

spirit and we trust again that in this service the eyes of our understanding will be flooded with light we leave you with a greater understanding again of the doctrine of salvation the things that ought to be said in this service will be said the things that ought not to be said will not be said your name will be glorified we shall be edified built up transform verses of many of the books can you recall all right for those who were not around when we started that was what we did we saw that Genesis of Revelation have the same story even when you look at the four gospel they're not teaching anything different so they have to trace Jesus to be the son of David the son of Abraham they are tracing so that you know that is the same story they are not creating a disconnect and we said that if you understanding of Old and New Testament is books of the Bible that Old Testament there that one is the forget everything from Genesis to Malachi we can't try it to that's fact that's where the truth is because all that you have in the New Testament books are all from there that's where Jesus studied from that's where the Apostle study from and that's all that they said fact Paul said I said none other things than those things which Moses and the prophet did say you will see those failure within the pages of the Bible but don't have a Genesis to Malachi this one is old like we said Malachi of Malachi and all of the great Christian figures of time past who the translators who said Genesis to Malachi old Malachi the Revelation new they didn't call it old and new because they are saying old obsolete we don't need it again no Old Testament they use it to explain that of his enduring nature what is in Genesis to this is what the original translators had in mind many persons have never read the preface of their Bible some Bibles don't have preface it's so cheap is 300 400 what can you find preface there they cannot give you there's no introduction page is Genesis to Malachi one because they typed it in backyard and stapled it all right so but you see those very good Bibles give you a lot of pages before and they give you an idea of oh where they got their from the the the SE that this was translated from here they got the Des CL you see all of those baby grammar I read everything I read to the map I read everything in my Bible now beyond that of course there are so many knowledge is running to and through the Earth so these days you can get so many things but you must be able to far check it because as knowledge is running to and from that's how many wrong knowledge is running to and from how I know is every time I type a gospel question the answer I see on Google I I shock so you realize that if it's so for Spiritual things I'm beginning to fear for natural things too and even for natural things I say ah this is somebody just put something in his website that they are giving me here it's not correct oh and that's what we are beginning that's what our children will suffer more because there will be so much knowledge they will now have to seep through which one is the correct one and which one is the wrong one because it's not everything you as you typed it you saw answers not all the answer that is correct is the one that people have searched more that you first see that's why they have SE EO now they having a is it a i e o i be a i o mhm anyone so Psalm 74: 12 God is my king of old working salvation in the midst of the earth so we now said that what is salvation what is salvation that's what we began to look at having looked at the Genesis to Malachi story I hope you're here again Genesis to

Malachi story so what is salvation what salvation we said if we want to look at what salvation we need to know what salvation is not of course salvation of course means rescue what have we been rescued for so everybody answer the obvious answer is De okay what have been rescued from so salvation is to be rescued but before we talk about what salvation is what salvation is not is more common what salvation is not is so common that is what salvation has now been called what salvation is not is what salvation has been taught to be I wish you get it what salvation is not is what salvation has now been what taught to be so again just as a way of refreshing your memory like we said Genesis to Revelation has a story line is that okay now most persons when they read the Bible all they see is like a moral story like a moral examination God told man what not to do God gave us some laws this and this not to do and man failed to do it and that's why man has to burn in the Lake of Fire because God cannot tolerate that nonsense it's so nice it's so sweet it's so it's so lovely but that is not the creation we have Genesis chapter 1 down to Revelation that's what the biblical writers are telling they're not telling us a moral examination story of course God did give a command that man did fail to keep but it's not a moral story that the biic writers are teaching but what has God always intended to do he made the heavens and the Earth and his intention right from the get go was to live with man God angel a man in one awesome Fellowship living together on the earth that's why we said you must understand the different applications of the word e different applications of the word heaven so we said the word Earth there can be called World LD remember that all right so when we say World The World Is Heaven and Earth just like everywhere you go on the earth you see Heaven that's the same way so they are together now it's over the years not up to just it's over the years that there have been a massive separation between Heaven earth looks like there's a distance they are separated and we said that no ancient writer no man in the scripture ever thought there was a separation between heaven and they didn't think it in their world viw neither in their in their doctrinal or theological understanding they see a or their religious understanding they see a separation between Heaven and Earth it was always together in their minds they were always together and one concept for that is where you get the word t e m p l e what's that temp temple because for the Ancient Man Temple was where Heaven and Earth intersected Heaven and Earth interconnected Heaven and Earth overlap Heaven and Earth together in a place is called Temple and it all the temples of the world except in Jerusalem every Temple had an image except in Jerusalem because they not to make any graving image are you following and when you understand that world view realize that Heaven and Earth together then there is the image but why did God call man His Image why did God call man His Image we already explained that as image bearers we are to reflect AB we are to reflect God towards his creation is that not so we are to reflect him into the word to represent him if that the word you you like better all right one that makes you happy but to represent him reflect him towards the world wrld D towards all of creation so we are to reflect God into the word and also we are to reflect God's praise back to him so basically you can tell the story like that where to reflect

clear so we are to reflect God into the word and also to reflect God back to himself and say that this is you that's why we worship we praise him we glorify his name but why did God make the Earth he wants to live on the earth the earth is the Lord that's the EMP that's why we're doing this series the Earth is the Lord remember we have not even uh read all the references of that why does because he his own is God that owns the world the Earth is the Lord is God that owns the world it's God that owns the world when the Bible say the Earth is the Lord and the fullness there of that Earth there is the world that's why I say the world and they that dwell there in are you getting it so it's talking about the world is God that is the creator of Heaven and Earth why did he create it we said in our in our teaching on the mate of Our Lives can you still Recall why did God create create the earth a family yes his kingdom can we say different words for it will be his glory said the glory of God the kingdom of God are synonymous using different uh different words for it and we said the two can be brought together but God intended to live with man God ined to leave the dwell Among Us God I think you have heard me use that phrase over the years that's it Genesis chapter 1 chapter 2 chapter 3 the voice of God walking the go Revelation 21:22 you see see God walking that's you see there's a there's a flow God dwelling with man that's the theme quickly I would quickly just run through like all of you are B you you read your Bible and because everybody have this basic understanding because of um cartoons Bible cartoon Bible stories so you will know that so and I know you know that and of course if you've been here with us you know it because we have taught on all of these subject matter so you know all these names in the Bible so observe a pattern after Genesis 3 to genes 11 God has to start AR fresh and he gets a man AB Abraham chapter 12 of Genesis is that so now with Abraham because failure failure failure failure failure in his creation there has been the the word c v n n t Covenant from Genesis chapter 67 with no one and all of that however it has not been taken seriously was just God telling Noah the same thing I said in creation but however when we get to Abraham we see a different word and expanded God said before fruitful multiply like now God is telling Abraham I will make you fruitful I will multiply you still the same thing but only said in a different bread just like a husband and a wife are in a covenant so you see in an agreement of A Sort come on so the pair that God made male and female created he them so God had a plan for creation or want to live and dwell with us and so that we now in that's his intention but in that intention we also have a vocation purpose mandate that vocation we not say we are image bearers imager of God living as God's man these are not BB Grandma I'm refh with all you have heard before so I have a vocation exactly what you know vocation to mean work I have a work my work is to be an image Bearer is to be an imager of God is to represent God I represent him to all of creation and I reflect his praise back to him I tell him ah you are I reflect his praise back to him I worship him I serve him I follow him is that simple enough all right so the core of everything is his plan and purpose follow so that you are not always reactionary because most people don't understand the origin of sin and what is the cause sin because what did Adam did he didn't slap his wife that was not the sin that brought the

