spirit can lay contact with that Heavenly reality and Ru to show that it is not a mirage it affects his body now that's why the biblical writers has used the word saved for physical bodies being healed so that you will not have an escape mentality of going to heaven when you are saved so that you realize that saved affect your present reality just as your physical body gets saved and you are healed that's how you are saved in Christ Jesus he still heals Hallelujah stand on your feet lift your hands and pray the Holy Ghost well done this morning thank you Lord
