

Sav so after keep on PING your hair keep on wearing wav on sister keep on wearing TR
Jesus is coming after you have preach all of those kind of on in the bus the people who
preach it Noti they have to tell you but Jesus love you after all the confused thing that they
have been saying they will have to mention Jesus love and now say make Jesus your lord
if not that wasted their time that element cannot be removed because how will God
overcome the whole P will he do violence the way the kingdoms of this world do violence
but we see that the way he was violent was with his love he conquered with his love which
is a new way of Justice Ah that's God's way so those are details we're exploring how
salvation came through what are we saved and say through the dead by resurrection of
Jesus what does that mean so but the life in the garden was eat this life believe in me
which is the concept Jesus said it's not what go into a man that defies a man say it was a
physical tree Adam ate that was just a toilet issue he will use toilet since he didn't die so it
means he was not poison he he was not going to die physically if he didn't die physically
Jesus said in Matthew 15 he will use the drought and it will come out so that just a toilet
issue but that was not it it's not what goes into a man that defies the man but what comes
out of the man Hallelujah so when he say eat off not eat of the same way Jesus say except
you eat my flesh and drink my blood was not a vampire movie eat my flesh drink my blood
was believe are you following so eat of the Tree of Life God needed man now the man that
I have made believe in me and have the life of the ages the life to flourish the life to tend to
uh what's the word again in Genesis 2 to dress and to keep it this is the life you would have
that will help you in your vocation and will help you in being what I called you to be an
image Bearer and likeness this is the life that will help you image me and this is the life that
will help you in the vocation simple vocation is not big grammar work in the work of fruitful
multiply replenish remember the two things image and Dominion I believe in your own Bible
Genesis 126 you have image and Dominion there man in the image and let them have
dominion so man there's the b e i n g the being who we are in by nature in our being and
the work he gives us that's what we call the vocation of mankind is that okay all right so sin
will obviously have to relate with that wanting sin to relate with going to heaven and which I
told you came as not what they were preaching in the beginning that teaching started from
all the Greek philosophers who began to write about why Rel four gospel Jesus walking the
there was no fly away book of Acts No Fly Away sermon so it's not a Biblical sermon it's
popular and like we said the idea we get the idea of what they are trying to say but we must
be careful with those present be careful with those presentations all right beautiful making
progress are we good so what will obviously be the sin what is sin herat Miss in the mark
what is the mark now we know it's twofold image and function come on please please don't
tell me I wasted all my time since image and Domino AB image is b i n in our being Domino
is vocation so nature and vocation okay nature and actions we have actions hi my Lord
God all right make it make it make it make it make so this is how people have this idea of oh God
looked at man say oh dear humans have seen oh my gosh they will go to hell are you
seeing it this is how people read the Genesis beginning story oh de humans have seen But

in said this is actually how God says oh humans have seen so the whole creation will fail to attain his proper goal my plan has been suspended what I intend to do will not now happen again that is actually the reaction not they get to go as if he created it beforehand there was no hell created before time it is a construct based on how powerful man is and how supernatural beings are because Spirit beings must be somewhere because only the Creator the father of spirit the god of spirits the god of gods the King of Kings the Lord of All Flesh that can have the ultimate say that's why Jesus say fear Him who can destroy both soul in Hell Joy is the only one even Satan say that come to Destro before our time destroy he's the only one because he's the Creator he's the only one that have the power to extinguish spirit Hallelujah so where was I told you the word hell came from that question Jacob asked where is my son where can I find my son Joseph I will now go to him in the grave that's the word Hees from the word shall where is he where is the spirit of the man that we are looking for where can we find him because we know he can't just be over that's the origin I taught you this in a series on beyond the grave or something like that all right very very very very important so humans have seen so the whole creation is going to fail to attain his proper goal now of course the failure if not dealt with is part of what people now mean by hell which is okay but once Our Gospel we have is this twofold which I said is wrong most people um there is God and this God is angry with humans because of their are sin this God has the right the duty and desire to punish us all if we did but we are all heading for an eternal torment in hell because he has the right to punish us so what will he do this angry God has decided to vent his anger on somebody else so he picks up his innocent son and he pours his rth upon him and after he has Jesus have quenched and drank all of God's WTH God says oh oh I'm happy now I'm no longer going to destroy man Jesus good you swallowed all the rth because of you I'm no longer angry all right I get to forgive all of mankind that is the gospel story different there are a thousand variations of this kind of message the grace movement have their own type that is sweet that have Jesus drinking all of God's R so God is not angry today so you can kill you can do anything you like go so angry ah Sin is Sin there's no action we do that is wrong that God is happy with just like a mother is not happy baby poop on her body doesn't change the fact that but her reaction may be different because she knows the frame God knows our frame does not mean that he okay with what we do wrong like we said we deal with that aspect also are you with me okay so but then there's the Holiness movement that have ah God is always angry God is always angry in fact God is a good God and God is an Angry God so he's good sometimes he's evil choose which day meet God right then the ambivalent one is the two he's good and he's evil so he dep on the side you meet all right so all of that is not the god of our Bible because we now have the idea of that kind of teaching has God was so angry with the word that sent only begotten son no is God the famous John 36 for God so loved the word not God was so angry with the word is there rot of God yes is there uh a torment in hell yes but how it is explained is the issue then so Jesus died in our place is often time put in the wrong context so the proper context should be The God Who created