fall of Man that that is stupid by the way but that's not what he did he didn't R he didn't wrap some leaves you know you WRA the leave he folded it and he was puffing it up that's not what Adam did what Adam did was disobey God when you say disobey God we get to push it so far because we removed the the ellipses is there he disobeyed God in doing what he disobeyed God In following God's plan and purpose which is the core once you once you have this idea of God's Eternal plan and purpose is not the core but a going to heaven that devilish doctrine that limits people and affects people from fulfilling purpose because he always just to escape just to escape God hates the Earth we must leave the Earth God hates the Earth we must leave the Earth but in the Bible heaven and together Revelation 21:22 again the story is ending with Heaven back on the earth that means it's not an escape plan but thanks to how plateau and his writings and all the Greek Scholars have shaped westernization what we re what we what we inherited from all all the westernization and the development the world has also crept into the church and all our great reformers we love them they are good when we shouldn't speak down on them though they didn't explain some things right they walk with the limited light that they had they are human just like you and I they didn't know any better they didn't have so much information and they began to teach along those same lines and they began to present Christianity as an escape like we just this world is not my oh we fly away oh we are going to a planet and that began to limit and affect the expression of Christianity began to limit and affect the expression of Christianity what Christianity really is about meet anybody down the road and ask them what's chisanity about what salvation all about say oh I get to die to go to heaven they always die I get don't want maybe they are nice they don't want to use the word die it's about going to you never hear somebody says about God living with me nah that's not common talk you never hear I get to reflect the glory of God that one is never Christianity you know I get to I get to be an imager of God down no no no you always I get to go I get to leave I get to depart I get to do to a disembodied Heaven as you say fly so I'm flying away have you seen how those TVs when they want to blow black and white know how those shape thank you you know it looks like that dance as how we are floating to a disembodied Heaven not in the Bible and that affects understanding so if you're already studying from a wrong premise it's going to affect your lens how you see other Concepts you won't see it properly now these are not new things over the years in fact since you joined us right from we have always talked about don't make if I go and make a however I realize that people still don't get what we really mean they still think that okay that way of saying because we are Grace people we know that we're already there as if we are going that go that fly that abroad that that jump don't have it that's the issue once every time talk about you always I'm not here because God hate this world so much he going to bombb it going to destroy it no no no no know he made the world if something go wrong with your painting you fix it as a good artist he's not going to geted he's going to renew and that's what he intend to do to renew his world not destroy his world because it is his when you start seeing like that that oh it is his word that have two beings b i n g two creation

visible creation the creation you can use hand and touch you can use leg and touch you can jam the creation you cannot jam with hand because invisible but yet you can interact with them just like even in the natural there are invisible things but they are just we talk about uh right now the they see there's no wire connected to this if we bring a radio now we see that oh frequency the radio waves but we are not seeing the radio waves our does not mean that it's not there does not mean radio waves does not exist that I can't see radio W radio waves does not exist because with the necessary equipment there's a necessary equipment for our heart that that we get to know that oh this is Faith is something of the heart it's not something you solve with a d equation is that okay so when we try to argue the age of the Earth with Scientists all of these people know the age the Earth is 6,000 years because we counted Adam's life you are being silly because that's not what the Bible are writing for you say how did you meet your wife so oh we met at sh Pride we were walking down the road is that the day you were born no but that is a beginning say in the beginning it's not telling you this is the first day Moses is writing from his time with an understanding if you don't even if your great grandparents could even tell their age how do you think in those days they will able to accurately tell and preserve data so well that they will know the exact date the exact age so calm down stop arguing with Scientists unnecessarily our Bible is not a science book it's a faith book it's not a science but it's pre-science it's premodern so allow it to be what it is the ancient men were acient in the understanding and God chose that generation to inspire to write because that world view is has not been has not left the Earth it has looked as a bit of difference but the biblical world view is good amen we are simply to now interpret the Bible to unify that word to our today's word so that we can hear and see the same thing are we making progress here all right so salvation so once we get the story so God intended to do something with creation and creation failed man failed man filed wul man has been feeling wul so what God say okay what am I going to do okay I'm going to enter into an agreement with Abraham and we see in Abraham two things a promise about a family and a land it looks like it makes no sense now family now God promise him a family ah Abraham now you know Abraham now it's not family a family and a land now we when we now see the nation Israel the same thing but we see a lot of failure in that Covenant also not the Covenant God made but the people the people don't keep the Covenant follow just like in creation the people do not carry out they are not image bearers they are failing as image bearers and they are failing as image Bearer is not allowing God live with them the way he wants to live with them they are failing as Covenant people is not having God live with them that's why forgiveness of sin must be in the gospel but is not the core as it were is not the most important detail it's a part of the Gospel but it's not the only detail and if that's the only detail you know you will miss out vitally of what the gospel is what salvation is which is the reason why anybody who understands the gospel like that the idea of of all eternity when all the Earth is hidden is that we are single forever because they don't know what God even made the word for so we all have to wear choir robe with our white robe of righteousness and we're all singing

Hallelujah Hallelujah we bow we worship you oh Lord that's not it we all don't become cers
amen so there's a reason to understand things and the failure in creation the failure in the
Covenant is what we see Jesus solves is that okay so the purpose of creation and the
Covenant is fulfilled in Jesus creation has failed the Covenant people has failed but God
must put things right so the biblical story is similar so if you know none of those details that
oh there's a lot of failure in creation which you should know like I said if you have ever read
the Bible a man is disappointing now he's not doing exactly what God said okay now God
has entered into a covenant with these people and the Covenant is beyond just a because
he's towards the people because he say with him shall all the families of the earth be
blessed Genesis 12 Genesis 13 Genesis 15 Genesis 17 Genesis 22 you see all of these
details Genesis 12 Genesis 13 Genesis 15 Genesis 17 Genesis 22 you see all of these
details of Covenant with Abraham all the families of the Earth shall be blessed blessed
there is welcomed in not Material increase all the families of the Earth shall be welcomed in
all the families of the Earth shall be welcomed in however we now see that Israel turned
this into something else they failed in their vocation of being King and priest towards the
other nations which is why we now have Jew Gentile that to me that this is just for us what
was for them was for everybody but they turned it to exclusivity that's again a failure and
again we saw that God could not even live with them because they were always turning to
idolatry turning to worshipping other gods is is that not failure you see the fact if you are not
sure the Exile proves it there's no Exile in your Bible like I said I'm just trying to show you
that there's a story in the Bible and it's is it's so easy because when you realize that it's
from creation to Covenant that's the story line until you get Jesus and you realize that okay
oh so when we have Abraham from Adam to Abraham key character then you now have all
the Covenant talk still interchanging with creation what is but what God is going to do is to
renew so if he renews creation he obviously will renew the Covenant but his plan has not
changed so he will renew his Covenant people he will renew creation is that simple enough
I'm trying my best to use the simplest of languages so the same idea let's backtrack a bit
before we get so far with Israel into Exile you know Moses built a tabernacle what was the
purpose of a tabernacle so that God will dwell so that God will what all right let's do some
study you have yawned you have have four people start snoring let's do some study uh
God wants to dwell with us Genesis 29 and verse uh Exodus 29 sorry Exodus 29 and
verse 44 Exodus 29 and verse 44 and I will sanctify the Tabernacle of the congregation and
the altar I will sanctify also both Aaron and his sons to minister to me in the priest office
and I will dwell and I will dwell among children of Israel and will build their God is that in
your Bible I will dwell with them remember I told you what is God's intention to live with his
creation Heaven and Earth he wants to live with his invisible and visible creation together
now he is Spirit at the core the supernatural beings he made the invisible creation are Spirit
at the core man is also Spirit but he gives man a different layer he gives man an Earthly
house because man is physical because everything is to be found in the physical so the
Unseen in theen The Invisible indivisible because what's the idea of radio waves if you are

not having radio thank you the idea of the Unseen is to be seen is to be felt is to be handled is to be related with sir xrays you don't see with your physical but there are equipment that can obviously is for the use it's always for the tangible it's always for the for the there's physicality there's touch that's why he made a physical word so Heaven and Earth together always the plan remember all right now I will dwell with him so he like we said his intention was to live with man so even in the Tabernacle talk essence of the Tabernacle was that will live with them underline this phrase because he used a lot in the Bible when you get to the Epistles in Christ reality which is okay don't beat yourself you say all I know is in Christ reality you have then you know enough then you have a good foundation there's nothing wrong with knowing a lot of in some people don't know who they are in Christ there's nothing wrong with that just learn everything you can learn which simply are deepening your Bible Understanding not that oh so that in I used to know those no important HH no wonder you really feel worthy now it's really not important now now you are unworthy but we are always worthy because he made us right I will dwell among them and children of Israel and I will be their God and they shall know that I am the Lord their God that brought them forth of the land of Egypt that I may dwell among them are you seeing that they may know so they were saved for a purpose oh I don't want to jump ahead of myself so you can because the origin of this of Salvation we have to tell these stories the origin of Salvation we have to tell these stories and in telling all these stories we see that all many of the stories in the Bible are stories of Salvation people were saved they were rescued all right just keep that somewhere in case you are not sure Paul detail Timothy from a child that not the Holy Scripture which is able to make the wise unto salvation the scriptures is able to make the wise unto salvation that means what you have all over the scripture is salvation it's able to make the wise unto salvation so when you can't read the Bible and no understand salvation you keep seeing God save this man God save this woman God save this person God save this person so that we understand salvation all right so what is in exod 29:45 is in Exodus 25:8 and let them make me a sanctuary that I may dwell among them remember when we talked on the understand our gathering together the temp we thought about that now sacr space we saw that Garden of Eden the Tabernacle the temple they all reflect the same thing so remember I told you the ancient men way they see things they are when two Heaven and Earth is together in the same placees the origin of the language called Temple because Temple is the place where Heaven and Earth intersect that's the same reason why when Solomon was the temple he was saying this is heaven this is Earth he was joining everything together because that's how the ancient men understand that's why the Bible tells a house story uses that language because that's how the Ancient Man understood things so Heaven and Earth is in the same place Heaven and Earth can be interacted in the same place intersect together overlap each other in the same place and where they overlap each other is the is the temple that Temple is where you now see in Revelation there's now no building because new Heaven and new earth has happened there is no need for a physical Temple because

that itself is a temple the new Heaven and new Earth itself is a temple so Heaven and Earth together itself is a temple so for to make sense G of Eden was the first place where we saw that Harmony of Heaven and Earth working together God supernatural beings and man in the same place that's where we get the concept of sacred Place am I refreshing your memory now beautiful so God has always intended to dwell with man Leviticus 26:12 I will walk among you and I will be your God and you shall be my my people 2 Corinthians 6 and verse 16 and what agreement has the temple of God with Idol for you are the Temple of the Living God as God have said I will dwell in them and walk in them I will be their God and they shall be my people second Corinthians 6:16 are you seeing it this is repeated a lot I will be their God and they shall be my Ezekiel 37 and verse 26 just write the references down if you can turn there quickly turn there but the important thing when we mention references very fast always write them down don't think it's not important it's very important you may not turn because I'm going to read it but emphasis is always to write it but the ones you must turn is when we announcing observe observe that means you have to turn is how to quickly take notes did you get it say oh I wish he was slower didn't you go to school you should know what is essential what is not essential now the same way you take notes all right just to give you that wisdom Ezekiel 37:26 whether you turn or not important thing is write the reference down because I'm giving you references for what that it's a consistent plan that God has wanted to dwell with man is that okay all right so I'm just taking this an aside for my teaching Ezekiel 37:26 moreover I will make a covenant of peace with them it shall be an Everlasting Covenant with them and I will place them and multiply them and I will set my sanctuary in the midst of them for my Tabernacle also shall be with them yeah I will be their God and they shall be my people Ezekiel 11:20 that they may walk in my statutes and keep my ordinance and do them and they shall be my people and I will be their God Be My People I shall be their God Be My People I shall be their God it's all over scriptures Zechariah 2 and verse 10 sing and rejoice oh Daughter of Zion for I come and I will dwell in the midst of thee sayeth the Lord and many nations shall be joined to the Lord in that day and shall be my people and I will dwell in the midst of thee and thou shalt know that the Lord of hosts have sent me unto thee all right I will dwell in the midst of thee dwell in the midst of thee so we have Leviticus 26:12 Ezekiel 37:26 27 we read all of that Corinthians 6:16 17 Zechariah 2:10 Revelation 21 1 to 3 and I saw a new Heaven and a new Earth for the first Heaven and the first Earth were passed away and there were no more seeing other was there's no more chaos no more evil I've explained that I took time a bit in this series to show you why it say no more SE recall and I John saw the holy city New Jerusalem coming down from heaven prepared as a bride had done for her husband now of course he dealing with people not physical buildings in case that's what you have in as you say I saw you once you look at me look up please once you are reading Revelation like this look at me oh I saw just SLA yourself you don't have sense bring it back is in a vision you know we are the instead of us to blame ourselves for not doing well we'll be blaming the biblical writers they did not know that we are not thinking well sorry now I'm putting we I

didn't say you so that you not say I'm I'm it's not me oh because why are you raising head up it's a vision they raise head up for vision they see he having a vision you are raising that's why you're looking for physical building so and I saw T once that picture is there give yourself another one tell yourself I'm not thinking well why are you that means you see how planet in your brain one when will you be free from this there are many building cuz you see now now your M are coming down all your skyscrapers everything and I saw new the city in a city I don't know many they think like that was City originally when say Abraham s a city the city there is the Greek world uh police not p i I know you don't like them P that one means a people Abraham sought a people because God told him all the families of the shall be blessed what is the purpose of land so that we have land no so that you will dwell in a land there's a house in a house household is is these people are thinking we are normal people let's prove to them that we are normal that we are not reading weirdly because the ideas we are having it's just about land just about land just about people go live there the emphasis takes you back to the people because check the man of God Jacob he had he said the Lord is in this place and I knew it not he because the this is the house of God but there was no building this this is the house of God what God man angel in the same place say this is the house of God this is what God is building and he will dwell with us forever and ever Psalm 23 surely goodness and mercy shall 3:6 everybody knows it now surely goodness and mercy shall follow me all the and I may forever and ever dwell in the house of the Lord is he inside a building no can D how can David live inside building forever and ever so you see that I'm trying to show you that those text we are reading very fast and removing when they are bringing forever and ever inside a building can't be physical building now because there is something God is building right from Genesis so see Genesis CH 1 and 2 as a project then you see the completion of the project Revelation 21:22 you see that ah is the same story line what God is building is what he has achieved did you get it this is it to pay attention because this is what makes christian christian sweet different special that I'm showing you I'm laying the foundation so that you understand how different what we believe is may not be explained better which is how powerful our messages whether you explain it where you don't explain it where is God's mercy that saves a man it is not the beauty of your explanation but the faithfulness of the Savior doesn't mean that it should not be explained well because when things are not explained where it affects your worship what is the essence of sound Doctrine say it's stressing us no the essence of sound Doctrine is for your pro for your help because it's without explaining things properly you can't worship god well when scriptures are not explained properly you cannot worship god well you cannot live well you cannot worship god well sound Doctrine is for your worship it's not so that God will answer your prayer it's not so that God will meet your needs ah God meets needs even people that are doing out of context you can use out of context to pray and God will answer your prayer because God answer your prayer because you use correct English he say father what kind of father is that one that say you not speak good English you know answer me or you know answer me you Bor me st stop

making God into what is's not are you following but if I have a wrong idea of my father I won't live with him well that is the issue the essence of sound Doctrine is for accuracy of my worship and accuracy of my living with people are you getting this that's why we appreciate it not they are stressing me life never stress you rich when life stress you and see how you are serving God foolishly and living foolishly you will remember some Doctrine you will take it important because you not realize why people are TOS as cast to and fr right now by bloggers but you are not because you know what doctrine mean I heard this I that's not in the Bible now you see cuz you know but if you were not rooted all this you would have what am I seeing here what is that maybe there's something here you say can explain the person trying to explain explaining rubbish aha because you know you understand scriptures better which is the purpose so is say it does not matter it matters though is for accuracy or worship and until your Doctrine is sound and correct we can't really trust your thought he the Lord we can't really trust the voice of God you hear so later now you hear one Pastor comes up and say the Lord said to me you what the Lord said to him you not want to say hi is his wrong Doctrine on the sign of God that spoke to him which is okay but he not our [Music] God so many inconsistency so Revelation 21 and verse three and I heard a great voice out of Heaven saying behold the Tabernacle of God is with men are you seeing it yeah there was no building oh he said the Tabernacle of God is with men that means God has is taken his place with man his Tabernacle of God just like the Incarnation God became flesh that word became is the word mishan used to explain Tabernacle the same word used to dwell the Tabernacle language the same what John used in John 114 so he says he has tabernacled with us he will dwell with them and they will be his people and God himself shall be with them and be their God now this is looking like it's futuristic you know it's not futuristic but you you have read this same line in the poine episode and that's our current reality right now I a child of God right now I is that day in fact if you are not sure this man that Revelation here say now are we the sons of God so you can't blame him if you think John does not know we are a son of God he told you in his John's letter in his first episode second episode third episode his emphasis was that we are sons of God in fact joh don't write more about eternal life than any other author so you can't say John does not know that we have eternal life that we are sons of God no he writes a lot about it clear so this thing you are read Revelation 213 is not futuristic for you and I because for us I told you just now salvation is not going to heaven for us but once a man is born again he's already ra is already raised to life already has eternal life already raised to life in God new Heaven and Earth now and for all eternity so this is our reality now and forever is not the only difference is that for other people who are not numbered like us it will not be their reality in the later part but for us is the same what is true for us now is true for us forever the only thing that we are waiting for is to put on immortality not for us to go where where are we going we are already there the only difference is that there's still sin and death so it does not yet appear so it's not looking like it is really so because there are still contradictions on the earth there's still a Satan there are still Devils there are evil spirits