the word The God Who even started the Covenant with Abraham which Israel again why do we have to talk about two things creation and Covenant I said this on Wednesday because the Bible in your hand if you are being honest is Israel mentioned a lot in this book yes sir you have to be honest to say why is Israel mentioned a lot that's Covenant so there's creation then there's Covenant two major things th m in this book creation failed chapter 11 creation has so filled now God have said okay go your way the dis inheritance of the Nations but all of a s he said okay I'll do something with a man let me even find a man so he will supernaturally enable a man and a woman who can have a child on their own so that the child they we have will be his Abraham and his wife can't have a child the child they will have will be God's Own so that that's where the nation Israel will be born from so God called Abraham the Nations have gone astr chapter 11 chapter 12 now saying in Abraham your seed shall all the nations of the earth be blessed bless in the language Bara to be welcomed in they will be welcomed in nothing about material increase Abraham blessings and M is not how you make money just go and work hard said that over the years that's the corruption of materialistic gospel the Blessed there is God has blessed us in turning away man from his sin that's very clear the Epistles repeat that a lot so the Bible teaches work and diligence as how to make money because that's the same way unbelievers make money just the difference is God blesses the labor of our hand we have God intervening and helping us just like the unbeliever could have Devils demons something they TI in their backyard empowering them to Hallelujah M so are you here are you here are you here are you yeah so you can't read the Bible and not see that Israel part so what is God that's you not get covenant though that term was used with Noah but it was not taking do see a covenant relative to Creation I will not destroy creation it's still creation based but when you now have Abraham you now have god making a cal with Abraham not just for him but for his whole family and in that cenal God made with Abraham to with Israel Israel now had a vocation again remember always those two things nature and vocation so this is who I will make you and this what you will do so Israel was now to be king priest and Prophet to be a light to the Gentiles so through Israel God is going to get the other nations so the other nations are going to be jealous that's why called the jealousy of the Nations that when they look at Israel and say oh look at the nation that have God as their God look at us that don't have God as our God we need to be like them so that's why it was such a big issue when Israel also now failed yes sir so what was the message of the Prophet all right now the lazy way of explaining this is TR Genesis to Malachi that's old Covenant no or H once you see any Lord Das or not Das or not now we are free to do anything we want to do H can how can we be free to do anything you want to do no now that's lawlessness that's licentiousness AB sir all right all right beautiful beautiful beautiful making a lot of progress all right so The God Who masterminded creation and the Covenant is a god of love he's merciful he's reconciling he's restorative so he has decided to fix the issues so Jesus died for our sin means that God is going to rescue his creation from corruption Decay and death is that okay all right so again we're talking about Sin so