there is sin there's death there's evil there's wickedness but we are also here that is the difference but there's a time where there will be none of those other things so the biblical writers are consistent with the kingdom now the kingdom not yet the present time and the world to come are you following not that world to come where we are flying away no fly away anywhere in the Bible you will be lying you will be finding Bible verses and the verses will not show up I once with a bishop in war we sat down cuz I was praying by the side of his his building so he get got to know me many this many years ago and for hours I told him to show me verses I don't want to mention which denomination show me he could not said my son let's do this again tomorrow I say I so I was trying to do a program there I left the program left the class I came I sat down with him so I would not say I an another two hours he said I checked it what about all these verses I say it's not it now he say yeah it's true you really you really like to think I said you will not think the thing does not follow now what you are trying to read does not follow said say so you mean there's really no vers then why do we now say it I said I'm not the one you're the one saying it it's not we for because me I'm saying something else that's what started this argument oh okay then why do people now say it I say the same thing you ask me you not the song wrer the last line it's the same thing so because you somebody heard it from somebody heard it from somebody without checking if it's in the Bible is not in the book because no I don't like saying things like it it look like I'm putting down pastors because I'm one of them but many pastors are lazy don't read Bible some Pastor can qu 20 Bible verse shameful is not in the book and those are the things that challenged us to want to study the Bible better and before you think that I'm unique we are many like this there are many persons who are emphasizing what the scriptures properly teach some do it an excited manner some do it in a calm manner some do it with their old denominational background they remain there but God has 7,000 every time that has never bowed all right are we okay sir so Revelation 213 is the same idea clear clear clear so God walking with man has always been the has always been the plan I'll be my people I'll be their God my people I'll be their God my people I'll be their God repeated or through the scripture is that not so be my people I'll be their God you even have it a lot in Hosea you are not my people they not then he says you are now my people so even in hosea's children is reflected the same idea so in the Genesis chapter three we see the voice of the Lord God was walking in the garden verse 8 and they heard the voice of the Lord God Walking In The Garden in the cool of the day the voice of the Lord God walking so I've told you before voice does not walk but yeah voice is working that already means they are writing Supernatural world yeah because voice should not be working you hear voice voice does not work but the voice of God is working why because this is where I Tau you who is like unto God the the word voice of God there is the same word used to explain word of God John one said the word became flesh is that voice of that was walking in the garden that is Jesus get used to Jesus forever and ever that's the god you always interact with so that you are happy gen Genesis chapter 15 Abraham had the word of God look at this Genesis 15 just for those who have never seen things like

this before Genesis 15 after these things the word of the Lord came to Abraham in a vision saying fear not Abraham I am thy sheit so it looks like oh Abraham is in a vision the word of Lord came unto him so all right what does that mean verse two and Abraham said Lord God what would IOU give me S I go childless and and the see word of my house is this elazar of Damascus and Abraham said behold to me thou has given no seed and L one born in my house is my hair verse four and behold the word of the Lord came unto him saying this shall not be thy hair but he that shall come forth out of thy Bo shall be thy hair and he brought him forth and you are still reading that it's not physical he brought him forth so you see the word has a personality the kind of pronounce he's using for it you can't say it's intangible unrelatable no he's using relatable pronouns is that okay showing you that this word the same way in Revelation in Jeremiah then the word of the Lord came unto me saying before I formed thee in the belly I knew thee then said I ah Lord God behold I cannot speak for I'm a child but the Lord said unto me say not I'm a child for thou shall go whatever have commanded be not afraid of their Fai for we to deliver this here the Lord verse n then the Lord put forth his hand and touch my mouth so what he said the word of the Lord he removes that word the word of the Lord and replaces it with the word Lord because the same thing the word of the Lord is the Lord just like the name of the Lord is also the lord it's not name as alphabet the name of the I taught you that in that series ah you are all quiet on me oh pastors help me now yes sir I thought it now sir the name of the Lord is another way of saying the Lord all right so the word of God is God so he say touch my mouth how can word touch my mouth that's already showing you relatable so where did John now get the word became flesh that's why it was not strange to his audience because he was tracing a picture are you getting this was tracing that God that people have always related with now has taken the work on himself to redeem man and make man into what he said and he's also going to live with us forever and ever so that is the picture we must all have so go God dwelling with man is the plan God dwelling with man is the god dwelling with man is the plan God dwelling with man is the what does God want on the earth we said a family and a kingdom and in explaining a kingdom we explain Eden the sacred place you can still get that teaching Man Of Our Lives we thought that why did he create man or why did he create at all inside there we now say we are here for a purpose we talked about we have a course we C we have a vocation still fresh in your memory now all right so that's what we're talking about so God wants to live with you and me in the same place that is what you have all over scripture I will dwell with them I will be their God they shall be my people not Christians but every human being but those who believe in God today are now called Christians is okay we use the label of Christians but he see for all men his plan is for all mankind though the label now for those who believe are called Christians okay but it's for all the Earth it's for all people all right all right so we've dealt a lot with that what salvation is not what so second Point what salvation is not now we said how do you define this we ended on Sunday so I took you a big aside now you appreciate it now because as we go further if you didn't get that aside those refresher from all those other teachings you'll

be struggling again and thinking what I'm saying does not follow not knowing that you have forgotten all the things that you are Lear are we good all right so don't be bothered say Oh I thought it was just going to start from where it stopped exactly then after I started from where I stopped you not complain a teacher teaches for people to understand not to wow them so your understanding is more important to me than for you to know if I know what I'm saying I've course I know what I'm saying so how do you define the gospel we said the the gospel how you define the gospel can affect what you call Salvation and over the years this is what has affected what people call Salvation because the gospel people have is the gospel of an Angry God repent or born repent or Miss Heaven since you don't like born let's bring Heaven is that not the gospel that is popular yes sir sir are you saying there's no hell calm down I didn't say there's no hell but you see that presentation because it's going to not look like the whole because that's where the Distortion starts when we don't use words properly that is just a simple line to explain a point that has now become the main that every time people think about gospel they are thinking about either you believe or you roast high is working and you are remembering some of you that's even what you he that God to save it's amazing that's I told you just now it is not the quality of the message that saves a man it is that just like again remember that word all authority is given unto me go ye therefore follow you understand why people get saved easily so I am now like I'm oh beautiful you will get it this way thank you Lord that was a great example the example know it dropped that's why we pray for was to be fitly spoken now it's like you go to the Embassy and the Visa issuing officer tells you okay you have you have the Visa you can travel now allow this natural example to shift the brain a bit now the American president have said anybody can come we know this one will not but just you get the point all right so just remember the president has all power to make any anybody a citizen come on now if you don't know now no add it to your not be arguing what everybody knows I be quickly meet us and agree all right president has the power to make anybody a citizen easily in fact you can be a citizen the day the day he says you are a you a citizen all the other people work and follow but you are he has the that's the meaning of all authority is given unto me then now says go ye therefore and make disciples so what is you are going to tell people that they can come allow this phras I know as I'm saying come your mind is fly to Heaven calm down no problem but at least get the come first it will take time before you will fly away you know that it take time before that fly away concept to leave the brain but when it leaves oh boy you'll be a better Christian ah yeah you understand more Concepts yeah so you can come you are welcomed in you are now a citizen you are now a family M every time we say citizen you think of family member have we gotten this trick citizen you say family member so that you're not flying away so that you don't so citizen family member if I citizen family member is in your mind all right so go into all the world and bring family members and tell them they all welcoming to the family so now the concept so I now go and meet somebody I said good news you don't have to [Music] struggle I may not explain it where I may tell the person you see in the country we live in follow the example country now your

mind should be in family you are not explain it where in the country we live in that I want you to be a part of a there's constant this constant that maybe there's not all of those things but you say it like that like that like that like that the person say say if you want to if you agree in your heart now that if you say I want to be and you mean it and you mean it you will be a part to say I can't will give you the proof you say yes just like that say yes so the seed of the hly spirit is put in their heart because they believe what you said they say really Jesus Is My Lord what you explain may not be correct because you said there's constant light in Nigeria so you are the issuing officer have changed it AB so let's go back to our us example so there is job for everybody you are over talking there's no job for everybody but we get the point you are just trying to make it very nice so there's job for everybody you can't live there and there's no job there's job there's so many in fact there's nothing like an unemployed person there that one touch the person because the person is unemployed in his former country are you getting it so he now says Okay I want to be a citizen you may not have said it well but the issue is that what did the president say it say everybody can come but who is licensed to tell them that's why I say how beautiful are defeat so we so the message sweet the person because you are saying something good they say yes I accept yes I accept yes I accept I will be I want to be part of that country he said okay because he has given us he said go ye therefore so we we have been licensed to bring people in see the way I'm brought the person in now it's not the correct thing because you and I know that they say there's nothing there's no unemployed person person HH you know he not correct but the person is a citizen oh yes sir all right that is the faithfulness of the emperor of the king the person that said go and bring them look at the examples Jesus told now he said said how come this man has no wedding dress how did he enter said he not coming through the door send him away so it was not about if he so because anybody can come that's why say go to the highway the byway go and bring everybody that's all of it is given unto me people get saved today not because we explained it perfectly well that's why if you are waiting until you are able to understand everything of the Gospel Before You Preach nobody will be saved though because it is the power of God that saves a man why do I need to announce the announcement is for people to know that they can believe because the gospel is the call unto Faith so once you present people believing and knowing that they are now a child of God once they accept that you may not haveed every other detail well but as long as there is the core of what you said that's why look at the people on the bus now keep on PING your hair keep on wearing with on keep on wearing TRS sister Satan is calling you you are going to hell keep on painting your eye keep on fixing your nails keep on you know that popular religious song they preach it they sing it in the after all of that you will think morality can save after of that say but Jesus love you so you to bring that one it don't hook you nobody can be saved with you have been preaching so so they now after all of that now say my sister after all of that keep on fixing this doing this you now have to come back and mention where actually can bring people you say oh Jesus Is My Lord now that thing you preaching is the worst kind of me that's condemnation but the God

still got the person saved because he not the quality of the message but the faithfulness of the Savior and his power that really gets men saved doesn't mean we shouldn't preach it well so have I helped you so that say yes but how many people understand this thing the way you are like this how come people are now saved that's why I've already told you now people are saved but there's not we should not explain it properly should not tell people what is not in the details should tell people everything that is not be offering people what does not exist and be saying that's what our kingdom is giving them it's not what he's giving them I know people who preach to people and say if you look at examples of the Gospel come to Jesus I am a first class student come to Jesus you will also have first class what a idiotic gospel as if everybody in the Kingdom first class and person because he likes you so that your intelligent also wants to but that's not what really made him a Christian that may be the the reason why he accepted but you said something about Jesus is Lord now the is dying the person may really not be saved the person may be saved that's the problem of this what we call weak conversion because if no detail there was no detail at all about faith if it was just about you have first class the person is not born again because there must be a detail of Faith Bel not just being follow us to go to church don't follow us ah no the emphasis must be believing loyalty they must believe that Yahweh is their lord believe that Jesus is the Lord believe in him as their God believe that he he saves them he makes them a new person that call many lies may be inside but as long as that call is there why people get saved though you and I know that look at the nearly every denomination there's a wrong presentation of the Gospel but people are still getting saved because at least the call was mentioned so how you define the gospel can affect what you call Salvation the gospel is good advice for some some people explain the gospel like this their gospel is good advice the gospel that they teach is good advice some it is change of morality some it is I should prepare for heaven making sense is that these different gospels that you have heard some is the gospel of an Angry God funny enough the gospel of an Angry God is inside the grace message to the supposed Grace expert because Jesus exhausted his wrath on God exhausted his wrath on Jesus on the cross he wasted all his anger on him he has finished all his anger on Jesus and so God is not angry with you say Oh Glory God is not angry with me see he took an innocent man some person that intent don't believe that one they tell you what they happen now why why did he take an innocent person he took an innocent man and he beat him up bruised him up he beat him for you he poured all the anger on him why now but me do the thing you see some person say come back again I don't believe that gospel say bruised him he beat him up he he wired in it's for you and for me don't hear what I not say I didn't say there's nothing like substitution but you see that Angry God he say because the presentation now is God was so angry with the world because once you have Jesus dying to stop God being angry you already have a gospel that is not Bible gospel because it's not God was so angry reward that he sent his only begotten son it's God so love but because how do we now go around all this angry God you see pastors are trying a lot say how do we go around this angry God go say oh that's Old Testament

the gospel of grace that's not how it is again those days God could have killed you but now he will not kill you they will say that's Old Testament doesn't kill anybody again neither was he killing anybody for people die on the account of living among men there are visible and invisible enforcers they are the ones that have killed people it's as simple as ABCD anybody that died di on the account of visible invisible creation is visible visible creation that determines what happens if God could not stop Adam's choice you calm down in your interpretation God our choice all right so the person not down on their own until you said what you said until you did what you did until you acted the way you acted so you can't remove yourself from it now the issue will now be is he wrong is he right depending on the motive the attitude and all of that's now a I not something you can just use a 5 minutes post can just draw a straight line and say God does not do God Not you are just bringing more argument because you must have a systematic explanation are you following all right but all of them is in the gospel God is not angry with you anymore so there it's the same thing with an Angry God the two of them is see the same issue that worrying both of them they still have an Angry God that Jesus had to pacify so Jesus died for God to not be angry again the why he now send him why not just say I'm not angry again why waste blood like that beautiful looks because it's not just oh sir let's not make it logical it's actually spiritual calm down that's why tomorrow now we can't reason with Bible no let reason it's not again sense the thing was explained for it to be explained it has to be logical because it has to be you have to be able for them to be able to explain it it means we can think it through we can understand it are you with me so so the gospel is good advice for some the gospel is a change of morality for some the gospel is the quality of living as we prepare for heaven the gospel of an Angry God so this is how people have it God say oh my oh my oh my Adam Eve what have you done you have seen in the great sin you will go to hell hell hell are you getting it so that is it so that's where we start our drama from Human sin so they will go to hell but the problem is not so the problem is human sinned so all of creation will fail to attain his proper goal man's sin is going to make man fail to achieve God's Eternal plan and purpose because what God wanted to achieve the first man had already failed and has brought a pattern now for others to follow his step to also fail to fulfill God's plan and purpose for the Earth remember we rework it again now look at how barbaric it sounds God just created heaven and earth the first man Adam is to go to heaven don't that not sound stupid and they are the same place so how can he how can Adam the plan of God for Adam was to go to where is the same place there's no sin fly away where is he flying to what did God say to him eat of the Tree of Life that look like oh there's immortality there's oh there's a command there oh there are instructions there yeah we'll come to that like I said be C be patient you'll get it you understand it I just want you to get to that place where you remember the story vividly because we can't read everything as much as we have time we don't have all the time in the word toble to read everything so you must do some studies on your own too or refresh your memory where you are not sure that's why you took notes if you see where I write if I was in your shoes and listening to this kind of message I'll write it

on my note that go back and 1 2 three you are not trying you can't follow the story so that when I'm reading my book again I'm like oh yeah try let me just go back write read write your note in a manner that makes you study don't be pting yourself ignorance is not merciful don't so write it like that say ah go back and read observe these verses you couldn't relate with these verses when he was saying it was not making look like you didn't know what he was saying but the are there so read the verses later so just just write on your note not what what some people now when we not go back we have left that part when they not join us we have left the paragraph that they are in I say s can you we can't repeat it now you have to go back you can only repeat message when you are playing it back you'll be I did not understand you don't understand because you not following you follow through I'm simple enough even a baby can understand if my children understand gospel you should understand gospel children Church they know say Jesus died for my sin say wow who tou you that one so they are doing well and you can communicate sense to understand what is being communicated is that okay you modify the language here and there so human sin so they will go to hell that is not the issue the problem is human s so the whole creation has beg to fail to attain his proper goal now if that failure is what you call hell good and fine but is there a hell yes is the hell going to be forever and ever no is going to also be removed from there because I saw hell and death we read that Revelation 20:21 CH 20 21 be cast the Lake of Fire hell and death so hell is not forever and ever it will be no more because is Heaven and Earth that God made is that okay Revelation 20:14 for those who are wondering where is that death and hell were cast into the Lake of Fire that is the second death so death and hell are cast to the Lake of Fire that is the second death because God did not make hell hell came as a result of where will the spirit go I've said this again and again the origin of the word hell place of the Dead is where will the spirit now go see the spirit is of god since the Spirit came from God it's God that made man a spirit being where would the spirit now go there has to be a place where Spirits are kept because man was not originally made to die there has to not be a place for the dead that's where Jacob said I would where is my son he was making all those inquiry where is my son where is my son where is my son so I will now go to my son Genesis 37 and all his sons and all his daughters rose up to comfort him for he refused to be comforted 37:35 and he said for I will go down into the grave unto my son mour so he knew his son was not dead even if he son was dead physically he knew I will still see my son because there has to be a place he's kept there has to be a place I can find him are you following all right so we said Heaven the Unseen word yeah Earth the seen word yeah hell heaven and earth away from the promise of Life are you following all right splain those all right so let's move on soone say I have a good news for you say what's that my daughter has been sick for 20 years she just got healed everybody will be happy for you w wow but that is not good news for the whole world that's good news for your your family that for us not to look like we don't care we just yeah she say I the beat person they talk down everybody Focus go back to the because people have issues say good news good news my you has been relegated you see that he