put these three things down the original sin what the original sin do it distorted God's image man failed to live as God's image man failed to live with God's life is true or us all right so did the original sin produce another creation are quiet that's why we not have old creation today if any man be in ch in new creat own things that pass away ah so sin brought another creation oh boy that's why when the man is born again the Bible says we are recreated in the image of God recreated is is that a language in your own recreated pick of jary I share all my old old post people think it's about them now they know the way you manage to live yourself with all the things you know about yourself should should teach you patience and make you not to be a hypocrite very hypocritical when preachers say statement like this that sinless perfe is a me never don't tell me that I know what they're trying to do they trying to make people sing you that is fighting for the right not to sin have you sined since you got born again yes then if salvation is when a man gets born again can never sin then we have all failed say so what are you trying to say what are you trying to say is that we should go and believe in sin nobody saying that come on don't be stupid I can anybody be saying go and S you need a you need to be a Christian to know that that is a silly thing to to say even unbelievers now are better moral police than Christians unbelievers even know what is wrong they say I leave us to be doing what we so can a Christian much more a pastor now say sin is no longer sin makes no sense though there are some people who are possessed like that who have seared their soul and they say Sin is Sin there's nothing like sin anymore sin is dead and they have different constructs for all that rubbish they say graceus to deny ungodliness so when you do something that bad say I did not do anything wrong I deny it all right after you have finished denying you wake up and realize you are stupid deny deny it's not me that did it then some go have another construct for it and they say it is my flesh not my spirit I'm not serious so that's it's not here you Lear that one it's not me I don't so leave those mad people alone so back to what we were saying which was what we're talking about Sin Sin distorted the original creation so because what was the mark image and likeness properly Imaging God AB being and it's just one thing that is put into image Imaging the Dominion is the Imaging Oh I thought that was new we have been using that word since last year all right so IM where so the who I am I am to Alive live as God's image born again that's the first so if man believe man would have been alive as God's image and if he's alive as God's image he can now carry out function for the Lord the right way all human beings are image and likeness of God but all human beings are not properly representing God as image and likeness that's where salvation come because human beings at the core I I've said this again and again not when I get born again every human being is in the image of God because God made man to represent him so every human being can represent that's why unbelievers every human being is Supernatural as the core whether they know God or not they are that's why they can find an alternative Source somewhere because there's now darken but what was the original sin the original sin was to distort God's image AG so now we have a dark Creation in the seen and the Unseen World so we have another creation what the heavenly father

did not plant thank you all of us are second thing we see about Sin is that sin also did not only distort God's image what would be the second thing it distort man's vocation man failed man failed to properly imaged God that's why man is kicked out of the garden banished which is the word for death Exile in the old times just like you see today some Hollywood movies they try to act ancient movies for people his only movies they used to remember history so it's okay but at least still be able to grab one or two things from there when they say somebody is costed when people are Cur they banish them from the land Adam became cured death you see those words are used to get abose so Exile which is the word alienated from the life of God Ephesians 4 it say where were alienated from the life of God that's the separation that is the death absence separation death is separation at the core then we now argue what is separated Spirit from Soul Spirit from God's spirit you are going too far separation just stick with the first so sin distorted man's vocation man failed in his vocation all have sinned and falling short of the glory of God so man is fa faing to reflect beautiful man is failing to reflect this is not what God told man to do fruitful multiply in what man is doing is unfruitful and will not multiply replenish instead of filling the Earth with the presence of God is filling the Earth with Darkness instead of subduing he has been subdued that's a failure and that's what God is calling sin calm down say no what God is telling S I mention all the all the number mention all the five major SC calm down calm down that's the reason why people don't breathe in and out properly they can't breath they can't catch because nobody can tell me that cool a mom that a mother a baby is born the mother is happy oh wow I have a the baby poop on the body the baby the mother cleans the baby the baby poo mother cleans it there sometimes you even see mothers and I've seen my wife also do that and many mothers do that whether you say it's hygienic is not hyic but you see mothers go through all the F A Child running nose and they trying to suck it out maybe the machine to suck it is not working the mother put his mouth that one is one that that blow me I like what what to suck out the the mother is not God bless mothers so was myant time how do they sing that song again sweet mother yeah sweet mother God bless all the mothers in the world can we just do a shout out sorry your sorry yours was a witch I I don't why do you not not talk I don't know the one you went to go have but some yours was a wi us did well all right so mothers it's not Mother's Day we know all right but that blows my mind don't the mother know that that thing is dirty filthy but the mother cares more about the child more about the child more about the child that's what David was say where he say God knows our frame that we are and he PES us doesn't mean he allows he's okay with what we do wrong mm so when that child grows as that child begins to grow the mom now no now you shouldn't use no more Pampers no more this use the toilet yourself the child p on the child's body the mother straightens the child or the father mother the child and say no no no you shouldn't do this now use the proper place oh wow so it's not like if I just see po I die wow so the way we try to make it look like God is intimidating by our action oh you have killed me I'm no longer God on you see these things don't make sense until you check that number one evil called The Pride