says good news to some person why the other people that support man you look at way they turned if I finish you now all right are you following all right so good news H when Leon Messi won the World Cup good news they say is one Euro equals World Cup afterward was became the bpe a big gospel but he won the World Cup that was good news for all of us who love the man that's good news we're happy me I was even doing give I did give away that period even on Facebook I say send your account ah that thing many bottles went down of wine please nonalcoholic please all right all right let's be on the record properly how was happy that's good news everybody you dare not be sad around me that period if you don't like Mercy go far away lasted for a long time but that was not good news for the whole world so there are different good news everybody have but the gospel is the good news for the whole world that means has to be news for everybody whatever everybody's going through is not help me pay my school fees the landlord applying to throw us out so he say all of his sudden good news the whole money was paid and it was paid for one year it was paid for seven years good news but it does not conc it does not con that's what everybody so that's being practical so when we present a gospel that is good news for some persons but it's not good news for everybody but the original good news is good news for everybody what we preach is good news for everybody it's good news for a BC that's why the gospel cannot be now you can be rich then the poor man cannot hear you now because poor hatte the rich rich don't hate the poor but poor hate the rich rich use the poor poor hat I'm not talking about all I'm giving poor men hate rich men ah so they will not hear your gospel so that's why most people can't preach to rich people because their gospel is if you come to Jesus he will take away poverty from your life the man talking to have \$1 billion and you say oh which poverty taking away from my life so I don't need your Jesus cuz that's not the gospel that's not the gospel that's of good advice that's a lie all right know that one say come to Jesus you you looking for the fruit of the womb my Jesus gives fruit of the womb he will give you a child that's not the good news because the good news is don't come to Jesus he will heal you don't come to Jesus and You Bing he will still give you a child but if you come to him he will give you his Spirit you will have his life and you will live with him forever that is the gospel the other one you were saying is tast By Moonlight is trying to deceive people that don't have sense is because the the same way you say if they see my watch they will be born again how much is your watch say say if you then are see watch all of us will be unborn again too now I said he born again say a giver the other day je B let's change I let's find any other one let's be careful what we parade what we boast of they look person lifestyle before they carry matter for Common Sense 101 all right so when we always want celebrities to ass associate themselves with the church you know you don't yet know the gospel or the kingdom properly we don't need celebrities to be numbered with us for us to feel important we are already important we don't need celebri because if they actually discipled they will not be carrying that status on their head they will be discipled the way you are discipled that the presence and absence of M does not control you is that okay all right teaching good this evening sir all right so in a

region of high unemployment and poverty and we say good news they employing everybody anybody in any place can come everybody in that place just like some communities they give them bz they call it those days in when we were still in school they still do that in some places now say good news everybody in that Village has a job that's good news but that's not good for everybody cuz for that Village the good news must be Universal so in their timeline now pay attention the word gospel in their timeline you are jalon in fact if you check the Roman Library you will see that word you areon use you areon Emperor Augustus Caesar ascended the throne is the same word good news that they use because it's a Greek word so India that's why you notice the Bible write in the manner that the audience understand so they said the kingdom is not going to be the same again because he's going to change the world because that was the world power are you getting so really Every Other Nation of the world will be bothered because ah they were dominating oh it affected so that is the concept when they say gospel the same word in the Hebrew is basa it is used for when an emperor def defeats and claims more territory or if he ascends a throne or his birthday you say cuz the new emperor has been born say yeah because that's your ruler whether you like it or not that's the ruler for the because they know the other one will go are you following now that's the human element so when they are using the word gospel is that we have gotten more more territories we have colonized Nigeria we have colonized Bahamas we have colonized the United Kingdom has increased more and more good news more place when it's announced so it has that concept basa the Triumph of the king we have taken more territory so it's a kingdom terminology when they use the word good news it has a message there a the Herod announces it and Paul calls himself a Herod he gave himself the same title in the award view apostos one mandated by the emperor to announce this news I have been sent others can said but I have been sent emphasis on the word sent sent once I have been sent so it's the same that's why anywhere go say so they say ah talk let's hear what you want to say because they immediately think to their world view because they know what gospel mean they know what gospel mean now we are not D people either we know what good news mean even in our today's world view is has to be what is good for everybody India world view it had to go around the Roman Empire because that was the Roman Greco world that Jesus and the apostles lived in all right so they use the word gospel so it has to be news for everybody so the good news can be good advice so how is good advice this is how good advice sounds the gospel that people good advice yes how to live yes is how to pray here are techniques to be a better person and a better wife becoming a better person part 1 2 3 4 5 now this is how you become a better person bring out the better you let the better you shine out like that mega church pastor preaches is they call it hope I rest my case right I not go for that so you don't say Pastor is jealous jealous of what you don't want to be AB no now take this advice say this prayer do this do this so advice is advice advice is not the gospel now is there anything wrong with giving people good advice no nothing is wrong with giving people good advice but that is not the gospel are you following that is not theel that's not the

gospel good advice is not the gospel good advice is not the gospel good advice is not the gospel H clear clear clear so the good news that Jesus announced is like the good news that the his first followers also announced was not a piece of advice it was about something has happened and as a result of that the world we live in is not going to be the same again now like we said in Paul's Romans word the word gospel was regularly used to speak about the Royal announcement that was made when an emperor came to the throne so that was the meaning everybody knew in Paul's word so when Paul uses the words like Lord Son of God those phrases are words used in the Roman world view because their Emperor is also called Son of God because it's a descendant of the Gods that's the idea now the gospel in Hebrew is BAS like we said is the good news of a king his Conquest his victory or his kingdom now Jesus was not offering a teaching that could be compared with that of other teachers though we know the teaching of Jesus stands out though we know the teaching of Jesus is remarkable Jesus was not offering a moral example again though we know he lived differently than any other person and his life is worth emulating but he was not his the gospel he preached was not a moral example Le come on instead he was claiming to do things through which the world will be healed transformed rescued and renewed it was in short announcing good news for Israel and the whole world that the world will not be the same again are you following so what he was doing was more than just bringing in a good teaching more than just giving a more example those elements can be inside but that is not the core that's not the Crux of the matter are we good all right now don't what I did not say I didn't say there's nothing about spirituality there's nothing about morality the good news brought by Paul is the same brought by Jesus and the apostles was not about an option you might wish to take up it wasn't a it wasn't an advice it wasn't something you might or might not wish to do M it was news it was not an advice we we advising you you can try this so this is the options so but this is the way it was a news even those who don't accept it the emperor is see their Emperor was not it was not a suggestion it was not an advice it was either you if you accept it the better for you you don't accept it that's where it looks like oh there's a consequence Follow Me Slowly you'll get it but when we make that the call because these way people say oh God is sending people to hell and we laugh and say how can God be sending people to Hell people sends to hell now God is a big boy can handle any lie or accusation will put on his head we say God is sending people to a how how is he sending people to always ask how then the brain will work better when you say things God did it okay God killed him how in asking how you will now see it cannot be God now yeah look at what he did because it was the action it's like saying God made Adam and Eve to fall no in the day you eat of it you shall surely die the action brought upon them the consequence like somebody take poison you say he now died H that's what he's supposed to do supposed to that person supposed to kill him are you getting this yes all right so that's the same way when we study so Paul like other persons wasn't inviting them to try a new way of thinking though that is good to think differently to live differently instead he was telling them that something has happened that has changed

the world that the world was now a different place so he was summoning them to be part of that different reality there is now a different reality the game has changed the world has changed things are not the nor same way again that affects everybody because if I say the whole world have changed everybody should be so everybody should be now the idea you will Ed to understand good news is when we say World War One World War I came to now the the war is over that was good news for everybody yes sir but it didn't change the word for better instead we have to start repairing the damages that have happened so it's a different type of good news so there were many news in Jesus's day but just like like I'm telling you that word good news was also used for the Emperor of being born but that was not the good new Jus was preaching so but the emphasis of the good news is that it's a word that affects everybody and it's not an advice because you are summoning everybody that something has happened and the world can never be the same again what again I'll say this differently so that you understand this I've been using different words so the idea is the creator of the whole world that made man has decided now to fix the issues that have been lingering for thousands of years that have made man separate himself from God the failures the issues seeing dead as we use it but I want I don't want to use the theological grammar I want to use the normal word the issues that have been disturbing and and affecting all men has been fixed let's remove the Jesus inside follow me are you getting so watch if so I come to me some I tell the person good news listen to me the world as you know it have changed the creator has decided to fix all the issues that have been going wrong and now he's asking you he's going to live with you walk with you give you his life his Spirit his nature having dealt with every contradiction and issue and he's going to with you also spread this influence everywhere what exactly is this news the news is this you don't have to live the same way you were living you don't have to suffer the things you were suffering because the oppressor has been has been chained the oppressor has been broken you don't have to see yourself the way you have been seeing yourself because all of the limiting chains the lines the ideas and no more the things that hold people back the the way people feel the way people think the way people carries can never be the same again because something has happened that has changed all of these things there is now a new reality using a different language now the reality that you see that you hate that you don't like good news it has changed there's now a new reality to live in Mar take the blue PE all right so get the idea I've lost so many persons all right J did not watch that film those days the ones they know are not the ones we know the world is different things are different it gets everybody's attention because everybody know so a different reality because everybody ah this is not this is not and the issue is that the Christians themselves cannot even appreciate the good news because it's that's where you now get the foolishness and SC we have we get there you see why it is foolish no I can't be because I'm still no is you are still because you have not accepted you were you were made safe but you really understand what you have come to cuz it was like a religion I can choose which religion I belong to but there's a new reality what people are saying I wish the world

can be better okay let's use the simple word and see it everybody wants there to be no more evil no more this no more this no more this no more this then the good news for all of that is that now for you internally is so for you internally is so externally it is going to be so the good news is now and forever in our present time and the world to come there's like two sorts of good news that's where we get the word Christian hope which like we said we're going to explore so it's a bit deep because we want to understand the true meaning of the Gospel but so that you are happy you learned one line two line three line let me quickly say some things for some people are like where is the simple one that we know the gospel is the message that calls you to have faith in Christ Hallelujah Glory this is the thing that hinder people you see it now so as you say that say have faith in go why am I having faith in God now you are being intelligent ask intelligent questions why should I have faith in God why don't I have faith in another God that is the core of this thing that we teach because because many gospel can't even answer that as say no it's my father's religion is the one my father told me so what if I was born in a region where I had something different why should it be the one that I believe and why is he really the Savior that's what I'm trying to invite you to see but obviously it's not going to look nice and sweet because where people are coming from E far so I know how to I'm scattering it deliberately so that different anywhere you are coming from anywhere your understanding was it going wake up small you will be getting closer to the truth they just like we arranged that heaven you finally that soon we arrange this gospel but now we need to wake all the different parts all over the world all right and I think he working sir all right Hallelujah so of course the gospel is the message of faith in Christ is that simple the gospel is the message that our sins are forgiven the gospel is that okay am I all right and it's correct now this is the one you know this is and which is correct but it doesn't tell the story from Genesis to revelation because it's only telling the story that undo sin but what if When sin has been removed now that means we don't have a gospel to preach to you and I as Christians because the gospel is news to the saved and the unsaved for the unsaved it gets him saved for the saved he makes him grow and is part of what God is doing it's the gospel we preach every time it's just that when an unsaved man he it he gets him born again that's why even without us saying who wants to make Jesus your lord here there are things we preach if someone is not born again also be wondering sir how do I become part of this that you are saying because it's like don't try no wrestling don't try this at home you say don't try this at home you can't try so how do I drain to be able to try this you know say that's I know somebody and I know and we all know different persons who were never who never got saved by an au call they simply ask somebody I was in a place I heard this what does that mean a god somebody explained yes sir or in this ministry people have met users people have met people and said met a a leader or anybody at the back at least I've been told of two said what because the pastor was just making look like some people different for some people say yes you are different from us now that's why you can't do what we are doing so now so okay so it's not yeah because once you see that separation that's why how do I become a

part that's why people he call call of Salvation is in every message no matter how the details you preach as long as it's the gospel you are preaching there's always that part that if an unsaved man hears it he says how can I that's why the Jailer as what can I do to be saved in Acts chapter said they were picked Acts chapter uh the they were pricked in their heart and they asked Peter what should we do to be saved when the unsaved he the gospel so the gospel is message to the saved and the for the unsaved it persuades them to be for the saved persuades them to grow spiritually did you get it yes to grow spiritually so like we said let's explain the easy part that you know the gospel is the message of his dead be and Resurrection is that okay it is still it but what is that dead you see it's easy to be mounting things what is that de for so of course Bas on our former understanding which is still correct but what is the implication of the Genesis to Revelation story if you understand what I'm trying to achieve here I'm not changing what you know I'm simply helping you see the Bible as a continuous story story so that you have a Genesis of Revelation idea which is deeper and more concrete and with that you can throw away all this excited part that make somebody lazy in understanding so the message the gosp is the me of his dead okay what does the death mean what does the burier mean what does mean um um it die for my sin what else did he die for what is even sin he die I will not sin again have you seen she got born again say yes ah so what you now die for now we are in trouble cuz if you died for sin but you still sin so which one did he die for that's what we were told he died for our sin you see sin after you got saved so which sin now you so you will see that there are still questions to ask because they not say things like sinless profession me say the want to live anyhow and mean the person talking foolish like that is living anyhow or if he's not living any he has once in a week stumbling s of omission commission transmission sayh okay what we are trying to say is that um Jesus KN Jesus died for your sin he freed you from sin he didn't free you to sin he freed you from sin beautiful then we turn to the person saying that have you seen since you got saved never just leaving your house one week we show us because what do you think he seen the big the big the big five the big five it used to be the big three but now it's the big five what about Ah that's some there are some that every day some people know some people are foret that Envy is know slander they forget are you with me yes sir Pastor is just wetting our appeti is it bad be wet where we still solve it atast if the the bad news is if I not give you the food that we solve it but we solve all these issues which is why we are teaching the way we are teaching is that okay so the gospel is the message of his Dead bear and Resurrection The Gospel is the message of God's love God's forgiveness God's grace God's kindness true true true are you following that's true nobody's changing any of that and nobody is saying that is not so but often time what all of those presentation have in common is that they still have a heaven and hell there is a heaven to gain and a hell to lose they still have that ont whether he said or not that's why the individual hearing the gospel is always wanting to go look at the issue now say if you see somebody pastors I have a question there if if the trumpet will blow now and somebody's on top of where he not supposed to be on top where will he go you see all

these questions that people ask because they are going they don't so that's but they forget that you are already there but you are living foolishly so it's about if the day Come and catch me but the day is already with you every day you realize that oh I wish I'm because once you are still H before he just catch us on awar I'm ready but every day is a day for you because you are already in the place that's why you should be careful so the emphasis of why a Christian must behave well is not so that it can go because condom is a Ministry if you behave well you can use your lifestyle to explain things to people conduct is a is our conduct pass is a message it's an example to others that's why a Christian must never do something that is wrong and now say the thing that is wrong that he did is right because you you do something that is wrong as bad as it is you now said that it's now right no now wrong is wrong Sin is Sin don't change it that you did it did not mean that is now a good thing don't paint it don't make it look nice what is wrong is wrong what is right is right are you getting it don't now call what is wrong right because no no no no no no so because what all of them have in common is this is like we are going to hell unless a new way opens up now not the first one was going to heaven oh yes so what affect the other gospel now is this first was going to heaven now the second one is going to so it starts off like this we are all going to hell except a new way opens us so all of them is all the two angles always remove the Earth God's plan and purpose for the Earth is always starts from after thoughts reactions let's put it this way so the gospel backstory is that we are going to H unless a new way opens up so that becomes an announcement of something that H now like we said the message when we announce you are going to hell unless a new way opens up that is not news that is already an advice we are being guided so we are getting guidance on what we must now do is different from an announcement of something that has happened remember the gospel is news not advice if it's news a news is an announcement of something that has happened sorry in case you have forgotten news just put breaking in front you will remember what news mean when you are watching NTA AIT TVC all the different arise they telling you what has happened now are they advising you thank you don't forget again don't be hearing what I having an assumption you know what news mean when you say news every time you are hearing news you hearing what has happened and many times the media of today is bad news uh 25 dead in kaduna they're not telling you 25 persons if you don't hear my voice now you will die they're telling you what has happened it's a news they are not guiding them 25 persons we are guiding you into it's a news making sense it's a news not an advice beautiful people are getting it did that work for you all right so the gospel is a news not an advice an advice is guidance on what we must do a news is an announcement of something that has happened so the good advice that is popular today is there is a heaven and there is a hell so if I were you I will make the right choice what is the right choice make heaven the problem with explaining the gospel like this is that the gospel is only good for the lucky ones who hear the advice so the lucky ones who can hear the advice that there's Heaven there's hell there's a right choice choose the right choice now or born the ones that make it the problem with explaining the gospel this