the Lost of the eye the of and the pride of life that pride of life that that that evil that makes you always you can excuse yourself but you don't excuse others you can always you know understand my intention but you can't understand that it's always when it gets to your T nobody understood what I meant what my intention what my but other person is what I saw is that evil hypocritical thing that God takes away from the because when you understand creation which is the mother the same way you see husband and wife of course not this genz husbands and wife which any small thing say I'm done I'm done I done I pack my load and go don't know you that you have a boyfriend somewhere or a wife somewhere that you're always going to meet they don't walk on it of course I'm not talking about walk on your assassination attempt no even David you quot me to that thing I say what you you heard Pastor now Pastor said you should stay there and I'm killing you day by day locked up all right so I'm talking about people to assassinate their wives that falls under different name domestic violence and all the other names they call it all right those are murderers they have just looking for who they will finally kill to now have the title officially all right so so before you make them one all right but you of course you don't just leave you tell them to their face all of that you seek reconciliation see all the this if they cannot now you move always don't just leave people like that it's silly it shows that a cow interact tell them to their face get somebody else that's the proper way Matthew 18 spells out how to deal with every human failure somebody have an issue with you them to their face they will not listen tell somebody else so that they can not tell somebody for G and goip but to deal with the issue is that okay so if we if we live with God's word we don't get problem M we will not actually so are you learning something yes sir all right all right all right all right all right all right all right all right all right all right all right all right all right all right so what was the Sin Sin distorted man's vocation so man fails to reflect God's glory is that okay thirdly sin was never a heaven and hell focus in the beginning sin was never a heaven and hell focus in the beginning instead sin has consequences and what was the consequence man is cast out of God's Garden his exiled is Bish she elimated so sin affected God's home with us makes it difficult for us to live andw with him did you see it did you get it so sin has consequences so the other actions as we call it the the core the core the aryal nature of sin is that sin affected Creation in what way as we round of we fail to be the kind of human being God intended us to be so see is missing the mark what is the mark being a genuine image Bearer being a proper imager of God so sin has affected how we image God you can't even fault that you bringing conduct I've lied to you have I already represented God wrongly to you I mean come on now you are still trying to do Mor police where we have gone higher than you I see doing moral that is the easy that one that's why morality all those things are basic because I did not do this I did not do this but your heart was evil because the core is the Imaging the core is the Imaging the core is the Imaging what was David's issue what was Solomon's issue what was Abraham's issue we are not ready for this discourse because people feel like when you talk like this you trying to go light on sin no we are trying to show how powerful God's the savior is trying to show how power F