way is that Jesus himself didn't actually say much about heaven in that sense when he spoke of Heaven's Kingdom he wasn't talking about a place called heaven to which people go when they die he was talking about something that will become a reality even in the prayer in Matthew 6:10 as in heaven so on the earth Jesus never suggested we could escape the Earth to go to heaven not once in all his sermon not once in all the sermon of the Apostles do you find a gospel presentation of who can escape the Earth to go to heaven Jesus good news was about heaven coming to the Earth are you following clear clear clear clear clear yes so the gospel details should include essences such as the powerful announcement that God is God Jesus is Lord the powers of evils have been defeated said God's new word has begun believe in God those are normal details we all hear all correct all factual now let me read this for you so that you can easily write it the gospel in the New Testament is the good news that God the world's Creator pay attention the gospel is the good news that God the world's Creator the one who created the world is at last becoming King over his world and that Jesus whom he is raised from the dead is the world's true Lord now there are a thousand different ways of saying this which we will explore over a 100 so be calm I do show you over a 100 way of presenting this on Sunday all right now but the the the emphasis is that the God who created the world is now in charge of the world the way he wanted to be with his man living the way he intended his man to live the gospel presents that because what what was the plan Genesis 1:26 and let us make man in our image and likeness and let them have dominion the good news today is that we can finally have that man it's not exciting because don't know what it means but if you know what it means that is the good news is that it is now achieved we now have that man in the image and likeness that can have dominion so good news the word is not the same again God can have exactly what he intended the word is the way he made it to be the only difference is that some elements have not been removed but he has already been dealt with in what the king himself did when he became a man he has already dealt that's why we mention dead burial Resurrection because there some he had dealt with everything that he did not plant he had dealt with every contradiction because that was not something could have just said sorry that's not something our sorry could have removed mov that's not something could have just said okay I get it you you guys are all new you are all clean he had to actively because those are not uh there are they are tangible real things that have entered into his word so he had to physically had to have contact with those things to remove it now though it looks like it has not been removed because what he did the word was not going to physically come to an end immediately because it was going to grow alongside with what he did not PL this is the par of the whe and they will grow together on the last day you now remove the Tas because they grow alike but it's easy to tell the Tas so you pick off the T and get rid of it so what God did not plant is what Jesus has already removed but it does not look so now but when we continue doing what we are doing with our vocation of being proper image Bearer it will all come together and we see that ah what he really did not plant is no more there's no sin Satan devil anymore oh is

clear they were really defeated because how is it going to make us have immortality something is going to do no he say if that same spirit that raised Christ from the dead dwell in you so we already have that Spirit we already have that Spirit if that spirit that raised Christ from the dead dwell in you shall give life to your mortal bodies so that spirit that dwells in you so he has already given us what it takes to put on so he has already done something that's why we can use the word finished work he has already done something so the gospel is the message of his death resurrection that's obviously true if he is undoing what has entered into the world the gospel is obviously the message of his forgiveness of sin yeah so all of these other things that we are saying are all correct but if you see it only in the individual detail you won't get the holistic picture and the holistic picture is why the favorite and most popular theme in the Bible is the word the day of the Lord that day of the Lord is the day where the Lord himself works on the earth with man living together with man forever because he has judged and removed everything that is not his the is that he lives together with us forever and ever as a happy family you can't have a father that is far away from you his father has to be a father family is together we must be together the family is together together together that's the concept Hallelujah so there may be a thousand different ways of saying it but the context is the same so when you observe and which we will do observe the various speech in the book of Acts different speech that the apostles had but the call is that God the creator of the world was at last becoming King and that Jesus whom he was raised from the dead is the world's true Lord why that's why they must acknowledge his lordship because the gospel emphasizes the lordship of Jesus Jesus lordship and the consequent New Creation at emphasis did you get it so the gospel that we preach have all of those details that we mention and even more so there we can pause here a bit let me quickly tidy up all that I've said so that we have a good place to pause this evening amen so the gospel that we preach how we explain the gospel can affect what we call what salvation it can affect what we call Salvation because we're always looking at it as oh that's why people B down and say but Adam sin but he was not roasting because if it's remember that route there's one that is going to there's one that is hell you're already going to hell but am s now is not go to hell until we realize now uh um Rabbi was trying to point this out in camp meeting a bit when he talked about God told Moses don't speak of that matter again now the core of what we we are emphasizing is this once you think that the whole idea of this thing is about who makes it at the last day and and who does not make it at the last day you are missing the big picture the big picture is not who makes it on the last day because the church already makes it on the last day the church is the people of the last day it's not it's not a prayer point it's not something you can undo that's why we will later explain that eternal salvation you can't you don't have the power to change it because you have already entered you already like saying I know you can delude yourself that you are not a male you're not a f because of the different alphabet movement they want to join it's all delusion identify as a cat doesn't make you a cat now identify as a pig doesn't make you a pig you're just deluded because you see other pigs they don't they don't look like you

identify as a pig you are not a pig you're just deluded get are you following me so identify as this identify as this I am not this doesn't mean that you are it that's how we must get to the call because I am this I am this is what he has made me are you with me this is what he has made me this is who he has made me to be this is how I am this is who I am clear so the core of the Gospel is that's why we say the gospel of Salvation because the gospel is the power God to Salvation that message saves people that message reveals right of God true those are the easier details but doesn't help you understand the BBL from Genesis to Revelation so we will mention the easier ones but we need to understand it from a Genesis to Revelation so that we can understand the biblical story if not there are certain questions you will never be able to answer that people ask you which is what this teaching is for it's not just to give you a shallow understanding but to give you a deeper understanding of the concept of salvation is that okay yes sir so it's the gospel the message of God's love yes this is the message of God's forgiveness yes this is the message of God's kingdom yes is is the message of God's kindness yes is the message of the dead of Jesus yes is is the message that we go to heaven no is the message that we are in heaven when we already believe is it a message that we have escaped hell no is the message that Jes Jesus is our Lord and we get to partner with him in our living does the gospel recognize that there is a head yes the gospel recognizes that for all those who do not recognize the lordship of Jesus for all those who said I don't want you to help me I don't want your help I don't want the Creator to help me to leave I don't want the Savior to save me from the consequences of my choices I don't want the savior to save me from myself because I'm not always the person I want to be I don't want the savior's help I don't want the king's help I don't want to live in his good word I want to live the way I want to live and God simply says amen I always agree with your choice I won't force it on you but I've given you have summoned you already which is why it's not an advice I've already summoned you yield to the summon or stay the way you want say I want to stay the way I want that is now what is called hell that's how you must understand hell because it's not going to exist forever and ever stop teaching that an eternal reality like it there's always that option no that option is not an option as it were a guidance but I chose to remain away away from my savior Hallelujah [Music] I get to not share in God's good rule because how come when we read the gospel we begin to see details about the earnest exp of the creature I thought it was just man that why are we hearing creat creation why is there other details being added that's why we must know the bigger picture other than just my sins are forgiven my sins are forgiven because there are certain persons you meet they will tell you I I dis myself a bit better than that which is the morality part some other persons from the other angle tell you no that I will not look like the person say it's not going to get born again let it not be because I didn't know the message well that made the person say it's not going to be born again that's what this teaching is seeking to correct so that you know that no matter who you meet you know how to present the gospel to those individuals exactly the gospel that Jesus preached is that okay yes Hallelujah so is there a heaven yes is there a hell yes I'm

not a heretic obviously I know there's heaven and hell but it's not explained it's explained the way the Bible explains it not the way popular teachings try to explain it is that okay Hallelujah trust you learn something we'll pick it up from here on Sunday amen stand on your feet and pray in the Holy Ghost we thank him that he has not left the world like that he has showed that he's the savior of the world the creator of the world he didn't leave creation to the failure of creation he has renewed us and he has forgiven us of all our choices our uh mistakes the SS the trespasses that seeks to separate us from sharing in his good rule from leing in his plan and purpose he a good God he he didn't leave us the way we are he didn't leave the situation the way it is he has fixed it he has un he has un he's undoing and he has already dealt with and he still dealing with as we see in the of time everything that he did not plant Hallelujah so thank him thank him thank him a message of his love his kindness his forgiveness we thank him for the announcement of his kingdom what he is he doing now thank you thank you you have all power and that's why you recreated us renewed us re made us in your image and your likeness to stand as your man and as your woman [Music]