Grace is we trying to show how powerful God's intention for man is that what God cares most about is that man fulfills God's plan on the earth the core issue because look at Moses R to talk to a be in Camp Meeting what was the issue said no no no don't BR Moses still was talking to God because he struck the rock why did he strike the Rock God say speak to the Rock but he struck the Rock God said his unbelief what is unbelief say I can use unbelief to work Miracle not that type that unbelief there misrepresenting God if you have you can't work any Miracle which unbelief is that misrepresented God failure again of Imaging presenting God the way God is Not of course we can now by Insight we can look at Jesus and say okay the rock that flow was Christ Jesus is not going to die twice but that's not that's by Insight that's Moses by application that's Paul by application but what was the issue then it was about going to was Canan heaven but Moses did not enter Canan and Moses said no no no God you can't leave the people like that you can't leave them as a sheep without a Shepherd so he said okay set a man over the people put Joshua take from your spirit put upon him where that song is gotten from all right impartations are happening so beautiful so Moses still cared about God's plan and purpose on the Earth but what was the issue what was the sin that Moses did he has failed to properly represent God to the whole nation how do you take it back and this is the call so that you get the repes failure to represent God so that you don't give it your own meaning what did Adam and Eve do the serpent said did God really say unbelief is that that caused God into question that shows that God is contrary he has a different nature say God is not really work he says he is did God really say did God really promise you say God is not really what he calls himself and that's what they accepted that God is holding back God is hiding something God is not really being honest and truthful with [Music] them so unbelief what was Moses issue not going to heaven what was the call when you understand this you be careful how you live on the earth if you really are after God's plan and purpose post because that's the most important thing what was the issue Moses was showing the because Moses had got it which is a thing again we talk about ranking Moses had gotten to a place a mindblowing miracle of water coming out from a rock so what was he telling people that in light or in darkness we are still representing God no in darkness we are not representing God I'm using Nine's like easier way of putting this Israel is used to what worshipping Idols going another way having their own ulterior motive and thinking that that's what God wants them to do and God said no don't worship by us don't serve your own interest serve me so Moses now in that action God said this Moses went against what God Said and yet had God result please don't use this to be saying h as a Christian as a minister of God you can commit sin and see move in the power of God that one are gifts it's called gifts of the Spirit come on now stop being silly don't bring that leg that's not it it's not God violating your action is that God is merciful and gracious I've said it over the years the only reason why the power of God Moves In Spite and despite our wrongdoing is because God does not use our our morality to bless life he cares more about blessing life than your morality than if you are behaving well because he's a good God and because he

a gift not the wages of the spirit a gift of the spirit is freely given it's not validating anybody's Doctrine by moving in power no because people have been preaching Rock Doctrine I yet somebody said God makes people sick and in that meeting I saw a blind eye open how my God should not have showed up but that's not the time for God to be arguing did misrepresent me in that order so that's why I'm explaining the Moses misadventure don't the water together Moses was doing exactly what God told him not to do and thought God said he was going to have that's frightening go you have Mis you have this is unbelief because now people are going to think I do what is right or I do what is wrong I'm living as God's man this is a major failure we cannot allow go on because of course by virtue of insight we know it will affect all patterns to affect all pictures later on but that is the call the call was representing God be a proper image Bearer Imaging God vocation living for God's plan and purpose that was the core of the issue the same thing with King and if it's about God talking to them God came to King where he say failure again of course many people are looking for farming the agricultural work but I've told you the agian word there was their vocation when it says Abel and King that was not their physical occupation but God's plan for their life that is being written as looking like physical vocation so again Cain had failed the core of all the action look at the Kings you have now the whole in case you didn't get it first Kings Second Kings first Samuel 2 Samuel first why is God looking for a king like David because is it because David never failed seen no because David was a man sold out to God's plan and purpose what is the call look at the other king say this King but he didn't have a heart towards God he didn't have the issue with all those kings that are now the one that are for David and the on for the house of jeroboam are always following the way of jeroboam was always in how they live towards God's plan and purpose Hallelujah that is the call that is the call so all the other actions that we will call it today now all come from there because if I if first if I fail to be his image in the true sense of it not just by potential but now I am this is exactly who God is that's the Born Again concept that's how we have the life of God we now can live so I said this is my father but I can't even live like him there's no DNA to prove him it so salvation gives us a DNA every human being is my child but every human being don't have the DNA those who have the DNA and those who are born again that's a difference now because they have it they can now live like me have dominion spread my good rule everywhere so sin affected those two things which is where you now get all the other actions of sin that is called sins so do are we still going to have choice when all the Earth is glorified yes but why are we not going to choose those kind of things intelligent question it has answer why is there not going to be sin and death is it because man creation Creator no this and no peace there is a big difference between creation and Creator only the Creator can be perfect what is perfect they're not moral failure we're talking about perfect in the sense only the Creator the Creator is the one that can never be without strength that can never be without wisdom that can never be without you know sometime we say oh I forgot to do this that is that is showing you are not the Creator oh I didn't I didn't have the wisdom for this I didn't have the power for it but the

creator has everything so only in the Creator will you have absolute perfection in the thing that is created that's why every Creator every inventor updates renew you update software you because it's a created thing it needs all of those because it is not the Creator is the brain behind every invention and everything that made that's why they bring a newer model that's why they renew it they update it they do all the things that they do we have intelligent people computer people here scientists engineers you get what I'm saying
